Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth supplement those that were made when the order was first issued and when it was amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

List of Subjects in 7 CFR Part 1046

Milk marketing orders, Milk, Dairy products.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the Louisville-Lexington-Evansville marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

PART 1046—MILK IN THE LOUISVILLE-LEXINGTON-EVANSVILLE MARKETING AREA

1. A new paragraph (d) is added to § 1046.32 to read as follows:

§ 1046.32 Other reports.

* * * * *

(d) Each handler described in § 1046.9 (a), (b) and (c) shall report to the market administrator on or before the 8th day after the end of each month of March through June the aggregate quantity of the base milk received from producers during the month, and on or before the 20th day after the end of each month of March through June the pounds of base milk received from each producer during the month.

2. Section 1046.61 is revised to read as follows:

§ 1046.61 Computation of uniform price (including weighted average price and uniform prices for base and excess milk).

(a) The market administrator shall compute the weighted average price for each month and the uniform price for each month of July through February per hundredweight for milk of 3.5 percent butterfat content as follows:

(1) Combine into one total the values computed pursuant to § 1046.60 for all handlers who filed the reports prescribed in § 1046.30 for the month and who made the payments pursuant to § 1046.71 for the preceding month;

(2) Add one-half the unobligated balance in the producer-settlement fund;

(3) Add an amount equal to the total value of the minus location adjustments and subtract an amount equal to the total value of the plus location adjustments computed pursuant to § 1046.75;

(4) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1046.60(f); and

(5) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The resulting figure, rounded to the nearest cent, shall be the weighted average price for each month and the uniform price for the months of July through February.

(b) For each month of March through June, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 3.5 percent butterfat content, as follows:

(1) Compute the total value of excess milk for all handlers included in the computations pursuant to paragraph (a)(1) of this section as follows:

(i) Multiply the hundredweight quantity of excess milk that does not exceed the total quantity of such handlers' producer milk assigned to Class III milk by the Class III price;

(ii) Multiply the remaining hundredweight quantity of excess milk that does not exceed the total quantity of such handlers' producer milk assigned to Class II milk by the Class II price;

(iii) Multiply the remaining hundredweight quantity of excess milk by the Class I price; and

(iv) Add together the resulting amounts;

(2) Divide the total value of excess milk obtained in paragraph (b)(1) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk;

(3) From the amount resulting from the computations pursuant to paragraph (a)(1) through (3) of this section, subtract an amount computed by multiplying the hundredweight of milk specified in paragraph (a)(4)(ii) of this section by the weighted average price;

(4) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b)(2) of this section times the hundredweight of excess milk from the amount computed pursuant to paragraph (b)(3) of this section;

(5) Divide the amount calculated pursuant to paragraph (b)(4) of this section by the total hundredweight of base milk included in these computations; and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (b)(5) of this section. The resulting figure, rounded to the nearest cent, shall be the uniform price for base milk.

§ 1046.62 [Amended]

3. In paragraph (b) § 1046.62, the words "uniform price" are changed to "applicable uniform price(s) pursuant to § 1046.61".

§ 1046.71 [Amended]

4. In paragraph (a)(2)(i) of § 1046.71, the words "uniform price" are changed to "applicable uniform price(s)".

5. In § 1046.73, paragraphs (a), (b), (d) and (e) are revised to read as follows:

§ 1046.73 Payments to producers and to cooperative associations.

* * * * *

(a) On or before the last day of each month for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler, at not less than the Class III price for the preceding month or 90 percent of the weighted average price for the preceding month, whichever is higher. If the producer had no established base upon which to receive payments during the base-paying months of March through June, the applicable rate for making payments to such producer pursuant to this paragraph shall be the Class III price for the preceding month.

(b) On or before the 17th day of the following month, an amount equal to not less than the uniform price(s), as adjusted pursuant to §§ 1046.74 and 1046.75, multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month subject to the following adjustments:

(1) Plus or minus adjustments for errors made in previous payments to such producer;

(2) Minus payments made to such producer pursuant to paragraph (a) of this section;

(3) Minus deductions for marketing services made pursuant to § 1046.86; and

(4) Minus proper deductions authorized by such producer which, in the case of a deduction for hauling, shall be in writing and signed by such producer or, in the case of members of a cooperative association which is marketing the producer's milk, by such association.

* * * * *

(d) In making the payments to producers pursuant to paragraph (b) of this section, each handler shall furnish each producer a supporting statement which shall show the following:

(1) The month and identity of the producer;

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) For the months of March through June the total pounds of base milk received from the producer;

(4) The minimum rate(s) at which payment to the producer is required under the order;

(5) The rate(s) used in making the payment if such rate(s) is other than the applicable minimum rate(s);

(6) The amount or rate per hundredweight and nature of each deduction claimed by the handler; and

(7) The net amount of payment to such producer.

(e) In making payments to a cooperative association pursuant to paragraph (c) of this section, each handler shall report to such cooperative association for each such producer on forms approved by the market administrator as follows:

(1) On or before the 20th day of the month, the total pounds of milk received during the first 15 days of such month;

(2) On or before the 7th day of the following month, the total pounds of milk received each month, together with the butterfat content of such milk and the amount of deductions claimed by such handler; and

(3) On or before the 7th day after the end of each month of March through June, the total pounds of base milk received.

* * * * *

§ 1046.74 [Amended]

6. In § 1046.74, the words "uniform price" are changed to "uniform price(s)".

§ 1046.75 [Amended]

7. In paragraph (a) § 1046.75, the words "uniform price for producer milk" are changed to "uniform price and the uniform price for base milk".

8. A new centerheading and five new sections (§§ 1046.90, 1046.91, 1046.92, 1046.93 and 1046.94) are added after § 1046.86 to read as follows:

Base-Excess Plan

§ 1046.90 Base milk.

"Base milk" means the producer milk of a producer in each month of March through June that is not in excess of the producer's base multiplied by the number of days in the month.

§ 1046.91 Excess milk.

"Excess milk" means the producer milk of a producer in each month of March through June in excess of the producer's base milk for the month, and shall include all the producer milk in such months of a producer who has no base.

§ 1046.92 Computation of base for each producer.

(a) Subject to § 1046.93, the base for each producer shall be an amount obtained by dividing the total pounds of producer milk delivered by such producer during the immediately preceding months of September through December by the number of days' production represented by such producer milk or by 100, whichever is more. If a producer operated more than one farm at the same time, a separate computation of base shall be made for each such farm.

(b) The base for a producer whose milk was delivered to a nonpool plant that became a pool plant after the beginning of the base-forming period (September-December) shall be calculated as if the plant were a pool plant for the entire base-forming period. A base thus assigned shall not be transferable.

§ 1046.93 Base rules.

(a) Except as provided in § 1046.92(b) and in paragraph (b) of this section, a base may be transferred in its entirety or in amounts of not less than 300 pounds effective on the first day of the month following the date on which an application for such transfer is received by the market administrator. Base may be transferred only to a person who is or will be a producer by the end of the month that the transfer is to be effective.

An application for a base transfer shall be on a form approved by the market administrator and signed by the baseholder or the baseholder's heirs and the person or persons to whom the base is to be transferred. If a base is held jointly, the application must be signed by all joint holders or their heirs.

(b) A producer who transferred base on or after February 1 may not receive by transfer additional base that would be applicable during March through June of the same year. A producer who received base by tranfer on or after February 1 may not transfer a portion of the base to be applicable during March through June of the same year, but may transfer the entire base.

(c) The base established by a partnership may be divided between the partners on any basis agreed to in writing by them if written notification of the agreed-upon division of base signed by each partner is received by the market administrator prior to the first day of the month in which such division is to be effective.

(d) Two or more producers in a partnership may combine their separately established bases by giving notice to the market administrator prior to the first day of the month in which such combination of bases is to be effective.

(e) The base assigned a person who was a producer during any of the immediately preceding months of September through December may be increased up to 90 percent of such producer's average daily producer milk deliveries in the month immediately preceding the month during which a condition described in paragraph (e)(1), (2), or (3) of this section occurred, providing such producer submitted to the market administrator in writing on or before March 1 a statement that established to the satisfaction of the market administrator that in the immediately preceding September through December base-forming period the amount of milk produced on such producer's farm was substantially reduced because of conditions beyond the producer's control, which resulted from:

(1) The loss by fire or windstorm of a farm building used in the production of milk of the producer's farm;

(2) Brucellosis, bovine tuberculosis or other infectious diseases in the producer's milking herd as certified by a licensed veterinarian; or

(3) A quarantine by a Federal or State authority that prevents the producer from supplying milk from the farm to a plant.

§ 1046.94 Announcement of established bases.

On or before February 1 of each year, the market administrator shall calculate a base for each person who was a producer during any of the immediately preceding months of September through December and shall notify each producer and the handler receiving milk from such producer of the base established by the producer. In lieu of notifying each individual producer-member of a cooperative association, the market administrator shall notify the cooperative association of each member's base if requested to do so by the cooperative association.

Signed at Washington, D.C., on April 22, 1983.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

BILLING CODE 3410-02-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

Controlled Substances; Buprenorphine

AGENCY: Drug Enforcement Administration, Department of Justice.

ACTION: Notice of hearing on proposed rulemaking.

SUMMARY: This is notice of a hearing with respect to a proposed rulemaking which would remove the substance buprenorphine from Schedule II and place it in Schedule V of the schedules established by the Controlled Substances Act (21 U.S.C. 801 *et seq.*). Notice of the proposed rulemaking was published in the **Federal Register** on September 20, 1982 at 47 FR 41401.

DATES: Interested persons desiring to participate in the hearing must give written notice of such desire as set out below on or before May 31, 1983. The hearing will commence on Tuesday, June 14, 1983 at 10:00 a.m. e.d.t. at the place specified below.

ADDRESS: Notices of desire to participate in the hearing are to be sent to: Hearing Clerk, Office of the Administrative Law Judge, Drug Enforcement Administration, 1405 I Street, N.W., Room 1100, Washington, D.C. 20537.

FOR FURTHER INFORMATION CONTACT: Ms. Melanie Baltz, Hearing Clerk, Drug Enforcement Administration, Washington, D.C. 20537. Telephone (202) 633-1350.

SUPPLEMENTARY INFORMATION: On September 20, 1982 a Notice of Proposed Rulemaking was published in the **Federal Register** (47 FR 41401) giving notice that the Acting Administrator of the Drug Enforcement Administration (DEA) proposed to reschedule the narcotic drug buprenorphine from Schedule II to Schedule V of the Controlled Substances Act (21 U.S.C. 801 *et seq.)* as the result of the receipt of a letter from the Department of Health and Human Services (DHHS) recommending such action. It was pointed out that, if this rescheduling were effected by rule, buprenorphine would be subject to the controls for schedule V substances on its manufacture, distribution, dispensing, security, registration, recordkeeping, inventory, exportation and importation.

Interested persons were invited to submit comments or objections and requests for a hearing if a hearing was considered to be warranted, on or before November 19, 1982.

Comments were received from the Committee on Problems of Drug Dependence and from the American Society of Hospital Pharmacists. The Committee expressed the view that, for scheduling purposes, it would be most equitable to treat buprenorphine identically to nalbuphine and butorphanol. The Society expressed the view that placement of buprenorphine in Schedule V is clearly proper.

Reckitt and Colman, Ltd. responded through counsel, advising that they hold the United States and foreign patents for buprenorphine. They asserted that buprenorphine is not properly subject to any regulatory control under the Controlled Substances Act (the Act) because the substance does not possess sufficient potential for abuse to justify control. They also asserted that buprenorphine is not a "narcotic drug" as defined in the Act. They requested a hearing on the issues:

1. Can or should buprenorphine be subject to regulatory controls under Schedule V of the Act?

2. If subjected to control under the Act, can or should buprenorphine be controlled as a "narcotic drug"?

Reckitt and Colman, Ltd. further advised that they would present factual evidence and expert testimony on those issues at the hearing.

On March 28, 1983, the Acting Deputy Administrator of DEA referred the matter to the agency's Administrative Law Judge, Francis L. Young, to conduct a hearing on the issues raised by Reckitt and Colman and such others as might be raised. The judge was directed to report his findings, conclusions and other

recommendations directly to the Acting Administrator upon conclusion of the proceedings. In addition, the judge was advised that the Food and Drug Administration of DHHS has referred the matter of the scheduling of buprenorphine back to its Drug Abuse Advisory Committee for further Consideration.

Accordingly, notice is hereby given that the hearing in connection with this proposed rescheduling will commence on Tuesday, June 14, 1983 at 10:00 a.m. EDT in Courtroom 3–B, Room 309, United States Claims Court, 717 Madison Place, NW., Washington, D.C. and will continue until all interested persons desiring to participate, who have given notice of such desire as prescribed below, have been heard. The hearing will be conducted pursuant to the provisions of 5 U.S.C. 556 and 557 and 21 CFR 1308.41.

Every interested person desiring to participate in the hearing, including DEA agency counsel, on behalf of the agency staff, shall file a written notice of intention to participate, in duplicate, with the Hearing Clerk, Office of the Administrative Law Judge, Drug Enforcement Administration 1405 I Street, NW., Washington, D.C. 20537, within thirty days after the date of publication of this notice of hearing in the **Federal Register** . Each notice of intention to participate must be in the form prescribed in 21 CFR 1316.48. Reckitt and Colman, Ltd., having filed a request for hearing, need not file a notice of intention to participate.

The proceedings at the first hearing session, on June 14, 1983, will be limited to a preliminary discussion to identify parties and issues and positions, and to determine procedures and set dates and locations for further proceedings.

Dated: April 20, 1983.

Francis M. Mullen, Jr.,

Acting Administrator.

[FR Doc. 83–11181 Filed 4–26–83; 8:45 am]

BILLING CODE 4410–09–M

POSTAL SERVICE

39 CFR Part 265

Freedom of Information Act; Disclosure of Street Addresses of Post Office Boxholders

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service wishes to clarify the circumstances under which the street address of a post office boxholder will be furnished when needed to effect service of legal process. It has been the intent of the Postal Service to release such information to persons empowered by law to serve legal process, but only when a legal action has, in fact, been commenced, often by an appropriate filing with the clerk of court. Our underlying purpose has been to protect the privacy of Postal Service customers who elect to use post office boxes, while not permitting such use to become a means of avoiding or evading the obligation to respond to legal process.

As presently written, however, the pertinent Postal Service regulation does not literally state that disclosure of a street address will be made only after an action has been commenced, and may conceivably be interpreted to mean that disclosure will be made in order to commence an action. The proposed amendment is designed to remedy this situation, and also provides that street address information may be disclosed, when the prerequisite conditions are met, to attorneys (whether or not authorized to serve process) who represent the parties on whose behalf service is to take place, as well as to persons who are actually authorized to serve process.

DATE: Comments must be received on or before May 27, 1983.

ADDRESS: Written comments should be addressed to Jerry Belenker, Law Department, United States Postal Service, 475 L'Enfant Plaza West, S.W., Washington, DC 20260–1113. Copies of all written comments received will be available for public inspection and photocopying in Room 1P–602 at the above address between 9:30 a.m. and 4:00 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Jerry Belenker, (202) 245–4616.

SUPPLEMENTARY INFORMATION: On February 19, 1975, the Postal Service published its existing regulation on the disclosure of boxholder information to persons empowered to serve legal process. 40 FR 7331. The regulation, at 39 CFR 265.6(d)(5)(ii), was one of several provisions designed to balance the privacy rights of Postal Service customers, under the Privacy Act and related provisions of the Postal Reorganization Act, with the legitimate interests of persons seeking information under the Freedom of Information Act. Since publication of the regulation, some concern has been expressed that disclosure of a boxholder's street address, in the absence of documentation that the information is needed in connection with litigation which has actually been commenced, could result in harassment, unwanted commercial solicitation, or other abuses. Although it is recognized that the commencement of litigation could, in some instances, be frustrated by the absence of a street address, it is considered unlikely that there would be numerous instances of this problem. Moreover, a significant proportion of such cases would, presumably, involve prospective litigation with persons who utilize post office boxes for the purpose of doing or soliciting business with the public. The recorded names and addresses of such persons are presently disclosable, as set out in 39 CFR 265.6(d)(4), and it is not proposed to change the latter regulation.

In view of the considerations discussed above, the Postal Service proposes to amend 39 CFR as follows:

List of Subjects in 39 CFR Part 265

Freedom of information, Postal Service.

(39 U.S.C. 401; 5 U.S.C. 552)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

PART 265—RELEASE OF INFORMATION

In § 265.6, revise paragraph (d)(5)(ii) to read as follows:

§ 265.6 Availability of records.

* * * * *

(d) * * *

(5) Except as provided in paragraph (d)(4) of this section above, the name or address of the boxholder or other recorded information about the boxholder will be furnished only to:

* * * * *

(ii) A person empowered by law to serve legal process, or the attorney for the party in whose behalf service will be made, upon receipt of written information that specifically includes: the statute or regulation under which service of legal process is authorized; the name of the case for which the boxholder information is requested, and the court in which it has been commenced; the docket or other identifying number issued by the court; the capacity in which the boxholder is to be served, *e.g.*, defendant or witness; and the specific process to be served, *e.g.*, summons and complaint, subpoena, or other process. By submitting such information, the requester certifies that it is true.

BILLING CODE 7710–12–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[PP 2E2731/P294; PH–FRL 2352–8]

Diflubenzuron; Proposed Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This document proposes that a tolerance be established for residues of the insecticide diflubenzuron in or on the raw agricultural commodity mushrooms. The proposed regulation to establish a maximum permissible level for residues of the insecticide in or on the commodity was requested in a petition submitted by the Interregional Research Project No. 4 (IR–4).

DATE: Comments must be received on or before May 27, 1983.

ADDRESS: Written comments to: Emergency Response and Minor Use Section, Registration Support and Emergency Response Branch, Registration Division (TS–767C), Environmental Protection Agency, Rm. 716B, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Donald Stubbs (703–557–1192) at the above address.

SUPPLEMENTARY INFORMATION: The Interregional Research Project No. 4 (IR–4), New Jersey Argicultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, has submitted pesticide petition 2E2731 to EPA on behalf of the IR–4 Technical Committee and the United States Department of Agriculture.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose the establishment of a tolerance for residues of the insecticide diflubenzuron (*N*-[[(4-chlorophenyl)amino] carbonyl]-2,6-difluorobenzamide) in or on the raw agricultural commodity mushrooms at 0.05 part per million. The petition was later amended to propose a tolerance of 0.2 ppm.

The data submitted in the petition and other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. The toxicological data considered in support of the proposed tolerance included a 13-week dog feeding study with a systemic no-observed-effect level (NOEL) of 160 ppm at the highest dose tested (HDT); a 13-week mouse feeding study with a NOEL of 1.1 mg/kg for sulfhemoglobin and 0.4 mg/kg for methemoglobin; a 3-generation rat reproduction study with a NOEL of 160 ppm (HDT); a mouse reproduction study with a NOEL greater than 50 ppm (HDT); mutagenicity test (Ames) with TA–98, TA–100, and TA–1537 strains of *Salmonella* (up to 1,000 micrograms did not result in mutagenic effects); cytogenic-mouse study with no evidence of mutagenic effect up to 1,500 mg/kg (HDT); *in vitro* mouse-lymphoma cell studies (negative); and rat and rabbit teratology studies with NOEL's greater than 4,000 mg/kg (HDT) for maternal toxicity, fetal toxicity and teratogenic effects. The NOEL for plasma testerone levels in male rats in a 14-day study was 15 mg/kg/day. Higher doses produced transient decreases in plasma testerone.

Oncogenicity studies in two species are currently lacking but considered desirable. The data gaps are presently being filled by industry.

The NOEL of 1.1 mg/kg/day was based on the methemoglobinema and sulfhemoglobinemia studies. A safety factor of 100 was applied to the NOEL resulting in an acceptable daily intake (ADI) of 0.011 mg/kg of body weight (bw)/day. The maximum permissible intake (MPI) for a 60-kg human is calculated to be 0.66 mg/day. The theoretical maximum residue contribution (TMRC) from existing tolerances for a 1.5-kg daily diet is calculated to be 0.035 mg/day; the current action will increase the TMRC by 0.00009 mg/day (0.26 percent). Published tolerances utilize 5.31 percent of the ADI; the current action will utilize an additional 0.014 percent.

The nature of the residues is adequately understood and an adequate analytical method, gas chromatography with electron capture detector, is available for enforcement purposes. Since mushrooms are not normally considered as an animal feed, there is no expectation of finite residues in meat, milk, poultry or eggs. There are presently no actions pending against the continued registration of this chemical.

Based on the above information considered by the Agency, the tolerance established by amending 40 CFR 180.377 would protect the public health. It is proposed, therefore, that the tolerance be established as set forth below.

Any person who has registered or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, which contains any of the ingredients listed herein, may request within 30 days after publication of this notice in the Federal Register that this rulemaking proposal be referred to an Advisory Committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. Comments must bear a notation indicating the document control number, (PP 2E2731/P294). All written comments filed in response to this petition will be available in the Emergency Response and Minor Use Section, Registration Division, at the address given above from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

(Sec. 408(e), 68 Stat. 514 (21 U.S.C 346a(e)))

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests.

Dated: April 18, 1983.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

PART 180—[AMENDED]

Therefore, it is proposed that 40 CFR 180.377 be amended by adding and alphabetically inserting the raw agricultural commodity mushrooms to read as follows:

§ 180.377 Diflubenzuron; tolerances for residues.

* * * * *

Commodities	Parts per million
* * * * *	
Mushrooms 0.2 ppm	
* * * * *

Dodine; Proposed Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This document proposes that a tolerance be established for residues of the fungicide dodine in or on the raw agricultural commodity spinach. The proposed regulation to establish a maximum permissible level for residues of the fungicide in or on the commodity was requested in a petition submitted by the Interregional Research Project No. 4 (IR-4).

DATE: Comments must be received on or before May 27, 1983.

ADDRESS: Written comments to: Emergency Response and Minor Use Section, Registration Support and Emergency Response Branch, Registration Division (TS-767C), Environmental Protection Agency, Rm. 716B, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Donald Stubbs (703-557-1192) at the above address.

SUPPLEMENTARY INFORMATION: The Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903 has submitted pesticide petition 4E1474 to EPA on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of Arkansas, Tennessee, and Texas.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose the establishment of a tolerance for residues of the fungicide dodine (*n*-dodecylguanidine acetate) in or on the raw agricultural commodity spinach at 2 parts per million (ppm). The petition was later amended to propose a tolerance of 12 ppm.

The data submitted in the petition and other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. The toxicological data considered in support of the proposed tolerance included a 2-year chronic rat feeding study with a NOEL 200 ppm (10 mg/kg; a 1-year dog feeding study with a NOEL of 50 ppm (1.25 mg/kg); and a mouse multi-generation reproduction study with a NOEL of 400 ppm (60 mg/kg). Studies considered desirable but lacking include a mouse oncogenicity study, teratology studies using two species, mutagenicity studies, and a rat metabolism study.

The acceptable daily intake (ADI), based on a NOEL of 1.25 mg/kg/day (1-year dog feeding study) and using a 100-fold safety factor, is calculated to be 0.0125 mg/kg of body weight (bw)/day. The maximum permitted intake (MPI) for a 60-kg human is calculated to be 0.75 mg/day. The theoretical maximum residue contribution (TMRC) from existing tolerances for a 1.5-kg daily diet is calculated to be 0.2981 mg/day; the current action will increase the TMRC by 0.0092 mg/day (0.31 percent). Published tolerances utilize 39.75 percent of the ADI; the current action will utilize an additional 1.2 percent.

The nature of the residues is adequately understood and an adequate analytical method, gas chromatography, is available for enforcement purposes. Since this commodity is not normally considered as an animal feed, there is no expectation of finite residues in meat, milk, poultry or eggs. There are presently no actions pending against the continued registration of this chemical.

Based on the above information considered by the Agency the tolerance established by amending 40 CFR 180.172 would protect the public health. It is proposed, therefore, that the tolerance be established as set forth below.

Any person who has registered or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, which contains any of the ingredients listed herein, may request within 30 days after publication of this notice in the **Federal Register** that this rulemaking proposal be referred to an Advisory Committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. Comments must bear a notation indicating the document control number, [PP 4E1474/P293]. All written comments filed in response to this petition will be available in the Emergency Response and Minor Use Section, Registration Division, at the address given above from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 34a(e)))

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests.

Dated: April 18, 1983.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

PART 180—[AMENDED]

Therefore, it is proposed that 40 CFR 180.172 be revised to read as follows:

§ 180.172 Dodine; tolerances for residues.

Tolerances are established for residues of the fungicide dodine (*n*-dodecylguanidine acetate) in or on the following raw agricultural commodities.

Commodities	Parts per million
Apples	5.0
Cherries, sour	5.0
Cherries, sweet	5.0
Meat	0
Milk	0
Peaches	5.0
Pears	5.0
Pecans	0.3
Spinach	12.0
Strawberries	5.0
Walnuts, black	0.3

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Parts 3000 and 3100

Proposed Oil and Gas Lease Form Revision

AGENCY: Bureau of Land Management, Interior.

ACTION: Publication of Proposed Oil and Gas Lease Form.

SUMMARY: On July 23, 1982, the Bureau of Land Management proposed and published in the **Federal Register** (47 FR 32048) a multipurpose oil and gas lease form that would have replaced a number of existing forms. Also proposed was a set of standard stipulations which would have applied to all new oil and gas leases. As a result of comments received and further consideration by the Bureau, the multipurpose oil and gas lease form

has been revised and is herein reproposed. Also, a decision has been made that the proposed set of standard stipulations will not be adopted. The Bureau will instead propose a rulemaking at a later date which will define its use of lease stipulations.

DATE: Comments on the revised multipurpose oil and gas lease form should be submitted by May 27, 1983. Comments received or postmarked after the above date may not be considered in the final decisionmaking process.

ADDRESS: Comments should be submitted to: Director (530), Bureau of Land Management, 1800 C Street NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Karl F. Duscher or Jeffrey F. Zabler, (202) 343–7753 or (202) 343–7722.

SUPPLEMENTARY INFORMATION: This notice requests comments on a proposed new oil and gas lease form. The proposed lease form differs substantially from that proposed on July 23, 1982. The changes made were prompted by both the few public comments received and the Bureau's own internal review. The new lease form is significantly shorter and simplified while, at the same time, expanded in scope to include oil and gas leasing in the National Petroleum Reserve—Alaska.

The form, as written, can be printed on letter-size paper, a new requirement of the Judicical Conference of the United States for records to be filed with Federal courts. However, a three inch tearoff will appear at the bottom of the form and contain the instructions for completion of the form.

Comments are invited on all aspects of the new lease form. However, attention is directed to section 6 which the Bureau believes clarifies to all parties the government's role with respect to post-lease operations. This section also will eliminate the need for the Bureau to attach certain stipulations to leases. This is done by incorporating the requirements of these stipulations, including the standard cultural resource stipulations and those contained on Form 3109–5. Section 6 specifically requires that lessees contact the responsible government office prior to disturbing the surface of leased lands. At that time, the lessee will be provided a copy of the formal operating orders under which all operations must be conducted. The lessee will also be informed of any lease-specific environmental concerns that need to be considered. Section 6 also specifies that the lessee may be required to complete certain inventories or special studies, prior to conducting operations, under guidelines provided by the government. An example of such guidelines are those presently given in some States to lessees who contract archaeologists to inventory cultural resources prior to operations.

The proposed form and instructions for completion follow:

BILLING CODE 4310–84–M

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

Serial No.

OFFER TO LEASE AND LEASE FOR OIL AND GAS

The undersigned (see reverse) offers to lease all or any of the lands in item 2 that are available for lease, pursuant to, as appropriate, the Mineral Leasing Act of 1920 (30 U.S.C. 181 et seq.), the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351-359), or the Interior Appropriations Act, F.Y. 1981 (42 U.S.C. 6508)

Read Instructions Before Completing

1 Name

Street

City, State, Zip

This offer/lease is for: (Check Only One) ☐ PUBLIC DOMAIN LANDS OR ☐ ACQUIRED LANDS

2 Give legal description of land requested:

T. R. Meridian State County

U.S. interest if less than 100 percent

Total acres applied for

Amount remitted: Filing fee $ Rental $ Total $

Surface managing agency if other than BLM Unit/Project

DO NOT WRITE BELOW THIS LINE

3 Land included in lease:

T. R. Meridian State County

U.S. interest if less than 100 percent

Total acres in lease

Rental retained $

In accordance with the above offer, or the previously submitted simultaneous oil and gas entry form or competitive bid if appropriate, this lease is issued granting the exclusive right to drill for, mine, extract, remove and dispose of all the oil and gas (except helium in the contiguous 48 states) in the lands described in item 3 together with the right to build and maintain necessary improvements thereupon for the period indicated below, subject to renewal or extension in accordance with the authorizing Acts. Rights granted are subject to applicable laws, the terms, conditions and attached stipulations of this lease, regulations and formal orders in effect as of lease issuance and, when not inconsistent with the terms and conditions of this lease, regulations and formal orders hereafter promulgated.

Type and primary term of lease

☐ Simultaneous noncompetitive lease (ten years)

☐ Regular noncompetitive lease (ten years)

☐ Competitive lease (five years)

☐ Other

EFFECTIVE DATE OF LEASE

4. (a) Undersigned certifies as follows:
   (1) Offeror is a citizen of the United States; an association of such citizens; a municipality; a corporation organized under the laws of the United States or of any State or Territory thereof.
   (2) All parties holding an interest in the offer are in compliance with 43 CFR 3100 and the authorizing Acts.
   (3) Offeror's chargeable interests, direct and indirect, do not exceed 200,000 acres in oil and gas options or 246,080 acres in options and leases in the same State, or 300,000 acres in leases and 200,000 acres in options in each leasing District in Alaska.
   (4) Offeror is not considered a minor under the laws of the State in which the lands covered by this offer are located.

   (b) Undersigned agrees that offeror's signature to this offer constitutes acceptance of this lease, including all terms, conditions and stipulations pertaining thereto, and any amendment or separate lease that may cover any land described in this offer open to lease application at the time this offer was filed but omitted for any reason from this lease. The offeror further agrees that this offer cannot be withdrawn, either in whole or part, unless the withdrawal is received by the BLM State Office before this lease, an amendment to this lease, or a separate lease, whichever covers the land described in the withdrawal, has been signed on behalf of the United States.

This offer will be rejected and will afford the offeror no priority if it is not properly completed and executed or if it is not accompanied by the required payments. 18 U.S.C. Sec. 1001 makes it a crime for any person knowingly and willfully to make to any Department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

Duly executed this _____ day of _____ 19 ____.

_____
(Signature of Lessee or Attorney-in-fact)

LEASE TERMS

Sec 1 Rentals—Rentals shall be paid to the proper office of the lessor in advance of each lease year until there is production from the leased lands. Rental rates per acre or fraction thereof are:

(a) Simultaneous noncompetitive lease, $1.00 for the first 5 years, thereafter, $3.00;

(b) Regular noncompetitive lease, $1.00;

(c) Competitive lease, $2.00, or if the lands are within the National Petroleum Reserve in Alaska, $3.00;

(d) If all or part of the land in a noncompetitive lease is later determined to be within a known geological structure or a favorable petroleum geological province, the annual rental shall become $2.00, beginning with the lease year following notice of such determination. However, a lease that would otherwise be subject to rental of more than $2.00 shall continue to be subject to that rental;

(e) If this lease or a portion thereof is committed to an approved cooperative or unit plan which includes a well(s) capable of producing leased resources, and the plan contains a provision for allocation of production, royalties shall be paid on the production allocated to this lease. However, annual rentals shall continue to be due at the rate specified in (a), (b), or (c) for those lands not allocated production.

Failure to pay annual rental on or before the anniversary date of this lease (or next official working day if office is closed) shall automatically terminate this lease by operation of law. Rentals may be suspended by the Secretary upon a sufficient showing by lessee.

Sec. 2. Royalties—Royalties shall be paid to the proper office of the lessor. Royalty rates are:

(a) Noncompetitive lease, 12 1/2 percent; or

(b) Competitive, renewal, or future interest lease, see attachment

Royalties for undivided fractional interest leases shall be paid in the same proportion as the leased fractional interest is to the full interest in the resource.

Lessor reserves the right to specify whether royalty is to be paid in value or in kind, and the right to establish minimum values on production after giving lessee notice and an opportunity to be heard. When paid in value, royalties shall be due and payable on the last day of the month following the month in which production occurred. When paid in kind, production shall be delivered, unless otherwise agreed to by lessor, in merchantable condition on the premises where produced without cost to lessor. Lessee shall not be required to hold such production in storage beyond the last day of the month following the month in which production occurred, nor shall lessee be held liable for loss or destruction of royalty oil or other products in storage from causes beyond the reasonable control of lessee.

A minimum royalty shall be due for any lease year following discovery in which royalty payments aggregate less than the annual rental that would otherwise have been due. In such cases, lessee shall pay the difference at the end of the lease year. This minimum royalty may be waived, suspended, or reduced, and the above royalty rates may be reduced, for all or portions of this lease if the Secretary determines that such action is necessary to encourage the greatest ultimate recovery of the leased resources, or is otherwise justified.

Sec. 3. Bonds—Lessee shall file and maintain any bond required under regulations.

Sec. 4. Diligence, rate of development, unitization, and drainage—Lessee shall exercise reasonable diligence in developing and producing, and shall prevent unnecessary damage to, loss of, or waste of leased resources. Lessor reserves the right to specify rates of development and production in the public interest and to require lessee to subscribe to such cooperative or unit plan, within thirty days of notice, as is determined necessary for the proper development and operation of the area, field, or pool embracing these leased lands. In all cases, lessee shall either drill and produce wells necessary to protect the leased lands from drainage or pay compensatory royalty for such drainage in the amount determined by lessor.

Sec. 5. Documents, evidence, and inspection—Lessee shall file with the proper office of lessor, not later than thirty (30) days after the effective date thereof, any contract or evidence of other arrangement for the sale or disposal of production. At such times and in such form as lessor may prescribe, lessee shall furnish detailed statements showing amounts and quality of all products removed and sold from the lease, proceeds therefrom, and amount used for production purposes or unavoidably lost. Lessee also may be required to provide plats and schematic diagrams showing development work and improvements on the leased lands, and reports with respect to stockholders, investments, depreciation costs, and Federal lease interests.

Lessee shall keep a daily drilling record, a log, and complete information on all well surveys and tests in the form prescribed by lessor for all wells drilled on the leased lands. Lessee also shall keep a record of all subsurface investigations of said lands and furnish copies to lessor when required. Lessee shall keep open at all reasonable times for the inspection of any duly authorized officer of lessor, the leased premises and all wells, improvements, machinery, and fixtures thereon, and all books, accounts, maps, and records relative to operations, surveys, or investigations on or under the leased lands.

Information obtained under this term shall be open to inspection by the public only in accordance with the Freedom of Information Act (5 U.S.C. 552).

Sec. 6. Conduct operations—Lessee shall conduct operations in a manner that prevents unnecessary impacts and minimizes other impacts to the land, air, and water, to cultural, biological, visual, and other resources, and to other land uses or users. Lessee shall take measures deemed necessary by lessor to accomplish the intent of this lease term. Such measures may include, but are not limited to, modification to siting or design of facilities, timing of operations, and specification of interim and final reclamation measures. Lessor reserves the right to continue existing uses and to authorize future uses upon or in the leased lands, including the approval of easements or rights of ways. Such uses shall be conditioned so as to prevent unnecessary or unreasonable interference with rights of lessee.

Prior to disturbing the surface of the leased lands, lessee shall contact lessor to be apprised of procedures to be followed and modifications or reclamation measures that may be necessary. Areas to be disturbed may require inventories or special studies to determine the extent of impacts to other resources. Lessee may be required to complete such under guidelines provided by lessor. If, in the conduct of operations, threatened or endangered species, or cultural resources, or other specific resources that are statutorily protected, or substantially different or unanticipated environmental affects are observed, lessee shall immediately cease impacting operations and contact lessor.

Sec. 7. Use of mining techniques—To the extent that impacts from mining techniques would be substantially different or greater than those associated with normal drilling techniques, lessor reserves the right to further stipulate this lease at the time operations are proposed.

Sec. 8. Damages to property—Lessee shall pay lessor for damage to lessor's property, improvements, and shall save and hold lessor harmless from all claims for damage or harm to persons or property as a result of lease operations.

Sec. 9. Protection of diverse interests, and equal opportunity—Lessee shall, pay when due all taxes legally assessed and levied under laws of the State or the United States, accord all employees complete freedom of purchase, pay all wages at least twice each month in lawful money of the United States; maintain a safe working environment in accordance with standard industry practices, and take measures necessary to protect the health and safety of the public. Lessor reserves the right to ensure that production is sold at reasonable prices and to prevent monopoly.

Lessee shall comply with the provisions of Executive Order No. 11246 of September 24, 1965, as amended, and the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant thereto. Neither lessee nor lessee's subcontractors shall maintain segregated facilities.

Sec. 10. Transfer of lease interests, and relinquishment of lease—Lessee shall file for approval or recording in the proper office of lessor any instrument transferring a record title, or working or royalty interest in this lease, and shall not create overriding royalties in excess of that allowed by regulations.

The lessee may relinquish this lease or any legal subdivision by filing in the proper BLM office a written relinquishment, which shall be effective as of the date of filing, subject to the continued obligation of the lessee and surety to pay all accrued rentals and royalties.

Sec. 11. Delivery of premises—At such time as all or portions of this lease are returned to lessor, lessee shall place all wells in condition for suspension or abandonment and, within a reasonable period of time, remove equipment and improvements not deemed necessary by lessor for preservation of producible wells or continued protection of the environment.

Sec. 12. Proceedings in case of default—If lessee fails to comply with applicable laws, existing orders or regulations, or the terms, conditions or stipulations of this lease, and the noncompliance continues for 30 days after written notice thereof, this lease shall be subject to cancellation. However, if this lease includes land known to contain valuable deposits of leased resources, it may be cancelled only by judicial proceedings. This provision shall not be construed to prevent the exercise by lessor of any other legal and equitable remedy, including waiver of the default. Any such remedy or waiver shall not prevent later cancellation for the same default occurring at any other time.

Sec. 13. Heirs and successors-in-interest—Each obligation of this lease shall extend to and be binding upon, and every benefit hereof shall inure to, the heirs, executors, administrators, successors, or assigns of the respective parties hereto.

BILLING CODE 4310-84-C

Instructions

A. General:

1. This offer must be typed or printed plainly in ink, signed in ink, and dated.

2. An original and four copies of this offer must be prepared and filed in the proper BLM State office. See regulations at 43 CFR 8121.2–1 for office locations.

3. If more space is needed, additional sheets must be initiated and attached to each copy of the form submitted.

B. Special (numbers correspond to offer form):

Item 1—Enter offeror's name and address. Proper BLM State office must be notified, in writing, of change of address. Identify the mineral status. (Public Domain or Acquired). Only one may be checked. The same application may not include both Public Domain and Acquired lands.

Item 2—Description: The description of land must conform to the provisions of 43 CFR 3111. Show total area of land requested in acres in space provided at bottom of Item 2. Area must not exceed 10,240 acres. If the United States does not own a 100 percent interest in the deposits in any particular tract, indicate the percentage of Federal ownership.

Payments: The amount remitted shall include the filing fee and the first year's rental at the rate of $1 per acre or fraction thereof. The full rental based on the total acreage applied for shall accompany an offer even if the mineral interest of the United States is less than 100 percent. The filing fee is retained as a service charge even if the offer is completely rejected or withdrawn. In order to protect the offeror's priority it is important that the rental submitted with the offer be sufficient to cover all the land requested. If the land requested includes lots or irregular quarter-quarter sections the exact area of which is not known to the offeror, rental should be submitted on the basis of each such lot or quarter-quarter section containing 40 acres, or on the computed acreage included with a metes and bounds description. If the offer is withdrawn in whole or in part before a lease issues, or if the offer is rejected in whole or in part, the rental remitted for the parts withdrawn or rejected will be returned.

Surface Management Agency: Indicate the agency controlling the surface use of the land and the unit or project of which the land is a part. Offeror may also, if practicable, provide other information that will assist in establishing title for acquired minerals.

Item 3—This space will be completed by the United States. When the lease is issued, this space will contain the identification of the leased area, total acres, United States interest if less than 100 percent, and effective date of lease.

Item 4(b)(1)—The stipulations referred to are those contained in the simultaneous noncompetitive or competitive lease announcement. Any additional stipulations for those type leases and stipulations for regular noncompetitive leases will be forwarded to offeror for signature prior to lease issuance.

Robert F. Burford,

Director.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 25

[CC Docket No. 83-370; RM-39731; FCC 83-137]

Amendment of the Commission's Rules With Respect to the Procurement of Apparatus, Equipment, and Services Required for the Establishment and Operation of the Communications Satellite System and Satellite Terminal Stations

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission adopted a Notice of Proposed Rulemaking that proposed to amend §§ 25.151(a) and 25.176(c) of the Commission's Rules. This action is taken to raise the minimum dollar level of procurements subject to the communications satellite procurement regulations from $25,000 to $100,000.

DATES: Comments are due by May 25, 1983 and replies by June 9, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Lon Levin, Common Carrier Bureau, (202) 632–6363.

List of Subjects in 47 CFR Part 25

Comsat, Procurement, Satellite system.

Notice of Proposed Rulemaking

In the matter of amendment of part 25 of Commission's Rules and Regulations with respect to the procurement of apparatus, equipment, and services required for the establishment and operation of the communications satellite system and satellite terminal stations; (CC Docket No. 83–370, RM 39731).

Adopted: April 7, 1983.
Released: April 18, 1983.

By the Commission: Commissioner Fogarty absent.

1. On August 21, 1981, the Communications Satellite Corporation (Comsat) filed a Petition for Rulemaking requesting the Commission to amend Part 25 of its Rules and Regulations to raise the minimum dollar level of procurements subject to the communications satellite procurement regulations from $25,000 to $100,000. This petition was placed on public notice on September 21, 1981. No opposition or comments to the petition were filed. Comsat filed supplemental information on March 8, 1982 and January 28, 1983.

2. Part 25 of the Commission's Rules in part establishes uniform policies and procedures applicable to procurements of $25,000 or more by Comsat for apparatus, equipment, and services required for establishment and operation of the communications satellite system and satellite terminal stations. We propose in this Notice of Proposed Rulemaking (NPRM) to amend §§ 25.151(a) and 25.176(c), 47 CFR §§ 25.151(a), 25.176(c), of the Commission's Rules to increase from $25,000 to $100,000 the present dollar value of contracts subject to the procurement regulations of Part 25.

Background

3. Sections 25.151(a) and 25.176(c) of the Commission's Rules were adopted on January 8, 1964 in Docket No. 15123, *Amendment of Part 25 of the Commission's Rules and Regulations (Communications Satellite Procurement)*, 1 RR 2d 1611 (1964). In this rulemaking proceeding, the Commission established the rules pertaining to Comsat's procurement practices. The rulemaking was done in accordance with Section 102(c) of the Communications Satellite Act of 1962, which sates that "maximum competition be maintained in the provision of equipment and services utilized by the system." 47 U.S.C. 701(c). To this end, section 201(c)(1) requires the Commission "to insure effective competition" in Comsat's procuring of equipment, apparatus, and services. 47 U.S.C. 721(c)(1). As noted in the 1964 *Communications Satellite Procurement* order the Commission's regulatory objective was not to "participate in the selection of contractors" but rather "to establish a framework of procurement procedures which will afford all concerns, including small businesses, an equitable opportunity to share in the procurement requirements of the communications satellite system and satellite terminal stations, and to prevent an unfair competitive advantage accruing to any manufacturing interest who may participate in the ownership of the Corporation." 1 RR 2d at 1612–13.

4. To achieve these goals, the Commission established a procurement notification procedure in Part 25, under which Comsat must notify the Commission upon selecting a prime

contractor.[1] 47 CFR 25.162. Comsat may award the proposed contract at any time subsequent to 10 days after the date of filing notification unless within such period either; (a) Comsat voluntarily extends the period; (b) the Commission notifies Comsat that the notice is defective or the Commission finds that it cannot, without further investigation, determine whether its procurement rules have been complied with. In the latter case, the Commission may issue a public notice inviting comments on the proposed award. 47 CFR 25.166. The contract may be awarded unless within thirty days after issuance of the public notice the Commission finds that the procurement rules have not been complied with and so notifies Comsat. 47 CFR 25.166(b).

5. The Commission, however, was concerned that the procurement regulations would cause potential suppliers, especially small businesses, to find that conducting business with Comsat was unattractive. Therefore, a $25,000 cut-off amount, under which the procurement regulations do not apply, was included in the rules to relieve smaller transactions from the paperwork and procedures of Part 25. 47 CFR 25.151(a). As the Commission stated in 1964, the choice of $25,000 was a "matter of judgment."[2] The amount has remained the same for eighteen years.

Petition and Proposal

6. In its Petition for Rulemaking, Comsat states that the present dollar amount of $25,000 for contracts subject to the Commission's Rules is too low and requests and the amount be raised to $100,000. Comsat asserts that inflation and the development of the satellite system have made the $25,000 cut-off amount obsolete. It avers that the present figure makes far too many transactions subject to an undue burden of paperwork and procedures which are not commensurate with the value of the procurements. Comsat states that the new amount would reduce the cost to the ratepayers of procurement of both radio equipment and services. According to Comsat, the in-house costs associated with the preparation and issuing of the Requests for Proposals (RFP), Requests for Quotes (RFQ), or Invitations for Bid (IFB), as well as the costs incurred in review of the proposals and in negotiations of contracts, could be substantially reduced if the cut-off figure under the procurement regulations was increased to $100,000. Comsat asserts that raising the procurement cut-off figure will facilitate achieving equipment uniformity. Comsat indicates that improved uniformity will lead to significant advantages, including reducing spare inventories, easing the operation, maintenance, and training of personnel, and standardizing the documentation for all earth station equipment. These factors would, in addition to reducing the personpower necessary for routine procurement, result in greater cost benefits to the corporation and to ratepayers.

7. Comsat also requests that the dollar limit established for contracts subject to the Commission's rules be tied to the Producer Price Index for Machinery and Equipment. Comsat suggests that the cut-off figure be adjusted annually based on the changes in this index. Comsat avers that this would allow the benefits derived from the original adjustment to be maintained in the face of continuing inflation without the need to have a new rulemaking to raise the procurement level every year. Comsat believes that the Producer Price Index for Machinery and Equipment is an appropriate index in view of the many different types of equipment and services purchased by Comsat for the space segment and earth stations. Additionally, Comsat states that for the purposes of administering the automatic escalation factor, Comsat could file with the Commission on an annual basis a statement as to what the revised cut-off figure would be for the future year on the basis of changes in the Producer Price Index for Machinery and Equipment. This annual report would facilitate the administration and implementation of the automatically adjusted monetary limit for small procurement.

Discussion

8. Our intention in creating Part 25 of the Commission's Rules was to assure that all concerns, including small businesses, would have an opportunity to participate in the satellite telecommunications field. To that end, we decided that the $25,000 level enabled us to monitor effectively Comsat's procurement practices without hindering small business participation in the communications satellite field. Upon review, we tentatively conclude that raising the dollar level to at least reflect inflation over the past eighteen years is consistent with our original goal and is in the public interest.

9. Comsat requests that the cut-off figure be raised to $100,000. This amount more than adequately reflects the rise of inflation over the 1964-1982 period. According to three different indices, the $100,000 figure is above the amount that would reflect the equivalent buying power today of $25,000 in 1964 dollars. Twenty five thousand dollars in 1964 dollars today is equivalent to $71,193 based upon the GNP Price Deflator, $75,085 based upon the Producer Price Index for Machinery and Equipment, and $77,799 based upon the Consumer Price Index.

10. We tentatively conclude, however, that the public interest would be served by establishing a cut-off amount of $100,00. The Commission's choice of the $25,000 cut-off figure was a "matter of judgment" because in 1964 it lacked experience in regulating the new area of satellite telecommunications. Since 1964, the international telecommunications satellite system has grown in size and complexity and many countries have created domestic and regional systems. The development of these systems has resulted in a significant demand for equipment, much of which is available "off-the-shelf." This demand has created a ready market for earth station equipment in which many buyers and sellers exist. As a result, we believe that the Commission's mandate "to insure effective competition" can be accomplished through increased reliance on marketplace forces.

11. A cut-off amount of $100,000 appears to be reasonable under these circumstances. It would reduce the Commission's administrative burden in reviewing Comsat procurement by one-half while still assuring Commission review of Comsat procurements representing over 90% of its total annual contract dollars.[3] In addition, it would permit Comsat to procure equipment from firms that may not otherwise have the resources to engage in the paperwork and procedures that are involved in competitive procurement.

12. We question whether we should incorporate into the rule a price index that would adjust the dollar level annually. We believe that a rule that sets dollar limits to determine the applicablity of a Commission regulatory program should be under Commission control and not subject to some external factor over which the Commission has

[1] Contractor selection is done by either formal advertising, two-step procurement, or negotiation. The process employed depends on the nature of the apparatus, equipment or service to be procured. *See* 47 CFR 25.171–74.

[2] For guidance, the FCC analyzed the procurement transactions involved in AT&T's Telestar project. 1 RR 2d at 1616–17.

[3] In 1980, the contracts over $100,000 reporsented 97 percent of the total dollar amount of contracts. In 1982, it was 96 9 percent.

Letter from William K. Coulter to William J. Tricarico (January 28, 1983) in reference to RM 3173-Amendment of Part 25 of the Commission's Rules and Regulations.

no control. A fixed figure can always be revised if necessary through rulemaking procedures. However, we will not reject Comsat's indexing proposal at this time, but will consider further comments before making a final determination.

13. Accordingly, consistent with our objective to periodically review and update our regulations, we propose to amend §§ 25.151(a) and 25.176(c) of the Commission's Rules, as follows:

Section 25.151. Scope, Purpose and Application of this subpart.

The provisions of this subpart govern the administration of Section 201(c)(1) of the Communications Satellite Act of 1962 * * *. This subpart establishes uniform policies and procedures applicable to all procurements except where:

(a) The value of the procurement is less than *$100,00*, except as provide in § 25.176 (c).

Additionally the language of § 25.176(c) should be amended to read:

(c) In addition to complying with the requirements applicable to procurements of *$100,000*, or more, all parties making procurements shall cooperate with the Small Business Administration to the extent feasible even if the value of the procurement is less than *$100,000*, for the purpose of insuring that small business has an equitable opportunity to participate in all procurements.

Procedure Schedule

14. For purposes of this non-restricted informal rulemaking proceeding, members of the public are advised that *ex parte* contracts are permittted from the time of issuance of a notice of proposed rulemaking until the time a draft order proposing a substantive disposition of such proceeding is placed on the Commission's Sunshine Agenda. In general, an *ex parte* presentation is any written or oral communication (other than formal written comments or pleadings and oral arguments) between a person outside the Commission, and a Commissioner or a member of the Commission's staff that addresses the merits of the proceedings. Any person who submits a written *ex parte* presentation must serve a copy of that presentation on the Commission's Secretary for inclusion in the public file. Any person who makes an oral *ex parte* presentation addressing matters not fully covered in any written comments previously filed in the proceeding must prepare a written summary of that presentation. On the day of oral presentation, that written summary must be served on the Commission's Secretary for inclusion in the public file, with a copy to the Commission official receiving the oral presentation. Each *ex parte* presentation discussed above must state on its face that the Secretary has been served, and must also state by docket number the proceeding to which it relates. See generally, Section 1.1231 of the Commission's Rules, 47 CFR 1.1231.

15. Accordingly, it is ordered, that, pursuant to Sections 4(i), 4(j), 201–205, 214, 215, 218, 220, 303, 309, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 154(j), 201–205, 214, 218, 220, 303, 309, 403 (1976), Sections 102(c), 201(c), and 401 of the Communications Satellite Act of 1962, as amended, 47 U.S.C. 701(c), 721(c), 741 (1976), and Section 553(b) of the Administrative Procedure Act, 5 U.S.C. 553(b) (1970), a Notice of Proposed Rulemaking on the captioned matter is instituted.

16. It is further ordered, THAT, interested parties may file comments on matters raised herein on or before May 25, 1983 and reply comments on or before June 9, 1983.

17. It is further ordered, THAT, is accordance with the provisions of § 1.419 of the Commission's Rules and Regulations, all participants in the proceeding ordered herein shall file with the Commission an original and five (5) copies of all comments and reply comments. In reaching its decision, the Commission may take into consideration information and ideas not contained in the comments, provided that such information or a writing indicating the nature and source of such information is placed in the public file, and provided that the fact of the Commission's reliance on such information is noted in the Report and Order. Copies of comments and reply comments filed in this proceeding shall be available for public inspection during regular business hours in the Commission's reference room at its headquarters at 1919 M Street NW., Washington, D.C.

18. Pursuant to Section 605(b) of the Regulatory Flexibility Act (Pub. L. 96–354) it is certified, that Sections 603 and 604 of the Act do not apply because this rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. See 5 U.S.C. 603, 604, 605(b). As stated above, the rule charge is in large part an adjustment for inflation and does not alter the intent of the original rule.

19. It is further ordered, that the Secretary shall cause a copy of this NPRM tok be published in the **Federal Register** and shall mail a copy of the NPRM to the Chief for Advocacy of the Small Business Administration.

(Secs. 1, 2, 4, 201–205, 208, 215, 21*, 313, 314, 403, 404, 410, 602; 48 Stat as amended; 1064, 1066, 1070, 1071, 1072, 1073, 1076, 1077, 1087, 1094, 1098, 1102; 47 U.S.C. 151, 152, 154, 201–205, 208, 215, 218, 313, 314, 403, 404, 410, 602)

Federal Communications Commission.

William J. Tricarico,

Secretary.

PART 25—[AMENDED]

Accordingly, 47 CFR Part 25 would be amended to read as set forth below.

Section 25.151 is amended by revising paragraph (a) and (c) to read as follows:

§ 25.151 Scope, purpose and application of this subpart.

(a) The value of the procurement is less than *$100,000*, except as provided in $25.176(c).

* * * * *

§ 25.176 Small business.

* * * * *

(c) In addition to complying with the requirements applicable to procurements of *$100,000*, or more, all parties making procurements shall cooperate with the Small Business Administration to the extent feasible even if the value of the procurement is less than *$100,000*, for the purpose of insuring that small business has an equitable opportunity to participate in all procurements.

BILLING CODE 6712–01–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 650

Atlantic Sea Scallop Fishery; Public Hearing

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearing on inseason meat-count change.

SUMMARY: NOAA issues this notice that the Regional Director of the Northeast Region of the National Marine Fisheries Service will hold a public hearing together with the New England Fishery Management Council (Council), concurrent with the Council's May meeting. The hearing will be held to consider the Director's recommendation that the sea scallop meat count and shell height standards be adjusted from a 30 meat count per pound (3½ inch shell height) to a 35 meat count per pound (3⅜ inch shell height), effective as soon as possible after May 15, 1983, through December 31, 1983. Adjustment of the standard would eliminate potential inconsistencies in management

measures imposed on Canadian and U.S. sea scallop fishermen that would adversely affect the U.S. domestic fishery. Notice of this hearing is required under the Magnuson Fishery Conservation and Management Act.

DATE: The public hearing will be held on May 12, 1983, beginning at 9:30 a.m. Written comments will be accepted through May 12, 1983, at the address given below.

ADDRESS: The hearing will be held at the Skipper Motor Inn in Fairhaven, Massachusetts. Written comments may be submitted to the Regional Director, Northeast Region, National Marine Fisheries Service, State Fish Pier, Gloucester, Massachusetts 01930. Mark the envelope "Scallop Management Comments."

FOR FURTHER INFORMATION CONTACT: Bruce Nicholls (Scallop Management Coordinator), National Marine Fisheries Service, State Fish Pier, Gloucester, Massachusetts 01930. Telephone 617–281–3600.

SUPPLEMENTARY INFORMATION: Public hearings by fishery management councils to allow all interested persons an opportunity to be heard in the development of, and amendments to, fishery management plans are mandated under Section 302 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.)* The regulations (50 CFR 650.22) implementing the Fishery Management Plan for Atlantic Sea Scallops (FMP) (47 FR 35990, August 18, 1982) also require the Regional Director to review the status of the Atlantic sea scallop resource on a continuing basis.

In addition, the Director must prepare a report annually concerning the status of the fishery and possible changes in the resource, fishery, or industry which might require adjustment of the management program. Such a report was prepared and reviewed at a public hearing held in conjunction with the Council's February 1983, meeting. That report recommended that no changes be made in the meat count and shell height standards which are established by the FMP and implementing regulations. The report recognized, however, that when the management standards automatically change from the present 40 meat count per pound (3¼ inch shell height) to a 30 meat count per pound (3½ inch shell height) on May 15, 1983, inconsistencies may develop between the meat count and shell height measures imposed on Canadian and U.S. fishermen.

Following presentation of the report, Canadian fisheries officials advised the Regional Director that social and economic considerations will make it impossible for the Canadian Department of Fisheries and Oceans to modify its management program to assure that management measures imposed on the Canadian sea scallop fishermen would be consistent with the 30 meat count standard applying to U.S. sea scallop fishermen. The Canadian officials suggested instead that they would be able to alter their present standard of a 40 meat count per pound to a 35 meat count per pound standard.

The FMP regulations at 50 CFR 650.22 (c)(4) include a provision for adjustment of U.S. management standards if inconsistencies exist in the management measures applied to sea scallop stocks in areas harvested by both domestic and foreign fishermen, and those inconsistencies provide foreign fishermen with an advantage over domestic fishermen which can be demonstrated to affect the domestic fishery adversely. The Regional Director believes that in the absence of an adjustment of the U.S. management standard from a 30 to a 35 meat count, the domestic fishery would be adversely affected because of the harvest by non-U.S. fishermen of sublegal scallops. The share of the resource harvestable by domestic fishermen would thus be subject to decline, creating a distinct economic advantage for foreign fishermen.

The Regional Director recommends that the management standard be adjusted to permit the harvest of sea scallops at a 35 meat count per pound (3⅜ inch shell height) standard as soon as possible after May 15, 1983 through December 31, 1983. Thereafter, the standard will revert to the 30 meat count (3½ inch shell height) level which would otherwise apply. The Regional Director will continue his efforts to ensure that consistent measures are equally imposed on U.S. sea scallop landings and Canadian sea scallop imports thereafter.

The Regional Director will present his recommendation with supporting analysis at the public hearing. He will solicit and consider any recommendation of the Council concerning his recommendation. The public hearing will also provide an opportunity for all interested persons to comment on the recommendation. Following the hearing, a final determination will be made, and an implementing rule will, if required, be published in the **Federal Register.**

(16 U.S.C. 1801 *et seq.*).

Dated: April 22, 1983.

Carmen J. Blondin,

Acting Deputy Assistant Administrator for Fisheries Resource Management, National Marine Fisheries Service.

Notices

Federal Register
Vol. 48, No. 82
Wednesday, April 27, 1983

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Forms Under Review by Office of Management and Budget

April 22, 1983.

The Department of Agriculture has submitted to OMB for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. This list is grouped into new proposals, revisions extensions, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) An indication of whether section 3504(h) of Pub. L. 96–511 applies; (9) Name and telephone number of the agency contact person.

Comments and questions about the items in the listing should be directed to the agency person named at the end of each entry. If you anticipate commenting on a form but find that preparation time will prevent you from submitting comments promptly, you should advise the agency person of your intent as early as possible.

Copies of the proposed forms and supporting documents may be obtained from: Marshall L. Dantzler, Acting Department Clearance Officer, (202) 447–6201.

Revised

- Statistical Reporting Service
  Farm Production Expenditure Survey
  Annually
  Farms: 40,400 responses; 13,928 hours; not applicable under 3504(h)

DEPARTMENT OF COMMERCE

International Trade Administration

Final Affirmative Countervailing Duty Determinations on Stainless Steel Sheet, Strip, and Plate From the United Kingdom

AGENCY: International Trade Administration, Commerce.

ACTION: Final affirmative countervailing duty determinatons.

SUMMARY: We have determined that certain benefits which constitute subsidies within the meaning of the countervailing duty law are being provided to manufacturers, producers, or exporters in the United Kingdom of statinless steel sheet, strip, and plate as described in the "Scope of Investigations" section of this notice. We have found that one company received *de minimis* benefits, and have, therefore, excluded it from these determinations. The estimated net subsidy for each firm is indicated in the "Suspension of Liquidation" section of this notice. The U.S. International Trade Commission (ITC) will determine within 45 days of the publication of this notice whether these imports are materially injuring, or threatening to materially injure, a U.S. industry.

EFFECTIVE DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Vincent P. Kane, Office of Investigations, Import Administraton, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 377–5414.

SUPPLEMENTARY INFORMATION:

Final Determinations

Based upon our investigations, we have determined that certain benefits that constitute subsidies within the meaning of section 701 of the Tariff Act of 1930, as amended (the Act), are being provided to manufacturers, producers, or exporters in the United Kingdom of stainless steel sheet, strip, and plate as described in the "Scope of Investigations" section of this notice. For purposes of these investigations, the following programs are found to confer subsidies:

- Public dividend capital and new capital.
- National Loans Fund loans and loan conversions.
- Regional development grants.
- Iron and Steel Industry Training Board grants.

The net subsidy is indicated for each firm in the "Suspension of Liquidation" section of this notice.

Case History

On October 7, 1982, we received a petition from Allegheny Ludlum Steel Corporation; Armco, Inc.; Carpenter Technology Corporation; Colt Industries, Inc., of the Crucible Materials Group; Eastern Stainless Steel Company; Electralloy Corporation; Guterl Special Steel Corporation; Jessop Steel Company; Jones and Laughlin Steel Incorporated; Republic Steel Corporation; Universal Cyclops Specialty Steel Division of the Cyclops Corporation; Washington Steel Corporation; and the United Steelworkers of America, filed on behalf of the U.S. industry of manufacturers of

stainless steel sheet, strip, and plate. The petition alleged that certain benefits which constitute subsidies within the meaning of section 701 of the Act are being provided, directly or indirectly, to the manufacturers, producers, or exporters in the United Kingdom of the stainless steel products listed above.

We found the petition to contain sufficient grounds upon which to initiate countervailing duty investigations, and on November 2, 1982, we initiated such investigations (47 FR 49692).

Since the United Kingdom is a "country under the Agreement" within the meaning of section 701(b) of the Act, injury determinations were required for these investigations. Therefore, we notified the ITC of our initiations. On November 22, 1982, the ITC determined that there is a reasonable indication that these imports are materially injuring, or threatening to materially injure, a U.S. industry.

We presented questionnaires concerning the allegations to the Delegation of the Commission of the European Communities and the government of the United Kingdom on November 9, 1982. Questionnaires were also presented to British Steel Corporation and Arthur Lee and Sons, Ltd. On December 30, 1982, we received the responses to the questionnaires. Supplemental responses were received on January 10, 1983. On February 10, 1983, we issued our preliminary determinations in these investigations (48 FR 6146). These stated that the government of the United Kingdom was providing British manufacturers, producers, or exporters of stainless steel sheet, strip, and plate with benefits that constitute subsidies. The programs preliminarily found to confer subsidies were:

- Public dividend capital and new capital.
- National Loans Fund loans and loan conversions.
- Regional development grants.
- Iron and Steel Industry Training Board grants.

Scope of Investigations

The products covered by these investigations are:

- Stainless steel sheet and stainless steel strip.
- Stainless steel plate.

The products are fully described in the appendix to this **Federal Register** notice.

British Steel Corporation (BSC or the Corporation) is the only known producer and/or exporter in the United Kingdom of stainless steel sheet and plate exported to the United States. Arthur Lee and Sons, Ltd., is the only known producer and/or exporter in the United Kingdom of stainless steel strip exported to the United States. The period for which we are measuring subsidization is the most recent fiscal year for which information is available.

Analysis of Programs

In their responses, the government of the United Kingdom and the Delegation of the Commission of the European Communities provided data for the applicable periods. Additionally, we received information from BSC and Arthur Lee and Sons, Ltd.

Unless otherwise noted, we allocated each company's countervailable benefits as follows:

- Where untied benefits were provided to a company, they were allocated over the revenue of that company; and
- Where benefits were provided directly to a specific corporate division producing products under investigation, they were allocated over the revenue of that division.

Based upon our analysis of the petitions, responses to our questionnaires, our verification, and comments from interested parties, we determine the following:

I. Programs Determined To Confer Subsidies

We have determined that subsidies are being provided to manufacturers, producers or exporters in the United Kingdom of stainless steel sheet, strip, and plate under the programs listed below.

A Equity Investment in BSC

BSC was established by an Act of Parliament on March 22, 1967, under the provisions of the Iron and Steel Act of 1967. The 1967 Act combined 14 steel companies, creating the nationalized British Steel Corporation. The British government reimbursed stockholders of record at the time the companies were merged and absorbed the substantial debts of the individual companies. The bulk of the debt was converted to government equity under the provisions of the Iron and Steel Act of 1969, which also authorized government payments to BSC.

Authority for the government to make payments to BSC was renewed in the Iron and Steel Act of 1975. Section 18(1) of this Act provided that "the Secretary of State may, with the approval of the Treasury, pay to the British Steel Corporation such sums as he thinks fit." In nine of the fifteen years of its existence, the Corporation has received such payments, known as public dividend capital (PDC) or new capital (NC), from the government. In 1972 and 1981, parliament directed that portions of its capital investment be credited to accumulated revenue deficit. Neither of these transactions altered the potentially countervailable benefit of the original public dividend capital or new capital infusions.

Two additional equity investments were made in 1972 and in 1981, when certain government loans were converted into equity. These investments are considered in the following section titled "National Loans Fund".

Our treatment of government equity investment in a company hinges essentially on the soundness of the investment. If the government investment was reasonably sound at the time it was made, we do not consider it a subsidy. If, on the contrary, the investment appears to have been unsound, a subsidy may exist. Government investment confers a subsidy only when it is on terms inconsistent with commercial considerations.

An equity subsidy potentially arises when the government makes equity infusions into a company which is sustaining deep or significant continuing losses and for which there does not appear to be any reasonable indication of a rapid recovery.

For the purpose of determining whether BSC represented a sound investment at the time each equity investment was made by the U.K. government, we primarily considered BSC's cash flow from operations, including interest, but excluding government grants. Our analysis also included BSC's operating results and computations of BSC's current ratio (current assets divided by current liabilities). On the basis of these tests, we considered investment in BSC to be inconsistent with commercial considerations from fiscal year 1977/78 through 1981/82.

Since we have determined that BSC was not a sound investment from April 1977 through March 1982, we examined the government's equity infusions during this period to determine whether they bestowed a subsidy. To the extent in any year that the government realized a rate of return on its equity investment in BSC which was less than the average rate of return on equity investment for the country as a whole (thus including returns on both successful and unsuccessful investments), its equity infusion is considered to confer a subsidy. We multiplied the "rate of return shortfall" (the difference between the company's rate of return on equity

and the national average rate of return on equity) by the original equity infusion (less any loss coverage to which the equity funds were applied) to yield the annual subsidy amount. Under no circumstances did we countervail in any year an amount greater than what we would have countervailed had we treated the government's equity infusion as an outright grant.

The average rate of return on equity investment in the United Kingdom was estimated by the average earnings yield on U.K. industrial shares. BSC's return was measured by its net earnings (or losses) divided by owner's equity. During this period, BSC's losses were large, resulting in substantial negative returns on owner's equity.

Comparing the average return with BSC's large negative return yielded an amount exceeding the amount we would have calculated had we treated the public dividend capital or new capital payments as outright grants rather than as equity. Consequently, we have limited the subsidy to the 1981/82 amount that would result if the equity investments were treated as grants.

We allocated that part of the equity infusion used for loss coverage in a given year exclusively to that year rather than over a longer period of time. The remainder of the subsidy was allocated using the grant methodology. As explained below under the section on "Regional Development Grants", the grant methodology consisted of allocating the present value of grants over a period of years. We have allocated equity infusions used for loss coverage to the year of receipt rather than over time in order to reflect the nature of the liabilities giving rise to the loss. These liabilities are generally the basic costs of operations (*e.g.*, wages, materials, certain overhead expenses)—items generally expensed in the year incurred.

After calculating the magnitude of BSC's losses, we allocated to loss coverage only those equity infusions which were truly cash inflows into the company and were actually available to cover losses.

For 1981/82, we calculated a subisdy of 6.13 percent *ad valorem* for PDC and NC payments for loss coverage in that year. For PDC and NC payments in excess of loss coverage in each of the fiscal years 1977/78 through 1981/82, we found, using the equity methodology, a subsidy of 9.75 percent *ad valorem* for fiscal year 1981/82. Thus, the total subsidy received by BSC in fiscal year 1981/82 resulting from PDC and NC payments was 15.88 percent *ad valorem*.

B National Loans Fund

The National Loans Fund (NLF) is a depository of money raised through government borrowings. Lending from the NLF is not generally available, but is limited to nationalized British companies. Therefore, British Independent Steel Producer Association members (BISPA producers), including Arthur Lee and Sons, Ltd., do not qualify for NLF loans. BSC was expressly authorized to borrow from the NLF's predecessor fund (the Consolidated Fund) by the Iron and Steel Act of 1967, and from the NLF by the Iron and Steel Act of 1975.

BSC received substantial loans from the NLF. If these loans had remained outstanding in fiscal year 1981/82, then we would have applied the methodology for loans to companies considered creditworthy for loans received prior to fiscal 1977/78 and the methodology for loans to companies considered uncreditworthy for loans received in fiscal 1977/78. BSC received no NLF loans after fiscal 1977/78. Prior to 1977/78 the subsidy would have been computed by comparing what BSC would pay a normal commercial lender in principal and interest in a given year with what the corporation actually paid on the preferential NLF loan in that year. In 1977/78 the subsidy would have been computed by treating the loan as an equity infusion by the government and by applying the equity methodology described above. However, all outstanding loans from the NLF were forgiven: L 150 million in 1971/72, and L 509 million in 1981/82. We treated each forgiveness as an additional equity investment.

Since the first forgiveness occurred during the period in which we consider equity infusions to be consistent with commerical considerations, it did not confer a subsidy. The second forgiveness, however, was made during the period in which we consider equity infusions to have been inconsistent with commercial considerations, and potentially conferred a subsidy. We examined the rate of return on the second equity infusion and compared it to the national average rate of return on equity. Since the UK government realized a rate of return on its equity investment in BSC which was less than the average rate of return on equity investment for the country as a whole (thus including returns on both successful and unsuccessful investments), we determined that a subsidy was in fact conferred.

However, comparing the average return on equity in the United Kingdom during the period with BSC's large negative return yielded an amount exceeding the amount we would have calculated had we treated the equity infusion as an outright grant. Consequently, we limit the subsidy calculation for the period 1981/82 to the amount that would result if the equity investment were treated as a grant. Upon this basis, we calculated a subsidy for BSC of 2.21 percent *ad valorem*.

We note that our loss coverage allocation methodology does not apply to the 1981/82 conversion since there was no infusion of cash at that time.

C. Regional Development Grants

The Industry Act of 1972 established a regional development grant (RDG) incentive program with the goal of eliminating certain social problems in specified regions of the United Kingdom. RDG's are not made generally available in the United Kingdom, but rather are available only to designated manufacturing sectors (e.g., metals manufacture) which are located in "special development" and "development" regions. Since this program is regional in nature, we find that it confers subsidies within the meaning of section 771(5) of the Act. Both BSC and Arthur Lee and Sons, Ltd., had plants located in development regions and received RDG's.

The Secretary of State for Industry, with the approval of the Treasury, is authorized to determine the activities that qualify for grants and the conditions of each grant. The grants are made toward the cost of capital expenditures on new buildings or works in development areas, the adaptation of existing buildings on qualifying premises in development areas, and new machinery and plants for use in qualifying premises in development areas. The grants pay for a fixed percentage of the cost for specific capital assets, depending on the type of region for which they are designated. The amount of a grant in a "development" area is 15 percent, and in a "special development" area 22 percent, of the capital asset cost. Grants are provided only after the asset has been purchased or the expenditure on it incurred. We find these grants to be "tied" to (*i.e.*, bestowed expressly to purchase) specific capital assets.

In each case, the individual grants were for less than $50 million. To calculate the benefit received from the grants considered in these investigations, we allocated the present value of grants "tied" to the purchase of capital equipment over the number of years reflecting the average useful life of equipment used by the sector which

produces the products under investigation. A grant is considered tied where the intended use is known to the donor, and where such use is acknowledged prior to, or concurrently with, its bestowal. The regional development grants found in these investigations have been tied to capital investment in plant and equipment, and have been allocated over a 15-year period representing the average life of capital assets in integrated steel mills.

Under our grant methodology, we determine the present value of grants in order to calculate the current value of the benefit to the grant recipient. The calculation of the present value of funds received is a mechanism for allocating money received in one year to other years and is calculated using a discount rate. For these determinations, we determine that the most appropriate discount rate is the "risk-free" rate as indicated by the secondary market rate for long-term government debt in the country under investigation. The foundation of a country's interest rate structure is usually its government's debt interest rate (the risk-free rate). On this basis we calculated a subsidy of 1.21 percent *ad valorem* for RDG's received by BSC and 0.16 percent *ad valorem* for RDG's received by Arthur Lee and Sons, Ltd.

We note that for our preliminary determinations, we applied the entire amount of RDG's reported in the Arthur Lee and Sons, Ltd., annual report to sales of stainless steel strip by Lee Steel Strip. During verification we found that RDG's received by Arthur Lee and Sons, Ltd., were tied to specific production facilities. We identified those grants received by Arthur Lee and Sons, Ltd., that were tied to plant and equipment used in the production of stainless steel strip. For this final determination we have included only the Arthur Lee and Sons, Ltd., RDG's tied to stainless steel strip production in our calculation of the subsidy rate.

D. The Iron and Steel Industry Training Board

There are 24 private industry training boards in the U.K. The Iron and Steel Industry Training Board (ISITB), established under the Industrial Training Act of 1964, sponsors various training programs aimed at maintaining the nation's pool of skills required by the iron and steel industry and increasing employee job versatility in the event that present employment is terminated. The Board receives annual levies of up to one percent of payroll from iron and steel producers and makes grants to those companies conducting training programs. In 1981/82, however, approximately 80 percent of the funds received by the Board were contributed by the UK government. The amount of levy contributed by each producer is determined by the government's Manpower Service Commission. The grants normally are insufficient to cover the costs incurred by the companies providing the training. BSC received several training grants under this program.

Since training grants during 1981/82 were funded largely from government contributions rather than solely from levies contributed by producers, we find the grants to be countervailable. Because the grants were less than 1 percent of revenue and were expensed in the year of receipt, we considered only the grants received in 1981/82. Using this methodology, we calculated a subsidy of 0.01 percent *ad valorem* for BSC.

E. Investment in BSC Stainless

Petitioners alleged that BSC was receiving subsidies specifically for the production of stainless steel products. In fact, on March 28, 1974, the BSC Board, with the concurrence of the U.K. government, did approve a BSC stainless steel development strategy at a cost of about L 130 million from fiscal years 1974/1975 through 1980/1981. No formal agreement to the strategy was required from the U.K. government because none of the individual project costs exceeded L 50 million. The funds were used to expand cold-rolling finishing, stainless melting and continuous casting facilities, to improve plate finishing facilities, and to develop a new process for the manufacture of stainless strip.

Investment in BSC stainless was not a separate investment program but part of BSC's overall 10-year capital development strategy. The stainless steel development was partially financed with loans from the ECSC, regional development grants, and the balance from public dividend capital and new capital payments or National Loans Fund monies. However, investment for these projects came from the amounts received by BSC under the above-mentioned programs. Therefore, this investment in BSC stainless is already included in the subsidy calculations for the programs described elsewhere in this notice. Additionally, there is no evidence the PDC/NC and NLF loans were tied to BSC stainless production, except for a corporate strategy to emphasize increased development of stainless production. Except where it is otherwise indicated, we have allocated benefits over total corporate revenue rather than over stainless steel revenue.

II. Programs Determined Not To Confer Subsidies

We have determined that subsidies are not being provided to manufacturers, producers, or exporters in the United Kingdom of stainless steel sheet, strip, and plate under the following programs.

A. Industrial Investment Loans from the European Coal and Steel Community

Article 54 of the Treaty of Paris authorizes the European Coal and Steel Community (ECSC) to provide loans to steel companies in member countries for reducing production costs, increasing production, or facilitating product marketing. Loans provided under this program are funded exclusively from ECSC borrowings on world capital markets. Because of its quasi-governmental nature, the ECSC can raise funds at interest rates lower than those available on commercial terms to BSC. When the ECSC relends these borrowed funds to BSC without increasing the interest rate, any difference between the owner interest rate passed on and the rate otherwise available to BSC in the commerical financial market is a benefit to BSC. For this reason, we determine that ECSC loans raised through capital market funding are countervailable insofar as they offer interest rates which would not be available on commercial terms to BSC. Consequently, any loan to BSC involving ECSC funds borrowed on international capital markets, provided under any ECSC assistance program, confers countervailable benefits to the extent that the loan is made at a preferential interest rate.

BSC has received three ECSC industrial development loans directly related to plants at which the products under investigation were manufactured. All three ECSC loans which are tied directly to production of products under investigation were made to BSC during its creditworthy period. Each of these loans was denominated in U.S. dollars. For purposes of determining whether these ECSC loans resulted in a subsidy to BSC, we compared the interest rate on ECSC loans which ranged from 5 to 20 years to an average U.S. corporate bond rate. The bonds were chosen as being the most typical source of long-term debt for private British firms borrowing in U.S. dollars. The interest rates charged to BSC on the ECSC loans exceeded the average U.S. corporate bond rates. Therefore, we determine that these ECSC loans do not result in a subsidy.

B. Transportation Assistance

During verification we found that neither BSC nor Arthur Lee and Sons, Ltd., used British Rail, the totally government owned rail company, for shipments of finished stainless steel products. BSC did use British Rail for shipments of scrap used as input for stainless steel sheet and plate. To the best of our knowledge, no other producer shipped scrap by rail. For this reason, it was not possible to compare rail rates paid by BSC with rates paid by other companies for the shipment of scrap. We were able to ascertain, however, that BSC paid rail rates on scrap shipments that were equal to or in excess of the rates paid for road haulage of scrap. BSC has access to and used road haulage at rates below those paid on shipments by rail. Since British Steel did not appear to receive preferential rates, we determine that BSC's shipment of scrap by rail did not result in the payment or bestowal of a subsidy.

III. Program Determined Not To Be Used

Loans From the European Investment Bank

The European Investment Bank (EIB) was created by the Treaty of Rome establishing the EEC to fund projects that serve regional needs in Europe. Article 130 of the Treaty of Rome authorizes the EIB to make loans and guarantee financial projects in all sectors of the economy. These projects provide funds to further the development of low income regions. Funds are drawn from debt instruments floated on world capital markets and from investment earnings. Because EIB loans are designed to serve regional needs, we have in past investigations found them to be countervailable when the interest rate was less than the rate which would have been commercially available.

From October 1973 through December 1977, BSC received 18 EIB loans. EIB loans were tied exclusively to the production of products other than those currently under investigation. Consequently, EIB loans have not resulted in the bestowal of a subsidy on the production or exportations of BSC's stainless steel sheet, strip and plate.

Arthur Lee, and Sons, Ltd., did not receive EIB loans.

Petitioner's Comments

Comment 1

Petitioners contend that BSC was uncreditworthy in fiscal year 1971/72 and in all the years that followed. They cite the transfer of PDC and NLF funds to general reserve in 1971/72 as an indication that BSC was uncreditworthy at that time. They feel that, in subsequent years, any profits would have been eliminated had BSC been required to make interest payments on NLF debt transferred to general reserve.

DOC Position

We disagree. As described in the "Equity Investment in BSC" section, we found BSC to be a sound investment through fiscal year 1976/77, based on BSC's operating results, cash flow from operations, and current ratio in each of the years during this period. We considered the transfer of NLF debt to reserves as not inconsistent with commercial considerations, in view of the fact that BSC's capital structure at the time of its formation was composed primarily of debt rather than equity.

Comment 2

Petitioners assert that the proper benchmark interest rate for ECSC loans received by BSC in U.S. dollars should not be the U.S. corporate bond rate but a rate which reflects both U.S. monetary conditions and the creditworthiness of the foreign borrower. Petitioners recommend that we use as a benchmark the U.S. Government bond yield plus the difference between the U.K. corporate bond yield and the U.K. government bond yield. They state that the former "can be used as a proxy for the U.S. monetary conditions component" while the latter "can be used as a proxy for the U.K. industrial creditworthiness component."

DOC Position

We disagree. The ECSC loans in question were in fact made in U.S. dollars. We believe that the U.S. corporate bond rate is a more realistic measure of the freely available interest rate on U.S. dollar financing than a rate which is constructed in the manner proposed by petitioners.

Comment 3

Petitioners claim that our preliminary determination that BSC did not receive a rail subsidy was in error, since we had earlier found a rail subsidy in the countervailing duty investigation on certain carbon steel products from the U.K.

DOC Position

We disagree. Because our final determination of a rail subsidy in our investigation of certain steel products from the U.K. was based solely on British Rail's failure to make contracts available to us, we determined preliminarily in this investigation that no rail subsidy was conferred, pending verification of this point. During verification we were unable to compare rail rates paid by BSC to those paid by other companies, because, to the best of our knowledge, only BSC used British Rail, and BSC used it only for shipment of scrap, not for shipment of the finished product. Comparing the rail rate paid by BSC on these scrap shipments with road haulage rates for scrap we found that BSC was paying rail rates that were equal to and that exceeded the road rates. We, therefore; concluded that BSC's shipment of scrap by rail did not result in the bestowal of a subsidy.

Respondent's Comments

Comment 1

BSC contends that certain funds provided by the government which it used to close redundant production facilities or to purchase assets that are now idle because of plant closure are not countervailable because such money did not benefit the manufacture, production or export of stainless steel.

DOC Position

We disagree. We have determined that Public Dividend Capital received by BSC from 1977/78 to 1981/82 was equity capital provided to BSC's steel manufacturing divisions, and that these equity investments were made on terms inconsistent with commercial considerations because BSC was not a sound investment at that time. As a result, we have concluded that these equity infusions confer subsidies under section 771(5)(B)(i).

In reaching our conclusion regarding whether investments were made on terms inconsistent with commercial considerations, we examined objective financial characteristics of the firm's steel manufacturing divisions at the time these investments were made. The subsequent uses to which these funds were applied were not relevant. Therefore, once we had concluded that the capital investments in a steel enterprise were made on noncommercial terms, issues as to whether the expenditure of these funds was arguably not associated with the manufacture, production, or export of stainless steel but rather was made toward curtailing productive capacity, are beyond the scope of our inquiry.

Moreover, subsidies used to close redundant facilities or to purchase idled assets clearly constitute countervailable benefits under the statutory definition of "subsidy." Section 771(5)(B) of the Act defines "subsidy" to include various types of benefits "paid or bestowed directly or indirectly on the

manufacture, production, or export of any class or kind of merchandise." Clearly, redundancy funds and plant closures make the recipient more efficient and relieve it of significant financial burdens. Thus, such funds are unquestionably indirect, if not direct, benefits to BSC's manufacture, production, or export of steel and consequently are countervailable. We note, for example, that costs associated with plant closures have recently resulted in a common business expense borne by many steel companies in various countries, including the U.S. and the U.K. Therefore, these are costs associated with manufacturing and producing the products under investigation.

Comment 2

BSC contends that we should not, as a matter of policy, countervail against subsidies used to restructure the British steel industry because restructuring eliminates excess capacity, which in turn alleviates a form of trade distortion, and is therefore consistent with the goals of our conuntevailing duty law and the GATT Subsidies Code. To countervail against such subsidies would remove all incentive to restructure and would be contrary to the purposes of law and the Code.

DOC Position

We disagree with BSC's interpretation of the countervailing duty law and the Code. Our statutory obligations are carefully defined and mandatory in nature. Whenever it is determined that subsidized imports are injuring the domestic industry that manufactures or produces a like product, we are *required* by domestic law, and authorized by the Code, to impose appropriate countervailing duties, provided, of course, that all relevant procedural requirements are satisfied.

As discussed in the preceding comment, we have determined that certain Public Dividend Capital is an equity investment provided on terms inconsistent with commercial considerations, and is therefore countervailable, regardless of whether some of the funds received from these capital infusions were used for restructuring or to purchase assets now idle as a result of restructuring. Therefore, we must countervail against these benefits.

Although Article 11 of Part II of the Code does provide, among other things, that a signatory's right to provide domestic subsidies for purposes of restructuring are not precluded by the Code, it does not exempt such subsidies from countervailing duties. Therefore, regardless of whether restructuring subsidies serve to alleviate other trade distortions, countervailing against such benefits is wholly consistent with the Code and our statute.

Comment 3

BSC contends that subsidies used to restructure its productive capacity are analogous to corporate restructuring under Chapter 11 of our Bankruptcy Act. As such, they are consistent with normal commercial considerations and should not be considered subsidies.

DOC Position

Chapter 11 of the Bankruptcy Act is a specific statute, with general applicability, which provides certain legal protections to financially troubled debtors and their creditors. BSC has furnished no information indicating that it is subject to any proceedings analogous to those under Chapter 11, or that its restructuring remotely resembles normal reorganization procedure in Britian. Absent such information, BSC's contentions are entirely speculative.

Comment 4

Counsel for BSC argues that we should allocate subsidies used to close plants to the year in which such costs were incurred. Respondent claims that such allocation would be in accordance with both generally accepted accounting principles and our allocation of loss coverage subsidies (where cash inflows are actually available to cover losses) to the year in which the losses were incurred.

Response

The subsidies at issue here were large amounts of money provided by the government as part of a broad plan of modernization, including closing old facilities and building new ones. Indeed, steel companies routinely close old facilities and build new ones. In such a case, we do not agree that the monies for closing facilities should be allocated exclusively to the year in which those costs were incurred rather than over time. We believe that the benefits conferred through the modernization plan, including subsidization of plant closures and building new facilities, are more likely to continue beyond that single year. A longer allocation is therefore more appropriate.

We agree that generally accepted accounting principles in many countries allow a company to expense plant closure costs in the year incurred. However, the Department is not invariably required to allocate subsidies in accordance with such principles, and thus ignore the economic reality of the entire modernization program.

We do not agree that our allocation over more than one year of plant closure costs is necessarily inconsistent with our allocation in one year of some loss coverage subsidies. Relief from losses is less likely to benefit a company over a longer period of time. Even if it were, we believe that loss coverage subsidies, unlike plant closure costs, may be allocated to a single year without creating a serious loophole in the countervailing duty law By contrast, where a company is closing plants but also building more modern, efficient facilities, the benefit of the modernization program clearly extends for a number of years. If we were to allocate plant closure subsidies solely to one year, a company could allocate government funds exclusively for the plant closing costs of its modernization plan, and use other available assets (*e.g.*, cash flow) to build new facilities. If we accepted respondent's position, the subsidized company would perhaps face significant countervailing duties in one year, but possibly none in successive years when the new facilities were in operation. Such a result would fail to reflect the manner in which the subsidy benefits were realized.

Moreover, we note that insofar as costs for plant closures contributed to a company's cash-based losses, we are already generally allocating subsidies to the extent of loss coverage to the year in which losses were incurred. In these investigations, BSC subsidies to the extent of cash-based losses of L 211 million were allocated exclusively to the period for which we are measuring subsidies. In that same period, BSC expended L 156 million for closing plants. The latter expense clearly contributed to the former loss.

For these reasons the Department has allocated subsidies for plant closure—in these investigations, about L 679 million for the period 1977/78 through 1981/82—over a longer period of time (in this investigation, 15 years, the average estimated life of assets in integrated steel mills).

Verification

In accordance with section 776(a) of the Act, we verified the data used in making our final determinations. During this verification, we followed normal procedures including inspection of documents and on-site inspection of manufacturers' operations and records.

Administrative Procedures

The Department has afforded interested parties an opportunity to

present oral views in accordance with its regulations (19 CFR 355.35). Interested parties, however, did not request a public hearing but did submit written views, which were considered in accordance with the Department's regulations (19 CFR 355.31(a)).

The suspension of liquidation ordered in our "Preliminary Affirmative Countervailing Duty Determinations" shall remain in effect until further notice for stainless steel sheet, strip and plate except with respect to stainless steel strip produced by Arthur Lee and Sons, Ltd., which is excluded from these determinations. The net subsidy for each firm and product is now as follows:

Manufacturer/producer/exporter	Ad volorem rate
British Steel Corporation:	
Stainless steel sheet	19.31
Stainless steel strip	19.31
Stainless steel plate	19.31
All other producers, manufacturers and exporters of stainless steel sheet, strip and plate	19.31

We are directing the United States Customs Service to require a cash deposit or bond in the amount indicated above for each entry of the subject merchandise entered on or after the date of publication of this notice in the **Federal Register**. Where the manufacturer is not the exporter, and the manufacturer is known, the rate for that manufacturer shall be used in determining the amount of cash deposit or bond. If the manufacturer is unknown, the rate for all other manufacturers/producers/exporters shall be used.

ITC Notifications

In accordance with section 705(d) of the Act, we will notify the ITC of our determinations. In addition, we are making available to the ITC all non-privileged and non-confidential information relating to these investigations. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy (for Policy) to the Deputy Assistant Secretary for Import Administration. The ITC will determine within 45 days of the publication of this notice whether these imports are materially injuring, or threatening to materially injure, a U.S. industry. If the ITC determines that material injury, or threat of material injury, does not exist, this proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. If, however, the ITC determines that such injury does exist, within 7 days of notification by the ITC of that determination, we will issue a countervailing duty order, directing Customs officers to assess countervailing duties on certain stainless steel products from the United Kingdom entered, or withdrawn from warehouse, for consumption after the suspension of liquidation, equal to the net subsidy determined or estimated to exist as a result of the annual review process prescribed by section 751 of the Act. The provisions of section 707(a) of the Act will apply to the first directive for assessment.

This notice is published pursuant to section 705(d) of the Act and § 355.33 of the Department of Commerce Regulations (19 CFR 355.33).

Lawrence J. Brady,

Assistant Secretary for Trade Administration.

April 20, 1983

Appendix—Description of Products

For purposes of these investigations:

(1) The term "Stainless steel sheet, and strip" covers hot or cold-rolled stainless steel sheet or strip products, excluding hot or cold-rolled stainless steel strip not over 0.01 inch in thickness, as currently provided for it items 607.7610, 607.9010, 607.9020, 608.4300, and 608.5700 of the *Tariff Schedules of the United States Annotated (TSUSA)*.

Hot-rolled stainless steel sheet covers hot-rolled stainless steel sheet whether or not corrugated or crimped and whether or not pickled; not cold-rolled; not cut, not pressed, and not stamped to non-rectangular shape; not coated or plated with metal; and under 0.1875 inch in thickness and over 12 inches in width.

Hot-rolled stainless steel strip is a flat-rolled stainless steel product, whether or not corrugated or crimped, and whether or not pickled; not cold-rolled; not cut, not pressed, and not stamped to non-rectangular shape; and under 0.1875 inch in thickness and not over 12 inches in width. Hot-rolled stainless steel strip, including razor blade strip, not over 0.01 inch in thickness is not included.

Cold-rolled stainless steel sheet covers cold-rolled stainless steel sheet products whether or not corrugated or crimped and whether or not pickled; not cut, not pressed and not stamped to non-rectangular shape; not coated or plated with metal; and under 0.1875 inch in thickness and over 12 inches in width.

Cold-rolled stainless steel strip is a flat-rolled stainless steel product, whether or not corrugated or crimped, and whether or not pickled; not cut, not pressed, and not stamped to non-retangular shape; and under 0.1875 inch in thickness and over 0.50 inch but not over 12 inches inches in width. Cold-rolled stainless steel strip, includig razor blade strip, not over 0.01 inch in thichness is not included.

(2) The term *"Stainless steel plate"* covers stainless steel plate products as provided for in items 607.7605 and 607.9005 of the TSUSA. Stainless steel plate is a flat-rolled product, whether or not corrugated or crimped, in coils or cut to length, 0.1875 inches or more in thickness and over 8 inches in width or if cold-rolled over 12 inches in width.

BILLING CODE 3510-25-M

Harvard Medical School; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 81-00383. Applicant: Harvard Medical School, Purchasing Department, 75 Mount Auburn Street, Cambridge, MA 02138. Instrument: Mass Spectrometer, MAT-312 and Accessories. Manufacturer: Varian MAT, West Germany. Intended Use Of Instrument: See Notice on page 51627 in the **Federal Register** of October 21, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, was being manufactured in the United States at the time the foreign instrument was ordered (September 20, 1979). Reasons: The foreign instrument is a computer controlled, high resolution, double focusing, mass spectrometer that can characterize metastable peaks through linked scanning (i.e., simultaneous scanning of two mass spectrometer fields—either accelerating voltage and electrostatic field or magnetic field and electrostatic field). We find these characteristics of the foreign instrument pertinent to the determination of unsaturation and interpretation of isomeric structures in the applicant's oligosaccharide and glycolipid studies. At the time the foreign instrument was ordered no comparable domestically manufactured mass spectrometer provided linked scanning. We therefore find that no instrument or apparatus of equivalent scientific value to the foreign

instrument for its intended purposes was being manufactured in the United States at the time the foreign instrument was ordered.

BILLING CODE 3510-25-M

California Institute of Technology; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230

Docket No. 82-00340. Applicant: California Institute of Technology, Pasadena, CA 91125. Instrument: Achromatic Corrector Lens. Manufacturer: NEI Parson, Ltd., United Kingdom. Intended use of instrument: See Notice on page 41799 in the **Federal Register** of September 22, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, was being manufactured in the United States at the time the foreign instrument was ordered (January 5, 1981).

Reasons: The foreign instrument is a cemented doublet, clear aperture 49.5 inches (125.73 centimeters) in diameter achromatic corrector lens. The National Bureau of Standards advises in its memorandum dated January 17, 1983 that (1) the specification of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) that to the best of its knowledge the only domestic manufacturer (Perkin-Elmer) capable of providing a comparable lens was unwilling to design and fabricate a lens comparable to the foreign instrument. We note the applicant claims in verbal communications with the domestic firm the firm indicated it could not produce the lens in the time required. This claim has not been used by the domestic firm.

Accordingly the Department of Commerce finds that no domestic manufacturer was both "able and willing" to manufacture a domestic instrument of equivalent scientific value to the foreign instrument for such purposes as the foreign instrument is intended to be used at the time the foreign instrument was ordered.

BILLING CODE 3510-25-M

Department of Commerce; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517). A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-32. Applicant: U.S. Department of Commerce, National Oceanic & Atmospheric Administration, 235 Broadway, Boulder, CO 80303. Instrument: Fourier Transform Spectrometer, DA/3002. Manufacturer: Bomen Inc., Canada. Intended use of instrument: See Notice on page 51437 in the **Federal Register** of November 15, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument has a spectral resolution of at least 0.002 reciprocal centimeters. The National Bureau of Standards advises in its memorandum dated January 24, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Department of Health, Education & Welfare; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517). A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-88. Applicant: Department of Health, Education & Welfare, National Institutes of Health, National Cancer Institute, Division of Cancer Biology & Diagnosis, Building 31, Room 3A-05, Bethesda, MD 20205. Instrument: Gammacell-40 (Small Animal Irradiator). Manufacturer: Atomic Energy of Canada Limited, Canada. Intended use of instrument: See Notice on page 57982 in the **Federal Register** of December 29, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument has a uniform dose distribution of approximately ±5 percent. The National Bureau of Standards advises in its memorandum dated February 28, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument

or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Idaho State University; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-25. Applicant: Idaho State University, Pocatello, Idaho 83209. Instrument: Electromagnetic Receiver, #EM 16-VLF. Manufacturer: Geonics, Canada. Intended use of instrument: See Notice on page 52489 in the **Federal Register** of November 22, 1982.

Comments: No comments have been received with respect to this application.

Decision. Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides very low frequency measurements in the quad-phase and the in-phase secondary field. The National Bureau of Standards advises in its memorandum dated February 28, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Maine Department of Environmental Protection; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-73. Applicant: Maine Department of Environmental Protection, State House Station #17, Augusta, ME 04333. Instrument: Two Man-Variable Depth Non-Earth Contact Resistivity Meter, Model EM 34-3. Manufacturer: Geonics Limited, Canada. Intended use of instrument: See Notice on page 56534 in the **Federal Register** of December 17, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides selective resistivity/conductivity mapping. The National Bureau of Standards advises in its memorandum dated February 28, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Mellon Institute et al.; Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Education, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-103. Applicant: Mellon Institute, 4400 Fifth Avenue, Pittsburgh, PA 15213. Instrument: Electron Microscope, Model EM 420 and Accessories. Manufacturer: Philips Electronic Instruments Incorporated, The Netherlands. Intended use of instrument: See Notice on page 2812 in the **Federal Register** of January 21, 1983. Application received by Commissioner of Customs: January 4, 1983.

Docket No. 83-00106. Applicant: Duke University Medical Center, Department of Physiology, Box 3709-PH, Durham, NC 27710.

Instrument: Electron Microscope, Model JEM 100CX-II and Accessories. Manufacturer: JEOL Limited, Japan. Intended use of instrument: See Notice on page 2812 in the **Federal Register** of January 21, 1983. Application received by Commissioner of Customs: January 4, 1983.

Docket No. 83-107. Applicant: Georgia State University, Department of Biology, University Plaza, Atlanta, GA 30303. Instrument: Electron Microscope, Model JEM-100CXII/SEG with Accessories. Manufacturer: JEOL Limited, Japan. Intended use of instrument: See Notice on page 4018 in the **Federal Register** of

January 28, 1983. Instrument ordered: September 30, 1982.

Docket No. 83–113. Applicant: Lovelace Biomedical and Environmental Research Institute, Building 9200, Area Y, Kirtland Air Force Base, East, Albuquerque, NM 87115. Instrument: Electron Microscope, Model EM 109 with 60-Degree Goniometer and Accessories. Manufacturer: Carl Zeiss, Inc., West Germany. Intended use of instrument: See Notice on page 4018 in the **Federal Register** of January 28, 1983. Application received by Commissioner of Customs: January 13, 1983.

Docket No. 83–114. Applicant: Indiana University, 1101 E. 17th Street, Bloomington, IN 47405. Instrument: Electron Microscope, Model JEM–100CX with Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of instrument: See Notice on page 4018 in the **Federal Register** of January 28, 1983. Instrument Ordered: November 22, 1982.

Docket No. 83–118. Applicant: Hendrick Medical Center, Department of Pathology, 19th and Hickory Streets, Abilene, TX 79601. Instrument: Electron Microscope, EM 109 with Accessories. Manufacturer: Carl Zeiss, West Germany. Intended use of instrument: See Notice on page 4019 in the **Federal Register** of January 28, 1983. Instrument ordered: December 8, 1982.

Docket No. 83–120. Applicant: Purdue University, Lilly Hall of Life Sciences, West Lafayette, IN 47907. Instrument: Electron Microscope, Model EM 420 and Accessories. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of instrument: See Notice on page 5578 in the **Federal Register** of February 7, 1983. Instrument ordered: November 29, 1982.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the instruments were ordered.

Reasons: Each foreign instrument to which the foregoing applications relate is a conventional transmission electron microscope (CTEM). The description of the intended research and/or educational use of each instrument establishes the fact that a comparable CTEM is pertinent to the purposes for which each is intended to be used. We know of no CTEM which was being manufactured in the United States either at the time of order of each instrument described above or at the time of receipt of application by the U.S. Customs Service.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign instruments to which the foregoing applications relate, for such purposes as these instruments are intended to be used, which was being manufactured in the United States either at the time of order or at the time of receipt of application by the U.S. Customs Service.

BILLING CODE 3510–25–M

MIT National Magnet Laboratory; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83–85. Applicant: MIT National Magnet Laboratory, 150 Albany Street, Cambridge, MA 02139. Instrument: Millimeter Wave Open Resonator System with 28 GHZ Mirror. Manufacturer: National Physical Laboratory, United Kingdom. Intended Use of Instrument: See Notice on page 57982 in the **Federal Register** of December 29, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument operates at millimeter and submillimeter wavelengths. The National Bureau of Standards advises in its memorandum dated March 11, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

Ohio State University; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83–111. Applicant: The Ohio State University, Materials Research Laboratory, 174 W. 18th Avenue, Columbus, OH 43210. Instrument: Fourier Transform Optical Spectrometer P/N 1ZM01 with Accessories. Manufacturer: Bomem, Incorporated, Canada. Intended Use of Instrument: See Notice on page 2812 in the **Federal Register** of January 21, 1983.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent sceintific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument has a resolution of 0.04 reciprocal centimeters (cm^{-1} with a wavelength coverage from 10 to 45,000 cm^{-1}. the National Bureau of Standards advises in its memorandum dated March 22, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it

knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

Docket No. 83-21. Applicant: Purdue University, West Lafayette, IN 47097. Instrument: Mass Spectrometer, Model MS5OS and Accessories. Manufacturer: Kratos Analytical Instruments, United Kingdom. Intended Use of Instrument: See Notice on page 53760 in the **Federal Register** of November 29, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, was being manufactured in the United States at the time the foreign instrument was ordered (August 20, 1982).

Reasons: The foreign instrument has a guaranteed resolution of 150,000 (10 percent valley definition). The Department of Health and Human Services advises in its memorandum dated March 2, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use which was being manufactured in the United States at the time the foreign instrument was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as the instrument is intended to be used, which was being manufactured in the United States at the time the foreign instrument was ordered.

BILLING CODE 3510-25-M

State of New York Department of Environmental Conservation; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82-00176R. Applicant: State of New York Department of Environmental Conservation, 50 Wolf Road, Albany, New York 12233. Instrument: Trace Analysis System, TAGA 3000. Application is a resubmission, notice of which was published in the **Federal Register** of June 3, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, was being manufactured in the United States at the time the foreign instrument was ordered (January 15, 1981).

Reasons: This application is a resubmission of Docket Number 82-00176 which was denied without prejudice to resubmission on October 6, 1982 for informational deficiencies. The foreign instrument combines mobility with direct, continuous, real-time, atmospheric mass spectrometric analysis. The National Bureau of Standards advises in its memorandum dated March 2, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use which is being manufactured in the United States at the time the foreign instrument was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which was being manufactured in the United States at the time the foreign instrument was ordered.

State University of New York; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-60. Applicant: The State University of New York, Stony Brook, N.Y. 11974. Instrument: Klystron Tube, Type VRB 2113A. Manufacturer: Varian of Canada Incorporated, Canada. Intended use of instrument: See Notice on page 55988 in the **Federal Register** of December 14, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument operates at a frequency range centered

at 90.5 gigahertz. The National Bureau of Standards advises in its memorandum dated March 14, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Texas A & M University; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-fee entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82-00367. Applicant: Texas A & M University, Department of Civil Engineering, Ocean Engineering Program, College Station, Texas 77843. Instrument: Bi-directional micro-propeller, current meter. Manufacturer: Hydrei Aps., Denmark. Intended use of Instrument: See Notice on page 49056 in the Federal Register of October 29, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides small size (five blade propeller one centimeter in diameter) and ability to measure current reversals in air/water mixtures. The National Oceanic and Atmospheric Administration advises in its memorandum dated February 1, 1983 that (1) the capabilities of the foreign instrument described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

University of Alaska; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-36. Applicant: University of Alaska, Geophysical Institute, Fairbanks, AK 99701. Instrument: Wide Band Digital Imaging System. Manufacturer: MacDonald Dettwiler & Associates Limited, Canada. Intended use of instrument: See Notice on page 54998 in the Federal Register of December 7, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket Number 82-00049 which was denied without prejudice to resubmission on July 1, 1982 for informational deficiencies. The foreign instrument provides a high resolution quick look image recording system (QLIRS) capable of converting real-time digital data from satellite sensors to high resolution real-time imaging and data processing, and real-time scrolling display. The National Bureau of Standards advises in its memorandum dated March 8, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

University of California; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230

Docket No. 83-18. Applicant: University of California, Berkeley, School of Optometry, 2405 Bowditch Street, Berkeley, CA 94720. Instrument: Electronic Visual Display Unit with Raster Rotation. Manufacturer: Joyce Electronics, United Kingdom. Intended use of instrument: See Notice on page 53083 in the Federal Register of November 24, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this

instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument has raster rotation and (450 candela per square meter) 99% brightness accuracy. The Department of Health and Human Services advises in its memorandum dated March 2, 1983 that (1) the capabilities of the foreign instrument described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as the foreign instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

University of Colorado; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82-00369. Applicant: University of Colorado, Joint Institute for Laboratory Astrophysics, Boulder, CO 80309. Instrument: Pulsed Dye Laser, FL 2002. Manufacturer: Lambda Physik Gmbh, West Germany. Intended use of Instrument: See Notice on Page 49057 in the **Federal Register** of October 29, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, was being manufactured in the United States at the time the foreign instrument was ordered (July 15, 1982).

Reasons: The foreign instrument has an amplified spontaneous emission (ASE) as low as 0.25 to 0.4 percent at the Rhodamine 6G peak. The Department of Health and Human Services advises in its memorandum dated March 2, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use which was being manufactured in the United States at the time the foreign instrument was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which was being manufactured in the United States at the time the foreign instrument was ordered.

BILLING CODE 3510-25-M

University of North Dakota; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-16. Applicant: The University of North Dakota, Grand Forks, North Dakota 58202. Instrument: Scanning Electron Microscope, Model S-800. Manufacturer: Hitachi Scientific Instruments, Japan. Intended Use of Instrument: See Notice on page 53760 in the **Federal Register** of November 29, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, was being manufactured in the United States at the time the foreign instrument was ordered (June 30, 1982).

Reasons: The foreign instrument guarantees a resolution of 20 Å. The Department of Health and Human Sevices advises in its memorandum dated March 2, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use which was being manufactured in the United States at the time the foreign instrument was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which was being manufactured in the United States at the time the foreign instrument was ordered.

BILLING CODE 3510-25-M

University of Pennsylvania; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83-15. Applicant: University of Pennsylvania, School of Medicine, Department of Pharmacology, 172 Med Labs/G3, 36th & Hamilton Walk, Philadelphia, PA 19104. Instrument: Patch Clamp System, Type L/M-EPC-5. Intended use of instrument: See Notice on page 53083 in the **Federal Register** of November 24, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument has a sensitivity of one picoampere (pA), low noise (0.1 pA RMS at one kilohertz) and a transient cancellation range (0–10 picofarads calibrated). The Department of Health and Human Services advises in its memorandum dated March 2, 1983 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

University of Texas Health Science Center; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 83–22. Applicant: The University of Texas Health Science Center, Department of Biochemistry, 7703 Floyd Curl Drive, San Antonio, Texas 78284. Instrument: Accessories for a Nanosecond Fluorometer System 2000. Manufacturer: Photo-chemical Research Associates, Canada. Intended use of instrument: See Notice on page 51437 in the **Federal Register** of November 15, 1982.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The application relates to compatible accessories for an instrument that has been previously imported for the use of the applicant institution. The accessories are being furnished by the manufacturer which produced the instrument with which they are intended to be used. We are advised by the Department of Health and Human Services in its memorandum dated March 2, 1983 that the accessories are pertinent to the applicant's intended uses and that it knows of no comparable domestic accessories.

The Department of Commerce knows of no similar accessories being manufactured in the United States which are interchangeable with or, can be readily adapted to the instrument with which the accessories are intended to be used.

BILLING CODE 3510-25-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Changes in Officials of the Government of Macau Authorized to Sign Visas for Certain Textile Products Exported to the United States

April 21, 1983.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Announcing a new list of officials of the Government of Macau who are authorized to sign export visas for cotton, wool, and man-made fiber textile products from Macau.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709).

SUMMARY: The Government of Macau has notified the Government of the United States that five officials are authorized to sign export visas for cotton, wool, and man-made fiber textile products exported to the United States.

EFFECTIVE DATE: May 1, 1983.

FOR FURTHER INFORMATION CONTACT: Ronald Sorini, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: On September 16, 1981, a letter dated September 11, 1981 to the Commissioner of Customs from the Chairman of the Committee for the Implementation of Textile Agreements was published in the **Federal Register** (46 FR 45979), which established an export visa requirement for cotton, wool and man-made fiber textile products, produced or manufactured in Macau and exported to the United States under the provisions of Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of November 29 and December 18, 1979, as amended. One of the requirements is that the visas must be signed by an authorized official. Macau has designated the following five officials to issue export visas: Jose Bernardino Marques Ferreira, Maria Manuela da Silva Aguiar Viana de Freitas, Rogelia Maria Cativo de Almedia Machado Barreto, Florinda de Rosa Silva Chan, Rita Sermelinda da Silva Rodrigues.

Walter C. Lenanan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 83-11190 Filed 4-26-83; 8:45 am]

BILLING CODE 3510-25-M

Announcing Additional Import Control for Certain Cotton Apparel Products From the Republic of Singapore

April 21, 1983.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Controlling imports of cotton knit shirts and blouses in Category 338/339, produced or manufactured in Singapore and exported during the agreement year which began on January 1, 1983, at a level of 638,141 dozen.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175).

SUMMARY: Under the terms of the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of August 21, 1981, as amended, between the Governments of the United States and the Republic of Singapore, the United States Government has decided to control imports of cotton textile products in Category 338/339 in the same manner as other categories are currently being controlled.

EFFECTIVE DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Ronald J. Sorini, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: On December 23, 1982, there was published in the **Federal Register** (47 FR 57322) a letter dated December 17, 1982 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs which established levels of restraint for certain specified categories of cotton, wool, and man-made fiber textile products, produced or manufactured in Singapore, which may be entered into the United States for consumption, or withdrawn from warehouse for consumption, during the twelve-month period which began on January 1, 1983 and extends through December 31, 1983. The letter published below amends the letter of December 17, 1982 to include an import control level of 638,141 dozen for Category 338/339. That level has not been adjusted to account for any imports after December 31, 1982. As the data become available, charges will be made for the period which began on January 1, 1983 and extends to the effective date of this action, as well as thereafter.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

April 21, 1983.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive issued to you on December 17, 1982 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton, wool, and man-made fiber textile products, produced or manufactured in Singapore and exported during the twelve-month period which began on January 1, 1983.

Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of August 21, 1981, as amended, between the Governments of the United States and the Republic of Singapore; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on April 27, 1983 and for the twelve-month period which began on January 1, 1983 and extends through December 31, 1983, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 338/339, produced or manufactured in Singapore, in excess of the following level of restraint:

Category	12-mo level of restraint [1]
338/339	638,141 dozen of which not more than 362,687 dozen shall be in Category 338 and not more than 424,906 dozen shall be in Category 339.

[1] The level of restraint has not been adjusted to reflect any imports after December 31, 1982. Imports during the period January 1—February 28, 1983 have amounted to 25,181 dozen in Category 338/339 of which 12,116 dozen should be charged to Category 338 and 13,065 dozen should be charged to Category 339.

Textile products in Category 338/339 which have been exported to the United States prior to January 1, 1983 shall not be subject to this directive.

Textile products in Category 338/339 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Singapore and with respect to imports of cotton textile products from Singapore have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 83-11189 Filed 4-26-83; 8:45 am]

BILLING CODE 3510-25-M

Adjusting the Import Level for Certain Cotton Textile Products From Pakistan

April 21, 1983.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Reducing from 523,383 dozen pairs to 513,361 dozen pairs the level of restraint established during 1983 for cotton gloves and mittens in Category 331, produced or manufactured in Pakistan, to account for carryforward used last year.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175).

SUMMARY: The Bilateral Cotton Textile Agreement of March 9 and 11, 1982, as amended, between the Governments of the United States and Pakistan provides for the borrowing of yardage from the succeeding year's level (carryforward) with the amount used being deducted from the category level in the succeeding year. Under the terms of the bilateral agreement, as amended, the level of restraint established for cotton textile products in Category 331 is being adjusted for carryforward used in 1982.

EFFECTIVE DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: On December 17, 1982, there was published in the **Federal Register** (47 FR 56536) a letter dated December 14, 1982 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, which established levels of restraint for certain specified categories of cotton textile products, including Category 331, produced or manufactured in Pakistan, which may be entered into the United States for consumption, or withdrawn from warehouse for consumption, during the twelve-month period which began on January 1, 1983 and extends through December 31, 1983. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to reduce the level of restraint established for Category 331 to 513,361 dozen pairs.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

April 21, 1983.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: On December 14, 1982, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry during the twelve-month period beginning on January 1, 1983 and extending through December 31, 1983 of cotton textile products, produced or manufactured in Pakistan, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton Textile Agreement of March 9 and 11, 1982, as amended, between the Governments of the United States and Pakistan which provide, in part, that: (1) Within the aggregate limit, specific levels of restraint may be exceeded by designated percentages; (2) specific levels may be increased for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement.

Effective on April 27, 1983, paragraph 1 of the directive of December 14, 1982 is amended to include an adjusted level of restraint of 513,361 dozen pairs [2] for cotton textile products in Category 331.

The action taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 83-11188 Filed 4-26-83; 8:45 am]

BILLING CODE 3510-25-M

Adjusting the Import Restraint Levels for Certain Cotton Apparel Products From Thailand

April 21, 1983.

AGENCY: Committee for the Implementation of Textile Agreements

ACTION: Increasing to 701,926 dozen pairs and 960,158 dozen by the application of carryover the respective levels of restraint established for cotton gloves and cotton knit shirts and blouses in Categories 331 and 338/339, produced or manufactured in Thailand and exported during the eighteen-month period which began on January 1, 1982.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175).

SUMMARY: The Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of October 4, 1978, as amended and extended, between the Governments of the United States and Thailand provides for the carryover of shortfalls in certain categories from the previous agreement year (carryover). Accordingly, carryover is being applied to the levels of restraint for Categories 331 and 338/339.

EFFECTIVE DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377/4212).

SUPPLEMENTARY INFORMATION: On October 14, 1982, there was published in the **Federal Register** a letter dated October 8, 1982 from the Chairman of the Committee for the Implementation of Textile Agreements, to the Commissioner of Customs which established levels of restraint for certain specific categories of cotton, wool, and man-made fiber textile products, including Category 338/339, produced or manufactured in Thailand, which may be entered into the United States for consumption, or withdrawn from warehouse for consumption, during the eighteen-month period which began on January 1, 1982 and extends through June 30, 1983. On January 20, 1983 a further letter dated January 17, 1983 was published in the **Federal Register** (48 FR 2582), which established a level of restraint for cotton textile products in Category 331 for the same eighteen-month period. In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements, in accordance with the terms of the bilateral agreement, as amended and extended, directs the Commissioner of Customs to adjust the previously established levels of restraint for Categories 331 and 338/339 to the designated amounts.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

April 21, 1983.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: The directive of October 8, 1982, as amended, from the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry for consumption, or withdrawal from warehouse for consumption, during the eighteen-month period beginning on January 1, 1982 and extending through June 30, 1983 of cotton, wool, and man-made fiber textile products in certain specified categories, produced or manufactured in Thailand, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of October 4, 1978, as amended and extended, between the Governments of the United States and Thailand, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to amend, effective on April 27, 1983, the levels of restraint previously established for cotton textile products in Categories 331 and 338/339, the following:

Category	Amended 18-month level of restraint [1]
331	701,926 dozen pairs.
338/339	960,158 dozen pairs.

[1] The levels of restraint have not been adjusted to reflect any imports after December 31, 1981.

The actions taken with respect to the Government of Thailand and with respect to imports of cotton textile products from Thailand have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Water C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Importers and Retailers' Textile Advisory Committee; Change of Date of Public Meeting

April 21, 1983.

On April 8, 1983 a notice was published in the **Federal Register** (48 FR 15310) announcing a meeting of the Importers and Retailers' Textile Advisory Committee on May 10, 1983 at 10:30 a.m. in Room 6802 of the Main Commerce Building, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230. The purpose of this notice is to announce that the date of the meeting has been changed to May 17. The time and location of the meeting have not been changed.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 83-11184 Filed 4-26-83; 8:45 am]

BILLING CODE 3510-25-M

[2] The level of restraint has not been adjusted to account for any imports after December 31, 1982.

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of October 4, 1978, as amended and extended, between the Governments of the United States and Thailand, which provide, in part, that: (1) specific levels of restraint may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (2) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

DEPARTMENT OF DEFENSE

Department of the Army

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (92–463), announcement is made of the following committee meeting:

Name of committee: Army Science Board (ASB).

Dates of meeting: Thursday and Friday, 12–13 May 1983.

Times: 0830–1700 hours (Closed) Both Days.

Place: Pentagon, Washington, D.C.

Agenda: The Army Science Board Ad Hoc Subgroup on Army Utilization of Space Assets will meet for classified briefings and discussions on the capabilities of currently available and furure space assets to enhance the Army's ability to carry out its mission. This meeting will be closed to the public in accordance with Section 552b(c) of Title 5, U.S.C., specifically subparagraph (1) thereof, and Title 5, U.S.C. App. 1, subsection 10(d). The classified and nonclassified matters to be discussed are so inextricably intertwined so as to preclude opening any portion of the meeting. The ASB Administrative Officer, Helen M. Bowen, may be contacted for further information at (22) 695–3039 or 697–9703.

Helen M. Bowen,

Administrative Officer.

BILLING CODE 3710–08–M

Department of the Navy

Public Information Collection Requirement Submitted to OMB for Review

The Department of the Navy has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Each entry contains the following information: (1) Type of submission; (2) Title of Information Collection and Form Number if applicable; (3) Abstract statement of the need for and the uses to be made of the information collected; (4) Type of Respondent; (5) An estimate of the number of responses; (6) An estimate of the total numbers of hours needed to provide the information; (7) To whom comments regarding the information collection are to be forwarded; (8) The point of contact from whom a copy of the information proposal may be obtained.

Extension

Long Range Design Working Forecast.

The Commander, Naval Sea Systems Command as the Coordinator of Shipbuilding, Conversion and Repair is responsible for the design, development, acquisition, modernization, and conversion of Navy Ships. As such, the Commander, has a direct interest in the total naval ship design and engineering resources potentially available to perform these functions, their general adequacy, and the degree of utilization of such resources. Naval Ship design and engineering assignments and long range forecasting and planning which involves ship design and engineering capability require a current knowledge of the total ship and engineering resources available. An analysis of workload forecasts, overlaid on resources available at each facility is the primary means of making such determinations. Total ship design and engineering resources are considered to be not only those available in naval activities, but also those available in private shipyards and design agents and consulting firms.

Respondent are shipyards and private marine design agents; 80 responses, 160 hours.

Forward comments to Edward Springer, OMB Desk Officer, Room 3235, NEOB, Washington, D.C. 20503, and John V. Wenderoth, DOD Clearance Officer, OASD(C), IRMS, IRAD, Room 1A658, Pentagon, Washington, D.C. 20301, telephone (202) 697–1195.

A copy of the information collection proposal may be obtained from Commander, Naval Sea Systems Command (SEA 0713), Department of the Navy, Washington, D.C. 20362, telephone (202) 692–3782.

M. S. Healy,

OSD Federal Register, Liaison Officer, Department of Defense.

April 22, 1983.

Office of the Secretary

Defense Intelligence College Panel of the National Defense University and the Defense Intelligence College

Pursuant to the provisions of Sub-Section (d), Section 10 of Public Law 92–463, as amended by Section 5 of Pub. L. 94–409, notice is hereby given that a partially closed meeting of the Defense Intelligence College Panel of the Board of Visitors of the National Defense University and the Defense Intelligence College will be held on-site at the College in Washington, D.C. on May 23, 24 and 25, 1983.

Morning sessions on May 23, 24 and 25 1983 will be devoted to the discussions of classified information as defined in Section 552b(c)(1), Title 5, of the U.S. Code and will therefore be closed to the public. Subject matter will be concerned with specialized instructional requirements and related curricula content.

April 22, 1983.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810–01–M

Defense Science Board Task Force on Supercomputer Applications; Advisory Committee Meeting

The Defense Science Board Task Force on Supercomputer Applications will meet in open session on May 11, 1983 at Stanford University, Stanford, California.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Research and Engineering on scientific and technical matters as they affect the perceived needs of the Department of Defense.

At the meeting on May 11, 1983 the Defense Science Board Task Force on Supercomputer Applications will conduct a review of the Defense Department's programs to apply the emerging capacity of computers to contribute to military programs and issues. It will attempt to identify areas where the expected many orders of magnitude improvement in computing power can be of aid to the Defense establishment.

Persons interested in attending should contact Commander R. B. Ohlander, Task Force Executive Secretary, Telephone: (202) 699–5051. Space will be awarded on a first come first served basis.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Service, Department of Defense.

DEPARTMENT OF ENERGY

Bonneville Power Administration

Suspension of Near-term Resource Policy Development Process

AGENCY: Bonneville Power Administration (BPA) Energy.

ACTION: Notice.

SUMMARY: BPA proposed a Near-term Resource Policy on July 15, 1982, (47 FR 30811) for BPA to use as a guide in resource development and acquisition decisions including implementation of conservation programs, a small renewable resource acquistion program, financial assistance programs, and others. BPA has decided that it would not be prudent to adopt a final policy at this time.

The reasons for this include the fact that the Pacific Northwest Electric Power and Conservation Planning Council (Regional Council) will soon adopt its regional energy plan. Also, changing regional economics and BPA's financial circumstances have made it necessary to revise some of the assumptions underlying BPA's anticipated load/resource balance.

FOR FURTHER INFORMATION CONTACT:

Joseph F. Cade, Public Involvement Officer, P.O. Box 12999, Portland, Oregon 97212, 503–230–3478. Oregon callers may use the toll-free number 800–452–8429; callers in California, Idaho, Montana, Nevada, Utah, Wyoming, and Washington may use 800–547–6048.

Robert N. Laffel, Idaho Falls District Manager, 531 Lomax Street, Idaho Falls, Idaho 83401, 208–523–2706

SUPPLEMENTARY INFORMATION: A notice of proposed Near-Term Resource Policy was published on July 15, 1982 (47 FR 30811). BPA will not develop a final policy at this time. The reasons for this include the Regional Council's imminent publication of its regional energy plan. Also, changing regional economics and power requirements have made it necessary to revise some of the assumptions underlying BPA's anticipated load/resource balance. Because BPA is in the midst of revising its load/resource analysis, BPA will not develop a final Near-Term Resource Policy until the situation warrants.

The following changed conditions demand a reassessment of BPA's resource situation.

1. A lower near-term forecast for electricity due to the length and depth of the economic recession. The demand for electricity for BPA's industrial customers has been lower than previously anticipated.

2. Further downward pressure on BPA's anticipated revenue from reduced power sales.

3. Less than expected interest among potential customers in the Southwest in surplus firm power acquisitions from the Northwest at adequate prices.

The above items have increased the uncertainty associated with BPA's need for and the economics of resource acquisitions.

BPA will not consider or commit to acquiring a generating resource in the near term unless it appears justifiable as a prudent financial decision. This is in keeping with the Pacific Northwest Electric Power Planning and Conservation Act (Regional Act) and the guidance provided in the Regional Council's draft energy plan. BPA will continue to investigate and assess resource opportunities to maximize its flexibility for meeting future obligations. It is unlikely, however, that BPA will make any financial commitments until it has had adequate opportunity to assess the final Regional Council energy plan.

Following the directives of the Regional Act, BPA will continue to emphasize cost-effective conservation. Conservation programs need to be emphasized in the near term so they can effectively penetrate the market as an inexpensive resource to meet forecasted loads. However, the level of expenditures on conservation programs is under review in light of our forecasted surplus of power and BPA's financial circumstances.

Issued in Portland, Oregon, April 15, 1983.

James J. Jura,

Acting Administrator.

Economic Regulatory Administration

Missouri Terminal Oil Company; Proposed Remedial Order

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of a Proposed Remedial Order which was issued to Missouri Terminal Oil Company ("MoTer") of St. Louis, Missouri. The Proposed Remedial Order charges MoTer with pricing violations in the amount of $1,082,682.97 exclusive of interest, connected with the sale of motor gasoline from March 1, 1979 through July 31, 1979.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from David H. Jackson, Director, Kansas City Office, ERA (816) 374–2092. Within 15 days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, in accordance with 10 CFR 205.193.

Issued in Kansas City, Missouri on the 15th day of April 1983.

David H. Jackson,

Director, Kansas City Office, Office of Special Counsel, Economic Regulatory Administration.

Federal Energy Regulatory Commission

[Docket No. TC83–6–000]

Arkansas Louisiana Gas Co., a Division of Arkla, Inc.; Tariff Filing

April 22, 1983.

Take notice that on April 15, 1983, Arkansas Louisiana Gas Company, a Division of Arkla, Inc. (Arkla), P.O. Box 21734, Shereveport, Louisiana 71151, tendered for filing in Docket No. TC83–6–000, 6th Revised Sheet No. 3B, superseding 5th Revised Sheet No. 3B, to Arkla's FERC Gas Tariff, First Revised Volume No. 1, to be effective 30 days after filing.

The tariff sheet is said to change the definition of the two interruptible priorities in Arkla's curtailment plan in order to modify the order of curtailment among interruptible customers only and is said to make no changes in any of the firm priorities. The present curtailment plan is said to distinguish between the two interruptible priorities solely on a volumetric basis, the dividing point being 3,000 Mcf of gas per day. The new definitions would place in Priority 7 interruptible customers who have agreed to purchase at least a specified minimum volume of gas if it is tendered to them and would place in Priority 8 interruptible customers who have not agreed to purchase a specified minimum volume of gas if it is tendered to them.

Arkla states that it currently has an interruptible service contract with Central Louisiana Electric Company, Inc. (CLECO), who will fall in proposed Priority 7, and an interruptible service contract with Texas Eastman Company (Texas Eastman), who will fall in proposed Priority 8. These interruptible industrial loads are alleged to be a benefit to Arkla in that it will have industrial sale outlets for its gas as needed from time to time. At the same time, Arkla alleges, it can maintain control over the magnitude of such interruptible deliveries and reduce those deliveries, if necessary, in the course of monitoring their impact on Arkla's firm retail customers.

Any person desiring to be heard or to make any protest with reference to said tariff sheet should on or before May 6, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[Docket No. QF83–205–000]

Capitol Cogeneration Co., Ltd.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

April 22, 1983.

On March 7, 1983, Capitol Cogeneration Co., Ltd., P. O. Box 21130, San Antonio, Texas 78285, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules.

The proposed topping cycle cogeneration facility will be located within the Pasadena Industrial District, Pasadena, Harris County, Texas. The facility will consist of three combustion turbines, three heat recovery steam generators and one condensing steam turbine in a combined cycle configuration. The net electric power production capacity of the facility will be 330.56 megawatts. Steam will be sold to Celanese Chemical Company for use in chemical process units at the Clear Lake Plant, which is adjacent to the facility. The primary energy source will be natural gas and No. 2 fuel oil will be used as an emergency standby fuel. Installation of the facility will begin in July 1983. Texas-New Mexico Power Co., an electric power wholesaler, will own a 50 percent equity interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N. E., Washington, D. C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be take but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. GP83–25–000]

Eastern American Energy Corp.; Petition for Declaratory Order

April 22, 1983.

Take notice that on April 1, 1983, Eastern American Energy Corporation

(Eastern American), 3025 South Parker Road, Suite 907, Aurora, Colorado 80014, filed a petition for declaratory order pursuant to Rule 207 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207.

Eastern American, describing itself as a small independent producer of natural gas operating principally in West Virginia, has petitioned the Commission to issue a declaratory order to remove alleged uncertainty regarding the applicability of section 315 of the Natural Gas Policy Act of 1978 (NGPA) to certain transactions involving Eastern American, Equitable Gas Company (Equitable) and Columbia Gas Transmission Corporation (Columbia).

As part of a settlement agreement negotiated by and between Equitable and Eastern American in Docket Nos. RI74–188 and RI75–21, *Independent Oil & Gas Association of West Virginia*, Equitable has released Eastern American for a period of 15 years from its contractual commitment to sell its production to Equitable. Columbia, on December 16, 1982, agreed to purchase gas from Eastern American for a term of 15 years. The agreement [1] permits Columbia to terminate the contract one year after its date of execution unless the Commission, within that time, issues a final, nonappealable order or opinion that either (i) finds that section 315 of the NGPA does not apply to the above transaction, or (ii) approves the above transaction, notwithstanding the provisions of NGPA section 315.

Specifically, Eastern American has petitioned the Commission to issue a declaratory order that section 315 does not act as a bar to the transactions among Eastern American, Equitable, and Columbia described above. Alternatively, Eastern American has petitioned the Commission for a declaratory order that specifically approves the 15-year release of the gas by Equitable.

Any person desiring to be heard or to protest Eastern American's petition for a declaratory order should file, within 30 days after publication of this notice in the **Federal Register**, with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a protest or petition to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All protests filed with the Commission will be considered but will not make protestants parties to the proceeding. Any party wishing to become a party to the proceeding or to participate as a party in any hearing must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83–11235 Filed 4–26–83; 8:45 am]

BILLING CODE 6717–01–M

[1] All wells subject to the gas purchase agreement with Columbia currently produce natural gas that is qualified under sections 102(c), 103(c), or 107(c)(1)–(4) of the NGPA, according to Eastern American.

[Docket No. ER83–467–000]

Electric Energy, Inc., Filing

April 22, 1983.

The filing Company submits the following:

Take notice that on April 18, 1983, Electric Energy, Inc. (EEI) tendered for filing a Letter Agreement dated March 30, 1983 between EEI, its Sponsoring Companies (Central Illinois Public Service Company, Illinois Power Company, Kentucky Utilities Company and Union Electric Company) and the United States Department of Energy (DOE), as successor to the Energy Research and Development Administration, modifying Power Contract No. DE–AC05–760R01312 (formerly designated Contract No. AT–(40–1)–1312) between EEI and DOE (FERC Rate Schedule No. 7).

EEI requests an effective date of August 1, 1980, and therefore requests waiver of the Commission's notice requirements.

EEI states that the Letter Agreement makes plain that the obligation of DOE under the Power Contract to make certain surcharge payments has at all times been an obligation of DOE to the Sponsoring Companies and cancels the provisions of the Power Contract pursuant to which EEI acted as a conduit for such payments by DOE to the Sponsoring Companies.

Copies of the filing have been sent to the Sponsoring Companies, the Illinois Commerce Commission, the Missouri Public Service Commission and the Kentucky Public Service Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before May 10, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. ER83–458–000]

El Paso Electric Co.; Filing

April 22, 1983.

The filing Company submits the following:

Take notice that on April 13, 1983, El Paso Electric Company (El Paso) tendered for filing an initial rate schedule pursuant to an "Economy Energy and Short-Term Capacity Agreement Between El Paso and Colorado-Ute Electric Association, Inc." dated February 18, 1983 (Agreement). El Paso states this Agreement initiates economy energy and short-term capacity service between the two companies and that El Paso shall provide and Colorado-Ute Electric Association, Inc. shall schedule and purchase varying amounts of capacity during the term of this Agreement.

El Paso requests an effective date of April 1, 1983, and therefore requests waiver of the Commission's notice requirements.

According to El Paso, copies of this filing have been served upon the Public Utility Commission of Texas, the New Mexico Public Service Commission and Colorado-Ute Electric Association, Inc.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before May 9, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket Nos. ER83-348-000, ER83-349-000, ER83-350-000, ER82-412-000, and ER80-259-000, et al.]

Kansas Gas & Electric Co.; Order Accepting for Filing and Suspending Rate Schedules, Granting Waivers, Consolidating Dockets, and Establishing Procedures

Issued April 20, 1983.

On February 25, 1983, Kansas Gas and Electric Company (KG&E) tendered for filing executed interconnection agreements and accompanying rate schedules for services provided to the Cities of Neodesha, Mulvane, and Winfield, Kansas.[1] The submittals also include joint stipulations executed by the parties. The company requests an effective date of February 28, 1983, and a one day suspension so that the submittal may become effective, subject to refund, on March 1, 1983, the day after the existing contracts expire. In order to accomplish this result, KG&E requests waiver of the notice requirements.

The Cities, which obtain partial requirements service from KG&E, have contracted with the Board of Public Utilities of Kansas City, Kansas for the purchase of "participation power" as of March 1, 1983. The instant filings have been submitted in order to provide for the transmission of this power and to enable the Cities to enter into other, similar arrangements in the future.

The terms and conditions of the interconnection agreements are identical, but for the provisions relating to participation power, to those which are the subject of proceedings in *Kansas Gas and Electric Company*, Docket Nos. ER80-259-000, *et al.*[2] Therefore, KG&E and the Cities have stipulated that the interconnection agreements will be modified in accordance with the final Commission order in that proceeding.

In addition, KG&E has tendered five service schedules applicable to each municipality: Schedule A (Firm Power); Schedule B (Emergency Power); Schedule C (Supplemental Energy); Schedule E (Transmission Service for Outside Firm and Participation Power Purchases); and Schedule F (Reserve Capacity Service). Schedules B and C would not be changed by the current filing; the company will continue to provide these services at the rates being collected subject to refund in Docket Nos. ER80-259-000, *et al.* KG&E proposes to increase its firm power rate under Schedule A to the level previously filed with the Commission in *Kansas Gas and Electric Company*, Docket No. ER82-412-000.[3] KG&E and the Cities have stipulated, therefore, that the Schedule A rates will be modified in accordance with the final Commission order entered in that docket. The proposed Service Schedules E and F provide for new services to the Cities. As discussed below, the rates under both of these schedules are derived, in part, from components of the rates which are at issue in Docket No. ER82-412-000. Thus, KG&E requests that the Commission adopt the testimony and exhibits previously submitted in Docket No. ER82-412-000 as meeting the filing requirements prescribed by sections 35.13 (d) and (e) of the Commission's regulations.

Notices of the instant filings were published in the **Federal Register** [4] with comments due on or before March 24, 1983. No protests or motions to intervene have been received.

Discussion

Our preliminary review indicates that KG&E's proposed interconnection agreements and service schedules have not been shown to be just and reasonable and may be unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, we shall accept the submittals for filing and suspend them as ordered below.

In explaining the Commission's suspension policy in *West Texas Utilities Co.*, Docket No. ER82-23-000, 18 FERC ¶61,189 (1982), we noted that the Commission would consider such factors as the availability of new services which the affected customers desire to obtain. The instant filings have been submitted to enable the Cities to obtain power from a third party as of March 1, 1983, and the Cities have agreed that service under the instant submittals shall become effective on that date. Further more, KG&E's submittals incorporate rates which have already been suspended and set for hearing in earlier dockets. Given the customers' consent and the fact that the various elements of KG&E's filing will be made subject to the outcome of either Docket Nos. ER80-259-000, et al., or ER82-412-000, we find that good cause exists to waive the notice requirements and to suspend KG&E's filings for one day, to become effective as of March 1, 1983, subject to refund.

As previously indicated, the rates proposed under Service schedule A are currently under investigation in Docket No. ER82-412-000. Further, we note that the $0.53/kW charge contained in Service Schedule E for load regulation service, maintenance of spinning reserves, and quick start capability, and the $6.98/kW/month reserve capacity charge provided for in Service Schedule F are based upon the rates filed in Docket No. ER82-412-000. Because we find that common questions of law or fact may exist, we shall consolidate Docket Nos. ER83-348-000 through ER83-350-000 with Docket No. ER82-412-000 for purposes of considering KG&E's proposed charges for firm power undere Service Schedule A, for load regulation, spinning reserve, and quick start capability under Service Schedule E, and for reserve capacity under Service Schedule F.

With respect to the proposed interconnection agreements and Service Schedules B and C, we note that similar or identical rates, terms, and conditions are before the Commission in Docket Nos. ER80-259-000, *et al.* In addition, the charge for transmission losses contained in Service Schedule E was also filed by KG&E in those dockets. Accordingly, we shall make these aspects of KG&E's instant filings subject to the outcome of our decision in Docket Nos. ER80-259-000, *et al.*

Inasmuch as KG&E's filings seek to apply previously filed rates to the affected customers and in view of the fact that cost support for these rates has been submitted in the prior dockets, we find that good cause exists to waive the outstanding requirements of § 35.13 and permit KG&E to incorporate its earlier cost support by reference.

The Commission orders:

(A) KG&E's motions for waiver of the notice and filing requirements are hereby granted.

(B) KG&E's proposed interconnection agreements and service shedules are hereby accepted for filing and suspended for one day, to become effective as of March 1, 1983, subject to refund.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act and By the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act (18 CFR, Chapter I), a

---

[1] *See* Attachment A for rate schedule designations.

[2] Initial Decision issued August 12, 1982, 20 FERC ¶ 63,040.

[3] By order issued May 28, 1982, the Commission accepted the rates in Docket No. ER82-412-000 for filing, suspended their effectiveness for five months, and ordered a hearing concerning their lawfulness. 19 FERC ¶ 61,210. Inasmuch as KG&E had stated that the firm power rates filed in Docket No. ER82-412-000 would ultimately apply to the Cities, they each intervened in that proceeding.

[4] 48 *FR* 10909-910 (March 15, 1983)

public hearing shall be held concerning the justness and reasonableness of KG&E's rates.

(D) Docket Nos. ER83-348-000, ER83-349-000, ER83-350-000, and ER82-412-000 are hereby consolidated for purposes of hearing and decision on the matters identified in the body of this order.

(E) The terms and conditions of KG&E's proposed interconnection agreements, as well as the rates under Service Schedules B and C, and the charge for transmission losses under Service Schedule E, shall be subject to the outcome of the final Commission order issued in Docket Nos. ER80-259-000, *et al.*

(F) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

ATTACHMENT—KANSAS GAS & ELECTRIC COMPANY RATE SCHEDULE DESIGNATIONS

[Docket Nos. ER83-348-000, ER83-349-000 & ER83-350-000]

Designation	Description
(1) Rate Schedule FERC No. 153 (Supersedes Rate Schedule FPC No. 131 as Supplemented).	Electric Service Agreement (Neodesha).
(2) Supplement No. 1 to Rate Schedule FERC No. 153.	Service Schedule A Firm Power Service.
(3) Supplement No. 2 to Rate Schedule FERC No 153.	Service Schedule B Emergency Service.
(4) Supplement No 3 to Rate Schedule FERC No. 153.	Service Schedule C Supplement Energy.
(5) Supplement No. 4 to Rate Schedule FERC No. 153.	Service Schedule E Transmission Service.
(6) Supplement No. 5 to Rate Schedule FERC No. 153.	Service Schedule F Reserve Capacity Service.
(7) Rate Schedule FERC NO. 154 (Supersedes Rate Schedule FPC No. 132 as Supplemented).	Electric Service Agreement (Mulvane).
(8) Supplement No. 1 to Rate Schedule FERC No. 154.	Service Schedule A Firm Power Service.
(9) Supplement No. 2 to Rate Schedule FERC No. 154.	Service Schedule B Emergency Service.
(10) Supplement No. 3 to Rate Schedule FERC No 154.	Service Schedule C Supplemental Energy.

BILLING CODE 6717-01-M

[Docket No. ER83-464-000]

Kansas Power & Light Co.; Filing

April 22, 1983.

The filing Company submits the following:

Take notice that on April 18, 1983, the Kansas Power and Light Company (KPL) tendered for filing a newly executed renewal contract dated April 5, 1983 with the City of Scranton, Kansas for wholesale service to the community. KPL states that this contract permits the City of Scranton to receive service under rate schedule WSM-81 designated Supplement No. 7 to R.S. FERC No. 129.

KPL proposes an effective date of May 1, 1983, and therefore requests waiver of the Commission's notice requirements.

KPL further states that the proposed contract change provided essentially for the ten year extension of the original terms of the presently approved contract.

Copies of the filing have been served upon the City of Scranton and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before May 10, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kennth F. Plumb,

Secretary.

[FR Doc. 83-11241 Filed 4-26-83; 8:45 am]

BILLING CODE 6717-01-M

Docket No. GP83-24-00

Minerals Management Service, Section 102 Determination, Getty Oil Company, North Bilbrey "7" Federal Well No. 1, FERC J.D. No. 82-53262; Petition To Reopen Final Well Category Determination and Request for Withdrawal

Issued April 22, 1983.

On March 21, 1983, Getty Oil Company (Getty) filed with the Federal Energy Regulatory Commission (Commission) a petition to reopen and a request to withdraw, its determination that the North Bilbrey "7" Federal Well No. 1 located in the Lea County, New Mexico qualifies as a new onshore well pursuant to section 102 of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301—3432 (Supp. V 1982). The subject determination became final on October 18, 1982, in accordance with NGPA section 503(d) and § 275.202(a) of the Commission's regulations (18 CFR 275.202(a)).

In order for a well to be a "new onshore well" and thereby qualify for pricing under NGPA section 102(c)(1)(B)(i), it must, *inter alia*, be at least 2.5 miles or more from the nearest marker well." NGPA section 2(5)(A) defines a marker well as ". . . any well from which natural gas was produced in commercial quantities at any time after January 1, 1970, and before April 20, 1977." Getty states that the Texaco 1-State of New Mexico "CM" Well, which falls within a 2.5 mile radius of Getty's North Bilbrey "7" Federal Well No. 1, produced in commercial quantities between January 1, 1979 and April 20, 1977. Because the subject well was within 2.5 miles of the Texaco 1-State of New Mexico "CM" Well, which qualifies as a marker well pursuant to section 2(5)(A), Getty states that it does not qualify as a new onshore well under NGPA section 102(c)(1)(B)(i).

Notice is hereby given that, in the event the subject determination is reopened, the question of whether the Commission will require refunds, plus interest computed under § 154.102(c) of the regulations, is a matter subject to the review and final decision of the Commission.

Any person desiring to be heard or to make any protest to the requested reopening and withdrawal should file, within 30 days after this notice is published in the **Federal Register**, with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of Rules 214 or 211 of the Rules of practice and Procedure. All protests filed will be considered but will not make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-11242 Filed 4-26-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. SA83-10-000]

Montana-Dakota Utilities Co.; Request for Adjustment Under Section 502(c) of the NGPA

Issued April 22, 1983.

On March 31, 1983, Montana-Dakota Utilities Co. (MDU), 400 North Fourth Street, Bismarck, North Dakota, 58501, filed with the Federal Energy Regulatory Commission (Commission) an application for adjustment pursuant to section 502(c) of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301-3432 (Supp). V 1982) and Rules 1101-1117, Subpart K of the Commission's Rules of Practice and Procedure, 18 CFR 385.1101-.1117. MDU also requests interim relief pending determination of its petition.

MDU seeks relief from §§ 282.502 and 282.602(d) of the Commission's regulations. Section 282.502 requires that a natural gas supplier establish and maintain Accounts No. 192.1 and 805.2, as prescribed in the Uniform System of Accounts, to account for unrecovered incremental gas costs. Section 282.602(d) requires that the entries made in Accounts No. 192.1 and 805.2 be summarized in a supplement to be filed with each PGA filing made pursuant to § 154.38(d) of the Commission's regulations.

In support of its application, MDU states that it has no non-exempt boiler fuel industrial customers served under the jurisdictional rate schedules for on-system service and that it does not anticipate the addition of any such customers. Consequently, MDU avers that there is no basis upon which it could make the PGA reduction contemplated by §§ 282.601 and 282.602.

MDU further states that in addition to its jurisdictional sales, it operates a distribution company in Montana, North Dakota, South Dakota and Wyoming. Each of these states has adopted industrial tariff provisions for gas used for non-exempt boiler fuel purposes. MDU states that the non-exempt boiler fuel customers served by its distribution operations have no MSACs which could absorb incremental pricing surcharges, as the state tariffs provide that the rate to non-exempt fuel users shall be the higher of the otherwise applicable industrial rate or the alternative fuel price ceilings applicable to those users as published by DOE's Energy Information Administration. Accordingly, MDU alleges that the accounting entries required in Accounts No. 192.1 and 805.2 are "totally useless," as there are no amounts to be collected through incremental pricing surcharges to be credited to Account No. 192.1 and debited to Account No. 805.2.

MDU submits that having to comply with the accounting requirements set forth in § 282.502 for Accounts No. 192.1 and 805.2, and to develop the supplement required by § 282.602(d) constitutes a special hardship, inequity, and unfair distribution of burdens due to the increased manpower and operating expenses incurred as a result of such compliance.

The procedure applicable to the conduct of this adjustment proceeding are found in Subpart K of the Commission's Rules of Practice and Procedure, 18 CFR 385.1101-.1117 (47 FR 19014, May 7, 1982).

Any person desiring to participate in this proceeding shall file a motion to intervene in accordance with Rule 1105 of the Commission's Rules of Practice and Procedure. All motions to intervene must be filed within 15 days after publication of this notice in the **Federal Register.**

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-279-000]

Producer-Suppliers of Transcontinental Gas Pipe Line Corp.; Application

April 21, 1983.

Take notice that on April 15, 1983, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP83-279-000 an application pursuant to Section 7 of the Natural Gas Act on behalf of producers currently selling gas to Transco pursuant to certificates of public convenience and necessity issued pursuant to Section 7(c) of the Natural Gas Act for (1) permission and approval for the abandonment of certificated sales to Transco and (2) a certificate of public convenience and necessity authorizing the sale in interstate commerce of such abandoned reserves to certain customers of Transco for a limited period, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application states that in connection with an offer of settlement filed April 13, 1983, by Transco in its rate proceeding in Docket No. RP83-11-000, Transco has agreed to implement an experimental Industrial Sales Program (ISP) whereunder Transco would arrange, as agent for its customers, gas supplies to be purchased by eligible customers for the purposes of keeping natural gas prices competitive with the prices of alternate fuels and of maintaining historical throughput levels on Transco's system. In the instant application, Transco states that the authorizations sought in this case are necessary to permit the inclusion in the

ISP program, which is limited to the period April 1 through October 31, 1983, of gas supplies which presently are sold to Transco under certificates of public convenience and necessity and which its producer-suppliers voluntarily elect to divert temporarily for sale to Transco's customers. The application also states that except to the extent that such gas supplies are utilized for the limited scope and term of the ISP program, Transco's long-term gas supplies would remain the same.

It is asserted that under the ISP program all Natural Gas Policy Act of 1978 price categories of gas supplies are eligible to participate; therefore, Transco may release gas reserves tendered by producers that do not require abandonment authority under Section 7(b) or a certificate under Section 7(c) of the Natural Gas Act in order to participate therein.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 6, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20436, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transco to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. QF83-137-000]

Richard T. Immel; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

April 22, 1983.

On January 11, 1983, Richard T. Immel (Applicant) of 3911 Via Del Campo, San Clemente, California 92672, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules. On April 1, 1983 supplementary information was filed regarding the facility.

The facility is located in Boulevard, California. The generating capacity of the facility is 240 kilowatts. The primary energy source is wind. There are no other small power production wind facilities owned by the applicant located within one mile of the site. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-463-000]

Southwestern Electric Power Co.; Filing

April 22, 1983.

The filing Company submits the following:

Take notice that on April 18, 1983, Southwestern Electric Power Company (SWEPCO), tendered for filing an interconnection agreement between SWEPCO and the Grand River Dam Authority (GRDA), dated March 30, 1983. SWEPCO indicates the agreement provides for the parties to obtain mutual benefits and advantages in planning and operation and opportunities from time to time to purchase, sell and/or exchange electric power and energy from one system to the other.

SWEPCO requests an effective date of March 30, 1983, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon the Arkansas Public Service Commission, Louisiana Public Service Commission, Oklahoma Corporation Commission, Pubic Utility Commission of Texas, and the Grand River Dam Authority.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214) All such motions or protests should be filed on or before May 10, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc. 83-11246 Filed 4-26-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. GP83-18-000]

State of Colorado, Oil & Gas Conservation Commission, J-W Operating Company, Malcolm Akey #2 Well, FERC J.D. No. 82-22128, Malcolm Akey #3 Well, FERC J.D. No. 82-22129; Petition To Reopen and Vacate Final Well Category Determinations and Request To Withdraw

April 22, 1983.

On December 6, 1982, J-W Operating Company (J-W) filed with the Federal Energy Regulatory Commission (Commission) a copy of its request to the Colorado, Oil & Gas Conservation Commission (Colorado) that the well category determinations, that natural gas from the Malcolm Akey #2 and #3 Wells qualifies for pricing as new natural gas pursuant to section 102 of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. §§ 3301-3432 (Supp. V 1982), be "cancelled." The well category determinations made by Colorado became final determinations on April 23, 1982, pursuant to NGPA section 503(d) and 18 CFR 275.202(a).[1]

J-W states that its section 102(c)(1)(B) filings were made based on the best information available at the time but that J-W has since discovered that the Malcolm Akey #2 and #3 Wells do not qualify under NGPA section 102, as they are located within 2.5 miles of a marker well and are not 1,000 feet deeper. J-W further states that no collections were made under the section 102 determinations and that applications were submitted for NGPA section 107 classification and received by Colorado on August 17, 1981. The wells were placed on line January 4, 1982, and according to J-W the price collected from initial production was the maximum lawful price under NGPA section 107.

The Commission hereby gives notice tha the question of whether refunds, plus interest as computed under § 154.102(c), will be required is a matter which is subject to the review and final determination of the Commission.

Any person desiring to be heard or to make any protest to the requested reopening and withdrawal should file, within 30 days after this notice is published in the **Federal Register**, with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a motion to intervene or protest in accordance with the requirements of Rules 214 or 211 of the Rules of Practice and Procedure. All protests filed will be considered but will not make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's Rules.

BILLING CODE 6717-01-M

[Project Nos. 2157-011, et al.]

Public Utility District No. 1 of Snohomish County and the City of Everett, WA, et al.; Applications Filed With the Commission

Take notice that the following hydroelectric applications have been filed with the Federal Energy Regulatory Commission and are available for public inspection:

a. Type of Application: Amendment of License.

b. Project No: 2157-011.

c. Date Filed: December 20, 1982.

d. Applicants: Public Utility District No. 1 of Snohomish County and the City of Everett, Washington.

e. Name of Project: Sultan River.

f. Location: On Sultan River in Snohomish County, Washington.

g. Filed Pursuant to: Federal Power Act 16 U.S.C. 791(a)-825(r).

h. Contact Person: Mr. W. G. Hulbert, Jr., Manager, Public Utility District No. 1 of Snohomish County, P.O. Box 1107, Everett, Washington 98206.

i. Comment Date: June 6, 1983.

j. Description: Licensee filed a revised Exhibit R (Recreation Plan) on December 20, 1982, in accordance with Article 52 of the Order Amending License issued on October 16, 1981. Licensee proposes the development of three boat launch sites; two with ramps for trailered boats and one for car-top boats. The sites, and attendant day-use facilities would be located along the southeastern shore of Spada Lake. The present restrictions on the use of organic bait, shoreline fishing and the use of rubber rafts at Spada Lake would be lifted, and the use of electric motors only would be permitted. The revised Exhibit R would also provide for the rehabilitation of certain existing areas for project overlooks, and the development of a new overlook on the north side of the reservoir. A fishing access and day-use facilities are proposed along the West bank of the Sultan River, between the City of Everett's diversion dam and the powerhouse. In addition, Licensee proposes to cooperate with the Washington State Parks and Recreation Commission in the development of back-country overnight camping facilities at the off-site Wallace Lake in lieu of development of such facilities within the Sultan River watershed.

k. This notice also consists of the following standard paragraphs: B, C, and D2.

2. a. Type of Application: Major License (over 5 MW).

b. Project No: 2909-001.

c. Date Filed: November 24, 1982.

d. Applicant: Town of Vidalia, Louisiana.

e. Name of Project: Lock and Dam No. 4.

f. Location: Near the town of Coushatta, Red River Parish, Louisiana, on the Red River.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)-825(r).

h. Contact Person: J. B. Lancaster, Jr., V.P., Forte and Tablada, Inc., P.O. Box 64844, Baton Rouge, Louisiana 70896.

i. Comment Date: June 27, 1983.

j. Description of Project: The proposed project would be located at the proposed U.S. Army Corps of Engineers Lock and Dam #4 of the Red River Waterway Project. The proposed hydroelectric facility would consist of a new powerhouse containing two turbine-generators with a total rated capacity of 36 MW built integrally to the south abutment of the Corps' proposed gated spillway structure, a tailrace channel, a switchyard and a 13.8-mil-long 138-kV transmission line. The transmission line would be overbuilt on existing Central Louisiana Power and

Light transmission lines for approximately 11.3 miles to the Caroll sub-station. The Applicant plans to construct the project concurrently with the Corps' construction of Lock and Dam #4. The project would generate up to 1,544,526,000 kWh annually.

k. Purpose of Project: Energy produced at the project would be sold to the Louisiana Energy and Power Authority. This application was filed during the term of the preliminary permit issued to the Town of Vidalia, FERC Project No. 2909–000.

l. This notice also consists of the following standard paragraphs: A2, B, C and D1.

3. a. Type of Application: Exemption of Small Hydroelectric Power Project.

b. Project No: 2936–001.

c. Date Filed: January 27, 1983.

d. Applicant: White Hydropower Company.

e. Name of Project: Sears Hydroelectric Project.

f. Location: Rock River, Rock Island County, Illinois.

g. Filed Pursuant to: 18 CFR Part 4 Subpart K (1982).

h. Contact Person: Mr. Mitchell M. White, 1855 Glendale Road, Clinton, Iowa 52732.

i. Comment Date: June 3, 1983.

j. Description of Project: The proposed project would consist of: (1) the existing Sears and Steel Dams, each a concrete overflow structure, about 13 feet high and 460 feet long, and 3.5 feet high and 760 feet long, respectively; (2) the existing Sears Powerhouse, with a proposed installation of two 300 kW generating units; and (3) appurtenant facilities. Both dams and the powerhouse are owned by the State of Illinois and leased to the Applicant for a period of 20 years. Applicant estimates the average annual generation to be 5.077 GWh.

k. Purpose of Project: The power generated would be sold to Iowa-Illinois Gas and Electric Company.

l. This notice also consists of the following standard paragraphs: A1, B, C, and D3a.

a. Type of Application: Exemption of Conduit Hydroelectric Facility.

b. Project No: 4490–001.

c. Date Filed: March 19, 1982.

d. Applicant: Richvale Irrigation District.

e. Name of Project: Sutter-Butte Project.

f. Location: On the Sutter-Butte Canal in Butte County, California.

g. Filed Pursuant to: Section 30 of the Federal Power Act, 16 U.S.C. 823(a).

h. Contact Person: Mr. Loyd E. Horn, Richvale Irrigation District, P.O. Box 147, Richvale, California 95974.

i. Comment Date: June 6, 1983.

j. Competing Application: Project No. 5163–000, Date filed: July 31, 1981.

k. Description of Project: The proposed project would consist of: (1) installation of a steel lining in the four existing Sutter-Butte Canal outlet culverts; (2) a 400-foot-long, 13-foot-diameter penstock connected to the outlet structure; and (3) a powerhouse located in the canal, containing two 1,500-kW generating units and a bypass conduit. Applicant estimates the project would have an average annual energy production of 11,000 MWh.

l. Competing Applications: Any qualified license, conduit exemption, or small hydroelectric exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license, conduit exemption, or small hydroelectric exemption application, or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing license, conduit exemption, or small hydroelectric exemption application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permit will not be accepted in response to this notice.

A notice of intent must conform with 18 CFR 4.33(b) and (c) and 18 CFR 4.104(d).

m. Filing and Service of Responsive Documents: Any filings must bear in all capital letters the title "NOTICE OF INTENT TO FILE COMPETING APPLICATION" or "COMPETING APPLICATION", as applicable, and the Project Number of the particular application to which the filing is in response. Either of the above named documents must be filed by providing the original and the number of copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Project Management Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent or competing application must also be served upon each representative of the Applicant specified in the particular application.

5 a. Type of Application: Exemption from Licensing for a 5MW or Less Project.

b. Project No: P–5306–001.

c. Date Filed: December 27, 1982.

d. Applicant: Mega Hydo, Inc.

e. Name of Project: Mega Hydro #1 Power Project.

f. Location: On Clover Creek, near Oak Run, in Shasta County, California.

g. Filed Pursuant to: Section 408 of the Energy Security Act, 16 U.S.C. 2705 and 2708, as amended.

h. Contact Person: Mr. Fred G. Castagna, Vice President, Mega Hydro, Inc. 2576, Hartnell Avenue, Redding, California 96002.

i. Comment Date: June 8 1983.

j. Description of Project: The proposed project would consist of: (1) a 4-foot-high, 32-foot-long diversion structure; (2) a 4,400-foot-long trapezoidal ditch; (3) six 4-foot-high, by 4-foot-long intake structure screens; (4) a 33-inch-diameter, 5,720-foot-long steel penstock; (5) a powerhouse to contain one generating unit with a rated capacity of 1,000 kW; and (6) an 16,100-foot-long transmission line from the powerhouse to an existing 60-kV Pacific Gas and Electric Company (PG&E) transmission line. The Applicant estimates the average annual energy generation at 4.3 million kWh which would be sold to PG&E.

k. This notice also consists of the following standard paragraphs: A1, B, C, and D3a.

6 a. Type of Application: License (under 5 MW).

b. Project No: 6700–000.

c. Date Filed: September 23, 1982.

d. Applicant: Georgetown Hydro Associates.

e. Name of Project: Georgetown Hydro Project.

f. Location: C&O Canal on the Potomac River, in Washington, D.C.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Graig Lussi, 4105 Aspen Street, Chevy Chase, Maryland 20815.

i. Comment Date: June 29, 1983.

j. Description of Project: The proposed project would consist of: (1) the restoration of an existing intake structure; (2) an existing concrete penstock 10 feet in diameter and 66 feet long; (3) restoration of the existing powerhouse and one generating unit with a capacity of 700 kW; (4) an existing tailrace; and (5) appurtenant facilities.

The C&O Canal takes water from the Potomac River diverted by the U.S. Army Corps of Engineers Diversion Weir at Little Falls. The C&O Canal is owned and operated by the United States Department of the Interior National Park Service. The Applicant owns all the other project facilities. The Applicant estimates the average annual energy would be 6,132,000 kWh.

Estimated cost of project construction is $600,000.

k. Purpose of Project: All project energy would be sold to Potomac Electric Power Company.

l. This notice also consists of the following standard paragraphs: A2, B, C and D1.

7 a. Type of Application: Preliminary Permit.

b. Project No: 6832–000.

c. Date Filed: November 5, 1982.

d. Applicant: Butte-Silver Bow Government.

e. Name of Project: Basin Creek.

f. Location: Silver Bow County, Montana.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Mr. Don Peoples, Chief Executive, Government of Butte-Silver Bow Courthouse, Butte, Montana 59701.

i. Comment Date: June 27 1983.

j. Description of Project: The proposed project would consist of: (1) proposed two 14 inch penstocks approximately 2,500-feet long and 3,500-feet long, respectively; (2) a proposed three quarters of a mile, 7200 volt transmission line; (3) a proposed powerhouse containing two generating units rated at 90 kW and 190 kW, respectively. The Applicant estimates the average annual energy output to be 1,960,000 kWh. A portion of the project would occupy lands owned by the U.S. Forest Service.

k. Purpose of Project: The Applicant proposes to sell the generated power to either the Montana Power Company or the Vigilante Electric Cooperative.

l. This notice also consists of the following standard paragraphs: A4a. A4c, B, C, and D2.

8 a. Type of Application: Exemption from Licensing.

b. Project No: 6840–000.

c. Date Filed: November 10, 1982.

d. Applicant: Olympus Energy Corporation.

e. Name of Project: Tyler Peak Hydroelectric.

f. Location: On Upper Dungeness River, within Olympic National Forest, near Sequim, in Clallam County, Washington.

g. Filed Pursuant to: Section 408 of the Energy Security Act of 1980, 16 U.S.C. 2705 and 2708 *as amended.*

h. Contact Person: Mr. Jerome Livingston, 201–215th Street, S.E. Bothell, Washington 98011.

i. Comment Date: June 6, 1983.

j. Description of Project: The proposed project would consist of: (1) a 5-foot-high, 75-foot-long concrete diversion structure; (2) a 8,000-foot-long, 54-inch-diameter steel pipeline; (3) a 1,000-foot-long, 54-inch-diameter steel penstock; (4) a powerhouse containing two generating units with a total installed capacity of 4.88 MW; and (5) a 6.5-mile-long transmission line. The applicant estimates the average annual energy production at 29.9 million kWh.

k. Purpose of Project: Project power would be sold to a local public utility.

l. This notice also consists of the following standard paragraphs: A1, B, C, and D3a.

9 a. Type of Application: Preliminary Permit.

b. Project No: 6864–000.

c. Date Filed: December 20, 1982.

d. Applicant: City of Buffalo.

e. Name of Project: Buffalo Water Power.

f. Location: Johnson County, Wyoming.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Mr. W. H. Edelman III, President, Hydro Management Inc., Route 1, Box 169, Ronan, Montana 59864.

i. Comment Date: June 27, 1983.

j. Description of Project: The proposed project would consist of: (1) proposed diversion structures; (2) proposed 15 inch diameter penstocks; (3) a proposed powerhouse containing 1 generating unit rated at 600 kW; (4) a proposed 29 kV transmission line; and (5) appurtenant facilities. The Applicant estimates the average annual energy output to be 3,832 MWh.

k. Purpose of Project: The Applicant proposes to sell the generated power to the Pacific Power and Light Company.

l. This notice also consists of the following standard paragraphs: A4a, A4c, B, C, and D2.

10 a. Type of Application: Small Conduit Exemption.

b. Project No: 6919–000.

c. Date Filed: December 10, 1982.

d. Applicant: James B. Peter.

e. Name of Project: Peter Ranch Power Project.

f. Location: On the Peter Ranch irrigation system, which diverts water from Peter's Creek in Plumas County, California.

g. Filed Pursuant to: Section 30 of the Federal Power Act [16 U.S.C. 823(a)].

h. Contact Person: James B. Peter, Route 1, Box 45 Greenville, California 95947.

i. Comment Date: June 6, 1983.

j. Description of Project: The proposed project would consist of: (1) a powerhouse containing a turbine-generator with a rated capacity of 15 kW and an average annual production of 83,000 kWh; and (2) a 10-foot-long tailrace return to the irrigation system.

k. Purpose of Project: The purpose of the project is to produce electricity from the potential energy of an existing irrigation system. The Applicant proposes to sell electricity produced to the Pacific Gas and Electric Company.

l. This notice also consists of the following standard paragraphs: B, C and D3b.

11a. Type of Application: Exemption.

b. Project No: 6932–000.

c. Date Filed: December 14, 1982.

d. Applicant: The Pacific Lumber Company and Bernice R. and Christine E. Bankdull.

e. Name of Project: Grizzly Creek.

f. Location: On Grizzly Creek in Humboldt County, California.

g. Filed Pursuant to: Energy Security Act of 1980 (16 U.S.C. 2705 and 2708 *as amended*).

h. Contact Person: Mr. Warren D. Flinchpaugh, The Pacific Lumber Company, P.O. Box 37, Scotia, California 95565 and Mr. John R. Winzler, Winzler & Kelly Engineers, P.O. Box 1345, Eureka, California 95501.

i. Comment Date: June 8, 1983.

j. Description of Project: The proposed project would consist of: (1) a 3-foot-high diversion structure at elevation 1,100 feet (msl); (2) a 30-inch-diameter, 5,200-foot-long low pressure conduit; (3) a 30-inch-diameter, 5,700-foot-long penstock; (4) a powerhouse containing a single generating unit with a rated capacity of 1,310 kW; and (5) a 1.5-mile-long, 12-kV transmission line connecting the powerhouse to an existing Pacific Gas and Electric Company (PG&E) line west of the powerhouse.

k. Purpose of Project: Project energy would be sold to PG&E.

l. This notice also consists of the following standard paragraphs: A1, B, C and D3a.

12a. Type of Application: License (under 5 MW).

b. Project No: 7020–000.

c. Date Filed: January 24, 1983, and revised on March 11, 1983.

d. Applicant: Auburn Hydro, Inc.

e. Name of Project: Division Street.

f. Location: On the Owasco Lake Outlet in the City of Auburn, Cayuga County, New York.

g. Filed Pursuant to: 16 U.S.C. 791(a)–825(r).

h. Contact Person: James J. Glass, P.O. Box 845, Auburn, New York 13021.

i. Comment Date: June 6, 1983.

j. Competing Application: Project No. 6785–000. Date Filed: October 20, 1982.

k. Description of Project: The proposed project would consist of the following existing facilities: (1) an 11½-foot-high 100-foot-long gravity-type dam having an inoperative intake structure at the right (north) abutment and a waste gate at the left abutment; (2) a reservoir

having a surface area of 2.0 acres and a gross storage capacity of 6.0 acre-feet at spillway crest elevation 622.21 feet m.s.l.; (3) a breached intake canal along the left (south) bank; (4) a gated intake structure; (5) a powerhouse containing an inoperative generating unit having a rated capacity of 410-kW under a 25-foot head and at a flow of 420 cfs; (6) a tailrace; and (7) miscellaneous appurtenances.

Applicant proposes to redevelop the existing facilities and would: (1) reconstruct the dam and powerhouse; (2) repair the intake canal and intake structure; (3) replace the waste gate; (4) renovate the generating unit and switchgear; and (5) install a short 15-kV transmission line. Applicant estimates that the proposed project would cost $625,000.

In the future Applicant would provide an additional generating unit having a rated capacity of 470-kW operated under a 25-foot head and at a flow of 480 cfs. Applicant estimates that the proposed future generating unit would cost $1,200,000.

l. Purpose of Project: Project energy would be sold to New York State Electric and Gas Corporation. Applicant estimates that the average annual energy output would be 2,634,312 kWh. The proposed future generating unit would provide an additional 976,536 kWh annually.

m. This notice also consists of the following standard paragraphs: A2, B, C and D1.

13a. Type of Application: Preliminary Permit.

b. Project No: 7048–000.

c. Date Filed: February 1, 1983.

d. Applicant: The Metropolitan District.

e. Name of Project: Collinsville Project.

f. Location: On the Farmington River in Hartford and Litchfield Counties, Connecticut.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)—825(r).

h. Contact Person: Bernard A. Batycki, District Manager, The Metropolitan District, 555 Main Street, Hartford, Connecticut 06103.

i. Comment Date: June 27, 1983.

j. Description of Project: The proposed project would include the following existing facilities: (1) the 350-foot-long and 18-foot-high Upper Collins Company Dam with provisions for 3-foot-high flashboards; (2) a reservoir with a storage capacity of 350 acre-feet; (3) a 50-foot-wide intake channel 180 feet long at the right (west) bank; (4) a powerhouse with old generating equipment; (5) a tailrace; (6) sluice gates and a forebay at the left (east) bank; (7) a canal; (8) a powerhouse with old generating equipment; (9) a tailrace; (10) the 350-foot-long and 20-foot-high Lower Collins Company Dam; (11) a reservoir with a storage capacity of 180 acre-feet; (12) a gatehouse at the left abutment (east); (13) a 50-foot-wide and 650-foot-long canal; (14) a powerhouse with old generating equipment; (15) a tailrace; and (16) other appurtenances. Applicant proposes various alternatives for power generation at both sites, to include: the rehabilitation of some existing units and installation of new generating units at the existing powerhouses; removal of existing equipment and installation of new units in the existing powerhouses; or, the construction of 2 new powerhouses at the left bank. Applicant proposes an installed capacity of 1,500 kW at each site, and estimates a total average annual generation of 11,000,000 kWh.

k. Purpose of Project: Project energy would be sold to the Hartford Electric Company.

l. This notice also consists of the following standard paragraphs: A4a, A4c, B, C and D2.

m. Proposed Scope of Studies under Permit: A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 2 years during which time Applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, the Applicant would decide whether to proceed with an application for FERC license. Applicant estimates the cost of the studies under permit would be $120,000.

14a. Type of Application: Preliminary Permit.

b. Project No: 7075–000.

c. Date Filed: February 14, 1983.

d. Applicant: Northern Wasco County People's Utility District.

e. Name of Project: McNary Dam Fish Attraction.

f. Location: On the Columbia River, at McNary Dam, near Umatilla, in Benton County, Washington.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)—825(r).

h. Contact Person: Harold E. Haake, Manager, Northern Wasco County People's Utility District, P.O. Box 621, The Dalles, Oregon 97058.

i. Comment Date: June 20, 1983.

j. Description of Project: The proposed project would consist of: (1) two turbine-generating units, one rated at 2.7 MW and one rated at 4.3 MW, to be installed in two conduits of the existing Corps of Engineers' NcNary Dam; and (2) an 1,800-foot-long transmission line. The average annual energy generation is estimated to be 41 million kWh.

A preliminary permit does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months during which it would conduct feasibility studies and prepare an FERC license application. No new roads woud be required. The cost would be $130,000.

k. Purpose of Project: Power would be used in the Applicant's service area.

l. This notice also consists of the following standard paragraphs: A4a, A4c, B, C, D2.

15a. Type of Application: Preliminary Permit.

b. Project No: 7134–000.

c. Date Filed: March 10, 1983.

d. Applicant; Mountain West Hydro, Inc.

e. Name of Project: Squirrel Creek Hydroelectric.

f. Location: On Squirrel Creek, within Mt. Hood National Forest, near Estacada, Marion County, Oregon.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Mr. David L. Browning, Mountain West Hydro, Inc., 2155 Christina N.W., Salem, Oregon 97304.

i. Comment Date: June 30, 1983.

j. Description of Project: The project would consist of: (1) a 6-foot-high, 40-foot-long concrete diversion structure at an elevation of 3,600 feet; (2) a 5,285-foot-long, 24-inch-diameter pipeline; (3) a powerhouse containing one generating unit with an installed capacity of 510 kW; and (4) a 19,800-foot-long, 69-kV transmission line. The Applicant estimates that the average annual energy production would be 2.79 million kWh.

A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months during which time it would conduct technical, environmental and economic studies. No new roads would be needed for conducting these studies. The Applicant estimates that the cost of undertaking these studies would be $83,000.

k. Purpose of Project: Project power would be sold to Portland General Electric Company.

l. This notice also consists of the following standard paragraphs: A4a, A4c, B, C and D2.

16a. Type of Application: Preliminary Permit.

b. Project No: P–7137–000.

c. Date Filed: March 10, 1983.

d. Applicant: Springfield Associates #2.

e. Name of Project: North Fork #2

f. Location: On the North Fork of Middle Fork Willamette River in Lane County, Oregon, within the Willamette National Forest near the Town of Westfir.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Mr. Tom Forbes, P.O. Box 421, Mercer Island, Washington 98040 with a copy to: Mr Joel Rector, Attorney at Law, 4832 Colony Circle, Salt Lake City, Utah 84117.

i. Comment Date: June 27, 1983.

j. Description of Project: The proposed project would consist of: (1) an 80-foot-high, 1,110-foot-long dam at elevation 1,320 feet; (2) a reservoir having a surface area of 90 acres and a storage capacity of 2,200 acre-feet; (3) a 700-foot-long steel penstock; (4) a powerhouse containing a single 5.3-MW generating unit capable of an average annual generation of 20,900 MWh; and (5); a 10-mile-long, 34.5-kV transmission line.

A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a 24-month preliminary permit to conduct engineering, economic, and environmental feasibility studies and to prepare an application for an FERC license. Those studies would include core borings and test pits at the dam site, penstock route, and powerhouse site. No new roads would be constructed to conduct the studies and all disturbed lands would be restored. Applicant estimates the cost of the above studies to be $150,000.

k. This notice also consists of the following standard paragraphs: A4b, A4c, A4d, B, C and D2.

17a. Type of Application: Preliminary Permit.

b. Project No: 7146–000.

c. Date Filed. March 15, 1983.

d. Applicant: County of Butte.

e. Name of Project: Butte Creek.

f. Location: On Butte Creek, on lands managed by the Bureau of Land Management and within the Lassen National Forest, near Paradise, in Butte County, California.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Mr. Delbert Siemsen, Counsel, County of Butte, 25 County Center Drive, Oroville, California 94965.

i. Comment Date: June 8, 1983.

j. Competing Application: Project No. 6896–000. Date filed: December 16, 1982.

k. Description of Project: The proposed project would consist of: (1) a 270-foot-high, 1,400-foot-long earthen dam at a crest elevation of 2,270 feet, creating a reservoir with a storage capacity of 12,600 acre-feet; (2) a 16,000-foot-long, 9-foot-diameter conduit/tunnel; (3) a surge tank; (4) a 2,000–foot-long, 9-foot-diameter penstock; (5) a powerhouse containing two generating units with a total installed capacity of 32 MW; and (6) a 800-foot-long, 60-kV transmission line connecting to an existing PG&E transmission line. The Applicant estimates that average annual energy production would be 68 million kWh.

A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months during which time it would conduct technical, environmental and economic studies. No new roads would be needed for conducting these studies. The Applicant estimates that the cost of undertaking these studies would be $450,000.

l. Purpose of Project: Project power would be sold to PG&E.

m. This notice also consists of the following standard paragraphs: A3, B, C and D2.

18a. Type of Application: Preliminary Permit.

b. Project No: 7176–000.

c. Date Filed: March 28, 1983.

d. Applicant: Hydro-Cor, Inc.

e. Name of Project: Roaring River Waterpower.

f. Location: On Roaring River in Clackamas County, Oregon near the Town of Estacada, within the Mt. Hood National Forest.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Contact Person: Mr. L. Maurice Baker, Small Scale Hydropower, Suite 1211, 319 S.W. Washington, Portland, Oregon 97204.

i. Comment Date: June 30, 1983.

j. Description of Project: The proposed project would consist of: (1) an intake structure at elevation 1,600 feet; (2) a 60-inch-diameter, 19,000-foot-long penstock; (3) a powerhouse containing a single generating unit with a rated capacity of 7,000 kW; and (4) a transmission line. The average annual energy output would be 30 million kWh.

A preliminary permit, if issued does not authorize construction. The Applicant seeks a 24 month permit to study the feasibility of construction and operating the project. No new access road will be needed for the purpose of conducting these studies. The estimated cost for conducting these studies is $75,000.

k. Purpose of Project: Power produced by the proposed project will be sold to Portland General Electric Company.

l. This notice also consists of the following standard paragraphs: A4a, A4c, B, C, and D2.

Competing Applications

A1. Exemptions for Small Hydroelectric Power Project under 5MW Capacity—Any qualified license applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license application that proposes to develop at least 7.5 megawatts in the project, or a notice of intent to file such a license application. Submission of a timely notice of intent allows an interested person to file the competing license application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permit will not be accepted.

A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1982). A competing license application must conform with the requirements of 18 CFR 4.33(a) and (d).

A2. Applications for License—Anyone desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either the competing application itself (see 18 CFR 4.33(a) and (d), and Part 16, where applicable) or a notice of intent (see 18 CFR 4.33(b) and (c)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c) or §§ 4.101 to 4.104 (1982).

A3. Public notice of the filing of the initial application, which has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, no competing application for license, examination or preliminary permit, or notices of intent to file competing applications, will be accepted for filing in response to this notice (see 18 CFR 4.30 to 4.33 or §§ 4.101 to 4.104 (1982), as appropriate). Any application for license or exemption from licensing, or notice of intent to file a license or an exemption application, must be filed in accordance with the Commission's regulations (see 18 CFR 4.30 to 4.33 or §§ 4.101 to 4.104 (1982), as appropriate.

Preliminary Permits

A4a. Existing Dam or Natural Water Feature Project—Anyone desiring to file a competing application for preliminary permit for a proposed project at an

existing dam or natural water feature project, must submit the competing application to the Commission on or before 30-days after the specified comment date for the particular application (see 18 CFR 4.30 to 4.33 (1982)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

A4b. No Existing Dam—Anyone desiring to file a competing application for preliminary permit for a proposed project where no dam exists or there are proposed to be major modifications, must submit to the Commission on or before the specified comment date for the particular application, the competing application istelf, or a notice of intent to file such an application (see 18 CFR 4.30 to 4.33 (1982)).

A4c. The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before the specified comment date for the particular application. Any application for license or exemption from licensing must be filed in accordance with the Commission's regulations (see 18 CFR 4.30 to 4.33 or §§ 4.101 to 4.104 (1982), as appropriate).

A4d. Submission of a timely notice of intent to file an application for preliminary permit allows an interested person to file an acceptable competing application for preliminary permit no later than 60 days after the specified comment date for the particular application.

B. *Comments, Protests, or Motions to Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 385.210, .211, .214 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C. *Filing and Service of Responsive Documents*—Any filing must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST" or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing is in response. Any of the above named documents must be filed by providing the original and the number of copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments

D1. License applications (5 MW or less capacity)—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the Federal Power Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historical and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88–29, and other applicable statutes. No other formal requests for comments will be made.

Comments should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the Applicant. If an agency does not file comments with the Commission within the time set for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

D2. Preliminary permit applications—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the applicant.) If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to Applicant's representatives.

D3a. Exemption applications (5 MW or less capcity)—The U.S. Fish and Wildlife Service, The National Marine Fisheries Service, and the State Fish and game agency(ies) are requested, for the purposes set forth in Section 408 of the Act, to file within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

D3b. Exemption applications (Conduit)—The U.S. Fish and Wildlife Service, The National Marine Fisheries Service, and the State Fish and Game agency(ies) are requested, for the purposes set forth in Section 30 of the Act, to file within 45 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 45 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Dated: April 22, 1983.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

ENVIRONMENTAL PROTECTION AGENCY

[PF-323; PH-FRC #2351-8]

Certain Companies; Pesticide, Food and Feed Additive Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received pesticide, food, and feed additive petitions relating to the establishment of tolerances for residues of certain pesticide chemicals in or on certain commodities.

ADDRESS: Written comments to the product manager (PM) cited in each petition at the address below: Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 1921 Jefferson Davis Highway, Arlington, VA 22202.

Written comments may be submitted while the petitions are pending before the Agency. The comments are to be identified by the document control number [PF-323] and the petition number. All written comments filed in response to this notice will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: The product manager cited in each petition at the telephone number provided.

SUPPLEMENTARY INFORMATION: EPA give notice that the Agency has received the following pesticide, food, and feed additive petitions relating to the establishment of tolerances for residues of certain pesticide chemicals in or on certain commodities in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues where required, is given in each petition.

Initial Filings

1. *FAP 3H5391.* Uniroyal Chemical, 74 Amity Rd, Bethany, CT 06525. Proposed amending 21 CFR Part 561 by establishing a regulation permitting residues of the insecticide 5-(4-chlorophenyl)-2,3-diphenylthiophene in connection with an experimental use program resulting from application of the pesticide in the growing crop citrus with a tolerance limitation of 2.0 parts per million (ppm) in or on dried citrus pulp. (PM-12, Jay Ellenberger, 703-557-2386).

2. *FAP 3H5391.* Uniroyal Chemical. Proposes amending 21 CFR Part 193 by establishing a regulation permitting residues of the above insecticide under said program with a tolerance limitation of 40.0 ppm in citrus oil. (PM-12, Jay Ellenberger, 703-557-2386.

3. *PP 3F2844.* American Research Division, P.O. Box 400, Princeton, NJ 08540. Proposes amending 40 CFR 180.361 by establishing tolerances for the combined residues of the herbicide pendimethalin *[N-T1(1-ethylpropyl)-3,4-dimethyl-2,8-dinitrobenzenzmine] and its metabolite [4-([1-ethylpropyl]amino)-2-methyl-3,5-dinitrobenzyl alcohol in or on the commodity safflower seeds at 0.1 ppm. The proposed analytical method for determining residues is gas liquid chromatography. (PM-25, Robert Taylor, 703-557-1800.*

(Sec. 408(d)(1), 68 Stat. 512, (7 U.S.C. 136); 409 (b)(5), 72 Stat. 1786, (21 U.S.C. 348))

Dated: April 14, 1983.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Extension of PSD Permit Originally Issued to the Northern Tier Pipeline Co.

[A-10-FRL #2354-6]

Notice is hereby given that on April 14, 1983, the Environmental Protection Agency (EPA) issued a two year extension to the Prevention of Significant Deterioration (PSD) permit of the Northern Tier Pipeline Company, Number PSD-X81-13.

This extension has been issued under EPA's Prevention of Significant Air Quality Deterioration (40 CFR 52.21) regulation, subject to certain conditions specified in the permit.

Under Section 307(b)(1) of the Clean Air Act, judicial review of the PSD Permit is available only by the filing of a petition for review in the Ninth Circuit Court of Appeals within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

FOR FURTHER INFORMATION CONTACT: Lee Marshall, (206) 442-1417, FTS: 399-1417.

Copies of the permit are available for public inspection upon request at the following location: Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Room 11D, M/S 532, Seattle, Washington 98101.

Dated: April 14, 1983.

John R. Spencer,

Regional Administrator.

BILLING CODE 6720-01-M

FEDERAL RESERVE SYSTEM

Acquisition of Bank Shares by a Bank Holding Company; Texas Commerce Bancshares, Inc.

The company listed in this notice has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors, or at the Federal Reserve bank indicated. With respect to the application, interested persons may exprese their views in writing to the address indicated. Any comment on the application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Board of Governors of the Federal Reserve System** (William W. Wiles, Secretary) Washington, D.C. 20551:

1. Texas Commerce Bancshares, Inc., Houston, Texas; to acquire 100 percent of the voting shares or assets of Texas Commerce Bank-Sugarland, N.A., Sugarland, Texas. This application may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of Dallas. Comments on this application must be received not later than May 20, 1983.

Board of Governors of the Federal Reserve System, April 21, 1983.

James McAfee

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies, Proposed de Novo Nonbank Activities; PNC Financial Corp., et al.

The organization identifieds in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to these applications, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any comment that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, indentifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated. Comments and requests for hearing should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated.

A. **Federal Reserve Bank of Cleveland** (Lee S. Adams, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

1. *PNC Financial Corp,* Pittsburgh, Pennsylvania (lending activities; Texas): To engage, through its subsidiary, The Kissell Company, in making or acquiring and servicing for its own accounts and/or the accounts of others, loans and other extensions of credit. These activities will be conducted at an office located in the metropolitan area of Dallas, Texas, and will serve the counties of Dallas, Tarrant, Parker, Wise, Denton, Collin, Hunt, Rockwall, Kaufman, Van Zandt, Navarro, Ellis, Johnson, Somervell, and Hood, all in Texas. Comments on this application must be received not later than May 16, 1983.

B. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *NCNB Corporation,* Charlotte, North Carolina (consumer finance and insurance activities; North Carolina): To engage, through its subsidiary, TranSouth Financial Corporation, in making direct loans for consumer and other purposes, purchasing retail installment notes and contracts and acting as agent for the sale of credit life, credit accident and health and physical damage insurance directly related to its extensions of credit and through its subsidiary, TranSouth Mortgage Corporation, in making direct loans for consumer and other purposes under the general usury statues, purchasing retail installment notes and contracts; making direct loans to dealers for the financing of inventory (floor planning); and working capital purposes; and acting as agent for the sale of credit life, credit accident and health and physical damage insurance directly related to its extensions of credit from a common office to be located in Waynesville, North Carolina, serving the geographic area 25 miles of said office. Comments on this application must be received not later than May 20, 1983.

C. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

1. *BankAmerica Corporation,* San Francisco, California (financing and insurance activities; expansion of geographic scope; Alabama): To continue to engage, through its indirect subsidiary, FinanceAmerica Corporation, in the activities of making or acquiring for its own account loans and other extensions of credit such as would be made or acquired by a finance company; servicing loans and other extensions of credit; and offering credit-related life insurance, credit-related accident and health insurance and

credit-related property insurance. The aforementioned types of credit-related insurance are permissible under Section 601(D) of the Garn-St Germain Depository Institutions Act of 1982. Such activities will include, but not be limited to, making consumer installment loans, purchasing installment sales finance contracts, making loans and other extensions of credit secured by real and personal property, and offering credit-related life, credit-related accident and health and credit-related property insurance directly related to extensions of credit made or acquired by FinanceAmerica Corporation. Credit-related life and credit-related accident and health insurance may be reinsured by BA Insurance Company, Inc., an affiliate of FinanceAmerica Corporation. All these activities have been previously approved as in accordance with Regulation Y. These activities will be conducted from an existing office located in Anniston, Alabama, serving the entire State of Alabama. Comments on this application must be received not later than May 16, 1983.

2. *Napa National Bancorp*, Napa, California (leasing activities; Northern California): To engage, through its proposed subsidiary, Napa National Leasing Corporation, in making leases of personal property in accordance with the Board's Regulation Y. These activities would be conducted from offices in Napa, California and would be performed in Napa, Sonoma, and Solano Counties, California. Comments on this application must be received not later than May 20, 1983.

Board of Governors of the Federal Reserve System, April 21, 1983.

James McAfee,

Associate Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

Surplus Personal Property Mailing List Application (GSA Form 2170)

AGENCY: General Services Administration.

ACTION: Notice of information collection; revision.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the General Services Administration plans to request the Office of Management and Budget to review and approve the revision of an information collection request for the continued collection of data.

DATES: Comments on the information collection must be submitted on or before May 13, 1983.

ADDRESSES: Send comments to Franklin S. Reeder, OMB Desk Officer, Room 3235, NEOB, Washington, D.C. 20503, and to John Gilmore, GSA Clearance Officer, General Services Administration (ORAI), Washington, D.C. 20405.

FOR FURTHER INFORMATION CONTACT: Milton Herman on 202-557-0814.

SUPPLEMENTARY INFORMATION: GSA Form 2170, Surplus Personal Property Mailing List Application, is completed by persons who wish to have their names placed on the surplus property bidders' mailing list. The form allows each prospective bidder to identify the type of property and geographical areas of interest. The preparation and submission of the form is voluntary, the annual estimated number of respondents is 100,000, and the estimated average completion time per response has been reduced from 7½ minutes to 5 minutes. this estimate is based on a reduction in the number of surplus personal property categories. A copy of the information collection proposal may be obtained from the General Services Administration (ORAI), Room 3015, GS Building, Washington, D.C. 20405, telephone (202) 566-1164.

Dated: April 19, 1983.

Clarence A. Lee, Jr.,

Director of Administrative Services.

BILLING CODE 6820-34-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Health Education Assistance Loan Program; "Maximum Interest Rates for Quarter Ending June 30, 1983"

Section 727 of the Public Health Service Act (42 CFR Part 60, previously 45 CFR Part 126) authorizes the Secretary of Health and Human Services to establish a Federal program of student loan insurance for graduate students in health professions schools. Section 60.13(a)(4) of the program's implementing regulations provides that the Secretary will announce the interest rate in effect on a quarterly basis.

The Secretary announces that for the period ending June 30, 1983, two interest rates are in effect for loans executed through the Health Education Assistance Loan (HEAL) program.

1. For loans made before January 27, 1981, the variable interest rate is 12 percent. Using the regulatory formula (45 CFR 126.13(a)(2)(3)), in effect prior to January 27, 1981, the Secretary computes the variable rate for this quarter by finding the sum of the fixed annual rate (7 percent) and a variable component calculated by subtracting 3.50 percent from the average bond equivalent rate of 91-day U.S. Treasury bills for the preceding calendar quarter (8.39 percent), and rounding the result (4.89 percent) upward to the nearest 1/8 percent (5.0 percent). The regulatory formula also provides that the annual rate of the variable interest rate for a 3-month period shall be reduced to the highest one-eighth of 1 percent which would result in an average annual rate not in excess of 12 percent for the 12-

month period concluded by those 3 months. However, because the average of the 4 quarters concluded by the quarter ending March 31, 1983 is not in excess of 12 percent, there is no necessity for reducing the interest rate. For the previous 3 quarters the variable interest at the annual rate was as follows: 11 percent for the quarter ending September 30, 1982; 111/8 percent for the quarter ending December 31, 1982; and 113/4 percent for the quarter ending March 31, 1983.

2. For fixed rate loans executed during the period of April 1 through June 30, 1983, and for variable rate loans executed after January 27, 1981, the interest rate is 12 percent. Using the regulatory formula (42 CFR 60.13(a)(3)), in effect since January 27, 1981, the Secretary computes the maximum interest rate at the beginning of each calendar quarter by determining the average bond equivalent rate for the 91-day U.S. Treasury bills during the preceding quarter (8.39 percent); adding 3.50 percent (11.89 percent); and rounding that figure to the next higher one-eighth of 1 percent (12 percent).

(Catalog of Federal Domestic Assistance No. 13.108, Health Education Assistance Loans)

Dated: April 21, 1983.

Robert Graham,

Administrator, Assistant Surgeon General.

BILLING CODE 4160-16-M

Public Health Service

Section 1876 of Social Security Act; Delegation of Authority

Notice is hereby given that in furtherance of the March 31, 1983 delegation by the Secretary of Health and Human Services to the Assistant Secretary for Health of authority under section 1876 of the Social Security Act (42 U.S.C. 1395mm), as amended, to determine whether an entity is an "eligible organization" within the meaning of section 1876(b) of the Social Security Act, the Assistant Secretary for Health has delegated to the Administrator, Health Resources and Services Administration, with authority to redelegate, all the authority delegated to the Assistant Secretary for Health under section 1876 of the Social Security Act (42 U.S.C. 1395 mm), as amended.

The October 23, 1978 delegation by the Acting Assistant Secretary for Health to the Director, Office of Health Maintenance Organizations, has been superseded insofar as it pertains to the authority under the former section 1876(b)(2)(A) of the Social Security Act (42 U.S.C. 1395 mm).

The delegation to the Administrator, Health Resources and Services Administration, became effective on April 15, 1983.

Dated: April 15, 1983.

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

BILLING CODE 4160-16-M

Title V of the Public Health Service Act; Delegation of Authority to the Director, National Institutes of Health

Notice is hereby given that, in furtherance of the delegation of authority of December 9, 1982 by the Secretary of Health and Human Services to the Assistant Secretary for Health (48 FR 9067), the Assistant Secretary for Health has delegated to the Director, National Institutes of Health the following authorities under Title V of the Public Health Service Act (42 U.S.C. 219–229d), as amended, concerning certain functions of the Public Health Service insofar as they apply to the functions assigned to the National Institutes of Health:

(1) The authority under section 501 (42 U.S.C. 219), as amended, Gifts, excluding the authority to accept gifts of real property. Offers of personal property may not be accepted if the total costs associated with acceptance are expected to exceed the cost of purchasing a similar item and the cost of normal care and maintenance;

(2) The authority under section 506 (42 U.S.C. 224), as amended, Transportation of the Remains of Officers;

(3) The authority under section 507 (42 U.S.C. 225a), as amended, Grants to Federal Institutions;

(4) The authority under section 509 (42 U.S.C. 227), as amended, Availability of Appropriations; and

(5) The authority under section 512 (42 U.S.C. 229a), as amended, Memorials and Other Acknowledgments.

The Director, National Institutes of Health, may redelegate the authority under Title V of the PHS Act subject to the following provisions: the authority to accept conditional gifts offered to the National Library of Medicine may be redelegated to the Director, National Library of Medicine, with authority to redelegate further; otherwise, redelegation of the authority under section 501 is limited to the acceptance of unconditional gifts of personal property valued at $5,000 or less.

Exercise of the authorities under Title V of the PHS Act shall be in accordance with statute and established policies, procedures, guidelines and regulations of the Department and the Public Health Service.

The following delegations of authority to the Director, National Institutes of Health, have been superseded: (1) The Memorandum for the Director, Office of Management, PHS dated August 20, 1979, entitled: Delegation of Authority Under Section 501 of the PHS Act to Accept Gifts; (2) the Memorandum for the Acting Director, Office of Management, PHS, dated March 25, 1981, entitled: Delegation of Authority Under Section 501 of the PHS Act to Accept Gifts; (3) that portion concerning section 509 in the Memorandum for the Assistant Secretary for Administration and Management, OS, HEW, dated March 26, 1971, entitled: Delegation of Authority with Respect to the Wearing of Uniforms or Other Special Wearing Apparel; and (4) the Delegation of Authority to the extent that it concerns Title V and in particular section 509, contained in the Public Health Service Reorganization Order of July 1, 1973 (38 FR 18261).

The delegation to the Director, National Institutes of Health, became effective on April 13, 1983.

Dated: April 13, 1983.

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

[FR Doc. 83-11157 Filed 4-26-83; 8:45 am]

BILLING CODE 4140-01-M

National Center for Health Services Research; Notice of Assessment of Medical Technology

The Public Health Service (PHS), through the Office of Health Technology Assessment (OHTA), announces that it is coordinating an assessment of what is known of the safety and clinical effectiveness and use (indications) of electrocoagulation of gastrointestinal hemorrage. Specifically, we are interested in the medical indications for: its use in the treatment of specific upper and lower gastrointestinal bleeding lesions (i.e. Mallory-Weiss tears, visible vessels in gastric or duodenal ulcers) and in other forms of endoscopic control of gastrointestinal bleeding such as thermal coagulation (heater probe) laser photocoagulation (Neodymium YAG or Argon) sclerotherapy, and topical therapy. Emoblic and pharmacotherapy are not within the scope of this assessment.

For the purposes of this announcement, electrocoagulation of gastrointestinal hemorrhage is defined as the endoscopic use of monopolar or bipolar probes or electrofulguration in the coagulation and treatment of

gastrointestinal bleeding lesions. Other endoscopic methods of coagulation therapy are also being assessed. These methods and devices will be assessed from the standpoint of safety, clinical effectiveness and the extent to which these procedures are accepted and applied in the medical community as standard methods of treatment. The assessment also seeks to identify which of these modalities and devices are presently in investigational stages of development.

The PHS assessment consists of a synthesis of information obtained from appropriate organizations in the private sector and from PHS agencies and others in the Federal Government. PHS assessments are based on the most current knowledge concerning the safety and clinical effectiveness of a technology. Based on this assessment, a PHS recommendation will be formulated to assist the health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide OHTA with information relevant to this assessment should do so in writing no later than July 15, 1983, or within 90 days from the date of publication of this notice.

The information being sought is a review and assessment of past, current, and planned research related to this technology, a bibliography of published, controlled clinical trials and other well-designed clinical studies since 1976 and other information related to the characterization of the patient population most likely to benefit, the clinical acceptability, and the effectiveness of this technology. Proprietary information is not being sought, but published commercial information may be submitted.

Written material should be submitted to: Enrique D. Carter, M.D., National Center for Health Services Research, Office of Health Technology Assessment, Park Bldg., Room 3-10, Stop #2, 5600 Fishers Lane, Rockville, Maryland 20852.

Further information is available from Enrique D. Carter, M.D., Health Science Analyst, at the above address or by telephone (301) 443-4990.

Dated: April 18, 1983.

Harold Margulies,

Director, Office of Health Technology Assessment, National Center for Health Services Research.

Colorado; Classification Decision Termination

April 19, 1982.

1. Pursuant to authority delegated by Bureau Order No. 701 dated July 23, 1964 (29 FR 10526), as amended, the Bureau of Land Management Multiple Classification Orders of March 18, 1968, March 22, 1968, and July 3, 1969, described in **Federal Register** notices of March 28, 1968 (32 FR 4998-4999), April 2, 1968 (33 FR 5271), and July 10, 1969 (34 FR 11428), segregating the following described public lands from appropriation under the agricultural lands laws (43 U.S.C. Chapters 7 and 9, 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171), and further segregating the following described public lands under the general mining laws (30 U.S.C. Ch. 2) are hereby terminated: C-3357:

Dome Lake Site

New Mexico Principal Meridian

T. 45 N., R. 2 E.,
Sec. 2, W½ of lot 4 (W½NW¼NW¼), and S½NW¼;
Sec. 3, SE¼NE¼.
T. 46 N., R. 2 E.,
Sec. 35, W½NW¼NW¼, and W½SW¼ NW¼.

The area described aggregates 179.65 acres in Saguache County.

Cochetopa Creek

New Mexico Principal Meridian

T. 47 N., R. 2 E.,
Those lands within 300 feet of either side of Cochetopa Creek within sections 5, 8, 16 (State Minerals), 17, 18, 20, 21, 28, and 29 (Subject to Power Site Reserve No. 43).

The area described aggregates 668 acres in Saguache County.

Tomichi Site

New Mexico Principal Meridian

T. 49 N., R. 2 E.,
Sec. 16, NW¼NW¼, S½NW¼NE¼NW¼, S½NW¼NW¼NW¼, S½NW¼ NW¼NE¼NW¼, and SW¼NE¼ NE¼NW¼ (State Minerals).

The area described aggregates 69 acres in Gunnison County.

Cathedral Site

New Mexico Principal Meridian

T. 44 N., R. 2 W.,
Sec. 1, lot 5 (NE¼NE¼), (Subject to PLO 5309, and PLO 5386);
Sec. 12, lots 4 (SW¼NW¼), 5 (SE¼NW¼), and 6 SW¼NW¼, (Subject to PLO 5309, and PLO 5386).

The area described aggregates 167.60 acres in Hinsdale County.

Granodiorite Site

New Mexico Principal Meridian

T. 49 N., R. 2 W.,
Sec. 13, W½ NE¼, W½E½NE¼, NE¼NE¼NE¼, E½NW¼, W½SE¼ (Subject to Power Site Reserve No. 50 and C-014843, Bureau of Reclamation withdrawal).

The area described aggregates 390 acres in Gunnison County.

Powderhorn Lakes Site

New Mexico Principal Meridian

T. 45 N., R. 3 E.,
Sec. 22, E½SE¼, (Subject to C-19376, Public Water Reserve No. 107);
Sec. 23, Lots 7 thru 12 (lot 7 subject to C-19376, Public Water Reserve No. 107).

This area described aggregates 288 acres in Hinsdale County.

Narrow Grade Site

New Mexico Principal Meridian

T. 45 N., R. 4 W.,
Sec. 2, SW¼NE¼ (patented surface and minerals).

The area described aggregates 40 acres in Gunnison County.

Kellog Siding Site

New Mexico Principal Meridian

T. 46 N., R. 4 W.,
Sec. 25, SW¼NE¼.

The area described aggregates 40 acres in Gunnison County.
C–3358:

Big Blue Creek Site

New Mexico Principal Meridian

T. 47 N., R. 5 W.,
300 feet on either side of Big Blue Creek in the following described areas:
Sec. 15, SW¼NW¼, and W½SW¼;
Sec. 22, W½W½, and W½E½W½;
SeC. 27, W½W½, and W½E½W½;
Sec. 34, NW¼.

The area described aggregates 275 acres in Gunnison County.

Little Cimarron Site

New Mexico Principal Meridian

T. 46 N., R. 6 W.,
Sec. 12, E½SE¼.

The area described aggregates 80 acres in Gunnison County.

2. At 10:00 a.m. on May 31, 1983, the lands in paragraph one shall be open to the public land laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

3. At 10:00 a.m., on May 31, 1983, the lands in paragraph one will be open to the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. Appropriations of lands under the general mining laws prior to the date and time of restoration is authorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. Sec. 38, shall vest no rights against the United States. Acts required to establish a location and to intitiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

The lands have been and continue to be open to applications and offers under the mineral leasing laws, subject to valid existing rights.

Inquiries concerning the land should be addressed to the Chief, Lands and General Mining Law Section, Branch of Lands and Minerals Operations, Bureau of Land Management, 1037–20th Street, Denver, Colorado 80202.

George C. Francis,
State Director.

BILLING CODE 4310–84–M

[I–18576]

Realty Action; Competing Sale of Public Lands in Camas County, Idaho

AGENCY: Bureau of Land Management, Interioir.

ACTION: Notice of realty action, I–18576, competitive sale of public lands in Camas County, Idaho.

SUMMARY: The following described land has been examined and identified as suitable for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (909 Stat. 2750; 43 U.S.C. 1713) at no less than fair market value of $4,000.00. Both sealed and oral bids will be accepted.

Boise Meridian, Idaho

T. 2S., R. 17E.
Sec. 11: W½NW¼—comprising 20 acres.

The land, which will be sold at public auction by competitive bidding, is no longer required for any Federal purpose. It does not complement BLM programs and the location and physical characteristics of the tract, along with the private ownership of adjoining lands, make it uneconomical to manage as public land. Disposal would not have any significant effect on resource values and would best serve the public interest.

Notice is hereby given that on or after July 1, 1985, any grazing permit for Macon Flat Allotment may be altered to reflect the deletion of this 20 acre parcel. Because of the minimal impact to grazing capacity, no reduction of grazing capacity is expected. A grazing decision will be issued and be subject to protest under 43 CFR 4160.2 and/or appeal under 43 CFR 4.470.

A patent for the land, when issued, shall be subject to the following conditions:

1. A right-of-way for ditches and canals constructed by the authority of the United States. Act of August 30, 1980, 26 Stat. 391; 43 U.S.C. 945.

2. All minerals including Oil and Gas and Geothermal shall be reserved to the United States, as required by section 209(a) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1719.

3. All valid existing rights and reservations of record.

The sale will be held at the Shoshone District Office, Bureau of Land Management, 400 West F Street, Shoshone, Idaho at 10:00 a.m. Friday, July 1, 1983.

Additional information concerning the land, terms and conditions of the sale, and bidding instructions may be obtained from the Shoshone District Manager, at the above address or by calling (208) 886–2206.

Further Information/Inquiries

Detailed information concerning this sale, including the planning documents and Environmental Assessment, is available for review in the Shoshone District Office at the address indicated above. For a period of 45 days from the date of this notice, interested parties may submit comments to the Shoshone District Manager. Any adverse comments will be evaluated by the Idaho State Director, Bureau of Land Management, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Dated: April 19, 1983.

Dennis D. Schulze,
Acting District Manager.

BILLING CODE 4310–84–M

[M 166]

Montana; Partial Termination of Proposed Withdrawal and Reservation of Land

April 15, 1983.

The Forest Service, United States Department of Agriculture, filed an application for withdrawal of the following described land from location and entry under the mining laws. The Notice of Proposed Withdrawal was published in the **Federal Register** on August 19, 1966, Vol. 31, No. 161, pages 11039–11040, and republished in **Federal Register**, on June 16, 1977, Vol. 42, No. 115, pages 30692–30693. The applicant agency has cancelled its application in part as to the following:

Principal Meridian, Beaverhead National Forest, Lower Seymour Lake Campground

T. 3 N., R. 13 W.,
Sec. 26. SW¼NE¼NE¼NW¼, SE¼NW¼NE¼NW¼, NE¼SW¼ NE¼NW¼ and NW¼SE¼NE¼NW¼.

The area described contains 10 acres in Deer Lodge County.

Therefore, pursuant to the regulations contained in 43 CFR 2091.2–5(b)(1), at 8 A.M. on May 17, 1983, such lands will be relieved of the segregative effect of the above mentioned application.

Inquiries concerning these lands should be addressed to the Chief, Branch of Lands Resources, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107.

Chief, Branch of Land Resources.

Worland District Advisory Council; Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given in accordance with Pub. L. 91-463, Pub. L. 94-579, Pub. L. 95-514, and 43 CFR Part 1780, that a meeting of the Worland District Advisory Council will be held on June 7, 1983, at 9:30 a.m. Agenda for the meeting will include the following:

1. Introduction and Opening Comments.
2. Orientation and Highlight of District Program.
3. Council Function and Involvement.
4. Election of Officers.
5. Fiscal Year 1983 Public Land Sale Program.
6. The Asset Management Program.
7. Arrangements for Next Meeting.

The meeting is open to the public. Interested persons may make oral statements to the Council between 11:30 a.m. and 12 noon, or file written statements for the Council's consideration. Anyone wanting to make an oral statement must notify the District Manager by June 3, 1983. Depending on the number of persons wanting to make oral statements, a per-person limit may be established.

DATE: June 7, 1983, 9:30 a.m.

ADDRESS: Bureau of Land Management Office, Conference Room 1700 Robertson Avenue, Worland, Wyoming.

FOR FURTHER INFORMATION CONTACT: Paul Andrews, Associate District Manager, Bureau of Land Management, 1700 Robertson Avenue, Worland, Wyoming 82401. (307/347-8151)

SUPPLEMENTARY INFORMATION: Summary minutes of the meeting will be maintained in the District Office and will be available for public inspection and reproduction during regular business hours within 30 days following the meeting.

Chester E. Conard,

District Manager.

BILLING CODE 4310-MR-M

Office of Surface Mining Reclamation and Enforcement

[Federal Lease No. 71692]

Availability of Final Environmental Impact Statement on the Proposed North Rochelle Mine, Campbell County, Wyoming

AGENCY: Office of Surface Mining Reclamation and Enforcement, Intereior.

ACTION: Notice of availability of final environmental impact statement.

SUMMARY: Notice is hereby given that the Office of Surface Mining Reclamation and Enforcment (OSM), Western Technical Center, has prepared a final environmental impact statement (EIS) on the mining and reclamation plan submitted by Shell Oil Company Mining to OSM and the State of Wyoming for the proposed North Rochelle mine. The EIS evaluates the two alternative actions of approval or disapproval that the Department could take on this plan and will assist the Department in making a decision on Shell Oil Company Mining's application for surface mining of coal south of the City of Gillette, Wyoming.

ADDRESSES: Copies of the final EIS may be obtained from Allen D. Klein, Administrator, Western Technical Center, Office Surface Mining, Brooke Towers, 1020 Fifteenth Street, Denver, Colorado 80202.

Copies of the EIS are available for review at the Converse County Courthouse and the Douglas Library, Douglas, Wyoming; the Campbell County Courthouse and the George Amos Memorial Library, Gillette, Wyoming; and at the State of Wyoming, Department of Environmental Quality, 401 Nineteenth Street, Cheyenne, Wyoming.

FOR FURTHER INFORMATION CONTACT: Allen D. Klein, Attn: Charles Albrecht (telephone 303–837–5656) at the location given under "ADDRESSES."

SUPPLEMENTARY INFORMATION: Shell Oil Company Mining has submitted an application to OSM and the State of Wyoming for approval of the mining and reclamation plan for the proposed North Rochelle mine which will surface mine about 197 million tons of coal over a period of 26 years. The proposed site is 55 miles south of the City of Gillette, Wyoming. The mine would encompass 4,587 acres of State, private, and Federal land (Thunder Basin National Grasslands) of which 3,271 acres would be disturbed for mining, roads, railroad spur, and facilities.

OSM has identified a preferred alternative which is approval of the modified mining and reclamation plan. The State of Wyoming, the U.S.D.A. Forest Service, and OSM have identified stipulations that would be attached to the permit if it is granted. The other alternative is disapproval or no action.

OSM, with assistance from the Geological Survey, the Forest Service, the Interstate Commerce Commission, and the State of Wyoming, has analyzed the impacts of the alternatives. The final EIS consists of two documents: Draft EIS OSM–EIS–9 and Final EIS OSM–EIS–9. The final EIS document contains all the written comments submitted to OSM regarding the North Rochelle draft EIS and also contains responses as well as certain revisions to the draft document. Where changes in response to comments on a draft EIS are minor and do not warrant extensive revision, an abbreviated final EIS of this sort is sanctioned by the Council on Environmental Quality's regulations (40 CFR 1503.4(c)). Therefore, both documents are needed for complete EIS information.

Dated: April 22, 1983.

Carson W. Culp, Jr.,

Acting Director, Office of Surface Mining.

BILLING CODE 4310-05-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Joint Committee on Agricultural Research and Development of the Board for International Food and Agricultural Development; Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, notice is hereby given of the fourth meeting of the Joint Committee on Agricultural Research and Development (JCARD) of the Board for International Food and Agricultural Development (BIFAD) on May 16 and 17, 1983.

The purpose of the meeting is to assist AID in implementing the components of the Title XII program by providing a two-way communications link for concerns of AID and concerns of the universities. The meeting will be addressing several of the issues identified in JCARD's "Program of Work Plan for 1983" including the International Research Centers and the Strengthening Grant Program.

The Executive Committee will meet from 9:00 a.m. to 12:00 noon on May 16; and the full JCARD will meet from 1:00 p.m. to 5:00 p. m. on May 16 and from 9:00 a.m. to 12:00 noon on May 17. The meeting will be held in the Holiday Inn, 1850 N. Fort Myer Drive, Rosslyn, Virginia. The meeting is open to the public. Any intereested person may attend, may file written statements with the Committee before or after the meeting, or may present oral statements in accordance with procedures established by the Committee, and to the extent the time available for the meeting permits.

Dr. John Stovall, BIFAD Support Staff, is the designated A.I.D. Advisory Committee Representative at the meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, BIFAD Support Staff, Washington, D. C. 20523 or telephone him at (202) 632–8532.

Dated: April 21, 1983.

John Stovall,

A.I.D. Advisory Committee Representative, Joint Committee on Agricultural Research and Development, Board for International Food and Agricultural Development.

BILLING CODE 6116-01-M

INTERNATIONAL TRADE COMMISSION

Certain Canape Makers; Investigation

[Investigation No. 337-TA-146]

AGENCY: International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on March 24, 1983, and amended on April 18, and 20, 1983, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), on behalf of LK Manufacturing Corp., 9 Northern Boulevard, Greenvale, New York 11548. The compliant alleges unfair methods of competition and unfair acts in the importation of certain canape makers into the United States, or in their sale, by reason of alleged infringement of the claim of U.S. Letters Patent Des. 268,318. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

The complainant requests that, during the pendency of the investigation, the Commission issue a temporary exclusion order, prohibiting importation of the articles into the United States except under bond and, after a full investigation, issued a permament exclusion order.

Authority: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930 and in § 210.12 of the Commission's Rules of Practice and Procedure (19 CFR 210.12).

Scope of investigation: Having considered the complaint, the U.S. International Trade Commission, on April 20, 1983, Ordered that:

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930 an investigation be instituted to determine whether there is reason to believe that there is a violation or whether there is a violation of subsection (a) of section 337 in the unlawful importation of certain canape makers in the United States, or in their sale, by reason of infringement of the claim of U.S. Letters Patent Des. 268,318, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States;

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—

LK Manufacturing Corp., 9 Northern Boulevard, Greenvale, New York 11548.

(b) The respondents are the following companies, alleged to be in violation of section 337, and are the parties upon which the complaint is to be served:

Wecolite Company, Inc., 699 Front Street, Teaneck, New Jersey 07660

Hoan Products Ltd., 615 East Crescent Avenue, Ramsey, New Jersey 07446

Rowoco, Warehouse Lane, Elmsford, New York 10523

Mid-West Housewares, Inc., 3320 North Kedzie Avenue, Chicago, Illinois 60618

Cooks Tools Ltd., 621 Route 46 West, Hasbrouck Heights, New Jersey 07604

S. Rossi Co., 197 Lagunitas Road, Ross, California 94957

(c) Samuel Bailey Jr., Esq., Unfair Import Investigations Division, U.S. International Trade Commission, 701 E Street NW., Room 128, Washington, D.C. 20436, shall be the Commission investigative attorney, a party to this investigation; and

(3) For the investigation so instituted, Donald K. Duvall, Chief Administrative Law Judge, U.S. International Trade Commission, shall designate the presiding officer. Pursuant to § 210.30(c) of the Commission's Rules of Practice and Procedure (19 CFR 210.30(c)), discovery should be allowed in connection with the temporary relief phase of the investigation only to the extent necessary to weigh the standards that are applicable in determining whether temporary relief should be granted.

Responses must be submitted by the named respondents in accordance with § 210.21 of the Commission's Rules of Practice and Procedure (19 CFR 210.21). Pursuant to §§ 210.16(d) and 210.21(a) of the rules, such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both an initial determination and a final determination containing such findings.

The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street N.W., Room 156, Washington, D.C. 20436, telephone 202-523-0471.

FOR FURTHER INFORMATION CONTACT: Samuel Bailey Jr., Esq., Unfair Import Investigations Division, U.S. International Trade Commission, telephone 202-523-1273.

Issued: April 21, 1983.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

Certain Cupric Hydroxide Formulated Fungicides and Cupric Hydroxide Preparations Used in the Formulation Thereof; Commission Decision Not To Review Initial Determination

AGENCY: International Trade Commission.

ACTION: Notice is hereby given that the Commission has determined not to review the presiding officer's initial determination (Order No. 31) granting a joint motion to terminate the above-captioned investigation as to respondents Cuproquim, S.A. and Jerry A. Mohn based on a settlement agreement.

Authority: The authority for the Commission's disposition of this matter is contained in sections 335 and 337 of the Tariff Act of 1930 (19 U.S.C. 1335, 1337) and in §§210.53(c) and 210.53(h) of the Commission's Rules of Practice and Procedure (47 FR 25134, June 10, 1982; to be codified at 19 CFR 210.53(c) and (h)).

SUPPLEMENTARY INFORMATION: On March 16, 1983, the presiding officer issued an initial determination granting the joint motion of complainant Kocide Chemical Corp. and respondents Cuproquim, S.A. and Jerry A. Mohn to terminate the investigation as to those respondents on the basis of a written settlement agreement. Under § 210.54(b) of the Commission's rules, the deadline for filing petitions for review expired on March 18, 1983. No petitions were filed.

Copies of the nonconfidential version of the presiding officer's initial determination, and all other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0161.

FOR FURTHER INFORMATION CONTACT: Warren H. Maruyama, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-523-0375.

Issued: April 18, 1983.

By order of the Commission.

Kenneth R. Mason.

Secretary.

[Investigation No. 337-TA-120]

Certain Silica-Coated Lead Chromate Pigments; Issuance of Exclusion Order

AGENCY: International Trade Commission.

ACTION: Issuance of exclusion order.

SUPPLEMENTARY INFORMATION: On April 7, 1983, the Commission unanimously determined with respect to the above-captioned investigation that there is a violation of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation of certain silica-coated lead chromate pigments into the United States, and in their sale, the effect or tendency of which is to substantially injure an industry, efficiently and economically operated, in the United States. In addition, the Commission determined that a limited exclusion order pursuant to subsection (d) of section 337 is the most appropriate remedy for the violation found to exist, that the public-interest factors enumerated in subsection (d) do not preclude the issuance of such an order , and that the amount of the bond under subsection (g) of section 337 should be 35 percent of the entered value of the articles concerned. The Commission's Action and Order and the Commission opinion in support thereof were issued on April 21, 1983.

The notice instituting the investigation and defining its scope was published in the **Federal Register** on April 21, 1982 (47 FR 17134).

The Commission Action and Order, the Commission opinion, and all other non-confidential documents on the record of the investigation are available for public inspection Monday through Friday during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0471.

FOR FURTHER INFORMATION CONTACT: Gracia M. Berg, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-523-1626.

Issued: April 21, 1983.

[332-155]

Competitive Position of U.S. Producers of Robotics in Domestic and World Markets

AGENCY: International Trade Commission.

ACTION: The Commission will hold a public hearing for the purpose of affording all interested parties an opportunity to present views on the competitive position of the U.S. robotics industry in domestic and international markets. The initial notice of the investigation indicating the scope of the study, contact persons, and other related information was published in the **Federal Register** of March 9, 1983 (48 FR 9971).

Public hearing: A public hearing in connection with the investigation will be held in the Commission Hearing Room, 701 E Street N.W., Washington, D.C. 20436, beginning at 10:00 a.m., e.d.t., on September 7, 1983. All persons shall have the right to appear by counsel or in person, to present information and to be heard. Request to appear at the public hearing should be filed with the Secretary, United States International Trade Commission, 701 E Street NW., Washington, D.C. 20436, not later than August 30, 1983.

Written submissions: In lieu of or in addition to appearance at the public hearing, interested persons are invited to submit written statements concerning the investigation, by September 1, 1983. Commercial or financial information which a submitter desires the Commission to treat as confidential must be submitted on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). All written submissions, except for confidential business information, will be made available for inspection by interested parties. All submissions should be addressed to the Secretary at the Commission's office in Washington, D.C.

Issued: April 18, 1983.

By order of the Commission.

Possible Effects of Changing World Crude Petroleum Prices

AGENCY: International Trade Commission.

ACTION: In accordance with the provisions of section 332(b) of the Tariff Act of 1930 (19 U.S.C. 1332(b)), the Commission has instituted on its own motion investigation No. 332-161 for the purposes of gathering and presenting information on the future supply and prices of crude petroleum. This information will be used in assessing the possible effects of changing crude petroleum prices on such areas as United States Trade, the petroleum industry, the petrochemical industry, and other energy-intensive industries.

EFFECTIVE DATE: April 20, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. John J. Gersic of Mrs. Cynthia B. Foreso, Energy and Chemicals Division, U.S. Intenational Trade Commission, Washington, D.C. 20436 (telephone—202-523-0451 or 202-523-1230).

Public hearing: A public hearing will be held in Houston, Texas starting Nov. 1, 1983 in connection with the investigation. At least 60 days prior to the hearings, a **Federal Register** notice will be posted giving the time and place. All persons shall have the right to appear by counsel or in person, to present information, and to be heard. Requests to appear at the public hearing should be filed with the Secretary, United States International Trade Commission, 701 E Street, N.W., Washington, D.C. 20436, no later than Oct. 24, 1983.

Written submissions: In lieu of or in addition to appearance at the public hearing, interested persons are invited to submit written statements concerning the investigation, no later than October, 24, 1983. Commercial or financial information which a party desires the

Commission to treat as confidential must be submitted on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of § 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 200.6). All written submissions, except for confidential business information, will be made available for inspection by interested parties. All submissions should be addressed to the Secretary at the Commission's office in Washington, D.C.

Issued: April 22, 1983.

By order of the Commission.

BILLING CODE 7020-02-M

INTERSTATE COMMERCE COMMISSION

[No. 39172 et al.[1]]

Motor Carriers; Barrett Moving & Storage Company—Petition for Exemption From Tariff Filing Requirements

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: Two motor contract carriers have each requested exemption from the tariff filing requirements of 49 U.S.C. 10702, 10761, and 10762. The sought relief is provisionally granted for future as well as existing contracts.

DATES: Comments are due on May 12, 1983. The sought relief will become final May 27, 1983, after the close of the comment period unless, in response to time filed adverse comments, the Commission issues a further decision withdrawing the relief.

ADDRESS: Send an original and 15 copies of comments to: Room 2139, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Elaine Dobbins, (202) 275-6272 or Howell I. Sporn, (202) 275-7691.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. Infosystems, Inc., Room 2227, 12th and Constitution Ave., N.W., Washington, D.C. 20423, or call 289-4357 in the DC metropolitan area or toll free (800) 424-5403.

Decided: April 20, 1983.

By the Commission, Division 2, Commissioners Gradison, Taylor, and Sterrett. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 83-11150 Filed 4-26-83; 8:45 am]

BILLING CODE 7035-01-M

[1] This proceeding embraces two petitions for exemption filed by motor contract carriers: No. 39172, Barrett Moving & Storage Company and No. 39175, Rail-Trail Co.

Motor Carriers; Decision Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1181.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

Agatha L. Mergenovich,

Secretary.

For status, please call Team 4 at 202-275-7669.

Volume No. OP4-FC-247

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

MC-FC-81393, filed April 11, 1983. By decision of April 20, 1983 issued under 49 U.S.C. 10926 and the transfer at 49 CFR Part 1181, Review Board Number 1 approved the transfer to HEAVY HAUL CRANE & RIGGING, INC., of Spokane, WA, of Certificate No. MC-163197, issued January 26, 1983, to RAY SPENCER, Kellogg, ID, authorizing the transportation of (1) *building materials*, between points in Idaho, Washington, Montana, North Dakota, South Dakota, Minnesota, Colorado, Wyoming, and Nebraska; (2) *machinery* between points in Minnesota, North Dakota, South Dakota, Montana, Wyoming, Colorado, Utah, Idaho, Washington, and Oregon, (3) *transportation equipment*, between points in Washington, Oregon, Montana, North Dakota, South Dakota, and Wyoming; and (4) *scrap iron and metal products*, between points in Idaho, Washington, Oregon, and Montana. Representative: James W. Atwood, P.O. Box 447, Coeur d'Alene, ID 83814.

[FR Doc. 83-11153 Filed 4-26-83; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods). The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of

the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

The the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service in for a named shipper "under contract."

Please direct status inquiries to Team 1, (202) 275–7992.

Volume No. OP1–148

Decided: April 29, 1983.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

MC 148391 (Sub-2), filed April 15, 1983. Applicant: THE CONOVER EXCHANGE, INC., 7433 Bollinger Road, Conover, OH 45317. Representative: Joseph Winter, 29 South LaSalle St., Chicago, IL 60603, (312) 263–2306. As a *broker* of *general commodities* (except household goods), between points in the U.S. (except AK and HI).

MC 167361, filed April 11, 1983. Applicant: HARRY DEFRATES, RRI Box 297, Hampshire, IL 60140. Representative: Harry Defrates (same address as applicant), (312) 683–3630. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S. (except AK and HI).

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers. The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, subpart A,

published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922 (c)(2)(E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property—that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier—that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker—that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Please direct status inquiries to Team 2, (202) 275–7030.

Motors Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: April 20, 1983.

The following restriction removal applications, are governed by 49 CFR Part 1165. Part 1165 was published in the **Federal Register** of December 31,1980, at 45 FR 86747 and redesignated at 47 FR 49590, November 1,1982.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1165.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed. Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Review Board No. 1, Members Chandler, Fortier, and Parker.

Agatha L. Mergenovich,
Secretary.

Please direct status inquiries to Team 4, at (202) 275–7669.

MC 60087 (Sub-25) X, filed April 11, 1983. Applicant: CURRY MOTOR FREIGHT LINES, INC., 700 Northeast 3rd St., Amarillo, TX 79107. Representative: Morris G. Cobb, P.O. Box 9050, Amarillo, TX 79189 (806) 374–1641. Lead and Subs 9, 10, 14, 21 and 22: (1) broaden general commodities with the currently usual exceptions by removing restrictions against "those of unusual value, livestock, cotton, lumber, commodities requiring special equipment and those injurious or contaminating to other lading," (2) remove intermediate point restriction between Lubbock and Ropesville, TX, (3) remove exception against service at San Angelo and Brady, TX, (4) remove

intermediate point restriction between Canyon and Farwell, TX, (5) remove restriction against service at Anton and Shallowater, TX, and further remove restriction against service from or to points in the Farwell, TX commercial zone located in NM, (6) remove joinder restriction at Anton, TX (7) remove intermediate point restriction between Plainview and Dimmitt, TX, and (8) broaden service between Tulia and Turkey, TX, Fort Stockton and El Paso, TX, and Marfa and El Paso, TX to include service to all intermediate points.

[I.C.C. Order No. P-51]

Rail Carriers; Passenger Train Operation

It appearing, that the National Railroad Passenger Corporation (Amtrak) has established through passenger train service between Washington, D.C. and Montreal, Canada. The operation of these trains requires the use of the tracks and other facilities of Boston and Maine Corporation (B & M). A portion of the B & M tracks at Claremont Junction, New Hampshire, are temporarily out of service because of a derailment. An alternate route is available via the Green Mountain Railroad Corporation, Vermont Railway, Inc., and Central Vermont Railway, Inc., between Bellows Falls, Vermont and Essex Junction, Vermont.

It is the opinion of the Commission that the use of such alternate route is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

(a) Pursuant to the authority vested in me by order of the Commission decided October 30, 1981, and of the authority vested in the Commission by Section 402(c) of the Rail Passenger Service Act of 1970 (45 U.S.C. 562(c)), Green Mountain Railroad Corporation (GMRC), Vermont Railway, Inc. (VTR), and Central Vermont Railway, Inc. (CV), are directed to operate trains of the National Railroad Passenger Corporation (Amtrak) between a connection with Boston and Maine Corporation (B & M) at Bellows Falls, Vermont and Essex Junction, Vermont.

(b) In executing the provisions of this order, the common carriers involved shall proceed even though no agreements or arrangements now exist between them with reference to the compensation terms and conditions applicable to said transportation. The compensation terms and conditions shall be, during the time this order remains in force, those which are voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, the compensation terms and conditions shall be as hereafter fixed by the Commission upon petition of any or all of the said carriers in accordance with pertinent authority conferred upon it by Interstate Commerce Act and by the Rail Passenger Service Act of 1970, as amended.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(d) *Effective date.* This order shall become effective at 7:50 p.m., April 9, 1983.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., April 10, 1983, unless otherwise modified, amended, or vacated by order of this Commission.

This order shall be served upon Central Vermont Railway, Inc., Green Mountain Railroad Corporation, Vermont Railway, Inc., and upon the National Railroad Passenger Corporation (Amtrak), and a copy of this order shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., April 9, 1983.

Interstate Commerce Commission.

Bernard Gaillard,

Agent.

BILLING CODE 7035-01-M

Motor Carrier; Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-256

The following applications were filed in Region 5. Send protest to: Consumer Assistance Center, Interstate Commerce Commission, 411 West 7th Street, Suite 500, Fort Worth, TX 76102.

MC 136508 (Sub-5-1TA), filed April 14, 1983. Applicant: GALE B. ALEXANDER, 120 S. Ward, Ottumwa, IA 52501. Representative: Kenneth F. Dudley, P.O. BILLING CODE 7035–01–M

[Ex Parte No. 387 (Sub-901)]

Rail Carriers; Richmond, Fredericksburg and Potomac Railroad Company, Exemption for Contract Tariff; ICC–RFP–C–0019 (Used Motor Vehicles)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: A provisional exemption is granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713 (e), and the above-noted contract tariff may become effective on one day's notice.* This exemption may be revoked if protests are filed.

DATES: Protests are due within 15 days of publication in the **Federal Register.**

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Douglas Galloway, (202) 275–7278.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in this instance to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption request meets the requirements of 49 U.S.C. 10505(a) and is granted subject to the following conditions:

This grant neither shall be construed to mean that the Commission has approved the contract for purposes of 49 U.S.C. 10713(e) nor that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review this contract and to determine its lawfulness.

This action will not significantly affect the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10505)

Decided: April 20, 1983.

By the Commission, Review Board Number 1, Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

MOTOR CARRIER RATEMAKING STUDY COMMISSION

Public Meeting

Date: Tuesday, May 10, 1983.

Place: Russell Senate Office Building, Room SR253 (old 235) Constitution Avenue and First Street, N.E., Washington, D.C. 20510.

Time: 10:00 a.m.

Purpose: The Motor Carrier Act of 1980, Pub. L. 96–296, 94 Stat. 793 (1980), as amended by the Bus Regulatory Reform Act of 1982, Pub. L. 97–261, 96 Stat. 1102 (1982), directs the Motor

Carrier Ratemaking Study Commission (Study Commission) to make a full and complete investigation and study of the collective ratemaking process for general rate changes, innovative fare changes, and broad changes in tariff structure of motor common carriers of passengers and upon the need or lack of need for antitrust immunity therefor. The Study Commission may study the collective ratemaking process for single-line or joint-line rates of motor common carriers of passengers. Each such study shall estimate the impact of the elimination of such immunity upon rate levels and rate structures and describe the impact of the elimination of such immunity upon the Interstate Commerce Commission and its staff. This study shall give special consideration to the impact of the elimination of such immunity upon rural areas and small communities.

In addition, the Study Commission has been directed to make a full and complete investigation and study of the impact to implementation of the Bus Regulatory Reform Act of 1982 on persons over the age of 60, including those who reside in rural areas and small communities, and particularly the effect on such persons of the potential termination of routes as a result of implementation of the Bus Regulatory Reform Act of 1982. Further, the Study Commission has been directed to consider the impact to both statutory and administrative regulatory reforms on the continuation and development of high quality intrastate motor bus services. This study shall focus on the impact on existing firms currently providing service, some or all of which is conducted between points wholly within a single State. The Study Commission shall present its conclusions in its final report to the President and the Congress, but has been directed to immediately notify the Congress and the Interstate Commerce Commission if it finds the existence of conditions that jeopardize the viability of continued intrastate services before it can issue its final report.

The purpose of this meeting is to discuss the Study Commission's procedures, work plan, future hearings and other related organizational business as necessary.

FOR FURTHER INFORMATION CONTACT: Name: Gary D. Dunbar; Title: Executive Director; Phone No. (202) 724–9600.

Submitted this, the 22nd day of April, 1983.

Gary D. Dunbar
Executive Director.

BILLING CODE 6820-BD-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–155]

Consumers Power Co. (Big Rock Point Plant); Exemption

I

The Consumers Power Company (CPC) (the licensee) is the holder of Facility Operating License No. DPR–6 which authorizes the operation of Big Rock Point Plant located in Charlevoix, Michigan, at steady state reactor core power levels not in excess of 240 megawatts thermal. This license provides, among other things, that it is subject to all rules, regulations and Orders of the Commission now and hereafter in effect.

II

By submittal dated March 18, 1983, the licensee has requested a schedular exemption from the requirements of 10 CFR 50.49(g). 10 CFR 50.49(g) requires licensees to submit a list of electrical equipment important to safety and a schedule for environmental qualification of such equipment by May 20, 1983. The exemption requested by the licensee is simply a delay in the submittal deadline from May 20, 1983 to June 1, 1983.

The licensee has asked the NRC to perform an integrated assessment for Big Rock Point of several licensing issues including environmental qualification of electrical equipment important to safety. The NRC has agreed to this request. The licensee plans to submit by June 1, 1983, a list of proposed alternatives to several NRC regulations and guidelines along with information to show that the alternatives will not degrade plant safety. Since the licensee plans to include environmental qualification of electrical equipment in that list, the licensee believes that a delay of twelve days in the 10 CFR 50.49(g) schedule is justified to allow a truly integrated approach.

The NRC staff has evaluated the licensee's request for an extension of the May 20, 1983 submittal deadline. The delay requested by the licensee is in the submittal of their plans and schedules; the licensee has not requested a delay in the final implementation of 10 CFR Part 50.49. The requested delay of twelve days is short and will not affect the overall NRC schedule for resolution of this issue of environmental qualification of electrical equipment important to safety. The requested delay for the purpose of integrating this issue with other licensing issues is consistent with the NRC's agreement to perform the integrated assessment requested by the licensee. Therefore, the NRC staff concludes that the requested exemption to the schedular requirement of 10 CFR Part 50.49(g) should be granted.

III

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12, an exemption is authorized by law and will not endanger life or property or the common defense and security and is otherwise in the public interest. Therefore, the Commission hereby grants an exemption to the licensee to delay submittal of the information required by 10 CFR Part 50.49(g) by May 20, 1983 until June 1, 1983.

The Commission has determined that the granting of this Exemption will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

Dated at Bethesda, Maryland this 21st day of April, 1983.

For the Nuclear Regulatory Commission.

Darrell G. Eisenhut,
Director, Division of Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket No. 50–331]

Iowa Electric Light & Power Co., et al; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 87 to Facility Operating License No. DPR–49 issued to Iowa Electic Light and Power Company, Central Iowa Power Cooperative, and Corn Belt Power Cooperative, which revises the Technical Specifications for operation of the Duane Arnold Energy Center (DAEC), located in Linn County, Iowa. The amendment is effective as of is date of issuance.

The amendment modifies the Technical Specifications to incorporate revisions to the tables of safety related snubbers to reflect modifications made to satisfy the requirements of the Mark I Containment Long Term Program Order for Modification dated February 28, 1978 and to clarify location of some existing snubbers.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The

Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) and environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 2, 1983 (2) Amendment No. 87 to License No. DPR–49, and (3) the Commission's letter to Iowa Electric Light and Power Company dated April 18, 1983. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, S.E., Cedar Rapids, Iowa 52401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 18th day of April, 1983.

For the Nuclear Regulatory Commission.

Domenic B. Vassallo,

Chief, Operating Reactors Branch #2, Division of Licensing.

[FR Doc. 83–11222 Filed 4–26–83; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–263]

Northern States Power Co.; Issuance of Amendment to Facility Operating License

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 17 to facility Operating License No. DPR–22, issued to Northern States Power Company, which revised the Technical Specifications for operation of the Monticello Nuclear Generating Plant (the facility) located in Wright County, Minnesota. The amendment is effective as of its date of issuance.

The amendment changes the Technical Specifications to include:

1. Title change from AEC to Commission
2. Correction of Table numbering
3. Clarification of definition for Ni
4. Clarification of the bases section to reflect the removal of two vacuum breakers
5. Identification of fire detectors that have been installed
6. Correction of inconsistency between the FSAR and the Technical Specifications on the reactor vessel construction codes and standards
7. Change from FSAR to USAR as the report to be reviewed by the operations Committee; and
8. Correction of typographical errors

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5 (d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of the amendment.

For further details with respect to this action, see (1) the application for amendment dated September 24, 1982, (2) Amendment No. 17 to License No. DPR–22, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota. A copy of items (2) and (3) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 18th day of April, 1983.

For the Nuclear Regulatory Commission.

Domenic B. Vassallo,

Chief, Operating Reactors Branch #2, Division of Licensing.

[Docket No. 50–263]

Northern States Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 16 to Facility Operating License No. DPR–22, issued to Northern States Power Company, which revised Technical Specifications for operation of the Monticello Nuclear Generating Plant (the facility) located in Wright County, Minnesota. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications to reflect changes in the organizational structure of Northern States Power Company.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 24, 1982, (2) Amendment No. 16 to license No. DPR–22, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota. [Docket No. P-564A]

Pacific Gas & Electric Co.; Hearing

In the Matter of; Pacific Gas and Electric Company (Stanislaus Nuclear Project, Unit No. 1) Docket No. P-564A; Oral Argument.

Notice is hereby given that, in accordance with the Appeal Board's order of April 20, 1983, oral argument on the appeal of the Northern California Power Agency from the January 19, 1983 memorandum and order of the Administrative Law Judge in this antitrust proceeding will be heard at *10:00 a.m., on Wednesday, May 18, 1983,* in the NRC Public Hearing Room, Fifth Floor, East-West Towers Building, 4350 East-West Highway, Bethesda, Maryland.

Dated: April 20, 1983.

For the Appeal Board.

C. Jean Shoemaker,

Secretary to the Appeal Board.

Advisory Committee on Reactor Safeguards; Proposed Meetings

In order to provide advance information regarding proposed meetings of the ACRS Subcommittees and of the full Committee, the following preliminary schedule is published to reflect the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published March 23, 1983 (48 FR 12156). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the **Federal Register** approximately 15 days (or more) prior to the meeting. Those Subcommittee meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*). It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 a.m. and Subcommittee meetings usually begin at 8:30 a.m. The time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the May 1983 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634-3267, ATTN: Barbara Jo White) between 8:15 a.m. and 5:00 p.m., Eastern Time.

ACRS Subcommittee Meetings

**Reactor Radiological Effects,* April 28-30, 1983, Washington, DC. The Subcommittee will discuss NRC Staff's response to the ACRS comments and recommendations on control room habitability, Shippingport decommissioning, the potassium iodide (KI) issue, generic safety issues related to radiological effects, and site evaluation. Notice of this meeting was published April 8, 1983.

Westinghouse Water Reactors, May 5, 1983, Washington, DC. The Subcommittee will discuss preliminary design information for the Westinghouse advanced pressurized water reactor (WAPWR). The entire meeting will be closed to public attendance in order to protect Westinghouse proprietary information.

**Systematic Evaluation Program,* May 6, 1983, Washington, DC. The Subcommittee will discuss the integrated plant safety assessment of the La Crosse Boiling Water Reactor (LACBWR).

**AC/DC Power Systems Reliability,* May 10, 1983, Washington, DC. The Subcommittee will discuss the status of the NRC work on reliability of AC/DC power systems with the principal item of discussion being the NRC work on station blackout.

**Electrical Systems,* May 10, 1983, Washington, DC. The Subcommittee will review the status of the Office of Research activities and generic issues assigned to this Subcommittee in preparation for the report to the Commission on the FY 1985 and 1986 budget.

**Emergency Core Cooling Systems (ECCS),* May 10, 1983, Washington, DC. The Subcommittee will discuss NRR review of the revised methodology for the GE SAFER/GESTER ECCS Codes, and the status of other NCR/NRR licensing actions; and NRC/RES activities, including: Appendix K revision status, status of B&W/NRC Test Advisory Group effort, and the results of the recent LOFT feed-and-bleed test.

**Safety Research Program,* May 11, 1983, Washington, DC. The Subcommittee will review the NRC Safety Research Program and Budget for FY 1985 and 1986, along with the Office of Research responses to ACRS recommendations included in the recent ACRS report to Congress on the Safety Research Program for FY 1984 and 1985 (NUREG-0963).

**Joint Reliability and Probabilistic Assessement and Extreme External Phenomena,* May 11, 1983, Washington, DC. The Subcommittee will review the status of the NRC sponsored research relating to reliability and probabilistic assessment and external events.

**Decay Heat Removal Systems,* May 18, 1983, Washington, DC. The Subcommittee will discuss generic safety issues associated with decay heat removal and a draft Brookhaven National Laboratory Report, "Grouping of LWRs According to their Decay Heat Removal Capability".

**Human Factors,* May 19, 1983, Washington, DC. The Subcommittee will meet: (a) to review the priorities assigned in NUREG-0933, A Prioritization of Generic Safety Issues, to human factors related safety issues; (b) to review proposed human factors related modifications to the "General Design Criteria for Nuclear Power Plants," 10 CFR 50 Appendix A; (c) to be briefed by the Office of Inspection and Enforcement on recent activities at the NRC's incident response center; (d) to review the Human Factors Research Budget for FY 1985 and 1986; and (e) to discuss Dr. G. Salvendy's proposal for training human factors engineers relative to the safe design and operation of nuclear power plants.

**Emergency Core Cooling Systems (ECCS),* May 24-26, 1983, Idaho Falls, ID. The Subcommittee will review the NRC research programs on loss-of-coolant accidents (LOCA) and transient research.

**Joint Metal Components and Reactor Fuels,* May 26-27, 1983, Washington, DC. The Subcommittee will discuss BWR pipe cracking, turbine disk cracking, reactor coolant pump seal failure and fuel cladding degradation.

**Anticipated Transient Without Scram (ATWS),* May 27, 1983, Washington, DC. The Subcommittee will continue review of the proposed Rule: "Reduction of Risk from Anticipated Transient Without Scram Events for Light Water Cooled Reactors".

**Joint Reactor Radiological Effects (RE)/Site Evaluation (SE)/Waste Management (WM),* Date to be determined (May-June, Tentative), Washington, DC. The Subcommittees will review NRC proposed Research Program and Budget for RE/SE/WM for FY 1985 and 1986.

Quality Assurance During Construction, June 1, 1983, Washington, DC. The Subcommittee will be briefed by the NRC Staff on its quality assurance initiatives, including those related to the "Ford Amendment" of Pub. L. 97–415. The Subcommittee will also review the priorities given in NUREG–0933, A Prioritization of Generic Safety Issues, to generic items related to construction quality assurance. Also, the Subcommittee will discuss, with representatives of the Institute of Nuclear Power Operations (INPO), INPO's efforts related to construction quality assurance (e.g., Construction Projects Evaluation Program).

Plant Features Important to Safety, June 7, 1983, Washington, DC. The Subcommittee will obtain from the NRC Staff a status report and program plans on Equipment Qualification and Classification Systems dealing with both mechanical and electrical components. New initiatives in the quality assurance area will be explored.

Safety Research Program, June 8, 1983, Washington, DC. The Subcommittee will discuss the draft ACRS report to the Commission on the NRC Safety Research Program and Budget for FY 1985 and 1986.

Generic Items, June 8, 1983 (Tentative), Washington, DC. The Subcommittee will disscuss the results of the review conducted by various ACRS Subcommittees on the priority rankings proposed by the NRC Staff for various generic issues.

Metal Components, June 14–15, 1983, Oak Ridge, TN. On June 14, the Subcommittee will review the status of the pressurized thermal shock (PTS) program. On June 15, the Heavy Section Steel Technology (HSST) research site will be visted and the mid-year review of the HSST program will be discussed.

Metal Components, Date to be determined (June, Tentative), Washington, DC. The Subcommittee will review the NRC position on generic recommendations for steam generator tube integrity and multiple tube ruptures. NRC plans to ensure bolt integrity will also be discussed.

Decay Heat Removal Systems, July 26, 1983, Washington, DC. The Subcommittee will discuss the Combustion Engineering Owners Group and NRC Staff recommendations concerning the installation of Power Operated Relief Valves on the Combustion Engineering plants.

Midland Plant Units 1 and 2, Date to be determined (July, Tentative), Washington, DC. The Subcommittee will review Consumers Power Company's (CPCo) plan for an audit of plant quality at Midland Plant Units 1 and 2. In addition, representatives of CPCo will report on design and construction problems at Midland, their disposition, and the overall effectiveness of the effort to assure appropriate plant quality. The Committee will be briefed on CPCo's Construction Completion Plan.

Human Factors. Date to be determined (July-August, Tentative), Washington, DC. The Subcommittee will review the question of what qualifications would be desirable for members of a nuclear power plant operating staff.

ACRS Full Committee Meeting

May 12–14, 1983: Items are *tentatively* scheduled.

A. *La Crosse Boiling Water Reactor (LACBWR)*—Review of the Systematic Evaluation Program for the facility.

B. *Haddam Neck Plant*—Review of the Systematic Evaluation Program for the facility.

C. *GESSAR–II*—Review of the application of General Electric for a final design approval of the GESSAR–238 nuclear island.

D. *Station Blackout*—ACRS comments on NRC Staff recommendations for the resolution of USI–A–44, "Station Blackout Accidents."

E. *Precursor Study*—Complete ACRS report on NRC-sponsored ORNL study, Precursors to Potentially Severe Core Damage (NUREG/CR–2497).

F. *Regionalization of NRC activities*—Further consideration of the matter.

G. *ACRS Subcommittee Activities Reports of designated ACRS Subcommittees regarding ongoing activities related to matters such as: Regulatory Requirements* including proposed NRC Regulatory Guide on Instrument Sensing Lines (Task No. IC 126–5); Regulatory Policy and Procedures including proposed legislative and administrative changes to the regulatory process; *Probabilistic Risk Assessment/Extreme External Phenomena* regarding Safety Goal Evaluation Plan, NREP, seismic design margins, and design basis earthquakes for Eastern U.S. sites; *Waste Management Program* concerning the Site Characterization Report for the Basalt Waste Isolation Project (DOE/RL 82–3); *Emergency Core Cooling System* consideration of ECCS analysis methods in conjuction with NRC review of GE SAFER/GESTER ECCS evaluation model codes; and *Safety Research Program* recommendations concerning drafting of future reactor safety research reports.

H. *Meeting with Nuclear Reactor Regulation Staff*—Discuss management policy regarding prioritization of generic issues, integration of Systematic Evaluation Program phase II, NREP, systems interaction, etc.

I. *Meeting with NRC Commissioners*—Discussion of safety related items including consideration of Class-9 Accidents in the regulatory process and the related Accident Source Term Program.

J. *Discussion of Memorandum of Understanding*—Discussion of ACRS participation in NRC rule making and policy making activities.

K. *Personnel Policy and Procedures*—Discussion of non-ACRS Activities of Committee Members.

L. *Rules on Immediate Notification Requirements (10 CFR 50.72) and Licensee Event Reporting (10 CFR 50.73)*—Review by the ACRS.

June 9–11, 1983—Agenda to be announced.

July 7–9, 1983—Agenda to be announced.

Dated: April 22, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 83–11227 Filed 4–26–83; 8:45 am]

BILLING CODE 7590–01–M

Regulatory Guide; Withdrawal

Regulatory Guide 1.67, "Installation of Overpressure Protection Devices," has been withdrawn. This guide was issued in October 1973 to provide guidance to licensees and applicants on the design of piping for certain safety valve and relief stations in light-water-cooled reactors.

The Winter 1978 Addenda to the 1977 Edition of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code's Appendix O, Section III, Division 1, "Rules for Design of Safety Valve Installations," included requirements equivalent to the recommendations of the guide. These changes were incorporated by reference in § 50.55a of 10 CFR Part 50 (46 FR 20153) on April 3, 1981, and there is no longer a need for Regulatory Guide 1.67. The withdrawal of this guide does not alter any prior or existing licensing commitments based on its use.

Regulatory guides may be withdrawn when they are superseded by the Commission's regulations, when equivalent recommendations have been incorporated in applicable approved codes and standards, or when changes in methods and techniques or in the need for specific guidance have made them obsolete.

(5 U.S.C. 552(a))

Dated at Silver Spring, Maryland, this 20th day of April 1983.

For the Nuclear Regulatory Commission.

Robert B. Minogue,

Director, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 22918; 70-6861]

Central and South West Corporation and Public Service Corporation of Oklahoma; Proposed Acquisition by Subsidary of its Common Stock From Holding Company

April 21, 1983.

Central and South West Corporation ("CSW") 2700 One Main Place, Dallas, Texas 75250, a registered holding company, and its electric utility subsidiary, Public Service Company of Oklahoma ("PSO") P.O. Box 201, Tulsa, Oklahoma 74102, have filed a declaration with this Commission pursuant to Sections 12(c) and 12(d) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 42 and 43 promulgated thereunder.

PSO proposes to acquire from CSW, from time to time in 1983 and 1984, up to $60 million of PSO's common stock at the current book value at the time of purchase.

On January 15, 1982, the Oklahoma Corporation Commission ("OCC") entered an order in a pending PSO retail rate proceeding which held, in part, that it was inappropriate for PSO to continue the construction of the Black Fox Nuclear Generating Station ("Black Fox"). The order provided that if PSO terminated Black Fox as a nuclear project, PSO would be allowed to recover a portion of the Oklahoma jurisdictional share of its investment in Black Fox through retail electric rates over a period not to exceed ten years. The recoverable investment, estimated at $269 million, was offset by an amount equal to the gain from a sale by PSO of certain undeveloped oil and gas leases that occurred late in 1981 and certain extraordinary gains since 1974. Under the OCC order, the annual recovery of investment from the Oklahoma ratepayer will be supplemented by other extraordinary gains, margins on off-system electric sales over the test year level, and other revenue streams if and when they occur during the recovery period. On February 16, 1982, PSO, with the concurrence of the co-owners of Black Fox, notified the OCC of its decision to terminate Black Fox as a nuclear project. The amount of the recovery from all sources will be reviewed periodically. In 1981, the application of the gains from the extraordinary sales noted above provided recovery of $53.6 million. For 1982, the amount of recovery from all revenue sources was $16.4 million, and it is estimated that for 1983 the amount will be $29 million. PSO has also filed an application with the Federal Energy Regulatory Commission ("FERC") to recover, over a ten year period, the portion of PSO's investment in Black Fox related to FERC customers. In October 1982, PSO began collecting additional annual revenues of $1,900,000, subject to refund pending final determination by FERC, in recovery of PSO's investment in Black Fox related to FERC customers. The above amortization revenues have increased positive cash flow and will continue to do so. In addition, PSO is deducting as much of the abandonment loss as possible for tax purposes. This has created tax timing differences which, although they will be offset in later years, will provide additional cash flow in the first few years of the 10-year amortization period. Termination of Black Fox as a nuclear project also significantly decreases projected construction expenditures during the next several years. PSO does not plan significant expenditures for substitute capacity through 1985.

It is stated that the interim cash flow from the Black Fox recovery revenue streams, including proceeds of the 1981 sale of oil and gas leases, and the related deferred taxes, can only be used in the normal course of business to retire short-term borrowing. However, PSO's $269 million investment in the Black Fox project was in the form of debt, preferred stock, and common equity—not short-term debt alone. The retirement of only short-term debt would create an imbalance in PSO's capital structure during the next several years. If no action is taken to correct the imbalance, PSO's common stock equity ratio will approach and could exceed 50% at various times in the 1983 to 1988 period, well above the company's present target ratio of approximately 42%–44%. PSO rates have recently been established based on a 42% common equity ratio. An unnecessarily high common equity ratio for this period will raise PSO's overall cost of capital and decrease profitability for any given stream of operating income, due to the higher cost of equity as opposed to debt. PSO proposes to alleviate the temporary imbalance in capitalization ratios by acquiring a portion of its common stock from CSW over the next two years. Such purchases will be financed by PSO pursuant to short-term borrowings under the CSW System Money Pool (File No. 70-6725). The amount and timing of such transactions would maintain PSO's common stock equity ratio closer to the current target level of approximately 42%–44%. Because of the need for flexibility in the light of the possibility that the facts may differ from the assumptions, PSO requests authorization to purchase, from time to time during 1983 and 1984, an amount of its common stock not to exceed $60 million.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by May 17, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as filed or as it may be amended, may be granted.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 83-11274 Filed 4-26-83; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 22893; (70-6852)]

Columbia Gas System, Inc.; Proposed Issuance and Sale of Common Stock Through an Exchange for Issuer's Debentures in Satisfaction of Sinking Fund Requirements; Request for Exception From Competitive Bidding

March 28, 1983.

The Columbia Gas System, Inc. ("Columbia"), 20 Montchanin Road, Wilmington, Delaware 19807, a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to Sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 42 and 50 promulgated thereunder.

As of March 3, 1983, Columbia had issued 35,993,784 shares out of 50 million shares of authorized common stock. Columbia now proposes to issue from time to time through December 31, 1983, up to 2 million additional shares of authorized, but unissued, common stock in exchange for an amount of its outstanding debentures of comparable value which would otherwise be reacquired for cash to satisfy normal sinking fund requirements. The debentures will have been previously acquired by one or more investment banking firms which will exchange the debentures for the additional common stock and then sell the common stock. The additional common stock will be registered with this Commission in accordance with its delayed or continuous offering and sale procedures (17 ICF 230.415) in order to permit periodic, but not more than three, public offerings in 1983.

Columbia cites two material advantages which result from the issuance of common stock in the manner herein described. The gradual replacement of debt with common stock will strengthen Columbia's capital structure and improve its earnings coverage ratios. Additionally, it is anticipated that the gain resulting from the acquisition of the debentures, at less than their par value, will be tax-free as an exchange of securities. This type of exchange will produce higher cash savings than if the debentures were simply reacquired for cash.

Columbia has requested an exception from the competitive bidding requirements of Rule 50 under the Act. It it represented that the exchange ratio, which determines the number of shares of common stock issued, would be negotiated based on the value of the debentures versus the market value of the common stock, less underwriting commissions. Because transactions under this proposed procedure may be carried out periodically over an extended time period, and because Columbia must deal directly with those investment bankers that hold the debentures Columbia seeks to purchase, Columbia asserts that it is essential that it be able to negotiate with the investment bankers to determine the appropriate exchange ratio. In light of the foregoing, Columbia proposes to initiate preliminary negotiations and is hereby granted permission to do so.

The effect of the proposed transactions upon the consolidated capital structure of Columbia as of December 31, 1982, is demonstrated below assuming an acquisition of debentures of a par value equaling $63 million, at a discounted value of $50 million, in exchange for common stock at a market price of $28 per share (this exchange radio would result in the issuance of 1,786,000 shares):

	Actual		Pro forma	
	Dollars (millions)	Percent	Dollars (millions)	Percent
Common stock equity	1,456	48.3	1,508	50.2
Redeemable preferred stock [1]	40	1.3	40	1.3
Long-term debt [1]	1,519	50.4	1,456	48.5
Total	3,017	100.0	[2]3,004	100.0

[1] Includes current maturities.
[2] Gain on retirement of debt recorded as a deferred credit, and amortized over the remaining life of the debentures, on a series-by-series basis, to reduce interest expense.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Any interested persons wishing to comment or request a hearing should submit their views in writing by April 22, 1983, to the Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration as amended or as it may be further amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 13179; 812-5454]

Dean Witter Developing Growth Securities Trust and John R. Haire; Filing of Application

April 21, 1983.

Notice is hereby given that Dean Witter Developing Growth Securities Trust, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified, management investment company (the "Trust"), and John R. Haire (collectively, "Applicants") Five World Trade Center, New York, New York 10048, filed an application on February 11, 1983, for an order of the Commission, pursuant to Section 6(c) of the Act, declaring that Mr. Haire, a trustee of the Trust, shall not be deemed an interested person of the Trust, as defined by Section 2(a)(19) of the Act, solely because he serves as a director of Washington National Corporation ("WNC"), which has three wholly-owned subsidiaries registered as broker-dealers under the Securities Exchange Act of 1934 ("Exchange Act"). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and are referred to the Act and the rules thereunder for further information as to the provisions to which the exemption applies.

Applicants state that Mr. Haire is a director of WNC, a publicly-held life insurance complex, and two of its wholly-owned life insurance subsidiaries, Anchor National Life Insurance Company ("ANL") and Washington National Life Insurance Company of New York ("WNNY"). Two other "wholly-owned subsidiaries of WNC, Washington National Equity Company ("WNEC") and Anchor National Financial Services, Inc. ("ANS"), are registered as broker-dealers under the Exchange Act. Applicants further state that ANS itself has a wholly-owned subsidiary, ANFS, Inc. ("ANFS"), also registered as a broker-dealer under the Exchange Act.

Applicants represent that the three broker-dealer subsidiaries of WNC function primarily as adjuncts to the insurance operations of the WNC complex, marketing mutual funds and variable annuities. Applicants represent that ANS and ANFS conduct a general securities business on a fully disclosed basis through an unaffiliated broker-dealer. Applicants contend they limit such general securities business to the accommodation of clients of dually-licensed insurance agents/registered representatives. Applicants describe such business as occasional and unsolicited. Applicants represent that the borker-dealer affiliates of WNC will not transact any business with the Trust, as portfolio brokers or otherwise, so long as Mr. Haire remains a trustee of the Trust.

Applicants state that because Mr. Haire serves as a director of WNC, he might be deemed to control WNEC, ANS, and ANFS, the broker-dealer subsidiaries of WNC and, thus, through the application of Sections 2(a)(19), 2(a)(3), and 2(a)(9), be considered an interested person of the Trust. A similar analysis might deem Mr. Haire to be controlled by WNC and, thus, an

affiliated person of the same broker-dealer subsidiaries by reason of his being under the common control of WNC. Either analysis, the Applicants acknowledge, would result in Mr. Haire being considered an interested person of the Trust.

Section 6(c) of the Act permits the Commission, among other things, to grant an exemption by order upon application from any provision or provisions of the Act, provided such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants contend that Mr. Haire does not exercise a controlling influence over the affairs of WNC's broker-dealer subsidiaries, except in his official capacity as a director of WNC. Applicants represent that Mr. Haire is not a director, officer, or employee of the broker-dealer subsidiaries, and that Mr. Haire in no way participates in the day-to-day operations of WNC or its broker-dealer subsidiaries. Mr. Haire does not serve as an officer of WNC. Mr. Haire receives the same director's fees as received by the other outside directors of WNC, WNNY, and ANL. According to the application, Mr. Haire works, full-time, as president and chief executive officer of the Council for Financial Aid to Education, a non-profit corporation promoting financial aid to education.

Applicants argue that it would be misleading to shareholders and unfair to Mr. Haire to identify him as an interested trustee of the Trust because such designation implies an actual or potential conflict of interest which, Applicants claim, does not exist. Applicants contend that because no possibility exists that the Trust will do business with WNC or its broker-dealer subsidiaries, Mr. Haire will be in a position to act independently on behalf of the Trust and its shareholders without any possible impairment arising out of his affiliation with WNC. Accordingly, Applicants believe it would be in the best interests of the Trust and its shareholders to have Mr. Haire's status as a disinterested trustee acknowledged. Applicants believe the exemption requested to be appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person wishing to request a hearing on the application my, not later than May 16, 1983, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interests, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 13178; 812-5367]

Heizer Corporation; Filing of an Application

April 21, 1983.

Notice is hereby given that Heizer Corporation ("Applicant") 20 North Wacker Drive Chicago, Illinois 60606, a business development company within the meaning of Section 2(a)(48) of the Investment Company Act of 1940 ("Act"), filed an application on October 29, 1982, and amendments thereto on March 8 and April 19, 1983, for an order of the Commission, pursuant to Section 6(c) of the Act, declaring that Edward Glassmeyer, a director of Applicant, shall not be deemed an "interested person" of Applicant, as defined by Section 2(a)(19) of the Act, by reason of: (1) his investment as a limited partner in Grubb & Company ("Grubb"), a partnership registered with the Commission as a broker-dealer under the Securities Exchange Act of 1934; (2) his providing consulting and other services to Grubb; or (3) his proposed sole ownership of a corporation that will become a limited partner of NH Management Company ("NH"), the managing general partner of Grubb. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below, and are referred to the Act and the rules thereunder for further information as to the provisions to which the exemption applies.

Primarily engaged in the business of developing independent companies that exhibit significant growth potential, Applicant seeks, as its primary investment objective, long-term capital appreciation. In accordance with this objective, Applicant states that it provides capital and managerial assistance to selected businesses. Applicant's management makes the investment decisions for Applicant in accordance with policies approved by its board of directors. Mr. Glassmeyer, Applicant has six directors, two of whom may be deemed to be "interested". To ensure its continued compliance with Section 56(a) of the Act, Applicant seeks an order of the Commission declaring that Mr. Glassmeyer shall not be deemed an interested person of Applicant within the meaning of Section 2(a)(19)(A)(v).

Applicant states that Mr. Glassmeyer beneficially owns 57,000 shares of Applicant's common stock representing approximately 0.4% of Applicant's outstanding common stock. Mr. Glassmeyer also holds options to acquire an additional 7,000 shares of Applicant's common stock, none of which are currently exercisable. Applicant represents that Mr. Glassmeyer's investment of $25,000 in a limited partnership interest in Grubb constitutes less than six percent of Grubb's initial capital. Applicant represents that Mr. Glassmeyer's limited partnership interest in Grubb does not entitle him to vote on any partnership matters, except in extraordinary circumstances, and that his liability as a limited partner cannot excede the amount of his investment in the partnership (including any capital returned to him after the date on which the partnership incurred a liability).

Grubb, a privately-held limited partnership organized under the laws of Georgia to conduct investment banking activities for its own and others' accounts, will arrange financing for emerging growth companies by using its best efforts to privately place securities of such companies. Applicant represents that Grubb will provide the following services: financial planning, strategic planning, market planning, market analysis, business plan development, and locating key managers. Applicant expects that Grubb will provide management consulting services to a small number of companies on a fee basis. As Grubb develops and enhances its capital position, Applicant anticipates that Grubb will expand its activities to include investment research, mergers and acquisitions, public offerings, market making, and other related services. The application also states that Grubb anticipates forming venture capital partnerships,

which will be operated as separate but affiliated entities.

In addition to his limited partnership interest in Grubb, Mr. Glassmeyer intends to provide, among other things, consulting services to Grubb. Moreover, Mr. Glassmeyer is the sole owner of a corporation that will become a limited partner of NH. Applicant describes NH as a privately-held, Georgia limited partnership formed for the purpose of acting as the managing general partner of Grubb. Applicant states that NH's sole business consists of acting as the managing partner of Grubb, and that NH is not registered with the Commission as a broker or dealer.

Applicant acknowledges that Mr. Glassmeyer, as a limited partner of Grubb, would be deemed an "affiliated person", through Section 2(a)(3)(D), of a registered broker-dealer, and thus an "interested person" of Applicant as defined in Section 2(a)(19)(A)(v) of the Act. Similarly, as a result of the consulting and other services which Mr. Glassmeyer will provide to Grubb, he may be considered an "employee" of that broker-dealer partnership and thus an affiliate of an interested person (and thus an interested person himself) of Applicant. Finally, as sole owner of a corporation that will become a limited partner of NH, Mr. Glassmeyer might be deemed an affiliate of an interested person, and thus an interested person of Applicant, either through Section 2(a)(3)(C) or Section 2(a)(3)(D).

Section 6(c) of the Act permits the Commission, among other things, to grant an exemption by order upon application from any of the provisions of the Act, or of any rules thereunder, provided such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant represents that no business or financial relationship currently exists, and none existed in the past, between Applicant and Grubb (or Grubb's predecessor corporation, Grubb & Co., Inc.) or NH. As a condition to the requested exemption, Applicant undertakes that—as long as Mr. Glassmeyer is a director of Applicant, is deemed not be an "interested person" of Applicant, and also is an affiliate of Grubb or NH—it will not effect any business transactions with Grubb or NH. Applicant believes that compliance with this undertaking will not adversely effect it or its shareholders because, as a business development company, Applicant rarely utilizes the brokerage or other services of registered brokers or dealers. Applicant represents that the services provided by Grubb are not unique, nor are they of the type that Applicant has historically used in its business development activities. Moreover, Applicant notes the existence of a large number of registered broker-dealers throughout the United States that provide a wide range of services, on a highly competitive basis, and sees no reason why Applicant would need to use Grubb's services, as opposed to other broker-dealers. In addition, Applicant represents that Mr. Glassmeyer has agreed to recuse himself from participation in any decision by Applicant to acquire an investment position in a portfolio company with which either Mr. Glassmeyer, Grubb, or NH have or have had within the past one year, a material business relationship.

Applicant does not believe it necessary or appropriate to request any of its portfolio, or "investee", companies to undertake to refrain from engaging in any business transactions with Grubb or NH. Characterizing the possibility that one of its investee companies will have occasion to use the services of Grubb or NH as "extremely remote," Applicant asserts that the comprehensive prohibitions and protective procedures set forth in Section 57 of the Act and the rules thereunder more than adequately protect Applicant and its shareholders in the context of this application.

Applicant believes that the requested exemption is appropriate in the public interest because it will permit Applicant and its shareholders to continue to receive the benefits of Mr. Glassmeyer's services as a director. As noted earlier, Mr. Glassmeyer has served as a director of Applicant since 1969, and, in addition to his invaluable knowledge and experience gained through his service with Applicant, Mr. Glassmeyer has outstanding abilities and experience in investment banking and other fields. Applicant asserts that Mr. Glassmeyer is a most valued member of its board of directors, and that the conflicts of interest which Section 2(a)(19)(A)(v) seeks to eliminate do not occur in this context. Finally, Applicant submits that its requested exemption is fully consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person wishing to rerquest a hearing on the application may, not later than May 16, 1983, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 13180; 812-5494]

Keystone International Fund, Inc., Keystone Tax Free Fund, Keystone Custodian Funds, Inc. as Trustee for Keystone Custodian Funds, Series B-1, B-2, B-4, K-1, K-2, S-1, S-3 and S-4; Filing of an Application

April 21, 1983.

Notice is hereby given that Keystone International Fund, Inc., Keystone Tax Free Fund, and Keystone Custodian Funds, Inc. ("Keystone"), as trustee of each of eight trusts, namely Keystone Custodian Funds, Series B-1, B-2, B-4, K-1, K-2, S-1, S-3, and S-4 (referred to hereinafter with Keystone International Fund, Inc. and Keystone Tax Free Fund as the "Funds") (Keystone and the Funds are collectively referred to as "Applicants") 99 High Street, Boston, Massachusetts 02110, filed an application on March 15, 1983, for an order, pursuant to Section 6(c) of the Investment Company Act of 1940 (the "Act"), exempting Applicants from the provisions of Sections 2(a)(32), 2(a)(35), and 22(c) of the Act and Rule 22c-1 thereunder to the extent necessary to permit Applicants to assess a contingent deferred sales charge under certain circumstances. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and are referred to the Act and the rules thereunder for further information as to the provisions to which the exemptions apply.

Registered under the Act as open-end, diversified, management investment companies, the Funds have no employees. The Travelers Corporation

("Travelers") holds all of the outstanding shares of capital stock of Keystone, the investment adviser or corporate trustee of each of the Funds. Applicants state that Fund shares are offered for sale to the public through broker-dealers pursuant to dealer agreements with the Funds' principal underwirter, Keystone Massachusetts, Inc. (the "Distributor"), a wholly-owned subsidiary of Keystone. Applicants represent that purchases of Fund shares incur a sales charge of up to 8.5% of their public offering price.

After five years of experiencing substantial net redemptions, the boards of directors of Keystone and the Funds concluded that the Funds should change their distribution arrangements. The directors decided to replace the front-end sales charges with a contingent deferred sales charge to be impoosed on redemptions of shares purchased after elimination of the front-end sales charge. The directors further decided that each Fund should partially finance the distribution of its shares, and they approved distribution plans pursuant to Rule 12b-1 under the Act. Because of their anticipated Rule 12b-1 plan, Applicants seek to impose a contingent deferred sales charge on those shares which the Funds have paid commissions on which are redeemed before the funds have had an opportunity to realize the tangible and intangible benefits of long-term investment of the capital that such sales represent. Applicants contend they calculated the contingent deferred sales charge to reflect the amount of commissions paid by the Funds on sales of shares, adjusted to reflect the time value of money and for rounding to the nearest whole percentage.

Applicants represent that they would impose contingent deferred sales charges on partial or complete redemption of shares purchased following elimination of their front-end sales charge. Shares redeemed during the same calendar year of their purchase will incur a sales charge of 4% of the lesser of: (1) the net asset value of such shares redeemed, or (2) the total cost of such shares. Applicants would charge a sales commission of 3%, based on the same calculation, on shares redeemed during the next calendar year after the year of purchase. Applicants would impose a 2% sales charge on redemptions occurring during the second calendar year after the year of purchase, 1% if the redemption occurs during the third calendar year after the year of purchase. Applicants would impose no sales charge on redemptions made during the fourth and subsequent calendar years following the year of purchase.

Applicants assert that in no event could the contingent deferred sales charges, in the aggregate ever exceed 4% of the lesser of the net asset value of the shares redeemed or the total cost of such shares. Applicants will impose no contingent deferred sales charge on: (1) increases above the shares' cost resulting from increases in the shares' net asset value, or (2) shares the Funds did not pay a commission on issuance (including shares acquired through reinvestment of dividend income and capital gains distributions). When calculating contingent deferred sales charges, Applicants will assume that shares held longest are first to be redeemed. Applicants state they will not impose a contingent deferred sales charge on exchanges of shares between Funds. Moreover, on such exchanges, Applicants will assume exchanged shares to have been purchased during the year in which the shares surrendered in the exchange were purchased or deemed to have been purchased as a result of prior exchanges.

Applicants believe that the imposition of a contingent deferred sales charge is fair and in the best interests of their shareholders. Applicants submit that their proposal permits shareholders to have more investment dollars working for them from the time they purchase Applicants' shares. Moreover, Applicants reiterate that their proposal would not impose a contingent deferred sales charge on shares held at least four years after the date of purchase or to increases in an investor's account resulting from reinvestment of distributions or increases in net asset value per share.

Applicants propose to finance their distribution expenses pursuant to a distribution plan ("Plan") adopted under Rule 12b-1 under the Act. Each Fund's Plan provides that the Fund may incur certain distribution expenses not exceeding for any quarter a maximum amount equal to 0.3125% of the Fund's average daily net assets during the quarter (an amount approximately equivalent to 1.25% annually of the Fund's average daily net assets). Such amounts may be paid to the Distributor as commissions for shares of the Fund sold after the Plan's inception, all or part of which may be allowed to others, and to enable the Distributor to pay others maintenance or other fees in respect of Fund shares sold by them after the Plan's inception that remain outstainding on the Fund's books for specified periods.

Applicants contend that their proposed contingent deferred sales charge is consistent with all provisions of the Act and that they need no exemptive relief to implement such a sales load. To avoid any questions as to the applicability of certain definitional and regulatory sections of the Act, however, Applicants request exemptions, to the extent necessary, from the provisions of the Act described below.

Applicants submit that the imposition of a contingent deferred sales charge would not remove Fund shares from the definition of "redeemable securit(ies)" found in section 2(a)(32) of the Act. Applicants believe, therefore, that the Funds will continue to qualify as open-end companies under Section 5(a)(1) of the Act. Applicants maintain that the contingent deferred sales charge in no way restricts a shareholder from receiving his proportionate share of the current net assets of the Fund, but merely defers the deduction of a sales charge and makes it contingent upon an event that may never occur. Although the proposed contingent deferred sales charge is not a redemption charge in the ordinary sense, Applicants assert that the provisions of Section 10(d) of the Act contemplate that an investment company may be an open-end company and may impose a discount from net asset value on redemption of its shares. Applicants request an exemption from Section 2(a)(32) of the Act to the extent necessary to permit the Funds to qualify as open-end companies under Section 5(a)(1) of the Act.

Applicants contend that the proposed contingent deferred sales charge qualifies as a "sales load" within the meaning of Section 2(a)(35). The contingent deferred sales charges will be paid to the Funds, not the Distributior, to reimburse the Funds for expenses related to the sale of their shares. The contingent deferred sales charge partially recompenses the Funds for commissions they paid—rather than the investor—at the time of purchase. Because the Funds pay a 5% sales commission, even the highest contingent deferred sales charge of 4% does not fully recompense the Fund. Applicants represent that the contingent deferred sales charge does not penalize an investor, but merely requires him to pay part of a sales cost disclosed yet not imposed at the time of sale. Applicants designed the contingent deferred sales charge to partially compensate the Fund and its shareholders for having borne sales costs without receiving the long-term benefits of the investments resulting from such sales. Applicants

recognize that sales loads are typically charged at the time of purchase, but they can find no logical reason to prohibit imposition of a sales charge at a time other than at the time of original purchase. Moreover, because Applicants would impose a charge only on amounts representing purchase payments (and not on increases in share value or on shares purchased through reinvestment), they assert that a purchaser can be no worse off and, in fact, is better off with their proposal than with a traditional sales charge. Nonetheless, Applicants request an exemption from the provisions of Section 2(a)(35) to the extent necessary to implement their proposed contingent deferred sales charge.

Applicants submit that their contingent deferred sales charge in no way violates Section 22(c) of the Act or Rule 22c–1 thereunder. Applicants will redeem those shares subject to a contingent deferred sales charge at net asset value or the total cost of the shares redeemed, whichever is less. Applicants will merely deduct the contingent deferred sales charge from redemption proceeds at the time of redemption in arriving at the shareholder's redemption proceeds. To avoid any questions as to the applicability of Section 22(c) and Rule 22c–1, however, Applicants request an exemption from Section 22(c) and from Rule 22c–1 to the extent necessary or appropriate to permit Applicants to implement their contingent deferred sales charge.

Section 6(c) of the Act permits the Commission, among other things, to grant an exemption by order upon application from any provision or provisions of the Act, or from any rule or regulation thereunder, provided such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicants submit that the exemptions they request are appropriate, in the public interest, and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than May 16, 1983, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date, an order disposing of the application will be issued unless the commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 13177; 812–5483]

Kidder, Peabody Government Money Fund, Inc.; Filing of Application

April 21, 1983.

Notice is hereby given that Kidder, Peabody Government Money Fund, Inc. (the "Company"), 20 Exchange Place, New York, New York 10005, an open-end, diversified management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on March 8, 1983, requesting an order of the Commission, pursuant to Section 6(c) of the Act, exempting the Company from the provisions of Section 2(a)(41) of the Act and Rules 2a–4 and 22c–1 thereunder to the extent necessary to permit the Company's net asset value per share to be valued at amortized cost. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and to the Act for the complete text of those provisions of the Act from which an exemption is being sought.

The Company states that its objective is the maximization of current income to the extent consistent with the preservation of capital and the maintenance of liquidity. The Company pursues this objective by investing in short-term money market instruments issued or guaranteed by the United States Government or its agencies or instrumentalities and entering repurchase agreements with respect to such securities. The Company states that it may invest in commitments to purchase such securities on a "when-issued" or "delayed delivery" basis. The Company states that with respect to repurchase agreements it at no time will invest in repurchase agreements for more than seven days. The Company states further that securities which collateralize such repurchase agreements may have maturities beyond one year from the time that the Company enters into the repurchase agreement.

According to the application, the amounts invested in obligations of various maturities depend on management's evaluation of the risks involved. The Company attempts to balance its three-fold objectives of high income, preservation of capital and liquidity in determining the maturity of securities selected for investment. The Company states that, generally, its investments will consist of obligations maturing within one year and the average maturity of all the investments (on a dollar-weighted basis), will be 120 days or less. The Company may also invest in such obligations which were originally issued with maturities in excess of one year if, at the time of purchase, the remaining time to maturity is less than one year.

The Company maintains that all of the above instruments are generally offered on the basis of a quoted yield to maturity and the market price of the security reflects an adjustment of its face value so that relative to the stated rate of interest it will return the quoted rate to the purchaser. The Company intends to declare its net income as a dividend to its shareholders on a daily basis and pay such dividends in additional shares on a monthly basis. According to the application, "net income" for this purpose will consist of all interest income accrued on the portfolio assets of the Company, less all expenses of the Company, plus or minus any gains or losses realized on sales of portfolio securities. The Company indicates that, if it is permitted to value its securities on an amortized cost basis, net income will also be adjusted to reflect amortization of original issue and market discount or market premium, but will not include any unrealized capital gains or losses. The Company states that, in addition, its net asset value per share will remain at $1.00 because the Company will pay the daily dividend in the form of additional shares of the Company.

The Company states that is has been the experience of the Company's manager and distributor in advising and managing other "money market" funds that in order to attract investors and retain shareholders, the Company should possess the two attributes of stability of principal, i.e., a stable net asset value, and a steady flow of investment income. The Company states

that its management believes that the Company's investment policy of investing only in instruments having a remaining maturity of one year or less with an average portfolio maturity of 120 days combined with a stable price of $1.00 per share will provide both of the attributes of stability of principal and a steady flow of investment income. The Company states that management's experience with respect to securities within the Company's investment policy indicates that with respect to instruments maturing in 120 days or less there is normally a negligible discrepancy between market value and the amortized cost value of such security. The Company believes that valuation of its assets on the amortized cost basis, by enabling the maintenance of a stable price per share and at the same time allowing a flow of investment income less subject to fluctuation than under procedures whereby its dividend would be adjusted by all realized gains and losses, will benefit its shareholders.

The Board of Directors of the Company has determined in good faith that, in light of he characteristics of the Company as described in the application, absent unusual or extraordinary circumstances, the amortized cost method of valuing portfolio securities is appropriate and preferable for the Company and reflects fair value of such securities.

Applicant further represents that granting of the requested exemption is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

In order to enhance investor protection, the Company has agreed to the following conditions:

1. The Board of Directors, in supervising the Company's operations and delegating special responsibilities involving portfolio management to the Company's investment manager, undertakes—as a particular responsibility within the overall duty of care owed to tis shareholders—to establish procedures reasonably designed, taking into account current market conditions and the Company's investment objectives, to stabilize the Company's net asset value per share, as computed for the purpose of distribution, redemption and repurchase at $1.00 per share.

2. Included within the procedures to be adopted by the Board of Directors shall be the following:

(a) Review by the Board of Directors, as it deems appropriate and at such intervals as are reasonable, in light of current market conditions, to determine the extent of deviation, if any, of the net asset value per share as determined by using available market quotations from the Company's $1.00 amortized cost price per share. To fulfill this condition, the Company intends to use actual quotations or estimates of market value reflecting current market conditions chosen by its Board of Directors in the exercise of its discretion to be appropriate indicators of value which may include, *inter alia*, (1) quotations or estimates of market value for individual portfolio instruments, or (2) values obtained from yield data relating to classes of money market instruments published by reputable sources.

(b) In the event such deviation from the Company's $1.00 amortized cost price per share exceeds one half of one percent, a requirement that the Board of Directors will promptly consider what action, if any, should be initiated.

(c) Where the Board of Directors believes the extent of any deviation from the Company's $1.00 amortized cost price per share may result in material dilution or other unfair results to investors or existing shareholders, it shall take such action as it deems appropriate to eliminate or to reduce to the extent reasonably practicable such dilution or unfair results which may include: selling portfolio instruments prior to maturity to realize capital gains or losses or to shorten the average portfolio maturity of the Company; withholding dividends; or utilizing a net asset value per share as determined by using available market quotations.

3. The Company will maintain a dollar-weighted average portfolio maturity appropriate to its objective of maintaining a stable net asset value per share; provided, however, that the Company will not (a) purchase any instrument with a remaining maturity of greater than one year, or (b) a maintain a dollar-weighted average portfolio maturity which exceeds 120 days. In fulfilling this condition, if the disposition of a portfolio instrument results in a dollar-weighted average portfolio maturity in excess of 120 days, the Company will invest its available cash in such a manner as to reduce its dollar-weighted average pportfolio maturity to 120 days or less as soon as reasonably practicable.

4. The Company will record, maintain and preserve permanently in as easily accessible place a written copy of the procedures (and any modifications thereto) described in condition 1 above; and the Company will record, maintain and preserve for a period of not less than six years (the first two years in an easily accessible place) a written record of the Board of Directors' considerations and actions taken in connection with the discharge of its responsibilities, as set forth above, to be included in the minutes of the Board of Directors' meetings. The doucments preserved pursuant to this condition shall be subject to inspection by the Commission in accordance with Section 31 (b) of the Act as though such documents were records required to be maintained pursuant to rules adopted under Section 31(a) of the Act.

5. The Company will limit its portfolio investments to those short-term money market instruments issued or guaranteed by the United States Government or its agencies or instrumentalities which the Board of Directors determines present minimal credit risks, and which are of "high-quality" as determined by any major rating service or, in the case of any instrument that is not rated, of comparable quality as determined by the Board of Directors.

6. The Company will include in each quarterly report, as an attachment to form N–1Q, a statement as to whether any action pursuant to condition 2(c) was taken during the preceding fiscal quarter and, if any such action was taken, will describe the nature and circumstances of such action.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than May 16, 1983, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon the Company at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 34-19693; File No. SR-MSE-83-4]

Self-Regulatory Organizations; Proposed Rule Change by Midwest Stock Exchange, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 8, 1983 the Midwest Stock Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Midwest Stock Exchange provides that Rule 3 of Article IV be amended to grant the Floor Procedure Committee of the Exchange the authority to act through subcommittee(s). Rule 3, Article IV would be amended by adding a new paragraph to the existing rule as follows:

Notwithstanding the foregoing and Rule 9 of this Article, the Committee if it so determines may act through a subcommitte to perform any of its duties pursuant to the Rules of the Exchange or otherwise. A subcommittee shall be composed of not less than three (3) members of the Committee appointed by the Chairman, a majority of whom shall constitute a quorum. Any member adversely affected by a determination of a subcommittee regarding any matter may appeal to the full Committee within five days of receiving notice of its determination by making a written request therefore specifically stating the action complained of, the specific reasons why exception is taken thereto and the relief sought. Any determination made by a subcommittee which is not specifically appealed as set forth herein shall be final.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organizaton has prepared summaries, set forth in Sections (A), (B), and (C) below of the most significant aspects of such statements.

(A) *Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.*—Presently, there are working ad-hoc subcommittees of the Floor Procedure Committee, such as a committee to establish training programs for floor members and various floor facilities review committees. Such subcommittees formulate recommendations to the full committee. The full committee has varied functions but its primary functions can be outlined as follows:

A. Floor registration process and market maker assignments.

B. Floor decorum.

C. Arbitration.

D. Trading practices.

i. ITS.

ii. rule interprettions and guidance.

iii. new rule proposals.

E. Discussion and guidance regarding operational needs.

F. Coordinate with and when requested assist the Specialist Assignment and Evaluation Committee.

G. Refer matters for disciplinary action to enforce rules. The Proposed rule change would grant the Floor Procedure Committee the authority to act through subcommittee(s) if it so determined to perform any of these duties. This should enable more particularized attention to be devoted to the significant areas now the responsibility of the full committee. It should crystalize thinking and substantially clean up agendas of the full Committee.

It would also be beneficial to broaden floor participation in the process of the orderly and efficient running of the trading floor. It is anticipated that these subcommittees will be standing subcommittees to handle routine but important on-going functions such as assignment of issues to market makers and appeals of floor decorum fines. Any member which may be adversely affected by a determinaton of a subcommittee may appeal to the full committee.

The proposed rule change is consistent with Section 6(b)(3) of the Securities Exchange Act of 1934 in that it helps assure fair representation of the Exchange's members in the administration of Exchange affairs.

(B) *Self-Regulatory Organization's Statement on Burden on Competition.*—The Midwest Stock Exchange, Incorporated does not believe that any burdens will be placed on competition as a result of the proposed rule change.

(C) *Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others.*—Comments have neither been solicited nor received from members or participants.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action.

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concening the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C., 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commissions's Public Reference Section, 450 Fifth Street, NW., Washington, D.C., 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: April 21, 1983.

George A. Fitzsimmons,

Secretary.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[Notice No. 465]

Winegrape Varietal Names Advisory Committee; Open Meeting

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: An open meeting of the Winegrape Varietal Names Advisory Committee will be held at 9:30 am on May 17, 1983, in Room 5041, 1200 Pennsylvania Avenue, NW, Washington, DC.

SUPPLEMENTARY INFORMATION: At this meeting the Committee will continue its efforts toward compiling a complete listing of winegrape names now being used in the United States, and identifying those names which may be incorrect, confusing, or deceptive.

The meeting will be open to the public. Any person who wishes to furnish written information or to address the Committee should submit the information or the request to appear to the Committee Manager at the address shown below. Requests to appear before the Committee should specify the purpose of the presentation, the subject matter to be covered, and the amount of time desired.

FOR FURTHER INFORMATION CONTACT: Melvin T. Bruce, Manager, Winegrape Varietal Names Advisory Committee, Room 6230, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226 (202-566-7568).

Signed: April 18, 1983.

Stephen E. Higgins,

Director.

Department of Energy

Federal Energy Regulatory Commission

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Volume 875]

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: April 21, 1983.

The following notices of determination were received from the indicated jurisdictional agencies by the Federal Eneregy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF).

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D. C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Source data from the Form 121 for this and all previous notices is available on magnetic tape from the National Technical Information Service (NTIS). For information, contact Stuart Weisman (NTIS) at (703) 487-4808, 5285 Port Royal Rd, Springfield, Va 22161.

Categories within each NGPA section are indicated by the following codes:

Section 102-1: New OCS lease
102-2: New well (2.5 Mile rule)
102-3: New well (1000 Ft rule)
102-4: New onshore reservoir
102-5: New reservoir on old OCS lease
Section 107-Dp: 15,000 feet or deeper
107-GB: Geopressured brine
107-CS: Coal Seams
107-DV: Devonian Shale
107-PE: Production enhancement
107-TF: New tight formation
107-RT: Recompletion tight formation
Section 108: Stripper well
108-SA: Seasonally affected
108-ER: Enhanced recovery
108-PB: Pressure buildup

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-C

[Volume 876]

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: April 21, 1983.

The following notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF).

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Source data from the Form 121 for this and all previous notices is available on magnetic tape from the National Technical Information Service (NTIS). For information, contact Stuart Weisman (NTIS) at (703) 487–4808, 5285 Port Royal Rd, Springfield, Va 22161.

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 Mile rule)
102–3: New well (1000 Ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease.
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal Seams
107–DV: Devonian Shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation.
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

Part III

Department of Defense

Office of the Secretary

Banking Offices on DoD Installations and Procedures; Final Rules

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 231

[DoD Directive 1000.11]

Banking Offices on DoD Installations

AGENCY: Office of the Secretary, DoD.

ACTION: Final rule.

SUMMARY: This rule revises Part 231, which covers banking offices operating on DoD installations. The revision transfers some procedural and operating rules to a new Part 230, published herein. The revision also expands the rules to include savings and loan associations in the definition of banking institutions and strengthens policy on financial responsibility of DoD personnel.

EFFECTIVE DATE: This rule was approved and signed by the Deputy Secretary of Defense on September 27, 1982, and is effective as of that date.

FOR FURTHER INFORMATION CONTACT: Mr. John Barber, Directorate for Banking, Office of the Assistant Secretary of Defense (Comptroller), Washington, D.C. 20301; telephone 202/697–8281.

SUPPLEMENTARY INFORMATION: In FR Doc. 77–33742 appearing in the **Federal Register** on November 23, 1977 (43 FR 59972), the Office of the Secretary of Defense (OSD) published a reissuance of this part and amended it in FR Doc. 79–30324 appearing in the **Federal Register** on October 1, 1979 (44 FR 56328).

In FR Doc. 82–7270 appearing in the Federal Register on March 18, 1982 (47 FR 11717), the OSD published a proposed rule to revise this part. Public comments were to be submitted by April 20, 1982. Comments received from the public were screened by a panel of OSD and Military Department officials. All comments were reviewed carefully. Those considered to have merit were incorporated into the final revision of this part. In addition, minor technical changes were made to clarify the language of the rule.

List of Subjects in 32 CFR Part 231

Banking, DoD installations, DoD military and civilian personnel.

Accordingly, 32 CFR is amended by revising Part 231, reading as follows:

PART 231—BANKING OFFICES ON DOD INSTALLATIONS

Sec.
231.1 Reissuance and purpose.
231.2 Applicability.
231.3 Policy.
231.4 Responsibilities.
231.5 Definitions.

Authority: 10 U.S.C. 136.

§ 231.1 Reissuance and purpose.

This part is revised to update policy for banking offices on DoD installations worldwide. Specific procedures are contained in Part 230 of this title.

§ 231.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to collectively as "DoD Components").

§ 231.3 Policy.

(a) It is the policy of the Department of Defense to provide properly constituted, convenient banking offices for the prudent administration of public monies and the efficient management of private funds of DoD personnel. Military disbursing officers and custodians of nonappropriated funds and other DoD installation activities shall use servicing banking offices to the maximum extent feasible and consistent with good cash management practices.

(b) Banking offices shall be established on DoD installations only with prior approval of the appropriate regulating agency and the DoD Component concerned.

(c) The establishment of banking facilities on DoD installations shall be requested only when a demonstrated and justified need cannot be satisfied by other means. Normally, banking facilities may be used in overseas locations and in states that prohibit branch banking; however, in times of mobilization, it may become necessary to designate other domestic banking facilities as an emergency measure. Upon recommendation of a DoD Component, banking facilities are designated by the Treasury Department under authority contained in 12 U.S.C. 265.

(d) DoD personnel who tender uncollectible checks or who overdraw accounts damage their credit reputation and affect the public image of all DoD personnel. Furthermore, losses sustained by banking offices on DoD installations as a result of these actions reduce their viability and, in certain cases, increase the cost incurred by the government in providing banking services. Military financial counselors or legal advisors shall recommend a workable plan for repayment to avoid endangering the individual's credit standing and career. Counselors shall ensure that individuals are aware of the stigma associated with bankruptcy and shall recommend its use only as a last resort when no alternative is available to alleviate the situation.

(e) In order to provide banking services at a minimum cost to the Department of Defense and to DoD personnel, banking offices authorized to locate on DoD installations may be furnished such real estate, utilities, and other logistical support as are authorized under Part 230 of this title, DoD 4270.1–M, and DoD Directive 4000.6.

(f) The termination of a banking office's tenure on a domestic DoD installation shall be initiated by a DoD Component only under one of the following conditions:

(1) The mission of the installation has changed, or is scheduled to be changed, and there is no requirement for banking services.

(2) Active military operations preclude continuation of banking services for DoD personnel.

(3) The performance of the banking office in providing banking services is not satisfactory according to standards ordinarily associated with the banking industry. Termination actions initiated on the basis of inadequate performance shall be substantiated by sufficient evidence and concurred in by the appropriate regulating agency.

§ 231.4 Responsibilities.

(a) The *Assistant Secretary of Defense (Comptroller)* (ASD(C)) shall:

(1) Develop and monitor policies and procedures governing the establishment, operation, and termination of banking offices on DoD installations.

(2) Take final action on requests for exceptions to this part.

(b) The *Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics)* shall:

(1) Develop and monitor policies and procedures governing logistical support furnished to banking offices on DoD installations, including the use of DoD real property and equipment.

(2) Advise the ASD(C) on all aspects of military banking relating to the morale and welfare of DoD personnel.

(c) The *Heads of DoD Components* shall:

(1) Supervise and encourage the use of banking offices on DoD installations as a means of:

(i) Assisting DoD personnel to manage their personal finances, including check-to-financial organization programs and regular savings plans. However, use by DoD personnel of such services shall be on a voluntary basis and should not be

urged in preference to (or to the exclusion of) other financial institutions.

(ii) Providing convenient, safe custody of appropriated and nonappropriated funds.

(iii) Facilitating effective cash management by disbursing officers and nonappropriated fund instrumentalities.

(2) Encourage regularly established financial institutions to provide full-service banking on DoD installations where there is a demonstrated need for such services.

§ 231.5 Definitions.

(a) *Automated Teller Machine (ATM).* An electronic machine that dispenses cash, accepts deposits, and transfers funds between a customer's various accounts. Equipment generally is activated by a plastic debit card in combination with pushbuttons. Also known as a customer-bank communication terminal. Shared access to ATMs or a network of ATMs refers to the customer's ability to use the ATMs of more than one cooperating institution.

(b) *Banking Facility.* A banking office located on a DoD installation and operated by a banking institution that, under its designation as a depositary and financial agent of the U.S. Government, has been specifically authorized by the Treasury Department to provide certain banking services at the installation. Such offices may be either self-sustaining or nonself-sustaining. Also known as a military banking facility.

(c) *Banking Institution.* The organization that operates a banking office on a DoD installation. At domestic DoD installations, the organization shall be a bank insured by the Federal Deposit Insurance Corporation or a savings and loan association or other institution insured by the Federal Savings and Loan Insurance Corporation.

(d) *Banking Liaison Officer.* A commissioned officer or DoD civilian employee of equivalent grade appointed by an installation (military community) commander to work with officials of the servicing banking office and its clients. A noncommissioned officer may be appointed if he or she is the senior financial management official at the installation.

(e) *Banking Office.* An outlet operated by a banking institution on a DoD installation.

(f) *Branch Bank.* A separate unit chartered to operate at an onbase location geographically remote from its parent organization.

(g) *DoD Personnel.* All military personnel; civil service employees; other civilian employees, including special government employees of all offices, agencies, and departments performing functions on a DoD installation (including nonappropriated fund instrumentalities); and their dependents. On domestic DoD installations, retired U.S. military personnel and their dependents are included.

(h) *Domestic DoD Installation.* A military installation located within a state of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(i) *Fair Market Rental.* A reasonable charge for onbase land, buildings, or building space. Rental is determined by a government appraisal, based on comparable properties in the local civilian economy, in which the appraiser considers that onbase land may not always be comparable to similar land in the local commercial geographic area recognizing, for example, limitation of usage and access to the bank by persons other than those on the installation, proximity to the community center or installation business district, the government's right to take title to improvements constructed at bank expense, the government's right to terminate lease, and the limited consumer environment of a DoD installation.

(j) *Full Financial Services.* Those services commonly associated with banking institutions in the United States, such as checking and savings accounts, fund transfers, sales of money orders and traveler's checks, loan service, safe deposit boxes, trust services, sale and redemption of U.S. savings bonds, and acceptance of utility payments.

(k) *Full-time Banking Facility.* A banking facility that operates 5 or more days a week.

(l) *Independent Bank.* A bank chartered specifically to operate on a DoD installation. Directors and officers of such institutions usually come from the local business and professional community, thus differentiating this operation from a statewide or countywide branch system, which consists of a head office and one or more geographically separate branch offices.

(m) *National Bank.* An association approved and chartered by the Comptroller of the Currency to operate a banking business.

(n) *Overseas DoD Installation.* Military installations (communities) located outside the states of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

(o) *Part-time Banking Facility.* A banking facility that operates less than 5 days a week, exclusive of additional payday service. When only payday service is provided, the banking facility may be termed a "payday service facility."

(p) *Regulating Agency.* Includes the Office of the Comptroller of the Currency; the Federal Deposit Insurance Corporation; the several Federal Reserve Banks and the Board of Governors of the Federal Reserve System; the Federal Home Loan Bank Board; the various state regulating agencies and commissions; and, for banking facilities, the Fiscal Assistant Secretary of the Treasury.

(q) *Savings and Loan Association.* A state or federally chartered financial institution that is insured by the Federal Savings and Loan Insurance Corporation and that is capable of providing full financial services.

(r) *State Bank.* An association that operates under the laws of a state and is chartered by the state in which it is located to operate a banking business.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

April 18, 1983.

[FR Doc. 83-11277 Filed 4-26-83; 8:45 am]

BILLING CODE 3810-01-M

---

32 CFR Part 230

[DoD Instruction 1000.12]

Procedures Governing Banking Offices on DoD Installations

AGENCY: Office of the Secretary, DoD.

ACTION: Final rule.

SUMMARY: This final rule establishes Part 230 which will provide operating procedures for banking offices on DoD installations. This rule transfers some procedural and operating rules from Part 231 of this title; redefines the role of the Department of the Treasury in designating military banking facilities; expands DoD policy on use of automated teller machines; sets forth guidelines for determining appropriate levels of logistical support for onbase banking offices; modifies leasing policy; and prescribes procedures under the overall DoD policy provided in Part 231 of this title.

EFFECTIVE DATE: The Assistant Secretary of Defense (Comptroller) approved and signed this rule on September 27, 1982, and it is effective as of that date.

FOR FURTHER INFORMATION CONTACT: Mr. John Barber, Directorate for Banking, Office of the Assistant Secretary of Defense (Comptroller),

Washington, D.C. 20301, Telephone 202–697–8281.

SUPPLEMENTARY INFORMATION: In FR Doc. 82–7271 appearing in the Federal Register on March 18, 1982 (47 FR 11708), the Office of the Secretary of Defense (OSD) published a proposed rule under this Part. Public comments were to be submitted by April 20, 1982. Comments received from the public were screened by a panel of OSD and the Military Department officials. One comment recommended deletion of that part of § 230.5, paragraph (a)(2), that permits only one banking institution to operate on a military installation. The panel deferred action on the comment pending completion of a separate review of the background and circumstances associated with this longstanding DoD rule. All other comments were carefully reviewed. Those considered to have merit were incorporated into the final rule. In addition, minor technical changes were made to clarify the language of this Part.

Executive Order 12291. The Department of Defense has determined that this proposed rule is not a major rule, because it is not likely to result in an annual effect on the economy of $100 million or more.

Paperwork Reduction Act. This rule imposes no obligatory information requirements beyond internal DoD use.

Regulatory Flexibility Act of 1980. The Assistant Secretary of Defense (Comptroller) certifies that this rule, if promulgated, shall be exempt from the requirements under 5 U.S.C. 601–612. In addition, this rule does not have a significant economic impact on small entities as defined in the Act.

List of Subjects in 32 CFR Part 230

Banking, DoD installations, DoD military and civilian personnel.

Accordingly, 32 CFR is being amended by adding Part 230 reading as follows:

PART 230—PROCEDURES GOVERNING BANKING OFFICES ON DOD INSTALLATIONS

Sec.

230.1 Purpose.
230.2 Applicability and scope.
230.3 Definitions.
230.4 Responsibilities.
230.5 General operating policies and procedures.
230.6 Procedures for the establishment, operation, and termination of domestic banking offices.
230.7 Procedures for the establishment, operation, and termination of overseas banking offices.
230.8 Guidelines for application of the Privacy Act to military banking operations.

Authority: Title 10 U.S.C. 136.

§ 230.1 Purpose.

This Part supplements Part 231 of this title and updates operating policies and procedures for banking offices operating on DoD installations.

§ 230.2 Applicability and scope.

(a) This Part applies to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to collectively as "DoD Components").

(b) Its provisions also pertain to all banking institutions operating banking offices on DoD installations.

§ 230.3 Definitions.

The terms which are defined in § 231.5 of this chapter shall also apply to this rule.

§ 230.4 Responsibilities.

(a) The *Assistant Secretary of Defense (Comptroller)* (ASD(C)) or designee, the *Deputy Assistant Secretary of Defense (Management Systems)* (DASD(MS)), shall:

(1) Initiate plans and conduct special studies on military banking arrangements, cost-benefit relationships, and management of military banking operations in coordination with the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics), other DoD Components, and participating banking institutions and associations.

(2) Coordinate with the Fiscal Assistant Secretary of the Treasury, as necessary, DoD Components' requests for designation of domestic banking facilities as depositaries and financial agents of the U.S. Government.

(3) For overseas DoD installations:

(i) Recommend to the Fiscal Assistant Secretary of the Treasury the designation of overseas banking facilities as depositaries and financial agents of the U.S. Government.

(ii) Provide a technical representative to the procuring contracting officer and administrative contracting officer (ACO) responsible under the Defense Acquisition Regulation for acquiring banking services at overseas DoD installations where a justified need for such services exists.

(iii) Serve as the principal liaison with banking institutions operating banking offices on overseas DoD installations. In this capacity, the ASD(C) shall monitor the managerial and operational policies, procedures, and operating results of banking facilities, and shall take action as appropriate.

(iv) Negotiate government-to-government agreements, as necessary, for the provision of banking services on DoD installations in accordance with DoD Instruction 2050.1.

(v) In conjunction with the Secretaries of the Military Departments, determine cost-benefit relationships related to establishment, termination, expansion, or reduction of banking services on DoD installations; authorize the specific types of banking services that will be provided by overseas banking facilities; and specify the charges or fees, or the basis for charges or fees, to be levied on users of overseas banking facility services. (See paragraph 230.7 of this title.)

(b) The *Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics)* shall carry out responsibilities outlined in paragraph 231.4(b) of this title.

(c) The *Heads of DoD Components* shall:

(1) Supervise the use of banking offices on DoD installations under their jurisdiction within the guidelines provided in this Part and Part 231 of this title.

(2) Refer matters requiring policy decisions or changes under this Part and Part 231 of this title to the ASD(C).

(3) Evaluate the services provided by banking offices to ensure that they fulfill the requirements upon which establishment and retention of those offices are justified.

(4) Examine practices and procedures of banking institutions to ensure that the welfare and interests of DoD personnel as consumers are protected, as set forth in Part 43 of this title.

(5) Ensure that the recommendations of the Unified Command concerned are considered before processing requests for overseas banking offices and acting on matters of policy that originate in DoD Component commands.

(6) Review and approve the selection of banking institutions' proposals to establish banking offices on DoD installations and inform the selected institutions and their regulating agencies of the approvals so that operating authority may be given.

(7) Determine whether an existing banking facility may be converted to an independent or branch bank in accordance with paragraph 230.6(a)(2) of this part.

(8) Serve as principal liaison with banking institutions operating banking offices on domestic DoD installations under their jurisdiction.

(9) Determine the level of logistical support to be provided banking institutions submitting reports reflecting

nonself-sustaining status (paragraph 230.6(b)(3)).

(d) The *Commanders of Unified and Specified Commands*, or designees, shall:

(1) Ensure the appropriate coordination of requests to establish or terminate banking offices as they originate in DoD Component commands.

(i) Requests for establishment of banking offices in countries not presently served by such offices shall include a statement that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission and that the country involved will permit the operation.

(ii) Requests for elimination of all banking offices in a country shall include a statement that the U.S. Chief of Diplomatic Mission has been informed and that appropriate arrangements for coordination of local termination announcements and procedures have been effected with the U.S. Embassy.

(2) Monitor and coordinate military banking operations within the command area. Personnel assigned to overseas security assistance positions will not be used to monitor, coordinate, or assist in military banking operations without the prior approval of the Director, Defense Security Assistance Agency.

§ 230.5 General operating policies and procedures.

(a) *Establishment of Banking Offices.* (1) Banking offices shall be established on DoD installations only with the prior approval of the DoD Component concerned and the appropriate regulating agency. Procedures for requesting establishment of banking offices and additional approvals required are specified below.

(2) Only one banking institution shall be permitted to operate on a DoD installation, except under the most unusual circumstances. If local conditions at a particular DoD installation indicate a demonstrated requirement for additional banking services, the banking institution operating on that installation shall be given the opportunity to provide such services before other banking institutions are considered. Thereafter, when conditions warrant consideration of a second banking institution on the installation, a request including full details and rationale shall be forwarded through channels to the DoD Component headquarters concerned for evaluation and appropriate action. The senior official responsible for financial management policy in each Military Department, or the Defense Agency Comptroller concerned, may approve such requests after coordination with the ASD(C).

(3) Heads of DoD Components shall prescribe procedures for soliciting banking institutions to establish banking offices on DoD installations. Such procedures shall prohibit DoD personnel from subjecting banking institutions to any form of coercion either while banking arrangements are under consideration or after the banking office is in operation. No commitment may be made to any banking institution regarding the proposed establishment and operation of a banking office until a selection is announced by competent authority designated under DoD Component regulations.

(4) Normally, banking facilities may be established only in overseas locations and in states that prohibit branch banking; however, in times of mobilization, it may become necessary to request the designation of other domestic banking facilities as an emergency measure. Establishment is subject to designation by the Treasury Department.

(5) At those DoD installations where a banking office offering full financial services is not feasible due to lack of interest by the banking community, lack of available space on the installation, or other operational situations that restrict the introduction of banking offices, the DoD Component concerned may seek proposals from the financial community for the installation of automated teller machines (ATMs). Action taken in response to such proposals shall be exempt from the limitation in paragraph 203.5(a)(2) above. The availability of such ATMs will not preclude the establishment of a banking office at a later time if the need therefor is demonstrated.

(6) Only banking institutions insured by the Federal Deposit Insurance Corporation (FDIC) or the Federal Savings and Loan Insurance Corporation (FSLIC) shall operate on domestic DoD installations. Official and nonappropriated fund deposits at banking offices on DoD installations shall be insured or collateralized under procedures established by the Fiscal Assistant Secretary of the Treasury.

(7) DoD Components shall select and approve banking institutions' proposals to establish banking offices on DoD installations, giving notice of approvals to the selected institutions and their regulating agencies. Selected banking institutions shall apply for and obtain operating authority from their regulating agencies before opening offices.

(i) In the case of state-chartered institutions that are members of the Federal Reserve System, approval also shall be obtained from the Federal Reserve Bank in whose district the proposed banking office is located.

(ii) In the case of state-chartered savings and loan associations, state supervisory authorities shall make this determination. In the case of federally chartered savings and loan associations, the determination shall be made by the Federal Home Loan Bank Board or the principal supervisory agent in the Federal Home Loan Bank Board district where the association does business.

(8) Provision of banking services by means other than duly established banking offices or ATMs is subject to prior review by the ASD(C).

(b) *Active Duty Personnel Serving as Directors of Banking Institutions.* (1) A service member on active duty may not serve as a director of a banking institution operating a banking office on a DoD installation unless the head of the DoD Component concerned approves the appointment as upon a justified requirement for direct liaison between the banking institution and the installation commander. Under such circumstances, not more than one individual on active duty may be permitted to serve as a director at any one time and then only if such services are rendered without compensation.

(2) A reservist called to active duty who has been serving as a director of banking institution that operates a banking office on DoD installation will not be required to resign the directorship because of active duty status.

(c) *Financial Education Seminars.* Officials of banking offices on DoD installations shall be invited to participate in seminars conducted to educate DoD personnel on personal financial management and on services offered by financial institutions. Such officials shall submit advance texts of their briefing materials for approval by the installation commander to ensure that the occasion is not used to promote the services of a particular banking institution.

(d) *Uniformity of Service.* To the maximum extent feasible, financial services provided on DoD installation shall be uniform for all DoD personnel. Such services shall be provided at overseas DoD installations under uniform service charges and fee schedules, to the maximum extent feasible. Operating agreements between banking institutions and the DoD installations they serve that are not consistent with this Part or Part 231 of this title shall be modified accordingly.

§230.6 Procedures for the establishment, operation, and termination of domestic banking offices.

(a) *Establishment of Domestic Banking Offices.* (1) *Banking Facilities.* In implementing this Instruction, each DoD Component headquarters shall develop internal instructions governing the submission of requests justifying the need for banking facilities proposed for establishment on DoD installations under its jurisdiction. Normally, a banking facility may be established only in states that prohibit branch banking; however, in times of mobilization or under other emergency conditions, it may become necessary to authorize additional banking facilities. When approved, such requests shall be submitted to the Fiscal Assistant Secretary of the Treasury for appropriate action. The following information shall be included in requests to the DoD Component headquarters for establishment of banking facilities:

(i) The approximate number of DoD personnel at the installation and any other persons who may be authorized to use the banking facility.

(ii) The name or names of the banking institution or institutions presently cashing payroll checks of assigned personnel and the approximate number and dollar value cashed by each institution, if such data are obtainable.

(iii) The distance between the installation and the banking institutions in the area, the names of these institutions, and the cities in which they are located.

(iv) Available official and public transportation between the installation and the vicinity of the nearest banking institution.

(v) The approximate loss of duty time as a result of DoD personnel leaving the installation to obtain banking services.

(vi) The number of DoD personnel in duty assignment confining them to the installation or who lack transportation (such as trainees, hospital patients, and foreign military personnel).

(vii) Source or sources from which the military disbursing officer presently obtains operating and payroll cash, the frequency of these cash acquisitions, and the approximate dollar value obtained monthly.

(viii) The name and location of the depositary now being used by the military disbursing officer to make official deposits for credits to the account of the U.S. Treasury.

(ix) The estimated savings to the military disbursing officer if a banking facility is established on the installation.

(x) A list of organizational and nonappropriated fund accounts, the name and location of the banking institution or institutions where presently carried, and the average daily activity and balance of each account.

(xi) A written description and photographs or drawings of the space proposed for banking facility use. The extent and approximate cost of required alterations, including the construction of counters and teller cages, shall be included.

(xii) a statement detailing the requirements of the proposed banking facility for safes, a vault, or both; appropriate alarm systems; and camera surveillance equipment when deemed necessary. The statement shall include the costs of such equipment and the manner in which it will be acquired.

(xiii) the justification for use of space when such space is controlled by the General Services Administration (GSA). All space assigned by the GSA, whether leased space or federal office building space, is reimbursable to the GSA as a standard level user charge under Public Law 92–313. As such, the space occupied by a banking facility to serve military requirements shall be assigned and charged by the GSA to the DoD Component concerned.

(xiv) Any other information justifying the establishment of a banking facility as opposed to a different type of banking office.

(2) *Conversions of Banking Facilities to Independent or Branch Banks.* Proposals from a banking institution to convert an existing banking facility to an independent or branch bank shall be forwarded to the DoD Component headquarters concerned for approval. DoD Components may solicit banking institutions operating banking facilities to convert them to independent or branch banks, if consistent with state law.

(3) *Independent Banks, Branch Banks, and Savings and Loan Associations.*

(i) Proposals for establishment of an independent bank, a branch bank, or a savings and loan association office received by installation commanders shall be forwarded through channels to the DoD Component headquarters concerned, together with recommendations for acceptance or rejection. Such proposals shall contain the same information required for banking facilities in paragraph 230.6(a)(1)(i) through (xiii) above.

(ii) the DoD Component headquarters concerned shall evaluate each proposal for the establishment of such offices.

(A) If there is no existing banking office on the DoD installation and it is determined that a banking office is needed, the DoD Component concerned shall solicit proposals from other nearby banking institutions before making a determination.

(B) If a banking office other than a military banking facility is already in operation on the DoD installation, the provisions of § 230.5(a)(2) of this part.

(C) If the proposal offers to replace an existing banking facility, the DoD Component concerned shall offer the banking institution currently operating the facility an opportunity to submit a proposal to convert its facility.

(D) with respect to a proposed branch bank or independent bank, preference shall be given to the banking institution that has operated the banking facility, provided that prior banking service has been satisfactory and that the institution's proposals are deemed adequate.

(4) *Automated Teller Machine Service.*

(i) If approved by the appropriate regulating agency, ATMs may be used to augment service provided by a banking office on a DoD installation.

(ii) A banking institution that proposes to install an ATM in its existing banking office on a DoD installation shall:

(A) Provide for access through debit transaction card rather than limiting access solely to holders of a financial institution's credit card.

(B) Provided that the cost of ATM installation, maintenance, and operation shall be borne by the financial institution or institutions involved.

(C) Coordinate its ATM proposal with the installation commander.

(iii) A banking institution that proposes to install an ATM at a location on a DoD installation that is remote from its existing banking office shall submit a request through the installation commander to the DoD Component concerned for approval and recommendation to the appropriate regulating agency. As a minimum, the proposal shall reflect a willingness to comply with § 230.6(a)(4)(ii)(A) and (B), above. In transmitting a proposal that requires the use of a location not under command jurisdiction, such as a post exchange building, the installation commander shall ensure that the proposal has been fully coordinated. Upon approval, appropriate leases shall be negotiated in accordance with this Part.

(iv) If efforts to introduce a banking office on the DoD installation are unsuccessful or inappropriate, the financial community may be requested to submit proposals for "ATM-only" service. In acquiring such service, preference shall be given to proposals offering shared-access ATMs. The

provisions of § 230.6(a)(4)(iii), above, shall apply to banking services provided under this paragraph; however, such service is not subject to the limitation in § 230.5(a)(2) of this Part.

(b) *Logistical Support.* (1) *Categories of Domestic Banking Offices.* For the purposes of authorizing logistical support, domestic banking offices are categorized as either self-sustaining or nonself-sustaining. Existing military banking facilities that previously have been determined to be nonself-sustaining and, consequently, entitled to support from the Treasury, a DoD Component, or both, shall continue to provide reports as in the past until modified procedures are announced jointly by the Departments of Treasury and Defense.

(2) *Determination of Category.* (i) A domestic banking office is considered to be self-sustaining until, based upon financial data provided by the banking institution, the DoD Component concerned determines it to be nonself-sustaining. Reimbursement for rent and utilities shall be required from self-sustaining banking offices. Nonself-sustaining banking offices may be granted free rent and utilities under procedures prescribed by the DoD Component concerned.

(ii) Normally, a banking office shall be in a nonself-sustaining status for at least 4 consecutive calendar quarters before qualifying for logistic support. Conversely, a nonself-sustaining banking office would not be designated as self-sustaining until it had experienced 4 consecutive quarters of profitable operation.

(3) *Support Authorized for Nonself-sustaining Banking Offices.* When a banking office is determined by a DoD Component to be nonself-sustaining under § 230.6(b)(2), above, it may be furnished logistical support, including the use of government-owned property and services, without charge.

(i) Generally, space in government-owned buildings shall be furnished in support of a nonself-sustaining banking office under a no-cost license for a period of 5 years, subject to cancellation upon determination that the office has become self-sustaining. At that time, a lease shall be negotiated in accordance with § 230.6(b)(4)(iii), below.

(ii) In those exceptional instances where a nonself-sustaining banking office is authorized to construct its own building on government-owned land, no ground rent may be charged until it is determined to be self-sustaining or until expiration of the term of lease, whichever occurs sooner. When either of these events occurs, a fair market rental, as determined by appraisal in accordance with § 230.6(b)(4)(i), below, shall be charged.

(iii) Adequate space shall be made available—including steel bars; grillwork; security doors; a vault, safes, or both; burglar alarm system; other security features normally used by banking institutions; construction of counters and teller cages; and other necessary modifications and alterations in existing buildings as limited by DoD Directive 4270.24.

(A) In determining the adequacy of space, it is important that the banking office be housed in a building that is accessible to the majority of DoD personnel on the installation and is so located as to permit maximum security.

(B) The size and arrangement of customer and work areas shall permit efficient financial operations. The area of the space assigned may not exceed that prescribed by DoD 4270.1–M, which limits gross floor space in accordance with the following table:

Personnel strength [1]	Area square feet
Up to 1,000	1,500
1,001 to 2,000	2,375
2,001 to 3,000	3,250
3,001 to 4,000	3,625
4,001 to 5,000	4,000
5,001 to 6,000	4,375
6,001 to 7,000	4,750
7,001 to 9,000	5,560
9,001 to 11,000	6,375
11,001 to 13,000	7,190
13,001 to 15,000	8,000
15,001 to 17,000	10,000
17,001 to 20,000	13,000
Over 20,000	([2])

[1] Active duty military personnel assigned to a DoD installation and stationed within a commuting area not served by another banking office and civilian employees of the installation.

[2] Determined by Engineer Study.

(iv) All maintenance, repair, rehabilitation, alterations, or construction for banking offices shall be accomplished in accordance with DoD Directive 4165.2.

(v) Typewriters, adding machines, and other office equipment and office furniture may be loaned to a nonself-sustaining banking office on memorandum receipt if available from local stocks.

(vi) Air-conditioning is considered a normal utility for those banking offices located at DoD installations that qualify for air-conditioning under applicable DoD Component regulations. Banking space is classified as administrative space at DoD installations.

(vii) Other logistical support to be furnished includes:

(A) Adequate utilities and custodial and janitorial services.

(B) Intrastation telephone service.

(4) *Self-sustaining Banking Offices.*

(i) *Lease of Land.* A lease of land for construction of a building to house a self-sustaining banking office shall be at appraised fair market rental value as defined in Part 231 of this title. The term of the lease may not exceed 25 years. Once determined, the charges shall be applicable for the term of the lease.

(A) The right shall be reserved to terminate the lease in event of national emergency; base closure, deactivation, or substantial realignment; default by the lessee; or in the interest of national defense.

(B) Maintenance and the cost of utilities and services furnished shall be the responsibility of the lessee. Rates shall be established in conformance with DoD Directive 4000.6 and shall be confirmed by a written agreement between the DoD installation and the banking institution.

(C) The lessee shall provide written notice 90 days before it intends to voluntarily terminate the lease.

(D) Whenever such a lease is terminated or when the term expires, the option shall be with the government either to cause title in all improvements to be vested in the United States or to require the lessee to remove the improvements and restore the land.

(E) When, under the terms of a lease, title to improvements passes to the United States, the lessee shall be given first choice to continue occupying the building under a lease that provides for fair market rental only for the land associated therewith. The lessee shall continue to maintain the premises and reimburse the cost of utilities and services furnished.

(ii) *Lease of Land in a Shopping Mall Complex.* When a banking institution participates in the construction of a complex, it shall be provided a lease at fair market rental value for a period not to exceed 25 years. The lease shall cover underlying land upon which the specific space to be exclusively occupied by the banking office is physically located.

(iii) *Lease of Government-owned Building.* A lease of an existing government structure to house a self-sustaining banking office shall be at appraised fair market rental value and shall consider the following factors:

(A) The term of the lease shall be for 5 years, subject to renewal by mutual agreement and subject also to the right of the head of the DoD Component concerned to terminate the lease in accordance with the cancellation provisions prescribed in § 230.6(b)(4)(i)(A), above. If space occupied is under assignment from the GSA, the banking institution shall reimburse the DoD Component

concerned at the standard level user charge rate for that space and other special services furnished through the GSA.

(B) When a banking institution uses its own funds to modify or renovate existing government space, a lease may be negotiated for a period not to exceed 25 years. Duration of the lease shall be commensurate with the extent of the improvements as determined by the DoD Component concerned.

(C) The lessee shall perform interior alteration and maintenance, and reimbursement shall be made by the lessee for utilities, custodial, janitorial, and other services furnished.

(iv) *Construction of Building.* A banking institution authorized to operate a banking office on a DoD installation may construct, at its own expense, a building to house its activities, subject to the following provisions:

(A) The building shall be confined to the needs of the banking institution. The building may not be constructed to provide for other commercial enterprises or government instrumentalities.

(B) Proposals for construction of structures on DoD installations at a banking institution's expenses shall be reviewed and reported under DoD Instruction 7700.18.

(v) *Existing Leases.* Leases executed before the issuance of this Instruction may not be disturbed unless a lessee (banking institution) specifically requests that a lease be renegotiated under this paragraph. No lease contract may be negotiated or renegotiated, nor may any rights thereunder be waived or surrendered, without compensation to the government, except as provided in § 230.6(b)(2), above. Compensation to the government, may consist of added value to the property, added banking services, or both.

(5) *Duration of Leases.* When the term of the lease exceeds 5 years, 10 U.S.C. 2667(b)(1) requires that the Military Department Secretary, or his designee for such purposes, determine that a term in excess of 5 years will promote the national defense or be in the public interest.

(6) *Other Support.* Banking offices on DoD installations shall receive the following support on a nonreimbursable basis:

(i) Military or civilian guards (the latter to be used within the installation only), military police, or other protective services for necessary periods of time on paydays, to accompany shipments of money from the parent banking institution or other source when such monies are for the primary use of the military disbursing officer, or at other times involving unusual circumstances when required to avoid undue risks or costs of insurance on the part of the banking office. In this regard, overall security precautions normally present shall be considered.

(ii) Military locator services in accordance with enclosure 4 to this Instruction.

(iii) Use of the unofficial section of the installation daily bulletin, provided space is available, to inform personnel of seminars, consumer information programs, or other matters of broad general interest. Announcements of free financial counseling services are encouraged. The daily bulletin may not be used for competitive or comparative advertising, such as specific interest rates on savings or on loans.

(iv) Use of bulletin boards for posting promotional material of a broad general nature that complements the DoD installation's financial counseling programs to promote financial responsibility and thrift on the part of DoD personnel. Message center services may be used to distribute reasonable numbers of such announcements to units for display on bulletin boards as long as such distribution does not impose an unreasonable workload on the system.

(c) *Domestic Military Banking Operation.* (1) *General Conditions of Banking Office Operation.* (i) Before banking office operations begin, a written agreement shall be executed between the installation commander and officials of the banking institution that is to operate the banking office on the DoD installation. As a minimum, the agreement shall address the following:

(A) A general statement of services to be rendered and the conditions therefor. To the extent feasible, full financial services shall be provided; however, agreements entered into under this provision may not restrict the banking institutions's right to adjust services and fees as required.

(B) The banking institution shall comply with this Part, Part 231 of this title, and applicable DoD Component regulations.

(C) The banking institution shall indemnify and hold harmless the government from (and against) any loss, expense, claim, or demand to which the government may be subjected as a result of death, loss, destruction, or damage in connection with the use and occupancy of premises of the DoD Component occasioned in whole or in part by agents or employees of the banking institution.

(D) Neither the DoD Component concerned nor its representatives will be responsible or liable for the financial operation of a banking office or for any loss (including criminal losses), expense, or claim for damages arising from this operation.

(ii) Active duty military personnel or civilian employees of the DoD Component concerned may not be detailed to duty or employment with a banking office located on a DoD installation; however, off-duty DoD personnel may be employed by a banking office, subject to the approval of the installation commander, provided such employment will not interfere with the full performance of the individual's military or civilian duties.

(iii) Each commander having an installation banking office shall appoint a banking liaison officer. The banking liaison officer's name and duty telephone number shall be displayed in the lobby of each banking office located on a DoD installation. In accordance with DoD Directive 1000.10, anyone who serves as a credit union board member or in any other official credit union capacity may not serve as a banking liaison officer. This officer shall maintain contact with the banking office manager to:

(A) Evaluate banking office performance.

(B) Recommend improvements in the quality of banking office services.

(C) Assist in resolving customer complaints relating to banking services.

(iv) During the hours that a banking office is open for business, traveler's checks and money orders may not be sold by other organizations located on the DoD installation. Postal units and credit unions are exempt from this restriction.

(v) As prescribed by paragraph 230.8 of this Part and Part 43a of this title, DoD Components shall cooperate with banking offices located on DoD installations in locating and effecting restitution from individuals who pass dishonored checks, overdraw accounts, or default on loans. If the amount of funds in question is not recouped by the banking office within 48 hours, the banking office manager may contact the local commander or the banking liaison officer for aid in effecting restitution of the amount due.

(vi) DoD Components shall prescribe clearance procedures for personnel leaving a DoD installation that will provide the onbase banking institution with adequate advance notification of the impending departure of its customers. The general purpose of a clearance is to report a change of address, reaffirm allotments or any outstanding debts, and receive counseling if desired or appropriate. Clearance may not be denied to facilitate the collection of debts or the

resolution of disputes between departing customers and banking office management.

(2) *Services Rendered.* (i) *To Individuals and Nonappropriated Fund Instrumentalities.* Normally, banking offices shall provide the same services on DoD installations as are provided in the local community. Service charges or fees levied for such services may not exceed those customary for the banking institution that operates the banking office, with the following exceptions:

(A) *Cashing of Treasury Checks.* There will be no encashment charge to accountholders. A fee not to exceed one dollar per Treasury check cashed is authorizied for nonaccountholders.

(B) *Cashing of Personal Checks.* A reasonable charge may be made for cashing personal checks; however, checks drawn on the banking institution operating the banking office shall be cashed without charge.

(ii) *To Disbursing Officers.* Banking offices are expected to provide cash, including payroll requirements, to military disbursing officers with out charge to the disbursing officer concerned and to accept deposits for credit to the Treasury of the United States when so authorized.

(3) *Banking Office Construction Proposals.* Proposals by officials of banking institutions for construction of structures on DoD installations at banking institution expense shall be reviewed and reported in accordance with DoD Instruction 7700.18. The following information shall be provided in support of each construction proposal:

(i) Approximate number of DoD personnel at the DoD installation, plus any other persons who may be authorized to use the banking office.

(ii) Square footage of the proposed building.

(iii) Size of land area to be leased to the banking institution.

(iv) Length of the term of lease.

(v) Estimated cost of the proposed construction.

(vi) Estimated fair market value of the land to be leased.

(vii) A brief description of the extent to which the banking institution will be responsible for utility connections and other utility and maintenance costs.

(viii) A statement that the proposed building will be used for banking purposes only.

(ix) Justification for a waiver of space criteria if building size exceeds that specified in DoD 4270.1–M.

(d) *Termination of Domestic Banking Offices.* (1) *Banking Facilities.* (i) The installation commander immediately shall notify the DoD Component headquarters concerned if a banking facility has been placed in an inactive status or if personnel reductions at the DoD installation have reduced banking facility operations below a justifiable level. The DoD Component immediately shall advise the Fiscal Assistant Secretary of the Treasury so that appropriate action to terminate the banking institution's authority to operate the banking facility may be taken.

(ii) In general, a banking facility may be terminated by the parent banking institution provided that notice in writing is furnished to the Treasury Department and the installation commander not less than 90 days before the closing date. In such cases, the Treasury Department will terminate the banking institution's authority to operate the banking facility, and the cognizant DoD Component shall determine the feasibility of requesting another banking institution to provide banking service at the installation.

(2) *Other Banking Offices.* (i) Requests for termination for cause [see § 231.3(f) of this title] shall be forwarded through channels to the departmental official responsible for financial management policy, or to the Defense Agency comptroller concerned, for coordination with the ASD(C) and approval before submission to the appropriate regulating agency for final disposition.

(ii) Banking offices other than banking facilities may be terminated by the parent banking institution provided written notice is furnished to the installation commander not less than 90 days before the closing date.

§ 230.7 Procedures for the establishment, operation, and termination of Overseas Banking Offices.

(a) *Provision of Banking Services Overseas.* The Department of Defense provides banking services overseas to authorized individuals and organizations using one of the following means:

(1) Contracts negotiated with U.S. banking institutions under the Defense Acquisition Regulation. (Parts 1 through 39 of this title).

(2) Direct negotiation with U.S. banking institutions for operation of nonreimbursable banking facilities.

(3) Direct negotiation with foreign banks where host countries do not permit the use of U.S. banking institutions.

(b) *Establishment of Overseas Banking Offices.* (1) *Banking Facilities Operated by U.S. Banking Contractors.* In implementing this Instruction, each DoD Component headquarters shall develop internal instructions governing the submission of requests justifying the need for banking facilities proposed for establishment on overseas DoD installations under its jurisdiction. Upon favorable review by the DoD Component headquarters, such requests shall be submitted to the Director for Banking, Office of the ASD(C), (OASD(C)), with a recommendation for inclusion in the current contract, subject to the conditions set forth below.

(i) The data used to justify establishment of overseas banking facilities shall parallel that required for domestic banking facilities (paragraph 230.6(a)(1)). In addition, in countries where no U.S.-operated banking facilities presently exist, the justification shall include a statement that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission and that the country involved will permit banking facilities operated by U.S. banking institutions.

(ii) As a general rule, banking facilities may be proposed when the population to be served meets the following criteria:

(A) *Full-Time Banking Facility.* Except in unusual circumstances, a full-time banking facility shall serve at least 1,000 DoD personnel.

(B) *Part-Time Banking Facility.* Except in unusual circumstances, a part-time banking facility shall serve at least 250 DoD personnel.

(iii) If the population at certain remote areas is not sufficient to qualify under the criteria for establishing a full- or part-time banking facility, the installation (community) commander shall explore all other alternatives for acquiring limited banking services (such as check-cashing and accommodation exchange service by disbursing officers and their agents) before requesting the establishment of a banking facility as an exception to the provisions of Paragraph 230.7(b)(1)(ii), above.

(iv) Establishment of an overseas banking facility is predicated upon:

(A) Designation of the facility contractor as a depositary and financial agent of the U.S. Government by the Fiscal Assistant Secretary of the Treasury under 12 U.S.C. 265.

(B) The availability of proposed banking contractors able and willing to bid for the operation of the facility and the reasonableness of such proposals.

(C) The availability of appropriated funds to pay for such banking services.

(2) *Other Overseas Banking Offices.* The banking and currency control laws of certain host countries, such as Italy, do not permit the operation of banking facilities on DoD installations by U.S. banking institutions.

(i) In such cases, installation (community) commanders shall forward requests for banking service or proposals voluntarily submitted by local banks through their Major Commanders. Requests shall be documented in accordance with Paragraph 230.7(b)(1), above.

(ii) Major Commanders shall coordinate with the Unified Command Commander, or his designee for banking matters, to ensure full consideration of alternatives with the appropriate U.S. Chief of Diplomatic Mission, and commonality, to the extent practicable, in banking services provided to all DoD personnel stationed in that country.

(iii) Major Commanders shall forward coordinated requests and proposals to the DoD Component headquarters concerned. If the DoD Component approves the request, it shall coordinate such approval with the DASD(MS) and shall obtain designation as a depositary and financial agent of the U.S. Government from the Fiscal Assistant Secretary of the Treasury before authorization of the banking office.

(iv) Banking offices proposed under this subsection shall be approved only after designation of the foreign banking institution as a depositary and financial agent of the U.S. Government and an indication of the institution's willingness and ability to provide collateral backing for official and nonappropriated fund U.S. dollar deposits in a form acceptable to the DASD(MS) and the Fiscal Assistant Secretary of the Treasury.

(c) *Logistical Support.* (1) *Banking Facilities Operated by U.S. Banking Contractors.* (i) DoD Components shall furnish support without charge to banking facilities operated by U.S. banking contractors as enumerated in Paragraphs 230.6(b)(3) and 230.6(b)(6) of this title.

(ii) Major Commanders shall provide these banking facilities with additional logistical support as enumerated in the contracts. Such support normally will include but will not be limited to:

(A) AUTOVON and AUTODIN (as separately approved).

(B) Certificates of nonavailability, when items of office furniture or equipment are unavailable for loan on memorandum receipt, as required by the designated property administrator.

(C) Vehicle registration and purchase of gasoline from government-owned facilities for bank-operated vehicles if not in conflict with host government agreements. Vehicle registration shall be subject to normal fees.

(D) Public quarters under DoD Instruction 4165.44 to key banking facility personnel who cannot obtain suitable, reasonably priced housing in the vicinity of the DoD installation. Charges for rent shall be in accordance with DoD Instruction 4165.42.

(E) U.S. Military Postal Service (MPS) under DoD Directive 4525.6 when used for requirements arising from operations of such facilities. All such mail entered into the MPS shall bear appropriate postage.

(iii) Suggestions for changes to the contracts under which this logistical support is authorized may be forwarded through channels to the Director for Banking, OASD(C).

(2) *Other Overseas Banking Offices.* (i) Logistical support provided to such offices shall be negotiated with the banking institution and shall be incorporated into the written agreement covering the operation. (See paragraph 231.7(d)(1)(i), below).

(ii) Usually, logistical support provided under this paragraph should be no more favorable than that provided to domestic banking offices. (see paragraphs 230.6(b)(3), 230.6(b)(4), and 230.6(b)(6) of this title. Whenever possible, such institutions shall reimburse the DoD Component concerned for logistical support provided.

(d) *Overseas Military Banking Operations.* (1) *General Conditions of Banking Office Operation.* (i) Before banking office operations begin, a written agreement shall be effected by the installation (community) commander and representatives of the banking contractor or other financial institution concerned. A copy of agreements executed with institutions other than U.S. contractors shall be forwarded to the Director for Banking, OASD(C), through DoD channels.

(A) For banking facilities operated by U.S. banking contractors, the agreement shall include necessary operating details not specifically set forth in the contract. Although the contract limits the number of operating hours per week, it encourages local commanders and banking facility managers to agree on the specific days and hours of operation to meet local needs.

1 Operating days may include Saturdays and operating hours may include evening hours when necessary to complement or parallel other retail services available to DoD personnel, provided the contractor agrees to provide such service at no additional cost to the government.

2 When cost implications are involved, the installation (community) commander shall forward his request for expanded or modified days or hours of operation, with an explanation of the need therefor, through channels to the Director for Banking, OASD(C), who will recommend appropriate action to the ACO.

(B) For other banking offices, an effort shall be made to include in the agreement those provisions specified in paragraph 230.6(c)(1)(i) of this title. Every effort shall be made to protect the interests of the U.S. Government; however, submission of operating statements to installation (community) commanders will not be required. In the absence of overriding considerations, the agreement shall specify that the bank will give 90 days advance written notice of its intent to terminate operations. Before the agreement is executed, it shall be coordinated with the Unified Command Commander, or his designee, and shall be forwarded to the DoD Component concerned for coordination with the DASD(MS) and for approval.

(iii) The provisions of § 230.6(c)(1)(ii) through 230.(c)(1)(vi) of this title apply to the operation of banking offices on overseas DoD installations.

(2) *Banking Facilities Operated by U.S. Banking Contractors.*

(i) *Authorized Customers.* Banking contracts specify personnel authorized to receive service. Additionally, Major Commanders may approve banking services for other individuals and organizations that qualify for individual logistic support under the regulations of the DoD Component concerned, provided that use of banking services is not precluded by status of forces or similar intergovernmental agreements or local law.

(ii) *Services Rendered.* Services to be rendered and the charges therefor are specified in the contracts. Suggestions for expansion or modification of authorized services or charges may be forwarded through channels to the Director for Banking, OASD(C), for consideration.

(iii) *Conditions of Overseas Banking Facility Operations*

(A) part-time or payday service banking facilities generally shall provide a range of services equivalent to that required of full-time banking facilities. Since part-time banking facilities operate out of other nearby banking facilities, DoD Components shall provide and bear the cost for transportation and guards required for their operation.

(B) The installation (community) commander, or his designee, shall:

(*1*) Review monthly income, expense, and activity statements provided by the full-time banking facility.

(*2*) Report any deficiency in the delivery of banking services under current contracts to the manager of the

banking facility within 7 calendar days of the identification of such deficiency. If the deficiency has not been remedied within 30 calendar days after its identification, the commander shall report the deficiency expeditiously through DoD channels to the Director for Banking OASD(C), for transmittal to the ACO.

(C) Both the banking facility contractor and DoD disbursing officers shall ensure that cash management practices are established that will minimize the cash required to meet joint needs on a continuing basis.

(D) Commanders shall cooperate with banking facility contractors in the development and regular update of plans for provision of banking services in the event of hostilities or other emergencies.

(3) *Other Overseas Banking Offices.*

(i) *Authorized Customers.* Major Commanders may approve banking services for individuals and organizations that qualify for individual logistic support under the regulations of the DoD Component concerned, provided that use of banking services is not precluded by status of forces or similar intergovernmental agreements or local law.

(ii) *Services Rendered.* Services to be rendered and charges therefor shall parallel, to the extent feasible, services and charges offered to authorized customers by banking facilities operated by U.S. banking contractors. Specific services will be a matter to be negotiated and included in the agreement with the banking institution involved. (See paragraph 230.7(d)(1)(i), above.)

(iii) *Conditions of Operation.* Normally, a banking institution shall provide equipment (except that furnished by the DoD installation), supplies, and trained bank personnel necessary for the operation of a banking office.

(e) *Termination of Overseas Banking Offices.* (1) *Banking Facilities Operated by U.S. Banking Contractors.* The installation (community) commander shall through DoD Component channels, immediately notify the Director for Banking, OASD(C), when personnel reductions or other situations at the DoD installation (military community) have reduced banking facility operations below a level that justifies retention.

(i) Such notification shall indicate whether a part-time facility should be established and the number of days per week such an operation is necessary.

(ii) The Director for Banking, OASD(C), shall recommend appropriate action to the ACO.

(2) *Other Overseas Banking Offices.* Terminations shall be effected under termination clauses of respective operating agreements. Notice of intent to terminate, including the closing date, shall be forwarded by the Major Commander to the Military Department concerned. The Military Department shall advise the Fiscal Assistant Secretary of the Treasury so that the banking institution's authority as a depositary and financial agent of the U.S. Government may be revoked. A copy shall be provided to the Director of Banking, OASD(C).

(f) *Notification to Overseas Banking Facilities.* Each U.S. banking contractor authorized to operate a banking facility at an overseas DoD installation shall be provided a copy of this Part by the Director for Banking, OASD(C). The DoD Components similarly shall provide copies of their implementing regulations.

§ 230.8 Guidelines for application of the Privacy Act to military banking operations.

The following Treasury-Defense guidelines govern the application of the Privacy Act (Part 286a of this title) to the banking institutions that operate under Part 231 of this title and this Part.

(a) Banking offices operating on DoD installations do not fall within the purview of the Privacy Act. Such financial institutions do not fit the definition of "agency" to which the Act applies: ". . . any executive department, military department, Government corporation, Government-controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or an independent regulatory agency" (5 U.S.C. 552(e), 552a(a)(1)). Nor are they ". . . to accomplish an agency function." According to the Office of Management and Budget Guidelines for Privacy Act implementation, the provision relating to government contractors applies only to systems of records ". . . actually taking the place of a Federal system which, but for the contract, would have been performed by an agency and covered by the Privacy Act" (40 FR 28976, July 9, 1975). Clearly, the subject institutions do not meet these criteria. Since the Act does not apply to them, such institutions are not required to comply with 5 U.S.C. 552a(e)(3) in obtaining and making use of personal information in their relationships with personnel authorized to use such facilities. Thus, such institutions are not required to inform individuals from whom information is requested of (1) the authority for its solicitation, (2) the principal purpose for which it is intended to be used, (3) the routine uses that may be made of it, or (4) the effects of not providing the information. There also is no requirement to post information of this nature at banking institutions on DoD installations.

(b) The banking institutions concerned hold the same position and relationship to their customers and to the government as they did before enactment of the Privacy Act. Within their usual business relationships, they still are responsible for safeguarding the information provided by their clients and for obtaining only such information as is reasonable and necessary to conduct business. This includes credit information and proper identification, such as social security number, as a precondition for the cashing of checks.

(c) Banking offices may incorporate the following conditions of disclosure of personal information in all contracts, including loan agreements, savings and transaction accounts signature cards, certificates of deposit agreements, and any other agreements signed by their customers:

> I hereby authorize the Department of Defense to verify my social security number or other identifier and disclose my home address to authorized (name of financial institution) officials so that they may contact me in connection with my financial business with (name of financial institution). All information furnished will be used solely in connection with my financial relationship with (name of financial institution).

When the financial institution presents such signed authorizations, the DoD installations shall provide the appropriate information.

(d) Even though the agreement described in § 230.8(c), above, has not been obtained, the Department of Defense may provide banking offices with salary information and, if pertinent, the length or type of civilian or military appointment consistent with the Privacy Act and Freedom of Information Act (Part 286 of this title). Examples of personal information pertaining to DoD personnel that normally can be released without the creation of an unwarranted invasion of personal privacy are name, rank, date or rank, salary, present and past duty assignments, future assignments that have been finalized, office phone number, source of commission, and promotion sequence number.

(e) If a DoD member or employee with a financial obligation is reassigned, and fails to inform a banking institution or individual of his or her whereabouts, locator assistance of the individual's last known commander or supervisor at the offical position or duty station within that DoD Component shall be

UMI

1983

sought. That commander or supervisor either shall furnish the individual's new official duty location address to the requestor or shall forward, through official channels, any correspondence received pertaining thereto to the individual's new commander or supervisor for appropriate assistance and response. Correspondence addressed to the individual concerned at his or her last official place of business or duty station is forwarded as provided by postal regulations to the new location, but the individual may choose not to respond. However, once an individual's affiliation with the Department of Defense is terminated through separation or retirement, the locator assistance the Department may render in the disclosure of home address is severely curtailed unless the public interest dictates disclosure of the last known home address. The Department may at its discretion forward correspondence to the individual's last known home address. The individual may choose not to respond, and the Department of Defense will not act as an intermediary for private matters concerning former DoD personnel who are no longer affiliated therewith.

(f) Questions concerning this guidance shall be forwarded through channels to the Director for Banking, Office of the Assistant Secretary of Defense (Comptroller), The Pentagon, Washington, D.C. 20301.

April 22, 1983.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

List of Public Laws

Last Listing April 22, 1983

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (phone 202–275–3030).

S. 89 / Pub. L. 98–22 Saccharin Study and Labeling Act Amendment of 1983. (Apr. 22, 1983; 97 Stat. 173) Price: $1.75

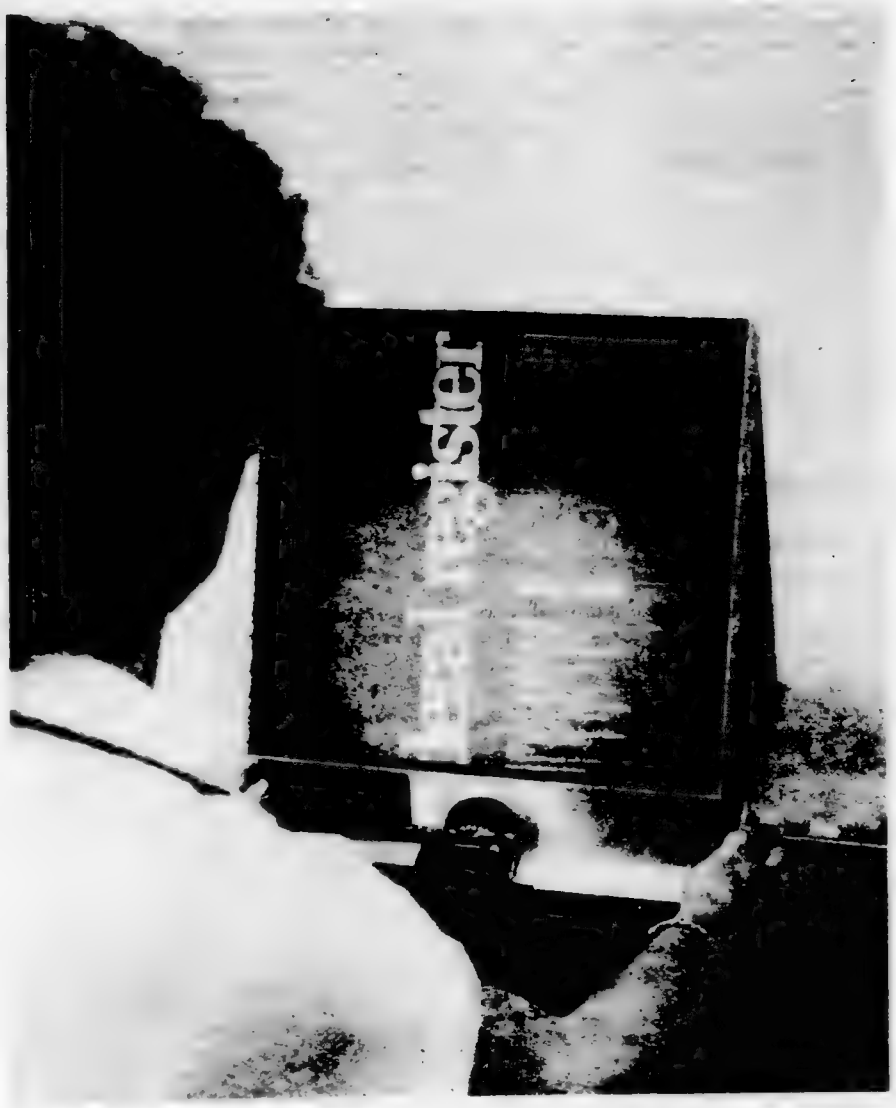
Microfiche Editions Available...

Federal Register

The Federal Register is published daily in 24x microfiche format and mailed to subscribers the following day via first class mail. As part of a microfiche Federal Register subscription, the LSA (List of CFR Sections Affected) and the Cumulative Federal Register Index are mailed monthly.

Code of Federal Regulations

The Code of Federal Regulations, comprising approximately 180 volumes and revised at least once a year on a quarterly basis, is published in 24x microfiche format and the current year's volumes are mailed to subscribers as issued. Or, the previous year's full set may be purchased at a reduced price and mailed as a single shipment.



Subscription Prices:

Federal Register:

One year: $175 domestic; $218.75 foreign
Six months: $87.50 domestic; $109.40 foreign

Code of Federal Regulations:

Current year (as issued): $250 domestic; $312.50 foreign
Previous year's full set (single shipment): $155 domestic; $193.75 foreign

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

The President

Proclamation 5056 of April 26, 1983

National Physical Fitness and Sports Month, 1983

By the President of the United States of America

A Proclamation

Regular, vigorous physical activity is essential to good health and effective performance of our daily responsibilities. In addition, physical activity and sports programs can provide rich sources of personal pleasure and satisfaction.

Many individuals, families, communities, and others are increasingly concerned about physical fitness, and there is a growing recognition that physical activity is an important part of daily life for people of both sexes and all ages. Americans who are not reaping the benefits and pleasures of physical activity and sports should develop a personal physical fitness program in accordance with their capability.

In recognition of the importance of physical activity as a part of our daily life, the Congress, by Senate Joint Resolution 53, has authorized and requested the President to designate the month of May 1983 as "National Physical Fitness and Sports Month."

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the month of May 1983 as National Physical Fitness and Sports Month and urge communities, schools, States, employers, voluntary organizations, churches, and other organizations to stage appropriate observances and special events. Furthermore, I urge individuals and families to use this occasion to renew their commitments to make regular physical activity an integral part of their lives.

IN WITNESS WHEREOF, I have hereunto set my hand this 26th day of April, in the year of our Lord nineteen hundred and eighty-three, and of the Independence of the United States of America the two hundred and seventh.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 48, No. 83
Thursday, April 28, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Regulation 576]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period April 29–May 5, 1983. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: April 29, 1983.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION:

Findings

This rule has been reviewed under USDA procedures and Executive Order 12291 and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona navel orange crop for the benefit of producers and will not substantially affect costs for the directly regulated handlers.

This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendation and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the Act.

This action is consistent with the marketing policy for 1982–83. The marketing policy was recommended by the committee following discussion at a public meeting on September 21, 1982. The committee met again publicly on April 26, 1983 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navel oranges deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is easier.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the Act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 907

Agricultural Marketing Service, Marketing agreements and orders, California, Arizona, Oranges (navel).

1. Section 907.876 is added as follows:

§ 907.876 Navel orange regulation 576.

The quantities of navel oranges grown in California and Arizona which may be handled during the period April 29, 1983 through May 5, 1983, are established as follows:

(1) District 1: 1,700,000 cartons;
(2) District 2: Unlimited cartons;
(3) District 3: Unlimited cartons;

7 CFR Part 1126

[Milk Order No. 126; Docket No. AO-231-A49]

Milk in the Texas Marketing Area; Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action implements on an emergency basis a temporary reduction of 40 cents per hundredweight in the price for producer milk used to produce butter, nonfat dry milk and cheddar cheese. The adopted change, which will apply only through June 30, 1983, is based on industry proposals considered at a public hearing in February 1983.

The price reduction is necessary to reflect current marketing conditions and will result in a more equitable sharing among all producers on the market of the cost of disposing of unusually large supplies of surplus milk that are expected this spring. Marketing conditions are such that prompt amendatory action is required. For this reason, a recommended decision and the opportunity to file exceptions thereto were omitted. Cooperative associations representing more than two-thirds of the producers who supply the market have approved the issuance of the amended order.

EFFECTIVE DATE: April 28, 1983.

FOR FURTHER INFORMATION CONTACT: Robert F. Groene, Marketing Specialist, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, D.C. 20250, (202) 447–4824.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of Sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Prior documents in this proceeding:

Notice of Hearing: Issued December 27, 1982; published January 3, 1983 (48 FR 28).

Notice of Rescheduled Hearing: Issued January 14, 1983; published January 19, 1983 (48 FR 2337).

Emergency Final Decision: Issued April 11, 1983; published April 15, 1983 (48 FR 16286).

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Texas marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective upon publication in the **Federal Register**. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The decision of the Deputy Assistant Secretary containing all amendment provisions of this order was issued April 11, 1983. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective upon publication in the **Federal Register**, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the **Federal Register**. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551–559)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing areas, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

List of Subjects in 7 CFR Part 1126

Milk marketing orders, Milk, Dairy products.

Order Relative to Handling

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

PART 1126—MILK IN THE TEXAS MARKETING AREA.

1. In § 1126.60, a new paragraph (h) is added to read as follows:

§ 1126.60 Handler's value of milk for computing uniform price.

* * * * *

(h) From the effective date of this amendatory action through June 30, 1983, subtract an amount determined by multiplying the pounds of producer milk used to make butter, nonfat dry milk and cheddar cheese by 40 cents per hundredweight.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: April 28, 1983.

Signed at Washington, D.C., on April 22, 1983.

John Ford,

Deputy Assistant Secretary, Marketing and Inspection Services.

Powers and Duties of Service Officers; Availability of Service Records; Petition To Classify Alien as Immediate Relative of a United States Citizen or as a Preference Immigrant; Revocation of Approval of Petitions; Documentary Requirements: Nonimmigrants, Waivers, Admission of Certain Inadmissible Aliens, Parole; and Nonimmigrant Classes; Certain Amerasians Fathered by United States Citizens

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Interim rule with request for comments.

SUMMARY: This rule establishes procedures for the immigration to the United States of certain Amerasian children of United States citizen fathers based upon Pub. L. 97–359, which amended the Immigration and Nationality Act to provide preferential treatment in the immigration of these individuals. The rule provides opportunity to certain aliens born in Korea, Vietnam, Laos, Kampuchea, and Thailand who were fathered by United States citizens to immigrate to the United States and to ensure their safety and well-being after they arrive.

EFFECTIVE DATE: April 28, 1983. Comments must be received on or before: May 30, 1983.

ADDRESS: Please submit written comments in duplicate to the Commissioner of Immigration and Naturalization, Room 7100 425 I Street, NW., Washington, D.C. 20536.

FOR FURTHER INFORMATION CONTACT:
For General Information: Stanley J. Kieszkiel, Acting Instructions Officer, Immigration and Naturalization Service, 425 I St. NW., Washington, D.C. 20536, Telephone: (202) 633–3048.
For General Information: Alice Strickler, Immigration Examiner, Immigration and Naturalization Service, 425 I St. NW., Washington, D.C. 20536, Telephone: (202) 633–5015.

SUPPLEMENTARY INFORMATION: On October 22, 1982, Pub. L. 97–359 (96 Stat. 1716) was enacted to provide for the immigration to the United States of certain Amerasian children of United States citizen fathers. In order to qualify for benefits under this law, an alien must have been born in Korea, Vietnam, Laos, Kampuchea, or Thailand after December 31, 1950 and before October 22, 1982 and have been fathered by a United States citizen. Aliens who come to the United States as a result of this legislation will immigrate as numerically unrestricted immediate relatives of United States citizens if they are unmarried children under the age of twenty-one, as numerically restricted unmarried sons and daughters of United States citizens if they are unmarried and twenty-one years of age or older, and numerically restricted married sons and daughters of United States citizens.

Public Law 97–359 was enacted for humanitarian reasons. As Chairman Peter W. Rodino of the House Committee on the Judiciary stated on October 1, 1982:

> Enactment of this legislation is certainly long overdue and it responds in an effective and practical manner to a most difficult humanitarian problem. In my judgment, it recognizes a moral responsibility that we have to these children who have been fathered by Americans abroad. (128 Cong. Rec. H8351, daily ed. Oct. 1, 1982, statement of Rep. Rodino)

In view of the plight of many of the beneficiaries of this legislation, it will be the policy of the Immigration and Naturalization Service to expedite their cases to the greatest extent possible. It was not intended, however, that the mothers of children under eighteen years of age accompany them to the United States. This would be contrary to the requirement in Public Law 97–359 that a United States citizen or lawful permanent resident sponsor agree to "assume legal custody" of a beneficiary under eighteen.

Public Law 97–359 adds a new section 204(g) to the Immigration and Nationality Act (8 U.S.C. 1154(g)) to permit the immigration to the United States of certain illegitimate Amerasian children of United States citizen fathers who are unable to immigrate under other sections of law. Prior to its enactment, the illegitimate children of United States citizen fathers were unable to gain any immigration benefits as a result of their relationship to their fathers. Section 204(g) of the Act now enables certain of them to do so, but without requiring that their fathers file petitions in their behalf. Under other sections of immigration law, a legitimate child, a legitimated child, or a stepchild can gain immigration benefits through the child's relationship with either parent or stepparent. An illegitimate child, on the other hand, normally can obtain immigration benefits only through the relationship with his or her mother.

As a result of *Matter of McMillan*, 17 I. & N. Dec. 605 (BIA 1981), a precedent decision of this Service, however, an illegitimate child can gain immigration benefits as the stepchild of his or her father's United States citizen or lawful permanent resident alien wife provided that the marriage creating the stepparent-stepchild relationship occurred prior to the child's eighteenth birthday. It is therefore expected that some Amerasian children eligible for benefits under Pub. L. 97–359 may immigrate to the United States instead as the beneficiaries of relative petitions filed under *McMillan*.

It is also expected that some aliens under sixteen years of age eligible for benefits under Pub. L. 97–359 may immigrate to the United States instead as the beneficiaries of orphan petitions. In order for an orphan petition to be approved, the beneficiary must be adopted abroad by a United States citizen and spouse or an unmarried United States citizen at least twenty-five years of age, who personally saw and observed the child prior to or during the adoption proceedings. Otherwise, the beneficiary must be coming to the United States for adoption by a United States citizen and spouse or a United States citizen at least twenty-five years of age, who have or has complied with the preadoption requirements, if any, of the state of the child's proposed residence. Unlike an orphan petition, a petition filed under Pub. L. 97–359 has no provision relating to adoption.

A new petition, Form I–360, Petition to Classify Pub. L. 97–359 Amerasian as the Child, Son, or Daughter of a United States Citizen, will be used, supported by a newly devised Form I–361, Affidavit of Financial Support and Intent to Petition for Legal Custody for Pub. L. 97–359 Amerasian, as well as necessary documentary evidence. If, after admission to the United States, a beneficiary requires enforcement of the guarantee of financial support and intent to petition for legal custody, the newly devised Form I–363, Request to Enforce Affidavit of Financial Support and Intent to Petition for Legal Custody for Pub. L. 97–359 Amerasian, may be filed. In order not to delay the admission of eligible beneficiaries, Form I–139, Petition to Classify Status of Alien Relative for Issuance of Immigrant Visa, and Form I–130, Affidavit of Support, will be used in place of Form I–360 and Form I–361 respectively until the new forms are available to the public.

There are various requirements regarding the sponsorship process which are being instituted, in accordance with the legislative intent, out of concern for the safety and well-being of beneficiaries under eighteen years of age. On October 1, 1982, Chairman Romano L. Mazzoli of the House Subcommittee on Immigration, Refugees, and International Law of the Committee on the Judiciary, when referring to his

amendment to the legislation which was adopted, stated, "It * * * tightens the sponsorship system for these Amerasians so that we can be sure that they can be placed with proper sponsors when they come to our country." (128 Cong. Rec. H8352, daily ed. Oct. 1, 1982). On that same date, Chairman Rodino stated, "There is certainly a concensus that every possible step should be taken to insure that the sponsorship process is legitimate." (128 Cong. Rec. H8351 daily ed. Oct. 1, 1982)

If the petitioner so desires, the petition may be adjudicated in two stages. During the first stage, a determination must be made as to whether there is reason to believe that the beneficiary was fathered by a United States citizen. During the second stage, a determination will be made concerning the adequacy of the sponsor's guarantee of legal custody if the beneficiary is under eighteen years of age and the adequacy of the sponsor's guarantee of financial responsibility, as well as other requirements. The two-stage adjudication will permit completion of the part of the petition on the beneficiary first so that the sponsor will not need to complete the complex procedures regarding sponsorship and, in the case of a beneficiary under eighteen years of age, placement and legal custody, unless the beneficiary is found tentatively qualified for the benefit sought. If, on the other hand, the petitioner wants to have all parts of the petition adjudicated at the same time, the case may be done that way.

A new 8 CFR 103.1(l)(2)(xxiv) is being added to permit those petitions which are denied to be appealed to the regional commissioners. The provisions relating to petitions for Pub. L. 97-359 Amerasians are included in 8 CFR 204.1(c) and 8 CFR 204.2(g). Provisions relating to enforcement of an affidavit of financial support and intent to petition for legal custody are included in 8 CFR 204.2(h). 8 CFR Part 205 is revised to include provisions relating to revocation of petitions for Pub. L. 97-359 Amerasians. In 8 CFR 103.2(b)(1), 8 CFR 212.8(b)(4), 8 CFR 214.2(h)(5), 8 CFR 214.2(k), 8 CFR 212.2(1)(2), technical changes are being made because of a change in paragraph designation in this rule.

Compliance with 5 U.S.C. 553 as to notice of proposed rulemaking and delayed effective date is unnecessary because these requirements are mandated by law and delay would be contrary to the public interest.

Public comments are invited with respect to all aspects of this rulemaking. The Service would appreciate public comments particularly with respect to 8 CFR 204.2(g)(1)(i)(B) relating to the requirement that the beneficiary's father must have been a United States citizen at the time of the beneficiary's birth or at the time of the father's death if the father died prior to the beneficiary's birth.

In accordance with 5 U.S.C. 605(b), the Commissioner certifies that this rule will not have a significant economic impact on a substantial number of small entities. This is not a major rule within the meaning of section 1(b) of E.O. 12291.

Accordingly, Chapter I of Title 8 of the Code of Federal Regulations is amended to read as follows:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS: AVAILABILITY OF SERVICE RECORDS

1. The following new 8 CFR 103.1(l)(2)(xxiv) is added:

§ 103.1 Delegations of authority.

* * * * *

(l) * * *

(2) * * *

(xxiv) Decisions on petitions to classify Pub. L. 97-359 Amerasians as the children, sons, and daughters of United States citizens.

* * * * *

§ 103.2 [Amended]

2. In § 103.2, paragraph (b)(1) is amended to change the citation "204.2(h)" to read "204.2(j)."

PART 204—PETITION TO CLASSIFY ALIEN AS IMMEDIATE RELATIVE OF A UNITED STATES CITIZEN OR AS A PREFERENCE IMMIGRANT

3. The existing § 204.1(c) is redesignated as § 204.1(d), and the following new § 204.1(c) is added:

§ 204.1 Petition.

* * * * *

(c) *Public Law 97-359 Amerasian*—(1) *Eligibility.* An alien is eligible for classification under section 201(b), 203(a)(1) or 203(a)(4) of the Act as the Amerasian child, son, or daughter of a United States citizen pursuant to section 204(g) of the Act if there is reason to believe that the alien—

(i) Was born in Korea, Vietnam, Laos, Kampuchea, or Thailand after December 31, 1950 and before October 22, 1982; and

(ii) Was fathered by a United States citizen.

(2) *Filing petition.* Any alien claiming to be eligible for benefits as a Pub. L. 97-359 Amerasian, or any person on the alien's behalf, may file a petition, Form I-360, Petition to Classify Pub. L. 97-359 Amerasian as the Child, Son, or Daughter of a United States Citizen, without fee. A natural person filing the petition must be eighteen years of age or older or an emancipated minor. In addition, a corporation incorporated in the United States may file the petition. The petition must be filed with the office of the Service having jurisdiction over the place of the alien's intended residence in the United States or with the overseas Service office having jurisdiction over the alien's residence abroad.

(3) *Two-stage processing of petition*—(i) *Preliminary processing.* Upon initial submission of a petition with the documentary evidence required by § 204.2(g)(1)(i), the district director or officer-in-charge shall adjudicate the petition to determine whether there is reason to believe the beneficiary was fathered by a United States citizen. If the preliminary processing is completed in a satisfactory manner, the district director or officer-in-charge shall advise the petitioner to submit the documentary evidence required by § 204.2(g)(1)(ii) and (iii) and the fingerprints of the sponsor on Form FD-258 as required by § 204.2(g)(1)(iv) if they have not already been submitted. The petitioner must submit all requested documents within one year of the date of the request or the petition will be considered abandoned. To reactivate an abandoned petition, the petioner must submit a new petition, Form I-360, without the previously submitted documentation, to the Service office having jurisdiction over the prior petition.

(ii) *Final processing.* Upon submission of the documentary evidence required by § 204.2(g)(1)(ii) and (iii) and, if applicable, § 204.2(g)(1)(iv), the district director or officer-in-charge shall

complete the adjudication of the petition.

(4) *One-stage processing of petition.* If all documentary evidence required by § 204.2(g)(1)(ii), (iii), and (iv) is available when the petition is initially filed, the petitioner may submit it at that time. In that case, the district director or officer-in-charge shall consider all evidence without using the two-stage processing procedure under paragraph (c)(3) of this section.

(5) *Decision*—(i) *General.* The district director or officer-in-charge shall notify the petitioner of the decision and, if the petition is denied, of the reasons for the denial.

(ii) *Denial upon completion of preliminary processing.* The district director or officer-in-charge may deny the petition upon completion of the preliminary processing under paragraph (c)(3) of this section for—

(A) Failure to establish that there is reason to believe the alien was fathered by a United States citizen; or

(B) Failure to meet the sponsorship requirements if the fingerprints of the sponsor, required by § 204.2(g)(1)(iv), were submitted during the preliminary processing and the completed background check of the sponsor discloses adverse information resulting in a finding that the sponsor is not of good moral character.

(iii) *Denial upon completion of final processing.* The district director or officer-in-charge may deny the petition upon completion of the final processing for failure to establish that the sponsorship requirements or one or more of the other applicable requirements have been met.

(iv) *Denial upon completion of one-stage processing.* The district director or officer-in-charge may deny the petition upon completion of all processing for failure to meet any of the applicable requirements in a case being processed under the one-stage processing described in paragraph (c)(4) of this section.

(v) *Appeal.* If the petition is denied, the petitioner may appeal the decision under Part 103 of this chapter.

(5) *Classification of Pub. L. 97–359 Amerasian.* If the petition is approved the beneficiary is classified as follows:

(i) An unmarried beneficiary under the age of twenty-one is classified as the child of a United States citizen under section 201(b) of the Act.

(ii) An unmarried beneficiary twenty-one years of age or older is classified as the unmarried son or daughter of a United States citizen under section 203(a)(1) of the Act.

(iii) A married beneficiary is classified as the married son or daughter of a United States citizen under section 203(a)(4) of the Act.

* * * * *

4. The existing § 204.2 (g) and (h) are redesignated as § 204.2 (i) and (j) respectively, and the following new § 204.2 (g) and (h) are added:

§ 204.2 Documents.

* * * * *

(g) *Evidence required to accompany petition for Amerasian child of a United States citizen*—(1) *Two-stage processing of petition*—(i) *Preliminary processing.* A petition filed by or on behalf of an Amerasian under § 204.1(c) must be accompanied by the following:

(A) Evidence that the beneficiary was born in Korea, Vietnam, Laos, Kampuchea or Thailand after December 31, 1950 and before October 22, 1982. If the beneficiary was born in Vietnam, the beneficiary's I.D. card must be submitted, if available. If it is not available, the petitioner must submit an affidavit explaining why the beneficiary's I.D. card is not available.

(B) Evidence that the beneficiary was fathered by a United States citizen. The putative father must have been a United States citizen at the time of the beneficiary's birth or a United States citizen at the time of his death if he died prior to the beneficiary's birth. Submit as many documents as may be obtained, including, but not limited to:

(*1*) The beneficiary's birth and baptismal certificates or other religious documents;

(*2*) Local civil records;

(*3*) Affidavits from knowledgeable witnesses;

(*4*) Letters from, or evidence of financial support from the beneficiary's putative father;

(*5*) Photographs of the beneficiary's putative father, especially with the beneficiary; and

(*6*) Evidence of the putative father's United States citizenship.

(C) The beneficiary's photograph.

(D) The beneficiary's marriage certificate, if married, and evidence of termination of any previous marriages, if applicable.

(E) If the beneficiary is under eighteen years of age, an irrevocable release in writing for emigration from the beneficiary's mother or legal guardian. The mother or guardian must authorize the placing agency or agencies to make necessary decisions for the child's immediate care until the sponsor receives custody. Interim costs incurred are the responsibility of the sponsor. The mother or guardian must show an understanding of the effects of the release and state whether any money was paid or any coercion was used prior to signing the release. The signature of the mother or guardian must be authenticated by the local registrar, the court of minors, or a United States immigration or consular officer. The release must include the full name, date and place of birth, and present or permanent address of the mother or guardian.

(ii) *Final processing.* If the district director or officer-in-charge notifies the petitioner that all preliminary processing has been completed in a satisfactory manner, the petitioner must then submit the following:

(A) Form I–361, Affidavit of Financial Support and Intent to Petition for Legal Custody for Pub. L. 97–359 Amerasian, executed by the beneficiary's sponsor with the documentary evidence of the sponsor's financial ability required by that form. If the beneficiary is under eighteen years of age, the sponsor must agree to petition the court having jurisdiction within thirty days of the beneficiary's arrival in the United States to be awarded legal custody in accordance with the laws of the state where the beneficiary will reside until the beneficiary is eighteen years of age. The term "legal custody" means the assumption of responsibility for a minor by an adult under the laws of the state in a court of law. The sponsor must be a United States citizen or lawful permanent resident twenty-one years of age or older who is of good moral character.

(B) Evidence of the age of the beneficiary's sponsor.

(C) Evidence of the United States citizenship of the beneficiary's sponsor as provided in paragraph (a) of this section or evidence of the lawful permanent residence of the sponsor as provided in paragraph (b) of this section.

(D) If the beneficiary is under eighteen years of age, evidence that a public, private, or state agency licensed in the United States to place children and actively involved, with recent experience, in the intercountry placement of children has arranged the beneficiary's placement in the United States and that the sponsor with whom the beneficiary is being placed is able to accept the beneficiary for care in the sponsor's home under the laws of the state of the beneficiary's intended residence. The agency must demonstrate a capability, including financial capability, to arrange the placement, as described in paragraph (g)(1)(iii) of this section, directly, or through cooperative agreement, with other suitable provider(s) of service.

(iii) *Arrangements for placement of a beneficiary under eighteen.* If the

beneficiary is under eighteen years of age, the petitioner must submit the following evidence of the placement arrangement required by paragraph (g)(ii)(D) of this section:

(A) A favorable home study of the sponsor to be conducted by an agency legally authorized to conduct that study in the jurisdiction of placement.

(B) A plan from the agency to provide follow-up services including mediation and counseling as required to assure a satisfactory adjustment of the sponsor and the beneficiary to the placement and to determine whether the terms of the sponsorship are being upheld.

(C) A report from the agency of the placement including information regarding any family separation or dislocation abroad that results from the placement. In addition, the agency must submit to the Director, Outreach Program, Immigration and Naturalization Service, Washington, DC, within ninety days of each occurrence, reports of any breakdowns in sponsorship that occur, and reports of the steps taken to remedy these breakdowns.

(D) A statement from the agency—

(*1*) Indicating that the sponsor, before signing the sponsorship agreement, has been provided a report covering pre-placement screening and evaluation, including health evaluation, of the beneficiary;

(*2*) Describing the agency's orientation of both the sponsor and the beneficiary on the legal and cultural aspects of the placement;

(*3*) Describing the initial facilitation of the placement through introduction, translation, and similar services; and

(*4*) Describing the contingency plans to place the beneficiary in another suitable home if the initial placement fails. The new sponsor must execute and submit a Form I–361 to the Service office having jurisdiction over the beneficiary's residence in the United States. The original sponsor nonetheless retains financial responsibility for the beneficiary under the terms of the guarantee of financial support and intent to petition for legal custody which that sponsor executed unless that responsibility is assumed by a new sponsor. In the event that the new sponsor does not comply with the terms of the new guarantee of financial support and intent to petition for legal custody and, for one reason or another, that guarantee is not enforced, the original sponsor again becomes financially responsible for the beneficiary.

(iv) *Fingerprints of sponsor.* The petitioner must submit the fingerprints of the sponsor on Form FD–258. The petitioner may submit Form FD–258 at any time during the processing of the petition. The Form FD–258 must reflect the ORI number (originating agency number), or special office code, relating to the Service office where the petition is filed if that office has forms FD–258 with the relating ORI number.

(2) *One-stage processing of petition.* If the petitioner chooses to have the petition processed under the one-stage processing procedure described in § 204.1(c)(4), the petitioner must submit all evidence required by paragraph (g)(1) of this section.

(h) *Enforcement of affidavit of financial support and intent to petition for legal custody.* A guarantee of financial support and intent to petition for legal custody on Form I–361, Affidavit of Financial Support and Intent to Petition for Legal Custody for Pub. L. 97–359 Amerasian, may be enforced against the alien's sponsor in a civil suit brought by the Attorney General in the United States district court for the district in which the sponsor resides, except that the sponsor's estate is not liable under the guarantee if the sponsor dies or is adjudicated a bankrupt under Title 11, United States Code. If, after admission to the United States, the beneficiary of a petition for a Pub. L. 97–359 Amerasian requires enforcement of the guarantee of financial support and intent to petition for legal custody executed by the beneficiary's sponsor, the beneficiary may file Form I–363, Request to Enforce Affidavit of Financial Support and Intent to Petition for Legal Custody for Pub. L. 97–359 Amerasian, with the office of the Service having jurisdiction over the beneficiary's residence in the United States. If the beneficiary is under eighteen years of age, any agency or individual (other than the sponsor) having legal custody of the beneficiary or a guardian ad litem may file Form I–363.

* * * * *

PART 205—REVOCATION OF APPROVAL OF PETITIONS

5. The existing § 205.1(b) and (c) are redesignated as § 205.1(c) and (d) respectively, and the following new § 205.1(b) is added:

§ 205.1 Automatic revocation.

* * * * *

(b) *Petition for Pub. L. 97–359 Amerasian*—(1) Upon formal notice of withdrawal filed by the petitioner with the officer who approved the petition.

(2) Upon the death of the beneficiary.

(3) Upon the death or bankruptcy of the sponsor who executed Form I–361, Affidavit of Financial Support and Intent to Petition for Legal Custody for Pub. L. 97–359 Amerasian. In that event, a new petition may b filed in the beneficiary's behalf with the documentary evidence relating to sponsorship and, in the case of a beneficiary under eighteen years of age, placement. If the new petition is approved, it will be given the priority date of the previously approved petition.

(4) Upon the death or substitution of the petitioner if other than the beneficiary or sponsor. However, if the petitioner dies or no longer desires or is able to proceed with the petition, and another person eighteen years of age or older, an emancipated minor, or a corporation incorporated in the United States desires to be substituted for the deceased or original petitioner, a written request may be submitted to the Service or American consular office where the petition is located to reinstate the petition and restore the original priority date.

(5) Upon the beneficiary's reaching the age of twenty-one when the beneficiary has been accorded classification under section 201(b) of the Act. Provided that all requirements of section 204(g) of the Act continue to be met, however, the petition is to be considered valid for purposes of according the beneficiary preference classification under section 203(a)(1) of the Act if the beneficiary remains unmarried or under section 203(a)(4) if the beneficiary marries.

(6) Upon the beneficiary's marriage when the beneficiary has been accorded classification under section 201(b) or section 203(a)(1) of the Act. Provided that all requirements of section 204(g) of the Act continue to be met, however, the petition is to be considered valid for purposes of according the beneficiary preference classification under section 203(a)(4) of the Act.

* * * * *

6. Section 205 is revised to read as follows:

§ 205.2 Revocation on notice.

(a) *General.* Any Service officer authorized to approve a petition under section 204 of the Act may revoke the approval of that petition upon notice to the petitioner on any ground other than those specified in § 204.1 when the necessity for the revocation comes to the attention of this Service.

(b) *Procedure.* Revocation of the approval of a petition under paragraph (a) of this section will be made only on notice to the petitioner who must be given an opportunity to offer evidence in support of the petition and in opposition

to the grounds alleged for revocation of the approval. If, upon reconsideration, the approval previously granted is revoked, the district director shall notify the petitioner of the decision and of the reasons for the revocation. The petitioner may appeal the decision within fifteen days after the service of notice. Except in the case of a petition filed under section 204(g) of the Act, if the petition was approved for a preference under section 203(a) (1), (2), (4), or (5) of the Act or for immediate relative classification under section 201(b) of the Act other than for a child as defined in section 101(b)(1)(F) of the Act, the petitioner must file the appeal as provided in Part 3 of this chapter. If the petition was approved for a preference under section 203(a) (3) or (6) of the Act, for a child as defined in section 101(b)(1)(F) of the Act, or for a Pub. L. 97–359 Amerasian, the petitioner must file the appeal as provided in Part 103 of this Chapter. The district director shall notify the consular officer having jurisdiction over the visa application, if applicable, of the revocation of an approval.

§ 205.3 [Removed]

7. Section 205.3 is removed.

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

§ 212.8 [Amended]

8. In § 212.8, paragraph (b)(4) is amended to change the citation "204.2(h)" to read "204.2(j)."

PART 214—NONIMMIGRANT CLASSES

§ 214.2 [Amended]

9. In § 214.2, paragraphs (h)(5), (k) and (l)(2) are amended to change the citations "204.2(h)" to read "204.2(j)."

(Secs. 103, 201(b), 203(a)(1), 203(a)(4), 204(g), 205, 212, and 214 of the Immigration and Nationality Act, as amended; 8 U.S.C. 1103, 1151(b), 1153(a)(1), 1153(a)(4), 1154(g), 1155, 1182, and 1184)

Dated: April 6, 1983.

Alan C. Nelson,

Commissioner of Immigration and Naturalization.

[FR Doc. 83-11260 Filed 4-27-83; 8:45 am]

BILLING CODE 4410-10-M

8 CFR Part 238

Contracts With Transportation Lines; Addition of Wardair Canada, Ltd.

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This rule adds Wardair Canada, Ltd. to the list of carriers which have entered into agreements with the Service to guarantee the passage through the United States in immediate and continuous transit of aliens destined to foreign countries.

EFFECTIVE DATE: April 19, 1983.

FOR FURTHER INFORMATION CONTACT: Stanley J. Kieszkiel, Acting Instructions Officer, Immigration and Naturalization Service, 425 Eye Street NW., Washington, D.C. 20536, Telephone: (202) 633–3048.

SUPPLEMENTARY INFORMATION: This amendment to 8 CFR 238.3(b) is published pursuant to 5 U.S.C. 552. The Commissioner of Immigration and Naturalization Service entered into an agreement with Wardair Canada, Ltd. on April 19, 1983, to guarantee passage through the United States in immediate and continuous transit of aliens destined to foreign countries.

The agreement provides for the waiver of certain documentary requirements and facilitates the air travel of passengers on international flights while passing through the United States.

Compliance with 5 U.S.C. 553 as to notice of proposed rulemaking and delayed effective date is unnecessary because the amendment merely makes an editorial change to the listing of transportational lines.

In accordance with 5 U.S.C. 605(b), the Commissioner of Immigration and Naturalization certifies that the rule will not have a significant impact on a substantial number of small entities.

This order constitutes a notice to the public under 5 U.S.C. 552 and is not a rule within the definition of section 1(a) of E.O. 12291.

List of Subjects in 8 CFR Part 238

Airlines, Aliens, Government contracts, Travel, Travel restriction.

Accordingly, 8 CFR Part 238 is amended as follows:

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.3 [Amended]

In § 238.3, Aliens in immediate and continuous transit, the listing of transportation lines in paragraph (b), Signatory lines is amended by adding in alphabetical sequence, "Wardair Canada, Ltd."

(Sec. 103, 66 Stat. 173 (8 U.S.C. 1103); 238, 66 Stat. 202 (8 U.S.C. 1228))

Dated: April 22, 1983.

Andrew J. Carmichael, Jr.,

Associate Commissioner, Examinations, Immigration and Naturalization Service.

BILLING CODE 4410-10-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 83-CE-48-AD; Amdt. 39-4637]

Airworthiness Directives; Beech Models 60, A60 and B60 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD), applicable to Beech Models 60, A60 and B60 airplanes which requires modification of the air conditioning compressor installation by incorporating improved clutch pulley retention and a pulley guard. Failures or loss of the screw securing the air conditioner compressor clutch pulley assembly have occurred. This permits the loose pulley to contact and damage an adjacent fuel line. Inflight fires and loss of engine power have resulted. This action will improve the retention of the pulley on the shaft and prevent a loose pulley from contacting the fuel line.

DATES: Effective May 3, 1983.

Compliance: Within the next 50 hours time-in-service after the effective date of this AD.

ADDRESSES: Beechcraft Class I Service Instructions No. SI–1236 applicable to this Airworthiness Directive may be obtained from Beech Aircraft Corporation, P.O. Box 85, Wichita, Kansas 67201. A copy of this information is also contained in the Rules Docket, Office of the Regional

Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT:

Dale Vassalli, Aerospace Engineer, Systems and Equipment Branch, ACE-130W, Federal Aviation Administration, Central Region, Wichita Aircraft Certification Office, Room 238, Terminal Building 2299, Mid-Continent Airport, Wichita, Kansas 67209, Telephone (316) 269-7008, FTS 752-7008.

SUPPLEMENTARY INFORMATION: Failures or loss of the screw retaining the air conditioner clutch pulley assembly to the compressor shaft have occurred on the affected Beech Model airplanes. The unrestricted pulley assembly can loosen and contact an adjacent fuel line and damage this line releasing fuel at this location. These occurrences have resulted in the loss of engine power and inflight powerplant fires. The manufacturer has developed an air conditioner compressor installation modification to prevent this, which incorporates improved pulley assembly retention hardware consisting of a new screw and more effective lock washer device. An added guard is also mounted to the body of the compressor which prevents a loose clutch assembly from contacting the fuel line. Beech has made parts and instructions for accomplishing these modifications available in Kit No. 60-5026-1S or No. 60-5026-3S for the two different air conditioner compressor pulley configurations on airplanes in service. Instructions for identification of the appropriate kit for each pulley configuration and the manufacturer's recommendation that these modifications be incorporated on in-service airplanes are contained in Beechcraft Class I Service Instructions No. 1236.

Since the FAA has determined that the unsafe condition described herein is likely to exist or develop in other airplanes of the same type design, an AD is being issued requiring incorporation of Beech Kit No. 60-5026-1S or No. 60-5026-3S as applicable on Beech Models 60, A60 and B60 airplanes. Because an emergency condition exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and contrary to the public interest, and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new AD.

Beech: Applies to Models 60, A60 and B60 (S/Ns P-4 through P-577, P-579 through P-587, P-589 and P-592) airplanes, having optional air conditioning systems installed, certificated in any category.

Compliance: Required within the next 50 hours time-in-service after the effective date of this AD unless already accomplished.

To prevent loss of power or inflight fires caused by a loose air conditioner compressor clutch pulley contacting an adjacent fuel line, accomplish the following:

(a) Modify the air conditioner compressor installation by incorporating the appropriate Beech Kit No. 60-5026-1S or No. 60-5026-3S as identified by criteria in Beechcraft Class I Service Instructions No. 1236 or;

(b) Deactivate the air conditioner system in accordance with the following:

(1) Remove the air conditioner compressor belt.

(2) Pull and block the air conditioning circuit breaker so that it cannot be inadvertently reset.

(3) Install a permanent placard in full view of the pilot near the cabin comfort control which reads as follows: "Air Conditioner Deactivated."

(c) Airplanes may be flown in accordance with FAR 21.197 to a location where the AD may be accomplished.

(d) An equivalent means of compliance with this AD may be used, if approved, by the Manager, Wichita Aircraft Certification Office, Room 238, Terminal Building 2299, Mid-Continent Airport, Wichita, Kansas 67209; Telephone (316) 269-7000.

This amendment becomes effective on May 3, 1983.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the Rules Docket under the caption "**ADDRESSES**" at the location identified.

Issued in Kansas City, Missouri, on April 15, 1983.

John E. Shaw,

Acting Director, Central Region.

[FR Doc. 83-11171 Filed 4-27-83; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 82-NM-95-AD; Amdt. 39-4636]

Airworthiness Directives; Lockheed-California Company Model L-1011-385-3 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires a modification to the aircraft wiring on Lockheed Model L-1011-385-3 series airplanes. This AD is needed to minimize the potential for a complete loss of the Active Control System (ACS) caused by severe lightning strikes. A total loss of the ACS results in a reduction in the capacity of the wing structure to withstand high levels of turbulence.

DATES: Effective June 2, 1983.

Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: Lockheed-California Company, P.O. Box 551, Burbank, California 91520, Attention: Commercial Support Contracts, Dept. 63-11, U-33, B-1. This information also may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington or at 4344 Donald Douglas Drive, Long Beach, California.

FOR FURTHER INFORMATION CONTACT:

Harry Wasinger, Aerospace Engineer, Systems and Equipment Branch, ANM-130L, FAA, Northwest Mountain Region, Los Angeles Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548-2831.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Rulemaking (NPRM) was published in the **Federal Register** December 30, 1982 (47 FR 58279), which would require modification of the aircraft wiring in accordance with Lockheed-California Company L-1011 Service Bulletin 093-22-147, dated August 17, 1982. The comment period for the proposal closed February 7, 1983.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due

consideration has been given to all comments received. Two comments were received in response to the NPRM. One commenter proposed a number of minor editorial changes to the proposed AD which have been, for the most part, incorporated. The other commenter proposed a significant extension to the compliance time beyond March 31, 1983, stating that their estimated time to accomplish Lockheed L–1011 Service Bulletin 093–22–147 differed from that of the manufacturer. They also stated that a loss of approximately two days of revenue service would be incurred for each airplane that did not have a regularly scheduled maintenance interval prior to the proposed compliance date. The FAA with the assistance of the manufacturer and another L–1011 operator re-evaluated the accomplishment time estimates with the results remaining the same. In addition, Lockheed is expediting a revision to the affected service bulletin to allow for an incremental installation procedure which will significantly reduce the need to ground the airplane to accomplish the modification.

The FAA concurs that there should be a reasonable extension beyond the initially proposed compliance time of March 31, 1983. Since comments were received near the closing date, the FAA required additional time to evaluate the comments and prepare the final rule. An extension has been added to the originally proposed compliance date.

The estimated costs associated with this AD are as follows: Fifteen domestic airplanes are affected which will require approximately 90 manhours per airplane to accomplish the required actions at an average labor charge of $35 per manhour. The modification kits are provided by the manufacturer at no cost to the operator. Based upon these figures, the total economic impact is estimated to be $47,250. No small entities within the meaning of the Regulatory Flexibility Act will be affected.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the proposed rule with the changes previously noted.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Lockheed-California Company: Applies to Lockheed Model L–1011–385–3 series airplanes, certificated in all categories. Compliance is required as indicated, unless previously accomplished.

To minimize the potential for a total loss of the Active Control System (ACS) inflight, accomplish the following by June 30, 1983:

A. Modify the aircraft wiring in accordance with Part 2, Accomplishment Instructions, in Lockheed-California Company L–1011 Service Bulletin 093–22–147 dated August 17, 1982, or later revisions approved by the Manager, Los Angeles Aircraft Certification Office, FAA, Northwest Mountain Region.

B. Alternative means of compliance providing an equivalent level of safety may be used when approved by the Manager, Los Angeles Aircraft Certification Office, FAA, Northwest Mountain Region.

C. Special Flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Lockheed-California Company, P.O. Box 551, Burbank, California 91520, Attention: Commercial Support Contracts, Dept. 63–11, U–33, B–1. These documents also may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington or the Los Angeles Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California.

This amendment becomes effective June 2, 1983.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—For the reasons discussed earlier in the preamble, the Federal Aviation Administration has determined that this regulation is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034 February 26, 1979). It is further certified under the criteria of the Regulatory Flexibility Act that this rule will not have a significant economic effect on a substantial number of small entities, since it involves few, if any small entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

Issued in Seattle, Washington on April 18, 1983.

Wayne J. Barlow,

Acting Director, Northwest Mountain Region.

[FR Doc. 83–11170 Filed 4–27–83; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 39

[Docket No. 83–ANE–8; Amdt. 39–4642]

Airworthiness Directives; Rolls-Royce, Ltd., DART Mk. 506, 510, 511, 514, 525 Through 532, 535, and Variants Series Turboprop Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comment.

SUMMARY: This amendment amends an existing Airworthiness Directive (AD) applicable to certain Rolls-Royce DART turboprop engines by extending applicability of the AD to also include the Mk.530 which has recently been issued an FAA type certificate. This amendment is needed since the Mk.530 engine may have the same design conditions which the existing AD is designed to correct.

DATES: This amendment is effective May 12, 1983. Amendment 39–4371, AD 82–09–02, was effective April 30, 1982. Comments must be received on or before June 12, 1983. Compliance schedule—as prescribed in text of AD.

ADDRESSES: Send comments to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 83–ANE–8, 12 New England Executive Park, Burlington, Massachusetts 01803.

The applicable Engine Service Bulletin may be obtained from: Service Manager, DART Engine, Rolls-Royce, Ltd., East Kilbride, Glasgow, Scotland.

FOR FURTHER INFORMATION CONTACT: Donald F. Perrault, Engine and Propeller Standards Staff, ANE–110, Aircraft Certification Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7330.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39–4371, AD 82–09–02, which requires removal from service of certain fuel manifold assembly connection hoses on Rolls-Royce DART engine models 506, 510, 511, 514, 525 through 529, 531, 532, and 535 series turboprop engines. After issuing Amendment 39–4371, the FAA has determined that the reasons for issuing AD 82–09–02 are also applicable to the DART Mk.530 model engines. Therefore, the FAA is amending Amendment 39–4371 by extending applicability of the AD to also include the Mk.530 which has recently been issued an FAA type certificate. Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public

procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Request for Comments on the Rule

Although this action, which involves requirements affecting immediate flight safety, is in the form of a final rule and thus was not preceded by notice and public comment, comments are now invited on the rule. When the comment period ends, the FAA will use the comments submitted together with other available information to review the regulation. Public comments are helpful in evaluating the effects of the rule and in determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspect of the rule.

List of Subjects in 14 CFR Part 39

Engines, Propellers, Aircraft, and Aviation safety.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39–4371, AD 82–09–02, as follows:

(1) Revise the applicability statement to read:

Rolls-Royce, Ltd.: Applies to Rolls-Royce DART Mk. 506, 510, 511, 514, 525 through 532, 535, and variants series turboprop engines.

(2) Revise the compliance statement to read:

Compliance is required as indicated, unless already accomplished:

1. Compliance for all affected DART engines except the Mk.530 is based on an effective date of April 30, 1982.

2. Compliance for the DART Mk.530 engines is based on an effective date of May 12, 1983.

The amends AD 82–09–02, Amendment 39–4371, which was made effective April 30, 1982.

This amendment becomes effective May 12, 1983.

(Secs. (313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); (14 CFR 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291 because it affects only 16 engines at an approximate unit cost of $40. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it when filed, may be obtained by contracting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

Issued in Burlington, Massachusetts, on April 18, 1983.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 83–11169 Filed 4–27–83; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket 83-ANE-4; Amdt. 39-4638]

Airworthiness Directives, Rolls-Royce, Ltd., DART Mk. 506, 510, 511, 514, 515, 525 Through 532, and Variants Series Turboprop Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comment.

SUMMARY: This amendment amends an existing airworthiness directive (AD) applicable to certain Rolls-Royce DART turboprop engines by extending applicability of the AD to also include the Mk.530 which has recently been issued an FAA type certificate. The amendment is needed since the Mk.530 engine may have the same design conditions which the existing AD is designed to correct.

DATES: This amendment is effective May 12, 1983. Amendment 39–1506, AD 72–18–02, was effective August 24, 1972. Comments must be received on or before June 12, 1983. Compliance schedule—as prescribed in text of AD.

ADDRESSES: Send comments to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 83–ANE–4, 12 New England Executive Park, Burlington, Massachusetts 01803.

The applicable engine service bulletin may be obtained from: Service Manager, DART Engines, Rolls-Royce, Ltd., East Kilbride, Glasgow, Scotland.

FOR FURTHER INFORMATION CONTACT: Donald F. Perrault, Engine and Propeller Standards Staff, ANE–110, Aircraft Certification Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7330.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39–1506, AD 72–18–02, which requires inspection of fuel burner shroud nuts on Rolls-Royce DART engine models 506, 510, 511, 514, 515, 525 through 529, 531, and 532 and variants not incorporating Rolls-Royce DART Modification 1625 or 1626 fuel burners. After issuing Amendment 39–1506, the FAA has determined that the reasons for issuing AD 72–18–02 are also applicable to the DART Mk.530 model engine which has recently been issued an FAA type certificate. Therefore, the FAA is amending Amendment 39–1506 by extending applicability of the AD to also include the Mk.530. Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Request for Comments on the Rule

Although this action, which involves requirements affecting immediate flight safety, is in the form of a final rule and thus was not preceded by notice and public comment, comments are now invited on the rule. When the comment period ends, the FAA will use the comments submitted together with other available information to review the regulation. Public comments are helpful in evaluating the effects of the rule and in determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule.

Engines, Propellers, Aircraft, and Aviation safety.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39–1506, AD 72–18–02, as follows:

(1) Revise the applicability statement to read:

Rolls-Royce, Ltd.: Applies to Rolls-Royce DART Mk. 506, 510, 511, 514, 515, 525 through 532 and variants series turboprop engines not incorporating Rolls-Royce DART Modification 1625 or 1626 fuel burners.

(2) Revise the compliance statement to read:

Compliance is required as indicated, unless already accomplished:

1. Compliance for all affected DART engines except the Mk.530 is based on an effective date of August 24, 1972.

2. Compliance for the DART Mk.530 engines is based on an effective date of May 12, 1983.

This amends AD 72-18-02, Amendment 39-1506, which was made effective August 24, 1972.

This amendment becomes effective May 12, 1983.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); (14 CFR 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291 because it affects only 16 engines at an approximate unit cost of $1305. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it when filed, may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

Issued in Burlington, Massachusetts, on April 18, 1983.

Robert E. Whittington,

Director, New England Region.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 83-ANE-5; Amdt. 39-4639]

Airworthiness Directives; Rolls-Royce, Ltd., DART Mk. 506, 510, 511, 514, 525 Through 532, 542-4, and 542-10 Series Turboprop Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comment.

SUMMARY: This amendment amends an existing airworthiness directive (AD) applicable to certain Rolls-Royce DART turboprop engines by extending applicability of the AD to also include the Mk.530 which has recently been issued an FAA type certificate. The amendment is needed since the Mk.530 engine may have the same design conditions which the existing AD is intended to correct.

DATES: This amendment is effective May 12, 1983. Amendment 39-3047, AD 77-20-04, was effective October 28, 1977. Comments must be received on or before June 12, 1983. Compliance schedule—as prescribed in text of AD.

ADDRESSES: Send comments to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 83-ANE-5, 12 New England Executive Park, Burlington, Massachusetts 01803.

The applicable engine service bulletin may be obtained from: Service Manager, DART Engines, Rolls-Royce, Ltd., East Kilbride, Glasgow, Scotland.

FOR FURTHER INFORMATION CONTACT: Donald F. Perrault, Engine and Propeller Standards Staff, ANE-110, Aircraft Certification Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273-7330.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39-3047, AD 77-20-04, which requires inspection, functional test, and subsequent overhaul of propeller low torque switches on Rolls-Royce DART engine models 506, 510, 511, 514, 525, 526, 527, 528, 529, 531, 532, 542-4, and 542-10. After issuing Amendment 39-3047, the FAA has determined that the reasons for issuing AD 77-20-04 are also applicable to the DART Mk.530 model engines which has recently been issued an FAA type certificate. Therefore, the FAA is amending Amendment 39-3047 by extending applicability of the AD to also include the Mk.530. Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Request for Comments on the Rule

Although this action, which involves requirements affecting immediate flight safety, is in the form of a final rule and thus was not preceded by notice and public comment, comments are now invited on the rule. When the comment period ends, the FAA will use the comments submitted together with other available information to review the regulation. Public comments are helpful in evaluating the effects of the rule and in determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39-3047, AD 77-20-04, as follows:

(1) Revise the applicability statement to read:

Rolls-Royce, Ltd.: Applies to Rolls-Royce DART Mk.506, 510, 511, 514, 525 through 532, 542-4, and 542-10 series turboprop engines installed on, but not necessarily limited to, Viscount 744, 745D, and 810; Armstrong Whitworth AW-650 Series 101; Nihon YS-11; Convair 600 and 640; Handley Page Herald; Fokker F-27; Grumman Gulfstream I; and Hawker Siddeley 748 Series airplanes.

(2) Revise the compliance statement to read:

Compliance is required as indicated, unless already accomplished:

1. Compliance for all affected DART engines except the Mk.530 is based on an effective date of October 28, 1977.

2. Compliance for the DART Mk.530 engines is based on an effective date of May 12, 1983.

This amends AD 77-20-04, Amendment 39-3047, which was made effective October 28, 1977.

This amendment becomes effective May 12, 1983.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); (14 CFR 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291 because it affects only 16 engines at an approximate unit cost of $260. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it when filed, may be obtained by contacting the person identified under the caption *"FOR FURTHER INFORMATION CONTACT."*

Issued in Burlington, Massachusetts, on April 18, 1983.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 83-ANE-6; Amdt. 39-4640]

Airworthiness Directives; Rolls-Royce, Ltd., DART Mk. 506, 510, 511, 514, 526, 528, 529, 530, 532, and Variants Series Turboprop Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, request for comment.

SUMMARY: This amendment amends an existing airworthiness directive (AD) applicable to certain Rolls-Royce DART turboprop engines by extending applicability of the AD to also include the Mk.530 which has recently been issued an FAA type certificate. The amendment is needed since the Mk.530 engine may have the same design conditions which the existing AD is designed to correct .

DATES: This amendment is effective May 12, 1983. Amendment 39-3049, AD 77-20-05, was effective November 3, 1977. Comments must be received on or before June 12, 1983. Compliance schedule—as prescribed in text of AD.

ADDRESSES: Send comments to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 83-ANE-6, 12 New England Executive Park, Burlington, Massachusetts 01803.

The applicable engine service bulletin may be obtained from: Service Manager, DART Engines, Rolls-Royce, Ltd., East Kilbride, Glasgow, Scotland.

FOR FURTHER INFORMATION CONTACT: Donald F. Perrault, Engine and Propeller Standards Staff, ANE-110, Aircraft Certification Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273-7330.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39-3049, AD 77-20-05, which requires inspection of fuel burner feed and manifold pipes on Rolls-Royce DART engines series 506, 510, 511, 514, 526, 528, 529, 532, and variants. After issuing Amendment 39-3049, the FAA has determined that the reasons for issuing AD 77-20-05 are also applicable to the DART Mk.530 model engine which has recently been issued an FAA type certificate. Therefore, the FAA is amending Amendment 39-3049 by extending applicability of the AD to also include the Mk.530. Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Request for Comments on the Rule

Although this action, which involves requirements affecting immediate flight safety, is in the form of a final rule and thus was not preceded by notice and public comment, comments are now invited on the rule. When the comment period ends, the FAA will use the comments submitted together with other available information to review the regulation. Public comments are helpful in evaluating the effects of the rule and in determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39-3049, AD 77-20-05, as follows:

(1) Revise the applicability statement to read:

Rolls-Royce, Ltd.: Applies to Rolls-Royce DART engines series Mk.506, 510,511, 514, 526, 528, 529, 530, 532, and variants, installed on, but not necessarily limited to, BAC Viscount 744 and 745D; Fokker F-27 Mk.100, 200, 300, 400, 600, 700; Fairchild F-27, -27A, -27B, -27F, -27G, -27J, -27M; Fairchild-Hiller FH-227, -227B, -227C, -227D, -227E, Armstrong Whitworth Argosy 650, Series 101; Grumman G-159; and Hawker Siddeley HS-748 Series 2A aircraft.

(2) Revise the compliance statement to read:

Compliance is required as indicated, unless already accomplished:

1. Compliance for all affected DART engines except the Mk.530 is based on an effective date of November 3, 1977

2. Compliance for the DART Mk.530 engines is based on an effective date of May 12, 1983.

This amends AD 77-20-05, Amendment 39-3049, which was made effective November 3, 1977.

This amendment becomes effective May 12, 1983.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); (14 CFR 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291 because it affects only 16 engines at an approximate unit cost of $480. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it when filed, may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

Issued in Burlington, Massachusetts, on April 18, 1983.

Robert E. Whittington,

Director, New England Region.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 83-ANE-7; Amdt. 39-4641]

Airworthiness Directives; Rolls-Royce, Ltd., DART Mk. 506, 510, 511, 514, 525, Through 530, 532, 542, and Variants Series Turboprop Engines

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule; request for comment.

SUMMARY: This amendment amends an existing Airworthiness Directive (AD) applicable to certain Rolls-Royce DART turboprop engines by extending applicability of the AD to also include the Mk.530 which has recently been issued an FAA type certificate. The amendment is needed since the Mk.530 engine may have the same design conditions which the existing AD is designed to correct.

DATES: This amendment is effective; May 12, 1983. Amendment 39-3345, AD 78-24-01, was effective December 11, 1978. Comments must be received on or before June 12, 1983. Compliance schedule—as prescribed in text of AD.

ADDRESSES: Send comments to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 83-ANE-7, 12 New England Executive Park, Burlington, Massachusetts 01803.

The applicable engine service bulletin may be obtained from: Service Manager, DART Engines, Rolls-Royce, Ltd., East Kilbride, Glasgow, Scotland.

FOR FURTHER INFORMATION CONTACT: Donald F. Perrault, Engine and Propeller Standards Staff, ANE-110, Aircraft

Certification Division, Federal Aviation Administration, New England Region,12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7330.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39–3345, AD 78–24–01, which requires an initial and repetitive inspections of the engine control box mounting bolts on Rolls-Royce DART engines series 506, 510, 511, 514, 525, 526, 527, 528, 529, 530, 532, 542, and variants. After issuing Amendment 39–3345, the FAA has determined that the reasons for issuing AD 77–20–05 are also applicable to the DART Mk.530 model engine which has recently been issued an FAA type certificate. Therefore, the FAA amending Amendment 39–3345 by extending applicabilty of the AD to also include the Mk.530. Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Request for Comments on the Rule

Although this action, which involves requirements affecting immediate flight safety, is in the form of a final rule and thus was not preceded by notice and public comment, comments are not invited on the rule. When the comment period ends, the FAA will use the comments submitted together with other available information to review the regulation. Public comments are helpful in evaluating the effects of the rule and in determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Admnistrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39–3345, AD 78–24–01, as follows:

(1) Revise the applicability statement to read:

Rolls-Royce Ltd.: Applies to Rolls-Royce DART engines and all variants of those engines listed below which have Rolls-Royce DART Modification 1525 incorporated (covered in Rolls-Royce DART Service Bulletin Da 72–351), as installed on, but not necessarily limited to the airplanes listed below.

DART Engine	Airplane
506, 510, 525, 530	Vickers Viscount Model 744, 745D, 810.
511, 514, 528, 532	Fairchild F–27 and FH–227 series and Fokker F–27 series.
526	Armstrong Whitworth AW–650 series 1.
527	Handley Page Herald Type 300.
529	Grumman G–159 and Fairchild F–27 and FH–227 series.
532	Hawker Siddeley 748 series 2.
542	General Dynamics Model 240 with STC No. SA1054WE installed (or Model 600), General Dynamics Model 340/440 with STC No. SA1096WE installed (or Model 640), and Nihon YS–11 and YS–11A series.

(2) Revise the compliance statement to read:

Compliance is required as indicated, unless already accomplished:

1. Compliance for all affected DART engines except the Mk.530 is based on an effective date of December 11, 1978.

2. Compliance for the DART Mk.530 engines is based on an effective date of May 12, 1983.

This amends AD 78–24–01, Amendment 39–3345, which was made effective December 11, 1978.

This amendment becomes effective May 12, 1983.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); (14 CFR 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291 because it affects only 16 engines at an approximate unit cost of $75. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it when filed, may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

Issued in Burlington, Massachusetts, on April 18, 1983.

BILLING CODE 4910–13–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 6a

[T.D. 7890]

Income Tax; Temporary Income Tax Regulations Under Title XI of the Omnibus Reconciliation Act of 1980; Foreign Investment in United States Real Property

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides amendments to the temporary regulations under sections 897 and 6039C of the Internal Revenue Code of 1954, relating to foreign investment in U.S. real property, published in the **Federal Register** on September 21, 1982. (47 FR 41532). These temporary regulations are necessary to provide the public with immediate guidance with respect to the requirements of sections 897 and 6039C.

EFFECTIVE DATE: The amendments are effective as of April 28, 1983.

FOR FURTHER INFORMATION CONTACT: Robert E. Culbertson, Jr. of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224, Attention: CC:LR:T (202–566–3289), not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

This document contains amendments to the Temporary Income Tax Regulations under Title XI of the Omnibus Reconciliation Act of 1980 (26 CFR Part 6a) under sections 897 and 6039C of the Internal Revenue Code of 1954, as added by sections 1122 and 1123 of the Foreign Investment in Real Property Tax Act of 1980 (94 Stat. 2682), and as amended by section 831 of the Economic Recovery Tax Act of 1981 (Pub. L. No. 97–34; 95 Stat. 172). The amendments are issued under the authority contained in sections 897 (94 Stat. 2683; 26 U.S.C. 897), 6039C (94 Stat. 2687; 26 U.S.C. 6039C), and 7805 (68A Stat. 917; 26 U.S.C. 7805), all of the Internal Revenue Code of 1954.

Discussion

Temporary and proposed regulations pertaining to the substantive and reporting provisions of sections 897 and 6039C were published in the **Federal Register** on September 21, 1982. A public hearing on those regulations was held

on February 3, 1983. The Internal Revenue Service intends to issue final regulations under section 897 shortly after the date of publication of this document. Thereafter, the Service expects to revise the regulations under section 6039C and to provide detailed guidance respecting security agreements in lieu of reporting.

The final regulations may contain modifications of some of the rules contained in the temporary and proposed regulations, in response to the written and oral comments presented to the Service. Rather than requiring immediate compliance with provisions which may be changed, the Service is postponing all deadlines related to elections and information reporting imposed by the temporary regulations until after the issuance of final regulations. Therefore, these amendments to the temporary regulations postpone the date by which certain foreign corporations must decide whether to elect treatment as a domestic corporation under sections 897 (i) and (k). The final regulations will establish a period for making these elections that allows foreign corporations sufficient time to consider the advisability of making such elections. Similarly, these amendments to the temporary regulations postpone all reporting-related deadlines under section 6039C, including the deadline for applying for a security agreement in lieu of reporting. The final regulations will establish dates that allow taxpayers sufficient time to determine whether to file information returns or apply for security agreements, and to assemble the necessary information. The postponement of these deadlines by the amendments to the temporary regulations does not affect the obligation to file an income tax return if one is required and to pay any liability arising under the operation of section 897 and temporary regulations §§ 6a.987-1 through 6a.987-4.

Need for Temporary Regulations

The temporary regulations require that section 897 (i) and (k) elections and security agreement applications be made by March 21, 1983. While the Service has announced its intention to extend the time for taking these actions in IR-83-50, the deadlines must be formally postponed by amending the temporary regulations. Furthermore, under the temporary regulations the information returns required by section 6039C are due on June 21, 1983. Because of the possibility that amendments to the regulations will affect the reporting obligations, it is necessary that the filing date be postponed until the amendments are issued. Because of the immediate need for these changes, the Internal Revenue Service has found it to be impractical to issue these regulations with notice and public comment procedures as outlined under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Drafting Information

The principal author of these amendments to the temporary regulations is Robert E. Culbertson, Jr., of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

Regulatory Flexibility Act and Executive Order 12291

No notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule. The Commissioner of Internal Revenue has determined that these temporary regulations are not subject to Executive Order 12291.

List of Subjects in 26 CFR Part 6a

Bonds, Income taxes, Mortgages, Veterans, Foreign investments in United States real property interests.

Adoption of Amendments to the Temporary Regulations

Accordingly, 26 CFR Part 6a is amended as follows:

§ 6a.897-3 [Amended]

Paragraph 1. Section 6a.897-3 is amended by removing paragraph (f)(2), by redesignating paragraph (f)(3) as paragraph (f)(2), and by revising the first sentence of paragraph (f)(1) to read as follows: "A foreign corporation in existence on or after June 19, 1980, may make an election under section 879(i) only if the election is made by the date established by final regulations."

§ 6a.6039C-1 [Amended]

Par. 2. Section 6a.6039C-1 is amended by revising the first sentence of paragraph (c) to read as follows: "The information returns required by section 6039C must be filed no later than May 15 of the calender year following the calendar year covered by the return, except that information returns for calendar years 1980, 1981, and 1982 must be filed no later than the date established by final regulations."

§ 6a.6039C-2 [Amended]

Par. 3. Section 6a.6039C-2 is amended by revising the third sentence of paragraph (d) to read as follows: "The notification by the corporation required by this paragraph (d) must be made by January 31 of the year following the year for which the return must be filed, except that the notification must be made by the date established by final regulations for calendar years 1980, 1981, and 1982."

§ 6a.6039C-3 [Amended]

Par. 4. Section 6a.6039C-3 is amended by revising the third sentence of paragraph (h) to read as follows: "The statement must be furnished no later than January 31 of the calendar year following the calendar year for which a statement is required, except that it must be furnished by the date established by final regulations for calendar years 1980, 1981, and 1982."

Par. 5. Section 6a.6039C-5 is amended by revising the last sentence of paragraph (e)(1) and the first sentence of paragraph (h) to read as set forth below.

§ 6a.6039C-5 Furnishing of security instead of filing information return.

* * * * *

(e) *Appraised fair market value of U.S. real property interests.*—(1) *In general.* * * * With respect to security in lieu of filing 1980, 1981, and 1982 returns, the appraised fair market value of U.S. real property interests shall be determined no later than the date established by final regulations.

* * * * *

(h) *Application for security agreement.* Applications to the Director for a security agreement or for a renewal thereof must be made within 30 days of the close of the calendar year for which a security agreement is desired, or by the date established by final regulations for calendar years 1980, 1981, and 1982. * * *

This Treasury decision is issued under the authority contained in sections 897, 6039C, and 7805 of the Internal Revenue Code of 1954 (94 Stat. 2683, 26 U.S.C. 897; 94 Stat. 2687, 26 U.S.C. 6039C; 88A Stat. 917, 26 U.S.C. 7805).

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

Approved: April 25, 1983.

John E. Chapoton,

Assistant Secretary of the Treasury.

BILLING CODE 4830-01-M

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Part 1601

Procedural Regulations

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule.

SUMMARY: On January 25, 1983, the Equal Employment Opportunity Commission approved a reorganization of its Field Offices in order to more efficiently administer and enforce statutes prohibiting employment discrimination. Among other changes pursuant to this reorganization, the Commission has decided to permit the discretionary redelegation by District Directors to Area Directors of signatory authority for Letters of Determination and Conciliation Agreements. This document amends the Commission's regulations to reflect these changes.

DATE: This final rule is effective April 28, 1983.

FOR FURTHER INFORMATION CONTACT: Office of the Legal Counsel, Legal Services, Gary L. Janus ((202) 634–6690).

SUPPLEMENTARY INFORMATION:

List of Subjects in 29 CFR Part 1601

Administrative practice and procedure, Equal employment opportunity, Intergovernmental relations.

For the Commission.

Clarence Thomas,

Chairman, Equal Employment Opportunity Commission.

PART 1601—PROCEDURAL REGULATIONS

1. Section 1601.19(g) is revised to read as follows:

§ 1601.19 Dismissal: Procedure and authority.

* * * * * *

(g) The Commission hereby delegates authority to District Directors; the Program Director, Office of Program Operations or upon delegation, the Director of Systemic Programs, Office of Program Operations or the Directors, Regional Programs, Office of Program Operations, as appropriate, to dismiss charges, as limited by § 1601.21(d). The Commission hereby delegates authority to Area Directors to dismiss charges pursuant to paragraphs (a), (c) and (d) of this section, as limited by § 1601.21(d). District Directors may redelegate authority to Area Directors to dismiss charges pursuant to paragraph (b) of this section, as limited by § 1601.21(d). The authority of the Commission to reconsider decisions and determinations as set forth in § 1601.21 (b) and (d) shall be applicable to this section.

2. Section 1601.21(d) is revised to read as follows:

§ 1601.21 Reasonable cause determination: Procedure and authority.

* * * * * *

(d) The Commission hereby delegates to District Directors or upon delegation, Area Directors; the Program Director, Office of Program Operations or upon delegation, the Director of Systemic Programs, Office of Program Operations or the Directors, Regional Programs, Office of Program Operations the authority, in those cases in which previously issued Commission Decisions serve as precedent for the determination and in those cases in which the Commission's Guidelines provide a statement of policy which serves as authority for the determination, upon completion of an investigation, to dismiss a charge, make a determination, issue a Letter of Determination and serve a copy thereof upon the parties. Such determination is final when the Letter of Determination is issued. However, the Program Director, Office of Program Operations or upon delegation, the Director of Systemic Programs, Office of Program Operations or the Directors, Regional Programs, Office of Program Operations; each District Director; and each Area Director, for determinations issued by his or her office, may on his or her own initiative reconsider determinations. *Except that such directors may not reconsider determinations of reasonable cause previously issued against a government, governmental entity or political subdivision after a failure of conciliation as set forth in § 1601.25.*

* * * * * *

3. Section 1601.24(b) is revised to read as follows:

§ 1601.24 Conciliation: Procedure and authority.

* * * * * *

(b) District Directors; the Program Director, Office of Program Operations; or the Directors, Regional Programs, Office of Program Operations; or their designees, are hereby delegated authority to enter into informal conciliation efforts. District Directors or upon delegation, Area Directors; the Program Director, Office of Program Operations; the Director of Systemic Programs, Office of Program Operations; or the Directors, Regional Programs, Office of Program Operations are hereby delegated the authority to negotiate and sign conciliation agreements. When a suit brought by the Commission is in litigation, the General Counsel is hereby delegated the authority to negotiate and sign conciliation agreements where, pursuant to section 706(f)(1) of Title VII, a court has stayed processings in the case pending further efforts of the Commission to obtain voluntary compliance.

* * * * * *

4. Section 1601.28(a)(3) is revised to read as follows:

§ 1601.28 Notice of right to sue: Procedure and authority.

(a) * * *

(3) Issuance of a notice of right to sue shall terminate further proceeding of any charge not a Commissioner charge unless the District Director; Area Director; Program Director, Office of Program Operations or upon delegation, the Director of Systemic Programs, Office of Program Operations or the Directors, Regional Programs, Office of Program Operations; or the General Counsel, determines at that time or at a later time that it would effectuate the purpose of Title VII to further process the charge. Issuance of a notice of right to sue shall not terminate the processing of a Commissioner charge.

* * * * * *

(Authority: Sec. 713(a), Title 7 of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e–12(a)).

BILLING CODE 6570–06–M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 378

[DOD Directive 5148.11]

Assistant to the Secretary of Defense (Intelligence Oversight)

AGENCY: Office of the Secretary, DOD.

ACTION: Final rule.

SUMMARY: The Secretary of Defense has abolished the position of Inspector General for Intelligence and has assigned the responsibilities and functions to the Assistant to the Secretary of Defense (Intelligence Oversight) (ATSD(IO)) and has delegated specific authorities. This rule (DOD Directive 5148.11) serves as the instrument that authorizes the ATSD(IO) to carry out his charter.

EFFECTIVE DATE: This rule was approved and signed by the Deputy Secretary of

Defense on December 1, 1982, and is effective as of that date.

FOR FURTHER INFORMATION CONTACT: Mr. Howard Becker, Directorate for Organizational and Management Planning, Office of the Deputy Assistant Secretary of Defense (Administration), Washington, D.C. 20301, telephone 202–695–4281.

SUPPLEMENTARY INFORMATION: This information is submitted in compliance with the requirements of section 552(a)(1) of Title 5, United States Code, and 1 CFR 305.76.

List of Subjects in 32 CFR Part 378

Organization and functions (government agencies), Intelligence activities.

Accordingly, 32 CFR is amended by adding a new Part 378, reading as follows:

PART 379—ASSISTANT TO THE SECRETARY OF DEFENSE (INTELLIGENCE OVERSIGHT)

Sec.

378.1 Purpose.
378.2 Applicability.
378.3 Definitions.
378.4 Responsibilities and functions.
378.5 Authorities.
378.6 Administration.

Authority: 10 U.S.C. 133(d).

§ 378.1 Purpose.

This Part replaces DOD Directive 5100.82, which established the position of Inspector General for Intelligence in the Office of the Secretary of Defense under the authority of Title 10, U.S.C. 133(d). That official hereafter shall carry the title of Assistant to the Secretary of Defense (Intelligence Oversight) (ATSD(IO)), with responsibilities, functions, and authorities as provided herein.

§ 378.2 Applicability.

This Part applies to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to as "DOD Components").

§ 378.3 Definitions.

Terms applicable to this Part are defined in E.O. 12333, DOD Directive 5240.1, and DOD 5240.1–R.

§ 378.4 Responsibilities and functions.

Under the direction, authority, and control of the Secretary of Defense, the ATSD(IO) shall be responsible for the independent oversight of all intelligence activities in the Department of Defense. In this capacity, the ATSD(IO) shall ensure that all intelligence activities are conducted in compliance with federal law and other laws as appropriate; Executive Orders and Presidential directives; and DOD policy directives. The term "propriety" hereinafter relates to the standards for intelligence activities promulgated in the documents cited above. In the execution of this responsibility, the ATSD(IO) shall perform the following functions:

(a) Review, in consultation with the General Counsel, DOD, all allegations that raise questions of legality or propriety of intelligence activities in the Department of Defense.

(b) Conduct investigations of intelligence activities that raise questions of legality or propriety.

(c) Conduct vigorous and independent inspections of DOD Components that engage in intelligence activities for the purpose of verifying that personnel are familiar and in compliance with E.O. 12333 and its DOD implementing documents.

(d) Monitor investigations and inspections by DOD Components related to intelligence activities, evaluate the findings, and, if appropriate, submit recommendations for corrective action to the Deputy Secretary of Defense.

(e) In consultation with the General Counsel, DOD, report at least quarterly to the Deputy Secretary of Defense and the President's Intelligence Oversight Board, established under E.O. 12334:

(1) Any significant oversight activities undertaken; and

(2) Any DOD intelligence activities of questionable legality or propriety, the investigative action thereon, an evaluation of completed investigations, and the action taken on completed investigations.

(f) Participate as a member of the Defense Counterintelligence Board (DOD Directive 5240.2).

(g) Coordinate, as appropriate, with the DOD Inspector General (DOD IG) on matters relating to the DOD IG's area of responsibility in accordance with Pub. L. 95–452.

(h) Perform such other functions as the Secretary of Defense may assign.

§ 378.5 Authorities.

In the exercise and performance of assigned responsibilities and functions described in § 378.4 of this Part, the ATSD(IO), or designee, is hereby delegated authority to:

(a) Deal directly with the head of the element inspected or investigated, conduct interviews, take depositions, and examine records, as required.

(b) Have complete and unrestricted access to any and all available intelligence-related information, regardless of classification or compartmentation, from all DOD Components and personnel, as required. This includes specifically the authority (1) to require an Inspector General or other cognizant investigative official of a DOD Component to report allegations of improprieties or illegalities of intelligence activities by or within a DOD Component and (2) to obtain information on the status, proceedings, and findings or to obtain copies of reports of investigations or inspections of such allegations.

(c) Obtain such temporary assistance as may be required from other DOD Components, including personnel, facilities, and other services, for the conduct of inspections or investigations. Requests for personnel augmentation shall be made in accordance with established procedures.

(d) Communicate directly with the Secretaries of the Military Departments, the Chairman of the Joint Chiefs of Staff, the Directors of the Defense Agencies, the Inspectors General, or other investigative officials having cognizance over DOD Components, and the Commanders of the Unified and Specified Commands, after notifying the Joint Chiefs of Staff.

(e) Communicate directly with the President's Intelligence Oversight Board, the Director of Central Intelligence, and all other government agencies participating in interdepartmental programs for which the ATSD(IO) has been assigned primary cognizance.

§ 378.6 Administration.

The ATSD(IO) shall report directly to the Deputy Secretary of Defense.

Dated: April 21, 1983.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 83–11276 Filed 4–27–83; 8:45 am]

BILLING CODE 3810–01–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD3 82–018]

Drawbridge Operation Regulations; Mantua Creek, New Jersey

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of New Jersey Department of Transportation, the Coast Guard is changing the regulations governing the State Highway 44 Bridge

at Paulsboro, New Jersey by requiring that advance notice of opening be given between 11 p.m. and 7 a.m. This change is being made because of minimal requests to open the draw during this period. This action will relieve the bridge owner of the burden of having a person constantly available to open the draw and will still provide for the reasonable needs of navigation. This final rule is being issued basically as proposed in the Notice of Proposed Rulemaking (NPRM). However, the NPRM contained only the exception to the requirement for the bridge to open on signal. This final rule will be amended to indicate the periods the bridge will open on signal and will also include the exception to the general rule. The substance of the NPRM is unchanged in this final rule.

EFFECTIVE DATE: This rule becomes effective on May 31, 1983.

FOR FURTHER INFORMATION CONTACT: William C. Heming, Bridge Administrator, Third Coast Guard District (212) 668–7994.

SUPPLEMENTARY INFORMATION: On October 7, 1982, the Coast Guard published a proposed rule (47 FR 44347) concerning this amendment. The Commander, Third Coast Guard District also published this proposal as a Public Notice dated November 12, 1982. In each notice, interested persons were given until November 22 and December 13, 1982, respectively to submit comments.

Drafting Information

The drafters of this rule are Ernest J. Feemster, project manager, and LCDR Frank E. Couper, project attorney.

Discussion of Comments

This proposal is being issued as proposed in the Notice of Proposed Rulemaking. No comments were submitted in response to either the Notice of Proposed Rulemaking or Public Notice. A draft evaluation has not been prepared because of minimal economic impact. This is because the waterway is used almost exclusively by pleasure boaters.

Economic Assessment and Certification

These final regulations have been reviewed under the provisions of Executive Order 12291 and have been determined not to be major rules. They are considered to be nonsignificant in accordance with guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of 22 May 1980). As explained above, an economic evaluation has not been conducted since its impact is expected to be minimal. In accordance with § 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605(b)), it is also certified that these rules will not have a significant economic impact on a substantial number of small entities because no known, water-dependent entities are located upstream of the bridge.

List of Subjects in 33 CFR Part 117

Bridges.

Regulations

In consideration of the foregoing, Part 117 of Title 33, Code of Federal Regulations is amended by adding a new § 117.225(f)(4) to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.225 Navigable waters in the State of New Jersey; bridges where constant attendance of draw tenders is not required.

* * * * *

(f) * * *

(4) Mantua Creek, mile 1.7; New Jersey Department of Transportation Route 44 bridge at Paulsboro. The draw shall open on signal, except from 11 p.m. to 7 a.m. the draw need only open if at least four hours notice is given.

* * * * *

(33 U.S.C. 499; 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5); 33 CFR 1.05 1(g)(3))

Dated: April 7, 1983.

W. E. Caldwell,

Vice Admiral, U.S. Coast Guard, Commander, Third Coast Guard District.

[FR Doc. 83-11381 Filed 4-27-83; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 165

[Third Coast Guard District Reg. CCGD3-83-09]

Safety Zone Regulations: New York, New York Harbor, East River, Buttermilk Channel

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a Safety Zone in the New York Harbor, East River, Buttermilk Channel. The zone is needed to protect vessels from the navigational hazards associated with viewing the sound and light display for the Brooklyn Bridge Celebration. Entry into this zone is prohibited unless authorized by the Captain of the Port.

EFFECTIVE DATES: This regulation is effective on 8:15 PM EDST, 24 May 1983. It terminates on 10:00 PM EDST, 24 May 1983.

FOR FURTHER INFORMATION CONTACT: Captain J. L. McDonald, Captain of the Port, New York (212)–668–7917.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was not published for this regulation and it is being made effective in less than 30 days after **Federal Register** Publication.

Drafting Information

The drafters of this regulation are Lieutenant Junior Grade G. M. Jacobson, Project Officer for the Captain of the Port, and Lieutenant Commander J. J. D'Alessandro, Project Attorney.

Discussion of Regulation.

The circumstances requiring this regulation result from the need to properly manage the large private and commercial traffic congestion expected for the Brooklyn Bridge Centennial Celebration.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

PART 165—[AMENDED]

In consideration of the foregoing, part 165 of Title 33, Code of Federal Regulations, is amended by adding § 165.03–350 to read as follows:

§ 156.03–350 Safety Zone: New York, New York Harbor, East River, Buttermilk Channel

(a) *Location.* The following area is a Safety Zone: The waters of the East River and Buttermilk Channel bounded by the following: That part of the Brooklyn shoreline beginning at the southwest corner of Pier One, Brooklyn, south to the northwest corner of Pier Twelve including Atlantic Basin; thence west to the mid section of the "Y" shaped pier on Governor's Island; thence north along the Governor's Island shoreline to the Battery Tunnel Ventilator; thence north across Dimond Reef to the south west corner of Pier Six Heliport, Manhattan; thence north to Pier Fourteen Manhattan; thence east across the East River to the starting point.

(b) *Regulations.* (1) In accordance with the General regulations in § 165.23 of this part, entry into this zone is prohibited unless authorized by the Captain of the Port.

(33 U.S.C. 1225 and 1231; 49 CFR 1.46; 33 CFR 165.3)

Dated: April 11, 1983.

J. L. McDonald,

Captain, U.S. Coast Guard, Captain of the Port, New York.

[FR Doc. 83-11365 Filed 4-27-83; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 165

[Third Coast Guard District Reg. CCGD3-83-04]

Safety Zone Regulations; New York, New York Harbor, East River

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a Safety Zone in the East River, New York Harbor. The zone is needed to protect vessels from hazards to navigation associated with a fireworks display. Entry into this zone is prohibited unless authorized by the Captain of the Port, New York.

EFFECTIVE DATES: This regulation is effective at 8:15 PM EDST 24 May 1983. It terminates at 10:00 PM EDST 24 May 1983.

FOR FURTHER INFORMATION CONTACT: Captain J. L. McDonald, Captain of the Port, New York (212)-668-7917.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was not published for this regulation and it is being made effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to public interest since extensive public involvement was utilized in the drafting of this regulation.

Drafting Information

The drafters of this regulation are Lieutenant Junior Grade G. M. Jacobson, Project Officer for the Captain of the Port, and Lieutenant Commander J. J. D'Alessandro, Project Attorney, Third Coast Guard District Legal Office.

Discussion of Regulation

The circumstances requiring this regulation result from the 24 May 1983 fireworks display celebrating the Brooklyn Bridge Centennial.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

PART 165—[AMENDED]

In consideration of the foregoing, Part 165 of Title 33, Code of Federal Regulations, is amended by adding § 165.03-348 to read as follows:

§ 165.03-348 Safety Zone: New York, New York Harbor, East River.

(a) *Location.* The following area is a Safety Zone: The waters of the East River bounded to the north by the Manhattan Bridge and to the south by a line connecting the north east corner of Pier Fourteen, Manhattan to the southeast corner of Pier One Brooklyn.

(b) *Regulations:* (1) In accordance with the General regulations in § 165.23 of this part, entry into this zone is prohibited unless authorized by the Captain of the Port.

BILLING CODE 4910-14-M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

John D. Rockefeller, Jr. Memorial Parkway, Wyoming; Snowmobile Regulations

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: On March 1, 1982, the National Park Service, Department of the Interior, published in the **Federal Register** (47 FR 8603) a proposed rule to provide for public snowmobile access to routes of the John D. Rockefeller, Jr. Memorial Parkway in winter that are accessible to motorized vehicles in the summer. This proposal was made available for public review and comment for a period of thirty (30) days following publication in the **Federal Register**, and ending on March 31, 1982. Comments received consideration during preparation of the final rule. As a result of this rulemaking process, a final regulation is published to provide for the preservation and enjoyment of the parkway in a manner consistent with both the snowmobile policy of the National Park Service and the off-road vehicle policy of the Department of the Interior. It is also consistent with the snowmobile regulation for the jointly administered Grand Teton National Park and provides for snowmobile access to the South Entrance of Yellowstone National Park.

EFFECTIVE DATE: May 31, 1983.

FOR FURTHER INFORMATION CONTACT: Jack E. Stark, Superintendent, Grand Teton National Park, P.O. Box 170, Moose, Wyoming 83012, Telephone: (307) 733-2880.

SUPPLEMENTARY INFORMATION:

Background

Executive Order 11644 (Use of Off-Road Vehicles on Public Lands), issued February 9, 1972, directed Federal land managing agencies to develop unified regulations and to designate areas of use for off-road vehicles. Such areas must meet criteria which minimize resource damage, harassment of wildlife, disruption of wildlife habitat, and, in the case of national parks, not adversely affect scenic, natural or esthetic values.

In response to Executive Order 11644, the Secretary of the Interior issued a Departmental memorandum on May 5, 1972, to assure full compliance with the Order and to provide policies and procedures for its implementation. The National Park Service, as required by the above directive, promulgated 36 CFR 2.34 on April 1, 1974, which closed all National Park System areas to snowmobile use except those specifically designated as open by **Federal Register** notice or special regulation. Consequently, a notice appeared in the **Federal Register** on December 23, 1976 (41 FR 55946), designating the parkway open for snowmobile use. This designated area included most of the terrain that had been open to snowmobiles since 1971. John D. Rockfeller, Jr. Memorial Parkway is administered jointly with Grand Teton National Park. The superintendent is responsible for the management of activities such as snowmobiling in both areas.

Because of the amount of response to the **Federal Register** notices for Grand Teton National Park and John D. Rockefeller, Jr. Memorial Parkway, the normal 30-day public review period was extended to March 6, 1977. The park received nearly 600 letters from interested individuals and groups. A majority (61 percent) recommended either no snowmobiling be allowed in the park or that snowmobiles be confined to designated routes. Very little specific comment was received concerning the John D. Rockefeller, Jr. Memorial Parkway. Separate hearings for the parkway have not been held.

To better comply with the requirements of Executive Order 11644 and 36 CFR 2.34, the National Park Service developed a Servicewide policy revision which was published in the **Federal Register** on August 13, 1979, (44 FR 47412). This policy provides for the

use of snowmobiles in units of the National Park System as a mode of transportation to provide the opportunity for visitors to see, sense and enjoy the special qualities of the park in the winter. The snowmobile use must be consistent with the park's natural, cultural, scenic, and esthetic values; reflect safety considerations and park management objectives; and avoid disturbing wildlife or damaging other park resources.

The policy further provides that, where permitted, snowmobile use shall be confined to properly designated routes and water surfaces which are used by motorized vehicles or motorboats during other seasons. Routes and water surfaces to be designated for snowmobile use shall be promulgated as special regulations in the Code of Federal Regulations.

Although the previously designated area permitted snowmobiling on nearly all of the parkway north and west of the Snake River floodplain, snowmobiles have been confined to the unplowed roads since the adoption of the Servicewide snowmobile policy. The final regulation published here will officially designate and limit snowmobile use to these roads. This regulation is necessary to comply with Servicewide policy.

Rulemaking for John D. Rockefeller, Jr. Memorial Parkway has been delayed to coincide with final snowmobile regulations for Grand Teton National Park. The snowmobile noise restrictions are the same as the noise levels proposed in the amendment to the Grand Teton National Park special regulations contained in 36 CFR 7.22(i).

This rule differentiates between tracked oversnow vehicles and propeller driven snowplanes. Industry standards for tracked snowmobiles now provide that all vehicles manufactured after February 1974 will not exceed a noise level of 78 decibels. Snowplanes have been used periodically in the area now designated as the parkway since 1935 and the Service has no desire to eliminate this use.

It is not possible to operate snowplanes efficiently or safely at much less than a noise level of 86 decibels due to a combination of propeller and manifold noise. Therefore, different noise levels are proposed for the two different kinds of oversnow vehicles.

A proposed rule was printed in the **Federal Register** (47 FR 8603) on March 1, 1982. Simultaneously a proposed rule was printed for Grand Teton National Park. During the public review period few comments were received specifically mentioning the John D. Rockefeller, Jr. Memorial Parkway, but comment was generally favorable. Consequently, the final rule is identical to the proposed rule except for two changes essentially of an administrative nature. First, a new paragraph (a)(1) expands the definition of snowmobiles to include snowplanes for the purposes of John D. Rockefeller, Jr. Memorial Parkway. Second, references to administrative and emergency uses of snowmobiles are being deleted. Both are needed to conform this regulation to the revision of General Regulations for areas administered by the National Park Service, 36 CFR Parts 1–7, now being prepared for publication.

Drafting Information

The following persons participated in the writing of these regulations: Alan L. Atchison, Chief Park Ranger, Grand Teton National Park; Walter D. Dabney, District Park Ranger, Grand Teton National Park.

Paperwork Reduction Act

This regulation does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 305 *et seq.*

Compliance With Other Laws

The Department of the Interior has determined that this document is not a "major rule" under Executive Order 12291, and certifies that this document would not have a "significant economic effect on a substantial number of small entities," under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This finding is based on the limited number of area snowmobile dealers and support services.

Pursuant to the National Environmental Policy Act (42 U.S.C. 4332) the Service has prepared an Environmental Assessment and a Finding of No Significant Impact on this regulation which are available at the address noted above.

(Sec. 3 of the Act of August 25, 1916 (39 Stat. 535 as amended: 16 U.S.C. 3))

List of Subjects in 36 CFR Part 7

National parks.

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

In consideration of the foregoing, § 7.21 is added to 36 CFR Part 71 to read as follows:

§ 7.21 John D. Rockefeller, Jr. Memorial Parkway.

(a) *Snowmobiles.* (1) For the purposes of this section, except as otherwise distinguished in paragraph (a)(5) of this section, the term "snowmobile" includes "snowplanes", which are self-propelled vehicles intended for over-the-snow travel, having a curb weight of not more than 1000 pounds (450 kilograms), mounted on skis in contact with the snow, and driven by a pusher-propeller.

(2) Designated routes to be open to snowmobile use:

(i) The Ashton-Flagg Ranch Road between the western boundary of the Parkway and its junction with U.S. Highway 89–287.

(ii) The unplowed portion of U.S. Highway 89–287 between Flagg Ranch and the south boundary of Yellowstone National Park.

(3) On roads designated for snowmobile use, only that portion of the road or parking area intended for other motor vehicle use may be used by snowmobiles. Such roadway is available for snowmobile use only when the designated road or parking area is closed for all other motor vehicle use by the public.

(4) The superintendent shall determine the opening and closing dates for use of designated snowmobile routes each year, taking into consideration the location of wintering wildlife, road plowing schedules and other factors related to public safety or resource protection. The superintendent shall notify the public of such dates through normal news media channels.

(5) The operation of a snowmobile which makes excessive noise is prohibited. Excessive noise for tracked snowmobiles is defined as noise that exceeds 78 decibels and for snowplanes noise that exceeds 86 decibels. Snowplanes operated and registered in the parkway for the 1970–1971 season are excepted. Measurements are made on the "A" weighted scale in intensity of a sound level meter measured at a distance of not less than 50 feet when the snowmobile or snowplane is being operated at or near full throttle.

Dated: March 25, 1983.

G. Ray Arnett,

Assistant Secretary for Fish and Wildlife and Parks.

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: On March 1, 1982, the National Park Service published in the

Federal Register (47 FR 8600) a proposed rule to provide for public snowmobile access to most areas of the park where such use has occurred. The proposal was made available for public review and comment for a period of thirty (30) days following publication in the Federal Register and ending on March 31, 1982. As a result of the rulemaking process, a final regulation is published. Several minor technical changes have been incorporated as a result of administrative review. The regulation is intended to afford greater resource protection while also providing the opportunities for the public to enjoy winter park values. The rule is consistent with snowmobile regulations proposed for the jointly administered John D. Rockefeller, Jr. Memorial Parkway.

EFFECTIVE DATE: May 31, 1983.

FOR FURTHER INFORMATION CONTACT: Jack E. Stark, Superintendent, Grand Teton National Park, P.O. Box 170, Moose, Wyoming 83012, Telephone: (307) 733–2880.

SUPPLEMENTARY INFORMATION:

Background

Executive Order 11644 (Use of Off-Road Vehicles on Public Lands), issued February 9, 1972, directed Federal land managing agencies to develop unified regulations and to designate areas of use for off-road vehicles. Such areas must meet criteria which minimize resource damage, harassment of wildlife, disruption of wildlife habitat, and, in the case of national parks, not adversely affect scenic, natural or aesthetic values.

In response to Executive Order 11644, the Secretary of Interior issued a Departmental memorandum on May 5, 1972, to assure full compliance with the Order and to provide policies and procedures for its implementation. The National Park Service, as required by the above directive, promulgated 36 CFR 2.34 on April 1, 1974, which closed all National Park System areas to snowmobile use except those specifically designated as open by Federal Register notice or special regulation.

In order to comply with the requirements of Executive Order 11644 and 36 CFR 2.34, Grand Teton National Park published a notice in late 1976 to designate areas and routes open to snowmobile use in the park. The notice appeared in the Federal Register on December 23, 1976 (41 FR 55945), and invited public review and comment. The routes and areas designated were most of those that had been open to snowmobiling since 1971. An environmental assessment (approved January 6, 1977) was also prepared concerning management of winter activities, including snowmobiling.

Because of the amount of response to the Federal Register announcement and the environmental assessment, the normal 30-day public review period was extended to March 6, 1977. The park received nearly 600 letters from interested individuals and groups. A majority (61 percent) recommended either no snowmobiling be allowed in the park or that snowmobiles be confined to designated routes.

In August of 1977, the National Park Service appointed a task force to review snowmobile use in all areas of the National Park System and to, "develop a policy * * * that will clearly state the National Park Service's position on the legitimacy of mechanized over-snow travel in the parks and enable the Superintendents to address the question uniformly."

The task force was formed in response to requests from pro-snowmobiling and anti-snowmobiling interests, both of whom were seeking a uniform policy that would more closely guide the "discretion" of individual superintendents.

The task force met with various user groups that included the International Snowmobile Industry Association, the International Snowmobile Council, the Sierra Club, and the National Parks and Conservation Association. A policy was proposed that, "* * * snowmobiles may be permitted * * * as a mode of transportation * * * (on) designated routes (to) be established only on existing public roadways and waterways open to motorized vehicles and vessels."

Pursuant to this policy, Grand Teton National Park drafted proposed regulations designating approximately 72 miles of unplowed roadways and 26,700 acres of waterways (Jackson and Jenny Lakes) as open to snowmobiling. On January 19, 1978, the National Park Service postponed implementation of this snowmobiling policy and delayed rulemaking for Grand Teton National Park to allow further public participation in the development of the National Park Service snowmobile policy.

The National Park Service published a proposed snowmobile policy in the Federal Register on December 7, 1978 (43 FR 57352). This policy was similar to that proposed in 1977 in that, "Where permitted, snowmobiles shall be confined to properly designated routes and water surfaces which are used by motorized vehicles or motorboats during other seasons." Three exceptions to this policy were proposed—Acadia National Park, Delaware Water Gap National Recreation Area, and the "Potholes Area" of Grand Teton National Park.

Following public review, the National Park Service published a notice in the Federal Register of August 13, 1979 (44 FR 47412) adopting a Servicewide snowmobile policy that was very similar to the one proposed on December 7, 1978, but all exceptions to the policy were deleted. Following announcement that the Servicewide snowmobile policy would be implemented in Grand Teton National Park, considerable opposition by Wyoming residents emerged. On October 11, 1979, the Director of the National Park Service postponed implementation of the policy in the park pending public hearings.

Another environmental assessment (approved February 14, 1980) was prepared and released to the public for review in April 1980. At that time, the National Park Service's preferred alternative was to permit snowmobiling only under restrictions of the national policy. The public hearings (held in May) indicated substantial support, by local Wyoming residents, for off-road snowmobiling in Grant Teton National Park. Of 174 letters received in the park by June 30, 1980, the deadline for public input, 60 percent favored snowmobiling only under restrictions of the national snowmobile policy, 20 percent favored off-road snowmobiling. All but two of the letters favoring off-road snowmobiling were from Wyoming.

In December 1980 the Regional Director, Rocky Mountain Region, appointed a special committee of five individuals from outside the National Park Service to review the issue and all public comment, and to make recommendations for an oversnow vehicle policy for the park. The committee convened in the park in February 1981 and voted three to two in support of application of the roads-only policy for Grand Teton National Park.

Off-road snowmobiling has been permitted in some areas of Grand Teton National Park for over ten years. In these areas, vegetation damage and disturbance to wildlife have not been apparent due to snow depths adequate to protect vegetation and seasonal movement of most wildlife to other areas of the park. Additionally, conflicts between snowmobilers and cross-country skiers have not been a serious problem.

In the late 1960's park management became concerned about increased noise due to increased snowmobile use. Snowmobile noise regulations were promulgated in August 1971 (36 FR

16065) and adopted as part of Grand Teton's special regulations, 36 CFR 7.22(i). The regulation limits the noise level of snowmobiles of 86 decibels, measured on the "A" weighting scale at a distance of 50 feet, but exempts snowplanes that were registered with the park for the 1970–71 season.

This amendment differentiates between tracked oversnow vehicles and propeller driven snowplanes. Industry standards for tracked snowmobiles now provide that all vehicles manufactured after February 1974 will not exceed a noise level of 78 decibels. Snowplanes have operated, primarily on Jackson Lake, since 1935 and the Service has no desire to eliminate this historic use which would occur if a general prohibition was made to exclude oversnow vehicles that exceed 78 decibels. The combination of propeller and manifold noise cannot be reduced significantly below 86 decibels without seriously reducing the safety and maneuverability of snowplanes. Therefore, different noise levels are proposed for the two different kinds of oversnow vehicles.

Proposed snowmobile rules for Grand Teton National Park were printed in the **Federal Register** (47 FR 8600) on March 1, 1982. The public comment period was through March 31, 1982. During the comment period, 210 letters and petitions totalling 383 signatures were received. Response to the proposed rule was mixed. Seventy-one percent of the letters favored the proposed regulations and 28 percent favored snowmobiling only under the national snowmobile policy restrictions. Petition signatures, on the other hand, were 12 percent in favor of the proposed regulations and 83 percent in favor of a roads-only policy. Lacking evidence of resource impacts from off-road snowmobiling in the Potholes-Baseline Flats area of Grand Teton, and recognizing such activity has been an established use for over ten years, the Service has decided to continue this off-road snowmobiling as an exception to its snowmobile policy. Thus, the final rule is identical to the proposed rule except for two changes essentially of an administrative nature. First, a new paragraph (1) expands the definition of snowmobiles to include snowplanes for the purposes of Grand Teton National Park. Second, provisions for emergency and administrative use of snowmobiles are being deleted. Both are needed to conform this regulation to the revision of the Service's general regulations, 36 CFR Parts 1–6, now being prepared for publication.

Drafting Information

The following persons particpated in the writing of these regulations: Alan L. Atchison, Chief Park Ranger, Grand Teton National Park; Walter D. Dabney, District Park Ranger, Grand Teton National Park.

Paperwork Reduction Act

This regulation does not contain collection requirements which required approval by the Office of Management and Budget under 44 U.S.C. 305 *et seq.*

Compliance with Other Laws

The Department of the Interior has determined that this document is not a "major rule" under Executive Order 12291, and certifies that this document would have no "significant economic effect on a substantial number of small entities," under the Regulatory Flexibility Act 5 U.S.C. 601 *et seq.*). This finding is based on the limited number of area snowmobile dealers and support services.

Pursuant to the National Environmental Policy Act (42 U.S.C. 4332) the Service has prepared an Environmental Assessment and a Finding of No Significant Impact on this regulation which are available at the address noted above.

(Sec. 3 of the Act of August 25, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3)

National parks.

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

In consideration of the foregoing, Part 7 of Title 36 of the Code of Federal Regulations is amended by revising § 7.22(i) to read as follows:

§ 7.22 Grand Teton National Park.

* * * * *

(i) *Snowmobiles.* (1) For the purposes of this section, except as otherwise distinguished in paragraph (i)(6) of this section, the term "snowmobile" includes "snowplanes," which are self-propelled vehicles intended for over-the-snow travel, having a curb weight of not more than 1000 pounds (450 kilograms), mounted on skis in contact with the snow, and driven by a pusher-propeller.

(2) Designated routes to be open to snowmobile use: The Spread Creek Road; the unplowed portion of the Pacific Creek Road; the unplowed portion of the Ditch Creek Road; the Lost Creek Ranch Road, those portions of the unplowed roads connecting with the Shadow (Antelope) Mountain Forest Service Road at Cunningham Cabin, Lost Creek Road and Antelope Flats Road; the unplowed portions of the Moose-Wilson Road; and the unplowed portion of the Teton Park Road north of Cottonwood Creek to a line of markers south of Timbered Island, around the east side of Timbered Island north to a line of markers at South Jenny Lake Junction, and then north to Signal Mountain Lodge, except during the period previous to opening of Potholes-Baseline Flats area when the Teton Park Road will be open through to Signal Mountain, the Jenny Lake Loop Road, the Spalding Bay Road, the String Lake Picnic Area Road, the Signal Mountain Summit Road, the Signal Mountain Launch Ramp Road, and the Lizard Creek Campground Road.

(3) Designated area open to snowmobile use: The Potholes-Baseline Flats area east of the Teton Park Road north of Cottonwood Creek, north of the Bar BC access road, east of Timbered Island, west of the River Road or as marked at the top of the Snake River Bench, northwest of Timbered Island as marked to the Teton Park Road and bounded on the north by the RKO Road.

(4) Designated water surface: The frozen surface of Jackson Lake.

(5) (i) On roads designated for snowmobile use, only that portion of the road or parking area intended for other motor vehicle use may be used by snowmobiles. Such roadway is available for snowmobile use only when the designated road or parking area is closed to all other motor vehicle use by the public. Where needed, these routes will be marked by signs, snow poles or other appropriate means.

(ii) The superintendent shall determine the opening and closing dates for use of designated snowmobile routes and areas each year, taking into consideration snow depth adequate to protect vegetation, the location of wintering wildlife, road plowing schedules, and other factors related to public safety or resource protection. The superintendent shall notify the public of such dates through normal news media channels.

(6) The operation of a snowmobile which makes excessive noise is prohibited. Excessive noise for tracked snowmobiles is defined as noise that exceeds 78 decibels and for snowplanes noise that exceeds 86 decibels. Snowplanes operated and registered in the park for the 1970–1971 season are excepted. Measurements are made on the "A" weighted scale in intensity of a sound level meter measured at a distance of not less than 50 feet when

the snowmobile or snowplane is being operated at or near full throttle.

BILLING CODE 4310-79-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-1-FRL 2336-2; Docket No. MA 1102]

Approval and Promulgation of Implementation Plans; Massachusetts Sulfur-in-Fuel Revision for Esleeck Manufacturing Company, Inc.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is today approving a State Implementation Plan revision submitted by the State of Massachusetts. This revision allows the Esleeck Manufacturing Company, Inc., Montague to increase the sulfur-in-fuel content of its fuel oil while restricting the maximum allowable fuel firing rate to ensure compliance with National Ambient Air Quality Standards. EPA is also correcting printing errors found in the codification of a related rulemaking. The intended effect of this action is to allow the Company to burn less expensive fuel oil.

EFFECTIVE DATE: This action will be effective on June 28, 1983, unless notice is received within 30 days that adverse or critical comments will be submitted.

ADDRESSES: Comments may be mailed to Harley F. Laing, Director, Air Management Division, Room 2312, JFK Federal Building, Boston, MA 02203. Copies of the submittal and EPA's evaluation are available for public inspection during normal business hours at the Environmental Protection Agency, Room 2312, JFK Federal Bldg., Boston, MA 02203; Public Information Reference Unit, Environmental Protection Agency, 401 M St., S.W., Washington, D.C.; Office of the Federal Register, 1100 L St., N.W., Room 8401, Washington, D.C. and the Massachusetts Department of Environmental Quality Engineering, 1 Winter Street, Boston, MA 02110.

FOR FURTHER INFORMATION CONTACT: Stephen S. Perkins, (617) 223-5885.

SUPPLEMENTARY INFORMATION: On November 8, 1982, and February 8, 1983 (amendments), the Commissioner of the Massachusetts Department of Environmental Quality Engineering (the Massachusetts Department) submitted a revision to the Massachusetts State Implementation Plan (SIP). The revision allows the Esleeck Manufacturing Company, Inc., (the Company) to increase its sulfur-in-fuel content from 0.55 to 1.21 pounds per million Btu heat release potential (approximately equivalent to 1.0% and 2.2% sulfur content by weight, respectively) while restricting its maximum fuel firing rate to 137.5 gallons per hour.

Background

On January 19, 1981 (46 FR 4917), EPA published its disapproval of a Massachusetts SIP revision allowing the burning of fuel oil having a sulfur content of 1.21 pounds per million Btu heat release potential at the Company. The decision was based on mathematical air quality dispersion modeling with EPA's VALLEY model which predicted that violations of National Ambient Air Quality Standards (NAAQS) for sulfur dioxide (SO_2) would occur if the Company burned 2.2% sulfur fuel oil at its maximum design firing rate. The NAAQS are maximum allowable ambient air pollutant concentrations which are set to protect the public health and welfare.

In the final rulemaking, EPA stated that it would consider approval of a SIP revision allowing the Company to burn 2.2% sulfur oil if the Massachusetts Department presented new information demonstrating that air quality standards would be maintained by reducing the Company's maximum allowable emission rate. During the public comment period the Company indicated it would investigate a reduced firing rate and new dispersion modeling. No other comments were received on the proposed disapproval of the SIP revision or EPA's intention to consider new information. Since the Company did not submit any new information during the public comment period EPA published a final disapproval of the SIP revision.

New Information

EPA has now received new technical support demonstrating that the NAAQS for SO_2 will not be violated by burning 2.2% sulfur fuel oil if the Company's maximum fuel firing rate is limited to 137.5 gallons per hour. This new technical support, included in the SIP revision submitted on November 8, 1982, consists of a new air quality modeling analysis based on the reduced fuel firing rate. The 137.5 gallons per hour firing rate is enforceable by both the Massachusetts Department and EPA.

Since the Company was included in the public hearing for the revision described above, the Massachusetts Department decided to hold a public hearing only if requested during the 30 day public comment period. Since no requests for a hearing were pending at the end of the comment period, the additional public hearing was not held.

Increases in sulfur dioxide emissions, resulting from relaxations of sulfur-in-fuel limits, must also show compliance with Prevention of Significant Deterioration (PSD) increments if the increase occurs in or impacts on an area in which a baseline date has been established.[1] The Company is not located in such an area. Furthermore, the technical support submitted demonstrated that the Company has no significant impact on any area in which a baseline date has been set.

EPA has reviewed the new technical support submitted by the Massachusetts Department and has determined that the modeling procedures are correct and approvable. For more details on EPA's review, see the technical support document available at the locations listed in the **ADDRESSES** section of this notice.

Corrections To Code of Federal Regulations

In the course of preparing this SIP revision, printing errors were discovered in the codification of an earlier rulemaking. Therefore, this action recodifies the earlier revision published at 46 FR 4918 and codifies the current revision for the Esleeck Manufacturing Company, Inc.

Action

EPA is approving the SIP revision to allow the Esleeck Manufacturing Company, Inc., to burn oil with a sulfur content of 1.21 pounds per million Btu heat release potential provided the fuel firing rate does not exceed 137.5 gallons per hour.

Since EPA views this SIP revision as noncontroversial, we are taking this action without prior proposal. This action will be effective June 28, 1983. However, if EPA is notified within 30 days that someone wishes to submit adverse or critical comments, we will withdraw this action and publish a new rulemaking proposing the action and establishing a comment period.

---

[1] The PSD increments are allowable increases in ambient pollutant concentrations which were established to limit the degradation of clean air areas. A baseline date is the date after August 7, 1977, on which the first PSD permit application in that area was filed with EPA by a source subject to the PSD regulations as amended on August 7, 1980 (40 FR 52676).

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under Section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 28, 1983. This action may not be challenged later in proceedings to enforce its requirements.

(See 307(b)(2))

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

I certify that this rule will not have a significant economic impact on a substantial number of small entities.

(Secs. 110(a) and 301(a) of the Clean Air Act, as amended (42 U.S.C. 7410(a) and 7601(a))

Note.—Incorporation by reference of the State Implementation Plan for the State of Massachusetts was approved by the Director of the Federal Register on July 1, 1982.

Dated: April 13, 1983.

Lee L. Verstandig,

Acting Administrator.

PART 52—[AMENDED]

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart W—Massachusetts

1. Section 52.1120, paragraph (c) is amended by adding subparagraph (54) as follows:

§ 52.1120 Identification of plan.

* * * * *

(c) * * *

(54) On February 8, 1983, the Massachusetts Department of Environmental Quality Engineering submitted a source specific emission limit in the letter of approval to the Esleeck Manufacturing Company, Inc., Montague, allowing the Company to burn fuel oil having a maximum sulfur content of 1.21 pounds per million Btu heat release potential provided the fuel firing rate does not exceed 137.5 gallons per hour.

§ 52.1126 [Amended]

2. Section 52.1126 is amended by redesignating the existing text of paragraph (b) as (b)(1). The paragraph designated (b) in the January 19, 1981 (46 FR 4918) Federal Register should be redesignated as (b)(2).

3. Section 52.1126(b)(2) is amended by removing the listing "Esleeck Manufacturing Co., Montague."

[FR Doc. 83-10816 Filed 4-27-83; 8:45 am]

BILLING CODE 6560-50-M

FEDERAL MARITIME COMMISSION

46 CFR Part 530

[Docket No. 80-70]

Interpretations and Statements of Policy; Status of Bulk Commodities With Respect to the Tariff Filing Requirements of Section 18(b)(1) of the Shipping Act, 1916

AGENCY: Federal Maritime Commission.

ACTION: Final Interpretative Rule—Establishment of Effective Date.

SUMMARY: The Commission is rescinding its stay and establishing the effective date in this proceeding, thereby affectuating an interpretative rule which states that the transportation of bulk commodities loaded and carried in containers, trailers, rail cars, or similar intermodal equipment (with the exception of LASH or Seabee barges) moving in the foreign commerce of the United States is subject to the tariff filing requirements of the Shipping Act, 1916.

EFFECTIVE DATE: The Interpretative Ruling published at 47 FR 10851, March 12, 1982 is effective June 27, 1983.

FOR FURTHER INFORMATION CONTACT: Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, D.C. 20573 (202) 523-5725.

SUPPLEMENTARY INFORMATION: On March 12, 1982, the Commission published an interpretative rule declaring that bulk type cargo loaded in containers, trailers, rail cars, or similar types of intermodal equipment (but not LASH or Seabee barges), is subject to the traffic filing requirements of section 18(b) of the Shipping Act, 1916 (46 U.S.C. 817) because such cargo is subject to being loaded and carried with mark or count. (47 FR 10851, March 12, 1982).

Concurrently with the issuance of the rule, the Commission stayed its effectiveness and published a notice (46 FR 10862-10863, March 12, 1982) seeking comment regarding a possible exemption from the tariff filing requirements of section 18(b)(1) for rates on certain classes of bulk commodities. Docket No. 82-13; *Exemption of Bulk Cargo Moving in the Foreign Commerce of the United States from the Tariff Filing Requirements of Section 18(b) of the Shipping Act.*

A review of the comments received in response to the above notice fails to demonstrate either a commercial justification or valid regulatory reason for granting the described tariff filing exemption. As a result, the Commission has, by separate notice issued this date in Docket No. 82-13, abandoned the exemption proposal and discontinued that proceeding. The Commission has consequently determined to rescind the stay of effectiveness of the interpretative rule issued in this docket.

Accordingly, the Commission's previously issued stay in Docket No. 80-70 is hereby rescinded.

By the Commission.

Francis C. Hurney,

Secretary.

Proposed Rules

Federal Register
Vol. 48, No. 83
Thursday, April 28, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 93

[Docket No. 21955; Notice No. 83-3]

Metropolitan Washington Airport

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to change the annual passenger ceiling at Washington National Airport from 16 million to 14.8 million or to a figure between 14.8 million and 16 million depending upon the highest annual passenger level forecasted within the next 2 years. It also proposes to allow commuter carriers utilizing smaller, quieter aircraft to conduct a limited number of "stol-runway" operations at National Airport in addition to the operations permitted by the current limitations. This amendment is proposed to guide the future operation and development of Washington National and Dulles International Airports and to improve the quality of the environment in the areas around National.

DATE: Comments must be received on or before July 27, 1983.

ADDRESSES: Mail comments on the proposal in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Docket No. 21955, 800 Independence Avenue, S.W., Washington, D.C. 20591,

or deliver them to: Room 915G., 800 Independence Avenue, S.W., Washington, D.C.

Comments may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Edward P. Faberman, Deputy Chief Counsel, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591, Telephone: (202) 426-3773..

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Comments relating to the environmental, energy, or economic impacts that might result from adoption of the proposals contained in this notice are invited. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerned with the rulemaking will be filed in the docket. Commenters wishing to have the FAA acknowledge receipt of their comments submitted in response to this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 21955." The postcard will be dated, time-stamped, and returned to the commenter.

Availability of NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular 11-2, Notice of Proposed Rulemaking Distribution System, which describes the application procedures.

Background

On November 23, 1981, the FAA issued final rules (46 FR 58036; November 27, 1981) to implement the DOT/FAA policy to guide the future operation and development of Washington National and Dulles International Airports and to improve the quality of the environment in the Washington metropolitan area.

When the Metropolitan Washington Airports Policy was issued in November 1981, the agency stated that it would review a number of subjects related to the policy including additional slots for commuter operators and the daytime noise levels. That review has been completed. This proposal sets forth the agency's recommendations as a result of this review.

Passenger Capacity

Under the policy, National Airport was limited to 16 million total passengers per year (including enplaned and deplaned passengers from air carrier, commuter and general aviation operations). In accordance with 14 CFR 93.124 the hourly number of reservations allocated to air carriers except air taxis at Washington National is adjusted so that it will be one less than the number of hourly reservations that is forecast to produce an annual passenger level of 16 million. Section 93.123 limits hourly IFR operations at Washington National as follows:

Operations conducted by air carriers with aircraft having a certificated maximum seating capacity of 56 or more	37
Operations conducted by air carriers with aircraft having a certificated maximum seating capacity of less than 56	11
Other	12

In explaining the basis for the 16 million ceiling, the following was stated in the preamble to the final policy:

> [T]he capacity limitation is necessary because the number of passengers utilizing the airport may continue to increase, even without the introduction of new aircraft types. Passenger activity has decreased slightly at National compared to 1979 levels, but growth trends can be expected to resume. Under existing limits, passenger activity has increased from approximately 11 million in 1972 to 15 million in 1979. This rule will limit that increase to be consistent with an appropriate level of use of airport facilities

and will shift future growth in passenger activity to Dulles and BWI Airports. Thus, the cap on growth is a key to achieving the goals of this policy.

Although the policy reduced the number of hourly air carrier slots from 40 to 37, it was recognized that although that might slow the rate of growth at National somewhat, it would not by itself bring about a significant shift in future passenger activity to Dulles or BWI. Thus, the ceiling on passenger activity at National was necessary.

In setting the 16 million passenger level the agency stated: "It is a level which should not necessitate further reduction in air carrier scheduling slots for at least another 2 years, thereby giving the carriers time to plan for future changes in the way they serve the Washington metropolitan area." The agency further stated:

> [I]t will also increase the likelihood that the bulk of the growth in the area's passenger activity in this decade will occur at Dulles and BWI. Without a firm cap on National, it does not appear that the air carrier activity will shift in sufficient volume to these airports.

At the time the rule was issued, the approximate annual passenger level at National was 14.5 million. This 14.5 million figure represents aircraft activity prior to the limitations imposed as a result of the air traffic controller strike. Therefore, it was anticipated that 2 years after issuance of the final rule, the annual number of passengers utilizing National would increase by approximately 1.5 million and that by the middle of the decade, future growth in the Washington area would be at Dulles and BWI.

As a result of the air traffic controller strike which limited arrivals at airports including National and a shift in the economy which resulted in a reduction in the number of passengers, the actual and forecasted number of passengers to utilize the Washington area airports has changed. The essential purposes of the Washington Metropolitan Airports Policy—to prescribe a role for Washington National and Dulles International Airports and to promote better utilization of Dulles Airport—have not changed. As stated in the final rule, a significant shift in passenger activity to Dulles and BWI Airports must be made during the middle of this decade. This shift will not occur within the time frame anticipated by the Policy if the capacity limitation remains at 16 million.

Accomplishment of the agency's objectives, as enunciated in the Airport Policy, would be difficult if future passenger growth in the Washington area continues at National Airport to the exclusion of the other area airports. Therefore, appropriate action is being considered at this time which would allow the agency to achieve these policy objectives on schedule. As a result, the agency is proposing to lower the annual passenger capacity to 14.8 million (see Alternative A).

Based upon the current number of operations and load factors at Washington National, the proposed annual passenger limitation would not be reached immediately. Carriers will have time to adjust their operations at Dulles and BWI. Under the Policy, in January of each year the FAA prepares a forecast of total enplaned and deplaned passenger activity over a 12-month period beginning the following April (14 CFR 93.124). If the forecasted activity for the 12-month period is in excess of the annual passenger limitation, the number of hourly slots allocated to air carriers (37) is reduced and added to the air taxi allocation. The number of reduced slots are those necessary to bring the forecasted passenger total below the annual limitation.

The FAA currently estimates that the annual number of passengers at National would not exceed 14.8 million until the Summer of 1985. If that occurred, air carrier slots would be reduced beginning in April 1985 under the proposal. The agency recognizes that factors could change which affect passenger totals and, thus, the current forecast might have to be slightly adjusted. Thus, it is possible that the 14.8 million figure could be forecasted in January 1984 and, therefore, require slot reduction in April 1984. The agency has consistently stated that all actions taken in connection with the policy should give the industry time to adjust their operations accordingly. This time for adjustment is necessary for the carriers to make required equipment and personnel decisions as part of their long-term planning. The agency does not want to disrupt this planning process which affects not only the carriers and their employees but also manufacturers, service companies and their employees. Therefore, although the agency believes that the annual passenger capacity should be reduced, it should not be reduced to a figure which would disrupt current air carrier decisions.

As a result, the agency will consider as an alternative (see Alternative B) to the 14.8 million proposal a proposal which would reduce the current 16 million passenger level to the level to be forecasted in January 1985 (for the period April 1985 to April 1986) as long as that forecast does not exceed 16 million. This ensures that if the current forecast is not correct, the shift of future air carrier growth in the Washington area to Dulles and BWI during the middle of the decade will not be unnecessarily accelerated but will continue as planned.

This 2-year period would also ensure that the shift to Dulles occurs at a time at which a number of projects to improve passenger access to Dulles (some of which are described later in this notice) are completed.

As mentioned previously, in January of eacy year a forecast is prepared for the anticipated April-to-April passenger traffic at National.

In January 1985, the forecast will be issued for April 1985 to April 1986. If that forecast, for example, shows that the passenger level will be 15.1 million then the annual passenger level set forth in 14 CFR 93.124 will be amended from 16 million to 15.1 million. In no event will the level go above 16 million. Based upon current estimates, the forecast for that period should be between approximately 14.8 to 15.2 million. Therefore, this proposal would result in a lower annual passenger capacity but would reduce the chance that air carrier slots would be reduced before 1985.

Comments are specifically invited on this issue.

Commuter Operations

The Metropolitan Washington Airports Policy stated:

> DOT recognizes that the provision of additional authority for commuter operators may have merit. Additional operations by commuter aircraft meeting the nighttime noise levels would not be inconsistent with many of the objectives of this policy. Promulgation of such a provision will be reviewed during the next year in connection with the review of the noise levels themselves.

Commuter air carriers (air carriers with aircraft having a certificated maximum seating capacity of less than 56) are currently authorized 11 operations per hour at National Airport. Within these limitations, a number of commuter carriers utilizing the smaller, quieter aircraft have conducted "stol-runway" operations for the past 2 years. (A "stol" operation is one in which only a portion of the runway is used. The arrival or the departure would be accomplished on that one runway without crossing another runway.) At National, runways 21 and 33 can be and are being used for non-interfering stol operations.

The FAA has reviewed the current level of scheduled operations at Washington National Airport and believes that the ATC system and the

airport runways and movement areas can handle some additional operations utilizing sections of runways without adversely affecting the safety and efficiency of the operations currently authorized by § 93.123 if the operations are conducted in accordance with certain limitations and conditions. These operations would be above the 11 per hour allowed by § 93.123. The additional operations would not affect the airport capacity during IFR weather conditions and periods of adverse weather because these aircraft can conduct runway intersection departures. Thus, in IFR conditions, commuter carriers would be able to conduct those operations in a manner which would not adversely affect ATC capacity. It must be noted that in written comments submitted on the Airport Policy the Dulles Policy Task Force, as well as the Attorney General and the Department of Aviation for the Commonwealth of Virginia, supported additional operations for commuters.

Therefore, the FAA is proposing to allow commuters to conduct additional operations at National subject to the following conditions and limitations:

1. A maximum of two operations per hour may be scheduled.
2. Only aircraft capable of operating on sections of runways with systems and performance capabilities approved by the Administrator may be operated.
3. The noise levels of the aircraft involved in these operations may not exceed the applicable noise levels set forth in § 159.40(a) of the Federal Aviation Regulations.
4. The operations shall be accomplished on sections of secondary runways (Runways 3, 15, 21, and 33).
5. Where Tower Enroute Control (TEC) exists, operations shall be conducted therein.
6. Operations must be authorized by, and conducted in compliance with, the carrier's operations specifications and FAA procedural standards and related requirements involving simultaneous use of intersecting runways for arriving and departing aircraft.

The aircraft capable of operating under this provision would operate at noise levels lower than the nighttime noise restrictions contained in the Policy (14 CFR 159.40). Therefore, this proposal would encourage greater use of quieter aircraft at National Airport.

Aircraft that could operate under this provision have demonstrated during the certification process the ability to operate will within the distances available on the runways to be utilized. In order to conduct operations under this authority, a carrier would have to first have the operation approved by the Administrator. The carrier would also have to obtain approval from ATC and the operation would have to be consistent with the carrier's approved operations specifications.

These additional operations would be allocated by the Commuter Scheduling Committee in accordance with the procedures utilized for Washington National allocations. The agency expects that the extra hourly operations will be allocated in a manner which will increase new entrant commuter access at the airport. This, in turn, should result in increased service from smaller communities currently with little or no service to National.

On April 26, 1983, the agency issued a 9-month exemption (Docket No. 22473) which allows commuter air carriers to conduct operations in accordance with this provision. The agency will evaluate operations conducted under this authority to determine whether they can be accommodated without adverse effect on the ATC system or the other users of the airspace and to ensure that they are consistent with the Airport Policy. The results of this evaluation and the comments received in response to this notice will be considered before a final rule is issued.

Daytime Noise Limitations

Another issue subject to further study was that of the noise limits proposed for daytime operations in 1981 and 1986, and whether they can reasonably be imposed as proposed or in a modified form. During the past year, a Departmental Task Force has reviewed this issue and concluded that daytime noise limits should not be imposed at Washington National Airport at this time. Airplane noise at Washington National peaked in 1981 and has steadily gone down. In addition, noise levels will continue to decline for two reasons.

First, the current FAA noise compliance regulation, specified in FAR Part 91, Subpart E, Operating Noise Limits, is bringing all of the large turbojet aircraft used at the airport into compliance with FAR Part 36 Stage 2 noise limits as a matter of course. Currently, all 727 aircraft must comply with these noise limits, and, as the so-called Small Community Service exemptions for two-engine aircraft expire at the beginning of 1985 and 1988, all 737's, DC–9's, and BAC–1–11's will also be made to comply. Thus, there is already a "cap" on the noise levels of aircraft using the airports, and no noisier aircraft types can be used there. Secondly, the overall operating policy for the Metropolitan Washington Airports should automatically limit aircraft noise at Washington National Airport. The imposed limits on the number of air carrier operations there and the limit on annual passengers will ensure that the number of air carrier operations does not increase and actually are likely to decrease in the future.

Other Matters

As to Dulles, the FAA has been working to improve ground transportation access to it by both private automobile and public transportation. The Dulles Access Highway Extension, which will link the existing access highway to Interstate Route 66 and, thus, appreciably reduce travel time from the airport to downtown, is slated for completion in September of this year. The FAA has provided the right of way and worked with the Commonwealth of Virginia which allows it to construct and operate the toll roads which will parallel the access highway. The most direct benefit of this project to Dulles is that it provides a thoroughfare for local traffic and will enable FAA to permanently maintain the access highway for airport traffic. The acquisition of 12 to 15 new buses is also being actively pursued by the FAA. If successful, this effort will reduce capital costs to the operator, with the savings being directed toward broader service and downward pressure on the fare structure. A ground transportation solicitation is being developed based on input from DOT's Transportation Systems Center. This solicitation is timed for a planned contract award early this fall. Key aspects of the total effort by the FAA and the successful contractor are improved service patterns, broad local advertising and automated ground transportation information equipment. A solicitation for a new taxicab contract, which will require accelerated replacement of an aging taxi fleet, has been issued. For those who use their private automobiles, increased low cost parking has been added and additional spaces are being planned. As the products or these various actions blend together, Dulles will be the beneficiary of significantly improved ground access.

A number of commuter operators and air carriers have introduced new or expanded service at Dulles which increased passenger traffic by approximately 12 percent last year. New service has been instituted from Dulles to major hubs at Salt Lake City, Newark and Chicago. The completion of the Dulles Highway Extension and the toll roads should result in increased growth around the airport perimeter which, in

turn, should increase passenger utilization of the airport. In addition, one carrier has announced a new hub at BWI. In addition to the connecting flights available through the hubs, approximately 2 dozen new cities are linked to Dulles via nonstop or through-plane service. The broadenign service base at Dulles will, over a period of time, provide an even better base for intermediate length flights and additional commuter service. Adjustment of the policy as proposed will encourage continued movement to the other airports where there is more than adequate capacity. This, in turn, will allow use of National for quieter commuter aircraft for service to closer surrounding cities.

List of Subjects in 14 CFR Part 93

Air traffic control.

The Proposed Amendment

PART 93—[Amended]

In consideration of the above, the FAA proposes to amend Subpart K of Part 93 of the Federal Aviation Regulations (14 CFR Part 93) as follows:

§ 93.124 [Amended]

Alternative A

1. By amending paragraph (b) by deleting the number 16 million and inserting in lieu thereof the number 14.8.

Alternative B

1. By amending paragraph (b) by deleting the number 16 and inserting in lieu thereof the following:

"equal to the number of passengers projected in the January 1985 forecast pursuant to paragrapgh (a) if that projection is less than 16 million. If that figure exceeds 16 million, then the number 16 million be utilized."

2. By amending § 93.123(c) to add paragraph (3) to read as follows:

§ 93.123 [Amended]

* * * * *

(3) Notwithstanding the limitations contained in paragraph (a), scheduled air taxis are authorized a maximum of two additional IFR operations per hour under the following conditions:

(i) Only aircraft capable of operating on short runways and with systems and performance capabilities approved by the Administrator are operated.

(ii) The noise levels of the aircraft involved in these operations do not exceed the applicable noise levels set forth in § 159.40(a) of the Federal Aviation Regulations.

(iii) The operations are accomplished on sections of secondary runways, i.e., Runways 3, 15, 21, and 33.

(iv) Where Tower Enroute Control (TEC) exists, operations shall be conducted thereunder.

(v) Stol operations shall be specifically authorized by and conducted in compliance with the carrier's operations specifications and FAA procedural standards and related requirements involving simultaneous use of intersecting runways for arriving and departing aircraft.

(Secs. 103, 307(a), (b) and (c), 313(a), of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1303, 1348 (a), (b) and (c), and 1354(a)); secs. 2 and 5 of the Act for the Administration of Washington National Airport, 54 Stat. 688 as amended by 61 Stat. 94; sec. 4 of the Second Washington Airport Act, 64 Stat. 770; sec. 6 of the Department of Transportation Act (49 U.S.C. 1655)).

Note.—The FAA has determined that this proposal, if adopted, would not affect aircraft operations in the Washington Metropolitan area. Although there might be some long-term reductions in the number of operations at Washington National Airport, the number of operations affected will not be significant. Furthermore, there is adequate space at the other two Washington area airports to accept all operations moved from National. The effect on small entities of allowing two additional scheduled commuter operations per hour at National should be positive but minimal.

Based on the above, it has been detemined that this is not a major regulation under Executive Order 12291 and I certify that, under the criteria of the Regulatory Flexibility Act, the proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. In addition, the FAA has determined that this proposed amendment is significant under the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) because of possible public interest.

Issued in Washington, D.C., on April 26, 1983.

J. Lynn Helms,

Administrator.

BILLING CODE 4910-13-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79-76-192; (Louisiana-9)]

AGENCY: Federal Energy Regulatory Commission, Energy.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendations of the State of Louisiana Office of Conservation that two areas of the Hosston B Zone be designated as tight formations under §271.703(d).

DATE: Comments on the proposed rule are due on June 6, 1983. Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on May 9, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street. N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8511, or Walter W. Lawson, (202) 357-8556.

SUPPLEMENTARY INFORMATION:

Issued: Appril 22, 1983.

I. Background

On March 24, 1983, the State of Louisiana Office of Conservation (Louisiana) submitted to the Commission recommendations, in accordance with §271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that two areas in the Hosston B Zone in north Louisiana be designated as a tight formation in the Commission's regulations. Pursuant to §271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Louisiana's recommendations that the Hosston B Zone be designated a tight formation should be adopted. Louisiana's recommendations and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Louisiana recommends that two areas of the Hosston B Zone, located in Claiborne and Bienville Parishes, Louisiana, be designated as tight formations. The Hosston B Zone is a part of the Hosston Formation of Cretaceous age which underlies the

Pettit Formation of Cretaceous age and overlies the Cotton Valley Group of Jurassic age.

One recommended area is located immediately southwest of the township of Athens, Louisiana. The recommended area underlies parts of the Leatherman Creek Field, Claiborne Parish, and includes Township 19 North, Range 7 West, Sections 7 through 11, 14 through 23, and 26 through 35, and Township 19 North, Range 8 West, Sections 12, 13, 24, 25 and 36. Fourteen wells have been completed in this formation, of which, ten are currently producing and four are shut-in. In a type log, the McGoldrick Oil Company Bessie Sherrill No. 1 well, located in Section 21 of Township 19 North, Range 7 West, the top of the recommended formation appears at approximately 8,260 feet and extends to 10,000 feet (log depths) giving a total thickness of 1,740 feet.

The other recommended area, the Hosston B Zone, Reservoir A, underlies part of the Bear Creek Field in Bienville Parish. This area covers the south three-quarters of Section 22, the west three-quarters of Section 26, and all of Section 27 and 28 of Township 16 North, Range 6 West. The type log for this area is area is the Franks Petroleum, Inc. Lucius C. Gresham B No. 1 well located in the southeast quarter of Section 28, Township 16 North, Range 6 West. The top of the recommended formation appears at approximately 8,890 feet and extends to 9,801 feet (log depths) giving a total thickness of 911 feet. This is the only well currently producing from the recommended formation although it has been penetrated by one other well, the SWEPCO Engineering Property Loftin No. 1 well which produced from the formation until 1978.

III. Discussion of Recommendation

Louisiana claims in its submission that evidence gathered through information and testimony presented at a public hearing convened by Louisiana on this matter demonstrates, for each recommended area, that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Louisiana further asserts that existing Statewide Order No. 29–B will assure that development of the recommended areas will not adversely affect any fresh water aquifer that is or is expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposals submitted by Louisiana that the Hosston B Zone as described and delineated in Louisiana's recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before June 6, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76–192 (Louisiana-9), and should give reasons, including supporting data, for any recommendations. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than May 9, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432).

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Louisiana's recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(176) to read as follows:

§ 271.703 Tight formation.

* * * * *

(d) *Designated tight formations.*

* * * * *

(125) through (175) [Reserved]

(176) *Hosston B Zone in Louisiana.* RM79–76 (Louisiana-9)

(i) *Leatherman Creek Field Area.*

(A) *Delineation of formation.* The Hosston B Zone is located in north Louisiana and underlies parts of the Leatherman Creek Field, Claiborne Parish and includes Township 19 North, Range 7 West, Sections 7 through 11, 14 through 23, and 26 through 35, and Township 19 North, Range 8 West, Sections 12, 13, 24, 25 and 36.

(B) *Depth.* The top of the Hosston B Zone is measured at 8,260 feet and the base at 10,000 feet giving a total thickness of 1,740 feet, on the induction electric log of the McGoldrick Oil Company Bessie Sherrill No. 1 well, located in Section 21 of Township 19 North, Range 7 West.

(ii) *Bear Creek Field Area.*

(A) *Delineation of formation.* The Hosston B Zone, Reservoir A, is located in north Louisiana and underlies part of the Bear Creek Field, Bienville Parish and includes the south three-quarters of Section 22, the west three-quarters of Section 26, and all of Sections 27 and 28 of Township 16 North, Range 6 West.

(B) *Depth.* The top of the Hosston B Zone, Reservoir A, is measured at 8,890 feet and the base at 9,801 feet, giving a total thickness of 911 feet, on the induction electric log of the Franks Petroleum, Inc., Lucius C. Gresham B No. 1 well located in the southeast quarter of Section 28, Township 16 North, Range 6 West.

18 CFR Part 271

[Docket No. RM79–76–184; (Texas-11 Addition V)]

High-Cost Gas Produced From Tight Formations; Proposed Rulemaking

AGENCY: Federal Energy Regulatory Commission, Energy.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking contains the recommendation of the Railroad Commission of Texas that an additional area of the Wilcox Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on June 6, 1983. Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on May 9, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511, or Walter W. Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION:

Issued April 22, 1983.

I. Background

On January 24, 1983, the Railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that an additional area of the Wilcox Formation in the South Campana (Wilcox 10,400') Field, in Duval and McMullen Counties, Texas, be designated as a tight formation. The Commission previously adopted recommendations that portions of the Wilcox Formation be designated as tight formations in Order Nos. 199, 208, 241 and 279 issued December 16, 1981, February 5, 1982, July 8, 1982 and February 3, 1983, respectively. The Commission currently has under consideration a recommendation by Texas that the Wilcox First Hinnant Formation located in Jim Hogg County, Texas, be designated a tight formation in Docket No. RM79–76–183 (Texas-11 Addition IV), Notice of Proposed Rulemaking issued April 1, 1983. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that the Wilcox Formation in the South Campana (Wilcox 10,400') Field be designated a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the Wilcox 10,400' Formation in the South Campana (Wilcox 10,400') Field located in Duval and McMullen Counties, Texas, Railroad Commission Districts 1 and 4, be designated as a tight formation. The area is located approximately 18 miles northeast of the city of Freer, Texas. The recommended area includes all of the area within a 2.5 mile radius around the ARCO H. C. Edrington I No. 33 well, the only producing well in the formation, which is located in the southeast quarter of Section 61, A. B. & M. Survey, Abstract 43, McMullen County, Texas.

The Wilcox 10,400' Formation is the lowermost Upper Wilcox Formation located in the South Campana Field. The Wilcox 10,400' Formation is 10 to 12 feet in average thickness within the geographical area, with an average depth from the surface of the earth to the top of the formation of approximately 10,890 feet.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing in support of this recommendation demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing state and federal regulations assure that development of this formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the Wilcox 10,400' Formation as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before June 6, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76–184 (Texas-11 Addition V), and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission is writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than May 9, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(63)(vi) to read as follows:

§ 271.703 Tight formations

* * * * *

(d) *Designated tight formations.*

* * * * *

(63) *Wilcox Formation in Texas.* RM79–76 (Texas–11).

* * * * *

(vi) *South Campana (Wilcox 10,400') field*

(a) *Delineation of formation.* The Wilcox 10,400' Formation is located in the South Campana (Wilcox 10,400') Field in MCullen and Duval Counties, in south Texas, Railroad Commission Districts 1 and 4, approximately 18 miles northest of Freer, Texas. The designated area includes all of the acreage within a 2.5 mile radius around the ARCO H. C. Edrington I No. 33 well, which is located in the southest quarter of Section 61, A. B. & M. Survey, Abstract 43, McMullen County, Texas.

(B) *Depth.* The average depth to the top of the Wilcox 10.400' Formation is approximately 10,890 feet. The subject formation averages from 10 to 12 feet in thickness within the geographical area.

BILLING CODE 6717-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Fair Housing and Equal Opportunity

24 CFR Part 115

[Docket No. R-83-1078]

Recognition of Substantially Equivalent Laws

AGENCY: Office of the Assistant Secretary for Fair Housing and Equal Opportunity, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend 24 CFR Part 115, which provides recognition by the Department of those State and local fair housing laws that provide rights and remedies substantially equivalent to those provided by Title VIII of the Civil Rights Act of 1968.

DATE: Comment due date: May 31, 1983.

ADDRESS: Interested persons are invited to submit comments regarding the rule to the Office of General Counsel, Rules Docket Clerk, Room 10278, Department of Housing and Urban Development, 451–7th Street, SW., Washington, D.C. 20410. Communications should refer to above docket number and title. A copy of each communication submitted will be available for public inspection and copying during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Steven J. Sacks, Director, Federal, State and Local Programs Division, Room 5214, Department of Housing and Urban Development, 451–7th Street, SW., Washington, D.C. 20410 (202) 426–3500. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: This Department is proposing to grant recognition to the fair housing laws of additional jurisdictions, pursuant to Section 810(c) of Title VIII of the Civil Rights Act of 1968, as amended. The evaluation of the laws of these jurisdictions was conducted in accordance with the provisions of 24 CFR Part 115, with particular focus on §§ 115.2(a), 115.3 and 115.8. Those sections are set forth to give appropriate information to all parties with an interest in HUD's proposed action.

Section 115.2 Procedures for Recognition provides in (a): Recognition under this part shall be based on a consideration of the following materials and information: (1) The text of the jurisdiction's fair housing law and any regulations or directives issued thereunder; (2) the organization of the agency responsible for administering and enforcing such law; (3) the amount of funds and personnel made available to such agency for fair housing purposes during the current operating year; (4) when considering agencies which have been in operation for 1 year or more, any available indicia of the agency's ability to satisfactorily administer its law consonant with the performance standards delineated in § 115.8; and (5) any additional documents which the agency may wish to have considered.

Section 115.3 Criteria provides: In order for a determination to be made that a State or local fair housing law provides rights and remedies for alleged discriminatory housing practices which are substantially equivalent to those provided in the Act, the law or ordinance must: (a) Provide for an administrative enforcement body to receive and process complaints; (b) Delegate to the administrative enforcement body comprehensive authority to investigate the allegations of complaints, and power to conciliate matters; (c) Not place any excessive burdens on the complainant which might discourage the filing of complaints; (d) Not contain exemptions which substantially reduce the coverage of housing accommodations as compared to Section 803 of the Act which provides coverage with respect to all dwellings except, under certain circumstances, single-family homes sold or rented by the owner, and units in owner-occupied dwellings containing living quarters for no more than four families; and (e) Be sufficiently comprehensive in its prohibitions so as to be an effective instrument in carrying out and achieving the intent and purposes of the Act, i.e., the prohibitions of the following acts if they are based on discrimination because of race, color, religion, sex, or national origin:

(1) Refusal to sell or rent.

(2) Refusal to negotiate for a sale or rental.

(3) Making a dwelling unavailable.

(4) Discriminating in terms, conditions, or privileges of sale or rental, or in the provisions of services or facilities.

(5) Advertising in a discriminatory manner.

(6) Falsely representing that a dwelling is not available for inspection, sale or rental.

(7) Blockbusting.

(8) Discrimination in financing.

(9) Denying a person access to or membership or participation in multiple listing services, real estate brokers' organizations, or other services.

Provided, that a law may be determined substantially equivalent if it meets all of the criteria set forth in this section but does not contain adequate prohibitions with respect to one or more of the acts based on discrimination because of sex, or with respect to one or more of the cases described in paragraphs (e) (7), (8), and (9) of this section. (f) In addition to the factors described in paragraphs (a), (b), (c), (d), and (e) of this section, consideration will be given to the provisions of the law affording judicial protection and enforcement of the rights embodied in the law. However, a law may be determined substantially equivalent even though it does not contain express provision for access to State or local courts.

Section 115.8 Performance Standards provides: (a) The initial and continued recognition by the Secretary that a State or local fair housing law provides rights and remedies substantially equivalent to those provided in the Act will be dependent upon, where applicable, an assessment of the State or local agency's administration of its fair housing law to insure that the law is in fact providing substantially equivalent rights and remedies. The performance standards set forth in paragraph (b) of this section will be used in making such assessment. (b) A state or local agency must: (1) Consistently and affirmatively seek the elimination of all prohibited practices under its fair housing law; (2) Consistently and affirmatively seek and obtain the type of relief designed to prevent recurrences of such practices; (3) Establish a mechanism for monitoring compliance with any

agreements or orders entered into with or issued by the State or local agency to resolve discriminatory housing practices; (4) Engage in comprehensive and thorough investigative activities; and, (5) Commence and complete the administrative processing of a complaint in a timely manner, i.e., the average complaint should, under ordinary circumstances, be investigated and, where applicable, set for conciliation within 30–45 days.

The Department is limiting the public comment period to 30 days. This is necessary in order to expedite the equivalency recognition process, so that the listed agencies may be recognized in time to be eligible to receive Fair Housing Assistance Program funding. If, after evaluating any comments received, the Assistant Secretary for Fair Housing and Equal Opportunity is still of the opinion that recognition is appropriate, the Assistant Secretary shall grant such recognition by amending 24 CFR 115.11.

This proposed rule does not constitute a "major rule" as that term is defined in § 1(b) of the Executive Order on Federal Regulation issued by the President on February 17, 1981. Analysis of the proposed rule indicates that it does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50 that implement section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332. The Finding of No Significant Impact is available for public inspection and copying during regular business hours in the Office of the Rules Docket Clerk, Room 10278, 451–7th Street, SW., Washington, D.C. 20410.

Pursuant to the provisions of 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this rule would not have a significant economic impact on a substantial number of small entities because the greater flexibility afforded to localities to implement their own enforcement mechanisms and the greater responsiveness to specific problems in localities under this rule should enure alike to the benefit of both large and small governmental jurisdictions.

This rule is not listed in the Department's Semiannual Agenda of Regulations published on October 28, 1982 (47 FR 48422) pursuant to Executive Order 12291 and the Regulatory Flexibility Act.

The Catalog of Federal Domestic Assistance Program numbers and titles are: 14.400, Equal Opportunity in Housing and 14.401, Fair Housing, Assistance Program.

List of Subjects in 24 CFR Part 115

Fair housing, Intergovernmental relations.

Accordingly, it is proposed to amend 24 CFR 115.11 as follows:

PART 115—RECOGNITION OF SUBSTANTIALLY EQUIVALENT LAWS

Add to the list of localities in § 115.11, the names of Anchorage, Alaska; Metropolitan-Dade County, Florida; Maywood, Illinois; Urban, Illinois; East Chicago, Indiana; Lexington-Fayette, Kentucky; Saint Paul, Minnesota; St. Louis, Missouri; Winston-Salem, North Carolina; Dayton, Ohio; Harrisburg, Pennsylvania; York, Pennsylvania; and King County, Washington, so that the list reads as follows:

§ 115.11 Jurisdictions with substantially equivalent laws.

The following jurisdictions are recognized as providing rights and remedies for alleged discriminatory housing practices substantially equivalent to those in the Act, and complaints will be referred to the appropriate State or local agency as provided in § 115.6.

States

Alaska	Montana
California	Nebraska
Colorado	Nevada
Connecticut	New Hampshire

Specially Defined Energy Property Added by the Secretary; Withdrawal of Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This document withdraws the notice of proposed rulemaking that appeared in the **Federal Register** on January 7, 1981 (46 FR 1753) relating to the authority of the Secretary of the Treasury to add items to the category of specially defined energy property.

FOR FURTHER INFORMATION CONTACT: Michel A. Dazé of the Legislation and Regulation Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3458) (not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

This document withdraws the notice of proposed rulemaking that appeared in the **Federal Register** on January 7, 1981 (46 FR 1753). That notice proposed amendments to the regulations under section 48 of the Internal Revenue Code of 1954. The amendments would have set forth the procedure for a manufacturer to request addition of an item to the list of specially defined energy property, the information to be provided by an applicant, the criteria to be used to consider adding an item, and the procedure for publishing the list of items.

Drafting Information

The principal author of this document is Michel A. Dazé of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing this document, both in matters of substance and style.

The proposed amendments to 26 CFR Part 1 relating to the authority of the Secretary of the Treasury to add items to the category of specially defined energy property published in the **Federal Register** (46 FR 1753) on January 7, 1981, are hereby withdrawn.

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

BILLING CODE 4830-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGDI 83-02]

Marine Parade; 1983 America's Cup Races

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rule making.

SUMMARY: The Coast Guard is considering a proposal to restrict the navigation of vessels in and around that portion of Rhode Island Sound being utilized as the race course for the 1983 America's Cup Races. This action is being considered to provide for the safety of life on navigable waters during these races.

DATE: Comments must be received on or before June 13, 1983.

ADDRESSES: Comments should be mailed to Commander (b), First Coast Guard District, 150 Causeway Street, Boston, MA 02114. The comments will be available for inspection and copying at 150 Causeway Street, Room 1102, Boston, MA. Normal office hours are between 7:00 am and 4:30 pm, Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: LT Michael J. Chaplain, USCG, Chief, Boating Standards/Affairs Branch (bc), Room 1102, First Coast Guard District, 150 Causeway Street, Boston, MA 02114 (617) 223-3607.

SUPPLEMENTARY INFORMATION:

Interested persons are invited to participate in this rule making by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD1 83-02) and the specific section of the proposal to which their comments apply, and give reasons for each comment. Receipt of comments will be acknowledged if a stamped self-addressed postcard or envelope is enclosed. The rules may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Information

The drafters of this regulation are LT Michael J. Chaplain, USCG, project officer, First Coast Guard District Boating Standards/Affairs Branch and LT Susan M. Krupanski, project attorney, First Coast Guard District Legal Office.

Discussion of Proposed Regulations

The sponsors of this regatta have requested that the Coast Guard assist them in fulfilling their responsibilities to insure the safety of life during this series of races. Based on the acknowledge gained by the Coast Guard's past involvement with this regatta, and in consideration of the extensive international interest in this event, it is anticipated that thousands of spectator vessels will be on hand to observe the races. Introducing this number of vessels into one small area creates an extra and unusual hazard to the safety of life of all spectators during the periods in which races are being conducted. Accordingly, this special local regulation is proposed in order to provide for the safety of life during the 1983 America's Cup Races.

Economic Assessment and Certification

This proposed regulation is considered to be nonsignificant in accordance with DOT Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5). Its economic impact is expected to be minimal since the restrictions to navigation are for only short periods of time, and only affect a small area of Rhode Island Sound. Additionally, due to the extensive international interest in this event, a substantial increase in area business, including small entities, is anticipated due to this regatta. Based upon this assessment, it is certified in accordance with section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605 (b)) that this regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, the regulation has been reviewed in accordance with Executive Order 12291 of February 17, 1981, on Federal Regulation and has been determined not to be a major rule under the terms of that order.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water).

Proposed Regulation

In consideration of the foregoing, the Coast Guard proposes to amend part 100 of Title 33, Code of Federal Regulations, by adding section 100.35–1–02 to read as follows:

§ 100.35–1–02. 1983 America's Cup Races.

(a) *Regulated Area:* This regulation is applicable within a 5 mile radius of the special purpose lighted bell buoy "AC" located approximately 7.9 miles bearing 135.5°T (150°M) from Brenton Reef Light (NOS 13218).

(b) *Restricted Area:* A diamond-shaped area, originating at the special purpose lighted bell buoy "AC", measuring approximately 3.5 miles on a side. The major axis of the diamond shall be oriented directly upwind, and shall measure 5 miles. The perimeter of the restricted area shall be outlined by Coast Guard patrol vessels.

(c) *Race Starting Area:* A rectangular area extending 300 yards outboard from both ends of the race starting line, marked by the special purpose lighted bell buoy "AC" and the Race Committee Boat, and extending 500 yards downwind from the starting line. The Race Starting Area shall be marked by a line of Coast Guard patrol vessels.

(d) *Effective Period:* 9:00 am until the conclusion of each race, commencing on September 13, 1983, and on each day thereafter that a race is conducted until completion of the regatta series.

(e) *Special Local Regulations:* All vessels operating in the Regulated Area, except those vessels designated by the event sponsor or the Coast Guard Patrol Commander and displaying the special flag indicating such designation, shall:

(1) Keep clear of the Restricted Area.

(2) Remain at least 100 yards outside the:

(i) line of patrol vessels marking the race starting area.

(ii) column of Coast Guard patrol vessels marking the perimeter of the Restricted Area.

(3) Comply with the instructions of the Coast Guard patrol vessels and aircraft.

(4) Be alert for disabled craft and any persons falling overboard.

(5) Exercise extreme caution when operating in congested areas.

(6) If over 100 feet in length and underway, remain at least 500 yards outside the Restricted Area and Race Starting Area.

(46 U.S.C. 454, 49 U.S.C. 1655(b), 49 CFR 1.46; and 33 CFR 100.35)

Dated: April 15, 1983.

C. E. Robbins,

Rear Admiral, U.S. Coast Guard, Acting District Commander, First Coast Guard District.

33 CFR Part 110

[CGD 09–83–02]

Anchorage Grounds and Special Anchorage Areas; Chicago and Calumet Harbors, Il.

AGENCY: Coast Guard, DOT.

ACTION: Advanced notice of proposed rulemaking.

SUMMARY: This notice invites comments and suggestions from the public, particularly recreational boaters, and the Maritime Industry concerning the future of anchorage areas in Chicago Harbor and possible anchorages in Calumet Harbor. Public comments are solicited to aid in determining present and future adequacy of anchorages in the Chicago area of Lake Michigan. As a result of these comments the Captain of the Port of Chicago may propose rules to re-configure or increase available anchorage areas.

DATE: Comments must be received on or before: June 13, 1983.

ADDRESSES: Comments should be mailed to Commander, Marine Port and Environmental Safety Branch, Ninth Coast Guard District, 1240 East 9th Street, Cleveland, OH 44199. The comments will be available for inspection or copying at Marine Port and Environmental Safety Office, Room 2019, 1240 East 9th Street, Cleveland, OH 44199. Normal office hours are between 8 a.m. and 4 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Ensign Steven J. Boyle, Marine Port and Environmental Safety Branch, Ninth Coast Guard District, 1240 East 9th Street, Cleveland, OH 44199 or phone (216) 522–7064.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data, or arguments. Each person submitting a comment should include his name and address, identify this notice (CGD 09–83–02), and include sufficient detail to indicate the basis on which each comment is made. Persons desiring acknowledgement that their comments have been received should enclose a stamped self-addressed postcard or envelope. All comments received before the expiration of the comment period will be considered in the decision making process. No public hearings are planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the proposal and rulemaking process.

Drafting Information

The drafters of this Advance Notice of Proposed Rulemaking are Ensign Steven J. Boyle, Project Officer, Marine Port and Environmental Safety Branch and Lieutenant Commander Arthur R. Butler, Assistant Project Officer, Ninth Coast Guard District Legal Office.

Discussion of Proposed Rule

The Chicago Harbor Special Anchorage Areas and Anchorage Grounds as provided for in 33 CFR 110.83 and 110.205 provide for two Special Anchorage Areas and four Anchorage Grounds. The Special Anchorage Areas are Grant Park North, an area approximately 2400 feet by 1300 feet, which is located inside the inner breakwater east of the Chicago Yacht Club, and Grant Park South, a triangular area directly south of Grant Park North. The north side of the Grant Park South triangle is approximately 1400 feet long, the west side is approximately 2300 feet long, and the southeast side is approximately 2600 feet long. The Anchorage Grounds are: Area A which is located inside the exterior breakwater of Chicago Harbor, in the northeast corner and is approximately 1600 feet by 2500 feet, Area B which is located inside the exterior breakwater at the southeast end and is approximately 1900 feet by 2100 feet, Area C which is located inside the exterior breakwater in the northwest corner of the harbor, north of the Central District filtration plant and is approximately 1900 feet by 1500 feet, and Area F which is located along the south wall of the Central District filtration plant and is 1400 feet long by 80 feet wide. The Special Anchorage Areas are primarily used by recreational boaters. Anchorage Grounds A, B and F are only for commercial vessels operated for profit. No commercial vessel operated for profit that measures 50 gross tons or more may anchor in anchorage C. Before proposing rules in this area, the Coast Guard requests comments in the following areas:

1. Since the existing Chicago Harbor anchorages were established there has been a major shift in shipping activity. Commercial vessel usage of Chicago Harbor anchorage grounds has declined

while anchoring activity in Calumet Harbor has increased. This has resulted in an increased potential for conflict between navigation and anchored vessels in the Calumet Harbor area.

2. The straightening of the Lakeshore Drive S curve, growth in the recreational boating population, and plans for the 1992 World's Fair may require alteration of Special Anchorage Areas and create demand for additional areas. If the results of this project indicate that regulatory action is warranted, the public will be informed by means of a notice in the **Federal Register**.

Economic Assessment

Since no proposals are being made at this time, no specific economic impacts can be projected.

The purpose of this ANPRM is to collect as much information as possible regarding anchorage usage and future needs. By taking a long range view, conflicts between commercial port operations, recreational boating and waterfront land usage can be anticipated. Rules can then be designed to both alleviate these conflicts and provide satisfactory margins of safety. The effect will be to facilitate activities which will have economic benefits for the region.

33 CFR Part 110

[CGD5–82–30]

Anchorage Ground; Eastern Branch, Elizabeth River, Norfolk, VA

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is considering a proposal to amend the anchorage regulations by disestablishing Anchorage R as an anchorage ground. This change is being made because of the historical non-use of the anchorage ground and the request of Verebely and Associates to construct a rip-rap dike in Section 2 of Anchorage R. This action will eliminate the three sections of Anchorage R and still provide for the reasonable needs of navigation.

DATE: Comments must be received on or before June 13, 1983.

ADDRESSES: Comments should be mailed to Commander (mpv), Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia, 23705. Comments will be available for inspection and copying at the office of the Commander, Fifth Coast Guard District (mpv), Room 408–A, Federal Building, 431 Crawford Street, Portsmouth, Virginia, 23705. Normal office hours are between 8:00 a.m. and 4:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Commander C. P. Butler, Chief, Port and Vessel Safety Branch, Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia, 23705, (804) 398–6388.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD5–82–30) and the specific section of the proposal to which their comments apply, and give the reasons for each comment. Receipt of comments will be acknowledge if a stamped, self-addressed postal card or envelope is enclosed. The proposed amendment may be changed in light of the comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid in the rulemaking process.

Drafting Information

The drafters of this notice are Lieutenant Junior Grade M. S. Kushla, Project Officer, Port and Vessel Safety Branch, Fifth Coast Guard District, and Commander D. J. Kantor, Project Attorney, Fifth Coast Guard District Legal Office.

Discussion of the Proposed Regulation

The anchorage ground which is proposed to be disestablished lies along the southern bank of the Eastern Branch of the Elizabeth River, Norfolk, Virginia. It is divided into three separate sections. Section 1 is located between the Norfolk and Western Railroad bascule bridge (Mile 1.1) and the Campostella Road bascule bridge (Mile 1.8). Section 2 is located between the Campostella Road bridge and the mouth of Steamboat Creek. Section 3 is located between the mouth of Steamboat Creek and the Norfolk and Western Railroad swing bridge (Mile 2.7). At the request of Verebely and Associates, the Coast Guard has been requested to disestablish Section 2 of Anchorage R to allow construction of a rip-rap dike to stabilize the shoreline. (See Department of the Army, Norfolk District, Corps of Engineers Public Notice NAOOP–P–82–0211–15 for details of this project.) Because of the historical non-use of the anchorage as a whole, the disestablishment of Anchorage R in its entirety is being considered.

Economic Assessment and Certification

This proposed regulation is considered to be nonsignificant in accordance with DOT policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5) Its economic impact is expected to be minimal since the anchorage ground in no longer being used. Based upon this assessment it is certified in accordance with Section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605(b)) that this regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, the regulation has been reviewed in accordance with Executive Order 12291 of February 17, 1981, on Federal Regulation and has been determined not to be a major rule under the terms of that order.

§ 110.168 [Amended]

Proposed regulation

In consideration of the foregoing, the Coast Guard is proposing to amend Part 110 of Title 33, Code of Federal Regulations, by removing § 110.168(e)(2).

(33 U.S.C. 471; 49 U.S.C. 1655(g)(1); 49 CFR 1.46; and 33 CFR 1.05–1(g))

Dated: April 11, 1983.

John D. Costello,

Rear Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

[FR Doc. 83–11373 Filed 4–27–83; 8:45 am]

BILLING CODE 4910–14–M

33 CFR Part 117

[CGD13 83–04]

Drawbridge Operation Regulations; Lake Washington, Washington

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Washington State Department of Transportation, the Coast Guard is considering a change to the regulations governing the Evergreen Point Floating Bridge across Lake Washington, Washington, by permitting the draw to remain closed between the hours of 6:00 a.m. and 10:00 a.m., and between 2:00 p.m. and 7:00 p.m., on weekdays, for any vessel or other watercraft of less than 2,000 gross tons, unless such vessel has in tow a vessel of 2,000 gross tons or over, or a piledriver that is unable to pass under the fixed spans. This proposal is being made because the periods of peak vehicular traffic have increased. This action should accommodate the needs of vehicular traffic and should still provide for the reasonable needs of navigation.

DATE: Comments must be received on or before June 13, 1983.

ADDRESS: Comments should be submitted to and are available for examination from 8:00 a.m. to 4:30 p.m., Monday through Friday, except holidays, at the office of the Commander (oan), Thirteenth Coast Guard District, Room 3564, 915 Second Avenue, Seattle, Washington 98174. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: John E. Mikesell, Chief, Bridge Section, Aids to Navigation Branch, (Telephone: (206) 442-5864).

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal. Persons desiring acknowledgment that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Commander, Thirteenth Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulations may be changed in light of comments received.

Drafting Information

The drafters of this notice are: John E. Mikesell, project officer, and Lieutenant Commander D. Gary Beck, project attorney.

Discussion of the Proposed Regulations

Existing operating regulations for the Evergreen Point Floating Bridge provide, in part, that the bridge will not be required to open on week days between the hours of 7:00 a.m. and 9:00 a.m. and 4:00 p.m. and 6:00 p.m. for any vessel or other watercraft of less than 2,000 gross tons, unless such vessel has in tow a vessel of 2,000 gross tons or over, or a piledriver that is unable to pass under the fixed spans. The proposed rule would extend the periods during which the bridge is not required to open from the present 4 hours per day to 9 hours per day. Under the proposed rule, the bridge would not be required to open on weekdays between the hours of 6:00 a.m. and 10:00 a.m. and between 2:00 p.m. and 7:00 p.m., except for vessels of 2,000 gross tons or more, vessels towing other vessels of 2,000 gross tons or more, or a piledriver that is unable to pass under the fixed spans.

The Evergreen Point Floating Bridge is a part of one of the two main arterial highways providing access to downtown Seattle from suburban areas east of Lake Washington. Periods of peak vehicular traffic on the bridge have been identified by the Washington State Department of Transportation as occurring between the hours of 6:00 a.m. and 10:00 a.m. and between 2:00 p.m. and 7:00 p.m. on weekdays. Any disruption in traffic flow during these times causes major traffic tie-ups and results in severe congestion from which the highway facility cannot recover throughout the entire peak period.

A review of drawtender logs for the Evergreen Point Floating Bridge for the period March 1980 to October 1982 indicated a total of 18 openings during the proposed closed periods. The majority of the openings were for recreational vessels. Preliminary contact with commercial navigation interests indicate they would not be significantly affected by the proposed change.

It is also proposed that the existing § 117.801 title of "Lake Washington, Wash.; pontoon bridge between Foster Island and Evergreen Point, Wash." be changed to "Lake Washington, Wash.; Evergreen Point Floating Bridge." to conform with the commonly used name for the bridge.

There are only minimal economic impacts on navigation or other interests. Therefore, an economic evaluation has not been prepared for this action. Users of the bridge for vehicular traffic and the Washington State Department of Transportation would benefit because the proposed change would eliminate a major cause of vehicular traffic delay and still provide for the reasonable needs of navigation.

Economic Assessment and Certification

These proposed regulations have been reviewed under the provisions of Executive Order 12291 and have been determined not to be a major rule. In addition, these proposed regulations are considered to be nonsignificant in accordance with guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of 5-22-80). As explained above, an economic evaluation has not been conducted since its impact is expected to be minimal. In accordance with section 605(b) of the Regulatory Flexibility Act (5 U.S. C. 605(b)), it is certified that these rules, if promulgated, would not have a significant economic impact on a substantial number of small entities.

BILLING CODE 4910-14-M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

Dinosaur National Monument; Colorado-Utah Snowmobile Regulations

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: The proposed regulation set forth below is to allow the public the

opportunity for snowmobile use on two sections of the approach roads at Dinosaur National Monument. It is the objective of this proposed regulation to provide for the preservation and enjoyment of Dinosaur National Monument in a way that is consistent with the management objectives of the area as well as the snowmobile policy of the National Park Service and the off-road vehicle policy of the Department of the Interior. This is proposed to be accomplished by restricting the use of snowmobiles to two sections of unplowed roadway that are open to regular motorized vehicles during the summer months.

DATES: Written comments, suggestions or objections will be accepted until May 31, 1983.

ADDRESS: Comments should be directed to: Superintendent, Dinosaur National Monument, P.O. Box 210, Dinosaur, Colorado 81610.

FOR FURTHER INFORMATION CONTACT: Edward A. Nichols, Chief Ranger, Dinosaur National Monument, Telephone: (303) 374-2216.

SUPPLEMENTARY INFORMATION:

Background

Executive Order 11644 (Use of Off-Road Vehicles on Public Lands) issued on February 9, 1972 (37 FR 3877), directed Federal land managing agencies to develop unified regulations and to designate areas of use for off-road vehicles. Such areas must meet criteria which minimize resource damage, harassment of wildlife, disruption of wildlife habitat, and, in the case of national parks, not adversely affect scenic, natural or aesthetic values.

In resposne to Executive Order 11644, the Secretary of Interior issued a Departmental memorandum on May 5, 1972, to assure full compliance with the Order and to provide policies and procedures for its implementation. The National Park Service, as required by the above directive, promulgated 36 CFR 2.34 on April 1, 1974, which closed all National Park System areas to snowmobile use except those specifically designated as open by **Federal Register** notice or special regulation.

In order to comply with the requirements of Executive Order 11644 and 36 CFR 2.34, the National Park Service developed a Servicewide policy revision which was published in the **Federal Register** on August 13, 1979 (44 FR 47412). This policy provides for the use of snowmobiles in units of the National Park System as a mode of transportation to provide the opportunity for visitors to see, sense, and enjoy the special qualities of the park in the winter. Snowmobile use must be consistent with the park's natural, cultural, scenic and aesthetic values; reflect safety considerations and park management objectives; and not result in disturbing wildlife or damaging other park resources.

The policy further provides that, where permitted, snowmobiles shall be confined to properly designated routes and water surfaces which are used by motorized vehicles or motorboats during other seasons. Routes and water surfaces to be designated for snowmobile use shall be promulgated as special regulations in the Code of Federal Regulations.

This proposed regulation is necessary to comply with Servicewide policy. Snowmobiling has previously been permitted on approach roads to Dinosaur National Monument, but not within the Monument proper. However, pursuant to the Act of September 8, 1960 (74 Stat. 857), these roads constitute a part of the Monument, and are subject to the regulations of the National Park Service. The National Park Service maintains control on approximately 40 miles of such approach roads within a 200 foot right-of-way.

Two sections of these roads, totaling about 22 miles, are not plowed in the winter and will be designated as snowmobile routes. These proposed routes would be used by snowmobilers primarily for access to lands administered by the Bureau of Land Management.

Public Participation

The policy of the National Park Service is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections regarding this proposed regulation to the address noted at the beginning of this rulemaking.

Drafting Information

The following persons participated in the writing of this regulation: Edward A. Nichols, Chief Park Ranger, Dinosaur National Monument, and James A. Randall, Rocky Mountain Regional Office, Denver, Colorado.

Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Compliance With Other Laws

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 (February 19, 1981), 46 FR 13193, and that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This conclusion is based on the finding that the majority of use will be for access to snowmobiling areas on adjacent lands. No substantial costs, if any, should result for any small entity. There may be a limited positive result for local repair shops, filling stations, parts stores, and retail snowmobile outlets.

Pursuant to the National Environmental Policy Act (42 U.S.C. 4332), the Service has prepared an environmental analysis of this proposed rule, which is available at the address noted above.

(Sec. 3 of the Act of August 23, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3))

National parks.

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

In consideration of the foregoing, it is proposed to amend Part 7 of Title 36 of the Code of Federal Regulations by adding a new paragraph (c) to § 7.63 as follows:

§ 7.63 Dinosaur National Monument.

* * * * *

(c) *Snowmobiles.* (1) Designated routes which will be open to snowmobile use are approximately 20 miles of the Harpers Corner Road in Colorado and approximately 2 miles of the Cub Creek Road in Utah. The Harpers Corner Road section extends from the Plug Hat Overlook to the Echo Park Road turnoff. The Cub Creek Road section extends from the Chew Ranch Road, 1 mile north of the Green River bridge, to the point where the Cub Creek Road leaves the southern boundary of the monument.

(2) On roads designated for snowmobile use, only that portion of the road or parking area intended for other motor vehicle use may be used by snowmobiles. Such roadway is available for snowmobile use only when there is sufficient snow cover and when these roads are closed to all other motor vehicle use by the public.

(3) Snowmobile use outside designated routes is prohibited. The superintendent shall determine the opening and closing dates for use of designated snowmobile routes each year.

Dated: March 28, 1983

G. Ray Arnett,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310-70-M

POSTAL SERVICE

39 CFR Part 111

Designation of Serving Post Offices for Acceptance of Electronic Computer Originated Mail

AGENCY: Postal Service.

ACTION: Solicitation of comments in advance of proposed rulemaking.

SUMMARY: Some users of Electronic Computer Originated Mail (E-COM) service deposit large numbers of E-COM messages at a single E-COM serving post office (SPO) even though many of the messages are addressed to points outside that SPO's designated service area. Since E-COM messages are processed, printed, enveloped and entered into the First-Class mailstream at the SPO where they are received, this practice results in Postal Service transportation of these "inter-SPO" letters beyond the entry SPO's service area and in some cases across the nation. The Postal Service is considering a proposed rule to restrict this practice and, through this notice, is requesting comments and suggestions from E-COM users, other interested parties and the general public on the treatment of E-COM messages that are deposited at a SPO for delivery to points outside that SPO's designated service area.

DATE: Comments must be received on or before June 27, 1983.

ADDRESS: Written comments should be sent to the Director, Office of E-COM Operations, U.S. Postal Service, Room 6736, Washington, D.C. 20260-7140.

FOR FURTHER INFORMATION CONTACT: Ed Senft, Office of E-COM Operations, (202) 245-5780.

SUPPLEMENTARY INFORMATION: E-COM (Electronic Computer Originated Mail) service is a subclass of First-Class Mail which consists of mail deposited in the postal system at designated serving post offices (SPOs) by electronic means via communications common carriers whose facilities are connected to the SPOs. The messages are checked for errors while in electronic form, printed, inserted and sealed in specially marked envelopes provided by the Postal Service, and deposited in the First-Class mailstream.

E-COM service is designed to provide next or second business day delivery for messages deposited at the SPO serving the area to which the messages are addressed. E-COM's two-day service objective does not apply to messages deposited at a SPO that are not for delivery in that SPO's service area. The normal service objectives for First-Class Mail apply to those messages.[1]

Mailer access to the E-COM SPOs is available either through (1) E-COM carriers who access the SPOs via dial-up ports or their own telecommunications circuits connected to the SPOs or (2) dial-up facilities which are available through the public switched telephone network.

Currently, E-COM mailers must deposit (or pay for) at least 200 separately addressed messages for each transmission to one of the 25 operating E-COM SPOs.[2] These SPOs and their service area are listed in section 570 of the Domestic Mail Manual, which is incorporated by reference in the **Federal Register**. 39 CFR 111.1. The E-COM provisions of the Domestic Mail Manual were published in the December 23, 1981, issue of the **Federal Register**. 46 FR 62268.

When the Postal Service inaugurated E-COM service on January 4, 1982, it imposed no restrictions on the deposit of E-COM messages. Although the Postal Service anticipated that E-COM messages would be deposited at the SPO serving the delivery address, current operating experience shows that only about 50 percent of E-COM messages are addressed to points within the entry SPO's service area. Some E-COM users deposit large numbers of messages at a single SPO even though the messages are addressed for delivery throughout the United States.

The Postal Service wants E-COM mailers to deposit their mail at the SPO serving the delivery address in order to preserve the concept of E-COM service as a high-speed, reliable service with delivery of messages in two days or less and is exploring possible methods of accomplishing this goal.

The simplest approach would be to revise the E-COM regulations to require that E-COM messages be addressed to points within the designated service area of the SPO where they are deposited. However, we are concerned with the impact on mailers of an absolute ban on "inter-SPO" messages. For example, a mailer with a mailing consisting of 300 messages for delivery in the Los Angeles SPO service area and 5 messages for delivery in the Phoenix SPO service area would, with the minimum now in effect, be unable to use E-COM service for the Phoenix area messages unless he paid the charge for 200 messages to Phoenix. Another mailer with a small nationwide mailing might have to access all 25 SPOs even though many of those SPOs might each receive only a few messages. Under the current minimum, this would be a very onerous burden.

The Postal Service also believes that an absolute ban on "inter-SPO" messages may present problems for some E-COM users even if the current 200 message minimum is eliminated. It is expected that an absolute ban could prevent or limit some postal customers from using E-COM service.

---

[1] These service objectives provide for delivery in one, two or three days depending upon the time of deposit of the mail, the distance it must be carried and the transportation services available between the origin and delivery post offices. See Domestic Mail Manual 330.

[2] By separate action on April 25, 1983, the Postal Service filed a request with the Postal Rate Commission, pursuant to 39 U.S.C. 3623, for certain E-COM rate and classification changes, including one to eliminate this minimum requirement. The elimination of the minimum is expected to facilitate the use of E-COM service, especially by small mailers.

With these concerns in mind, the Postal Service has given some thought to possible less restrictive alternatives which would still meet the goal of preventing the deposit of large national mailings at a single SPO.

One alternative might be to require the deposit of messages at a specific SPO whenever the mailer is transmitting at least a specified minimum volume of messages for delivery in that SPO's service area, for example, 200 messages.

Another alternative might be to overlap the designated service areas of some adjacent SPOs so that a nationwide mailing could be sent using fewer than 25 SPOs. Our current experience indicates that two-day service may be obtained from most SPOs to a larger geographical area than is contained in each SPO's designated service area. For example, messages for delivery in Houston could as easily be processed through the Dallas SPO as the San Antonio SPO.

A third alternative might be to allow a specified maximum number or percentage of incidental "inter-SPO" messages to accompany mailings properly deposited at the designated SPO.

The Postal Service welcomes, and will thoroughly consider, the comments and suggestions of E–COM users, other interested parties and the general public.

FEDERAL MARITIME COMMISSION

46 CFR Part 536

[General Order 13 Revised; Docket No. 82–13]

Exemption of Bulk Cargo Moving in the Foreign Commerce of the United States From the Tariff Filing Requirements of Section 18(b) of the Shipping Act

AGENCY: Federal Maritime Commission.

ACTION: Discontinuance of proceeding.

SUMMARY: This discontinues the rulemaking instituted to consider the exemption of certain bulk commodities loaded and carried in containers, trailers, rail cars or similar intermodal equipment from the tariff filing requirements of the Shipping Act, 1916, and the alternative proposal to exempt other or all such bulk commodities from the tariff filing requirements.

EFFECTIVE DATE: April 28, 1983.

FOR FURTHER INFORMATION CONTACT: Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573, (202) 523–5725.

SUPPLEMENTARY INFORMATION: In Docket 80–70; *Status of Bulk Commodities with Respect to the Tariff Filing Requirements of Section 18(b) of the Shipping Act, 1916,* the Commission issued an interpretative rule which provided that bulk cargo loaded into a container or similar intermodal equipment (except LASH or Seabee barges) is "loaded with mark or count" and, therefore, is subject to the tariff filing requirements of section 18(b)(1) of the Shipping Act, 1916 (46 U.S.C. 817(b)(1)). It was further determined in that proceeding, however, to stay the effective date of the interpretative rule pending a consideration of the feasibility of exempting from the tariff filing requirements all or some of the bulk commodities found subject to those requirements.

Therefore, by notice published in the **Federal Register** (47 FR 10862), the Commission proposed to exempt from tariff filing under section 35 of the Act (46 U.S.C. 833a) bulk cargo loaded in intermodal equipment. The proposed rule defined "bulk cargo" as "those commodities which are in a loose, unpackaged form, have homogeneous characteristics and are unprocessed or not further manufactured." The Commission further gave notice that, alternatively, it would consider the exemption of "other or all bulk cargo" carried in intermodal equipment.

The proposal prompted 30 replies from independent carriers, conferences and shippers. A majority of the commentators was opposed to both proposed rules, while the remaining commentators generally tended to favor the exemption of *all* bulk commodities from the tariff filing requirements.

Commentators which opposed the proposed rules argued that if an exemption were granted, whether for all or for specific bulk commodities, the result would substantially impair effective Commission regulation and could be unjustly discriminatory and detrimental to commerce. They further contended that the exemption would require *each* excepted commodity to be specifically identified for effective regulation. These commentators also argued that the Commission should not except the transportation of bulk cargoes simply for the purpose of achieving competitive parity between specialized, tramp or contract carriers because competition between these carriers for such cargoes has diminished. Further, it was alleged that shippers will be confused and possibly discriminated against if they are unable to verify liner cargo rates on exempt cargoes.

Most of the commentators who opposed the proposed interpretative rule generally favored the alternative of exempting *all* bulk commodities regardless of the method of transport. Because a tariff exemption could lead to discrimination and because it allegedly would be difficult to draw a clear line between bulk and non-bulk commodities, these commentators suggested that, in lieu of listing exempt commodities, a blanket exemption be adopted. This approach would allegedly eliminate the need to determine which bulk commodities would fall into an exempt status.

One commentator opposing the proposed rule maintained that, whether the cargo is processed or unprocessed, if it is loaded and carried in containers it assumes the characteristics of being marked and counted and thus should continue to be subject to the tariff filing requirements.

Those commentators favoring the proposed rule, as well as some of those opposed, would require that a list of exempt commodities be provided specifically identifying those exempted.[1]

Section 35, provides, in part, that the Commission may, upon application or on its own motion, exempt any specified activity from any requirement of the Shipping Act, 1916, where it finds that such exemption will not substantially impair effective regulation, be unjustly discriminatory, or be detrimental to commerce. Inherent in this section is the requirement that certain findings be made for an exemption to be granted, unless the Commission determines that a particular requirement, on its face, serves such a minor regulatory purpose as to constitute an unjustified burden upon the regulated party.

No compelling reason has been presented or found for an exemption of all or a class of bulk commodities carried in containers from the tariff filing requirements of section 18(b). In fact, it is quite possible that any such exemption could operate in a discriminatory manner. Therefore, the Commission concludes that a waiver in

[1] Obviously, this would be a formidable task in view of the number of separately described cargo items that might warrant exemption in various trades.

the present filing regulations applicable to bulk cargo in containers is not warranted. This conclusion is without prejudice to the right of any party to apply to the Commission for exemption from the tariff filing requirements of a particular bulk commodity.

Therefore, this proceeding is hereby discontinued.

By the Commission.

Francis C. Hurney,

Secretary.

[Docket No.83-114]

A Re-Examination of Technical Regulations; Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of comment/reply comment period.

SUMMARY: This extends the period of time for comments and reply comments in this *Notice of Inquiry and Proposed Rulemaking* relating to re-examination of technical regulations (April 4, 1983; 48 FR 14399). Numerous petitions requesting extension of the comment and reply comment period from industry and associations necessitated this extension.

DATES: Comments must be submitted on or before August 5, 1983. Reply comments must be submitted on or before September 30, 1983.

ADDRESS: Federal Communications Commission, Office of Science & Technology, Technical Analysis Division, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Michael J. Marcus, (202) 632-7040.

Order Extending Time for Filing Comments and Reply Comments

In the matter of: a Re-Examination of Technical Regulations, GEN Docket No. 83-114.

Adopted: April 15, 1983.
Released: April 20, 1983.

1. Pursuant to § 1.46 of the Commission's Rules and Regulations, 47 CFR 1.46, several organizations have filed motions to extend the time for filing comments and reply comments in the above-captioned matter.

2. On April 6, 1983 the National Association of Broadcasters requested "a minimum of four months additional time in which to comment". On April 7, 1983, the Land Mobile Communications Section of the Telecommunications Group of the Electronics Industry Association requested an extension of the Comment date to August 1, 1983 and the reply date to August 30, 1983. On April 7, 1983, Rockwell International Corporation requested an extension of the comment date to December 2, 1983 and the reply comment date to July 6, 1984. On April 8, 1983, American Telephone and Telegraph Company requested an extension of the comment date to August 2, 1983. On April 14, 1983, the Consumer Electronics Group of the Electronic Industries Association requested an extension of the comment date to August 1, 1983 and the reply date to August 30, 1983.

3. The above petitioners raised many issues including the large scope of this proceeding and its significance. It is not the policy of the Commission routinely to grant extensions of time. However, we believe that the complexity and the far-reaching consequences of this matter require full and complete comments to guide the Commission in its decision.

4. Accordingly, *it is ordered,* pursuant to § 0241(d) of the Commission's Rules and Regulations that the date for filing comments in this proceeding be extended to August 5, 1983 and that the date for filing reply comments be extended to September 30, 1983.

Federal Communications Commission.

SUPPLEMENTARY INFORMATION: These ACTION programs are authorized pursuant to Section 211 and 213 of the Domestic Volunteer Service Act of 1973, as amended, Pub. L. 93–113, 87 Stat. 414. The income eligibility levels are determined by the currently applicable guideline published by DHHS pursuant to Sections 652 and 673(2) of the Omnibus Budget Reconciliation Act of 1981 which requires poverty income guidelines to be adjusted for Consumer Price Index changes.

The income eligibility levels will be reviewed at least once a year, and similar schedules will be prepared to reflect any changes required as a result of that review.

For family units with more than eight members, add the appropriate supplement for each additional member over eight as follows:

Alaska—$2,630
Hawaii—2,420
All others—2,100

Signed at Washington, D.C., this 21st day of April, 1983.

Thomas W. Pauken,

Director.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 83–315]

Availability of a Site-Specific Environmental Analysis for the USDA Cooperative Gypsy Moth Suppression and Regulatory Program

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of the availability of site-specific environmental analysis for proposed treatment areas in Illinois, Indiana, Michigan, Minnesota, North Carolina, Ohio, Oregon, Virginia, Washington, and Wisconsin.

SUMMARY: This gives notice of the availability of site-specific environmental analysis for proposed treatment areas in DuPage and Kane Counties, Illinois; Elkhart County, Indiana; Kalamazoo, Muskegon, and Van Buren Counties, Michigan; Ramsey and Washington Counties, Minnesota; Carteret County, North Carolina; Hamilton, Franklin, Knox, and Lucas Counties, Ohio; Salem, Oregon; Clark, King, and Pierce Counties, Washington; Floyd and Patrick Counties, Virginia; and Waukesha County, Wisconsin.

ADDRESSES: Copies of the site-specific environmental analysis for the proposed treatment area(s) in each State are available for public inspection in a State office in the State where the analysis was conducted. Addresses of these State offices are as follows:

Illinois Department of Agriculture, Division of Agriculture Industry Regulation, Bureau of Plant and Apiary Protection, 1010 Jorie Boulevard, Suite 20, Oak Brook, Illinois 60521;

Indiana Department of Natural Resources, 608 Indiana State Office Building, Indianapolis, Indiana 46204;

Michigan Department of Agriculture, Plant Industry Division, P.O. Box 30017, Lansing, Michigan 48909;

Minnesota Department of Agriculture, Division of Plant Industry, 90 West Plato Boulevard, St. Paul, Minnesota 55107;

North Carolina Department of Agriculture, Plant Industry Division, Plant Protection Section, Room 356, Agriculture Building, 1 W. Edenton Street, Raleigh, North Carolina 27611;

Ohio Department of Agriculture, Division of Plant Industry, Department Laboratories, 8995 E. Main Street, Reynoldsburg, Ohio 43068;

Oregon Department of Agriculture, Plant Division, Agriculture Building, Salem, Oregon 97310;

Virginia Department of Agriculture and Consumer Services, Plant Pest Control Section, Division of Product and Industry Regulation, 1100 Bank Street, Room 506, P.O. Box 163, Richmond, Virginia 23209;

Washington Department of Agriculture, Plant Industry Division, 406 General Administration Building, MS:AX–41, Olympia, Washington 98504; and

Wisconsin Department of Agriculture, Trade and Consumer Protection, Plant Industry Division, 801 W. Badger Road, Madison, Wisconsin 53713.

Copies are also available for public inspection at the Field Operations Support Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 663 Federal Building, Hyattsville, MD 20782.

FOR FURTHER INFORMATION CONTACT: Gary E. Moorehead, Staff Officer, Field Operations Support Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 663 Federal Building, Hyattsville, MD 20792, (301) 436–8295.

SUPPLEMENTARY INFORMATION: The USDA draft Programmatic Environmental Impact Statement (PEIS) for the Cooperative Gypsy Moth Suppression and Regulatory Program was submitted to the Environmental Protection Agency (EPA) on November 26, 1980. The public comment period for this document closed January 25, 1981. The final Programmatic Environmental Impact Statement (PEIS) was filed with the EPA on March 6, 1981, and a notice of availability of this document was published in the **Federal Register** on April 28, 1981 (46 FR 23777). The final PEIS was supplemented by a document published in the **Federal Register** on May 14, 1981 (46 FR 26666–26667). The PEIS discussed the national Gypsy Moth Suppression and Regulatory Program and noted that annual site-specific environmental documents would be prepared for the proposed treatment areas. A separate site-specific environmental analysis has been prepared for each of the following proposed treatment areas:

Illinois: approximately 2,700 acres in the counties of DuPage and Kane;

Indiana: approximately 80 acres in the county of Elkhart;

Michigan: approximately 1,240 acres in the counties of Kalamazoo, Muskegon, and Van Buren;

Minnesota: approximately 450 acres in the counties of Ramsey and Washington;

North Carolina: approximately 200 acres in the county of Carteret;

Ohio: approximately 660 acres in the counties of Hamilton, Franklin, Knox, and Lucas;

Oregon: approximately 50 acres in Salem;

Virginia: approximately 4,000 acres in the counties of Floyd and Patrick;

Washington: approximately 2,100 acres in the counties of Clark, King, and Pierce;

Wisconsin: approximately 60 acres in the county of Waukesha.

Each site-specific environmental analysis discusses the environmental effects of the program for those acres that are proposed to be treated in the respective State covered by the document. None of the treatment options discussed for possible use in any of the proposed treatment areas pose any significant adverse impact upon the environment in any of the areas. Further, there are no unique characteristics or aspects of or within the proposed treatment areas that would place any of these areas outside the scope of considerations addressed in the PEIS.

Done at Washington, D.C., this 25th day of April 1983.

Harvey L. Ford,

Deputy Administrator, Plant Protection and Quarantine, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–M

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket No. 10–83; Foreign-Trade Zone 55]

Application for Subzone at Mitel Semiconductor Plant, South Burlington, Vermont

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (the Board) by the Greater Burlington Industrial Corporation (GBIC), A non-profit development corporation and grantee of Foreign-Trade Zone 55, rquesting subzone status for a section of the new manufacturing plant of the Mitel Semiconductor Division of Mitel Corporation, located in South Burlington, Vermont, within the Burlington Customs port of entry. It was formally filed on April 14, 1983.

On February 14, 1980, the Board authorized GBIC to establish a general-purpose zone in the Airport Industrial Park at Burlington International Airport to serve the Greater Burlington area (Board Order 154, 45 FR 12470, 2–26–80). The zone became operational in May 1980, when Mitel began using the facility to test integrated circuits as part of its $200 million worldwide manufacturing operations involving communications products, primarily automatic switching systems. During the past year, Mitel expanded its Burlington operations, opening a new plant to be used for testing and assembly activity formally done abroad. Permanent employment will increase from 40 to 165 persons. The zone was a major factor in the company's decision to expand in the U.S.

Because Mitel's needs can no longer be provided at the general-purpose zone, GBIC is requesting subzone status for a portion of Mitel's new manufacturing plant, which covers 11 acres at 1000 Hinesbury Road, South Burlington, Vermont. The subzone will cover a 20,000 square-foot section of the 90,000 square foot facility, which has been specially designed for the manufacture of integrated circuits. The area requested for subzone status will be used to test and cut semiconductor wafers, connect the wafer chips to lead frames, and encapsulate the frames in insulating material, producing finished integrated circuits for circuit boards. This process requires a "clean room" environment.

Zone procedures will exempt Mitel from duty payments on its exports.

which are over 50 percent of its business. On its domestic sales, the company will be able to defer duty payments and to avoid duty on waste and rejects, which can be as high as 20 percent of incoming material.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report to the Board. The committee consists of: Dennis Puccinelli (Chairman), Foreign-Trade Zones Staff: U.S. Department of Commerce, Washington, D.C. 20230; Edward A. Goggin, Assistant Regional Commissioner, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, Massachusetts 02110; and Colonel Walter M. Smith, Jr., District Engineer, U.S. Army Engineer District New York, 26 Federal Plaza, New York, NY 10278.

Comments concerning the proposed subzone are invited in writing from interested persons and organizations. They should be addressed to the Board's Executive Secretary at the address below and postmarked on or before May 27, 1983.

A copy of the application is available for public inspection at each of the following locations:

Port Director's Office, U.S. Customs Service, Burlington International Airport, Burlington, Vermont 05401; or

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 1872, Washington, D.C. 20230.

Dated: April 22, 1983.

John J. Da Ponte, Jr.,

Executive Secretary.

[FR Doc. 83-11310 Filed 4-27-83, 8:45 am]

BILLING CODE 3510-25-M

Minority Business Development Agency

Indian Business Development Center Program; Applications

AGENCY: Department of Commerce, Minority Business Development Agency.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is soliciting applications under its Indian Business Development Center program to operate one project for a 12 month period beginning October 1, 1983 on the Navajo Reservation. The cost of the project is estimated to be $221,294. The maximum Federal participation amount is $188,100. The minimum amount required for non-federal participation is $33,194. The award number will be 09-10-83017-01.

Applicants shall be required to contribute at least 15% of the total program costs through non-federal funds. Cost sharing contributions can be in the form of cash contributions, fee for services or in-kind contributions.

CLOSING DATE: May 26, 1983.

PROPOSALS ARE TO BE MAILED TO THE FOLLOWING ADDRESS: San Francisco Regional Office, Minority Business Development Agency, U.S. Department of Commerce, 450 Golden Gate Avenue, Box 36114, San Francisco, California 94102.

FOR FURTHER INFORMATION CONTACT: Mikel Cook at 415/556-6733.

SUPPLEMENTARY INFORMATION:

A. Scope and Purpose of this Announcement. Executive Order 11625 authorizes MBDA to fund projects which will provide technical and management assistance to eligible clients in areas related to the establishment and operation of businesses. The MBDC program is specifically designed to assist those minority businesses that have the highest potential for success. In order to accomplish this, MBDA supports MBDC programs that can: coordinate and broker public and private sector resources on behalf of minority individuals and firms; offer them a full range of management and technical assistance; and serve as a conduit through which and from which information and assistance to and about minority businesses are funneled.

B. Eligible Applicants:

Applicants are limited to Indian-owned firms, Indian Tribes, and Indian individuals, profit or non-profit.

—To provide management and technical assistance to qualified Indian firms.

—To develop and maintain an inventory of existing Indian Businesses and prospective entrepreneurs, and

—To provide brokering service that will foster and promote new business ownership, business expansions, market opportunities and new capital sources.

Legal Services are excluded.

C. Evaluation Process. All proposals received as a result of this announcement will be evaluated by a MDBA review panel.

D. Evaluation Criteria for Minority Business Development Center Applications.

The evaluation criteria is designed to facilitate an objective evaluation of competitive applications for the Minority Business Development Center program.

MDBA reserves the right to reject any or all applications, including the application receiving the highest evaluation, and will exercise this right when it is determined that it is in the best interest of the Government to do so (e.g., the apparent successful applicant has serious unresolved audit issues from current or previous grants, contracts or cooperative agreements with an agency of the Federal Government).

Evaluation of proposals will employ the following criteria:

I. *Capability and Experience of Firm/Staff*—provide information that demonstrates the organization's capabilities and prior experiences in addressing the needs of minority business individuals and firms. Provide information that demonstrates the staff's capabilities and prior experiences in providing management and technical assistance to minority individuals and firms. Indicate previous experience in MBE community to be served in terms of: inventorying resources and opportunities; the brokering thereof; and providing management and technical assistance.

The following are key factors to be considered in this section:

Firm

—the organization's receptivity in the MBE community to be served, i.e., business contacts in the public and private sector; leadership responsibilities; and experience in assisting MBE business persons and firms. (References from clients assisted are pertinent.)

—background credentials and references for the owners of the organization and a capability statement of what the organization can do.

—knowledge of the geographic area to be served in terms of the needs of minority businesses and past ongoing relationships with local, public and private—entities that can possibly enhance the BDC program effort—i.e., Chambers of Commerce, trade associations, venture capital organizations, banks, SBA, HUD, state, city and county government agencies, etc.

Staff

—List personnel to be used. Indicate their salaries, educational level and previous experience. Provide resumes for all professional staff personnel.

—Demonstrate competence among staff to effectuate mergers, acquisitions, spin-offs and joint-ventures.

—Provide organizational chart, job descriptions and qualification standards involving all professional staff persons to be utilized on the project.

—If any contractors are to be utilized, identify and indicate areas and level of experience. *Primary consideration will be given to inhouse capability.*

Note.—All contracting proposed should be in accordance with procurement standards in

Attachment O of OMB Circulars A–110 or A–102.

II. *Techniques and Methodology*—specify plans for achieving the goals and objectives of the project. This section should be developed by using the outline of the Work Requirements and the MBDC responsibilities as *guides* and will become part of the award document. Include start-up plan and example of work plan format. Fully explain the procedures for: outreach, screening, assisting and monitoring clients; maintaining the profile inventory of minority businesses; and brokering of new business ownership, market and capital opportunities and prevention of business failures. In summary, address how, when and where work will be done and by whom. Include level of performance.

III. *Resources*—address technical and administrative resources, i.e., computer facilities, voluntary staff time and space; and financial resources in terms of meeting MBDA's 10 percent cost-sharing requirement and including a fee for services for assistance provided clients. A fee for services in the amount of 10 percent of the cost of assistance will be charged to all clients receiving management and technical assistance.

Cost-sharing is that portion of project costs not borne by the Federal Government. The composition and amount of cost-sharing are key factors that will be considered in determining the merit of this section. The cost sharing requirement can be met through the following order or priority: (1) cash contributions; (2) fee for services; and (3) in-kind contributions.

A. *Cash contribution*—means cash that is contributed or donated by the recipient, and other non-Federal sources, i.e., public agencies and institutions, private organizations, corporations and individuals.

B. *Fee for services*—is a charge to a client for assistance provided by the MBDC for M&TA and/or SCS.

C. *In-Kind contribution*—represents the value of non-cash contributions provided by the recipient and other non-Federal sources. The order of priority for in-kind contributions are: high technology systems to be utilized to achieve program objectives; top level staff personnel and real and personal property donated by other public agencies, institutions and private organizations. Property purchased with Federal funds will not be considered as the recipient's in-kind contribution. Under no circumstances can the in-kind contribution exceed 50 percent of the total non-Federa contribution.

IV. *Costs*—demonstrate in narrative format that costs being proposed will give the minority business client and the government the most effective program possible in terms of quality, quantity, timeliness and efficiency.

Include the principal costs involved for achieving work plan under Cooperative Agreement by completing Part III—the Budget Information Section of the Request for Application.

Provide cost-sharing plan information in terms of methodology and format for billing the costs of management and technical assistance and specialized consulting services to clients.

Total project cost will be evaluated in terms of:

—Clear explanations of all expenditures proposed, and

—The extent to which the applicant can leverage Federal program funds and operate with *economy* and *efficiency*.

In conclusion, the applicant's schedule for start of the MBDC operation should be included in Part II. Part II will be known as the applicant's plan of operation and will be incorporated into the Cooperative Agreement Award.

A detailed justification of all proposed costs is required for Part III and each item must be fully explained.

The failure to supply information in any given category of the criteria will result in the application being considered non-responsive and dropped from competitive review.

All information submitted is subject to verification by MBDA.

E. Disposition of Proposals. Notification of awards will be made by the Grants Officer, U.S. Department of Commerce (DOC). Organizations whose proposals are unsuccessful will be advised by MBDA, DOC.

F. Proposal Instructions and Forms. This program is subject to OMB Circular A–95 requirements.

Questions concerning the preceding information, copies of application forms, and applicable regulations can be obtained at the above address.

Nothing in this solicitation shall be construed as committing MBDA to divide available funds among all qualified applicants.

G. A pre-application conference to assist all interested applicants will be held at the Sheraton Airport Inn, 2901 Sky Harbor Blvd., Phoenix, Arizona, Kiva Room number two on May 10, 1983, at 1:30 P.M.

11.800 Minority Business Development (Catalog of Federal Domestic Assistance).

Dated: April 20, 1983.

Powell McDaniel,

Acting Regional Director.

BILLING CODE 3510–22–M

National Marine Fisheries Services; Issuance of Permit

On March 21, 1983, Notice was published in the **Federal Register** (48 FR 11734), that an application had been filed with the National Marine Fisheries Service by Dr. Allan T. Sholtz, Department of Biology, Eastern Washington University, Cheney, Washington 99004, to take by tagging and/or marking 105 harbor seals (*Phoca vitulina*) for the purpose of scientific research.

Notice is hereby given that on April 21, 1983, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Scientific Research Permit for the above taking to Dr. Allan T. Scholtz subject to certain conditions set forth herein.

The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service,

3300 Whitehaven Street, NW.,
Washington, D.C. 20235; and
Regional Director, Northwest Region,
National Marine Fisheries Service,
7600 Sand Point Way, NE., BIN
C15700, Seattle, Washington 98115.

Dated: April 21, 1983.

Robert B. Brumsted,

Acting Director, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service.

[FR Doc. 83-11362 Filed 4-27-83; 8:45 am]

BILLING CODE 3510-22-M

National Marine Fisheries Service; Receipt of Modification Request to Permit No. 370 (P66F)

Notice is hereby given that Alaska Department of Fish and Game, P.O. Box 3–2000, Juneau, Alaska 99802, has requested a modification of Permint No. 370 issued on March 2, 1982 (47 FR 10071) as modified on June 17, 1982 (47 FR 2700) under the authority of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1316–1407), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

The Department of Fish and Game is requesting authorization to inject each authorized captured belukha whale (*Delphinapterus leucas)* with tetracycline in order to produce an identifiable band in bony structures.

The Applicant also requested a modification in the techniques for attaching radio packages to the belukhas. He will use a harness to temporarily attach two OAR transmitters to whales. A satellite-linked transmitter may also be attached using a harness. The harness will incorporate corrosible links which will cause them to be released from the whale after the desired time interval

Concurrent with the publication of this notice in the **Federal Register**, the Secretary of Commerce is forwarding copies of the modification request to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this modification request should be submitted tot the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for fisheries.

All statements and opinions contained in this request are summarizes of those of the applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documentation pertaining to the above modification request is available for review in the following offices:

Assistant Administrator for Fisheries,
National Marine Fisheries Service,
3300 Whitehaven Street NW.,
Washington, D.C.; and
Regional Director, National Marine
Fisheries Service, Alaska Region, P.O.
Box 1668, Juneau, Alaska 99802.

Dated: April 25, 1983.

R. B. Brumsted,

Acting Director, Office of Protected Species & Habitat Conservation National Marine Fisheries Service.

BILLING CODE 3510-22-M

Pacific Fishery Management Council; Public Meeting With a Partially Closed Session and Public Meetings of Its Salmon Advisory Subpanel and Its Scientific and Statistical Committee

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

ACTION: Notice of public meetings with a partially closed session.

SUMMARY: This notice sets forth the schedule and proposed agendas of the forthcoming separate public meetings of the Pacific Fishery Management Council, its Salmon Advisory Subpanel, and its Scientific and Statistical Committee (SSC). The Council was established by Section 302 of the Magnuson Fishery Conservation and Management Act (Pub. L. 94–265, as amended), and the Council has established a Salmon Advisory Subpanel and a SSC to assist the Council in carrying out its responsibilities.

DATES: May 10–12, 1983.

ADDRESS: The meetings will take place at the Hyatt Hotel, 17001 Pacific Highway South, Seattle, Washington,

FOR FURTHER INFORMATION CONTACT: Pacific Fishery Management Council, 526 S.W. Mill Street, Second Floor, Portland, Oregon 97201, Telephone: (503) 221–6352.

Agendas

Council (open session) May 11–12, 1983 (9 a.m. to 5 p.m., on May 11; 8 a.m. to 5 p.m., on May 12) in the Phoenix A and B Room. Review second draft of Anchovy Plan Amendment 5 which, among other things, would allow use of the new egg production method for estimating spawning biomass; consider the status of a proposed Groundfish Plan Amendment, experimental fishing permits and groundfish catch reporting schedules; consider the status of emergency regulations to implement the 1983 Salmon Plan Amendment and complementary state salmon regulations; review comments and provide guidance on the 1984 Salmon Framework Plan Amendment; consider other matters which may come before the Council by that date, and conduct a public comment period beginning at 3 p.m., on May 11.

Council (closed session)—May 11, 1983 (8 a.m. to 9 a.m.) in the Phoenix A and B Room. Discuss the status of fishery negotiations between the U.S. and Canada, whereby only those Council members and staff having security clearances will be allowed to attend this closed session. Personnel matters will also be discussed.

Salmon Advisory Subpanel (open session)—May 11, 1983 (1 p.m. to 5 p.m.) in the Phoenix E Room. Draft recommendations to the Council on the 1984 Salmon Framework Plan Amendment and conduct a public comment period beginning at 3 p.m., on May 11.

SSC (open session)—May 10–11, 1983 (10 a.m. to 5 p.m., on May 10; 8 a.m. to 5 p.m., on May 11) in the Phoenix D Room. Review second daft of Anchovy Amendment No. 5 and 1984 Salmon Framework Amendment; discuss other matters that may be referred to the Committee by that date and conduct a public comment period at 3:30 p.m., on May 10. All sessions of the meetings are open to the public, except as indicated.

Dated: April 25, 1983.

Alfred J. Bilik,

Acting Chief, Fees, Permits and Regulations Division, National Marine Fisheries Service

BILLING CODE 3910-01-M

Military Traffic Management Command, Directorate of Personal Property; International Household Goods Program

AGENCY: Military Traffic Management Command, Defense.

ACTION: Notice of decision on the over-ocean rate adjustment policies and procedures of international through government bill of lading shipments of Department of Defense household goods. Notice of proposed action was first given in Vol. 48, FR 7773-7774, February 24, 1983.

SUMMARY: In response to forwarder concerns over the applicability of unrestricted rates, MTMC initiated a review of rate adjustment procedures. This review involved an internal operational review and economic analysis and included a public dialogue to provide the forwarder industry with an opportunity to provide comments.

Industry response to the public dialogue supported MTMC's position that, in view of the trend toward use of unrestricted rates, the present procedure is administratively cumbersome and subject to manipulation. Continuation of a modified rate adjustment procedure was recommended by a majority of those responding.

(1) Thirteen individual forwarders and the Household Goods Forwarders Association recommended a modified procedure using only restricted (military) rates.

(2) Five forwarders recommended elimination of the procedure.

(3) Three forwarders recommended retention of current procedures.

After careful consideration of industry comments, and our own analysis, MTMC concludes that the proposal to limit the rate adjustment procedures to restricted rates only is not consistent with our responsibility to obtain the lowest applicable rate.

It is considered that continuation of the current procedure would not be in consonance with the intent of Congress as expressed in the Household Goods Transportation Act of 1980.

MTMC's action is to terminate the ocean rate adjustment program effective for International Government Bill of Lading (ITGBL) Volume 47 (October 1983).

A letter from MTMC to each individual forwarder and association has been sent to explain this decision.

FOR FURTHER INFORMATION CONTACT: LTC Tommy R. Mason, HQ, Military Traffic Management Command, ATTN: MT-PPC (Room 408), 5611 Columbia Pike, Falls Church, Virginia 22041, (202) 756-1164.

This determination has been made pursuant to the authority of 10 U.S.C., Sections 2301-2314 and DOD Directive 4500.9 and DOD 4500.34-R. This notice has been approved by Nathan R. Berkley, Colonel, GS, Director of Personal Property.

M. S. Healy,

BILLING CODE 3810-01-M

April 21, 1983.

DEPARTMENT OF ENERGY

Office of the Secretary

National Petroleum Council, Chemical Task Group of the Committee on Enhanced Oil Recovery; Meeting

Notice is hereby given that the Chemical Task Group of the Committee on Enhanced Oil Recovery will meet in May 1983. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on Enhanced Oil Recovery will investigate the technical and economic aspects of increasing the Nation's petroleum production through enhanced oil recovery. Its analysis and findings will be based on information and data to be gathered by the various task groups. The time, location, and agenda of the Chemical Task Group meeting follows:

The Chemical Task Group will hold its sixth meeting on Monday and Tuesday, May 16 and 17, 1983, and starting at 10:00 a.m. each day, in Room 112, Phillips Petroleum Company, Research Forum, Bartlesville, Oklahoma.

The tentative agenda for the Chemical Task Group Meeting follows:

1. Opening remarks by the Chairman and Government Cochairman.

2. Review progress of Task Group study assignments.

3. Discuss any other matters pertinent to the overall assignment from the Secretary of Energy.

The meeting is open to the public. The Chairman of the Chemical Task Group is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the pulbic who wishes to file a written statement with the Chemical Task Group will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform G. J. Parker, Office of Oil, Gas and Shale Technology, Fossil Energy, 301/353-3032, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 1E-19D, DOE Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C., between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C., on April 22, 1983.

Donald L. Bauer,

Principal Deputy Assistant Secretary for Fossil Energy.

[FR Doc. 83-11330 Filed 4-27-83; 8:45 am]

BILLING CODE 6450-01-M

National Petroleum Council, Coordinating, Subcommittee of the Committee on Enhanced Oil Recovery; Meeting

Notice is hereby given that the Coordinating Subcommittee of the NPC Committee on Enhanced Oil Recovery will meet in June 1983. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on Enhanced Oil Recovery will investigate the technical and economic aspects of increasing the Nation's petroleum production through enhanced oil recovery. Its analysis and findings will be based on information and data to be gathered by the various task groups. The time, location, and agenda of the Coordinating Subcommittee meeting follows:

The Coordinating Subcommittee will hold its eighth meeting on Wednesday, June 1, 1983, starting at 8:30 a.m., in the Conference Room of Marathon Oil Company, Denver Research Center, 7400 South Broadway, Littleton, Colorado.

The tentative agenda for the Coordinating Subcommittee meeting follows:

1. Opening remarks by the Chairman and Government Cochairman.
2. Discuss study assignments.
3. Review task group study assignments.
4. Discuss any other matters pertinent to the overall assignment from the Secretary of Energy.

The meeting is open to the public. The Chairman of the Coordinating Subcommittee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Coordinating Subcommittee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Gerald J. Parker, Office of Oil, Gas and Shale Technology, Fossil Energy, 301/353-2918, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 1E-190, DOE Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C., between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C., on April 22, 1983.

Donald L. Bauer,

Principal Deputy Assistant Secretary for Fossil Energy.

BILLING CODE 6450-01-M

National Petroleum Council, Costs and Economics Task Group of the Committee on Enhanced Oil Recovery; Meeting

Notice is hereby given that the Costs and Economics Task Group of the Committee on Enhanced Oil Recovery will meet in May 1983. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on Enhanced Oil Recovery will investigate the technical and economic aspects of increasing the Nation's petroleum production through enhanced oil recovery. Its analysis and findings will be based on information and data to be gathered by the various task groups. The time, location and agenda of the Costs and Economics Task Group meeting follows:

The Costs and Economics Task Group will hold its sixth meeting on Tuedsay, May 31, 1983, starting at 9:00 a.m., in The Winter Park Room of the Denver Hilton Inn South, 7801 East Orchard Road, Englewood, Colorado.

The tentative agenda for the Costs and Economics Task Group meeting follows:

1. Opening remarks by the Chairman and Government Cochairman.
2. Review progress of Task Group study assignments.
3. Discuss any other matters pertinent to the overall assignment from the Secretary of Energy.

The meeting is open to the public. The Chairman of the Costs and Economics Task Group is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Costs and Economics Task Group will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform G.J. Parker, Office of Oil, Gas, and Shale Technology, Fossil Energy, 301/353/3032, prior to the meeting and reasonable provisions will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 1E-190, DOE Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C. on April 22, 1983.

Donald L. Bauer,

Principal Deputy Assistant Secretary for Fossil Energy.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. TA83–1–20–010]

Algonquin Gas Transmission Co.; Rate Filing Under Rate Schedule STB and Rate Schedule ST–T

April 25, 1983.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas") on April 11, 1983, tendered for filing Third Revised Sheet No. 10–D, Ninth Revised Sheet No. 10–C, Fourth Revised Sheet No. 10–D, Fourth Revised Sheet No. 32 and First Revised Sheet No 51 to its FERC Gas Tariff, First Revised Volume No. 1.

Algonquin Gas states that Third Revised Sheet No. 10–D, Ninth Revised Sheet No. 10–C and Fourth Revised Sheet No 10–D are being filed to reflect in Algonquin Gas' Rate Schedules STB and ST–T, changes in Texas Eastern Transmission Corporation's ("Texas Eastern") underlying Rate Schedules SS–II and ISS–II. Algonquin Gas states that Fourth Revised Sheet No. 32 and First Revised Sheet No. 51 are being filed to reflect an increase from 1.43 cents to 2.94 cents under Section 6.4 and from 2.86 cents to 5.88 cents under Section 6.3, ("Basic Withdrawal Quantity Adjustment") of the Rate Schedule STB and ST–T Provisions, respectively, of Algonquin Gas' FERC Gas Tariff, First Revised Volume No. 1. Algonquin Gas further states that such changes were inadvertently omitted from its January 25, 1983 and March 14, 1983 filings pursuant to its Purchased Gas Cost Adjustment Provisions set forth in Section 17 of the General Terms and Conditions of its FERC Gas Tariff, First Revised Volume No. 1.

Algonquin Gas respectfully requests that the Commission grant any requisite special permissions to allow Third Revised Sheet No. 10–D to become effective February 1, 1983 and Ninth Revised Sheet No. 10–C, Fourth Revised Sheet No. 10–D, Fourth Revised Sheet No. 32, and First Revised Sheet No. 51 to become effective February 15, 1983, the same dates as the underlying rate changes from Texas Eastern.

Algonquin Gas notes that a copy of this filing is being mailed to each affected party and interested state commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions of protests should be filed on or before May 4, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretay.

[FR Doc. 83–11396 Filed 4–27–83; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. TC83–7–000]

Consolidated Gas Supply Corp.; Tariff Filing

April 25, 1983.

Take notice that on April 18, 1983, Consolidated Gas Supply Corporation (Consolidated) 445 West Main Street, Clarksburg, West Virginia 26301, tendered for filing in Docket No. TC83–7–000 First Revised Sheet No. 60, superseding Original Sheet No. 60 to its FERC Gas Tariff, Third Revised Volume No. 1. The proposed change would amend § 11.03(a) of the general terms and conditions of Consolidated's tariff so that, in the event of a gas shortage

curtailment, the base industrial requirements of each of Consolidated's customers would be determined according to the total of that customer's industrial consumer's usage "during the highest 12 consecutive calendar months for which actual data are available preceding a gas shortage curtailment program."

Consolidated's current tariff provision fixes industrial base period requirements based on a 12-month period ending September 1974. This provision was inserted in late 1974, when Consolidated was required to institute a gas shortage curtailment. Consolidated states that in view of the passage of time since the last curtailment and the likelihood that such a curtailment would not again be necessary for many years in the future, Consolidated proposes the above amendment to reinstate the language used in its tariff prior to 1974.

Any person desiring to be heard or to make any protest with reference to said tariff filing should on or before May 6, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 383.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717-01-M

[Project No. 5898-001]

Consulting Associates, Inc.; Surrender of Preliminary Permit

April 22, 1983.

Take notice that Consulting Associates, Inc., Permittee for the proposed Bliss Diversion Project No. 5898, has requested that its preliminary permit be terminated. The Preliminary Permit was issued on July 1, 1982, and would have expired on February 1, 1984. The project would have been located on the North Side Canal near Gooding, in Gooding County, Idaho.

The Permittee's request was filed on March 22, 1983, and the surrender of its permit for Project No. 5898 is deemed effective as of the date of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-11407 Filed 4-27-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. GT83-15-000]

El Paso Natural Gas Co.; Tariff Filing

April 25, 1983.

Take notice that on April 11, 1983, El Paso Natural Gas Company ("El Paso") tendered for filing, pursuant to Part 154 of the Federal Energy Regulatory Commission ("Commission") Regulations Under the Natural Gas Act, the following tariff sheets to its FERC Gas Tariff, Original Volume No. 1 and Third Revised Volume No. 2.

Original Volume No. 1

Twenty-seventh Revised Sheet No. 93
Twenty-eighth Revised Sheet No. 94
Twenty-second Revised Sheet No. 95
Ninth Revised Sheet No. 95-A

Original Volume No. 2

Fifteenth Revised Sheet No. 1-B
Twelfth Revised Sheet No. 1-C
Second Revised Sheet No. 1-C.1
Fifth Revised Sheet No. 1-C.2
Second Revised Sheet No. 1-C.3
Fourth Revised Sheet No. 1-C.4
First Revised Sheet No. 1-C.5
Fourth Revised Sheet No. 1-C.6
Third Revised Sheet No. 1-C.7
Second Revised Sheet Nos. 1-C.8 and 1-C.9

El Paso states that the tendered revised tariff sheets, when accepted for filing and permitted to become effective, will provide a current Index of Purchasers for El Paso's Original Volume No. 1 Tariff and a current Table of Contents of El Paso's Third Revised Volume No. 2 Tariff.

In addition to the foregoing, El Paso also tendered a revised cover sheet for each volume of El Paso's FERC Gas Tariff (Original Volume No. 1, Third Revised Volume No. 2, and Original Volume No. 2A) in order to reflect that communications concerning the tariff should be sent to Mr. W. V. Holik, President of El Paso Natural Gas Company.

El Paso has requested that the tendered revised tariff sheets be accepted for filing and permitted to become effective after thirty (30) days following the date of filing.

El Paso further states that copies of the instant tariff tender have been served upon all interstate pipeline system customers of El Paso and interested state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said tariff filing should, on or before May 4, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C., 20426, a motion to intervene or a protest in accordance with the requirements of Rule 214 or Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). Protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding must file a motion to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 83-11408 Filed 4-27-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TA83-2-48-001]

Michigan Wisconsin Pipe Line Co.; Proposed Changes in F.E.R.C. Gas Tariff

April 25, 1983.

Take notice that on April 13, 1983, Michigan Wisconsin Pipe Line Company ("Michigan Wisconsin"), tendered for filing Substitute Eighteenth Revised Sheet No. 7 to its F.E.R.C. Gas Tariff, Original Volume No. 1, to be effective May 1, 1983.

Michigan Wisconsin states that effective April 12, 1983, the Government of Canada announced that the border price of natural gas exported to the United States would be reduced by 11% from $4.94 (U.S.) per MMBtu to $4.40 (U.S.) per MMBtu and that such reduction will have a beneficial impact on the rates charged by Michigan Wisconsin to its customers—the reduction in the Canadian border price will reduce Michigan Wisconsin's resale rates by 4.82¢ per dekatherm ("dth"). Michigan Wisconsin states that it proposes by the instant filing to implement such reduction effective May 1, 1983. Michigan Wisconsin further states that the reduction in the Canadian border price for the period April 12, 1983—April 30, 1983 will be credited to its Account No. 191, and will be reflected in Michigan Wisconsin's purchased gas adjustment filing to be made effective November 1, 1983.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211

and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such petitions or protests should be filed on or before May 4, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any party wishing to become a party to the proceeding must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 83-11409 Filed 4-27-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP83-269-000]

Mountain Fuel Supply Co.; Application

April 25, 1983.

Take notice that on April 11, 1983, Mountain Fuel Supply Company (Applicant), P.O. Box 11368, Salt Lake City, Utah 84139, filed in Docket No. CP83-269-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of two main line distribution sales taps and related facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate two 2-inch main line distribution sales taps and appurtenances including metering and regulation facilities. Applicant states that said taps would be located on Applicant's 20-inch Main Line No. 1 and 18-inch Main Line No. 13, Sweetwater County, Wyoming, and would be used for the purpose of delivering natural gas sold by Applicant's Distribution Division to Harborlite Corporation (Harborlite). It is stated that the gas sold to Harborlite would be used primarily for production process heat in the refining of perlite ore. Applicant further states that the sale of natural gas to Harborlite would be pursuant to Applicant's existing Public Service Commission of Wyoming Rate Schedule F-1.

Applicant states that Harborlite estimates its maximum daily requirement for natural gas to be 415.2 Mcf. Applicant asserts that the volumes to be supplied to Harborlite would be made available by Applicant from general system supply and do not constitute an expansion of service.

It is asserted that the total estimated cost for the proposed main line distribution sales taps and appurtenant facilities is $14,662, which would be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said applicant should on or before May 16, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice, that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-11410 Filed 4-27-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TA83-1-26-003 (PGA83-1, IRP83-1)]

Natural Gas Pipeline Co. of America; Changes in Rates

April 22, 1983.

Take notice that on April 18, 1983, Natural Gas Pipeline Company of America (Natural) submitted for filing Third Substitute Forty-ninth Revised Sheet No. 5 to be part of its FERC Gas Tariff, Third Revised Volume No. 1.

Natural states the purpose of this filing is to implement an additional 1.75¢ per Mcf decrease in the PGA unit adjustment effective March 1, 1983. Natural had previously filed on March 28, 1983, seeking an 8.95¢ decrease in the PGA unit adjustment effective on March 1. This filing was noticed by the Commission on April 1, 1983.

Natural states the additional PGA unit adjustment is attributable to the announced 11% reduction in the Canadian export price to $4.40 (U.S.) per thousand cubic feet.

Natural requests any additional waivers of the Commission's regulations to the extent, if any, required to put the proposed tariff sheets into effect on March 1, 1983. Further, due to the nature of the proposed reduction, Natural has requested that the notice period for motion or protest of this filing be shortened to three days.

A copy of this filing has been mailed to Natural's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed on or before April 27, 1983. Protests will be considered by the Commission in determining parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ST81-215-001]

Northwest Pipeline Corp.; Extension Reports

April 25, 1983.

The companies listed below have filed extension reports pursuant to Section 311 of the National Gas Policy Act of 1978 (NGPA) and Part 284 of the Commission's regulations giving notice of their intention to continue transportation and sales of natural gas for an additional term of up to 2 years. These transactions commended on a self-implementing basis without case-by-case Commission authorization. The Commission's regulations provide that the transportation or sales may continue for an additional term if the Commission does not act to disapprove or modify the proposed extension during the 90 days

preceding the effective date of the requested extension.

The table below lists the name and addresses of each company selling or transporting pursuant to Part 284; the party receiving the gas; the date that the extension report was filed; and the effective date of the extension. A letter "B" in the Part 284 column indicates a transportation by an interstate pipeline which is extended under § 284.105. A letter "C" indicates transportation by an intrastate pipeline extended under § 284.125. A "D" indicates a sale by an intrastate pipeline extended under § 284.146. A "G" indicates a transportation by an interstate pipeline pursuant to § 284.221 which is extended under § 284.105. A "G(HS)" indicates transportation, sales or assignments by a Hinshaw Pipeline pursuant to a blanket certificate issued under § 284.222 of the Commission's Regulations.

Any person desiring to be heard or to make any protest with reference to said extension report should on or before May 23, 1983 file with the Federal Energy Regulatory Commission, Washington D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214).

All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants party to a proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. TA83-3-37-002; PGA 83-3]

Northwest Pipeline Corporation; Proposed Change in Rates Pursuant to Purchased Gas Cost Adjustment

April 22, 1983.

Take notice that on April 15, 1983, Northwest Pipeline Corporation ("Northwest") tendered for filing a proposed change in rates applicable to service rendered under rate schedules affected by and subject to Article 16, Purchased Gas Cost Adjustment Provision ("PGAC") contained in its FERC Gas Tariff, First Revised Volume No. 1. The proposed change is for the purpose of reflecting a decrease in the cost of purchased gas of $65.5 million resulting from a decrease in the Canadian export price to $4.40 per MMBtu. Said price was established by Order in Council P. C. 1983-1056 dated April 11, 1983 of the National Energy Board of the Dominion of Canada to be effective April 11, 1983. The impact of the new export price is more fully detailed and explained in the instant filing.

Northwest requests permission under its PGA Provision referenced above and waiver of applicable Commission regulations in order to receive an effective date for Second Amended Eighth Revised Sheet No. 10, tendered herein, of April 11, 1983.

Copies of this filing have been served on Northwest's jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before April 27, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. SA83-8-000]

Panhandle Eastern Pipe Line Co.; Application for an Adjustment

April 25, 1983.

Take notice that on February 28, 1983, Panhandle Eastern Pipe Line Company (Panhandle), 3000 Bissonnet Ave., Houston, Texas 77001, filed in Docket No. SA83-8-000 an application for an adjustment pursuant to Section 502(c) of the Natural Gas Policy Act of 1978 (NGPA) and Subpart K of Part 385 of the Commission's Rules of Practice and Procedure for a permanent exemption from the filing requirements of § 281.204(b)(2) of the Commission's regulations, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Panhandle states that the collection and review of data and preparation of the annual update of its index of customer requirements under § 281.204(b)(2) requires substantial time and expense on the part of agriculture users, Panhandle's customers, Panhandle and the Data Verification Committee.

Panhandle states that it anticipates that it would be able to meet the full requirements of its customers in the near term, as indicated in Panhandle's Form 16 filed September 30, 1982, and Form 15

for the year ended December 31, 1981. Therefore, Panhandle submits that annual compliance with the filing requirements of § 281.204(b)(2) is currently unnecessary and would result in special hardship and an unfair distribution of burdens to its customers, as well as Panhandle.

Panhandle states that prior to the filing of this application, Panhandle has made all of the requisite filings pursuant to Section 401 of the NGPA and the Commission's regulations thereunder, the most recent being made September 15, 1982, in accordance with provisions of the Commission's Order No. 145. Panhandle states, however, since it would be able to meet its customers' requirements in the near term, no valid purpose would be served by compliance with the filing requirements of § 281.204(b)(2).

The procedures applicable to the conduct of this adjustment proceeding are found in Subpart K of Part 385 of the Commission's Rules of Practice and Procedure. Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of such Subpart K. All petitions to intervene must be filed within 15 days after publication of this notice in the **Federal Register.**

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP83-54-001]

South Georgia Natural Gas Co.; Changes in FERC Gas Tariff

(April 25, 1983).

Take notice that South Georgia Natural Gas Company (South Georgia), on April 15, 1983 tendered for filing proposed changes in its FERC Gas Tariff, First Revised Volume No. 1.

South Georgia states that a general rate increase was filed in Docket No. RP83-54 on March 1, 1983 with a proposed effective date of April 1, 1983. By its order issued March 31, 1983 the Commission accepted the revised tariff sheets for filing and suspended their effectiveness until September 1, 1983 subject to South Georgia's filing revised tariff sheets reflecting an allowance for cash working capital as provided for in the Stipulation and Agreement in Docket No. RP82-46. The purpose of this filing is to revise the allowance for cash working capital in this docket as provided for in the Stipulation and Agreement in Docket No. RP82-46, which was approved by the Commission on March 2, 1983.

Copies of this filing have been served upon South Georgia's jurisdictional customers and interested state public service Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N. E., Washington, D. C., 20426 in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before May 5, 1983. Petitions will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filling are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[Docket No. TA83-2-41-001; PGA83-4]

Southwest Gas Corp.; Change in Rates Pursuant to Purchase Gas Cost Adjustment

April 25, 1983.

Take notice that Southwest Gas Corporation ("Southwest") on April 18, 1983, tendered for filing Nineteenth Revised Sheet No. 10 pursuant to Section 9, Purchase Gas Adjustment Clause ("PGA"), of the General Terms and Conditions contained in its FERC Gas Tariff, Original Volume No. 1. The purpose of said filing is to reflect a decrease in rates occasioned by a decrease in rates from Southwest's, northern Nevada sole supplier of gas, Northwest Pipeline Corporation, resulting from a reduction in the cost of gas Northwest purchases from Canadian sources.

Southwest states that a copy of this filing has been mailed to the Nevada Public Service Commission, the California Public Utilities Commission, Sierra Pacific Power Company and CP National.

Any person desiring to be heard, or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before May 4, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP83-235-000]

Tennessee Gas Pipeline Co., a Division of Tenneco Inc.; Application

April 25, 1983.

Take notice that on March 16, 1983, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP83-235-000 an application pursuant to Section 7(c) of the Natural Gas Act and Subpart F of Part 284 of the Commission's Regulations for a certificate of public convenience and necessity authorizing the transportation of up to 15,000 Mcf of natural gas per day for Public Service Electric & Gas Corporation (PSE&G) for a term of sixty consecutive days from the date of initial deliveries, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport daily volumes of up to 15,000 Mcf of natural gas to PSE&G for a 60-day term commencing on the date of initial deliveries to enable it to reduce the use of fuel oil in the generation of electric energy at its electric generation stations. Applicant states that the gas to be transported would be purchased by PSE&G from New Yprk State Electric & Gas Corporation (NYSEG) and made available for transportation at Applicant's existing Lockport sales meter station delivery point to NYSEG in Niagara County, New York. Applicant states that it would redeliver equivalent quantities to PSE&G at Applicant's existing Ramsey sale meter station delivery point to PSE&E in Bergen County, New Jersey. Applicant states that the gas would be transported only to the extent its operating conditions and available capacity permit.

Applicant proposes to charge PSE&G the rate contained in Applicant's Rate Schedule IT which is currently 21.32 cents per Mcf.

Applicant states that the subject gas would be used by PSE&G solely to displace fuel oil it would otherwise use in its electric generating stations and

that the source of the gas to be sold is NYSEG's general system supply which NYSEG purchases from Applicant and which, it is indicated, is surplus to NYSEG's market requirements.

Applicant further states that on March 7, 1983, PSE&G received a certificate of eligible use from the Economic Regulatory Administration in ERA Docket No. 83–CERT–004.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16,1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the produre herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. SA83–9–000]

Trunkline Gas Co.; Application for an Adjustment

April 25, 1983.

Take notice that on February 28, 1983, Trunkline Gas Company (Trunkline), 3000 Bissonnet Ave., Houston, Texas 77001, filed in Docket No. SA83–9–000 an application for an adjustment pursuant to Section 502(c) of the Natural Gas Policy Act of 1978 (NGPA) and Subpart K of Part 385 of the Commission's Rules of Practice and Procedure for a permanent exemption from the filing requirements of § 281.204(b)(2) of the Commissions regulations all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Trunkline states that the collection and review of data and preparation of the annual update of its index of customer requirements under § 281.204(b)(2) requires substantial time and expense on the part of agricultural users, Trunkline's customers, Trunkline and the Data Verification Committee.

Trunkline states that it anticipates that it would be able to meet the full requirements of its customers in the near term, as indicated in Trunkline's Form 16 filed September 30, 1982, and Form 15 for the year ended December 31, 1981. Therefore, Trunkline submits that annual compliance with the filing requirements of § 281.204(b)(2) is currently unnecessary and would result in special hardship and an unfair distribution of burdens to its customers, as well as Trunkline.

Trunkline states that prior to the filing of this application Trunkline has made all of the requisite filings pursuant to Section 401 of the NGPA and the Commission's regulations thereunder, the most recent being made on September 15, 1982, in accordance with provisions of the Commission's Order No. 145. Trunkline states, however, since it would be able to meet its customer's requirements in the near term, no valid purpose would be served by compliance with the filing requirements of § 281.204(b)(2).

The procedures applicable to the conduct of this adjustment proceeding are found in Subpart K of Part 385 of the Commission's Rules and Practice and Procedure. Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of such Subpart K. All petitions to intervene must be filed within 15 days after publication of this notice in the **Federal Register**.

BILLING CODE 1505–01–M

[W–8–FRL 2339–5]

Issuance of Final General NPDES Permit for Concentrated Animal Feeding Operations in Utah

AGENCY: Environmental Protection Agency.

ACTION: Notice of final general NPDES permit.

SUMMARY: The Regional Administrator of Region VIII is today issuing a final general National Pollutant Discharge Elimination System (NPDES) permit for certain dischargers in the Feedlots Point Source Category. This general NPDES permit establishes effluent limitations, standards, prohibitions and other conditions on dischanges from concentrated animal feeding operations, commonly known as animal "feedlots," that discharge the same types of wastes, involve similar operations and are appropriately controlled by the same effluent limitations. The animal feedlots covered by this permit are located in the State of Utah.

A notice of intent to issue a general NPDES permit for concentrated animal feeding operations in Utah was published in the **Federal Register** on August 4, 1981. (46 FR 39670). Region VIII received no significant public comments on either the notice or the draft general permit and hereby reprints a copy of the final general permit, as required by 40 CFR 122.28.

EFFECTIVE DATE: May 31, 1983.

FOR FURTHER INFORMATION CONTACT: For further information and copies of the final permit and fact sheet contact: Marshall Fischer, Region VIII, U.S. Environmental Protection Agency, Compliance Branch, Water Management Division, 1860 Lincoln Street, Denver, Colorado 80295; (303) 837–4901.

SUPPLEMENTARY INFORMATION: *General Permit Authorization Under the National Pollutant Discharge Elimination System for Existing Concentrated Animal Feeding Operations in Utah, Permit No.: UT–0032000.*

In compliance with the provisions of the Clean Water Act, 33 U.S.C. 1250 *et seq.*, hereinafter referred to as "the Act," and the effluent limitations, monitoring requirements and other conditions set forth in Parts I and II, this general NPDES permit authorizes discharges of pollutants from all existing concentrated animal feeding operations located in the State of Utah: (1) With 1,000 or more animal units (slaughter and feeder cattle or equivalent animals as defined in 40 CFR 122, Appendix B); (2) with less than 1,000 animal units but more than 300, if pollutants are discharged into waters of the United States through a man-made ditch, flushing system, or other similar man-made device and/or pollutants are discharged directly into waters of the United States which originate outside of and pass over, across, or through the facility or otherwise come into direct contact with the animals concentrated in the operation; or (3) which have ever been designated as a significant contributor of pollution in accordance with 40 *CFR* 122.23(c).

The best conventional pollutant control technology (BCT) discharge standard in this permit is based on effluent guidelines promulgated in 40 CFR Part 412 for the feedlot point source category. This standard prohibits any discharge, except as a result of a 25-year 24-hour precipitation event.

This general NPDES permit does not authorize discharges of pollutants from new concentrated animal feeding operations with more than 1,000 animal units which were constructed after February 14, 1974 and, therefore, subject to new source performance standards. (See 40 CFR 122.2 and 412.15.) Dischargers with more than 1,000 animal units that had animal confinement facilities in place prior to February 14, 1974, are authorized by this permit.

Authorization to discharge pursuant to this general NPDES permit becomes effective on May 31, 1983, and expires at midnight, April 27, 1988. Any existing individual NPDES permit issued to a concentrated animal feeding operation in Utah shall continue to apply until it expires or is revoked and reissued or terminated by the permit issuing authority in accordance with the applicable procedures of 40 CFR Part 124.

State Certification. Under section 401(a)(1) of the Act, EPA may not issue an NPDES permit until the State in which the discharge will originate grants or waives certification to ensure compliance with appropriate requirements of the Act and State law.

The State of Utah certified this general permit by letter on August 6, 1982.

Part I

A. Effluent Limitations and Waste Disposal Requirements

1. *Effluent Limitations.* During the term of this permit, the following effluent limitations apply to all of the concentrated animal feeding operations covered by this permit:

There shall be no discharge of process waste water pollutants to the waters of the United States except as provided for below.

A discharge of pollutants to the waters of the United States may occur whenever precipitation events, either chronic or catastrophic, cause an overflow of process waste water from a facility designed, constructed, and operated to contain all process generated waste waters plus the runoff from a 25-year, 24-hour rainfall event for the location of the concentrated animal feeding operation. This means that the control facilities must contain all runoff from storms less intense than those which occur once every 25 years during a 24-hour period.

Appendix A of this permit contains a chart showing 25-year, 24-hour rainfall for Utah. The 25-year, 24-hour rainfall value for concentrated animal feeding operation covered by this permit shall be determined from this chart.

For purposes of detemining compliance with the effluent limitations of this permit, the amount of precipitation that occurred shall be based on the data obtained with a precipitation gauge from the nearest National Weather Service weather station. (See Appendix B for list of weather stations in Utah.) The permittee may, at his option, maintain a precipitation gauge at the facility.

2. *Waste Disposal Requirements.* a. All land areas utilized by and operated under the authority of the permittee for the disposal of manure, other waste solids, and liquid wastes shall be isolated to prevent any pollutant from such materials from entering the waters of the United States, subject to the provisions as provided in permit conditions under "Effluent Limitations" (Part I, A.1.). Such provisions apply only to the discharge of pollutants from a "point source" as defined in section 502(14) of the Act.

b. All land areas utilized by and operated under the authority of the permittee for the storage or holding of manure, bedding materials, silage, feeds, and feed concentrates, and other substances having a waste contributing potential shall be isolated to prevent any pollutant from such materials from entering the waters of the United States, subject to the provisions as provided in permit conditions under "Effluent Limitations" (Part I, A.1.).

c. All wastes from dipping vats, pest and parasite control units, and other facilities utilized for the application of potentially hazardous or toxic chemicals shall be handled and disposed of in a manner such as to prevent any pollutant from such materials from entering the waters of the United States, subject to the provisions as provided in permit conditions under "Effluent Limitations" (Part I, A. 1.), and then only in accordance with the provisions of any toxic pollutant effluent standards established pursuant to section 307(a) of the Act.

B. Monitoring and Reporting Requirements.

1. *Monitoring Requirements.* The permittee shall visually monitor all

discharges and record the following information:

a. A description of the discharge and cause, whether excess precipitation, snow melt, or other specified causes (*e.g.*, structural failure, equipment breakdown, flooding);

b. The period of discharge including exact dates and times;

c. An estimate of discharge volume;

d. Name of receiving stream;

e. Name of person recording discharge;

f. Corrective steps taken, if appropriate; and,

g. A record of the precipitation at the nearest National Weather Service station (see Appendix B) with a precipitation gauge or at a facility rain guage for the period of inclement weather that resulted in the discharge.

If the permittee elects to maintain a precipitation gauge at the facility, the permittee shall monitor and record precipitation daily using a National Weather Service standard rain gauge or equivalent.

All records and information resulting from the monitoring activities required by this permit shall be retained for a minimum of three (3) years or longer if requested by the Regional Administrator or the Utah Department of Health.

2. *Reporting Requirements.* The permittee shall visually monitor and report within five (5) days to the permit issuing authority, any discharge resulting from a precipitation event. Any discharge resulting from a non-precipitation event (*e.g.*, dike or structural failure, equipment breakdown, human error) shall be monitored and reported immediately (within 24 hours) by calling (303) 837–3880 anytime, day or night. The permittee shall provide the permit issuing authority with a written report within five (5) days of such notification. The information shall be submitted to the U.S. Environmental Protection Agency and the Utah Department of Health at the following address: U.S. Environmental Protection Agency, Compliance Branch, Water Management Division, 1860 Lincoln Street, Denver, Colorado 80295, and Utah Department of Health, Division of Environmental Health, Bureau of Water Quality, P.O. Box 2500, Salt Lake City, Utah 84110.

Part II

General Conditions

1. *Facilities Operation.* The permittee shall at all times maintain in proper working order and operate as efficiently as possible, all control facilities or systems installed or used by the permittee to achieve compliance with the terms and conditions of this permit. Proper operation and maintenance includes all circumstances listed under 40 CFR 122.41(e) (April 1, 1981, 48 FR 14167).

2. *Power Failures.* As necessary to maintain compliance with the effluent limitations and prohibitions of this permit, the permittee shall provide an alternate power source sufficient to operate the waste water control facilities.

3. *Adverse Impact.* The permittee shall take all reasonable steps to prevent or correct any adverse impact to receiving waters or environment resulting from unauthorized discharges.

4. *Right of Entry.* The permittee shall allow the head of the State of Utah Department of Health, the Regional Administrator, and/or their authorized representative, upon the presentation of credentials:

a. To enter upon the permittee's premises where a real or potential discharge is located or in which any records are required to be kept under the terms and conditions of this permit; and,

b. At reasonable times to have access to and copy any records required to be kept under the terms and conditions of this permit; to inspect any monitoring equipment or monitoring method required in this permit; and to sample any discharge of pollutants.

5. *Transfer of Ownership or Control.* In the event of any change in control or ownership of facilities from which the authorized discharges emanate, the permittee shall notify the succeeding owner or controller of the existence of this permit by letter.

6. *Availability of Reports.* Except for data determined to be confidential under section 308 of the Act, all reports prepared in accordance with the terms of this permit shall be available for public inspection at the offices of the Utah Department of Health and the Regional Administrator. As required by the Act, effluent data shall not be considered confidential. Knowingly making false statement on any such report may result in the imposition of criminal penalties as provided for in section 309 of the Act.

7. *Toxic Pollutants.* If a toxic effluent standard or prohibition (including any schedule of compliance specified in such effluent standard or prohibition) is established under section 307(a) of the Act for a toxic pollutant which is present in the discharge and such standard or prohibition is more stringent than any limitation for such pollutant in this permit, this permit shall be revised or modified in accordance with the toxic effluent standard or prohibition and the permittee so notified.

The permittee shall comply with effluent standards or prohibitions established under 307(a) of the Act within the time provided by the regulations establishing these standards or prohibitions, even if the permit has not yet been modified to incorporate the requirement.

8. *Civil and Criminal Liability.* Nothing in this permit shall be construed to relieve the permittee from civil or criminal penalties for noncompliance.

9. *Oil and Hazardous Substances Liability.* Nothing in this permit shall be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities, or penalties to which the permittee is or may be subject under section 311 of the Act.

10. *State Laws.* Nothing in this permit shall be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities, or penalties established pursuant to any applicable State law or regulation under authority preserved by section 510 of the Act.

11. *Property Rights.* The issuance of this permit does not convey any property rights in either real or personal property, or any exclusive privileges, nor does it authorize any injury of private property or any invasion of personal rights, nor any infringment of Federal, State or local laws or regulations.

12. *Severability.* The provisions of this permit are severable, and if any provision of this permit, or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.

13. *Other Conditions.* The following conditions are applicable to this NPDES Permit: 40 CFR 122.41 (a), (a)(2)(c), (h), (j)(4), (j)(5), (k), (1)(2), (1)(6), (1)(7), (1)(8), (m), and (n) (April 1, 1983, 48 FR 14166–8).

14. *Requiring an Individual NPDES Permit.* In accordance with 40 CFR 122.28, the permitting authority may require any owner or operator covered under this permit to apply for and obtain an individual NPDES permit for reasons that include the following:

a. The discharge(s) is a significant contributor of pollution;

b. The discharger is not in compliance with the conditions of this general permit; or

c. Conditions or standards have changed so that the discharge no longer qualifies for a general permit.

The owner or operator must be notified in writing that an application for an individual NPDES permit is required. When an individual NPDES permit is issued to an owner or operator otherwise covered under this general permit, the applicability of the general permit to that owner or operator is automatically terminated upon the effective date of the individual NPDES permit.

15. *Requesting an Individual NPDES Permit.* Any owner or operator covered by this general permit may request to be excluded from the coverage by applying for an individual NPDES permit.

16. *Requesting Coverage Under the General Permit.* The owner or operator of a facility excluded from coverage by this general permit solely because that facility already has an individual permit may request that the individual permit be revoked and that the facility be covered by this general permit. Upon revocation of the individual permit, this general permit shall apply to that facility.

17. *Permit Modification, Revocation, Termination.* This general permit may be modified, revoked and reissued, or terminated for cause in accordance with 40 CFR Parts 122 and 124 of the NPDES Permit Regulations (48 FR 14146 April 1, 1983).

Appendix A

Please refer to chart.

Appendix B

Please refer to the most recent United States Weather Service Station Index.

18. *Economic Impact.* EPA has reviewed the effect of Executive Order 12291 on this final general permit and has determined that it is not a major rule under that order. This regulation was submitted to the Office of management and Budget for review as required by Executive Order 12291. Any comments from OMB to EPA and any EPA responses to those comments are available for public inspection at the U.S. Environmental Protection Agency, Compliance Branch, Water Management Division, 1860 Lincoln Street, Denver Colorado 80295.

19. *Paperwork Reduction Act.* EPA has reviewed the requirements imposed on regulated facilities in this final general NPDES permit under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* The information collection requirements of the permit have already been approved by the Office of Management and Budget under submissions made for the NPDES permit program under the provisions of the Clean Water Act.

20. *The Regulatory Flexibility Act.* After review of the facts presented in the notice of intent printed above, I hereby certify, pursuant to the provisions of 5 U.S.C. 605(b), that this general permit will not have a significant impact on a substantial number of small entities. Moreover, it reduces a significant administrative burden on regulated sources.

Steven J. Durham,

Regional Administrator

Fact Sheet in Support of the General NPDES Permit for Concentrated Animal Feeding Operations in Utah; NPDES Permit Number: UT-0032000

I. Background

A. *General Permits.* Section 301(a) of the Clean Water Act (the Act) provides that the discharge of pollutants is unlawful except in accordance with a National Pollutant Discharge Elimination System (NPDES) permit. Although such permits to date have generally been issued to individiual dischargers, EPA's regulations authorize the issuance of general permits to categories of point sources located within the same geographical area, which discharge similar types of wastes and which discharges warrant similar pollution control measures. (40 CFR 122.28) As in the case of individual permits, a violation of any condition of a general permit constitutes a violation of the Act and subjects the discharger to the penalties specified in section 309 of the Act.

Any owner or operator authorized by this final general permit may be excluded from coverage by applying for an individual permit. This request may be made by submitting an NPDES Permit application, together with reasons supporting the request, to the Regional Administrator, Region VIII. The Regional Administrator may require any person authorized by this general permit to apply for and obtain an individual permit. In addition, any interested person may petition the Regional Administrator to take this action. The Regional Administrator may consider the issuance of individual permits according to the criteria in 40 CFR 122.28(b)(2).

B. *Concentrated Animal Feeding Operations in Utah.* This general NPDES permit establishes effluent limitation, standards, prohibitions and other conditions on dischargers of pollutants from certain concentrated animal feeding operations, commonly known as animal "feedlots." Concentrated animal feeding operations are defined as confined animal feedlots: (1) With 1,000 or more animal units; (2) with less than 1,000, but more than 300 animal units if pollutants are dischared to waters of the United States through a man-made ditch, flushing system or other similiar device and/or pollutants are discharged directly into waters of the United States which originate outside of and pass over, across, or through the facility or otherwise come into direct contact with the animals concentrated in the operation; or (3) which have ever been designated as a significant contributor of pollution on a case-by-case basis according to the criteria in 40 CFR 122.23(c). (40 CFR 122.23, 40 CFR 122, Appendix B and 40 CFR Part 412) The term "animal units" is defined in 40 CFR 412.10 and, for the purposes of this permit, means the equivalent number of feeder and slaughter cattle.

This general permit applies only to those concentrated animal feedlots constructed in Utah before February 14, 1974, the date new source performance standards were promulgated for the Feedlot Point Source Category. Concentrated animal feedlots constructed after that date are excluded from coverage under this general NPDES permit because they are considered "new sources" of pollution unders 40 CFR 122.2. The Clean Water Act provides that NPDES permits cannot be issued to new sources until EPA conducts an environmental review to determine whether issuing an NPDES permit to a new source may be considered a "major federal action significantly affecting the quality of the human environment" under the National Environmental Policy Act (NEPA). Because very few new sources have begun operation since February 14, 1974, Region VIII has decided to issue them individual NPDES permits and will conduct environmental reviews on a case-by-case basis prior to issurance.

To date, approximately 85 concentrated animal feedlots in Utah have been issued individual NPDES permits. These existing individual permits shall continue in effect until they expire or are revoked and reissued or terminated in accordance with the applicable procedures of 40 CFR Part 124.

II. Permit Conditions

A. *Technology-Based Effluent Limitations.* This general permit prohibits any discharge of process generated waste (including storm water runoff) except in the event of a 25-year, 24-hour storm. (See Appendix A of this permit for a chart showing 25-year, 24-hour rainfall for Utah.) These effluent limitations are based on the effluent guidelines for best conventional pollutant control technology (BCT) for the Feedlot Point Source Category as promulgated in 40 CFR Part 412. As with best practicable control technology currently available (BPT) and the former best available technology economically achievable (BAT) limits for conventional pollutants, BCT is a zero discharge limit. Therefore, the BCT limitation for this subcategory was not included among the BCT limitations withdrawn by EPA in response to the July 28, 1981 decision remanding the methodology used by EPA to establish BCT standards. *American Paper Institute v. EPA*, 66 F. 2d 954 (4th Cir. 1981).

In the semi-arid climate of Utah, there is a 10–15% difference between a 10-year, 24-hour rainfall event and a 25-year, 24-hour rainfall event. Because a safety factor of 25% was applied to all feedlot waste water facilities designed by the U.S. Soil Conservation Service to meet 10-year, 24-hour rainfall events, Region VIII believes that these facilities should meet the 25-year, 24-hour criteria of BCT.

B. *Best Management Practices—Waste Disposal.* The waste disposal requirements contained in this permit are necessary to achieve the effluent limitations described above. Proper isolation, storage and disposal of all solid and liquid wastes will help prevent pollutant discharge.

C. *Monitoring Requirements.* This permit requires discharges to monitor visually and record all dischargers as they occur. In addition, this permit requires dischargers to monitor and record all precipitation on a daily basis. All records of precipitation shall be made with a National Weather Service precipitation gauge or its equivalent. Dischargers may elect to record precipitation by using data obtained from the nearest National Weather Service station or by using a precipitation gauge maintained at the facility. (See Appendix B of the permit for a list of Weather Service stations in Utah.)

III. Appropriateness of the General Permit

Region VIII has currently issued approximately 85 individual NPDES permits to concentrated animal feeding operations in Utah. A review of these permits, their effluent limitations and monitoring requirements, and the criteria for issuing a general permit (40 CFR 122.28) clearly indicates that animal feedlots would be more appropriately controlled by a single general permit. General permits eliminate, for the Agency, the time-consuming and resource intensive process of reviewing and evaluating individual permit applications, and significantly reduce the burden impe appropriately controlled by a single general permit. General permits eliminate, for the Agency, the time-consuming and resource intensive process of reviewing and evaluating individual permit applications, and significantly reduce the burden imposed on the industry for applying for and obtaining individual permits.

FEDERAL COMMUNICATIONS COMMISSION

[Gen. Docket No. 80-396; FCC 83-102]

Preparations for the 1983 Region 2 Administrative Radio Conference of the International Telecommunication Union for the Planning of the Broadcasting-Satellite Service in the 12 GHz Band and the Associated Uplinks

AGENCY: Federal Communications Commission.

ACTION: Report and Order regarding Final Recommendations.

SUMMARY: This Report and Order sets forth the Commission's recommendations for U.S. Proposals to the ITU Conference for the planning of the 12 GHz broadcasting-satellite service in the Americas. These recommendations will be forwarded to the Department of State for final development of U.S. Proposals to the Conference.

ADDRESS: Federal Communications Commission, 1919 M Street, NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Edward R. Jacobs, Office of Science & Technology, International Staff, 2025 M St., NW., Room 7002, Washington, D.C. 20554 (202) 653–8102.

In the matter of an inquiry relating to preparations for the 1983 Region 2 Administrative Radio Conference of the International Telecommunication Union for the planning of the Broadcasting-Satellite Service in the 12 GHz Band and the Associated Uplinks.

Adopted: March 9, 1983.
Released: March 21, 1983.

I. Introduction

This *Report and Order* contains the Commission's findings as to appropriate U.S. objectives and proposals for the 1983 Region 2 Administrative Radio Conference for the planning of the 12 GHz Broadcasting-Satellite Service (RARC–BS). In developing these objective and proposals the Commission has considered the extensive work of a Federal Advisory Committee, substantial public comment in response to three FCC *Notices of Inquiry* and preparatory findings of International Telecommunication Union working groups. Further, throughout the proceeding, the Commission has maintained close coordination with the Department of State, the National Telecommunications and Information Administration (NTIA) and the National Aeronautics and Space Administration (NASA).

2. The Commission recognizes the importance of RARC–BS both to the needs of U.S. DBS service providers and to the development of planning and procedural mechanisms that will provide flexibility for all administrations of Region 2 (the Western Hemisphere). It is of substantial benefit to Region 2 that the planning for the 12 GHz Broadcasting-Satellite Service was exempted from the 1977 World Administrative Radio Conference which developed a plan for Regions 1 and 3.[1] The 1977 Final Acts, now being implemented, contain a rigid spectrum/orbit plan based on conservative technological assumptions. Modifications to that plan, necessary to accommodate subsequent technological advances and facilitate economic implementation, are proving extremely difficult to effectuate.

3. We believe that Region 2 administrations can benefit from the postponement to this 1983 conference and from the recognized limitations of the 1977 Final Acts. In addition, since 1977, substantial technological advances have taken place and sophisticated computer modeling has been developed. The latter has the capability of processing the staggering amount of data that must be evaluated to develop a progressive and creative BSS spectrum/orbit use plan.

[1] Region 2 was originally slated for inclusion but extensive efforts, largely on part of the U.S. delegation, deferred planning for the Western Hemisphere until 1983.

4. The success and equity of a Region 2 DBS plan will be possible if it is based upon realistic and explicit needs of countries in the hemisphere. In the U.S. we were aided significantly in preparing our conference proposals by the expression of explicit private sector requirements for Broadcasting-Satellite Service. In our domestic proceedings we have created a flexible regulatory environment [2]. Thus far the Commission has granted eight applications for the provision of direct broadcast satellite service. [3] Five other applications have been submitted. [4] Additional applications may be filed when a second filing period is established.

II. U.S. Objectives for the Conference

5. In developing U.S. proposals to the RARC–BS, which are summarized below and detailed in Appendix A [filed with the original document], we considered the following U.S. objectives:

1. To obtain enough orbit/spectrum resource to meet the present stated demand for channels within the U.S. (approximately 70 channels per service area);

2. To provide adequate spectrum for both the Fixed-Satellite Service and Broadcasting-Satellite Service in the U.S.;

3. To achieve sufficient flexibility in the Plan and procedures adopted so that future U.S. requirements can be met with a minimum need for coordination with other countries; [4A]

4. To obtain enough flexibility within the plan to permit implementation of interim systems and, to the extent feasible, systems of varying characteristics (as reflected in the applications);

5. To seek adoption of procedures that will permit modifications to the technical and operational characteristics of DBS systems subsequent to the formulation of the plan;

6. To maintain the focus of the Conference on the technological aspects of the plan and procedures—avoiding extraneous political issues;

7. To achieve the above objectives in such a manner as to provide for the requirements of the other administrations of Region 2.

[2] DBS Report and Order, 90 FCC 2d, 676 (1982).

[3] These eight applications propose a total of 36 channels of service. See: *STC Interim Grant*, 91 FCC 2d ——, 1982, FCC 82–427, released October 13, 1982; and *CBS, et al.* 91 FCC 2d ——, 1982, FCC 82–498, released December 3, 1982.

[4] These five applications propose 34 channels of service.

[4A] The FCC BSS Advisory Committee has foreseen a requirement for as many as 66–215 channels by the end of the century.

6. As reflected above, we are sensitive to the need of all the Region 2 administrations to meet their broadcasting satellite requirements. In this regard, we believe that the computer modeling will be a highly effective tool in helping to create a plan that will be flexible and can accommodate the maximum nmber of channels for all Region 2 countries. In our proposals set forth below, we urge the adoption of various technical criteria that can have a significant impact on the ability of the plan to satisfy the needs of all countries. We are, however, sensitive to possible cost and operational consequences to service providers should the Conference adopt standards that "push technology" to too great an extent. Yet we would be remiss if we overlooked the revolutionary advances in satellite technology since 1977, advances that continue to be made each day. We have sought to weigh all these considerations, and in developing our proposals we have placed considerable reliance on the recommendations of the Advisory Committee.

III. Summary of U.S. Proposals

7. Several considerations have led us to the recommendations that follow concerning United States proposals to the 1983 I.T.U. Administrative Radio Conference on the Broadcasting-Satellite Service in Region 2.

8. Foremost among these is the concern that the plan and procedures for coordination and sharing allow for use of initial or interim systems that may assume a form different than those appearing in the Plan. This will facilitate the expedited start of service within the United States and elsewhere in the Region. A related concern is to assure that such initial systems not be designed, deployed or managed in such manner as to impede the smooth and timely transition to the plan.

9. For purposes of clarity, we have divided this summary of proposals into various subject areas.

Proposed Requirements

1. In order to meet the immediate U.S. requirements for the Broadcasting Satellite Service, the United States should seek a minimum of eight eclipse-protected orbital positions for four service areas that would accommodate a total of approximately 72 channels per service area.

2. In order to meet U.S. needs for authorized and proposed space stations in the FSS and BSS, the 12.1–12.3 GHz band should be divided at 12.2 GHz, so that Region 2 BSS downlink service is planned in the 12.2–12.7 GHz band.

3. Since these 72 channels would not be sufficient to meet anticipated long-term U.S. requirements, the United States also should seek provision for additional channels for later use, which could be accomplished through a procedural mechanism for accessing such positions or through the possible inclusion of non-eclipse protected orbital positions in the plan.

4. For BSS planning purposes to provide service to CONUS, four service areas of approximately equal size should be assumed.

5. Planning should be based on individual reception because this would permit community reception whereas the converse is not the case.

Proposed Technical and Sharing Criteria

1. The following BSS downlink parameters are recommended for planning purposes at the Conference:

—circular polarization,
—a total C/N ratio of approximately 14 dB for 99% of the worst month. (which suggests a downlink value of approximately 14.5 dB)
—an aggregate C/I ratio of 25 dB,
—adjacent co-polarized channel spacing of 26 MHz,
—channel bandwidth of 24 MHz (so long as systems with varying bandwidth requirements can be implemented),
—a receiver figure of merit of 8 dB(K^{-1}),
—an antenna size creating an antenna half power beamwidth of 1.9 degrees (.9m at 12.5 GHz).
—adoption of a home receiver antenna pattern that will allow satellite spacings as closed as 8°–10° for adjacent service areas,
—minimum elevation angle for receive antennas of 20 degrees,
—avoiding adoption of transmitting antenna patterns utilizing shaped beams, except in limited, special cases
—a satellite antenna pointing accuracy tolerance value of ±0.1 in the N/S and E/W directions,
—a satellite antenna rotational error of ± degrees,
—minimum guard bands consistent with protection of adjacent band services.

2. Concerning the uplink portion of the service, the Commission confirms its position that 500 MHz previously allocated for uplinks at 17.3–17.8 GHz be utilized for the BSS service, and further recommends the adoption of a plan that would allow both fixed and mobile uplink facilities servicing U.S. satellites to be located anywhere in CONUS. As for technical parameters for the uplink, the Commission adopts those recommended by the Advisory Committee. (See paragraph 72)

Proposed Planning Principles and Procedures

The Commission adheres to its previous proposals in this proceeding to seek a flexible plan for use of the BSS spectrum by various administrations in Region 2. Recommended is the U.S. proposal to use a system of multichannel assignments.[5] Under the multichannel assignment plan, a service area or a group of service areas would be assigned the entire 500 MHz using both senses of polarization from a given orbit location. In this way each administration may assign channels in groups or block, according to its own particular needs. A very important feature of this approach is the establishment of interference protection and other parameters that could not be exceeded without modification of the Plan, while retaining a maximum flexibility for the intra-block utilization.

In furtherance of this planning proposal, the U.S. has made special efforts in two major areas. First, sophisticated computer techniques have been developed and utilized to demonstrate the viability of multichannel utilization plans. Second, a series of procedures is being developed that would permit the use, without further coordination, not only of systems having the characteristics specified in the plan, but also of systems that have different characteristics so long as prescribed levels of protection to other administration are met.

Proposed Inter-regional and Intra-regional Sharing Criteria

Inter-regional sharing of the 12 GHz band raises issues of potential interference to other services sharing this band and services using adjacent bands. The Commission proposes that the BSS/Terrestrial service sharing parameters in Region 2 follow the pattern adopted for such sharing at the 1977 WARC–BS. These parameters should facilitate the shared use of the 12 GHz band by the services designated in the international Table of Frequency Allocations, and should provide a suitable basis for domestic decisions concerning limited sharing of this portion of the spectrum by existing terrestrial users of the band. The matter of BSS interference with services in

[5] This multichannel assignment plan is a modified version of the arrangement referred to previously in this inquiry as "block allotments." The previous plan has been refined and changed to conform to the needs of other administrations and to ensure efficient and effective implementation of the plan.

adjacent bands involves the possibility of interference both to and from these services. Potential interference to services of other bands is addressed in the section on the technical sharing parameters, above, where the Commission recommends the careful use of guard bands. Potential interference to BSS from other services raises some questions of the scope of the authority of the Conference. Thus, the Commission makes no specific recommendation for altering the parameters established at WARC–BS, but notes that the reports of the Advisory Committee and the Conference Preparatory Meeting will be useful for Conference planning in this area.

The Commission believes that most of the current 12 GHz inter-regional sharing situations are addressed adequately in the existing Appendix 30 to the Radio Regulations and the relevant Resolutions adopted at the 1979 WARC. In those instances where final decisions need to be made at the Conference, the Commission recommends that the principle of reciprocity between regions be observed, and that the U.S. should not accept, as a matter of principle, an obligation to provide greater protection to the services of other Regions than is afforded to those services in Region 2.

As for sharing in the 18 GHz band, the Commission accepts the recommendations of the Advisory Committee to pursue certain proposed service modifications designed to minimize coordination and interference difficulties, and that the Conference do so under the procedures of the existing Appendix 28 of the Radio Regulations that permit these modifications.

IV. History of This Proceeding

10. The Commission has issued three *Notices of Inquiry* in this proceeding, with the first being released July 25, 1980 (FCC 80–417) (August 5, 1980; 45 FR 51914), the second on June 5, 1981 (FCC 81–248) (June 8, 1981; 46 FR 30392) and the third on April 20, 1982 (FCC 82–139) (April 27, 1982; 47 FR 18046). Additionally, the Commission has had benefit of a comprehensive report from a Federal Advisory Committee that was established pursuant to a *Memorandum Opinion and Order* released on February 24, 1981 (FCC 81–54). This Committee was established for the sole purpose of providing advice to the Commission on the complex and controversial issues involved in the Conference.

11. As noted in the *Third NOI* in this docket, the ITU has established a Panel of Experts (PoE) to assist in the preparations for this conference. Three PoE meetings have been held to date, with primary emphasis placed upon development of the computer support capability that will be required for the Conference, and on discussions of appropriate planning methods to be used during the Conference. Appropriate references are made in the *Report and Order* wherever the decisions of the PoE have directly influenced recommended proposals. The ITU also convened a Conference Preparatory Meeting (CPM) of its CCIR Study Groups 4, 5, 9, 10 and 11 in order to prepare a report to serve as the technical bases for the Conference. The Commission's Advisory Committee has reviewed this report and addressed a number of points therein by providing the Commission an Addendum to the Advisory Committee's Final Report. The CPM report, the output of the PoE, and the Advisory Committee reports are significant contributions that supplement the comments and reply comments filed in this proceeding.

12. A complete listing of all parties submitting comments and reply comments to the *Third NOI* is provided in Appendix B to this *Report and Order* [filed with the original document]. Additionally, copies of the PoE reports, the CPM Report and the Advisory Committee Reports have been placed in the official docket file.

13. Following is a discussion of the issues faced by the Commission, input of the Advisory Committee and others, and the Commission's conclusions, which form the basis of its proposals. A general discussion of the material available to the Commission (comments, Advisory Committee Reports, CPM report) on each of these topics is presented with the rationale for and position of the Commission on each.

V. Requirements

14. As discussed in the *Third NOI*, BSS requirements included where the 12.1–12.3 GHz band should be divided between the Fixed-Satellite Service (FSS) and the Broadcasting-Satellite Service (BSS), the type of service to be provided (individual or community reception), the description of the service areas to be associated with particular satellites, the satellite orbit positions, and number of channels per service area. The FCC Advisory Committee and comments to the *Third NOI* each extensively discussed these topics. Each will be addressed in turn.

A. Division of the Band 12.1–12.3 GHz

15. In the *Third NOI* in this proceeding the Commission noted the current extensive development of the FSS in the 11.7–12.2 GHz band and the need to maintain this allocation for FSS use. It also noted that the 1983 RARC is competent to consider a division of the band only in the 12.1–12.3 GHz segment (see paragraph 11). It also noted the great uncertainty surrounding the BSS requirements and the need to provide adequate spectrum for this service. The Advisory Committee final report specified a near term requirement for 36–46 BSS channels, with long term requirements estimated as high as 215 channels. The Commission currently has on file applications to provide BSS service totalling approximately 70 channels. Many of the respondents to the *Third NOI* continue to recommend division of the band at 12.2 GHz. Several others, including AT&T, Farinon and HBO recommend reallocations of the 12 GHz band that are not within the competence of the Conference.[6] In the *Third NOI* the Commission indicated a position favoring division of the band at 12.2 GHz. It was further noted that this decision was one for presentation to the 1983 Conference and that domestic implementation was still a matter for later consideration. This matter has subsequently been addressed in the *Report and Order* in Gen. Docket No. 80–603 (FCC 82–285) concerning development of regulatory policy in regard to Direct Broadcast Satellites for the period following the 1983 Regional Administrative Radio Conference. Based upon the decisions reached in that proceeding, the BSS channel requirement forecasts of the Advisory Committee, and the comments to the *Third NOI*, the Commission believes that a division of the band at 12.2 GHz by the 1983 Conference is still the most prudent way to proceed. We therefore recommend this as a U.S. proposal to the Conference

B. Type of Service—Individual or Community Reception

16. In the *Third NOI* the Commission noted that planning on the basis of individual reception would permit implementation of community reception systems, whereas the reverse was not true. For this reason, coupled with an obvious need to provide for individual reception, this mode of operation was recommended for planning. This position is supported in the report of the Advisory Committee and in the comments filed. The Commission therefore recommends this as a proposal to the Conference.

[6] See item no. 1.1 of the Conference agenda.

C. Service Areas

17. In the *Third NOI,* the Commission noted overwhelming support in comments to the *Second NOI* for a division of the 48 contiguous states (CONUS) into four service areas approximating the time zones. The only dissenting view was that of DBSC, which presented a case for three service areas. It was further noted that the preliminary report of the Advisory Committee had favored a division of CONUS into four service areas. STC, in supporting four service areas in its comments to the *Third NOI,* also recommends that the four service areas for CONUS have a large overlap so as to allow each system designer to meet its own particular requirements, and to reduce the overlap only to the extent necessary to preserve "block allotment" planning [7] and at the same time accommodate equal power TWTA's on the spacecraft. In its addendum to its final report, the Commission's Advisory Committee also recommends that the four U.S. service areas of CONUS have considerable overlap in their areas. Other comments to the *Third NOI,* contains widely conflicting analyses made by DBSC and others concerning the merits of a three versus four service area plan for CONUS. DBSC maintains that earth station costs for three service area systems would be increased negligibly, space segment cost savings could be up to $1 billion, three service area coverage would more closely match current terrestrial TV viewing scheduling, and that three service area configurations would give better elevation angles. These assertions are challenged by STC and USSB as being either untrue or based on incorrect assumptions. The Advisory Committee, in its final report, recommends four service areas approximating the four time zones be used for CONUS in planning at the 1983 Conference. In responding to the ITU questionnaire on requirements the U.S. did request four service areas for CONUS that corresponded precisely to the four time zones. Additional comments provided on the questionnaire indicated that adjacent U.S. service areas may need to be served from the same satellite location. These comments were made to provide for possible implementation of a three service area system and to provide for four service area systems that may initially be implemented with two satellites each serving one-half of CONUS, as has been proposed by several of the DBS applicants. The Commission has recently made known its intention to make provisions for a DBS service in the U.S. with a minimum of constraints upon licensees, as evidenced in its grants of conditional construction permits to eight DBS applicants.[8] These applications include both three and four service area systems. The Commission believes that the U.S. response to the ITU questionnaire provides a basis on which to accommodate the need of current DBS applicants with respect to service area coverages. We therefore propose that U.S. proposals to the Conference include four service areas of approximately equal area for CONUS. We will continue to study the matter of service area overlapping as it relates to flexibility in implementing different systems and the effects such overlapping may have on efficient use of the orbit/spectrum resource. We must express concern, however, with the modified service areas as proposed in the addendum to the Advisory Committee report, particularly the Pacific and Mountain service areas. In order to provide a minimum 15° elevation angle to the home receivers in these areas, the satellite serving the Pacific area could be placed no further west than 165.5° west longitude (W.L.) and the one serving the Mountain area could be placed no further west than 146° W. L. Orbital arc limitations of this nature on these two service areas could have a significant effect on the ability of the Conference to develop a plan acceptable to all. For service areas outside of CONUS, we propose that coverage be provided through separate beams to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands from the satellite positions serving the west and east coast of the U.S.

D. Satellite Orbit Positions and Numbers of Channels

18. In the *Third NOI,* the Commission noted that the subject of orbit positions is very closely tied to the selection of service areas. It was generally concluded that a separate orbit location was needed for each of the service areas within CONUS, with the orbit locations serving the west coast also serving Alaska and Hawaii, and the orbit locations serving the east coast also serving Puerto Rico and the Virgin Islands. It was conluded, based upon foreseen requirements as put forth in earlier comments and the preliminary report of the Advisory Committee, that the U.S. should seek full use of the band at each orbit location with full flexibility to choose sense of polarization. It was also noted that there were proposals put forth that the U.S. identify additional, non-eclipse protected sets of positions further to the east in the orbit in order to meet future requirements.

19. Comments to the *Third NOI,* on the number of orbit positions generally follow the same line of reasoning as presented in the service areas dicussion with CBS, STC and USSB promoting four orbit positions to serve four areas within CONUS, and DBSC continuing to promote the merits of a three position, three service area concept. CBS and DBSC also proposed positions more easterly than those originally suggested by STC (115°, 135°, 155°, 175° W. L.), principally because of their concern over low elevation angles from these positions in the western service areas. RCA also expresses concern over low elevation angles. STC states that its choice of 175° W. L. to serve the Pacific area was based on perceived requirements of Canada and Mexico, and that to move further eastward could make it more difficult for the U.S. to achieve its goal of block allotments of frequencies. With respect to the spacings between satellites serving the same or adjacent areas, CBS, STC and USSB each believe that 15°–16° spacings appear reasonable, with CBS stating that perhaps as small as 13.5° could be achieved to allow frequency re-use between adjacent service areas. RCA recommends a 20° spacing, believing that there is no benefit in getting any closer.

20. With regard to the required number of U.S. channels, STC supports the Advisory Committee's forecasts but notes that there is great uncertainty in the Committee's predictions. STC, DBSC, and USSB each recommend seeking 500 MHz at each location which would provide about 36 channels per location, and CBS recommends seeking "large blocks of spectrum" at the Conference. The NAB suggests seeking less than the 500 MHz block, with re-use of the frequencies from additional or bit locations to accommodate any shortfall. DBSC and STC recognize the potential need for requiring more than the 500 MHz from a single orbit position. DBSC suggests the U.S. seek a second set of positions in the "non-eclipse protected" or eastern part of the orbit to meet this further requirement. STC suggests that the Conference establish a set of procedures through which additional orbit locations could be accessed to meet future requirements. It states that it has studied the feasibility of providing

[7] For a description of "block allotment" see Paragraphs 63–68, *Third NOI,* General Docket 80–398.

[8] See: *STC Interim Grant,* 91 FCC 2d——, 1982, FCC 82–427, released October 13, 1982; and *CBS, et al,* 91 FCC 2d——, 1982, FCC 82–498, released December 3, 1982

two sets of eclipse protected positions for the U.S. and has concluded that it is not possible without the use of unacceptably large earth station receive antennas.

21. The Commission's Advisory Committee has also completed its examination of this subject. With regard to the required number of U.S. channels, the Committee's preliminary forecasts were not modified. It still expects a significant BSS channel requirement for the U.S. in the near-term and through the turn of the century (i.e., 68–215 channels per service area). It has also completed its discussions on required service areas and orbit positions and has recommended that the U.S. proceed with planning at the 1983 Conference on the basis of four service areas within CONUS, each served from a separate orbit location. The specific areas recommended were chosen so as to provide the maxium flexibility for system implementation by the numerous DBS applicants before the Commission, and to allow the same satellite transponder output tubes to be used for each of the four service areas. Consideration was also given to providing commonality in design of the spacecraft transmitting antennas. The Advisory Committee reports that with its recommended service areas, all of the first round DBS applicants' systems can be resonably well accommodated, including the 3 satellite position /3 service area (3/3) system of DBSC and several interim systems using only two orbit positions, if the satellite positions are chosen carefully.

22. As noted in the Commission's *Third NOI*, we had tentatively suggested proceeding with a four satellite, four service area concept for CONUS, with eastern and western positions serving Puerto Rico and the U.S. Virgin Islands, and Hawaii and Alaska, respectively. We had also proposed that the full bandwidth be provided at each orbit location. In the period since the release of the *Third NOI*, the Commission has authorized the construction of eight DBS systems requiring approximately 36 "standard" DBS channels.[9] Additionally, the Commission has before it five DBS applications that have yet to be acted upon, totalling an additional 34 channels. The eight DBS applicants with conditional construction permits propose four basic variations of satellite/service area coverage. One proposes a 2/2 system, one a 3/3 system, and six a 4/4 system. Three of those that propose an eventual 4/4 system propose to use an interim 2/4 system in the first stage of their operations. Accordingly, a high degree of flexibility must be available in the Region 2 BSS planning if all of these systems are to be accommodated in a manner reasonably consistent with the applications. The Commission believes that the four service area approach for CONUS is still the most appropriate manner in which to proceed. However, the presence of DBS applications requiring a total number of channels in excess of 60 has created somewhat of a dilemma. With the selection of reasonable technical parameters and criteria, one can expect to obtain only about 36 channels from a 500 MHz bandwidth. This falls far short of accommodating all of the applications before the Commission. The only way to provide these additional channels is through a second set of orbit positions to serve each service area. Since the channels would have to be re-used with the channels on the first set of satellites, the satellites would have to be separated far enough apart to allow such re-use. As noted earlier, STC has stated that it does not believe it is possible to have such a second set of satellites in the eclipse protected part of the orbit, and recommends that the Conference adopt a set of procedures that would allow such satellities to be brought into use in the future when the need arose, presumably in the more easterly, non-eclipse protected part of the orbit. As also noted earlier, DBSC has proposed that such a set of non-eclipse protected positions be provided to the U.S. at the conference.

23. In response to the ITU questionnaire on administrations' requirements, the U.S. responded by stating it required four service areas within CONUS, corresponding to the four time zones, with 50 channels provided to each area. It should be noted that, because of the manner in which satellite coverages are determined a certain amount of overlap occurs when the areas are defined as above. The 50 channels specified above is the total number of channels requested in the DBS applications on file at the Commission at the time of the submission to the ITU. The precise number of 50 is not nearly as significant as the fact that it suggests that the U.S. will require more than one orbit position per service area. The Commission recognizes the channel requirement represented by all BSS applications on file and must promote the satisfaction of such a requirement at the 1983 Conference. The Commission is not yet convinced that, as STC believes, it is not possible to obtain at the Conference two sets of eclipse-protected positions for U.S. use. Satisfaction of such a requirement relies heavily on the adoption of several technical criteria and assumptions. The Commission, therefore, recommends that a total of eight eclipse-protected orbit locations with access to the full 12.2–12.7 GHz band be set forth as a U.S. requirement for the consideration by the Conference. It should be noted that this requirement represents satisfaction of existing BSS applications on file and does not, therefore, represent long term U.S. requirements. In the event that the Conference decides to develop a detailed plan that considers the long-term needs of Region 2 countries, the U.S. will seek access within the Plan to additional non-eclipse-protected satellite locations.

VI. Technical Specifications

24. In the *Third NOI*, in this proceeding, the Commission continued solicitation of comment on the Technical parameters and sharing criteria to be used as the bases for planning the BSS, and its sharing of the spectrum with other services. Comment was specifically directed toward the technical data and sharing criteria set forth in Annexes 8 and 9 of the Final Acts of the 1977 Broadcasting-Satellite Conference (now Appendix 30 to the 1982 edition of the Radio Regulations). It was further noted that the International Radio Consultative Committee (CCIR) of the ITU was to hold a special Conference Preparatory Meeting (CPM) in June/July of 1982 in order to prepare a report to the 1983 Conference that could serve as the technical bases for the work of the Conference. That meeting was held as scheduled and a report of that meeting has been sent to all administrations. A copy has been placed in this docket file. Additionally, the Commission's Advisory Committee was reconvened following the DPM so that it might reconsider its technical recommendations in light of the CPM Report. The Advisory Committee has completed its reexamination and has submitted to the Commission an Addendum to its Final Report to cover those matters. We shall now examine the specific technical specifications and certeria individually, as identified in the *Third NOI*, summarizing the comments received and noting the Advisory Committee and CPM recommendations. The instant discussion examines first the downlink (or space-to-earth) technical aspects and then the feeder link (or earth-to-space segment) aspects.

[9] A "standard" channel is taken to be one 24 MHz in bandwidth.

A. Technical Parameters (Down link)

i. *Polarization*

25. In the *Third NOI,* the Commission pointed out that the only reason for not supporting circular polarization at the 1977 WARC–BS was the fact that the BSS and FSS were sharing a common frequency band and that use of different polarizations by the two services (FSS uses linear) would be wasteful of the orbit/spectrum resource, requiring greater satellite separations. It was further noted that since this spectrum sharing no longer exists, this was no longer a significant consideration. It was also noted that the preliminary report of the Advisory Committee was inconclusive on the cost aspects of circular polarization versus linear.

26. In the comments to the *Third NOI,* CBS, DBSC and STC each state a preference to use circular polarization for downlink planning. RCA states a preference for linear, but says it could accommodate circular. The Final Report of the Advisory Committee recommends circular polarization, as does the report of the CPM. In reviewing the CPM report, the Advisory Committee re-affirms its support for circular.

27. In reviewing the comments, and Advisory Committee and CPM reports, the Commission is convinced that its earlier support for circular polarization is well-founded. Apparently, the cross-polarization and cost considerations were not significant, and the benefits of circular polarization in ease of installation prevailed. The Commission therefore continues its support for circular polarization for planning of the BSS downlinks.

ii. *Carrier to Noise Ratio (C/N)*

28. In the *Third NOI,* the Commission noted a general acceptance in earlier comments to a consideration of a total C/N of approximately 14 dB for 99% of the worst month. There was also some consideration of the use of threshold extenders, with JCET suggesting they be used and STC opposing their use for planning purposes.

29. Comments to the *Third NOI,* by CBS, DBSC, RCA, Rockwell and STC also continue to support the figure of 14 dB for 99% of the worst month, although DBSC states that this figure may be a little conservative. The Final Report of the Advisory Committee recommends a figure of 14.5 dB as the downlink contribution to C/N, which if one assumes .5 dB degradation from the feeder link, also corresponds to a total of 14 dB for C/N. The report of the CPM was less conclusive on this point, stating that "Recent tests have indicated that a carrier-to-noise ratio of between 12 and 14 dB overall exceeded for 99% of the worst month yields acceptable performance". In reviewing the CPM results, the Advisory Committee stands by its original recommendation of 14.5 dB for the downlink contribution to C/N, which corresponds to 14 dB overall. They also recommend against the use of threshold extenders for planning purposes.

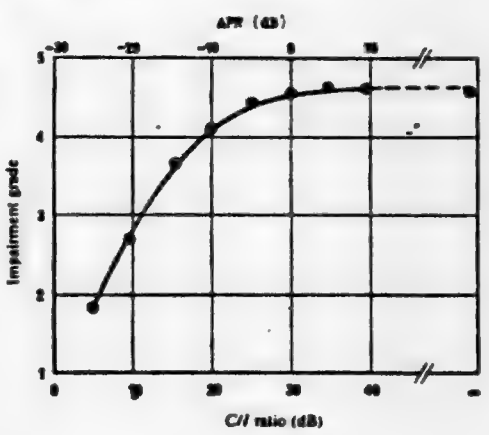
30. The Commission finds that the Advisory Committee has given this subject thorough examination and is in general agreement with its conclusions. We therefore propose that a figure of 14 dB for an overall C/N be proposed for planning purposes at the 1983 Conference.

iii. *Protection Ratio Between BSS Signals*

31. In the *Third NOI,* the Commission noted that the choice of protection ratio involves striking a balance between orbit/spectrum efficiency and obtaining a desirable degree of design flexibility, while maintaining some minimum acceptable standard of performance. Comments to the *Second NOI* indicated a general agreement that the protection ratios assumed at the 1977 WARC–BS could be reduced, specifically with respect to the assumed total entry, co-channel protection ratio. The preliminary report of the Advisory Committee recommended values of 28 dB for total entry co-channel and 12 dB for total entry adjacent channel protection ratio for BSS.

32. CBS and STC comments to the *Third NOI,* support the Advisory Committee, which adopted figures of 28 dB and 12 dB for total entry co-channel and adjacent channel protection ratios (C/I), respectively, in its Final Report. STC goes on further to state that it believes that a figure of 34 dB for C/I should be used as a single entry, co-channel interference criterion for planning purposes. It believes that a difference of about 7 dB should be assumed between maximum single entry and total C/I to account for the anticipated number of multiple interferers.

33. The CPM report considers two possible ways of determining the required co-channel protection ratio for BSS, both of which are related to the desired quality of the picture to be received. For an impairment grade for 4.4, one method provides a total C/I of about 30 dB and the other, proposed by the U.S., provides total C/I of about 25 dB. The U.S. proposed method is based upon recent test data that shows that an increase in C/I above 25 provides little improvement in picture quality (see figure below). In reviewing the CPM findings, the advisory Committee has modified its recommendation to agree with the method proposed by the U.S. in the CPM report (see figure below).



The Advisory Committee membership plans to conduct further extensive studies in the area of protection ratios for BSS and will make such information available to the Commission and to the U.S. Conference delegation. It notes that preliminary results tend to suggest that the original Advisory Committee recommendation for co-channel protection ratio may have been overly conservative, and that allowances for the difference between protection ratios for aggregrate interference and a single interference entry may have been too high.

34. The Commission notes with enthusiasm the current series of studies being conducted by Advisory Committee members on BSS protection ratios. The selection of a protection ratio plays a critical role in the development of any BSS plan; the lower the acceptable value of C/I can be made, then the easier it will be to develop an acceptable plan at the Conference. The Commission is prepared to accept at this time the U.S. input to the CPM as the method for determining the appropriate C/I for BSS. Since this method provides an impairment grade of 4.4 for a total C/I of 25 dB, we shall support 25 dB as the recommended C/I for BSS planning purposes. Commission staff will continue to monitor the BSS protection ratio studies currently underway and will bring this matter to the Commission again for reconsideration if the results of those studies so warrant.

35. With respect to an adjacent channel BSS protection ratio, the CPM report recommends a normalized protection ratio template that specifies a required adjacent channel protection ratio as a function of carrier offset

between adjacent channels. This implies that for a given channel spacing, the required adjacent channel protection ratio would vary as a function of channel bandwidth. The Addendum to the Final Report of the Advisory Committee recommends acceptance of the CPM method for determining adjacent channel BSS protection ratio, while noting the continuing work of that group's membership in the above-mentioned protection ratio studies.

36. The Commission notes that channel bandwidths and channel spacings are parameters to be decided at the 1983 Conference and that there is a definite relationship between those two parameters and the required adjacent channel BSS protection ratio. The Commission accepts the revised recommendation of the Advisory Committee and refers to its earlier comments relative to the tests that are currently being conducted.

iv. *Channel Spacing/Necessary Bandwidth*

37. In the *Third NOI* the Commisison noted the wide diversity of views on this topic among the commenters to the *Second NOI*, and that the Advisory Committee had not had much success in resolving this issue either. The Commission suggested that there might be benefit in not specifying the bandwidths in the BSS plan, at least as far as U.S. allotments are concerned. We further noted that while a channeling plan is not necessary under the purest form of block allotment planning, the U.S. must be prepared to present to the 1983 Conference what the U.S. believes to be a reasonable and efficient channeling plan for the BSS. It was further pointed out that we wished to avoid the adoption of a planning bandwidth that is based upon the "lowest common denominator", in other words, that system requiring the largest bandwidth, since such an approach could lead to an extremely inefficient use of the spectrum.

38. Three parties made specific recommendations for channel spacings. CBS, STC and USSB each recommend a channel spacing of 26 MHz between adjacent, co-polarized channels, with USSB favoring this spacing only if a pure form of block allotment could not be obtained. DBSC recommends a channel bandwidth of 22.5 MHz and a channel spacing that would be consistent with that bandwidth. RCA recommends a bandwidth of 24 MHz for standard television channels, and 72 MHz for High Definition Television (HDTV). HBO recommends that a uniform channel bandwidth between 25 and 30 MHz be adopted. STC argues in its reply comments that no specific bandwidth be adopted but that the channel spacing should be chosen and then system operators should be able to choose a bandwidth consistent with that spacing. STC believes that bandwidths in the range of 18–24 MHz are reasonable. In its reply comments, CBS states that it requires only 48 MHz for HDTV, which could be accomplished on two adjacent, co-polarized channels or on two separate 24 MHz transponders.

39. The Advisory Committee's final report recommended a 26 MHz channel spacing between second adjacent (co-polarized) channels. It recommended also that bandwidths in the range of 18–24 MHz be provided, consistent with the channel spacing and required protection ratio. The CPM report did not discuss channel spacing and with respect to channel bandwidth stated that "Results of further work on this aspect tend to indicate that the necessary bandwidth for individual reception in Region 2 would lie in the range 18 to 24 MHz." A detailed discussion is presented on the factors affecting bandwidth, but no further recommendations are made. In reviewing the results of CPM, the Advisory Committee reconsidered its position on necessary bandwidth and agreed upon a value of 24 MHz as a basis for planning. It believes that this value permits enhanced services and allows sufficient deviation for NTSC/FM signals. A wide range of baseband configurations for the NTSC signal with multichannel sound can be considered with a 24 MHz bandwidth. The problem of increased protection for signals employing bandwidths smaller than 24 MHz can be covered adequately by the requisite co-channel protection ratio, it says.

40. The Commission recognizes that in developing a plan for the Region the various plan analysis tools require that channeling schemes be developed and bandwidths be assumed for purposes of analysis and establishing protection within the plan. A 26 MHz channel spacing for adjacent, co-polarized channels and a 24 MHz channel bandwidth appear to be reasonable in providing an adequate number of channels in the plan and a bandwidth responsive to the diversity present in the DBS applications that have been filed with the Commission. The Commission can support these numbers for purposes of planning at the 1983 Conference on the understanding that adequate provision must be made within the regulatory provisions of the Final Acts of the Conference to allow the implementation of systems with varying bandwidth requirements, particularly, but not limited to, HDTV systems.

v. *Receiver Figure of Merit*

41. In its *Third NOI* the Commission stated that efforts should be made to improve upon the figure of merit of 6 dB (K^{-1}) that was adopted at WARC-BS for individual reception. It was noted that the Advisory Committee had not yet reached a decision on a recommended value, but that the range under consideration was from 6 to 10 dB (K^{-1}). The key point in determining the appropriate G/T for planning appears to be the noise figure achievable for low cost receivers obtained in mass production.

42. Four parties made recommendations with respect to G/T in the comments filed. CBS recommends a value of 10 dB (K^{-1}). DBSC recommends a value of 12 dB (K^{-1}), assuming clear sky conditions and a .9m antenna. RCA recommends a range of 9.5–14 db (K^{-1}), corresponding to a range of receive antenna diameters of .6–1m; and STC supports a figure in the range of 6.4–7.6 dB (K^{-1}), which falls out of the Advisory Committee's preliminary recommendations on other parameters. STC notes that this value is for the total system. The values recommended by the Advisory Committee in its Final Report was the range of 6.4–7.6 dB (K^{-1}), with the higher value being predicated on an assumed bandwidth of 24 MHz. The CPM report was also inconclusive on this point, specifying a range of 6–10 dB (K^{-1}). A stumbling block in reaching a decision again appears to be problems in mass production of receivers, as the CPM report notes "* * * it can now be expected that noise figures of the order of 4.0 dB can be obtained at reasonable cost in the 12 GHz band * * *. However, some variation of the noise factor in the mass production process may have to be taken into account." As part of its review of the CPM report, the Advisory Committee revisited the topic of G/T. In its Addendum to its Final Report, the Committee recommends a value of dB (K^{-1}) degraded for planning. The recommended degraded value of G/T takes into account allowances for antenna mispointing and receiver aging, as well as for atmospheric noise.

43. The Commission is encouraged that the Advisory Committee has been able to recommend a G/T value that is several dB higher than that used at the 1977 WARC–BS. This will promote the planning of the BSS with satellite powers that might have otherwise been excessive. We believe that the value is comparable to that proposed by others in the comments to the *Third NOI*, when

one considers the various effects of degradation, and we propose its acceptance as a proposal to the 1983 Conference as a technical basis for planning.

vi. *Receiving Antenna*

44. In the *Third NOI* the Commission noted that the selection of the receive antenna size is a significant factor in efficiency of orbit utilization and that therefore consideration should be directed towards the larger sized antennas being considered by the Advisory Committee in its preliminary report. The Commission further noted that the receive antenna reference pattern should be improved over that used at the 1977 WARC–BS. The Advisory Committee preliminary report considered such an improved pattern and comment on this pattern was solicited in the *Third NOI.*

45. In the comments to the *Third NOI* CBS suggests that a 1 meter receive antenna size appears reasonable, and that consideration of small differences in antenna size should not be allowed to threaten block allotment planning if the improved orbit efficiency obtained with this size antenna were necessary to obtain block allotments for the U.S. RCA states that it believes a 1 meter antenna would cost about $40 more than a .6 meter antenna. USSB believes that the smallest size antenna that will still preserve 15° satellite spacing should be adopted, which it believes would be about .75 meter. Both STC and RCA support the use of the improved antenna pattern that was preliminarily adopted by the Advisory Committee. In its Final Report, the Advisory Committee continues its support of its preliminary findings, and also suggested that the antenna size be chosen so as to result in an antenna half power beamwidth of between 1.9° and 2.25° (or between .9m and .75m at 12.5 GHz). This same pattern was submitted by the U.S. to the CPM and is one of two patterns presented in the CPM report for consideration. The other pattern (Canadian) shows improvement over the U.S. proposal out to about 3.6 half power beamwidths, with the U.S. pattern having the better performance between 3.6 and 12 half power beamwidths. Beyond that point the other pattern again displays better performance. The CPM made no recommendation between these two patterns but rather "agreed that further study in this area should be performed * * *". The CPM also recommended that the earth station receive antenna size should be chosen so as to result in a half power beamwidth of between 1.7° and 2.25° (1m–.75m). In reviewing the CPM results, the Advisory Committee continues to recommend the pattern proposed by the U.S. to the CPM, and maintains its original recommendation on antenna size. It does, however, note continuing study in this area with some preliminary results that are very encouraging. It states in the Addendum to its Final Report with regard to these studies, "* * * the results to date suggest that, if offset fed antennas can be produced in large quantities at competitively low prices with comparably low sidelobe envelopes, the Advisory Committee can recommend reference antenna patterns about 3 dB lower at a given angle than the better of the current U.S. and Canadian patterns, except for large off-axis angles, where the Canadian pattern cannot be met."

46. We believe that there is sufficient evidence to indicate that offset fed antenna designs can be produced at prices competitive with center fed designs. We also believe that further improvements in antenna performance and design are likely to occur during the life of the Plan developed at the RARC. Accordingly, while we will continue to monitor the progress of the studies on receive antenna patterns, we are recommending that the receive antenna performance used for planning be based as an improved offset fed design. With respect to the antenna size, we believe that a .9 meter diameter appears reasonable for planning purposes. Both of these decisions are particularly appropriate to the next item to be considered, orbital spacing.

vii. *Orbital Spacing*

47. In its earlier *Notices* the Commission identified two objectives that were to be met through proper selection of orbital spacings. The first is have separations large enough so that adjacent satellites could serve adjacent service areas using the same BSS channels, while still meeting eclipse and minimum elevation angle requirements. The second is to select orbital positions and satellite separations that would allow re-use of orbital positions to serve different areas within the U.S. Comments to earlier *Notices* indicated that perhaps satellite spacings as small as 16° could meet this requirement. The Commission also noted that this concept of frequency re-use could be applied Region-wide and was critical to the acceptance of the "block allotment" approach to planning.

48. As mentioned earlier in this *Report and Order*, comments to the *Third NOI* indicate that satellite spacings on the order of 15°–16° are possible for satellites serving adjacent service areas. These figures are generally arrived at in considering the improved earth receive antenna pattern. As CBS points outs, perhaps satellite spacings as close as 13.5° are possible. Selection of the appropriate spacings between satellites will have to take into account the various requirements of all of the countries of Region 2. If Regional requirements are very numerous, it may require that a large number of satellite positions be provided in the plan, with the resultant effect of closer satellite spacings. The Commission, through the active participation of its staff on the U.S. delegation, will continue to promote the two objectives noted above during the development of the BSS plan at the 1983 Conference. Adoption of a home receive antenna pattern based upon an offset fed design may allow satellite spacings as close as 8°–10°.

viii. *Elevation Angle of Receiving Antenna*

49. In the *Third NOI* the Commission noted that in comments to earlier *Notices*, STC and CBS had proposed 20° as a minimum elevation angle for planning purposes and that JCET had proposed 10°. Both STC and CBS had noted that particular geographical and rain climatic conditions may allow lower elevation angles to be used in certain circumstances. The Commission saw merit in using 20° as a minimum elevation angle for planning purposes, observing that each administration may elect to use a lower value in special instances during the planning process.

50. In comments to the *third NOI*, STC and CBS again state a preference for keeping the minimum elevation angle above 20°. CBS states that the elevation angle should be allowed to go below 20° only if needed to accommodate block allotment planning. STC states that the westernmost parts of the U.S. are arid and sparsely populated and could therefore accept a somewhat lower angle. The Final Report of the Advisory Committee also states a preference for a minimum elevation angle in the 20°–40° range, and points out that elevation angles less than 20° may be acceptable in arid and high latitude areas. The report of the CPM generally draws the same conclusions, when noting that system performance variation with elevation angle, as measured by carrier-to-noise temperature, is generally quite small, on the order of a few tenths of a decibel, down to elevation angles as low as 20°.

51. The Commission continues to agree that 20° elevation angle appear to be reasonable as a minimum upon which to base planning, and therefore proposes that this figure be used in

planning. With respect to specific plans providing service to the U.S., the Commission agrees that certain climatic and topographic circumstances may allow angles as low as 15° in some parts of the U.S. With this guidance the Commission defers to the expertise of the U.S. delegation in addressing these special circumstances at the 1983 Conference.

ix. *Transmitting Antenna (Elliptical or Shaped Beams)*

52. In the *Third NOI* the Commission noted that all comments received at that time favored the use of shaped-beam technology in the design of spacecraft transmitting antennas for coverage of large service areas. The benefits of this technology in the planning process were noted, and comment was requested on how this technology could be considered in the planning process.

53. Comments to the *Third NOI* continue to support the use of shaped beams in the planning process, with CBS, DBSC, RCA and STC commenting on its benefits. RCA and STC again raise the point that even though shaped-beam technology is supported for use in the statellite transmitting antenna, the use of "sidelobe suppression" techniques should not be required. With respect to the reference pattern of the satellite transmitting antenna, the Advisory Committee Report recommends adoption of a co-polar pattern identical to that adopted by the 1977 WARC–BS and a cross-polar pattern that is approximately 5 dB more lax than that used at the WARC–BS for close-in angles. The CPM Report makes a similar recommendation for the co-polar and cross-polar patterns. Additionally, the CPM Report recommends a pattern that could be used for an elliptical beam antenna pattern that assumes a roll-off that is more precipitous beyond the 3dB contour than the WARC–BS pattern. This more rapid roll-off would be generated by one of the beamlets having a beamwidth (beamlet) of approximately 0.8°. These beamlets are formed by an offset cluster of feeds driving the antenna aperture. The co-polar and cross-polar pattern and equations, as well as the shaped-beam pattern are presented in the attached U.S. Proposals.

54. The Commission continues to recognize the benefits to be derived both in planning and system implementation through the use of elliptical beams with fast roll-off. The patterns recommended by the Advisory Committee and the CPM appear to be well-founded and reasonable. It is also further recognized that the computer software that has been developed for this Conference is fully capable of handling the complex nature of such patterns in the analyses of a plan. However, any use of shaped beam patterns in the plan for U.S. service areas does remove a degree of flexibility in the implementation of U.S. DBS systems. The Commission therefore supports the use of the CPM recommended shaped beam antenna patterns to the degree necessary to meet other U.S. planning objectives at the Conference, including limiting their use only to the directions in which planning difficulties are encountered. The Advisory Committee and CPM co-polar and cross-polar reference patterns for "standard" antennas with elliptical beam and fast roll-off are supported.

x. *Pointing Accuracy of Satellite Antenna*

55. In the *Third NOI* The Commission noted that the preliminary report of the Advisory Committee stated there was general agreement on a value of ±0.1° for pointing error in any direction, and agreement that the rotational error tolerance should be ±1.0°. These value appeared to be reasonable and were supported by the Commission.

56. Comments in the *Third NOI*, The Final Report of the Advisory Committee and the CPM report all support the adoption of these values for planning. The CPM report also recommends a value ±.1° for satellite station keeping tolerance, a topic not addressed in the *Third NOI*. The Commission notes that the tightening of the rotational tolerance to 1° from the 2° adopted at the 1977 WARC–BS will allow the specification of elliptical satellite coverage areas with less spillover into adjacent areas, thereby reducing interference and facilitating the drawing up of an acceptable plan. The recommendations of the commenters to the *Third NOI*, the Advisory Committee and the CPM with respect to satellite antenna pointing and rotational tolerance are accepted by the Commission, as well as the CPM recommendation of ±.1° for satellite station keeping tolerance.

xi. *Power Flux Density (PFD) at Edge of Coverage Area*

57. In the *Third NOI* the Commission noted that recommendations in earlier comments considered values of PFD for planning in the range of −103 dB(W)/m² to −110 dB(W)/m², with the assumed value of receive G/T playing a significant role in determining the value of this parameter. It was further noted that the highest value in this range was being considered as a means of providing adequate spectral density threshold to digital systems, etc. The Commission stated that it was not yet convinced that the value of PFD adopted at WARC–BS, i.e. −105 dB(W)/m², for Region 2 should be exceeded for conventional television transmission. It was also unclear in some earlier comments whether the proposed value was for clear weather or for 99% of the worst month.

58. Comments to the *Third NOI* are unanimous in their recommendation of −105 dB(W)/m² per channel. In its reply comments, however, STC takes exception to the recommendation of DBSC and RCA that this should be a clear weather figure, and states its belief that the value should apply to 99% of the worst month. The Advisory Committee's Final Report also recommends a figure of −105 dB(W)/m² for 99% of the worst month, based upon an FM signal. It recommends −102 dB(W)/m² for HDTV, which it foresees as using a double channel. The CPM report does not recommend a single value, but rather indicates a range for PFD. It suggests that a PFD be used that is consistent with a satellite EIRP, minus the rain margin, that falls between 53 dB(W) and 60 dB(W). This range derives from the range of values that the CPM adopted for earth station receive antenna size and receiver G/T. The Addendum to the Advisory Committee report points out that its recommended value of −105 dB(W)/m² is fully consistent with and derives from its recommendations on bandwidth, G/T, and C/N.

59. The Commission believes that the Advisory Committee report recommendation in this area represents an integrated whole that has been arrived at through intensive investigation and examination. It represents a value that will provide for the operation of all DBS systems currently being requested before the Commission. Adoption of a lower value as suggested in the CPM report may preclude some new and innovative services that are being contemplated for DBS. The Commission supports the Advisory Committee recommendation and recommends this value as a U.S. proposal to the Conference.

xii. *Energy Dispersal*

60. In the *Third NOI* the Commission accepted arguments put forth that energy dispersal may not be required for sharing betwen BSS systems. It was also noted that co-channel sharing between BSS and terrestrial fixed stations will not be possible within large geographical areas (persumably within any given BSS service area, and some distance beyond), regardless of whether

or not energy dispersal is used. The only question remaining then was how to take into account potential BSS interference to terrestrial fixed stations to other countries in the planning process.

61. Comments to the *Third NOI* from AT&T, AMST and the Network Affiliates state that energy dispersal should be used in the plan in order to maintain flexibility in sharing with terrestrial fixed service, with AT&T recommending a PFD limit of −128 dB(W)/m²/4 kHz to accomplish this purpose. CBS, DBSC, and STC each advise against mandating use of energy dispersal in the planning process, even though CBS encourages its use when implementing systems. STC states that energy dispersal may be needed in some special cases, including inter-Regional sharing. AT&T, in its reply comments, states that STC's comments that energy dispersal may be needed for sharing between BSS and terrestrials in adjacent service areas is equally applicable to U.S. service areas, and therefore continues to promote its use in the planning process. In its Final Report, the Advisory Committee states that energy dispersal should not be required in the planning process, except for special cases of inter-Regional sharing. The Report of the CPM states that "* * * the PFD required by Region 2 BSS systems at their edge of coverage will be at the level which will still permit the operation of fixed-service systems in adjoining areas without causing unacceptable interference, providing that such BSS transmissions employ artificial energy dispersal." This statement was made by the CPM as a matter of technical fact, and was not presented as a recommended basis for planning of the BSS service. Upon review of the CPM Report, the Advisory Committee maintains its original recommendations.

62. The Commission recognizes the problems of sharing between the BSS and terrestrial services. This issue was considered extensively by the Commission in Gen. Docket 80–603 where it was recognized that the sharing situation was an untenable one, and that the full development of the 12 GHz band by DBS would necessitate the eventual removal of the terrestrial systems from this band. The Commission staff was directed to immediately begin an investigation looking toward reaccommodating the terrestrial services in other frequency bands. This investigation is currently underway and the Commission expects to act on this matter in the near future. In view of the fact that the U.S. is seeking access to all of the BSS channels in each CONUS service area, and that co-channel or adjacent channel BSS and terrestrial fixed service operations are not possible in the same or adjacent service areas, either with or without energy dispersal, there appears to be no compelling reason to mandate its general use within the BSS plan. The Commission does recognize the difficulties that arise in some Region 1/Region 2 interfaces where criteria has already been established by the 1977 WARC–BS. In these situations, the Commission can support the use of energy dispersal to meet these limits, but would prefer to leave the issue as one for resolution by each particular BSS operator as to how the specific PFD limits are to be met, be it through the use of energy dispersal or through other technical means.

xiii. *Guard Bands*

63. In the *Third NOI* the Commission raised for the first time the issue of guard bands. It was noted that guard bands must be considered from two aspects. The first of these is the need to provide adequate protection to services in bands adjacent to the BSS allocation. The 1977–WARC–BS preliminarily provided 12 MHz at the lower end of the band and 9 MHz at the upper end of the band for this purpose. The second aspect was that of providing spectrum for use by BSS for telemetry, tracking and command (TT&C) functions. Comment was requested on both of these aspects, noting that in preliminary discussions with region 1 administrations concern had been voiced about the ability to accommodate all of the TT&C requirements within the guard bands provided by the 1977 WARC–BS plan.

64. With regard to the issue of protecting services in adjacent bands, COMSAT states in its reply to the *Third NOI* that a band edge PFD of −177 dB(W)/m²/4 kHz by the BSS should be sufficient to protect the FSS. It notes that, based on measurements, the power roll-off as shown in CCIR Report 712 may be too low, thereby requiring larger guard bands than originally envisioned. STC states that it believes the 12 MHz and 9 MHz specified by WARC–BS may be sufficient if the BSS and FSS statellites are separated by about a half degree on the orbit. In its reply comments AT&T states its concern that any guard bands needed to protect adjacent services should come out of the BSS allocation, and that the orbit avoidance solution proposed by STC would severely impact the FSS. It suggests the 12.3 GHz band division as a possible solution.

65. With regard to TT&C requirements CBS states that, based on current recommendations on bandwidth and channel spacings, guard bands totalling 19 MHz plus two half channels will be available for TT&C purposes, making available a total of 45 MHz, which it believes is sufficient. Noting that several satellites will be operating from the same nominal orbit location, it also recommends a 0.2° spacing between these satellites so as to fascilitate TT&C operations. SBS also notes the particular difficulties of BSS, where several satellites will share the same nominal orbit location, and recommends that this point be considered. DBSC believes the TT&C issue not to be a critical one and states tht 10 to 20 MHz at the low end of the band could accommodate the TT&C requirements. RCA also states that the WARC–BS specified 12 MHz and 9 MHz guard bands should be adequate for TT&C. The Final Report the Advisory Committee noted that guard bands similar to those specified at WARC–BS would be required to protect adjacent band services, and that additional study should include consideration of TT&C requirements. The Addendum to the Advisory Committee Final Report notes that the different allocation now available to BSS may require re-examiniation of the guard bands. It notes that characteristics specified by one DBS contractor lead to the implication that guard bands may have to be wider for the band edge PFD limits considered at WARC–BS. It urges that additional information be brought to the attention of the U.S. delegation, by spacecraft designers and system operators, prior to the 1983 Conference.

66. The Commission recognizes that this is an area where technology is subject to rapid change and that much additional information may be forthcoming in the time between now and the Conference. We accept the premise that because of the relatively high power operation of BSS satellites some guard bands are required from within the BSS allocation to protect adjacent band services, but that the burden should not fall totally upon the BSS service when making the decision on appropriate guard bands.[10] The separation of nominally co-located BSS satellites to ease the contraints on TT&C appears to be a reasonable solution as long as it does not adversely affect FSS orbital location assignments and should also aid in providing additional discrimation in the feeder links. The Commission therfore recommends that

[10] See *Radio Regulation* No. 301 which deals with services operating in neighboring frequency bands.

the U.S. propose guard bands of 11 MHz and 9 MHz at the lower upper BSS bands edges. Noting that this is a complex problem that is related to other issues. The U.S. delegation should work toward satisfactory resolution of these issues at the Conference, consistent with obtaining a BSS plan that meets U.S. objectives with respect to quality of BSS service and operational flexibility required, a well as avoiding adverse impacts to existing and planned FSS networks.

B. Feeder Links

67. In the *Third NOI* five specific areas of feeder links were discussed. These were: (1) the specific frequency range within 17.3–18.1 GHz that should be planned; (2) the approximate number fo feeder link sites required; (3) the mobility (if any) that should be available to feeder link stations; (4) the sharing criteria for the various services to which the 17.3–18.1 GHz band was allocated by WARC–79; and (5) the technical characteristics of feeder links. Each of these points can be related to two general considerations, which are the specific requirements of the BSS feeder links and how these feeder links interact with other services. The first of these considerations will be addressed in this section and the second will be considered in the section on sharing. In the *Third NOI* the Commission considered comments on the required bandwidth for the feeder link allocation. There were some suggestions that perhaps less than 500 MHz could be used to provide feeder links to a 500 MHz BSS downlink allocation, with CBS citing CCIR Report 561–1 (MOD I) as identifying possible means. The Commission had considered this possibility; however, noting the technical problems associated with this approach, as well as a Conference agenda that specifically calls for planning the feeder links in a bandwidth equivalent to that of the downlink, we found that planning of feeder links in a 500 MHz allocation would best serve the U.S. interests at the 1983 RARC. Comments to the *Third NOI*, aside from those relating to sharing with services above 17.7 GHz, presented no arguments for other than an equal allocation between the downlinks and the feeder links. There is unanimous agreeemnt that planning of the feeder links should start at 17.3 GHz and the Commission fully endorses these principles.

68. The *Third NOI* also raised the issue of the number and mobility of feeder link stations. In that *Notice* the Commission stated its belief that the most operationally flexible manner in which to provide for U.S. feeder links would be to specify in the plan a limited number of fixed feeder link sites for each U.S. satellite position, and then to adopt provisions for the use of other locations on the condition that certain agreed upon interference criteria are met.

69. USSB, in its comments to the *Third NOI*, suggests that feeder link sites for planning purposes should be spread evenly over the entire U.S. The Final Report of the Advisory Committee recommends that each orbital position assigned to serve any area within CONUS should have an uplink service area that includes virtually all of the U.S. area that can be seen from that orbit position.

70. In its preliminary response to the ITU Questionnaire on requirements the U.S. specified a limited number of fixed locations for feeder links within each service area, with all feeder links located within the downlink service area served by that feeder link (e.g., Eastern service area fixed feeder links were all located in the eastern service area). Additionally, a need was stated to be able to serve from a mobile feeder link any U.S. satellite visible from anywhere in the U.S., similar to the Advisory Committee recommendation. Upon further review of this situation the Commission observes that there is a need to extend their requirement to the fixed feeder link locations also. In doing so, however, it is necessary to consider the satellite antenna receive pattern to be used in the planning process. The ITU has interpreted the U.S. feeder link requirement statement as necessitating a satellite receive beam that covers nearly the entire northern half of the western hemisphere so as to include Alaska, Hawaii, CONUS, Puerto Rico and the U.S. Virgin Islands. This is obviously not an efficient way to either plan or implement this service. The Commission, therefore, recommends that for planning purposes the satellite receive antenna coverage pattern be only one large enough to cover the viewable area of the U.S., and in no case larger than that necessary to cover CONUS, allowing such an antenna to be repointed to receive transmission from Alaska, Hawaii, Puerto Rico or the Virgin Islands, or alternatively to provide spot beam coverages for reception of feeder links in those areas.

71. Comments to the *Third NOI* regarding the technical characteristics of the feeder links were very limited. USSB and STC recommend against the use of power control and depolarization compensation in planning. CBS also states that it sees no need for power control from a thermal noise/performance viewpoint. CBS states that for C/I considerations, it is desirable to have a uniform PFD at the satellite and on earth, employing automatic gain control (AGC) or limiter action on the satellite. STC similarly states that a limit on PFD inhomogeneity may be required for interference protection purposes.

72. The Commission's Advisory Committee reviewed the planning elements associated with the feeder links and provided a number of recommendations. These were reviewed in light of the CPM report and in some cases were modified. The table 2.2 below shows the original Advisory Committee recommendations, the CPM findings, and the revised findings of the Advisory Committee. The Commission finds the final recommendations of the Advisory Committee to represent a reasonable basis for the planning of the BSS feeder links and therefore endorses these recommendations, with one exception. We believe that planning based upon 1000 W power for all feeder link stations may create some sharing difficulties. We therefore proposed that 500 W generally be used, and up to 1000 W be allowed to accommodate special circumstances.

73. With respect to type of polarization to be used on the feeder links, for which the Advisory Committee made no recommendation, the Commission does not believe that the selection of type of polarization will signficantly affect the development of the BSS plan, and therefore defers this issue for consideration by the U.S. delegation to the Conference, where its relationship to other technical and operational matters can be more fully studied.

BILLING CODE 6712-01-M

Table 2.2 Feeder Link Planning Elements (See Annex 2b)

Table 2.2 Feeder Link Planning Elements (See Annex 2b)

Parameter	Original Advisory Committee Recommendation	CPM Finding	New Advisory Committee Recommendation (If Any)
C/N as guidelines for plan synthesis	26 dB for 99% worst month	(C/N) down + 11dB for 99% of worst month	Same as CPM
Satellite receiving antenna reference pattern	Same as transmitting pattern but with degraded cross-pol	Same as Advisory Committee	No change
Earth station minimum antenna diameter	5 m	5m for planning but 2.5m for implementation	Same as CPM
Earth station antenna reference pattern — Copolar	$G = \begin{cases} 32-25\log\Phi & 1°\leq\Phi<47.9° \\ -10 & \Phi\geq 47.9° \end{cases}$	$G = \begin{cases} 36 - 20\log\theta; & 0.1°<\theta<46.6/D_m \\ 8 + 20\log(D_m/\lambda) & \\ \quad -2.5\times10^{-3}(D_m/\theta)^2; & 46.6\lambda/D_m\leq\theta\leq\theta_j \\ 29 - 25\log\theta; & \theta_j<\theta<36.3° \\ -10; & \theta>36.3° \end{cases}$	Same as CPM
Earth station antenna reference pattern — Cross polar	No recommendation	$G = \begin{cases} G_e-30 & \theta<35\lambda/D \\ 9-20\log\Phi & 35\lambda/D<\Phi\leq 8.7° \\ -10 & \Phi>8.7° \end{cases}$	Same as CPM
Transmitter power at antenna input per TV channel	500 W	500-1000 W	1000 W
Satellite receiving system noise temperature	2000 K	1500K	Same as CPM
Protection ratio (single-entry) C/I as guideline for plan synthesis	Cochannel: 40 dB 1st and 2nd adjacent channels: no current recommendation	Cochannel: Same as Adv. Comm. 1st adjacent channel: 15-20 dB	No change
Power control	Use not recommended	≤ 5 dB permitted at elevation angles > 60°	Same as CPM
Polarization	Need not be specified	Same as Advisory Committee	No change
Depolarization compensation	Use not recommended	Same as Advisory Committee	No change
Limit on satellite AGC range	No recommendation	10-15 dB	15 dB
Frequency translation between downlink and feeder link plan	No recommendation	Same for all allotments	Same as CPM
Separation between "colocated" satellites with same feeder link service areas operating on adjacent channels	0.1° to 0.2° may be required	0.3° - 0.5°	0.4°
Minimum separation between "colocated" satellites of different Administrations	No recommendation	No recommendation	1°

BILLING CODE 6712-01-C

VII. Planning Principles and Procedures

74. In its *Third NOI* the Commisssion reviewed its preliminary positions on several of the issues related to planning principles and procedures that were identified in the *Second NOI*, and generally reconfirmed these positions. Specifically, it has reconfirmed the need to pursue a plan based upon individual reception and providing the U.S. with a large number of channels from a small number of orbit locations. However, in reconsidering its initial recommendation of a "limited planning approach" at the 1983 Conference, the Commission noted that the apparent U.S. need for a greater than "nominal" channel requirement and the widely divergent possibilities for system parameters represented by potential applicants necessitated reconsidering this position. The Commission, therefore, proposed the concept of block allotment planning, wherein a large service area (which could consist of, for example, a U.S. time zone, or a moderate sized country, or a group of smaller countries) would be allotted the entire 500 MHz of spectrum at both senses of polarization from a given orbit location. These large service areas and orbit locations would be chosen so that the interference between them would be below some mutually acceptable level. Under this arrangement, service within each of the large service areas would be provided without regard to the service being provided to the other large service areas, subject only to some broad overall technical constraints. Procedures would be established for determining the effects between stations implemented in different blocks, as well as for determining how stations of different countries sharing the same block would be implemented. The important point raised in the *Third NOI* concerning the block allotment approach to planning was that the particular type of planning adopted for any given block allotment could be chosen without regard to the method employed within other block allotments.

75. Comments to the *Third NOI* on the general principles of BSS planning and procedures support the concept of block allotment planning. CBS endorses the block allotment approach stating that the "limited planning approach" will not be in the long-term best interest of the U.S., and that the full 500 MHz at four primary eclipse protected positions should be a minimum objective. STC also supports the block allotment planning approach with a large number of channels from a small number of orbit positions. AT&T supports block allotments, but only of 400 MHz. In its reply comments SBS states that as a principle, use should be allowed by any country of the orbit/frequency resource, whether or not assigned to another country, so long as it isn't being used and no interference is being caused to the plan. In its Final Report the Advisory Committee recommended "a) that the U.S. seek a set of 4 'eclipse protected' orbital slots to serve CONUS; b) that the United States seek planning approaches at RARC-83 (such as block allotment) which allows maximum flexibility in assigning service areas to orbital locations within the United States, but that *nominal* service areas corresponding approximately to the U.S. time zones be identified if such identification is necessary to protect U.S. interests."

76. The CPM report devotes an entire chapter to planning approaches and procedures. One section of this chapter describes the desirable characteristics and features of a Region 2 planning approach, which are described as follows:

"Any approach used at the RARC SAT–R2 should, as far as possible, give greater flexibility as well as higher capacity per service area than in the approach used in Regions 1 and 3 as applied to Region 2. Some *characteristics* of such an approach would be that it would:

(a) Be sufficiently detailed so that it is clear after the Plan is completed that specific systems with certain interference potential and certain required interference protection wer used in the development of the plan;

(b) Be responsive to improvements in the technology as they develop after the Plan is completed;

(c) Be responsive to a wide range of traffic requirements, from high definition television to audio programming;

(d) Be responsive to the high intrinsic orbital capacity available in Region 2, a result of the geographical characteristics of the Region.

"To meet this set of requirements it is necessary that that the following *features* be included in the planning approach used:

(a) A benchmark set of system technical parameters would be agreed to, and this set used in the development of the Plan;

(b) The Plan would be developed on the basis that wherever possible satellite positions be placed far enough apart in orbit that they could use the same frequencies and the same polarization. Where this is not possible it will be necessary to make further provisions in the Plan to accommodate such systems;

(c) Include in the associated administrative regulations a means by which the Plan can be modified, such as is done through Article 4 of Appendix 30 for the Regions 1 and 3 Plan. Such modifications would be permanent and would replace an original entry in the plan or add new entries to the Plain; and

(d) Also include in the associated administrative regulations a means by which a system with different technical parameters, different types of modulation, different coverage areas, etc. can be implemented without modifying the Plan as long as the system being proposed does not cause more interference to any other system in the Plan than the agreed system officially in the Plan, nor does it require more protection than the system in the Plan. At the end of its useful life such a system could be replaced by the offical system still in the Plan, or by a different non-standard system that met the above qualifications. If at any time an administration wished to have that non-standard system incorporated in the Plan, that could be done through the modification procedure in (c) above."

With respect to procedures, the CPM report provided further suggestions.

"In conjuction with detailed planning approaches as described in §§ 6.2.2.3, 6.2.2.4, 6.2.2.5 and 6.2.2.6, the following procedures might be used to guarantee frequency/orbit access for requirements as they arise, particularly for access to portions of the orbit-spectrum resource not already allocated in the Plan or where not all technical parameters are specified in advance (such as methods 6.2.2.4 and 6.2.2.5).

"A guaranteed access by means of multilateral coordination would provide for the case when a new requirement could not readily be accommodated. A special meeting would be called of those administrations that might be affected and a means would be sought ot accommodate the new requirement.

"Certain methods of calculation and technical factors which may be revised periodically (typically taking into account the latest CCIR Reports and Recommendations), may be necessary to fully implement the Plan. In particular such things as calculation of interference to and from systems employing non-standard parameters may have to rely on procedures incorporating such possibilities. Furthermore, under the block approach (see§ 6.2.2.5) groups of two or more administrations may wish to adopt flexible procedures and technical forms for sharing the allotted block of frequencies, which could be revised over time to reflect changes in requirements and techniques, (including costs). These special procedures and technical factors would be unique to the sharing administrations and would have to respect the conditions of the Plan both internationally and regionally.

"Regulatory procedures which would accompany an acceptable planning approach would specify precisely how the actual "non-standard" systems should be notified. It would be desirable if most of these "non-standard" systems could be notified without resorting to a formal modification procedure.

"In some cases it may be necessary to make a formal modification to the Plan. In accordance with Resolution No. 701 of WARC–79 RARC SAT–R2 is to draw up a detailed plan of frequency assignments and orbital positions for the broadcasting-satellite

service in Region 2 in the 12 GHz band. An objective is to provide for administrations in Region 2 to be able to review and, if necessary to revise, their system characteristics in this plan when their systems are to be implemented. In most cases the procedures mentioned in the paragraph above will allow these systems to be implemented. In some instances, however, formal modifications to the Plan may be desirable."

77. In reviewing the comments to the *Third NOI*, the Advisory Committee Report, the CPM report and recent activity in the ITU BSS Panel of Experts, the Commission maintains that the block allotment approach to planning still provides the best opportunity for meeting the needs of the U.S. and the other countries of Region 2. However, some modifications to this approach appear to be necessary to assuage the concerns of some countries in the Region, as well as to overcome some procedural obstacles to having such an approach adopted at the RARC. In developing a plan at the 1983 Conference, sophisticated computer techniques will be used both to develop and to analyze the BSS plan. Such techniques require that a specific channelling scheme be adopted for the plan so that appropriate co-channel and adjacent channel interferences can be calculated. The Commission accepts this fact and believes that with the proper procedures, this factor should not act as an impediment to the introduction of U.S. DBS systems. Although we accept specific channeling for the U.S. in the plan, all U.S. assignments should show operation at both senses of polarization thereby providing a de facto block allotment to the U.S. when all channels are assigned. With respect to the regulatory procedures, the Commission has examined a number of concepts that would provide for the implementation of systems within the plan or allow for implementations of systems that might not be in strict accordance with the parameters in the plan. A presentation of these concepts and the principles covering them is presented below.

Basic Principles for the Utilization and Modification of Assignments in the Plan

1. The primary goal of RARC–1983 is to develop a regional plan which will permit the orderly development of broadcasting-satellite services in Region 2. Recognizing that this development can be expected to occur at different rates and under differing conditions throughout the Region, the procedures for implementing the Plan should be designed to provide for the differing needs of all administrations.

2. This goal can best be met by providing the opportunity for all administrations to:

(1) Employ revised system characteristics without unnecessary procedural complication and delay, and

(2) Add new assignments as necessary to meet growing needs for service,

while assuring that the agreed protection will be afforded to all systems in accordance with the Plan, whether their implementation is rapid or delayed.

3. The following principles would serve these goals:

(1) *System Variations in Accordance with the Plan.* When utilizing any of its orbital positions designated in the Region 2 Plan, an administration may employ system characteristics differing from those appearing in the Plan, without modifying the Plan, whenever the equivalent protection margins of the assignments of other administrations in the Plan are not consequently reduced. This principle may be applied to provide a broadcasting satellite service to any of the service areas of the administration, without modifying the Plan.

(2) *Plan Modification.* The Plan may be modified to change or add assignments with the agreement of affected administrations to the proposed change. (It should be borne in mind, in developing the Region 2 Plan, that the more tightly it is engineered, the more numerous would be the instances when it would be necessary to seek the agreement of other administrations to post-Conference modifications to meet changing requirements.) Modifications may be limited to a stated period.

(3) *Progressive Introduction of Services.* It may be expected that administrations will wish to bring their assignments into use progressively, rather than all at once. Such progressive introduction of broadcasting-satellite services could be greatly facilitated if an administration, when proposing modifications to the Plan and when notifying the bringing into use of assignments, is permitted to request that the Board not take into consideration other designated assignments of that administration that have not yet been brought into use. The Board would proceed without taking the designated assignments into consideration, and would re-examine them when the administration later notifies the Board of its intention to bring them into use.

The Commission believes a plan providing multichannel assignments to the U.S. and associated procedures that are based upon the principles laid out above will meet the U.S. requirements at the Conference and be responsive to the listed CPM Report desirable characteristics and features of a Region 2 planning approach.

VIII. Sharing

78. In this section of the *Report and Order* we shall consider sharing from two distinct perspectives, sharing with the downlinks (12 GHz) and sharing with the feeder links (17 GHz). Within each of these perspectives, sharing must also be considered from both the intra- and inter-Regional viewpoint. With respect to sharing intra-Regionally, the 1983 Conference has considerable latitude to select the criteria to be used for sharing between the various services concerned. With respect to inter-Regional sharing, many of the criteria first established at the 1977 WARC–BS and extended by various Resolutions at WARC–79 cover the new BSS downlink allocations. In some cases, however, criteria have not yet been established and this must be done at the 1983 Conference. In the *Third NOI* it was noted that very little had been presented in the comments filed or within the preliminary report of the Advisory Committee on sharing criteria. The only areas in which significant comment had been filed were on the use of energy dispersal and limits on spurious emissions from BSS receivers. It was further noted in the *Third NOI* that the case of inter-Regional sharing had not been fully discussed in earlier *Notices*. It was noted that inter-Regional sharing problems, at least with respect to Region 2 BSS interference to Region 1 or 3 Fixed and Fixed-Satellite services, were significant in only three areas, viz., the Alaska/Region 1/3 interface, the Greenland/Iceland interface, and the Brazil/West Africa interface. Comment was requested on how sharing criteria in these areas will impact the BSS service to be provided to these areas and how this could impact service to other areas in Region 2. We shall now examine each of the critical sharing situations in turn.

A. 12 GHz Intra-Regional Sharing

79. Comments to the *Third NOI* in this area of sharing concerned two specific aspects. The first was the sharing between BSS downlinks and terrestrial services sharing the 12.2–12.7 GHz band with BSS. The second was the potential for BSS interference to services in adjacent bands. With regard to the first of these two apsects, there was considerable comment filed regarding the need to give proper consideration to the terrestial fixed stations currently operating in the band. AAR, Farinon, MRFAC, and Rockwell each specifically

call out the need to consider the needs of the terrestrial fixed stations in the planning process, with Rockwell continuing to call for a subdivision of the band between the terrestrial fixed and the BSS. Farinon notes that providing spectrum for fixed service use at 13.2–13.7 GHz could help the situation considerably. Additionally, AMST and the Network Affiliates, and CBS, state that terrestrial broadcasting should be considered in the RARC–BS planning and that terrestrial broadcasting affects the technical and planning parameters for BSS. USSB in its reply comments states its belief that 12 GHz terrestrial broadcasting is infeasible and that delaying DBS for it is not warranted. The Final Report of the Advisory Committee states that co-channel sharing between BSS and terrestrial services in the same service area is not generally feasible. A majority of the Committee also agrees that a block allotment plan of the full 500 MHz at each orbit position is considered to be the most technically suitable way of meeting the needs of affected existing systems since it provides the greatest latitude in solving the sharing problems on a domestic basis.

80. Much of the substance of this issue has been discussed in earlier sections of this *Report and Order* in considering planning approaches and in discussing the use of energy dispersal. The Commission has noted in the *Report and Order* in Docket No. 80–603 that the extensive use of the 12 GHz band by DBS would necessitate the eventual transfer of terrestrial fixed operations from that band to other bands. It is also noted that the Commission has directed its staff to prepare a Report to the Commission that would identify additional spectrum to be available for terrestrial fixed systems currently operating at 12 GHz. We believe this solution to be in the best long-term interests of both services. Nothwithstanding the domestic decisions that have been made with regard to the use of the 12 GHz band in the U.S., an allocation to terrestrial fixed services still exists in the international Table of Allocations and suitable procedures are needed for coordination between these services following the adoption of a BSS plan for the Region. Such procedures, which are similar to those adopted at the 1977 WARC–BS, are included in the Annex to the *R&O* for submission to the ITU as U.S. proposals.

81. The problem of BSS interference into adjacent bands is addressed from two aspects also. The first of these is emissions from the BSS satellites into the FSS receivers. This aspect was discussed under the subject of guard bands. COMSAT states that a band edge PFD of -177 dB(W)/m^2/4kHz is needed to protect the FSS. SBS states that if the full 500 MHz is allocated to BSS at the Conference, then some minimal spacing may be required between the BSS and FSS satellites to provide additional required discrimination. The Final Report of the Advisory Committee states that emissions of BSS space stations, due to spectrum spreading, into the fixed satellite service operating in adjacent bands, requires careful coordination between the services involved. It further states that the methods that may be utilized include carrier planning, allocating guard bands, and establishing a minimum orbital spacing of one degree between the broadcasting and the fixed satellites. The Commission believes that the establishment of a band edge PFD of -147 dB(W)/m^2/24 MHz, based upon an assumed nominal spacing between BSS and FSS satellites, should provide a reasonable and equitable means of sharing between these two services. This should also be considered in the establishment of the BSS guard bands.

82. The second adjacent band problem addressed in the comments relates to local oscillator radiation from the BSS home receiver, which may cause interference into Fixed Service receivers in the 10.7–11.7 GHz band. AT&T believes that receiver emission limits should be established (it recommended -170 dB(W)/m^2/4 kHz at one mile in comments to the *Second NOI*). Rockwell supports a value of -177 dB(W)/m^2/4 kHz for local oscillator emission limits. STC states that it believes receiver manufacturers could meet about -120 to -140 dB(W)/m^2/4 kHz at one mule without the use of expensive filters. It notes that two manufacturers thought an additional 20 to 30 dB could be obtained through special filters at not much additional cost. The Final Report of the Advisory Committee also recognizes this situation as one of potential serious difficulty and suggests several ways in which to ameliorate the problem. In reviewing the situation following the CPM, the Advisory Committee evaluated several receiver designs. The results of this evaluation show that the average value experienced was approximately 17 dB higher than required to meet the value suggested by AT&T. The Committee concluded that additional information is needed on technically and economically viable values of receiver local oscillator radiation, image rejection ratio, and IF rejection ratio. The latter of these two relate to potential susceptibility of DBS home receivers to authorized emissions of other services in the U.S.[11] The Advisory Committee Report, as well as the Report of the CPM, cover a number of other cases of potential interference from BSS spurious emissions. While these factors are important in designing BSS systems, there is significant doubt as to how this will affect the planning of the BSS at the RARC–BS. It is not certain that the 1983 Conference will be competent to make any regulatory decisions falling outside of the bands 12.1–12.7 GHz and 17.3–18.1 GHz. Similar considerations arose at the 1977 WARC–BS and provisions were not adopted because they were outside the agenda of the Conference. A similar situation appears to exist for the Region 2 Conference. The Commission does not propose to make any proposals to the Conference concerning frequencies outside of those noted above. However, the information contained in the reports of the Advisory Committee and the CPM will be very useful when considering the various technical characteristics to be used in planning the BSS.

B. 12 GHz Inter-Regional Sharing

83. The only comments filed in response to the *Third NOI* on this item was that of STC. In its comments, STC supports the contributions of the U.S. to the CPM regarding sharing between Region 2 BSS and Region 1 and 3 terrestrial and fixed-satellite service. The premise of these U.S. contributions was one of reciprocity between Region 2 and Regions 1 and 3. The Final Report of the Advisory Committee identifies 14 specific cases of inter-Regional sharing situations, broken down by services and frequency subband concerned. It is noted that the 1977 WARC–BS adopted a number of sharing criteria between the Regions, and that the 1979 WARC adopted modifications to make these criteria applicable to the new allocations, as evidenced in WARC–79 Resolution 31. This Resolution notes that the provisions of Appendix 30 (i.e. the WARC–BS Final Acts) can be applied directly to all of the new sharing situations except for sharing between the FSS in Regions 1 and 3 and the BSS in Region 2 in the frequency band 12.2–12.7 GHz. Resolution 31 further recognizes that this sharing situation is covered by Resolution 700 of WARC–79. Resolution 700 calls for a reciprocity in sharing situations between the Regions. It calls for Region 2 BSS to protect

[11] Reference FCC Public Notice 604, "Susceptibility of DBS home receivers to extraneous interference," Nov. 3, 1982.

Region 1 and 3 FSS to the same extent that Region 2 FSS is protected in the Region 1 and 3 BSS plan. The Advisory Committee Final Report also notes that submissions have been made to the CCIR that seek to have Region 1 and 3 FSS protected to a greater extent from Region 2 BSS than the Region 1 and 3 BSS plan protects Region 2 FSS. The Advisory Committee notes that "resolves 2" of Resolution 700 appears to militate against a demand for such increased protection.

84. The Commission believes that the Advisory Committee's investigations into the inter-Regional sharing situations at 12 GHz have been quite thorough and represent a good analysis of the current situation. We believe that virtually all of the current sharing situations are adequately addressed in Appendix 30 to the Radio Regulations and the relevant Resolutions adopted at WARC–79. In those few instances where final decisions need be made at the 1983 RARC–BS, we believe that the principle of reciprocity between the Regions must be observed. The U.S. should not accept, as a matter of principle, an obligation to protect the services of other Regions to an extent greater than those same services are to be protected in Region 2. Proper coordination procedures should be available to consider the needs of special types of systems that may be brought into service. The principles of such coordination procedures may be found in the attached recommended U.S. proposals.

C. 18 GHz Sharing

85. Sharing that occurs around 18 GHz is of concern principally above 17.7 GHz. Below this frequency the BSS feeder links share an allocation with the radio location service, which is secondary. As such, the radiolocation service must protect the BSS feeder links, as well as accept any interference caused by the BSS feeder links. Above 17.7 GHz, the feeder links share on a co-equal basis with the fixed and mobile services and the FSS operating in the space-to-earth direction. In its comments to the *Third NOI* AT&T states that sharing criteria are virtually non-existent at 18 GHz. It expresses concerns with respect to the viability of three-way sharing between the feeder links, the FSS and the terrestrial fixed, stating that the necessary technical studies on this type of sharing situation have yet to be completed. AT&T further sttes that if mobile feeder links are to be allowed above 17.7 GHz, then a full coordination procedure must be available. USSB believes that the coordination problems described by AT&T are exaggerated. It further suggests that mobile feeder link stations be restricted to below 17.7 GHz. The Final report of the Advisory Committee states that the coordination procedures of Appendix 28 of the Radio Regulations should permit sharing of the 18 GHz band. However, it does suggest that consideration be given to limiting mobile feeder links to the band 17.3–17.7 GHz in order to minimize coordination problems with the Fixed and FSS services, and to the extent possible, any fixed feeder links that are located in urban areas should be assigned frequencies in the 17.3–17.7 GHz band if the 18 GHz band is to be used for telecommand and tracking beacon frequencies. The Commission finds the recommendations of the Advisory Committee in this area to be reasonable and well-founded and we therefore accept them as proposals to the 1983 Conference

86. The final sharing situation addressed in the comments to the *Third NOI* was that of potential interference from the FSS space stations into the BSS satellite receivers. This is both an intra- and inter-Regional problem that can occur with satellites that are very close together or nearly antipodal. In its comments to the *Third NOI*, COMSAT states that if the gains of the two satellite antennas (BSS and FSS) toward each other are isotropic, then the satellites will require a little separation. It recommends that BSS satellite receivers be designed to accept $-113dB(W)/m^2/MHz$ arriving tangentially. The Final Report of the Advisory Committee states that separations between BSS and FSS satellites on the order of 0.4 degrees should provide adequate protection in this situation. The CPM Report makes no recommendation concerning this situation but notes that one Canadian study shows that the existence of planned BSS satellites should have a negligible constraint on the location of FSS satellites. However, it also noted that some care may be required when the intersatellite separation is less than 0.13°.

87. With respect to the antipodal sharing situation, COMSAT states that there is a potential for severe interference to the BSS feeder links from the FSS. As possible solutions it offers the following: 1) limit the BSS satellite sensitivity in the direction of the equatorial earth limb, 2) limit FSS emissions toward the equatorial earth limb, 3) establish antipodal exclusion arcs for the FSS, and 4) avoid assignments to feeder links in equatorial countries in the shared portion of the band. The Final Report of the Advisory Committee states that the case of interference from nearly antipodal satellites is unlikely. It notes that even assuming 40 dB(W) eirp from an FSS satellite, the PFD per square meter at a nearly antipodal BSS satellite would be about -128 dB(W), versus a desired signal of about -80 dB(W)/m^2, yielding a C/I value of 49 dB. The same Canadian study referenced above in the CPM Report indicates that some care should be exercised when the inter-satellite separation is in the rage of 160° to 162.5°. The Addendum to the Final Report of the Advisory Committee concurs in the findings of the CPM Report.

88. The Commission believes that the sharing problems described above are amenable to solution through the proper introduction of FSS systems and operation of BSS systems and should not constrain the planning of the BSS service. COMSAT's comment that feeder links of equatorial countries should be located below 17.7 GHz is an interesting one and we support its consideration in the planning process at the 1983 Conference.

IX. Conclusion

89. The Commission believes that for the 1983 BSS Conference to be successful, a Plan must be developed that is responsive to the stated requirements of all the administrations of Region 2. This mandates that careful consideration be given to the broad planning method to be adopted at the Conference, and to the relationship of the Plan to the various implementing and modification procedures which must be geared to fulfilling the needs of different administrations. Selection of technical criteria that reflect the current state of technology will be essential if the Conference is to develop an efficient, flexible Plan that meets the requirements of all Region 2 countries. In the judgment to the Commission, the proposals embodied in the *Report and Order* and the recommended U.S. Proposals which are detailed in Appendix A, will lead to the achievement of the above goals for the Conference. Accordingly, the Commission directs the staff to forward expeditiously to the Department of State the recommended U.S. Proposals that are attached to the *Report and Order*.

90. Pursuant to authority contained in Section 4(i), 303, and 404 of the Communications Act of 1934, as amended, a *Report and Order* is ADOPTED into the matter captioned above. It is further ordered that the proceedings in General Docket No. 80–398 are terminated.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

Telecommunications Industry Advisory Group Plant Accounts Subcommittee Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Telecommunications Industry Advisory Group (TIAG) Plants Accounts Subcommittee scheduled for Thursday and Friday, May 12 and 13, 1983. The meeting will begin on May 12 at 9:30 a.m. in the offices of MCI Telecommunications Corporation (1st Floor Meeting Room) at 1133 19th Street, NW., Washington, D.C., and will be open to the public. The agenda is as follows:

I. General Admistrative Matters.

II. Review of Minutes of Previous Meeting.

III. Discussions of Definitions of Plant Accounts.

IV. Further Assignments.

V. Other Business.

VI. Presentation of Oral Statements.

VII. Adjournment.

With prior approval of Subcommittee Chairman Gyles Norwood, oral statements while not favored or encouraged, may be allowed at the meeting if time permits and if the Chairman determines that an oral presentation is conducive to the effective attainment of Subcommittee objectives. Anyone not a member of the Subcommittee and wishing to make an oral presentation should contact Mr. Norwood (202/887-3266) at least five days prior to the meeting date.

William J. Tricarico,

Secretary, Federal Communications Commission.

[FR Doc. 83-11300 Filed 4-27-83; 8:45 am]

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-677-DR]

Amendment to Major-Disaster Declaration; California

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the Notice of a major disaster for the State of California (FEMA-677-DR), dated February 9, 1983, and related determinations.

DATED: April 11, 1983.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501.

The notice of a major disaster for the State of California dated February 9, 1983, is hereby amended to include the following area among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of February 9, 1983.

Humboldt County for Public Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Dave McLoughlin,

Deputy Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

[FR Doc. 83-11384 Filed 4-27-83; 8:45 am]

BILLING CODE 6718-02-M

[FEMA-679-DR]

Major Disaster and Related Determinations; Louisiana

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Louisiana (FEMA-679-DR), dated April 20, 1983, and related determinations.

DATED: April 20, 1983.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501).

Notice is hereby given that, in a letter of April 20, 1983, the President declared a major disaster under the authority of the Disaster Relief Act of 1974, as amended, (42 U.S.C. 5121 *et seq.*, Pub. L. 93-288) as follows:

I have determined that the damage in certain areas of the State of Louisiana, resulting from severe storms and flooding, beginning on or about April 1, 1983, is of sufficient severity and magnitude to warrant a major-disaster declaration under Pub. L. 93-288. I therefore declare that such a major disaster exists in the State of Louisiana.

In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance in the affected areas. You also are authorized to provide necessary Public Assistance in the affected areas when these requirements are known and an acceptable State commitment for these purposes is provided. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under Pub. L. 93-288 for Public Assistance will be limited to 75 percent of total eligible costs in the designated area.

Pursuant to Section 408(b) of Pub. L. 93-288, you are authorized to advance to the State its 25 percent share of the Individual and Family Grant program, to be repaid to the United States by the State when it is able to do so.

The time period prescribed for the implementation of Section 313(a), priority to certain applications for public facility and public housing assistance, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, and redelegated to me, I hereby appoint Mr. Alton S. Ray, Jr., of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of Louisiana to have been affected adversely by this declared major disaster:

For Individual Assistance, the Parishes of Ascension, East Baton Rouge, East Feliciana, Jefferson, Livingston, Orleans, Pointe Coupee, St. Bernard, St. Tammany, Tangipahoa and Washington.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Dave McLoughlin,

Deputy Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

[FR Doc. 83-11382 Filed 4-27-83; 8:45 am]

BILLING CODE 6718-02-M

[FEMA-678-DR]

Major Disaster and Related Determinations; Mississippi

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Mississippi (FEMA-678-DR), dated April 16, 1983, and related determinations.

DATED: April 16, 1983.

FOR FURTHER INFORMATION CONTACT: Sewall H.E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501).

Notice: Notice is hereby given that, in a letter of April 16, 1983, the President declared a major disaster under the

authority of the Disaster Relief Act of 1974, as amended, (42 U.S.C. 5121 *et seq.*, Pub. L. 93–288) as follows:

I have determined that the damage in certain areas of the State of Mississippi, resulting from severe storms, tornadoes and flooding, beginning on or about April 1, 1983, is of sufficient severity and magnitude to warrant a major-disaster declaration under Pub. L. 93–288. I therefore declare that such a major disaster exists in the State of Mississippi.

In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under Pub. L. 93–288 for Public Assistance will be limited to 75 percent of total eligible costs in the designated area.

Pursuant to Section 408(b) of Pub. L. 93–288, you are authorized to advance to the State its 25 percent share of the Individual and Family Grant program, to be repaid to the United States by the State when it is able to do so.

The time period prescribed for the implementation of Section 313(a), priority to certain applications for public facility and public housing assistance, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, and redelegated to me, I hereby appoint Mr. Paul E. Hall of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do determine the following areas of the State of Mississippi to have been affected adversely by this declared major disaster:

For Individual Assistance and Public Assistance, the Counties of Forrest, Greene, Lamar, Lawrence, Marion, Perry and Walthall.

For Individual Assistance only, the Counties of Franklin and Rankin.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Joe D. Winkle,

Acting Deputy Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

[FR Doc. 83-11383 Filed 4-27-83; 8:45 am]

BILLING CODE 6718-02-M

Federal Radiological Emergency Response Plan; Planning Guidance

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of availability of planning guidance document.

SUMMARY: The *Federal Radiological Emergency Response Plan (FRERP) Planning Guidance* document provides guidance to Federal Departments and agencies for developing the FRERP to be used as the basis for responding to peacetime radiological emergencies. It is primarily concerned with the off-site Federal response in support of State and local government assistance requests. The *Planning Guidance:* (1) identifies the general and incident-specific authorities and responsibilities of each Federal Department or agency likely to have a significant role in such emergencies; (2) describes the Federal government concept of operations for radiological emergencies; and (3) articulates Federal policies and assumptions to be used by participating Federal Departments and agencies (in addition to agency-specific policies) in preparing or revising agency-specific response plans and procedures.

DATE: Comments on the concepts contained in the planning guidance document will be considered during the development of the FRERP which is undertaken according to this planning guidance. Comments are due June 27, 1983.

ADDRESS: Send comments to Docket Clerk, Federal Emergency Management Agency, 500 C Street, SW., Washington, D.C. 20472.

FOR FURTHER INFORMATION CONTACT: James Cruickshank, Program Officer, Division of Emergency Response and Coordination, Office of Emergency Coordination and Support, Emergency Operations, Federal Emergency Management Agency, 500 C Street, SW., Room 407, Washington, D.C. 20472, telephone (202) 287–0756.

SUPPLEMENTARY INFORMATION: Executive Order 12241 delegated to FEMA the responsibility for the development and promulgation of a National Contingency Plan for radiological emergencies, to be prepared in response to the provisions of Sec. 304 of the Nuclear Regulatory Commission Appropriation authorization (Pub. L. 96–295—June 30, 1980). In December 1980, FEMA published the *National Radiological Emergency Preparedness/ Response Plan for Commercial Nuclear Power Plant Accidents (Master Plan).*

The concept of operations contained in the *FRERP Planning Guidance* is an expansion of the concepts contained in the *Master Plan.* Until the FRERP is published, the *Master Plan* remains the operative document for incidents involving commercial nuclear power plants. In radiological emergencies involving other facilities or activities, the concepts contained in the *Master Plan* should also be used.

Approved for the Federal Emergency Management Agency.

William F. Williams,

Director, Emergency Operations.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Acquisition of Bank Shares by a Bank Holding Company; Texana Bancshares, Inc.

The company listed in this notice has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated. With respect to the application, interested persons may express their views in writing to the address indicated. Any comment on the application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Texana Bancshares, Inc.* Hamilton, Texas; to acquire 80 percent of the voting shares of Texana National Bank of College Station, College Station, Texas. Coments on this application must be received not later than May 23, 1983.

Board of Governors of the Federal Reserve System, April 22, 1983.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Formation of Bank Holding Companies; North Central Financial Corp., et al.

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become bank holding companies by acquiring voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Philadelphia** (Thomas K. Desch, Vice President), 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *North Central Financial Corporation*, Emporium, Pennsylvania; to become a bank holding company by acquiring 100 percent of the voting shares of Bucktail Bank and Trust Company, Emporium, Pennsylvania. Comments on this application must be received not later than May 23, 1983.

B. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *First American Bancshares Limited Partnership*, North Litle Rock, Arkansas; to become a bank holding company by acquiring 90 percent of the voting shares of First American National Bank, North Little Rock, Arkansas and First American Bank/Little Rock, N.A., Little Rock, Arkansas (after conversion from Arkansas Federal Savings & Loan Association, Little Rock, Arkansas). Comments on this application must be received not later than May 23, 1983.

C. **Federal Reserve Bank of Minneapolis** (Bruce J. Hedblom, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. *Firstmondovi, Inc.*, Mondovi, Wisconsin; to become a bank holding company by acquiring 93 percent of the voting shares of The First National Bank of Mondovi, Mondovi, Wisconsin. Comments on this application must be received not later than May 23, 1983.

D. **Federal Reserve Bank of Kansas City** (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *Universal Bancshares, Inc.*, Kansas City, Kansas; to become a bank holding company by acquiring at least 80 percent of the voting shares of Fidelity State Bank, Kansas City, Kansas. Comments on this application must be received not later than May 23, 1983.

E. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Progressive Holding Company*, Winnsboro, Louisiana; to become a bank holding company by acquiring 80 percent or more of the voting shares of Progressive State Bank & Trust Company, Winnsboro, Louisiana. Comments on this application must be received not later than May 23, 1983.

Board of Governors of the Federal Reserve System, April 22, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 83-11396 Filed 4-27-83; 8:45 am]

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities; Citicorp, et al.

The organizations identified in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to these applications, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any comment that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifially any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated Comments and requests for hearing should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated.

A. **Federal Reserve Bank of New York** (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Citicorp*, New York, New York (finance company and credit-related insurance activities; Virginia): To relocate an existing office of Citicorp Person-to-Person Financial Center, Inc.

and an existing office of Citicorp Homeowners, Inc., from Virginia Beach Blvd., Norfolk, Virginia, to U.S. Commerce Center, Virginia Beach, Virginia, and to establish a *de novo* office of Citicorp Financial, Inc. at the same location. The previously approved activities in which the office of Citicorp Person-to-Person Financial Center, Inc. proposes to engage in the new location are as follows: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the purchasing and servicing for its own account of sales finance contracts; the sale of credit related life and accident and health insurance by licensed agents or brokers, as required; the sale of credit related single interest insurance: the sale of consumer oriented financial management courses; the servicing, for any person, of loans and other extensions of credit; the making, acquiring, and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or non-residential real estate; and the sale of mortgage life and mortgage disability insurance directly related to extensions of mortgage loans. The previously approved activities in which the office of Citicorp Homeowners, Inc. proposes to engage in the new location are as follows: The making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the sale of credit related life and accident and health insurance by licensed agents or brokers, as required; the sale of consumer oriented financial management courses; the servicing, for any person, of loans and other extensions of credit; the making, acquiring, and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or non-residential real estate; and the sale of mortgage life and mortgage disability insurance directly related to extensions of mortgage loans. The service area for Citicorp Person-to-Person Financial Center, Inc. and Citicorp Homeowners, Inc. in the new location will continue to be comprised of the entire State of Virginia for all of the aforementioned activities. The *de novo* office of Citicorp Financial, Inc. proposes to engage in consumer lending activities including application acceptance functions, the execution of loan documents and disbursement of funds, the acceptance of payments, account adjustments, and other customer service activities incidental to Citicorp Financial, Inc.'s credit card and direct lending activities. The proposed service area for the *de novo* office of Citicorp Financial, Inc. shall be comprised of the entire State of Virginia. Comments on this application must be received not later than May 23, 1983.

2. *Manufacturers Hanover Corporation,* New York, New York (consumer finance and credit insurance activities; West Virginia): To engage through a *de novo* indirect subsidiary, Finance One Mortgage of West Virginia, Inc., in the activities of making or acquiring loans and other extensions of credit, secured or unsecured, such as could be made or acquired by an industrial loan company under West Virginia law; servicing such loans and other extensions of credit, and acting as agent or broker for the sale of credit insurance directly related to such extensions of credit. Such activities will include, but not be limited to, making consumer installment loans, making loans and other extensions of credit unsecured or secured by real and personal property, including real estate equity loans, and offering credit single and joint life insurance and decreasing or level term (in the case of single payment loans) credit life insurance and credit accident, health, and property insurance directly related to extensions of credit made or acquired by Finance One Mortgage of West Virginia, Inc., by licensed agents or brokers, to the extent permissible under applicable state insurance laws and regulations and Title VI of the Garn-St Germain Depository Institutions Act of 1982. These activities would be conducted from offices of the subsidiary in Martinsburg, West Virginia, serving Berkeley, Jefferson, and Morgan Counties, West Virginia; Parkersburg, West Virginia, serving Wood, Pleasants, Ritchie, and Wirt Counties, West Virginia; and Westover, West Virginia, serving Monongalia, Preston, and Marion Counties, West Virginia. Comments on this application must be received not later than May 23, 1983.

3. *Manufacturers Hanover Corporation,* New York, New York (consumer finance and credit insurance activities; California): To engage through a *de novo* office of Finance One of California, Inc., in the activities of consumer finance, including, but not limited to, the extension of direct loans, secured and unsecured, to consumers and the purchase of sales finance contracts; servicing such loans and other extensions of credit; and acting as agent or broker for the sale of credit single and joint life insurance and decreasing or level term (in the case of single payment loans) credit life insurance, and credit accident, health, and property insurance directly related to extensions of credit made or acquired by Finance One. These activities are permissible pursuant to sections 4(c)(8)(A)(B) & (D) of the Bank Holding Company Act of 1956, as amended. These activities will be conducted from an office in San Diego, California, serving San Diego County, California. Comments on this application must be received not later than May 23, 1983.

B. **Federal Reserve Bank of Kansas City** (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *BancOklahoma Corp.,* Tulsa, Oklahoma (mortgage banking activities; Oklahoma): To engage through a subsidiary known as BancOklahoma Mortgage Corp. (formerly BancOklahoma Service Corp.) in the following mortgage banking activities, the origination, warehousing and selling of first mortgage loans, second mortgage home improvement loans, equity loans, interim construction loans and land acquisition loans for its own account or for the account of others, and the servicing of such loans for its own account or for the account of others. Such activities will be conducted at offices in Tulsa, Oklahoma and will serve the State of Oklahoma. Comments on this application must be received not later than May 23, 1983.

C. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

1. *BankAmerica Corporation,* San Francisco, California (discount securities brokerage and margin lending activities; all fifty (50) states and the District of Columbia): To engage, through its indirect subsidiary, Charles Schwab & Co., Inc., in the activities of acting as a discount securities brokerage, consisting principally of buying and selling securities solely upon the order and for the account of customers, and of extending margin credit in conformity with Regulation T. The activities will be conducted from *de novo* offices located in Valley Forge, Pennsylvania; San Francisco, California; and Rochester, New York; serving all fifty (50) states and the District of Columbia. Comments on this application must be received not later than May 23, 1983.

3. *BankAmerica Corporation ("BankAmerica"),* San Francisco, California (consumer and commercial financing, and insurance activities; Pennsylvania): To continue to engage

through its indirect subsidiary, FinanceAmerica Consumer Discount Company ("FA Consumer Discount") in the activities of commercial and consumer lending and loans servicing, as well as life, accident and health, and property insurance directly related to extensions of credit made or acquired by said subsidiary, in an expanded service area encompassing the Commonwealth of Pennsylvania. FA Consumer Discount engaged in the above financing and credit-related insurance activities in Pennsylvania at the time of its acquisition by BankAmerica and were approved by Board Order of August 14, 1974, thereby rendering said activities permissible under the terms of Section 601(D) of the Garn-St Germain Depository Institutions Act of 1982. These activities will be conducted from three existing offices of FA Consumer Discount located in Ephrata, Jeanette and Middletown, Pennsylvania, each office serving the Commonwealth of Pennsylvania. Comments on this application must be received not later than May 23, 1983.

Board of Governors of the Federal Reserve System, April 22, 1983.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Petra Bank; Corporation To Do Business Under Section 25(a) of the Federal Reserve Act

An application has been submitted for the Board's approval of the organization of a corporation to do business under section 25(a) of the Federal Reserve Act ("Edge Corporation"), to be known as Petra International Corporation, Washington, D.C. Petra International Corporation would operate as a subsidiary of Petra Bank, Amman, Jordan. The factors that are considering in acting on the application are set forth in section 211.4(a) of the Board's Regulation K (12 CFR 211.4(a)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond. Any person wishing to comment on the application should submit views in writing to the Secretary Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received not later than May 20, 1983. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identify specifically any questions of fact that are in dispute and summarize the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, April 22, 1983.

James McAfee,

Associated Secretary of the Board.

Public Health Service

Title V of the Public Health Service Act Miscellaneous Delegation of Authority

Correction

In FR Doc. 83-10206 appearing on page 16543 in the issue of Monday, April 18, 1983, make the following correction:

On page 16543, first column, under "Section 301", insert "real" between "of" and "property".

BILLING CODE 1505-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N-83-1233]

Submission of Proposed Information Collections to OMB

AGENCY: Office of the Administration, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirements described below have been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposals.

ADDRESS: Interested persons are invited to submit comments regarding these proposals. Comments should refer to the proposal by name and should be sent to: Robert Neal, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Acting Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410, telephone (202) 755-5310. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposals described below for the collection of information to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The Notice lists the following information: (1) The titles of the information collection proposals; (2) the office of the agency to collect the information; (3) the agency form number, if applicable; (4) how frequently information submissions will be required; (5) what members of the public will be affected by the proposal; (6) an estimate of the total number of hours needed to prepare the information submission; (7) whether the proposal is new or an extension or reinstatement of an information collection requirement; and (8) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Copies of the proposed forms and other available documents submitted to OMB may be obtained from David S. Cristy, Acting Reports Management Officer for the Department. His address and telephone number are listed above. Comments regarding the proposals should be sent to the OMB Desk Officer at the address listed above.

The proposed information collection requirements are described as follows:

Submission of Proposed Information Collection to OMB

Proposal: Schedule of Pooled Loans—Mobile Home.

Office: Government National Mortgage Association.

Form number: HUD-1725.

Frequency of submission: On Occasion.

Affected public: Businesses or Other Institutions (except farms).

Estimated burden hours: 600.

Status: Extension.

Contact: Pat Gifford, HUD, (202) 755-5550; Robert Neal, OMB, (202) 395-7316.

(Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d))

Dated: March 21, 1983.

Submission of Proposed Information Collection to OMB

Proposal: Schedule of Pooled Project Mortgage.

Office: Government National Mortgage Association.

Form number: HUD-1721.

Frequency of submission: On Occasion.

Affected public: Businesses or Other Institutions (except farms).

BILLING CODE 4210–01–M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Wind River Irrigation Project, Wyoming

AGENCY: Bureau of Indian Affairs, Department of the Interior.

ACTION: Notice.

SUMMARY: This notice sets forth the changes to the operation and maintenance charges and related information, applicable to presently assessable land located within the LeClair Irrigation District. The change in the assessment is from $9.50 per acre to $13.30 per acre.

EFFECTIVE DATE: April 28, 1983.

FOR FURTHER INFORMATION CONTACT: J. Donovan Crook, Wind River Irrigation Project Engineer, Wind River Agency, Fort Washakie, Wyoming 82514, telephone number (307) 255–8350.

SUPPLEMENTARY INFORMATION: This notice is issued under authority delegated to the Assistant Secretary for Indian Affairs by the Secretary of the Interior through 230 DMI; redelegated by the Assistant Secretary to Area Directors by 10 BIAM 3; and subsequently delegated to the Superintendent by the Area Director in 10 BIAM 7.0 § 2.70.

Notices declaring the intent to raise the operation and maintenance assessment rate per acre were sent to all available owners and lessees of assessable, trust patented land within the LeClair Irrigation District. This notice described the basis for the intended increase in this assessment rate. All owners, lessees and interested persons were given 30 days to submit written comments regarding the proposed rate.

Contact was also made with the Joint Business Council of the Shoshone and Araphahoe Tribes to explain the need for this increase.

The only written protest received was from the Joint Business Council. The substance of their protest was to criticize the accumulation of a $5,000 deficit. This is explained below:

The District serves 1050 acres of trust land. Each year, under a contract arrangement, the District bills the Project for service to this land. The Project then assesses the trust land to collect enough to pay the annual bill of the District. In recent years, the assessment has been less than the District's charges. Payment of the District's bills by the Project has resulted in a $5,000 deficit which must be made up through future assessments against the trust land of the District.

The 1983 operation and maintenance charge consists of $11.65, the basic rate necessary to meet the estimated annual charges from the District for the next three years, plus $1.65 per acre surcharge to eliminate the $5,000 deficit in three years. This totals the $13.30 per acre assessment set by this notice.

The notice shall read as follows:

Wind River Irrigation Project

Annual Operation and Maintenance Charges

Annual Per Acre Assessment—The operation and maintenance charges for the lands under the Wind River Irrigation Project, Wyoming, for the calendar year 1983 and subsequent years until further notice, are hereby fixed at $6.40 per acre for the assessable area under the constructed works on the diminished Wind River Project and at $13.30 per acre for all irrigable trust patent Indian land which lies within the LeClair Irrigation Project.

Payment—The charges shall become due on April 1 of each year, and are payable on or before that date. To all charges assessed against lands in non-Indian ownership and Indian lands under lease to non-Indian lessees which are not paid on or before July 1 of each year, following the due date, there shall be added a penalty of one-half of one percent per month or fraction thereof from the due date, April 1, so long as the delinquency continues. No water shall be delivered until such charges have been paid; except the Indian water users who are financially unable to pay the assessment on the due date may be furnished water, provided the Superintendent of the reservation certifies to the Project Engineer or other official in charge of the project that such Indian is not financially able to pay the assessments, or has made satisfactory arrangements, to pay the assessments from proceeds of crops or from other sources. Penalty interest charges shall not be assessed against lands owned by an Indian water user, nor against Indian lands under lease to an Indian lessee.

L. W. Collier, Jr.,

Superintendent.

BILLING CODE 4310–02–M

Bureau of Land Management

Arizona, Safford District Grazing Advisory Board; Meeting

Notice is hereby given, in accordance with Pub. L. 92–463, that a meeting of the Safford District Grazing Advisory Board will be held Friday, June 3, 1983. The meeting will begin at 9:00 a.m. in the Conference Room of the Bureau of Land Management, 425 E. 4th Street, Safford, Arizona.

The agenda for the meeting will include:

1. Update on grazing decisions;
2. Wilderness update;
3. Water filings;
4. Fire management;
5. BLM management update;
6. Business from the floor.

The meeting will be open to the public. Interested persons may make oral statements to the Board between 10:00 a.m. and 11:00 a.m. A written copy of the oral statements may be required to be provided at the conclusion of the presentation. Written statements may also be filed for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, at the above address by 4:15 p.m., Thursday, June 2, 1983.

Summary Minutes of the Board Meeting will be maintained in the District Office and will be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

Fritz U. Rennebaum,

Acting District Manager.

April 21, 1983.

[FR Doc. 83–11292 Filed 4–27–83; 8:45 am]

BILLING CODE 4310–84–M

California Desert District; Formal Designation of Open and Closed Areas in the California Desert Conservation Area (CDCA)

AGENCY: Bureau of Land Management, Interior.

ACTION: Formal designation of areas open or closed to vehicle use in the California Desert Conservation Area (CDCA).

SUMMARY: The CDCA Plan was completed in 1980. One of the goals of the plan was to provide for appropriate areas for vehicle free play (open areas). These open areas were selected to

ensure the protection of sensitive resources, to promote safe use of the public land and to minimize conflicts among users. A second goal of the plan was to minimize damage or degradation of the natural, cultural and aesthetic values of the desert; this necessitated closure of certain areas to off-highway vehicle use. Due to errors in Federal Register notice published on March 17, 1983 (Vol. 48, No. 53), this revised notice is published. The announcement is being republished in its entirety to clarify the changes and reduce confusion. The errors in the original notice involved the omission of seven closed areas which are indicated in this notice by underlining. This notification supercedes the March 17, 1983 notice.

Approval of the CDCA Plan constituted the off-highway vehicle use designation of all lands in the CDCA. All open and closed areas became immediately designated when the plan was signed. However, formal designation in the Federal Register never occurred. This notice serves to give public notice for designating the 503,000 acres open to vehicle use and the 2,089,000 acres closed to vehicle use as approved in the CDCA Plan. In addition this publication includes open and closed area designations approved and published after the completion of the CDCA Plan. The remaining 9,220,000 acres in the CDCA were designated as limited in the CDCA Plan; these areas will be further of travel within the limited area as open, closed or limited to vehicle use.

The decision of the CDCA Plan to open and close the following areas was prepared following the criteria defined in 43 CFR 8342.1 and with the authority of 43 CFR 8000.0–6, 8340, 8341, 8342 and 8364.

DATE: Effective April 28, 1983.

ADDRESS: Send inquiries to District Manager, California Desert District, 1695 Spruce Street, Riverside, California 92507. Maps showing the open and closed area in the CDCA are available for public review at the above address from 7:45 a.m. to 4:15 p.m. on regular work days.

FOR FURTHER INFORMATION CONTACT: Pamela M. Elliott (714) 351–6369.

SUPPLEMENTARY INFORMATION: Under the authority provided in the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), the Endangered Species Act (16 U.S.C. 1531 et seq.), EO 11644 (Use of Off Road Vehicles on the Public Lands), and 3 CFR 74.332 as amended by EO 11989 42 FR 26959 (May 25, 1977).

Any person who violates or fails to comply with the vehicle designations as governed by 43 CFR Part 8341 is subject to arrest, conviction and punishment pursuant to appropriate laws and regulations. Such punishment may be a fine of not more than $1000 or imprisonment for not longer than 12 months, or both.

Area Designations

The following areas are identified on the BLM map series entitled "Motorized Vehicle Interim Access Guides." The maps are available for review at the address listed above and from the Area Offices in Barstow, Ridgecrest, Needles, and El Centro.

Designated Open Areas—Designation Applies to Bureau of Land Management Administered Lands

Arroyo Salada
Rasor Area
Dove Springs
Jawbone Canyon
Silurian Dry Lake
Ford Dry Lake
Panamint Dry Lake (South of Hwy 190)
Rice Valley Dunes
Mammoth Wash Area
Plaster City
Spangler Hills
Olancha Dunes
Dumont Dunes
Glamis/Gecko
El Mirage Dry Lake
Stoddard Valley
Johnson Valley
Buttercup Valley

Designated Closed Areas—Designation Applies to Bureau of Land Management Administered Lands

Desert Tortoise Natural Area [5]
Darwin Falls [5]
Mecca Hills (NW Half)
Squaw Spring
Salt Dry Lake
Mesquite Dry Lake
Ivanpah Dry Lake [1]
Soda Dry Lake [1, 3]
Panamint Dry Lake (North of Hwy 190)
Panamint Dunes
Cadiz Dunes
Eureka Dunes
Superior Dry Lake [1, 4]
Harper Dry Lake [1, 4]
North Saline Valley [6]
Owens Peak [5]

Coyote Dry Lake [2, 3]
Saline Dunes
Fish Creek Mountains
Pilot Knob
Turtle Mountain [5]
Orocopia Mountain [5]
Crucifixation Thron [5]
North Imperial Sand Dunes [5] (South of Mammoth Wash Open Area to State 78)
Area West of Davies Valley (excluding Smugglers Cave and Myer Valley) [5]
San Sebastian Marsh [5]
Desert Lily [5]
Area Southeast of Davies Valley (Skull Valley) [5]
Clark Mountain [5]
Kelso Dunes [5]
Whipple Mountain [5]
Coyote Mountains
Greenwater Canyon
Lava Mountains
Argus Range
Robbers Roost [6]
Jawbone Management Agreement Area (Western Jawbone Canyon) [3]
Fossils Falls
Mecca Hills (Upper Portions of Hidden Springs Canyon) [7]
Big Morongo Canyon

[1] Open to Non-Motorized Vehicle Access.
[2] Except by Permit
[3] Except for Approved Route(s) of Travel.
[4] Limited Passage of Vehicles Across Area. No Motorized Free Play.
[5] Areas Designated Closed Under the Interim Critical Management Plan (ICMP) Which Remain Closed Under the CDCA Plan.
[6] Seasonal 6 month closure (2/1–7/1).
[7] Seasonal 4 month closure (6/1–9/31).

Bary A. Freet,
Assistant District Manager for Administration.

[FR Doc. 83-11289 Filed 4-27-83; 8:45 am]
BILLING CODE 4310-84-M

California Desert District; Realty Action for Public Lands in San Diego County

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action CA 12718, CA 12719, CA 12729, Recreation and Public Purposes Classification and Lease of Public Land in San Diego County, California.

SUMMARY: Notice is hereby given that the Olivenhain Municipal Water District has submitted an application to lease several isolated tracts of public lands for (1) the development of additional water storage and delivery facilities to meet present and future emergency and seasonal water needs within the OMWD, (2) the development of a waste water reclamation facility to treat domestic sewage and reclaim the water through irrigation; stream enhancement; and development of a lake, and (3) the development of sites for both active and primitive recreation.

The following described land has been examined and classified as suitable for lease under the Recreation and Public Purposes Act of June 14, 1926 as amended (43 U.S.C. 869 et seq.):

San Bernardino Base Meridian, California

T. 12 S., R. 2 W.;
Section 31, Lot 8
T. 13 S., R. 2 W.;
Section 6, SE¼NW¼, NE¼SW¼

T. 13 S., R. 3 W.;
Section 1, Lots 1, 2, 3, 4; S½N½; NW¼SE¼
T. 12 S., R. 3 W.;
Section 33, E½NE¼SW¼SE¼;
SE¼SW¼SE¼; W½SW¼SE¼;
SE¼SE¼
T. 13 S., R. 3 W.;
Section 23, NW¼NW¼SE¼; SW¼NW¼
SE¼; SE¼NW¼SE¼; SW¼SW¼NE¼

Encompassing 592.14 acres, more or less.

This decision notice is based on the following reasons:

1. The lands have been found to be valuable for public purposes and recreational uses.

2. The land is not of national significance and not essential to any Bureau of Land Management program.

3. The proposed use is in conformance with the existing land use plan.

4. The proposed action will have no significant (including controversial) effects on the human and natural environment.

5. Leasing of the above described lands to the Olivenhain Municipal Water District, California will serve important public objectives, i.e., provide additional land for expansion of the city's recreational and public purposes projects.

6. The classification, lease and/or patenting of the land to the Olivenhain Municipal Water District is in conformance with the Secretary of the Interior's "Good Neighbor Program".

DATES: Until July 1, 1983, interested parties may submit comments to the District Manager, Bureau of Land Management, California Desert District, 1695 Spruce Street, Riverside, CA 92507. Any adverse comments will be evaluated by the State Director, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of this department.

FOR FURTHER INFORMATION CONTACT: Information related to this Recreation and Public Purposes Application, including the environmental assessment record/land report, terms and conditions and special stipulations that will be included in the lease, is available for review at the California Desert District Office, 1695 Spruce Street, Riverside, California 92507.

SUPPLEMENTARY INFORMATION: The classification and granting of the lease for a maximum period of 20 years with the option to purchase/patent the land will not be adverse to any known public or private interests.

Classification of these lands to the Olivenhain Municipal Water District, California under the provisions of the above cited authority segregates them from all appropriations, including locations under the mining laws, except as to applications under the Mineral Leasing Laws and applications under the Recreation and Public Purposes Act.

This Recreation and Public Purposes Application is consistent with Bureau of Land Management policies and planning and has been discussed with the State and local officials.

Petition for classification CA 12718, CA 12719, and CA 12720 is approved as to the land described above.

Name of petitioner: Olivenhain Municipal Water District by it General Manager.

Type of petition: Recreation and Public Purposes under the Act of June 14, 1926, as amended.

Bary A. Freet,

Assistant District Manager for Administration.

BILLING CODE 4310-84-M

[Colorado 36730]

Colorado; Realty Action; Non-competitive Lease of Public Lands in Garfield County

The following described land is being considered for lease under Section 302 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2762, 43 U.S.C. 1732) at no less than the appraised fair market rental which is estimated to be approximately $9,000 annually, or $750.00 per month.

Sixth Principal Meridian

T. 5 S., R. 93 W.,
Sec. 13, SE¼SE¼NE¼SW¼, E½E½
SE¼SW¼, NE¼SE¼NW¼SE¼,
S½S½ NW¼SE¼, and SW¼SE¼,
Sec. 24, N½N½NE¼NE¼, and
NE¼NE¼NE¼NW¼.

The area described aggregates approximately 75.0 acres in Garfield County.

The land is located five miles north of Rifle, Colorado adjoining the existing Rifle Golf Course, near Rifle Gap.

Lease of the above described lands has been proposed by Rifle Gap Land Company of Rifle, Colorado to expand the existing nine hole Rifle Golf Course to eighteen holes, using some or all of the public land area described above and adjacent to their privately owned lands. The proposed use is consistent with Bureau of Land Management land use planning and with local planning and zoning. The Bureau of Land Management is considering a longterm (approximately 10 years) noncompetitive lease to Rifle Gap Land Company dependent upon the company filing an application for lease and including information required by Title 43 Code of Federal Regulations, part 2920.52. The terms and conditions applicable to any lease issued under this notice are those in 43 CFR 2920.7. Special stipulations that would be included in a lease, as well as other information about the proposal, can be reviewed in the Bureau of Land Management Glenwood Springs Resource Area Office, 50629 Hwy. 6 and 24, P.O. Box 1009, Glenwood Springs, Colorado 81601, telephone (303) 945-2341.

The lessee would be required to reimburse the United States for reasonable administrative and other costs incurred by the United States in processing the lease and for monitoring construction, operation, maintenance, and rehabilitation of the facilities authorized. The reimbursement of costs would be in accordance with the provisions of 43 Code of Federal Regulations 2920.6.

For a period of 45 days from the date of publication of this notice in the **Federal Register** interested parties may submit comments to the District Manager, Bureau of Land Management, Grand Junction District Office, 764 Horizon Drive, Grand Junction, Colorado 81501. Any adverse comments will be evaluated by the District Manager, who may vacate or modify this realty action and issue a final determination.

David A. Jones,

District Manager.

BILLING CODE 4310-84-M

[Serial No. I-010203]

Idaho; Termination of Proposed Withdrawal and Reservation of Lands

April 20, 1983.

Notice of an application, serial number I-010203, for withdrawal and reservation of lands was published as **Federal Register** Document No. 59-2755 on page 2564 of the issue for April 12, 1959. The applicant agency has canceled its application insofar as it involved the lands described below. Therefore, pursuant to the regulations contained in 43 CFR, Subpart 2091, such lands will be at 9:00 a.m. on May 25, 1983, relieved of the segregative effect of the above-mentioned application.

The lands involved in this notice of termination are:

Boise Meridian

T. 3 S., R. 34 E.
Sec. 11, lot 6;
Sec. 12, lot 6;

Sec. 14, lots 4, 14;
Sec. 15, lots 8, 10, 11;
Sec. 20, lots 15, 16;
Sec. 21, lots 6, 7, 10, 11, 12, 17;
Sec. 22, lots 9, 11, 12, 13, 14, 15, NE¼NW¼;
Sec. 23, lot 16;
Sec. 29, lots 8, 11, 15, 16;
Sec. 30, lot 7;
Sec. 31, lots 13, 14.

The area described aggregates 625.14 acres in Bingham County.

William E. Ireland,

Chief, Lands Section.

BILLING CODE 4310-84-M

Idaho Falls District Advisory Council; Meeting

Notice is hereby given in accordance with Pub. L. 91-463, Pub. L. 94-579, Pub. L. 95-514 and 43 CFR Part 1780, that a meeting of the Idaho Falls District Advisory Council will be held on Wednesday, June 8, 1983. This field tour meeting will leave at 9 a.m. from the Idaho Falls Bureau of Land Management Office, 940 Lincoln Road, Idaho Falls, Idaho 83401.

The field tour will consider four topics:

1. Proposed Hydroelectric Project, Birch Creek.
2. Flooding Problem at Howe.
3. North Creek Mine Waste Area.
4. Black Canyon Wilderness Study Area.

The meeting is open to the public. Interested persons may make oral statements to the Council between 12:30 and 1 p.m. at Sink's Inn in Howe, or file written statements for the Council's consideration. Persons wishing to attend the field tour must provide their own transportation. Anyone wishing to make an oral statement or attend the tour must notify the District Manager at the Idaho Falls BLM District Office, 940 Lincoln Road, Idaho Falls, Idaho 83401 by Friday, June 3, 1983. Depending on the number of persons wanting to make oral statements, a per-person time limit may be established.

Summary minutes of the meeting will be maintained in the District Office and will be available for public inspection and reproduction during business hours (7:45 a.m. to 4:30 p.m.) at least 30 days after the meeting.

Dated: April 21, 1983.

O'dell A. Frandsen,

District Manager.

BILLING CODE 4310-84-M

[N-37518]

Nevada; Realty Action—Noncompetitive Sale of Public Land in Lyon County, Nevada

April 20, 1983.

The following described land, comprising 20 acres, has been examined and identified as suitable for sale under Section 203 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2750), 43 U.S.C. 1713:

Mount Diablo Meridian, Nevada

T. 12 N., R. 23 E.,
Sec. 32, S½NE¼NE¼.

The Land will be offered to Associated Ranch Management at the appraised fair market value under noncompetitive sale procedures in order to complete a public land transfer which began as an exchange. The intent was to transfer 240 acres of public (selected) land to Associated Ranch Management in return for 240 acres of privately-owned (offered) land valuable as wildlife habitat. However, a difference in value between the offered and selected lands resulted in reduction of the selected acreage by 20 acres. The land is not needed in support of any federal program. The Bureau's planning system identifies the land as available for sale. Sale of the land is consistent with Lyon County's planning and zoning. A sale to Associated Ranch Management, the exchange proponent, will result in the desirable land pattern and use originally intended.

A patent, if and when issued, will contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States; Act of August; 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral deposits in the land so patented, and to it, or persons authorized by it, the right to prospect, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

Detailed information concerning the sale is available for review at the Carson City District Office, 1050 E. William Street, Suite 335, Carson City, Nevada.

The land will not be offered for sale sooner than 60 days after the date of this notice. For a period of 45 days from the first publication of this notice, interested parties may submit comments to the District Manager, Carson City District Office of the Bureau of Land Mangement, 1050 E. William Street, Suite 335, Carson City, Nevada 89701. Any adverse comments will be evaluated by the District Manager and forwarded to the Nevada State Director, Bureau of Land Management, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

James W. Elliott,

Acting District Manager, Carson City District.

Approximately 1,307.10 acres.
Grand Total: 100,262.13 acres.

2. On lands where no adverse comments are received, it will be held that these lands are classified 60 days from date of publication of this notice in the **Federal Register** and this classification action will become the final determination of the Department of the Interior. Classification is pursuant to title 43 Code of Federal Regulations, Subpart 2400 and Section 7 of the Act of June 28, 1934.

3. For a period of 60 days from the date of publication of this notice in the **Federal Register**, any persons who wish to submit comments on the above classification may present their views in writing for consideration to the State Director (U–942), Utah State Office, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111. Comments should address a specific parcel within a specific tract (Example—Tract No. 1, Sec. 1, lot 1, T. 23 S., R. 5 E.) as opposed to commenting generally on the entire classification.

4. Public meetings to discuss this classification decision have been scheduled by the appropriate BLM District Managers for the dates that follow:

May 23, 1983—Salt Lake District Office
May 24, 1983—Cedar City District Office
May 25, 1983—Richfield District Office
May 26, 1983—Moab District Office
May 27, 1983—Vernal District Office

5. If and when selections are approved and certified to the State, the selected lands will be subject to all valid existing rights. Furthermore, any lands encumbered with a mineral lease or permit are subject to a reservation to the United States of all oil and gas, coal, and potash, with the right of the lessee to utilize as much of the surface as is necessary for proper mining operations, until the lease or permit is terminated. Should an entire mineral lease or permit be encompassed by the area of the selection, the State of Utah will succeed to the position of the United States.

6. Any existing grazing use authorized by license or permit from the Bureau of Land Management will be terminated if the lands are transferred out of Federal Ownership. The State shall honor all leases, permits, contracts, and terms and conditions of user agreements on United States' lands.

Those lands which are encumbered by mining claims, cannot be transferred to the State of Utah until the conflicts are resolved. Also, lands that are not surveyed will not be conveyed until a survey is completed and accepted.

7. The proposed classification issued by the Salt Lake District Office on September 30, 1982, classifying lands in the Salt Lake Meridian, Utah, T. 2 S., R. 3 E., T 2 S., R. 4 E., and T. 2 S., R. 5 E., for State In Lieu selection is hereby rescinded. Any protests BLM received from the above classification, will be held over and protests/comments incorporated as part of this classification action.

8. Portions of selection applications (U–52672 and U–52673) and previously filed selection applications (U–1291, U–4174, U–4175, U–4270, U–4271, U–4275 through U–4279, U–4284, U–4286, U–8987, U–8992, U–087850), and State exchange application (U–41322) described duplicate acreages. The previously filed applications will be rejected as to the duplicate acreages.

9. The following described parcel of land has been determined to be unsuitable for indemnity selection under the Act:

T. 2 S., R. 4 E., SLM, Utah.
All public lands.
Parcel 16—(As identified on a BLM map along with other information available at the Salt Lake District Office, 2370 South 2300 West, Salt Lake City, Utah 84119, 801–524–5348) within the following legal descriptions:
Sec. 10, lots 7, 8;
Sec. 15, N½, NW¼SW¼.
Approximately 88 acres.

The appropriate classification of the above acreage has been addressed as part of the classification decision for recreation and Public Purposes Application U–29830, Park City Municipal Corporation filed March 27, 1975.

10. Detailed information concerning the indemnity selection and proposed transfer to the State of Utah is available for review at the Utah State Office, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111 (801–524–4245).

Dean Stepanek,
Acting State Director.

BILLING CODE 4310–84–M

[OR 20640 (Wash.)]

Washington; Realty Action—Sale; Public Land in Walla Walla County, Washington

This Notice amends the Notice of Realty Action published February 4, 1982, (47 FR 5359).

The following described land will be available for sale at no less than the appraised fair market value shown:

Willamette Meridian, Walla Walla County, Washington

T. 7 N., R., 31 E., Section 14

ADJACENT TO THE WALLULA TOWNSITE

Parcel No.	Legal description	Acreage	Value
1	Lot 1	25.69	$38,500
2	Lot 6 ...	26.02	42,000

The above described land will be offered for sale by sealed and oral bids using competitive bidding procedures (43 CFR 2711.3–1). Bids must be made by either: (1) sealed bids mailed or delivered to the Spokane District Office, or (2) oral bids made at the sale. Bids delivered or sent by mail must be received at the Bureau of Land Management, Spokane District Office, East 4217 Main Avenue, Spokane,

Washington, D.C. 99202, before 4:00 p.m., May 31, 1983, to be considered. Sealed bid envelopes must be marked in the lower left-hand corner as follows: "Public Sale Bid Parcel No.—, Serial No. OR 20640. Sale held June 1, 1983."

The sale will be held on June 1, 1983, at the Bureau of Land Management, Spokane District Office, at the above address. Registration of Bidders will begin at 10:00 a.m. and the sale will start upon completion of registration.

If any of the parcels are not sold on June 1, 1983, they will remain available for sale, at the Bureau of Land Management, Spokane District Office, on a continuing basis until removed from market.

Information about the sale, and bidding and sale procedures, is available at the BLM, Spokane District Office, at the above address.

Date of Issue: April 4, 1983.

Roger W. Burwell,

District Manager.

BILLING CODE 4310-84-M

[Wyoming 81452]

Wyoming: Realty Action Non-Competitive Sale of Public Land in Natrona County

April 21, 1983.

The following described land has been examined and identified as suitable for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713), at no less than the appraised fair market value:

Sixth Principal Meridian, Wyoming

T. 40 N., R. 87 W.,
Sec. 13, SE¼SE¼SW¼NE¼.

The area described contains 2.5 acres in Natrona County.

The above described land is being offered as a direct non competitive sale to Wayne A. and Carolyn M. Steinberg at the appraised fair market value of $7,500. The Steinbergs have occupied this land for over 21 years under appropriate cabin site leases; have developed and improved the lands as required, including construction of two A-frame cabins; and have complied with all the terms and conditions of the leases. Disposal by direct sale, rather than by public auction, will protect their equity in the improvements, secure their tenure on the land, and eliminate a hardship if they were compelled to remove or otherwise dispose of the improvements.

This land is located approximately 90 miles northwest of Casper, Wyoming in the South Bighorn Mountains. The property lies in a small valley, bounded on the north by steep hills and by the Middle Fork of Buffalo Creek on the south. Legal access is available along a county road and across ¼ mile of trail over public land.

Because of the existing improvements, the land is difficult and uneconomic to manage as part of the public land system, and is not suitable for management by another federal agency. The land is specifically identified in the Bureau planning system for sale to the Steinbergs, and Natrona County officials have been notified of the proposed sale. The public interest will be served by offering this land for sale.

Terms and conditions applicable to the proposed sale are as follows:

1. A right-of-way for ditches and canals will be reserved to the United States under the Act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945).

2. All minerals will be reserved to the United States together with the right to prospect for, mine, and remove such deposits under applicable laws and regulations.

3. The proposed sale will be subject to all valid existing rights and reservations of record, including those rights granted by oil and gas lease W-80205.

Detailed information concerning the proposed sale, including planning documents, land report and environmental assessment, and mineral reports is available at the Bureau of Land Management, Casper District Office, 951 Rancho Road, Casper, Wyoming 82601. The proposed sale will not be held until 60 days after the date of this notice.

For period of 45 days from the date of this notice, interested parties may submit comments to the District Manager, Bureau of Land Management, at the above address. Any adverse comments will be evaluated by the District Manager who may vacate or modify this realty action. In the absence of any action by the District Manager, this realty action will become a final determination of the Department of the Interior.

Robert B. Childs.

Acting District Manager.

BILLING CODE 4310-84-M

[Wyoming 0236614]

Wyoming; Partial Termination of Recreation and Public Purposes Classification No. W6-1

April 21, 1983.

1. Pursuant to the authority delegated by Bureau of Land Management Manual Section 1203, as supplemented, the Bureau of Land Management's Recreation and Public Purposes Classification No. W6-1 dated December 12, 1962, is hereby terminated as to the following described lands:

Sixth Principal Meridian

T. 32 N., R. 78 W.,
Sec. 28, SW1/4NE1/4, W1/2NW1/4, SE1/4NW1/4;
Sec. 29, NE1/4, E1/2NW1/4.

The area described contains 400 acres in Natrona County, Wyoming.

2. The lands described above were classified on December 12, 1962, pursuant to the act of June 14, 1926 (44 Stat 741), as amended by the Act of June 4, 1954 (68 Stat 173), and under authority of Section 7 of the Act of June 28, 1934 (48 Stat 1273) as amended.

These lands are segregated from all appropriations under the public land laws, including locations under the mining laws and applications under the Small Tract Act, as amended, except as to applications under the Recreation and Public Purposes Act by qualified State and local governments, and applications under the mineral leasing laws.

3. In accordance with the regulations in 43 CFR 2741.4(h), the segregation of lands classified under the Act of June 14, 1926 (supra) automatically terminates if no application is filed within 18 months after issuance of a notice of classification. No application has been properly filed for these lands and, therefore, the segregation has terminated on those lands described in paragraph one of this notice. The remaining lands in classification W6-1 have been patented or leased under the Act of June 14, 1926, and the classification is still proper and will continue.

4. Pursuant to the regulations set forth in 43 CFR 2450.6(a) and 43 CFR 2741.4(h), the above classification is hereby terminated as set out in paragraphs one and three of this notice. At 10:00 a.m. on May 16, 1983, the lands described above will be opened to operation of the public land laws, including the mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable laws and regulations. All valid applications received at or prior to 10:00 a.m. on May 16, 1983, shall be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

Inquiries concerning these lands should be addressed to the Platte River

Resource Area Manager, 951 Rancho Road, Casper, Wyoming 82601.

Terrence W. Matchett,

Acting Area Manager.

BILLING CODE 4310-84-M

Federal Mineral Leasing Other Than Oil, Gas, Geothermal, Oil Shale and Combined Hydrocarbon Leasing

AGENCY: Bureau of Land Management, Interior.

ACTION: Combined mineral lease form proposal.

SUMMARY: At present, the Bureau of Land Management utilizes separate, commodity specific forms when issuing mineral leases. Each form differs in several ways depending on the mineral(s) or the lands to be leased. Although the statutory and regulatory requirements are generally very similar, and in some cases identical, there is no consistency among the various forms. This has been a source of confusion by the public. Some forms are seldom used and some have become obsolete without having been used. This has caused additional, unnecessary expense to the Bureau. In an effort to streamline procedures, contain costs, speed processing and reduce confusion, the Bureau has developed, and will use if adopted, a single lease form to issue any type of mineral lease except oil, gas, geothrmal, oil shale or combined hydrocarbon leases. In addition, extraneous and redundant provisions found in the current forms have been eliminated. The proposed form incorporates provisions to indicate the type of lease being issued and the specific terms and conditions which apply for the minerals being leased.

The public is invited to submit written comments and suggestions for improvements of this proposed lease form which is shown below.

DATE: Comments by May 31, 1983.

ADDRESS: Comments and suggestions should be sent to: Director (650) Bureau of Land Management, 1800 C Street, NW., Washington, D.C. 20240.

Comments will be available for public review in room 5559 at the above address during regular business hours (7:45 a.m. to 4:15 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Marcia E. Rohn (2020) 343-8537.

SUPPLEMENTARY INFORMATION: In December 1980 a proposed coal lease form, reflecting changes in statutes relating to coal leasing and coal mining operations, was published in the **Federal Register** for public comment (45 FR 83333-83334). Some of the comments received on the proposed coal lease form have been adopted by coal's inclusion in this proposed combined mineral lease form. Those comments received on this proposed form as well as the comments received for the proposed lease form published in December 1980 will be addressed when the final form is published in the **Federal Register**.

Robert F. Burford,

Director.

DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

LEASE

PART I. **LEASE RIGHTS GRANTED**

THIS INDENTURE OF ☐ LEASE ☐ LEASE RENEWAL ☐ LEASE READJUSTMENT entered into by and between the UNITED STATES OF AMERICA, through the Bureau of Land Management, hereinafter called lessor, and

, hereinafter called lessee, shall become effective for a period of years,

☐ with preferential right in the lessee to renew for successive periods of years under such terms and conditions as may be prescribed by the Secretary of the Interior, unless otherwise provided by law at the expiration of any period

☐ and for so long thereafter as lessee complies with the terms and conditions of this lease which are subject to readjustment at the end of each year period

☐ and for so long thereafter as coal is produced annually in commercial quantities from the leased lands, subject to readjustment of lease terms at the end of the 20th lease year and each 10-year period thereafter.

Sec. 1. This lease is issued pursuant and subject to the terms and provisions of the

☐ Mineral Leasing Act of 1920, Act of February 25, 1920, as amended, 41 Stat. 437, 30 U.S.C. 181-287, hereinafter referred to as the Act,

☐ Mineral Leasing Act for Acquired Lands, Act of August 7, 1947, 61 Stat. 913, 30 U.S.C. 351-359,

☐ Reorganization Plan No. 3 of 1946, 60 Stat. 1099,

☐ (Special Act)

and to all other applicable laws, regulations and orders of the Secretary of the Interior in force on the date of this lease, and, where not inconsistent with the lease terms, regulations and orders hereafter promulgated.

Sec. 2. Lessor, in consideration of bonuses, rents and royalties to be paid, and the conditions and covenants to be observed as herein set forth, hereby grants and leases to lessee the exclusive right and privilege to drill for, mine, extract, remove and dispose of the deposits (and associated and related minerals) (and silica, limestone or other rock under section II of the Act,) hereinafter referred to as "leased deposits" in, upon, or under the following described lands:

containing acres, more or less, together with the right to construct such works, buildings, plants, structures, equipment and appliances which may be necessary and convenient for mining and preparation of the lease deposits for market, the manufacture of products thereof, and subject to the conditions herein provided, to use so much of the surface of the land as may reasonably be required in the exercise of the rights and privileges granted.

☐ Special stipulations are attached to and made a part of this lease

(Date)

PART II. **TERMS AND CONDITIONS.**

Sec. 1 **Rentals**—Lessee shall pay lessor rental annually and in advance for each acre or fraction thereof during the continuance of the lease at the rate indicated below:

- ☐ 50 cents for the first lease year and each succeeding lease year;
- ☐ $1 (but not less than a total of $20), for first lease year and each succeeding lease year.
- ☐ 25 cents for the first lease year, 50 cents for the second and third lease years, and $1 for each and every lease year thereafter;
- ☐ 25 cents for the first calendar year or fraction thereof, 50 cents for the second, third, fourth, and fifth calendar years respectively, and $1 for the sixth and each succeeding calendar year;
- ☐ $ for each lease year; or
- ☐ $ for each calendar year
- ☐ The rental for any year will be credited against the first royalties as they accrue under the lease during the year for which rental was paid
- ☐ Rental shall not be credited against royalties for any year

Sec. 2 **Royalties**—Lessee shall pay lessor production royalties, minimum or advanced royalties as set forth in the attached schedule

Sec. 3 **Bonds**—Lessee shall file at such time and maintain in such amount any bond required by regulations

Sec. 4 **Diligence**—

- ☐ Lessee shall exercise reasonable diligence in developing and producing the leased deposits and shall prevent unnecessary damage to, loss of, or waste of leased deposits
- ☐ This lease is subject to the conditions of diligent development and continued operations, except that these conditions are excused where operations under the lease are interrupted by strikes, and the elements or casualties not attributable to lessee. The lease shall terminate if it is not producing in commercial quantities at the end of ten years. The lessor, in the public interest may suspend the condition of continued operation upon payment of advance royalties

Sec. 5 **Documents, evidence and inspection**—At such times and in such form as lessor may prescribe, lessee shall furnish detailed statements showing the amounts and quality of all products removed and sold from the lease, the proceeds therefrom, and the amount used for production purposes or unavoidably lost. Lessee may be required to provide plats and schematic diagrams showing development work and improvements on the leased lands, and reports with respect to stockholders, investments, depreciation costs, and Federal lease interests.

Lessee shall keep open at all reasonable times for the inspection of any duly authorized officer of lessor, the leased premises and all surface and underground improvements, works, machinery, ore stockpiles, equipment, and all books, accounts, maps, and records relative to operations, surveys, or investigations on or under the leased lands.

Lessee shall permit lessor to copy and make extracts from any such books and records.

Information obtained under this section shall be open to inspection by the public only as required by the Freedom of Information Act (5 U.S.C. 552).

Sec. 6. **Damages to property and conduct of operations**—Lessee shall pay lessor for damage to property improvements, and shall save and hold the lessor harmless from all claims for damage or harm to persons or property as a result of lease operations.

Lessee shall conduct operations in a manner that prevents unnecessary impacts and minimizes other impacts to the land, air, and water, to cultural, biological, visual, and other resources and to other land uses or users. Lessor reserves the right to continue existing uses and to authorize future uses upon or in the leased lands including the approval of easements or rights-of-ways. Such uses shall be conditioned so as to prevent unnecessary or unreasonable interference with rights of lessee.

Prior to disturbing the surface of the leased lands, or construction or improving access to the leased lands, lessee agrees to contact lessor to be apprised of procedures to be followed and restrictions that may be involved in the conduct of operations. The lessee shall not conduct operations in the absence of approval by the authorized officer. Areas to be disturbed may require inventories to determine if threatened or endangered species, or cultural resources would be affected. Lessee may be required to complete such inventories under guidelines provided by lessor. If, in the conduct of operations suspected threatened or endangered species, or cultural resources, or substantially different or unanticipated environmental affects are observed, lessee shall immediately contact lessor.

Sec. 7. **Protection of diverse interests, and equal opportunity**—Lessee shall: pay when due all taxes legally assessed and levied under the laws of the State or the United States; accord all employees complete freedom of purchase; pay all wages at least twice each month in lawful money of the United States; maintain a safe working environment in accordance with standard industry practices; restrict the workday to not more than eight (8) hours in any one day for underground workers, except in emergencies, and take measures necessary to protect the health and safety of the public. No person under the age of sixteen (16) years shall be employed in any mine below the surface. To the extent that laws of the State in which the lands are situated are more restrictive than the provisions in this paragraph, then the State laws apply.

Lessee will comply with all provisions of Executive Order No. 11246 of September 24, 1965, as amended, and the rules, regulations, and relevant orders of the Secretary of Labor. Neither lessee nor lessee's subcontractors shall maintain segregated facilities.

Sec. 8. **Transfer of lease interest, and relinquishment of lease**—

(a) Transfers

- ☐ This lease may be transferred in whole or in part to any person, association or corporation qualified to hold such lease interest.
- ☐ This lease may only be transferred in whole or in part to another public body, or to a person who will mine the coal on behalf of and for the use of the public body, or to a person who for the limited purpose of creating a security interest in favor of a lender agrees to be obligated to mine the coal on behalf of the public body.
- ☐ This lease may only be transferred in whole or in part to another small business qualified under 13 CFR 121

The parties thereto shall file for approval or recording in the proper office of the lessor any instrument transferring a record title, or working or royalty interest in this lease, and shall not create overriding royalties or payments out of production in excess of that allowed by regulation.

(b) Relinquishment—The lessee may relinquish at any time all rights under this lease, and upon acceptance be relieved of all future obligations under the lease, and may with like consent surrender any legal subdivision of the area included within the lease.

Sec. 9. **Delivery of premises, removal of machinery, equipment, etc.**—At such time as all or portions of this lease are returned to lessor, lessee shall deliver up to lessor the land leased, underground timbering, and such other supports and structures necessary for the preservation of the mine or deposits and place all wells in condition for suspension or abandonment. Within 180 days thereof, lessee shall remove from the premises all other structures, machinery, equipment, tools, and materials as required by the authorized officer. Any such structures, machinery, equipment, tools, and materials remaining on the leased lands beyond 180 days, or approved extension thereof, shall become the property of the lessor, but lessee shall either remove any or all such property or shall continue to be liable for the cost of removal and disposal in the amount actually incurred by the lessor. If the surface is owned by third parties, lessor shall waive the requirement for removal provided the third parties do not object to such waiver. Lessee shall, prior to the termination of bond liability or at any other time when required and in the manner directed by the lessor, reclaim all lands the surface of which has been disturbed, dispose of all debris or solid waste, repair the offsite and onsite damage caused by lessee's activity or activities incidental thereto, and reclaim access roads or trails.

Sec. 10. **Proceedings in case of default**—If lessee fails to comply with applicable laws, now existing regulations, or the terms, conditions and stipulations of this lease, and the noncompliance continues for 30 days after written notice thereof, this lease shall be subject to cancellation by the lessor only by judicial proceedings. This provision shall not be construed to prevent the exercise by lessor of any other legal and equitable remedy, including waiver of the default. Any such remedy or waiver shall not prevent later cancellation for the same default occurring at any other time.

Sec. 11. **Heirs and successors-in-interest**—Each obligation of this lease shall extend to and be binding upon, and every benefit hereof shall inure to, the heirs, executors, administrators, successors, or assigns of the respective parties hereto.

T. 20 S., R. 15 E.,
Section 5, NW¼NW¼.

The areas described aggregate approximately 47,284 acres in Pima County.

The purpose of the withdrawal is for the Santa Rita Experimental Range. The Bureau of Land Management proposes to modify the withdrawal from an indefinite period to a period of 20 years. No change is proposed in the purpose or segregative effect of the withdrawal.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal modification. All interested persons who desire to be heard on the proposed must submit a written request for a hearing to the undersigned on or before July 29, 1983. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments, or objections to the proposed withdrawal may be filed with the undersigned officer on or before July 29, 1983.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. The authorized officer will review the withdrawal rejustification to ensure that the modification would be consistent with the statutory objectives of the programs for which the land is dedicated; the area involved is the minimum essential to meet the desired needs; the maximum concurrent utilization of the land is provided for and an agreement is reached on the concurrent management of the land and its resources. The authorized officer will also prepare a report for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be modified and if so, for how long. The final determination on the modification of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communications in connection with this proposed modification should be addressed to the undersigned officer, Bureau of Land Management, U.S.

Department of the Interior, 2400 Valley Bank Center, Phoenix, Arizona 85073.

Mario L. Lopez,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Arizona Safford District Advisory Council; Meeting

Notice is hereby given, in accordance with Pub. L. 94-579 and 43 CFR Part 1780, that a meeting of the Safford District Advisory Council will be held Friday, June 10, 1983 at Safford, Arizona at 10:00 a.m. at the Safford District Office, 425 E. 4th Street, Safford, Arizona.

Agenda for the meeting will include:

1. Introduction and biographical sketch of Council Members.
2. Discussion of the purpose and function of the Council.
3. Election of officers.
4. Orientation of BLM programs, goals and current issues.
5. Council issues.
6. Arrangements for next meeting.

The meeting is open to the public. Interested persons may make oral statements to the Council between 2:00 p.m. and 3:00 p.m. or may file written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the District Manager at the above address by June 9, 1983. Depending upon the number of people wishing to make an oral statement, a perperson time limit may be considered.

Summary minutes of the meeting will be maintained in the District Office and will be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

April 21, 1983.

Fritz U. Rennebaum,

Acting District Manager.

BILLING CODE 4310-84-M

Meetings of the Miles City District Advisory Council and the Miles City District Grazing Board

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Miles City District Advisory Council will be held June 7, 1983, and a meeting of the Miles City District Grazing Board will be held June 8, 1983. The meetings will begin at 10:00 a.m. in the conference room at the Miles City District Office, Bureau of Land Management, Highway 10-12 at Garryowen Road, Miles City, Montana.

The Advisory Council Agenda is as follows:

1. State in lieu selections/Asset Management.
2. Resource Management Plan alternatives.
3. MMS-BLM merger and district boundary adjustments.

The Grazing Board agenda is as follows:

1. Exchange of use agreements.
2. FY 1984 grazing budget.
3. State in lieu selections/Asset Management.
4. Resource Management plans.

The meetings are open to the public. The public may make oral statements before the Advisory Council and Grazing Board or file written statements for council or board consideration. Depending upon the number of persons wishing to make an oral statement, a per person time limit may be established.

Summary minutes of the meetings will be maintained in the Bureau of Land Management District Office and will be available for public inspection and reproduction during regular business hours within 30 days following the meetings.

For Further information, contact the District Manager, Miles City District, Bureau of Land Management, P.O. Box 940, Miles City, Montana 59301.

Ray Brubaker,

District Manager.

BILLING CODE 4310-84-M

Susanville, California; Wilderness Recommendations and Public Hearing; Correction

Correction to **Federal Register**, April 20, 1983, page 16973, "Notice of Public Hearing: Preliminary Wilderness Recommendations for the Alturas Resource Area, Susanville District and Redding Resource Area, Ukiah District, California."

The notice should have read:

Notice of Public Hearing: Preliminary Wilderness Recommendations for the Alturas Resource Area, Susanville District, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Pursuant to Section 202(f), and 603(a) of the Federal Land Policy Management Act of 1976 and Section 102(c) of the National Environmental Policy Act of 1969, the Bureau of Land Management has prepared draft environmental impact statement (EIS) concerning preliminary wilderness recommendations for the Alturas Resource Area, Susanville District.

The preferred alternative is to designate a portion (5,880 acres) of Pit River Wilderness Study Area (WSA) CA-020-103 as suitable with the remainder (5,695 acres) as unsuitable. The Tule Mountain WSA CA-020-211 (16,950 acres) is recommended as unsuitable for inclusion in the National Wilderness Preservation System. The Pit River and Tule Mountain WSA's are included in the Alturas Resource Management Plan (RMP) EIS which had four alternatives; All Wilderness, Preferred Alternative, No Wilderness, and No action.

DATES: A public hearing on the Alturas RMP/EIS WSAs will be held from 7:30 p.m. to 9:30 p.m. on May 23, 1983, at the Lion's Hall, Highway 299, McArthur, California. All interested persons are invited to attend and present their views on two points: (a) the suitability or nonsuitability of the areas for wilderness designation, and (b) the draft EIS.

Comments on the draft environmental impact statement are being solicited from public agencies and interested individuals and organizations. The

Bureau of Land Management invites written comments on the Draft Alturas RMP/EIS (Pit River and Tule Mountain WSA's) to be received by July 14, 1983. Comments should be addressed to: Area Manager, Alturas Resource Area, Bureau of Land Management, P.O. Box 771, Alturas, California 96101. Telephone (916) 233–4666.

ADDRESSES: A limited number of copies of the draft environmental impact statement are available at the Alturas Area Office and at the following locations:

Susanville District Office,
Bureau of Land Management,
P.O. Box 1090, 705 Hall Street,
Susanville, California 96130,
Telephone (916) 257–5381

Fish and Wildlife Service

Establishment of Bandon Marsh National Wildlife Refuge

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of establishment of the Bandon Marsh National Wildlife Refuge.

SUMMARY: This Notice designates the area of land and water in Coos County, Oregon, which the Secretary of the Interior considers appropriate for the Bandon Marsh National Wildlife Refuge. The Notice also establishes that present Fish and Wildlife Service property or interests therein within the project area shown, are components of Bandon Marsh National Wildlife Refuge. These lands are protected and administered in accordance with the Congressional Acts, Treaties and Executive Orders which provide the legal basis for operation of units of the National Wildlife Refuge System.

EFFECTIVE DATE: April 28, 1983.

FOR FURTHER INFORMATION CONTACT: James H. Shaw, Acquisition Program Manager, U.S. Fish and Wildlife Service, Lloyd 500 Building, Suite 1692, 500 N.E. Multnomah Street, Portland, Oregon 97232.

SUPPLEMENTARY INFORMATION: The Act to establish the Bandon Marsh National Wildlife Refuge was enacted by Congress on December 29, 1981 (Pub. L. 97–137). The Act provided that the Secretary of Interior would establish said refuge by publication of a notice in the **Federal Register** at such time as he determines that lands, waters, and interests therein sufficient to constitute an efficiently administrable refuge have been acquired.

Notice is hereby given that, pursuant to the above Act, all lands waters and interests therein within the approved project boundary totaling approximately 289 acres have acquired, and Bandon Marsh National Wildlife Refuge is considered to be an administrable unit of the National Wildlife Refuge System.

Maps of the refuge area are on file and are available for public inspection in the Land Acquisition office, U.S. Fish and Wildlife Service, 500 N.E. Multnomah Street, Portland, Oregon 97232.

Richard J. Myshak,

Regional Director, U.S. Fish and Wildlife Service.

Bureau of Land Management

[A–13140; AZ–026–83–52]

Public Lands Exchange; Mohave County, Arizona

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of realty action—Exchange, public lands in Mohave County, Arizona.

SUMMARY: The following described lands have been determined to be suitable for disposal by exchange under Section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716:

Gila and Salt River Meridian, Arizona

T. 40 N., R. 15 W.,
Sec. 5, lot 4, S½NW¼, SW¼, and W½SE¼;
Sec. 6, SE¼;
Sec. 7, lots 1 thru 4, E½W½, and E½;
Sec. 8, W½ and NW¼NE¼;
Sec. 17, N½NW¼;
Sec. 18, lots 1 thru 4, N½NE¼, SW¼NE¼, and E½W½.
Comprising 2007.50 acres, more or less.

In exchange for these lands, the Federal government will acquire non-Federal land from Rod's Realtors described as follows:

Gila and Salt River Meridian, Arizona

T. 25 N., R. 21 W.,
Sec. 9, all;
Sec. 15, all;
Sec. 17, all;
Sec. 5, lots 1 thru 4, S½N½, and S½;
Sec. 7, lots 1 thru 4, E½W½, and E½.
T. 26 N., R. 21 W.,
Sec. 19, lots 1 thru 4, E½W½, and E½;
Sec. 29, all;
Sec. 31, lots 1 thru 4, E½W½, anmd E½;
Comprising 5109.12 acres, more or less.

The purpose of the exchange is to acquire the non-Federal lands which contain critical desert bighorn sheep habitat, including lambing grounds. The non-Federal lands have therefore been listed according to their acquisition priority. The exchange is consistent with the Bureau's planning system. The public interest will be well served by making the exchange.

The value of the lands and interests to be exchanged is approximately equal. Upon the completion of a final appraisal, acreages may be adjusted or a cash payment made to equalize the value difference. Where a money payment is required to equalize values, the payment shall not exceed 25 percent of the value of the public interest being conveyed.

The terms and conditions applicable to the Federal lands to be exchanged are:

1. A right-of-way for ditches and canals constructed by the authority of the United States, pursuant to the Act of August 30, 1890 (26 Stat. 319; 43 U.S.C. 945).

2. A reservation of all oil and gas to the United States with the right to

prospect for, mine and remove such deposits.

3. A reservation for a road easement 66 feet in width to the United States across the NE¼ Sec. 7 and NW¼ Sec. 8, T. 40 N., R. 15 W.

4. A reservation for powerline right-of-way AR–036027, as amended, under the authority of the Act of October 21, 1976 (90 Stat. 2776; 43 U.S.C. 1716).

5. A reservation for telephone right-of-way A–17642 under the authority of the Act of October 21, 1976 (90 Stat. 2776; 43 U.S.C. 1716).

6. Subject to all valid existing rights and those applications on record as of the date of this notice.

The terms and conditions applicable to the non-Federal land to be acquired are:

1. All minerals are reserved to the Santa Fe Pacific Railroad Company with the right of ingress and egress.

The publication of this notice in the **Federal Register** will segregate the public lands described herein to the extent that they will not be subject to appropriation under the public land laws, including the mining laws. As set forth in 43 CFR 2201.1(b), and subsequently tendered application, allowance of which is discretionary, shall not be considered as filed and shall be returned to the applicant. This segregative effect shall terminate upon issuance of patent to such lands, upon publications in the Federal Register of a termination of the segregation, or 2 years from date of this publication, whichever occurs first.

SUPPLEMENTARY INFORMATION: Detailed information concerning the exchange, including the environmental analysis and the record of public discussions, is available for review at the Shivwits Resource Area Office, 747 East St. George Boulevard, Suite 2, St. George, Utah.

For a period of forty-five (45) days interested parties may submit comments to the District Manager, Arizona Strip District, 196 East Tabernacle, P.O. Box 250, St. George, Utah 84770. Any adverse comments may be evaluated by the Arizona State Director, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Dated: April 13, 1983.

G. William Lamb,

District Manager.

[Wyoming 068416]

Termination Small Tract Classification Wyoming Order Number 33 as Amended

1. Pursuant to the authority delegated by Bureau of Land Management Manual Section 1203, as supplemented, the Bureau of Land Management's Small Tract Classification, Wyoming Order Number 33, dated August 31, 1961 as amended on October 9, 1962, is hereby terminated in its entirety and effective immediately. The subject order covers the following land:

Sixth Principal Meridian

T. 40 N., R. 87 W.,
Sec. 13, SE¼SE¼SW¼NE¼.

The area described contains 2.5 acres in Natrona County, Wyoming.

2. The above described lands are segregated from all appropriations including locations under the mining laws, except as to applications under the Small Tract Act and the mineral leasing laws.

3. The small tract lease on this land, issued under the Act of June 1, 1938 (52 Stat. 609; 43 USC 682a), as amended, terminated on October 31, 1976, and was replaced by a lease under Section 302 of the Act of October 21, 1976 (90 Stat., 2762; 43 USC 1732). These lands are now proposed for direct sale to the current lessee, and classification for small tract purposes is no longer proper.

4. Pursuant to the regulations set forth in 43 CFR 2450.6(a), the above classification is hereby terminated as set out in paragraph one of this notice. At 10:00 a.m. on May 30, 1983, the lands described above will be opened to operation of the public land laws, including the mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable laws and regulations. All valid applications received at or prior to 10:00 a.m. on May 30, 1983, shall be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

Inquiries concerning these lands should be addressed to the Platte River Resource Area Manager, 951 Rancho Road, Casper, Wyoming 82601.

Terence W. Matchett,
Acting Area Manager.

BILLING CODE 4310-84-M

[Exchange CA 13694]

Intent To Amend Scattered Blocks MFP and Realty Action; Public Lands in Humboldt County, California

The Bureau of Land Management, pursuant to 43 CFR 1600, proposes to amend the Scattered Blocks Management Framework Plan to allow for the transfer of certain tracts of land via exchange CA 13894. The following parcels of public land are so effected.

Humboldt Meridian

T. 1 S., R. 3 E.,
Sec. 1: Lots 5 and 6;
Sec. 12: Lots 1, 2, 3, 4, 5, 6 and 7;
Sec. 26: NW¼NE¼.
T. 1 S., R. 4 E.,
Sec. 7: Lots 2, 3, and 4, E½SW¼.
T. 2 N., R. 5 E.,
Sec. 7: SE¼SW¼, W½SE¼;
Sec. 17: N½SW¼, SW¼SW¼;
Sec. 18: W½NE¼, SE¼SE¼.

Containing 829.97 acres, more or less.

The following described public lands, subject to the amendment to the Scattered Blocks MFP, have been determined to be suitable for disposal under the provisions of Pub. L. 91-476, an Act to provide for the establishment of the King Range National Conservation Area (84 Stat. 1067), and Sec. 206 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2756).

Homboldt Meridian

T. 1 S., R. 3 E.,
Sec. 1: Lots 5 and 6;
Sec. 12: Lots 1, 2, 3, 4, 5, 6 and 7;
Sec. 26: NW¼NE¼;
T. 1 S., R. 4 E.,
Sec. 7: Lots 2, 3, and 4, E½SW¼;
Sec. 18: NE¼NE¼, SW¼NE¼, SE¼NW¼;
Sec. 30: SE¼NW¼;
T. 3 S., R. 2 E.,
Sec. 20: SE¼NE¼;
Sec. 28: NW¼NW¼.
T. 2 N., R. 5 E.,
Sec. 7: SE¼SW¼, W½SE¼;
Sec. 17: N½SW¼, SW¼SW¼;
Sec. 18: W½NE¼, SE¼SE¼.
T. 3 N., R. 2 E.,
Sec. 26: NE¼SE¼.
T. 4N., R. 3 E.,
Sec. 7: Lot 2;
Sec. 13: NW¼SW¼;
Sec. 24: NE¼NE¼.
T. 4 N., R. 4 E.,
Sec. 17: NE¼SW¼.
T. 5 N., R. 4 E.,
Sec. 25: N½NE¼, SE¼NW¼.
T. 7 N., R. 3 E.,
Sec. 4: SW¼SE¼;
Sec. 8: NE¼NE¼;
Sec. 9: NW¼NE¼, SE¼NE¼, N½NW¼, SW¼NW¼;
Sec. 10: SE¼NW¼.
T. 9 N., R. 3 E.,
Sec. 15: N½SE¼, SW¼SE¼;
Sec. 22: Lot 1;
Sec. 28: NW¼NE¼.
T. 1 N., R. 1 W.,
Sec. 34: SW¼NW¼, NW¼SW¼, NE¼SE¼.
T. 12 N., R. 2 E.,
Sec. 39: Lot 4.

Containing 2,033.07 acres, more or less.

Richard J. Bosio, 2236 California Avenue, Modesto, California 95351, has applied to acquire the above described lands in exchange for the following described privately owned lands.

Humboldt Meridian

T. 3 S., R. 1 W.,
Sec. 10: NE¼SE¼;
Sec. 11: S½;
Sec. 12: NW¼SW¼, S½S½; and those portions of the SE¼NE¼, NE¼SW¼, N½SE¼ south of Bear Trap Creek;
Sec. 13: All;
Sec. 14: N½, N½SW¼, SE¼SW¼, SE¼.
T. 4 S., R. 1 E.,
Sec. 4: SW¼SE¼;
Sec. 9: W½NE¼, SE¼NE¼, SE¼;
Sec. 10: E½NE¼, S½;
Sec. 11: SW¼NW¼, SW¼.

Containing 2,785 acres, more or less.

A mineral evaluation has been requested on the public land. If any minerals are identified, a reservation of identified minerals will be made to the United States. If no minerals are identified, the mineral estate of the public lands will be conveyed with the surface. The mineral estate of the privately owned lands will be conveyed with the surface, unless previously reserved.

A right-of-way will be reserved to the State of California, Department of Transportation, T. 12 N., R. 2 E., H.M., Sec. 39, Lot 4, for the purpose of the Redwood Parks Bypass of U.S. Highway 101.

The publication of this notice in the **Federal Register** shall segregate the applied for public lands from all other forms of appropriation under the public land laws, including the mining laws, for a period of two years. The exchange is expected to be consummated before the end of that period.

For a period of 45 days from the date of this notice, interested parties may submit comments to the District Manager, P.O. Box 940, 555 Leslie Street, Ukiah, California 95482. Any adverse comments will be evaluated by the State Director who may vacate or modify this action and issue a final determination. In the absence of any action by the State Director, the Notice of Intent and Notice of Realty Action will become a final determination of the Bureau of Land Management.

Purpose of Exchange

The purpose of the exchange is to acquire non-Federal lands within the King Range National Conservation Area

for more effective management. The exchange is in conformance with Bureau planning, and in the public interest.

Detailed information concerning the exchange, including the environmental analysis and the record of non-Federal participation, is available for review at the Eureka Resource Area Office, BLM, 1585 J Street, P.O. Box II, Arcata, California 95521.

The value of the lands to be exchanged is approximately equal and money will be used to equalize the values upon completion of the final appraisal of the lands.

Van W. Manning,

District Manager, Bureau of Land Management, Ukiah District.

BILLING CODE 4310-84-M

Minerals Management Service

Outer Continental Shelf; Proposed Development and Production Plan; Intent To Prepare an Environmental Impact Statement; California

AGENCY: Minerals Management Service (MMS), Department of the Interior.

ACTION: Notice of intent to prepare an environmental impact statement/ environmental impact report.

SUMMARY: Minerals Management Service, Pacific Outer Continental Shelf Region, Santa Barbara County, and the California State Lands Commission will prepare a joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the Exxon Santa Ynez Unit/Las Flores Canyon Development and Production Plan (DPP) proposed for the western Santa Barbara Channel offshore Santa Barbara County, California.

The draft statement is scheduled for completion in December 1983. A Notice of Availabilitiy will be published in the **Federal Register** establishing dates for the comment period following public distribution of the draft. Federal, State, or local governments and interested groups or individuals needing further information should call Steve Alcorn at (213) 688-3377 or Buford Holt at (213) 688-2070. Those wishing to assist MMS in determining the scope of the Santa Ynez Unit EIS/EIR should write to: Reid T. Stone, Regional Manager, Minerals Management Service, Pacific OCS Region, 1340 West 6th Street, Los Angeles, CA 90017. Comments on the scope of the statement should be received no later than June 13, 1983.

SUPPLEMENTARY INFORMATION: The DPP proposes installation of up to four production platforms, subsea pipelines and power cables, expansion of gas processing facilities currently under construction in Las Flores Canyon and either expansion of the Offshore Storage and Treatment Vessel or installation of an onshore oil treatment facility in Las Flores Canyon and a nearshore marine terminal. The EIS/EIR will analyze the environmental consequences of the proposed project in compliance with the National Environmental Policy Act and California Environmental Quality Act. Significant issues to be discussed include: air quality, water quality, terrestrial and marine biota, endangered species, commercial fishing, cultural resources and land use. Alternatives to be considered include options to modify, defer, or disapprove the proposed DPP.

Robert G. Paul,

Acting Deputy Regional Manager, Pacific OCS Region.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Commission on Security and Economic Assistance

Pursuant to the provisions of the Federal Advisory Committee Act, notice is hereby given of the first meeting of the Commission on Security and Economic Assistance on May 13, 1983.

The purpose of the meeting is to commence the review of U.S. security and economic assistance in light of its goals and objectives, assess the modalities used and their effectiveness, and to advise the Secretary of State and the Congress of its findings and recommendations. A preliminary work plan to achieve this end will be reviewed. The Commission will also deliberate its own organization, and agenda for future meetings, and an agenda for public hearings.

The Commission will meet from 9:00 a.m. to 12:30 p.m. on May 13, 1983, in room 2168 Rayburn House Office Building, U.S. House of Representatives, Washington, D.C. The meeting is open to the public. Any interested person may attend. Written statements may be filed with the Commission in advance of the meeting.

Mr. John K. Wilhelm is the designated A.I.D. representative. Statements may be filed with him, or further information received by writing to him in care of the Agency for International Development, PPC/C, Room 1004 NS, Washington, D.C. 20523, or telephone him at 202/632-7800.

Dated: April 25, 1983.

John K. Wilhelm,

A.I.D. Representative Commission on Security and Economic Assistance.

Executive Secretary Performance Review Board Agency for International Development.

[FR Doc. 83-11350 Filed 4-27-83; 8:45 am]

BILLING CODE 6116-01-M

INTERSTATE COMMERCE COMMISSION

Office of Proceedings

Motor Carriers; Permanent Authority Decisions; Decision—Notice

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods). The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must

follow the rules under 49 CFR Part 1160, subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United states Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Please direct status inquiries to Team 2, (202) 275-7030.

Volume No. OP2-189

Decided: April 20, 1983.

By the Commission, Review Board No. 3. Members Krock, Joyce, and Dowell.

MC 167173, filed April 1, 1983. Applicant: ORANGE COAST SIGHTSEEING COMPANY, 851 East Cerritos Ave., Anaheim, CA 92805. Representative: James H. Lyons, 523 West 6th St., Suite 1216, Los Angeles, CA 90014, (213) 626-6451.Transporting *passengers*, in charter and special operations, beginning and ending at points in Los Angeles and Orange Counties, CA, and extending to points in the U.S. (except HI). Condition: The person or persons who appear to be engaged in common control of another regulated carrier must either file and application under 49 U.S.C. 11343(a), submit an affidavit indicating why such approval is unnecessary, or file a petition seeking exemption under 49 U.S.C. 11343(e) to the Secretary's office. In order to expedite issuance of any authority please submit a copy of the affidavit, proof of filing the application(s), or petition for exemption for common control to Team 2, Room 2379.

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 167303, filed April 8, 1983. Applicant: CHARLES E. STRAW, d.b.a. C&S TRUCKING, 3222 Airport Rd., Nampa, ID 83651. Representative: Mark Perry, 236 Massachusetts Ave., NE, Suite 409, Washington, DC 20002. Transporting *Food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the vehicle in such vehicle, between points in the U.S. (except AK and HI).

MC 167343(A), filed April 11, 1983. Applicant: GARY BOOTH, d.b.a. GARY BOOTH TRUCKING, P.O. Box 31082, Billings, MT 59107. Representative: Charles A. Murray, Jr., 2822 Third Ave. N., Billings, MT 59101, (406) 252-4165. Transporting, (1) for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions); (2) *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle; and (3) *metal products*, between points in the U.S. (except AK and HI).

Note.—Part (3) is published in the **Federal Register**, this issue, with "regular applications."

MC 167393, filed April 11, 1983. Applicant: SELESTIN ARGENTIN, d.b.a. J.M.A. LIMOUSINE SERVICE, 20 Kossuth St., South Norwalk, CT 06854. Representative: Selestin Argentin (same address as applicant), 203-866-9075. Transporting *passengers*, in charter and special operations, between points in CT, NJ, and NY.

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 167403, filed April 14, 1983. Applicant: VAN TRANS, INC., South State St., Newtown, PA 18940. Representative: Paul J. Keeler, P.O. Box 253, South Plainfield, NJ 07080, 201-757-3478. Transporting *passengers*, in charter and special operations, between points in the U.S. (except HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

Volume No. OP2-193

Decided: April 21, 1983.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell. (Member Dowell not participating.)

MC 10302 (Sub-11), filed April 12, 1983. Applicant: THE CHIEPPO BUS COMPANY, 192 Forbes Ave., New Haven, CT 06501. Representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425-13th St., NW, Washington, DC 20004, 202-737-1030. Transporting *passengers*, in charter and special operations, between points in the U.S. (except HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 136832 (Sub-19), filed April 13, 1983. Applicant: SOUTHERN IDAHO TRANSPORT, INC., P.O. Box W, Filer, ID 83328. Representative: Timothy R. Stivers, P.O. Box 1576, Boise, ID 83701, 208-343-3071. (1) transporting *general commodities* (except classes A and B explosives and household goods), between those points in the U.S., in and west of WI, IL, MO, KS, CO, and NM

(except AK and HI), (2) transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S. (except AK and HI), and (3) as a *broker of general commodities* (except household goods), between points in the U.S. (except AK and HI).

Note.—Part (1) is published in the **Federal Register**, this issue, under the preface with "regular applications".

MC 167412, filed April 14, 1983. Applicant: CURTIS J. ANDERSON, d.b.a. R.U.S.T. TRUCKING, 11 Western Village, Minot, ND 58701. Representative: Curtis J. Anderson (same address as applicant), 701–838–1013. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizer, and other soil conditioners*, by the owner of the motor vehicle, in such vehicle, between points in the U.S. (except AK and HI).

MC 167423, filed April 15, 1983. Applicant: ANDRE COACHLINES, INC., 56 Oakland Rd., Brookline, MA 02146. Representative: Richard A. Andre, 41 Centre St., Brookline, MA 02146, 617–738–8562. Transporting *passengers*, in charter and special operations, between points in the U.S. (except AK and HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 167442, filed April 15, 1983. Applicant: COLLECTIVE DISTRIBUTION SERVICES, INC., 3915 Saw Mill Run Blvd., Pittsburgh, PA 15227. Representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, PA 15219, 412–471–1800. As a *broker* of *general commodities* (except household goods), between points in the U.S.

MC 167443, filed April 15, 1983. Applicant: ROBERT D. SIMS, d.b.a. SIMS TRUCKING, 517–N. Main St., Sullivan, IL 61951. Representative: Robert D. Sims (same address as applicant), 217–728–8188. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizer, and other soil conditioners*, by the owner of the motor vehicle, in such vehicle, between points in the U.S. (except AK and HI).

For the following, please direct status calls to Team 3 at 202–275–5223.

Volume No. OP3–171

Decided: April 19, 1983.

By the Commission, Review Board No. 1. Members Parker, Chandler, and Fortier.

MC 52334 (Sub-8), filed April 6, 1983. Applicant: BOISE-WINNEMUCCA STAGES, INC., 1105 LaPointe, Boise, ID 83701. Representative: Dan L. Poole, P.O. Box 1559, Boise, ID 83701, (208) 343–5454. Transporting (1) *passengers*, in charter and special operations, between points in the U.S. and (2) *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S. (except AK and HI)

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 61335 (Sub-21), filed April 1, 1983. Applicant: TRANS-BRIDGE LINES, INC., 2012 Industrial Dr. Bethlehem, PA 18017. Representative: W. C. Mitchell, 144 Ridge Rd., Wachung, NJ 07060, (201) 755–2023. Over *regular routes*, transporting *passengers* between Bethlehem, PA and Washington, D. C.: From Bethlehem, PA over U.S. Hwy 22 at Allentown, PA to the junction of PA Hwy 9 (Pennsylvania Turnpike), then over PA Hwy 9 to the I- Hwy 276 to the junction of I-Hwy 76 at King of Prussia, PA, then over I-Hwy 76 to the junction of U. S. Hwy 202 near Colonial Village, PA, then over U.S. Hwy 202 to the junction of U.S. Hwy 322, then over U.S. Hwy 202 to the junction of I-Hwy 95 at Concord, DE, then over I-Hwy 95 to Washington, D. C., and return over the same route, serving all intermediate points.

Note.—(1) Applicant seeks to provide regular-route service in interstate and foreign commerce and in intrastate commerce under 49 U.S.C. 10922 (c)(2)(B) over the same route, and (2) Applicant intends to tack this authority to its existing authority in MC–61335.

MC 87855 (Sub-5(a)), filed March 28, 1983. Applicant: J. V. MOTOR LINES, INC., 87 Church Street, E. Hartford, CT 06118. Representative: Hughan R. H. Smith, 26 Kenwood Place, Lawrence, MA 01841, (617) 657–8250. Transporting for or on behalf of the United States Government *general commodities* (except used household goods, hazardous or secret materials and sensitive weapons and munitions), between points in the U.S. (except AK and HI).

MC 87855 (Sub-5(b)), filed March 28, 1983. Applicant: J. V. MOTOR LINES, INC., 87 Church Street, E. Hartford, CT 06118. Representative: Hughan R. H. Smith, 26 Kenwood Place, Lawrence, MA 08141, (617) 657–8250. Transporting *general commodities* (except classes A and B explosives, commodities in bulk, and household goods), between points in the U.S. (except AK and HI).

MC 125875 (Sub-4), filed March 31, 1983. Applicant: REAL TRANSIT CO., P.O. Box 343, Rords Rd., Rockaway, NJ 07866. Representative: Andrew J. Carraway, Suite 1301, 1600 Wilson Blvd., Arlington, VA 22209, (703) 522–0900. Over *regular routes*, transporting *passengers*, between Long Valley, NJ and New York City Port Authority Bus Terminal, serving all intermediate points: (1) From the intersection of NJ Hwy 24 and County routes 513 and 517 at Long Valley, NJ, east along NJ Hwy 24 to the intersection of U.S. Hwy 206 near Chester, NJ, then north over U.S. Hwy 206 to the intersection of I-Hwy 80, then east over I-Hwy 80 to the intersection of NJ Hwy 23 and U.S. Hwy 46, then east over U.S. Hwy 46 to the intersection NJ Hwy 3, then east over NJ Hwy 3 to I-Hwy 495, then east over I-Hwy 495 to the New York City Port Authority Bus Terminal; (2) From the intersection of NJ Hwy 24 and County routes 513 and 517 at Long Valley, NJ, east along NJ Hwy 24 to the intersection of U.S. Hwy 206 near Chester, NJ, then north over U.S. Hwy 206 to the intersection of I-Hwy 80, then east over I-Hwy 80 to the intersection of I-Hwy 95 in Teaneck, NJ, then south over I-Hwy 95 to the intersection of NJ Hwy 3 at Secaucus, NJ, then over NJ Hwy 3 to the intersection of I-Hwy 495, then over I-Hwy 495 through the Lincoln Tunnel to the New York City Port Authority Bus Terminal, and return over the same route; and (3) From the intersection of NJ Hwy 24 and County routes 513 and 517 at Long Valley, NJ, east along NJ Hwy 24 to the intersection of U.S. Hwy 206 near Chester, NJ, then north over U.S. Hwy 206 to the intersection of I-Hwy 80, then east along I-Hwy 80 to the intersection of I-Hwy 280, then east over I-Hwy 280 to the intersection of I-Hwy 95, then north over I-Hwy 95 to the intersection of NJ Hwy 3, then east over NJ Hwy 3 to the intersection of I-Hwy 495, then east over I-Hwy 495 through the Lincoln Tunnel to the New York Port Authority Bus Terminal, and return over the same route.

Note.—(1) Applicant receives governmental financial assistance for the purchase or operation of buses or is an operator for such a recipient and (2) applicant seeks to provide regular-route service only in interstate or foreign commerce.

MC 167124, filed March 29, 1983. Applicant: E. S. HUMBERT, d.b.a. E. S. HUMBERT TRUCKING, 9737 W. 57th Ave., Arvada, CO 80002. Representative: Robert W. Wright, Jr., 5711 Ammons St., Arvada, CO 80002, (303) 424–1761. Transporting *food and other edible products and byproducts intended for human consumption*, (except alcoholic

beverages and drugs), *agricultural limestone and fertilizers and other soil conditioners*, by the owner of the motor vehicle in such vehicle, between points in the U.S. (except AK and HI).

MC 167125, filed March 28, 1983. Applicant: LARRY GADDIS EVANGELISTIC ASSOCIATION, d.b.a. NEW HOPE CHARTER, Route 3, Box 261, Gastonia, NC 28052. Representative: Terrell Price, 600 Briar Creek Rd., Ste. DD504, Charlotte, NC 28205, (704) 372–8212. Transporting *passengers*, in special and charter operations, beginning and ending at points in NC, SC, VA, TN, and GA and extending to points in the U.S. (except HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 167135, filed March 30, 1983. Applicant: RAYMOND O. WILLIAMSON, 68 Nutt Road, Auburn, NH 03032. Representative: Mark Perry, 236 Mass. Ave., NE, Suite 409, Washington, DC 20002, (202) 546–2298. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizer and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

MC 167155, filed March 31, 1983. Applicant: CLIFTON M. BECK, d.b.a. CLIFF BECK, 923 White St., Jackson, MN 56143. Representative: Cliff Beck (same address as applicant), (507) 847–2503). Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S. (except AK and HI).

MC 167214, filed April 4, 1983. Applicant: HAF INCORPORATED, P.O. Box 3043, Wilmington, DE 19804. Representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Suite 1200, Washington, DC 20036, (202) 785–0024. As a *broker of general commodities* (except household goods), between points in the U.S. (except AK and HI).

MC 167335, filed April 11, 1983. Applicant: COACH CHARTER AND LEASING COMPANY, 200 Darlington Ave., Greenville, SC 29609. Representative: David D. Cantrell, Jr., P.O. Box 955, 209 E. First Ave., Easley, SC 29640, (803) 859–3317. Transporting *passengers*, in charter and special operations, beginning and ending at points in Greenville, Anderson, Spartanburg, Laurens, Pickens, Oconee, Cherokee, Newberry and Greenwood Counties, SC and extending to points in FL, AL, MS, LA, GA, SC, NC, TN, KY, VA, WV, OH, MD, PA, NY, NJ, DE, IL, MA, IN, RI, CT, VT, NH, ME, MI, TX and DC.

Note.—Applicant seeks to provide privately-funded charter and special transportation.

Volume No. OP3–174

Decided: April 20, 1983.

By the Commission, Review Board No. 1, Members Parkers, Chandler, and Fortier.

MC 2934 (Sub-147), filed April 8, 1983. Applicant: AERO MAYFLOWER TRANSIT CO., INC., 9998 No. Michigan Rd., Carmel, IN 46032. Representative: W. G. Lowry (same address as applicant), (317) 875–1142. Transporting *household goods*, between points in the U.S., under continuing contract(s) with State Farm Mutual Automobile Insurance Co., of Bloomington, IL.

MC 124774 (Sub-150), filed April 4, 1983. Applicant: MIDWEST REFRIGERATED EXPRESS, INC., 4440 Buckingham Ave., Omaha, NE 68107. Representative: Arlyn L. Westergren, 9202 W. Dodge Rd., Suite 201, Omaha, NE 68114, (402) 397–7033. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S. (except AK and HI).

MC 149035 (Sub-4), filed April 8, 1983. Applicant: HARLAN D. RUDD, P.O. Box 57, Drakesville, IA 52552. Representative: Kenneth F. Dudley, P.O. Box 279, Ottumwa, IA 52501, (515) 682–8154. Transporting *general commodities* (except classes A and B explosives and household goods), between point in the U.S. (except AK and HI), under continuing contract(s) with J. A. Baldwin Manufacturing Company, of Kearney, NE, McIntosh Grain & Feed and Shoco Fertilizer, Inc., both of Great Falls, MT, and Italtractor America, Inc., of Addison, IL.

MC 151585 (Sub-4), filed April 4, 1983. Applicant: BEST TRUCKING CO., INC., 2913 Halstead Rd., Richmond, VA 23235. Representative: Carroll B. Jackson, 1810 Vincennes Rd., Richmond, VA 23229, (804) 282–3809. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S. (except AK and HI).

MC 153634 (Sub-1), filed April 4, 1983. Applicant: LITTLE MONTANA TRANSPORTATION, 704 E. Front St., P.O. Box 3485, Bozeman, MT 59715. Representative: Rand E. Little (same address as applicant), (406) 586–4503. Transporting *food and related products*, between points in MT, OR, WA, ID, UT, CA, NV, CO, NM, WY, and AZ.

MC 161064, filed April 5, 1983. Applicant: NATIONAL BULK CARRIERS, INC., 207 S. 20th St., Belleville, IL 62221. Representative: Jon F. Hollengreen, 1029 Pennsylvania Bldg., Penn. Ave. & 13th St., N.W., Washington, DC 20004, (202) 628–4600. Transporting *commodities in bulk*, between points in the U.S. (except AK and HI). Condition: The person or persons who appear to be engaged in common control of another regulated carrier must either file an application under 49 U.S.C. § 11343(a), or submit an affidavit stating why Commission approval is unecessary, or submit a petition of exemption to the Secretary's Office. In order to expedite issuance of any authority please submit a copy of the affidavit or petition or proof of filing the application(s) for common control to Team 3, Room 2158.

MC 164765, filed April 5, 1983. Applicant: MAURICE TRANSPORTATION, INC., R. R. 3, Box 16, Winchester, IN 47394. Representative: David Earl Tinker, 1000 Connecticut Ave., N.W., Suite 1112, Washington, DC 20036–5391, (202) 887–5868. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S., under continuing contract(s) with Chrysler Corporation, of Detroit, MI.

MC 167185, filed April 1, 1983. Applicant: DONALD P. VERNON, d.b.a. VERNON TRANSPORTATION, 16049 State Rt. 14 A, Beloit, OH 44609. Representative: Richard J. Lolli 2045 Cherry Ave., Alliance, OH 44601, (216) 823–9170. Transporting *commodities in bulk*, between points in the U.S., under continuing contract(s) with Sebring Forest Industries, of Sebring, OH.

MC 167205, filed April 4, 1983. Applicant: WILLIAMS FREIGHT SYSTEMS, INC., R. R. #1, Box 97E, Buzzel Rd., Sycamore, IL 60178. Representative: Stephen H. Loeb, Suite 4, 2777 Finley Rd., Downers Grove, IL 60515, (312) 953–0330. Transporting *general commodities* (except classes A and B explosives, household goods and commodities in bulk), between points in the U.S. (except AK and HI).

[FR Doc. 83–11314 Filed 4–27–83; 8:45 am]
BILLING CODE 7035–01–M

Motor Carriers: Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water

Carriers: Household Goods Brokers. The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property—that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier—that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker—that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C 10922(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

BILLING CODE 7035-01-M

[Volume No. OP3-173]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: April 20, 1983.

The following restriction removal applications, are governed by 49 CFR 1165. Part 1165 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747 and redesignated at 47 FR 49590, November 1, 1982.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1165.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 3, at (202) 275–5223.

MC 144394 (Sub-1X), filed April 13, 1983. Applicant: HOOK UP LTD, 390 Evans Ave., Toronto, Ontario, Canada M8Z 1K6. Representative: John L. Trigilio, Can-Am Bldg., 101 Niagara St., Buffalo, NY 14202. Lead Certificate: (1) broaden commodity to "machinery and equipment", from "self-propelled industrial and construction machinery and equipment (except trucks designed for the transportation of property over the highways)"; (2) remove the driveway service restriction; and (3) remove the foreign commerce restriction.

BILLING CODE 7035–01–M

Motor Carriers; Approved Exemptions

AGENCY: Interstate Commerce Commission.

ACTION: Notices of approved exemptions.

SUMMARY: The motor carriers shown below have been granted exemptions pursuant to 49 U.S.C. 11343(e), and the Commissions's regulations in Ex Parte No. 400 (Sub-No. 1), *Procedures for Handling Exemptions Filed by Motor Carriers of Property Under 49 U.S.C. 1343,* 367 I.C.C. 113 (1982), 47 FR 53303 (November 24, 1982).

DATES: The exemptions will be effective on May 31, 1983. Petitions for reconsideration must be filed by May 18, 1983. Petitions for stay must be filed by May 9, 1983.

FOR FURTHER INFORMATION CONTACT: Warren C. Wood, (202) 275–7977.

SUPPLEMENTARY INFORMATION: For further information, see the decisions(s) served in the proceeding(s) listed below. To purchase a copy of the full decision contact: TS Infosystems, Inc., Room 2227, 12th and Constitution Ave., NW, Washington, DC 20423; or call (202) 289–4357 in the DC metropolitan area; or (800) 424–5403 Toll-free outside the DC area.

Decided: April 20, 1983.

By the Commission, Division 1, Commissioners Andre, Taylor, and Sterrett. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

Agatha L. Mergenovich,

Secretary.

[No. MC–F–15033]

Ligon Transport, Inc.—Purchase Exemption—Ligon Specialized Hauler, Inc.

ADDRESSES: Send pleadings to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, DC 20423, and (2) Petitioner's representative: Carl U. Hurst, Esq., P.O. Box 691, Madisonville, KY 42431. Pleadings should refer to No. MC–F–15033. Under 49 U.S.C. 11343(e), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a), the purchase by Ligon Transport, Inc., (Transport) (MC–109462) of that portion of the operating authorities of Ligon Specialized Hauler, Inc., (Specialized) set forth in Certificate No. MC–119777 (Sub-Nos. 515, 516, 517, and 528), authorizing the irregular-route transportation of general commodities (except classes A and B explosives), between points in Pike, St. Charles, and St Louis Counties, MO, and St. Clair County, IL, on the one hand, and, on the other, points in the United States and that portion of Sub-No. 526X, superseding Sub-No. 168, authorizing the regular-route transportation of general commodities (except classes A and B explosives), between Clarksville, MO, and East St. Louis, IL, serving various intermediate and off-route points, and the control by Herbert A. Ligon, Jr., who controls Transport, of such rights through the purchase. Transport and Specialized are affiliated through common ownership with each other and with (1) Ligon Trnsportation Company of Kentucky (MC–117109), and (3) Ligon Transportation Company of Tennessee (MC–127834), and (3) Ligon Transportation Company of Georgia (MC–35045).

[No. MC–F–15059]

Corporate Transport, Inc.—Purchase Exemption—Sigma—4 Express, Inc., (James K. McNamara Trustee in Bankruptcy)

Addresses: Send pleadings to: (1) Motor Section, Room, 2139, Interstate Commerce Commission, Washington, DC 20423, and (2) Petitioner's representative: James T. Darby, 1021 Irving Avenue, Colonial Beach, VA 2443. Pleadings should refer to No. MC–F–15059. Under 49 U.S.C. 11343(e), the Interstate Commerce Commission from the requirement of prior review and approval under 49 U.S.C. 11343(a) the purchase by Corporate Transport, Inc. (Corporate) (MC–144189), of that portion of the operating rights of Sigma–4 Express, Inc., set forth in Certificate No. MC–125023 (Sub-Nos. 19, 27, 33, 40, 44, 49, 53, 54, 60, 74, 75, and 79, which collectively authorized the irregular-route transportation of malt beverages from and to various points and States located primarily east of the Mississippi River.

[No. MC–F–15077]

Gene F. Lacaeyse d.b.a. G. F. Lacaeyse Transport—Purchase Exemption—Wenger Truck Line, Inc.

Addresses: Send pleadings to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, DC 20423, and (2) Petitioner's representative: Larry D. Knox, 600 Hubbell Building, Des Moines, IA 50309. Pleadings should refer to No. MC–F–15077. Under 49 U.S.C. 11343(e), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a), the acquistion by Gene F. Lacaeyse, d/b/a/ G. F. Lacaeyse Transport, of the interstate operating rights of Wenger Truck Line, Inc., contained in No. MC–109818 [Sub-Nos. 25, 34, 44, 55, 56, and paragraphs (1) and (3) of Sub-No. 95X]; and we also exempt the tacking, by Lacaeyse, of the operating rights being acquired from Wenger, to the operating rights presently held by Lacaeyse.

[No. MC–F–15080]

Air Meridian, Inc.—Control Exemption—McBride Express, Inc., and F.M.S. Transportation, Inc.

Address: Send pleadings to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, D.C. 20423, and (2) Petitioner's representative: Richard H. Streeter, Esq. 1729 H. Street Northwest, Washington, D.C. 20006. Comments should refer to No. MC–F–15080. Decided: April 21, 1983. Under 49 U.S.C. 11343(e), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a), the acquisition of control of McBride Express, Inc., (MC–112049) and F.M.S. Transportation Inc., (No. MC–139206) by Air Meridian, Inc. and, in turn, G. Leonard Rochon who controls Meridian. By the Commission, Division 2, Commissioners Gradison, Taylor, and Sterrett. Commissioner Sterrett concurred except for the second ordering paragraph.

[No. MC–F–15088]

East Penn Trucking Company—Purchase (Portion) Exemption—Foodtrain, Inc.

Addresses: Send pleadings to: (1) Motor Section, Room 2353, Interstate Commerce Commisson, Washington, D.C. 20423, and (2) Petitioner's representative: William A. Chesnutt: P.O. Box 1166, 100 Pine Street, Harrisburg, PA 17108–1166. Pleadings should refer to No. MC–F–15088. Decided: April 21, 1983. Under 49 U.S.C. 11343(e), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a), the purchase by East Penn Trucking Company (MC–135237 and MC–139255) of a portion of the operating rights of Foodtrain, Inc. (MC–141776), authorizing the transportation of (1) food and related products, and (2) metal articles, from, to and between points in 27 States and the District of Columbia. By the Commission, Division 2, Commissioners Gradison, Taylor, and Sterrett. Commissioner Sterrett concurred except for the fourth ordering paragraph.

BILLING CODE 7035–01–M

Motor Carriers; Decision Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U..S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1181.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subjects to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

Agatha L. Mergenovich,

Secretary

Please direct status inquries to Team 1, (202) 275–7992.

Volume No. OP1–FC–149

By the Commission, Review Board No. 2, Members Carleton, Williams, and Ewing.

MC–FC–81381. BILLING CODE 7035-01-M

[Ex Parte No. MC-43]

Motor Carriers; Lease and Interchange of vehicles

Decided: April 21, 1983.

Bulkmatic Transport Company (No. MC-128205), and C. S. Transport, Inc., (No. MC-156484) and Precision Bulk transport, Inc. and Frigo Freight, Inc., (both not authorized) petition for waiver of subpart B (Section 1057.11 and 1057.12) except paragraphs (b) and (c) of section 1057.11, of the *Lease and Interchange of Vehicle Regulations* (49 CFR Part 1057), with respect to equipment augmented between them.

We find:

The petitioners are commonly controlled as authorized in No. MC-F-14678, and operate a consolidated, unified safety program.

Granting this petition only with respect to equipment augmented between petitioners will permit more efficient and economic operations. also, granting this waiver has no affect on the application of the leasing regualtions concerning a lease between an owner-operator and an authorized carrier.

No public policy consideration or objective overrides petitioners' purpose of reducing energy consumption and other costs. Denying the petition offers no protection to the public, but would prevent pettitoners' purpose of providing more efficeint and economical operations, as well as other cost savings.

It is ordered.

The petition of Bulkmatic Transport company (No. MC-128205), C. S. Transport, Inc., (No. MC-156484), Precision Bulk Transport, Inc., (not authorized) and Frigo Freight, Inc., (not authorized) for waive of Subpart B of the leasing regulations except paragraphs (b) and (c) of Section 1057.11 is granted, provided petitioners or their authorized representatives agree in writing that the leassee shall have control and responsibility for the operation of the equipment from the time possession is taken by the lessee and the receipt required under Paragaph (b) of Section 1057.11 is received by the lessee or the equipment is returned to the lessor or given to another authorized carrier in an interchange of equipment. A copy of the agreement must be carried in the equipment while it is in the possession of the lessee.

The waiver granted in this decision does not affect the application of the leasing regulations to a lease between and owner-operator and the lessor carrier.

By the Motor Carrier Leasing Board, Board Members J. Warren McFarland, Bernard Gaillard, and John H. O'Brien.

Agatha L. Mergenovich,

Secretary.

[Finance Docket No. 30157]

Rail Carriers; Baltimore & Ohio Railroad Co.—Operation—Over Curtis Bay Railroad Co.—Exemption

April 22, 1983.

The Baltimore and Ohio Railroad Company (B&O) and its wholly owned subsidiary, the Curtis Bay Railroad Company (Curtis Bay), have notified the Commission that B&O intends to operate the properties of Curtis Bay consisting of a 0.15 mile line of railroad in Baltimore, MD. Curtis Bay, a terminal switching carrier, now conducts its own operations, handling cars in interchange with B&O. Under the proposal, B&O will operate the properties of Curtis Bay in the name and for the account of B&O, will directly serve Curtis Bay's patrons, and will provide them with service similar to that presently furnished by Curtis Bay.

This transaction is within a corporate family and comes within that class of transactions described in 49 CFR 1180.2(d)(3) which has been exempted from Commission regulation. Operation of this line by B&O will not result in changes in service levels, significant operational practices, or the competitive balance with carriers outside the corporate family.

As a condition to the use of the exemption, any B&O or Curtis Bay employees affected by the transaction shall be protected pursuant to *New York Dock Ry.—Control-Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979). This will satisfy the statutory requirement of 49 U.S.C. 10505(g)(2).

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

[Ex Parte No. MC–43]

Lease and Interchange of Vehicles by Motor Carriers

Decided: April 21, 1983.

Container Express Inc. (No. MC–152180), and A & G Express Inc. (Certificate and Permit Nos. MC–151622), petition for waiver of Subpart B (§§ 1057.11 and 1057.12) of the *Lease and Interchange of Vehicles Regulations* (49 CFR Part 1057), with respect to equipment augmented between them.

We Find:

The petitioners are commonly controlled as authorized in No. MC–F–14852, and operate a consolidated, unified safety program.

Granting this petition only with respect to equipment augmented between petitioners will permit more efficient and economic operations. Also, granting this waiver has no affect on the application of the leasing regulations concerning a lease between an owner-operator and an authorized carrier.

No public policy consideration or objective overrides petitioners' purpose of reducing energy consumption and other costs. Denying the petition offers no protection to the public, but would prevent petitioners' purpose of providing more efficient and economical operations, as well as other cost savings.

It is ordered:

The petition of Container Express Inc. (No. MC–152180) and A & G Express Inc. (Certificate and Permit Nos. MC–146891) for waiver of Subpart B of the leasing regulations is granted, but only with respect to equipment augmented between petitioners.

By the Motor Carrier Leasing Board, Board Members J. Warren McFarland, Bernard Gaillard, and John H. O'Brien.

[Ex Parte No. 387]

Exemptions for Contract Tariffs; Norfolk and Western Railway Co.

AGENCY: Interstate Commerce Commission.

ACTION: Notices of provisional exemptions.

SUMMARY: Provisional exemptions are granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the below-listed contract tariffs may become effective on one day's notice. These exemptions may be revoked if protests are filed.

DATES: Protests are due within 15 days of publication in the **Federal Register**.

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Douglas Galloway (202) 275–7278.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in thses instances to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption requests meet the requirements of 49 U.S.C. 10505(a) and are granted subject to the following conditions:

These grants neither shall be construed to mean that the Commission has approved the contracts for purposes of 49 U.S.C. 10713(e) not that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review these contracts and to determine their lawfulness.

Sub-No	Name of railroad, contract No., and specifics	Review Board[1]	Decided date

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–19702]

Advisory Committee on Tender Offers; Meeting

AGENCY: Securities and Exchange Commission.

ACTION: Notice of meeting of the Securities and Exchange Commission Advisory Committee on Tender Offers.

SUMMARY: This is to give notice that the Securities and Exchange Commission Advisory Committee on Tender Offers will conduct a meeting on May 13, 1983 in the Board of the New York Stock Exchange, 6th floor, 11 Wall Street, New York, New York, beginning at 10:00 a.m. This meeting will be open to the public.

FOR FURTHER INFORMATION CONTACT: David Martin, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549, (202–272–2573).

SUPPLEMENTARY INFORMATION: In accordance with section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. 1, 10(a), the Securities and Exchange Advisory Committee on Tender Offers[1] gives notice that it will conduct a meeting on May 13, 1983 in the Board Room of the New York Stock Exchange, 6th Floor, 11 Wall Street, New York, New York, beginning at 10:00 a.m. The meeting, which will be open to the public, will be the third meeting of the Advisory Committee. Its purpose and agenda will be to consider the issues set forth below and to receive reports from various working groups on such issues. The Committee also will be addressed by John M. Hignett, Director-General of London's Panel on Take-Overs and Mergers. Subsequent meetings are scheduled for June 10 and July 8, 1983 in Room 1C30 at the Commission's main offices, 450 Fifth Street, NW.,Washington, D.C.

Issues To Be Addressed

I. *Basic Objectives.* Who should be protected under federal securities laws in tender offer transactions and other acquisitions of corporate control? What should be the objectives of regulation that achieves such protection? What premises should govern the balancing of these objectives?

II. *Economies of Tender Offers.* What economic factors affect the number, size and other characteristics of tender offers? What are the anticipated economic effects on the number, size and other characteristics of tender offers of changing the current regulatory scheme? What are the economic implications of tender offers and other acquisition techniques on the economy in general and specifically with respect to bidders, subject companies, investors and the securities markets?

III. *Regulation of Acquistion of Corporate Control.* What should be the primary purposes of the federal securities laws with respect to acquistions of corporate control? What changes are needed in the current regulatory scheme? Should timing and

[1] The Advisory Committee was established on February 25, 1983. *See* Release No. 34–19528 (48 FR 9111)

informational requirements continue to be the primary objectives? To what extent should equality of treatment and substantive fairness be regulatory objectives?

IV. *Regulation of Opposition to Acquisitions of Corporate Control.* Should the "business judgment" rule continue to be the principal substantive standard governing opposition to acquisitions of corporate control? Should there be substantive regulation of opposition in general or specifically with respect to particular defensive practices such as "scorched earth" polices, "golden parachute" provisions, sales of "crown jewels", "shark repellent" provisions, and issuer repurchases of securities at a premium?

V. *Regulation of Market Participants.* Is there a need for substantive regulation of market participants in connection with acquisitions of corporate control, particularly with respect to short, hedge, or multiple tendering? If so, what regulation is appropriate?

VI. *Interrelationships with Other Regulatory Schemes.* What is the proper relationship between federal and state securities and corporate laws with respect to acquisitions of corporate control? To the extent the federal securities laws governing acquisitions of corporate control interrelate with other federal and state regulatory schemes, such as laws applicable to tax, banking, antitrust, employee benefit plans or regulated industries, is there a need for substantive or procedureal coordination?

Dated: April 25, 1983.

George A. Fitzsimmons,

Advisory Committee Management Officer.

SMALL BUSINESS ADMINISTRATION

[License No. 09/09-0319]

CFB Venture Capital Corp.; Application for a License To Operate as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 611 *et seq.*) has been filed by CFB Venture Capital Corporation, 350 California Street, Mezzanine, San Francisco, California 94104–1476 with the Small Business Administration (SBA), pursuant to 13 CFR 107.102 (1983).

The officers, directors and stockholders of the applicant are as follows:

Yoshiaki Shibusawa, 14975 Corona del Mor, Pacific Palisades, CA 90272, President and Director

Yoji Anzia, 2707 San Clemente Terrence, San Diego, CA 92122, Vice President

Pieter Westerbeek III, 1608 Columbia Street, Chula Vista, CA 92010, Chief Financial Officer

Donald R. Meyer, 1115 Keith Avenue, Berkeley, CA 94708, Secretary

Ikkan Kitazawa, 261 San Ferrango May, San Francisco, CA 94127, Director

Shiro Wokabayashi, 835 Masswood Lane, Millbrae, CA 94030, Director

Armistead B. Smith, Jr., 5484 Caminito San Lucas, La Jolla, CA 92037, Director

Ronald H. Kendrick, 156 Lambard Street, No 12, San Francisco, CA 94111, Director

California First Bank, 350 California Street, San Francisco, CA 94104–1476, 100% Stockholder

The applicant, a California corporation, with its principal place of business at 350 California Street-Mezzanine, San Francisco, California 94104–1476 will begin operations with $1,000,000 paid-in capital and paid-in surplus.

The applicant will conduct its activities principally in the State of California.

Matters involved in SBA's consideration of the application include the general business reputation and character of proposed managers, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Notice is hereby given that any person may, not later than 15 days from the date of publication of this Notice, submit written comments to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street, NW., Washington, D.C. 20416.

A copy of this notice will be published in a newspaper of general circulation in San Francisco, California.

BILLING CODE 8025-01-M

[License No. 06/06-0188]

Mercantile Dallas Corp.; Application for Approval of Conflict of Interest Transaction Between Associates

Notice is hereby given that Mercantile Dallas Corporation, 1704 Main Street, Texas 75222, a Federal Licensee under the Small Business Investment Act of 1958, as amended (Act), (15 U.S.C. 661 *et seq.*), has filed an application with the Small Business Administration pursuant to section 312 of the Act and covered by § 107.1004(b)(1) of the Regulations governing small business investment companies (13 CFR 107.1004 (1983)), for approval of a conflict of interest transaction falling within the scope of the above Sections of the Act and Regulations.

The Licensee proposes to purchase $500,000 in non-convertible, non-voting preferred stock from Home Metal Product (HMP), 730 Central Expressway, Plano, Texas 75074. The proceeds from the purchase of the preferred stock will be used to pay down the outstanding balance of debt to Mercantile Texas Credit Corporation (MTCC) in the name of Bel-Air Corporation, parent of HMP. MTCC is defined as an Associate of the Licensee under Section 107.3 of the SBA Regulations, because MTCC is a subsidiary of Mercantile Dallas Corporation, a 10 or more percent stockholder of the Licensee. The Licensee's proposed investment in HMP falls within the purview of § 107.1004 of the Regulations and requires SBA approval.

Notice is hereby given that any interested party may, not later than 15 days from the date of publication of this Notice, submit written comments to the Associate Administrator for Finance & Investment, Small Business Administration, 1441 "L" Street, NW., Washington, D.C. 20416.

A copy of this notice will be published in a newspaper of general circulation in Dallas, Texas and Plano, Texas area.

[License No. 04/04-5214]

Progressive Funding, Inc.; Issuance of License To Operate as a Small Business Investment Company

On November 23, 1982, a notice was published in the **Federal Register** (47 FR 52841), stating that an application had been filed by Progressive Funding, Inc., 920 S. Ocean Blvd., Palm Beach, Florida 33480, with the Small Business Administration (SBA) for a license to operate as a small business investment company (SBIC), pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1982)).

Interested parties were given until the close of business December 8, 1982, to submit their written comments to SBA. No comments were received.

Notice is hereby given that, pursuant to Section 301(d) of the Small Business Investment Act of 1958, as amended, and after having considered the application and all other information, SBA issued License No. 04/04–5214, April 1, 1983, to Progressive Funding, Inc. to operate as an SBIC.

DEPARTMENT OF STATE

[CM-8/623]

Integrated Services Digital Network (SDN) Technical Working Party of the U.S. Organization for the International Telegraph & Telephone Consultative Committee (CCITT); Meeting

The Department of State announces that the ISDN Technical Working Party of the U.S. Organization for the International Telegraph & Telephone Consultative Committee (CCITT) will meet on three consecutive days beginning May 10 at 10:00 a.m. in Room 1406, May 11, at 9:00 a.m. in Room 1406 and May 12 at 9:00 a.m. in Room 1406 of the Department of State, 2201 C Street, NW., Washington, D.C. This Working Party deals with the evolution of ISDN.

The agenda for the meeting is as follows:

1. To review proposed contributions for the June 1983 Study Group XVIII meeting;

2. To prepare draft contributions and or positions for the Study Group XVIII meeting resulting from:

a. ISDN Working Party Meeting of April 27;

b. Foreign Contributions to Study Group XVIII;

c. Results of XII/6 Working Party meeting.

The results of this Technical Working Group meeting will be submitted to the U.S. CCITT ISDN Working Party meeting planned for June 2, 1983.

Members of the general public may attend the meeting and join in the discussion subject to the instructions of the Chairman. Admittance of public members will be limited to the seating available. In that regard entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is suggested that prior to May 10 members of the general public who plan to attend the meeting so advise Mr. Dexter Anderson, Office of International Communications Policy, Department of State, Washington, D.C. 20520, telephone (202) 632–6583. All attendees must use the C Street entrance to the building. Entry will be facilitated 15 minutes before and after the meeting begins.

Dated: April 15, 1983.

Earl S. Barbely,

Chairman, U.S. CCITT National Committee.

[Public Notice, CM-8/624]

Study Group 2 of the U.S. Organization for the International Radio Consultative Committee (CCIR); Meeting

The Department of State announces that Study Group 2 of the U.S. Organization for the International Radio Consultation Committee (CCIR) will meet on May 13, 1983 in Room 521J of the National Aeronautics and Space Administration, 600 Independence Avenue, SW., Washington, D.C. 20546. The meeting will begin at 9:30 a.m.

Study Group 2 deals with matters relating to the communications for scientific satellites, space probes, spacecraft, exploration satellites (e.g., meteorological and geodetic) and to interference problems concerning the radio astronomy and radar astronomy services. The purpose of the meeting is to discuss the upcoming cycle of the CCIR and preparations for the international meeting of Study Group 2 in November–December, 1983.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman.

Requests for further information should be directed to Mr. Richard E. Shrum, State Department, Washington, D.C. 20520, telephone (202) 632–2592.

Dated: April 14, 1983.

BILLING CODE 4710-24-M

TENNESSEE VALLEY AUTHORITY

Revisions to Procedures Implementing the National Environmental Policy Act (NEPA) and Executive Order Nos. 11988 (Floodplain Management) and 11990 (Protection of Wetlands)

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Notice.

SUMMARY: TVA has adopted amendments to its internal procedures for compliance with the National Environmental Policy Act originally published at 45 FR 54511–15 (1980) and its "Floodplain Management and Protection of Wetlands" procedures originally published at 44 FR 45513–17 (1979). Revisions of these procedures incorporate, among other things, special review requirements relating to floodplain management and protection of wetlands. TVA's separate procedures for floodplain management and protection of wetlands are eliminated except for a modified form of TVA's policy of floodplain management and protection of wetlands.

FOR FURTHER INFORMATION CONTACT: Mohamed T. El-Ashry, Tennessee Valley Authority, TVA Mailroom, Knoxville Tennessee 37902; (615) 632–2007 or FTS 856–2007.

SUPPLEMENTARY INFORMATION: TVA published the proposed amendments for comment on December 3, 1982, at 47 FR 54586–93, and the comment period closed on January 3, 1983. The amendments as proposed have been adopted with one minor change noted herein, and the December 3 notice is hereby integrated.

During the comment period only one comment was received. The Soil Conservation Service (SCS) recommended that for important farmland TVA utilize the special evaluation process TVA has established for floodplains and wetlands in section 5.7 of the procedures. SCS correctly notes that in addition to wetlands, floodplains, and other identified resources, "important farmland" is listed as an environmentally significant resource requiring special consideration in section 5.2 of the procedures. Under section 5.2, an action which could have a potentially significant impact on important farmland is precluded from being categorically excluded, thereby requiring prepartion of an environmental assessment or environmental impact statement.

TVA has decided against adopting SCS's suggestion at this time. If experience with important farmland impact evaluation shows that TVA's overall environmental impact evaluations process would be made more effective by incorporating a specialized farmland-impact evaluation process into its NEPA procedures, an appropriate revision will be made. In the interim, potential impacts on important farmland will continue to be evaluated in the context of TVA's general NEPA review process.

TVA's procedures, as amended, were reviewed and concurred in by the Council on Environmental Quality (CEQ) on February 17, 1983. CEQ suggested that a reference to 40 CFR 1502.19(d) be inserted in section 5.4.11 of the revised procedures after the reference to 40 CFR 1502.12. TVA agrees with this suggestion and section 5.4.11 has been amended accordingly.

TVA's policy on floodplain management and protection of wetlands, as published in the December 3 **Federal Register** notice, has been adopted with three minor changes. The first part of the last sentence of the third paragraph of the policy is revised as follows: In its own activities, TVA applies this commitment to its own facilities and to broad agency program reviews, as well as * * *.

The second sentence of the fifth paragraph is revised by inserting "and acquisition" after "construction."

Finally, the first sentence of the last paragraph before the Reservations subsection is revised by inserting "and if their continued use in such location is deemed necessary and of low risks," before "TVA will."

Frank R. Holland,

Assistant General Manager, Tennessee Valley Authority.

[FR Doc. 83-11186 Filed 4-27-83; 8:45 am]

BILLING CODE 8120-01-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement; Henderson and Buncombe Counties, North Carolina

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Henderson and Buncombe Cos., North Carolina.

FOR FURTHER INFORMATION CONTACT: Gary D. Holly, Environmental Engineer, Federal Highway Administration, 310 New Bern Avenue, P.O. Box 26806, Raleigh, North Carolina 27611, Telephone (919) 755–4270.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the North Carolina Department of Transportation (NCDOT), will prepare an environmental impact statement (EIS) on a proposed multi-lane highway, partially on new location, for NC 280 from the intersection of NC 191 and NC 280 at Mills River to Interstate 26 near the Asheville Airport. The improvement of NC 280 is needed to better serve the increasing traffic demands between NC 280 and Interstate 26 and the Asheville Airport. The proposed improvement will include a new structure over the French Broad River. It will also help relieve the congestion, delay and inconvenience created by the existing circuitous and inadequate routes which presently provide access to Interstate 26 from the west.

Alternatives under consideration include: (1) The "no-build", and (2) two alternate locations for the proposed NC 280 improvement.

Letters describing the proposed action and soliciting comments are being sent to appropriate Federal, State and local agencies. A public meeting is scheduled for May 19, 1983 at the Mills River School located on School House Road (Secondary Road 1426) just south of Mills River. The meeting is scheduled from 3 p.m. to 8 p.m. Information received from the public meeting will be included in the Draft EIS. The draft EIS will be available for public and agency review and comment at the time of the Corridor Public Hearing which has not been scheduled. No formal scoping meeting is planned at this time.

To ensure that the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action should be directed to the FHWA at the address provided above.

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning, and Construction. The provisions of OMB Circular No. A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program.

Issued: April 19, 1983

Roger D. Lewis,

Assistant Division Administrator, Raleigh, North Carolina.

BILLING CODE 4910-22-M

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[8 3-18]

Extension of Comment Period on Multistate Charter Applications

AGENCY: Comptroller of the Currency, Treasury.

NOTICE: On March 3, 1983, the Office of the Comptroller of the Currency accepted for filing applications to charter 31 national banks in 25 states. The applications were all filed by Dimension Financial Corporation, a Delaware corporation recently organized for the purpose of establishing, owning and operating the proposed banks. The banks may be affiliated with Valley Federal Savings and Loan Association, an existing savings and loan association in Hutchinson, Kansas. The applications propose that the banks provide consumer loans, trust services, and consumer and commercial deposit services, including demand deposits; they would not offer commercial loans.

The proposed banks would be located in the following cities:

1. Phoenix, Ariz.
2. Northbrook, Ill.
3. Tulsa, Ok.
4. San Mateo, Cal.
5. Louisville, Ky.
6. Portland, Or.
7. Englewood, Col.
8. New Orleans, La.
9. Bryn Mawr, Pa.
10. Stamford, Conn.
11. Bethesda, Md.
12. Newport, R.I.
13. Wilmington, Del.
14. Newton, Mass.
15. Nashville, Tenn.
16. Boca Raton, Fla.
17. Edina, Minn.
18. Austin, Tx.
19. Ft. Myers, Fla.
20. Kansas City, Mo.
21. Dallas, Tx.
22. Sarasota, Fla.
23. Las Vegas, Nev.
24. Houston, Tx.
25. Winter Park, Fla.
26. Norristown, N.J.
27. San Antonio, Tx.
28. Atlanta, Ga.
29. White Plains, N.Y.
30. McLean, Va.
31. Bellevue, Wash.

Shortly after the applications were accepted for filing on March 3, 1983, published notice of the filing of each of the applications was commenced in local newspapers as required by 12 CFR 5.8. Under this Office's regulations, interested parties would generally have 21 days after the last publication required by §5.8 to submit written comments and data on an application to the Regional Administrator of the National Bank Region where the proposed bank would be located. *See* 12 CFR 5.10(a). However, the Office has determined to hold hearing proceedings on the applications by Dimension Financial Corporation. The date and location of the hearing or hearings have not been decided by the Office at this time. Due to the high degree of public interest in the applications, the Office has determined to extend until the last day of the hearing proceedings the period during which written comments will be accepted by its Regional Administrators.

Information regarding the office addresses and geographic composition of the National Bank Regions may be found at 12 CFR 4.1a.

Dated: April 22, 1983.

C. T. Conover,

Comptroller of the Currency.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, May 2, 1983, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors, pursuant to sections 552b(c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 52b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Note.—Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Application for consent to purchase assets and assume liabilities and for consent to establish one branch:

Peoples Bank and Trust Company, Waterloo, Iowa, an insured State nonmember bank, for consent to purchase the assets of and assume the liability to pay deposits made in La Porte City State Bank, La Porte City, Iowa, and to establish and sole office of La Porte City State Bank as a branch of Peoples Bank and Trust Company.

Application for consent to purchase assets and assume liabilities, establish eight branches and redesignate the main office:

Valley Bank and Trust Company, Mishawaka, Indiana, an insured State nonmember bank, for consent to purchase the assets of and to assume the liability to pay deposits made in American National Bank and Trust Company of South Bend South Bend, Indiana, to establish the eight offices of American National Bank and Trust Company of South Bend as branches of Valley Bank and Trust Company, and to redesignate the present main office of American National Bank and Trust Company of South Bend as the main office of the resultant bank.

Application pursuant to section 19 of the Federal Deposit Insurance Act for consent to service of a person convicted of an offense involving dishonesty or a breach of a trust as a director, officer, or employee of an insured bank:

Name of person and of bank authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8) and (c)(9)(A)(ii)).

Recommendation regarding the Corporation's investments.

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive

Secretary of the Corporation, at (202) 389–4425.

Dated: April 25, 1983.

5

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2 p.m. on Monday, May 2, 1983, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Memorandum and Resolution re: American City Bank & Trust Company, National Association, Milwaukee, Wisconsin

Memorandum and Resolution re: Proposed amendment to Part 337 of the Corporation's rules and regulations, entitled "Unsafe and Unsound Banking Practices," which would: (1) Eliminate the current requirement for prior approval by a majority of a bank's board of directors of all extensions of credit exceeding in the aggregate $25,000 that are made to one of the bank's directors, executive officers, principal shareholders, or any related interest of any such person; and (2) substitute a prior approval formula whereby extensions of credit in excess of five percent of capital and unimpaired surplus or $25,000, whichever is larger, must receive prior approval but in no event may any extension of credit exceeding in the aggregate $500,000 be made without prior approval of the bank's board of directors.

Reports of committees and officers:

Minutes of actions approved by the standing committees of the Corporation pursuant to authority delegated by the Board of Directors.

Reports of the Division of Bank Supervision with respect to applications or requests approved by the Director or Associate Director of the Division and the various Regional Directors pursuant to authority delegated by the Board of Directors.

Report of the Director, Office of Corporate Audits and Internal Investigations: Memorandum re: Status of Auditee Corrective Actions.

Discussion Agenda:

Memorandum and Resolution re: Proposed amendment to Part 337 of the Corporation's rules and regulations, entitled "Unsafe and Unsound Banking Practices," to add a new section which would, with reference to the FDIC's "Statement of Policy on the Applicability of the Glass-Steagall Act to Securities Activities of Subsidiaries of Insured Nonmember Banks" issued by the Board of Directors on August 23, 1982: (1) Define bona fide subsidiary; (2) limit a bank's permissible investment in a securities subsidiary; (3) require notice of intent to invest in such a subsidiary; (4) limit the permissible securities activities of nonmember bank subsidiaries; and (5) place certain other restrictions on loans, extensions of credit, and other transactions between nonmember banks and their subsidiaries or affiliates that engage in securities activities.

Memorandum and Resolution re: Uniform Interagency Community Reinvestment Act Assessment Rating System.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street NW., Washington, D.C.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: April 25, 1983.

Draft AO 1983–8: Jan W. Baran, on behalf of the National Republican Senatorial Committee

DATE AND TIME: Tuesday, May 3, 1983 at 10 a.m.

PLACE: 1325 K Street NW., Washington, D.C.

STATUS: This meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Compliance. Personnel. Litigation. Audits.

DATE AND TIME: Thursday, May 5, 1983 at 10 a.m.

PLACE: 1325 K Street NW., Washington, D.C. (fifth floor).

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED:

Setting of dates for future meetings
Correction and approval of minutes
Eligibility reports for candidates to receive Presidential primary matching payments
Personnel instructions
Finance Committee report
Routine Administrative matters

PERSON TO CONTACT FOR MORE INFORMATION: Mr. Fred Eiland, Information Officer, telephone: 202–523–4065.

Marjorie W. Emmons,

Secretary of the Commission.

[S–604–83 Filed 4–26–83; 3:48 pm]

11

UNITED STATES INTERNATIONAL TRADE COMMISSION

[USITC SE–20A]

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 48 FR 17692, April 21, 1983.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: Tuesday, May 3, 1983, 10 a.m.

CHANGES IN THE MEETING: Additional item added to the agenda as follows:

6. Investigations 104–TAA–14 and 15 (Bicycle Tires and Tubes from the Republic of Korea and Taiwan)—briefing (in closed session) and vote (open to the public).

Notice of change in time for the meeting.

By unanimous consent, the United States International Trade Commission voted, on April 25, 1983, to reschedule the time for the meeting of Tuesday, May 3, 1983, from 10 a.m., to 2:30 p.m. There are no other changes to the agenda.

CONTACT PERSON FOR MORE INFORMATION: Kenneth R. Mason, Secretary (202) 523–0161.

[S–597–83 Filed 4–26–83; 10:33 am]

BILLING CODE 7020–02–M

12

UNITED STATES PAROLE COMMISSION

United States Parole Commission, National Commissioners (the Commissioners presently maintaining offices at Chevy Chase, Maryland Headquarters).

TIME AND DATE: 2 p.m., Monday, April 25, 1983.

PLACE: Room 420–F, One North Park Building, 5550 Friendship Boulevard, Chevy Chase, Maryland 20815.

STATUS: Closed pursuant to a vote to be taken at the beginning of the meeting. Agency business requires this meeting to be held at the above date and time without the opportunity to give one week's notice prior to the meeting. Public announcement shall be made at the earliest practicable time.

MATTERS TO BE CONSIDERED: Referrals from Regional Commissioners of approximately one case in which an inmate of a Federal prison has applied for parole.

CONTACT PERSON FOR MORE INFORMATION: Linda Wines Marble, Chief Case Analyst, National Appeals Board, United States Parole Commission (301) 492–5987.

[S–601–83 Filed 4–26–83; 1:53 pm]

BILLING CODE 4410–01–M

13

UNITED STATES PAROLE COMMISSION

TIME AND DATE: 9 a.m.–5:30 p.m., Friday, April 22, 1983.

PLACE: Room 420–F, One North Park Building, 5550 Friendship Boulevard, Chevy Chase, Maryland 20815.

STATUS: Open.

CHANGES IN THE MEETING: On April 22, 1983, by recorded vote, a majority of the U.S. Parole Commissioners determined that the above meeting should go into closed session from 9:30 a.m. to 10 a.m. and from 4:15 p.m. to 4:30 p.m. on April 22, 1983 for the purpose of the discussion and determination of one original jurisdiction appeal continued from the closed meeting of April 21, 1983.

Said majority of the U.S. Parole Commissioners also determined that urgent agency business required the change in the status of the meeting and that no earlier announcement of the change was possible.

Public announcement of this change and the vote of each Commissioner upon such change is being made at the earliest practicable time.

CONTACT PERSON FOR MORE INFORMATION: Peter B. Hoffman, Director of Research, United States Parole Commission (301) 492–5980.

OFFICE OF THE FEDERAL REGISTER

Proposed Termination of the Two-Day-a-Week Publication Program

AGENCY: Office of the Federal Register.

ACTION: Notice of proposed action and request for comments.

SUMMARY: The Office of the Federal Register (OFR) is proposing to terminate its formal program for publishing documents of certain agencies on a two-day-a-week schedule (Monday/Thursday or Tuesday/Friday). This action will reduce publication costs for participating agencies and will alleviate production problems associated with this program.

DATE: Comments must be submitted on or before June 27, 1983.

ADDRESS: Send comments to: Office of the Federal Register, National Archives and Records Service, Washington, DC 20408; Attention: Ms. Valery Pelzer.

FOR FURTHER INFORMATION CONTACT: Martha Girard, Telephone (202) 523-5240.

SUPPLEMENTARY INFORMATION: On February 6, 1976 (41 FR 5453), OFR announced an experimental program for publishing agency documents on a two-day-a-week schedule: Monday/Thursday or Tuesday/Friday. Agencies agreeing voluntarily to participate published in accordance with the new schedule. OFR expected that this schedule would benefit, primarily, **Federal Register** users interested in monitoring, and keeping, only the documents of a participating agency. The OFR also anticipated that a subscription system for certain days of the week might prove feasible. After receiving favorable comments on the program, OFR announced that it would continue the schedules on a voluntary participation basis (41 FR 32914, August 6, 1976). The program has been in effect since that time. A list of currently participating agencies appears at the back of this issue in the Reader Aids section.

The two-a-day-a-week publication schedule provided that a participating agency could request emergency publication of a document on a day other than one of its assigned days to accommodate special situations. In such cases, the requesting agency agreed to the republication of the document on the next assigned day. Subsequently, however, agency page rates were established and the agencies participating in the program incurred double publicaton costs, paid to the Government Printing Office, whenever agencies requested publication on a non-schedule day and then republished on the next assigned day.

The OFR, for its part, has encountered chronic production difficulties associated with the program. Production problems occur when agencies request expedited handling of documents to meet the assigned schedule. Additional editorial work is involved in publishing documents on a non-schedule day and republishing them on the next assigned day. Within available resources at OFR, it has become difficult to provide the special handling these documents require while maintaining normal publication operations.

OFR has weighed the benefits of the two-day-a-week publication program against the costs to participating agencies and the significant production and special handling problems involved. During the six and a half years this program has been in operation, agency participation has been modest. At no time has a substantial percentage of the agencies which regularly publish in the **Federal Register** taken advantage of the two-day-a-week schedule. Moreover, the OFR and the Government Printing Office have not been able to devise a selective subscription system that would be cost effective.

Therefore, OFR proposes to terminate the formal two-day-a-week publication program. OFR solicits comments from agencies and users affected by this proposal.

Until a final decision is made, OFR will modify the publication program to alleviate the extra expense to participating agencies. Instead of automatically republishing a document that was published on a non-schedule day, OFR will offer the agency the option of a note editorially inserted in the table of contents of the issue published on the agency's next assigned day. The note would refer readers to the date of actual publication. OFR does not view this option as a permanent solution, however, since it continues to require additional consultation with agencies and editorial workload.

Dated: April 22, 1983.

John E. Byrne,

Director of the Federal Register

Department of Agriculture

Office of the Secretary

Small Business Innovation Research Program for Fiscal Year 1983; Solicitation of Applications

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Small Business Innovation Research Program for Fiscal Year 1983; Solicitation of Applications

Notice is hereby given that under the authority of the Small business Innovation Development Act of 1982 (Pub. L. 97-219) and section 1472 of the National Agricultural Research, Extension and Teaching Policy Act of 1977, as amended (7 U.S.C. 3318), the U.S. Department of Agriculture (USDA) will award project grants for certain areas of research to science-based small business firms through its Small Business Innovation Research (SBIR) Program. Firms with strong research capabilities in the research topic areas listed below are encouraged to participate. Objectives of the three-phased program include stimulating technological innovation in the private sector, increasing the commercial application of USDA-supported research results, and improving the return on investment from Federally-funded research for its economic and social benefits to the Nation.

The total amount available for this program during fiscal year 1983 is approximately $555,376. This solicitation is being announced to allow adequate time for potential recipients to prepare and submit applications. (See Section IV, "Proposal Preparation Instructions and Requirements," and Section VII, "Submission of Proposals.") The research to be supported is in the following topic areas:

1. Forest and Related Resources.
2. Plant Production and Protection.
3. Animal Production and Protection.
4. Air, Water, and Soils.
5. Food and Human Nutrition.
6. Rural and Community Development.

The award of any grants under the provisions of this Notice is subject to the availability of appropriations.

The Guide to Proposal Preparation for these competitive grants consists of six sections:

I Program Description
II Definitions
III Research Topics
IV Proposal Preparation Instructions and Requirements
V Method of Selection and Evaluation Criteria
VI Considerations
VII Submission of Proposals

The grants awarded will be administered in accordance with the USDA Uniform Federal Assistance Regulations (7 CFR Part 3015) and applicable OMB Circulars.

Information collection requirements contained in this document have been approved by OMB Document No. 0531-0009.

Because of the time constraints involved in implementing this program, it has been determined that compliance with the Notice and public procedure provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Further, this action has been reviewed under Executive Order 12291 and it has been determined that this is not a major rule. Although this Notice establishes the procedures and criteria under which the recipients of Small Business Innovation Research grants in fiscal year 1983 will be selected, and the terms and conditions under which such grants will be administered, it does not involve a substantial or major impact on the Nation's economy or large numbers of individuals or businesses. There will be no major increase in cost or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.

Done at Washington, D.C., this April 21, 1983.

Orville G. Bentley,

Assistant Secretary for Science and Education.

Guide to Proposal Preparation

I. Program Description

Awards under USDA's Small Business Innovation Research Program will be carried out through a three-phase process, the first two designed to assist USDA in meeting its Research and Development (R&D) objectives, and the third to facilitate the pursuit of commercial applications or objectives of research funded in Phases I and II. Federal funding will support research on USDA objectives (Phases I and II), while private capital will be relied upon for follow-on developmental funding to meet commercial objectives (Phase III). A description of each phase is included below. *Proposals solicited under this Notice are for Phase I only.* The date for submission of proposals may be found in Section VII, "Submission of Proposals."

Phase I—Feasibility Research

Phase I is to conduct a feasibility related experimental or theoretical research effort on the proposed innovative idea or approach. The proposal should concentrate on those aspects of the research that will significantly contribute to proving the technical feasibility of the concept or approach proposed and which would be prerequisite for further research and USDA support in Phase II.

Phase I also is designed to reduce the investment of time and cost to small firms in preparing a formal proposal under this solicitation as compared to other USDA formal proposals. *The Phase I proposal is limited to 20 pages, including the cover page, budget, and any attachments.* Awards will be made by USDA based upon evaluation of Phase I proposals. *Successful proposers will have six (6) months to carry out their proposed Phase I effort.* Phase I results are to be submitted to USDA in a final report.

Phase II—Principal Research Effort

Phase II is the principal research effort. Funding will be based upon the results of Phase I and the scientific and technical merit of the Phase II proposal. *Only those receiving Phase I awards will be eligible to submit Phase II proposals.* A more comprehensive proposal will be required for Phase II to be prepared in accordance with instructions which will be provided to all Phase I grantees.

Phase III—Development

Phase III, to be conducted by the small business firm (including joint ventures or R&D partnerships,) will be privately funded from a third party source through the exercising of the follow-on funding commitment. Phase III is to pursue commercial objectives from the USDA-supported research carried out in Phases I and II.

Converting Research to Technological Innovation and Commercial Applications

In addition to the funding of scientific mission-oriented research, a second important goal of the SBIR Program is the conversion of USDA-supported research into technological innovation by private firms. Therefore, on an

optional basis, the solicitation includes an incentive for proposers to obtain a contingent commitment for private follow-on funding prior to Phase II to continue the innovation process where it is felt that the research also has commercial potential.

Proposers who feel that their research has the potential to meet market needs, in addition to meeting the research objectives of the solicitations, are encouraged to obtain private venture capital or other follow-on funding to pursue the development phase (Phase III). The commitment for the follow-on funding must be from a third party, be obtained only after receiving a Phase I award but prior to Phase II. This commitment may be contingent on the USDA-supported research meeting a few measurable technical objectives in Phase II. If the conditions are met, private investment would then be justified to pursue further development for commercial purposes in Phase III.

Phase II proposals that provide a commitment for Phase III follow-on funding will receive extra consideration as a point-of-merit in the Phase II evaluation process. The maximum value will be given when a signed contingent agreement is obtained for follow-on funding equal to or in excess of the request for Federal support in Phase II.

Eligibility and Limitations

Each organization submitting a proposal must qualify as a small business for research purposes as defined in Section II, "Definitions," and the primary employment of the principal investigator must be with the small business firm at the time of the award and during the conduct of the research. Primary employment means that more than one-half of the principal investigator's time is spent with the small business. In addition, a minimum of two-thirds of each project must be carried out in the proposing firm unless otherwise approved in writing by USDA's Authorized Departmental Officer.

A proposal must be limited to one topic (program) area listed in this solicitation. When a proposal has relevance to more than one topic, the proposer must decide which topic is the most relevant and submit separate proposals on different topics or different proposals on the same topic under this solicitation.

This solicitation does not obligate USDA to make any specific number of awards under either Phase I or Phase II.

Contact

Contact with USDA relative to this solicitation during the Phase I proposal preparation period is restricted for reasons of competitive fairness. However, general questions relating to programmatic aspects of the program may be addressed to the individual listed below:

Anne Holiday Schauer, SBIR Program, Office of Grants and Program Systems, 103 Rosslyn Commonwealth Building, 1300 Wilson Boulevard, Arlington, Virginia 22209, Telephone: (703) 235–2630.

Questions pertaining to administrative aspects of the program or requests for additional copies of the announcement and/or pertinent forms may be addressed to: Grants Administrative Management, Office of Grants and Program Systems, 103 Rosslyn Commonwealth Building, 1300 Wilson Boulevard, Arlington, Virginia 22209, Telephone: (703) 235–2638.

II. Definitions

The following definitions apply for purposes of this solicitation: A. Research or Research and Development (R&D). Any activity which is:

1. A systematic, intensive study directed toward greater knowledge or understanding of the subject studied.

2. A systematic study directed specifically toward applying new knowledge to meet a recognized need.

3. A systematic application of knowledge toward the production of useful materials, devices, and systems or methods, including design, development, and improvement of prototypes and new processes to meet specific requirements.

B. *Small Business.* A business concern which at the time of award is:

1. Organized for profit, independently owned or operated, not dominant in the field in which it is bidding, and having an average of not more than 500 employees (full-time, part-time, temporary, or other) during the previous 12-month period in all affiliated firms owned or controlled by a single parent firm (from Code of Federal Regulations, Title 13, Part 121, as amended). Awards to joint ventures or limited partnerships are permitted provided that the proposing entity qualifies as a small business in accordance with the Small Business Act, 15 U.S.C. 631 and the above definition.

2. The primary source of employment of the principal investigator at the time of the award and during the conduct of the proposed research.

C. *Minority and Disadvantaged Business.* A qualified small business firm that is:

1. At least 51 percent owned by one or more minority and disadvantaged individuals; or in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more minority and disadvantaged individuals; and

2. Whose management and daily business operations are controlled by one or more of such individuals.

A minority and disadvantaged individual is defined as a member of any of the following groups:

(a) Black Americans
(b) Hispanic Americans
(c) Native Americans
(d) Asian-Pacific Americans
(e) Asian-Indian Americans

III. Research Topics

The specific areas of inquiry in which projects will be funded are listed below:

1. *Forest and Related Resources:* Proposals are solicited for field and laboratory studies focusing on the development of cost effective tissue-culture methods for both hardwood and/or conifer species.

2. *Plant Production and Protection:* Research proposals are solicited to find ways to increase crop productivity so that effective and efficient food production and agricultural systems can be developed and strengthened.

3. *Animal Production and Protection:* Research proposals and solicited to find ways to enable producers to increase production and to assure a reliable and safe supply of animal protein while conserving resources and reducing production costs.

4. *Air, Water, and Soils:* Research proposals are solicited to develop technology for using and conserving soil, water, and air resources while sustaining optimum agricultural productivity.

5. *Food and Human Nutrition:* Research proposals are solicited in the area of food quality and safety and in those areas that address the reduction of post-harvest loss. In addition, research proposals are solicited that deal with the assessment of the adequacy of nutrient intake.

6. *Rural and Community Development:* Research proposals are solicited to find ways to develop business opportunities in rural areas and to look for innovative ways to manage small rural business.

IV. Proposal Preparation Instructions and Requirements

The purpose of the research proposal is to provide a written statement that contains sufficient information to persuade USDA, as well as members of the research community who review the proposal, that the proposed research is a

sound approach to an important scientific question and is worthy of support under the stated evaluation criteria. (See Section V, "Method of Selection and Evaluation Criteria.") The proposal should be self-contained and written with the care and thoroughness accorded papers for publication. Each proposal should be reviewed carefully by the applicant and by other knowledgeable in the subject to ensure inclusion of data essential for a comprehensive evaluation. The proposed research must be responsive to the USDA program interests stated in the topic descriptions. However, the same research often can be the basis for technological innovation, new commercial products, processes, or services which benefit the public. This is a desirable economic objective, and such proposals are encouraged.

Instructions and information to be used in preparing proposals for research grants in the areas described earlier are included below. Required forms are included in appendices A through F of this announcement.

A. *Limitation on Length of Proposal.* Proposals must not exceed a total of 20 pages (regular size type—no smaller than elite—single or double spaced, standard 8½" x 11" pages, typed or printed on one side only), including cover page, budget and all enclosures or attachments. No attachments or additional information will be allowed in the interest of equitable treatment for all. *Please note that proposals exceeding the 20-page limitation may not be considered for review or award.*

B. *Proposal Cover Sheet.*

1. *Grant Application.* Proposers should use the Grant Application (Form S&E–661) as the cover sheet for the proposal (see Appendix A). A Grant Application with all relevant original signatures must be included with the proposal. All other copies of the proposal should also contain a Grant Application but facsimile or photocopied signatures will be accepted. The attachment to the Grant Application, entitled, "Certifications," must also be completed and submitted with the proposal. All proposals must be signed by an authorized official.

2. *Title of Proposal.* The title (80 characters maximum) should be a brief, clear, specific designation of the subject of the research. It will be used for information to Congress, and for press releases. Therefore, it should not contain highly technical words. Phrases such as "investigation of" or "research on" should not be used.

3. *Program Area.* The applicable specific area of inquiry (program area) should be indicated in Block 8 of the Grant Application (Form S&E–661—see Appendix A).

C. *Abstract or Summary:* Proposals should include a one-page project summary of the proposed research or R&D which contains the following information:

1. Name and address of firm.
2. Name and title of principal investigator or project manager.
3. Title of project.
4. Technical abstract, limited to two hundred words.
5. Summary of the anticipated results and implications of the approach and the potential commercial applications of the research.

D. *Technical Content.* All items listed below must be covered fully and included in the order shown although space allocated to each will depend on the problem involved and the principal investigator's approach. Do not emphasize the commercial applications in the research proposal except to discuss them briefly under items 1, 2, and 10.

A. *Identification and Significance of the Problem or Opportunity.* Make a clear statement of the specific technical problem or opportunity addressed and its importance.

2. *Background, Technical Approach and Anticipated Benefits (Phases I and II).*

a. Indicate the overall background and technical approach to the problem of opportunity and the part that the proposed research plays in providing needed results.

b. State the results of the approach if the research is successful including: (1) the technical, economic, social and other benefits to the Nation and to users of the results such as private industry, public decisionmakers, or other researchers; (2) the estimated total cost of the approach relative to benefits, including estimating the Phase II research costs; and (3) any specific policy issues or decisions which might be affected by the results.

c. Indicate any significant non-research problems related to the proposed approach.

3. *Phase I Technical Objectives.* State the specific objectives of the Phase I research effort, including the questions it will try to answer.

4. *Phase I Technical Plan.* Provide a detailed description of the Phase I research approach, indicating not only what is planned, but how the research will be carried out. Phase I research should attempt to determine the technical feasibility of the proposed approach, and the research plans should be linked with the objectives and the questions the research effort is designed to answer. The methods planned to achieve each objective or task should be discussed in detail. *This section should be at least one-third of the proposal* (6–8 pages).

5. *Related Research.* Describe significant research directly related to the proposed effort, including any conducted by the principal investigator, by the proposing firm, consultants, or others, how it interfaces with the proposed research, and any planned coordination with outside sources. The proposer must persuade reviewers of his/her awareness of key recent research by others in the specific topic areas such as in concise bibliography.

6. *Key Personnel and Bibliography of Directly Related Work.* Identify key senior personnel involved in Phase I research and include directly related education, experience, and bibliographic information. For each key person, provide a chronological list of the most recent representative publications during the preceding five years, including those in press. List the authors in the same order as they appear on the paper, the full title, and the complete reference as they usually appear in journals. Where vitae are extensive, summaries that focus on the most relevant experience or publications will be necessary to meet proposal size limitation.

7. *Facilities.* The conduct of advanced research usually requires the use of sophisticated instrumentation. A detailed description of necessary instrumentation and physical facilities to carry out Phase I should be provided.

8. *Consultants.* Involvement of university or other consultants in the planning and/or research stages of the project is encouraged. If such involvement is intended, it should be described in detail. Use of academic scientists as collaborators or consultants in the development of the proposal and on the proposed project, if appropriate, may prove particularly helpful to small firms which have not previously received Federal research awards. *Please note that for Phase I, the total of all consultant fees, facility leases or usage fees and other subcontract or purchase agreements may not exceed 33% of the total funding agreement. Exceptions to this limitation will require special justification and negotiation with USDA's Authorized Departmental Officer.*

9. *Pre-existing Relevant Patents and Inventions.* Indicate whether the proposed work directly relates to or is dominated by any pre-existing patents or patent applications owned or controlled by the proposing organization or affiliated firms or others.

10. *Potential Commercial Applications and Follow-on Funding Commitment.* Briefly describe whether the proposed research also appears to have potential commercial application and whether you plan to obtain a follow-on funding commitment to accompany or follow the Phase II proposal.

11. *Current and Pending Support.* Indicate all current and pending support relating to the proposed grant period to which the prinicipal investigator and other senior personnel have committed a portion of their time. Form S&E–663, illustrated in Appendix B, may be used for this purpose.

12. *Proposals Submitted and Awards Received Under Other SBIR Programs.* Proposing firms may elect to submit essentially equivalent proposals under other Federal SBIR awards. In these cases, a statement must be included in each such proposal indicating:

a. The name and address of the agencies to which proposals were submitted or from which SBIR awards were received.

b. Date of proposal submission or date of award.

c. Title, Number, and Date of SBIR Program Solicitations under which proposals were submitted or awards received.

d. Specify the applicable research topics for each SBIR proposal submitted or award received.

e. Titles of Research Projects.

f. Name and Title of Project Manager or Principal Investigator for each proposal submitted or award received.

13. *Cost Breaddown/Proposal Budget.* The form shown in Appendix C (Form S&E–55) must be completed *for Phase I only.* Please note the following in completing the budget:

a. *Indirect Costs.* If available, use current rate negotiated with the cognizant Federal negotiating agency. If no rate has been negotiated, a reasonable dollar amount in lieu of indirect costs may be requested for Phase I which will be subject to approval by USDA. An institution may elect not to charge negotiated indirect costs and utilize all grant funds for direct costs. If this option is selected, this shuld be indicated on the budget form.

b. *Equipment and Travel.* performing organizations are expected to have appropriate facilities, suitably furnished and equipped. Items of equipment may be requested, however, provided they are adequately justified. Equipment is defined as an article of non-expendable, tangible personal property, having a useful life of more than two years and an acquisition cost of $500 or more per unit. Foreign travel cannot be included in the Phase I budget, but may be included as necessary in Phase II. The inclusion of either equipment or foreign travel will be carefully reviewed relative to need and appropriateness for the research proposed.

c. An awardee may not expend funds for any costs associated with the project before the effective date designated in the award document.

V. Method of Selection and Evaluation Criteria

Phase I proposals will be judged on a competitive basis in a two-stage process. All will be screened initially by USDA staff to ensure that they meet stated solicitation requirements. Proposals will be judged principally on their scientific and technical merit and receive an overall rating based upon evaluation against Phase I criteria.

Final decisions will be made by USDA based upon the ratings assigned by reviewers, and consideration of other factors, *including the potential commercial application and follow-on funding plan,* possible duplication of other research, and program balance.

Care will be taken to avoid conflicts of interest among reviewers, and evaluations will be confidential to USDA and the proposed principal investigator. There is no commitment by USDA to the making of an award on any topic or to the making of a specific number of awards.

Phase II proposals will be subject to an external peer review process and will be judged against Phase II criteria on a competitive basis. Final decisions will be made based upon the scientific and technical evaluations and other factors, including the commitment for follow-on funds, the possible duplication of other research, program balance, and budget limitations.

A. *Screening Criteria.* To avoid misunderstanding, proposers should be aware that proposals not satisfying all the screening criteria will be returned to the proposing organization without review. These proposals may not be resubmitted (with or without revision) under this solicitation. All copies of these proposals, not used in the screening process, will be returned with the letter of notification. The screening criteria are:

1. The proposing firm must qualify as a small business. It must be a for-profit institution and employ no more than 500 employees. If it is a subsidiary of another firm, this limit applies to all employees of the senior parent organization.

2. The Phase I proposal may not exceed 20 pages of regular-size type (no smaller than elite), including the cover sheet, abstract, and budget pages. No attachments or additional information are allowed in the interest of equitable treatment for all proposers. Supplementary materials, revisions, and substitutions will not be accepted after the due date for proposals.

3. The Phase I proposal must be limited to one topic; however, a firm may submit proposals on different approaches or topics. Duplicate proposals will be returned without review.

4. Phase I budgets must not exceed $50,000, including subcontracts and indirect costs. The Proposal Budget illustrated in Appendix C must be used.

5. The project duration of Phase I must not exceed six (6) months.

6. The principal investigator's primary employment must be with the small business concern at the time of award and during the period of the research; that is, more than one-half of the principal investigator's time must be spent with the small business firm during the period of performance of the grant.

7. A minimum of two-thirds of expenditures under each SBIR Phase I project must be carried out by the proposing firm, exclusive of subcontract and consulting costs.

8. Foreign travel cannot be included in the Phase I budget, but may be included as necessary in Phase II.

9. Phase I proposals must be for scientific research activities only. A firm must not propose product development, technical assistance, pilot plant construction, demonstration projects, literature surveys, market research, classified research, or patent applications and/or litigation.

10. The proposed research must fall within a 1983 solicited topic. (See topic descriptions in Section III.) A firm may not propose certain research duplicative of that supported by other Federal agencies unless otherwise explicitly solicited in USDA's 1983 topic descriptions.

11. A proposal must contain adequate information to be reviewed as research. USDA reserves the right not to submit to technical review any proposal which it finds to have insufficient information for that purpose.

B. *Phase I Evaluation Criteria.* USDA plans to select for award those proposals offering the best value to the Government with approximately equal consideration given to each of the following criteria, except for number 3 which will receive twice the value of any of the other items:

1. *Importance of the problem or opportunity and anticipated benefits* of the proposed research (Phase I and Phase II) if successful.

2. *Adequacy of the Phase I objectives* to show incremental progress toward proving the feasibility of approach.

3. *The scientific/technical quality of the Phase I research plan* and its relevance to the stated objectives, with special emphasis on its innovativeness and originality.

4. *Qualifications of the principal investigator,* other key staff, and consultants and the probable adequacy of available or obtainable instrumentation and facilities.

Technical reviewers will base their conclusions on information contained in the proposal. It cannot be assumed that reviewers are acquainted with any experiments referred to, key individuals, or the firm.

After final decisions have been announced, the technical evaluation of the proposal may be provided, to the proposer only, upon written request. However, the identities of reviewers will not be disclosed.

C. *Phase II Evaluation Criteria.* Detailed instructions regarding Phase II proposal submission will be sent to all Phase I award winners. Listed below are some of the principles upon which those instructions can be expected to be based. Phase II proposals can be submitted only by Phase I award winners. The Phase II proposal and Phase I report will be reviewed for overall merit based upon the following criteria relevant to Phase II awards with each item receiving approximately equal weight, except for item four, which will receive twice the value of any of the other items:

1. Degree to which the Phase I objectives were met (Phase I report).

2. The technical, economic, and/or social importance of the problem or opportunity and anticipated benefits if Phase II research is successful.

3. The adequacy of the Phase II objectives to meet the problem or opportunity.

4. The scientific quality of the proposed research, special emphasis on its innovativeness and originality.

5. The qualifications of the principal investigator and other key personnel to carry out the proposed work.

6. Reasonableness of the budget requested for the work proposed.

In the case of proposals of approximately equal technical merit, the provision of a follow-on funding commitment for continued development will be an important consideration. (See Section VI, "Considerations.") The value of the commitment will be dependent on the degree of commitment made by third-party investors with the maximum value resulting from a signed agreement with reasonable terms for an amount at least equal to the funds requested from USDA in Phase II.

Considerations

The items included in this section contain additional information that will be needed by applicants in developing their proposals.

A. *Awards.* It is anticipated that in Fiscal Year 1983 approximately 15 Phase I grants of $25,000 to $50,000 each will be made depending upon the availability of funds. Awards will be made before September 30, 1983, normally for a six-(6)-month period. Information regarding Phase II awards will be provided to successful Phase I applicants. The funding and period of performance in Phase II will depend upon the scope of the research and will normally not exceed 24 months. Phase II awards are expected to average up to $250,000.

B. *Reports.* Ten copies of a comprehensive single final report on the Phase I project must be submitted to the cognizant USDA Program Manager within thirty days following expiration of the Phase I agreement. The final report should include a single-page project summary as the first page identifying the purpose of the research, a brief description of the research carried out, the research findings or results, and potential applications of the research in a final paragraph. The balance of the report should indicate in detail the research objectives, research work carried out, results obtained, and estimates of technical feasibility.

C. *Payment Schedules.* Payments will be made to the recipient either by advance by Treasury check or reimbursement by Treasury check. The method of payment for each project will be indicated in the award document.

D. *Proprietary Information.* Information contained in unsuccessful proposals will remain the property of the proposer. However, USDA will retain file copies of all proposals. Public release of information in any proposal submitted will be subject to existing statutory and regulatory requirements.

If proprietary information is provided by a proposer in a proposal which constitutes a trade secret, proprietary commercial or financial information, confidential personal information or data affecting the national security, it will be treated in confidence, to the extent permitted by law, provided this information is clearly marked by the proposer with the term "confidential proprietary information" and providing the following legend appears on the "Certifications" attachment to the cover page of the proposal (see Appendix A):

> For any purpose other than to evaluate the proposal, this data shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed in whole or in part, provided that if a funding agreement is awarded to this proposer as a result of or in connection with the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the funding agreement. This restriction does not limit the Government's right to use information contained in the data if it is obtained from another source without restriction. The data subject to this restriction has been set off on separate pages and keyed to the text by numbers.

Any other legend may be unacceptable to USDA and may constitute grounds for return of the proposal without further consideration and without assuming any liability for inadvertent disclosure. USDA will limit dissemination of such information to its employees, and, where necessary for the evaluation of the proposal, to outside reviewers.

The inclusion of proprietary information is discouraged unless it is necessary for the proper evaluation of the proposal. *The proprietary* information included should be limited, set off on a separate page and *keyed to the text by numbers.* It should be confined to a few critical technical items which, if disclosed, could jeopardize the obtaining of foreign or domestic patents. Trade secrets, salaries or other information which could jeopardize commercial competitiveness should be similarly keyed and set-off on a separate page. *Proposals or reports which set off any large amount of information may be found unacceptable by USDA.*

Since technical reports by the principal investigator may be made available to the public, such reports shall not contain any restrictive language purporting to limit their use other than that set off on a proprietary page. However, USDA normally will honor a request to delay release of the report for six months, or longer if reasonable, so that the proposer may seek patent protection or follow-on funding where appropriate.

E. *Rights in Data Developed Under SBIR Funding Agreements.* Rights in technical data including software developed under the terms of any funding agreement resulting from proposals submitted in response to this solicitation shall remain with the grantee, except that the Government shall have the limited right to use such data for Government purposes and shall

not release such data outside the Government without permission of the grantee for a period of two years from completion of the project from which the data was generated. However, effective at the conclusion of the two-year period, the Government shall retain a royalty-free license for Government use of any technical data delivered under the agreement whether patented or not.

F. *Copyrights and Publications.* With prior written permission of the Authorized Departmental Officer, the grantee normally may copyright and publish (consistent with appropriate national security considerations, if any) material developed with USDA support. USDA receives a royalty-free license and requires that each publication contain an Acknowledgement and Disclaimer paragraph as follows:

> This material is based upon work supported by the U.S. Department of Agriculture under Agreement No. (Performing Organization should enter agreement number).

G. *Inventions and Patents.* Small business firms normally may retain the principal worldwide patent rights to any invention made with USDA support. USDA receives a royalty-free license for Federal Government use, reserves the right to require the patent holder to license others in certain circumstances, and requires that anyone exclusively licensed to sell the invention in the United States must normally manufacture it domestically. To the extent authorized by 35 U.S.C. 205, USDA will not make public any information disclosing a USDA-supported invention for a two-year period to allow the grantee a reasonable time to file an initial patent application. Additional information may be obtained from M. Howard Silverstein, Deputy Assistant General Counsel for Patents, Research and Operations Division, Office of General Counsel, U.S. Department of Agriculture, Room 2328, South Building, Washington, D.C. 20250.

H. *Cost-sharing.* Cost-sharing is permitted for proposals under the SBIR Program; however, cost-sharing is not required nor will it be an evaluation factor in consideration of proposals.

I. *Profit or Fee.* Because of the limited amount of funds available, fees (estimated profit) will not be allowed for either Phase I or Phase II awards.

J. *Subcontracting Limits.* Subcontracting as defined in this program solicitation may not exceed thirty-three percent of the total amount of the funding agreement unless otherwise approved in writing by the Authorized Departmental Officer.

K. *Follow-on Funding Commitment.* Proposers in Phase I should briefly describe any potential commercial application and whether they plan to secure follow-on private funding from a third party to pursue continuing development toward commercial objectives. In order to be assured of an extra point-of-merit in the review process, a signed contingent commitment between the small business and a third party of its own choice will be requested following submission of the Phase II proposal. The commitment is optional but will receive extra consideration as a point of merit in the evaluation process when other factors are of reasonably equal merit. The maximum value (in Phase II evaluation) will be given for a signed formal agreement with reasonable terms and funding equal to or in excess of the Federal investment in Phase II.

1. *The Commitment.* The commitment for follow-on venture capital or other funding must be obtained from a third party of the proposer's choice. It is understood that the commitment will be contingent upon the research achieving certain technical objectives mutually agreed upon between the small business and the provider of follow-on capital. A few clearly defined and measurable objectives should be stated in the commitment agreement at the threshold level that would justify private investment if those technical objectives were achieved in Phase II. The objectives do not have to be the same as those stated in the proposal, but they must be able to be accomplished within the scope of the proposed Government-funded research.

The Commitment agreement should state, on a contingent basis, that the investor will provide venture capital or other funding for follow-on development of the area immediately following the USDA-funded Phase II research so that the innovation process can continue without interruption toward commercialization. The agreement should set forth the specific amount of Phase II funds that will be made available to the small firm, and indicate the dates the funds will be made available. The terms cannot be contingent upon the obtaining of a patent due to the length of time this process requires.

The commitment may be in the form of venture capital, a package including venture capital, contract R&D, joint venture, an R&D limited partnership, or other agreement with a third party. No amortization, repayment or repurchase of commitment funds may be included during the Phase II period of performance. Phase III funding also may be advanced and invested during Phase II to accelerate the research and development process.

2. *Source of Funding.* The commitment agreement may be from a financial institution, such as a venture capital firm or a Small Business Investment Company (SBIC), if the small firm wishes to pursue commercialization of any resulting product itself. An alternative option is for the small business to obtain a commitment from a manufacturer already in the field. This coupling would utilize the small firm for the innovative R&D phase, and, through licensing or technology acquisition by the larger firm, the know-how and capabilities of the larger firm for production, marketing, and continuing financing in return for Phase III funding and a royalty agreement. This coupling to a larger firm already in the field may be one of the fastest, most capital-efficient, and lowest risk ways to bring new innovative technology to the marketplace.

L. *Research Involving Special Consideration.* A number of situations frequently encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If special information or supporting documentation is involved, the proposal should so indicate. Since some type of research targeted for SBIR support have a high probability of involving either recombinant deoxyribonucleic acid (DNA) or human subjects, special instructions follow:

Please note that for research involving either recombinant DNA that falls under the NIH Guidelines or human subjects at risk, the proposing organization must provide USDA with a statement that the research plan has been reviewed and approved by an appropriate "Institutional Committee" or "Institutional Review Board." It is suggested that proposers contact public universities or colleges or non-profit research organizations which have established such reviewing mechanisms to have this service performed. Form S&E–662, "Special Considerations," illustrated in Appendix D, should be used to indicate whether or not the project involves research in the areas listed below, and whether required approvals have been obtained.

1. *Recombinant DNA.* Principal investigators and endorsing performing organization officials must comply with the guidelines of the National Institutes of Health (see NIH "Guidelines for Research Involving Recombinant DNA Molecules" (47 FR 38048–38068) and subsequent revisions).

2. *Human Subjects.* Safeguarding the rights and wefare of human subjects used in research supported by USDA grants is the responsibility of the performing organization. The informed consent of the human subject is a vital element in this process. Guidance is contained in Pub. L. 93–348, as implemented by Part 46, Subtitle A of Title 45 of the Code of Federal Regulations, as amended (45 CFR part 46). Proposing organizations must comply with Department of Health and Human Services (DHHS) policies, as amended, regarding the use of human subjects.

M. *Grantee Commitments.* Upon award of the grant, the awardee will be required to make certain legal commitments through acceptance of numerous clauses in Phase I funding agreements. The outline that follows is illustrative of the types of clauses to which the grantee would be committed. This list should not be understood to represent a complete list of clauses to be included in Phase I funding agreements, nor to be specific wording of such clauses. Copies of complete terms and conditions are available upon request.

1. *Inspection.* Work performed under the grant is subject to Government inspection and evaluation at all times.

2. *Examination of Records.* The Comptroller General (or a duly authorized representative) shall have the right to examine any directly pertinent records of the grantee involving transactions related to this grant.

3. *Default.* The Government may terminate the grant if the grantee fails materially to comply with the terms of the agreement.

4. *Termination for Convenience.* The grant may be terminated at any time by the Government if it deems termination to be in its best interest, in which case the grantee will be compensated work performed and for reasonable termination costs.

5. *Equal Opportunity.* The grantee will not discriminate against any employee or applicant for employment because of race, color, religion, age, sex, or national origin.

6. *Affirmative Action for Handicapped.* The grantee will not discriminate against any employee or applicant for employment because he or she is physically or mentally handicapped.

N. *Additional Information.*

1. This program solicitation is intended for informational purposes and reflects current planning. If there is any inconsistency between the information contained herein and the terms of any resulting SBIR funding agreement, the terms of the funding agreement are controlling.

2. Before award of an SBIR funding agreement, USDA requires the submission of certain organizational management, personnel, and financial information to assure responsibility of the proposer including the execution of a form indicating Assurance of Compliance with the Civil Rights Act of 1964. Forms shown in Appendix E and Appendix F should be used for this purpose. This information will need to be submitted to Grants Administrative Management, Office of Grants and Program Systems, on a onetime basis only to cover all proposals submitted to that office unless there have been sufficient charges in the proposer's organization to warrant submission of new forms.

3. The responsibility for the performance of the principal investigator, and other employees or consultants who carry out the proposed work, lies with the management of the organization receiving an award.

4. The SBIR program is not a substitute for existing unsolicited proposal mechanisms. Unsolicited proposals will not be accepted under the SBIR program in either Phase I or Phase II.

5. If an award is made under this solicitation, the grantee will be required to certify that he or she has not previously been, nor is currently being, paid for essentially equivalent work by any agency of the Federal Government.

VII. Submission of Proposals.

A. Proposals should be submitted to Grants Administrative Management at the address shown below. Your submission should include an original and nine (9) copies of the proposal and Form S&E–661 submitted with the original proposal should have original signatures of the principal investigator(s) and the authorized organizational representative. USDA must have original signatures on file for each application. A principal investigator whose signature does not appear on the Application will not be listed as a principal investigator in the event of an award. Grant Administrative Management, Office of Grants and Program Systems, Science and Education, U.S. Department of Agriculture, Suite 103, Rosslyn Commonwealth Building, 1300 Wilson Boulevard, Arlington, Virginia 22209, Telephone: (703) 235–2638.

All copies of the proposal should be mailed in one package, if at all possible. Due to the volume of proposals received, proposals submitted in several packages are very difficult to identify. If copies of the proposal *are* mailed in more than one package, the number of packages should be marked on the outside of each. It is important that *all packages be mailed at the same time.* The acknowledgment of receipt of the proposal will contain a proposal number and title. Later inquiries, addenda, ect., should include this information. However, every effort should be made to *assure* that the proposal contains *all pertinent information when initially submitted.*

B. To be considered for award, proposals must be prepared in the format prescribed in Section IV, "Proposal Preparation Instructions and Requirements," and must be *postmarked* by June 15, 1983. Proposals not postmarked by this date will be returned to sender.

Proposals are not to exceed 20 pages (single or double spaced, typed or printed on one side only) including the cover sheet, budget, vitae appendices, and required forms from the appendices from this announcement. Pages in excess of 20 will not be reviewed. Special bindings or covers must not be used, and pages should be stapled in the upper left hand corner of the cover sheet of each proposal.

CERTIFICATIONS

Small Business Certification: Year Firm Founded _____

The _____
(name of applicant organization as it appears in Block 1 of Form S&E-661)

certifies it is a small business firm and meets the definition cited in the Small Business Act, 15 U.S.C. 631 and in the Definitions section of this announcement:

The Principal Investigator's primary employment will be with this firm at the time of award and during the conduct of the research. Yes___ No___

Two-thirds or more of this project will be carried out in the proposing firm. Yes___ No___

Number of employees (average for previous 12 months)*_____ Currently_____

Minority or Disadvantaged Business Certification:

The above organization certifies that it does____ does not____ qualify as a minority or disadvantaged firm as defined in the Definitions section of this announcement.

Disclosure Permission:

Will you permit USDA to disclose the title only of your proposed project, plus the name, address, and telephone number of the corporate official of your firm, if your proposal does not result in an award, to firms that may be interested in contacting you for further information or possible investment? Yes___ No___

NOTE: The space below may be used for the legend for identification and protection of proprietary information, if needed (see Section VI, "Considerations").

*If a subsidiary of another firm, the number of employees stated above must include all employees under the control of the senior parent organization.

CURRENT AND PENDING SUPPORT

INSTRUCTIONS: • Record information for the preceding period – this will help S&E analyze shifts in research support. (Concurrent submission of a proposal to other organizations will *not* prejudice its review by S&E.) • All current research to which principal investigator(s) and other senior personnel have committed a portion of their time must be listed, whether or not salary for the person involved is included in the budgets of the various projects. • Provide analogous information for all proposed research which is being considered by, or which will be submitted in the near future to, other possible sponsors including other USDA programs.

APPENDIX E

OMB-0531-0009

ORGANIZATIONAL INFORMATION

1. LEGAL NAME OF ORGANIZATION & COMPLETE BUSINESS ADDRESS

NOTE: Submit the following information.
Identify attached information by number and item.

2. Organizational Affiliations – Describe relationship of the organization to a parent organization or to subsidiaries of other affiliates. If the organization is a successor in interest to a predecessor or if changes in organizational affiliation are anticipated, describe briefly.

3. Statement of Purposes and Powers – Attach an official or published statement of the major purposes of the organization as to the powers which have been granted to it to enter into contractual relationships and/or to accept grants, *e.g.*, articles of incorporation, terms of reference, by-laws, etc.

4. KEY OFFICIALS AND AFFILIATIONS

NAME, TITLE, AND TELEPHONE NO.	AFFILIATED WITH? College or University Yes	College or University No	State or Local Government Yes	State or Local Government No	IF *No*, IS CHECKED, DESCRIBE AFFILIATION
Chief Executive		(/)			
Authorized Organizational Representative					
Business Officer					

5. Is your organization currently a grantee or contractor of any component of the U.S. Department of Health and Human Services (formerly Department of Health, Education and Welfare)? This information will assist in implementing certain interagency procedures for which DHHS is the lead agency. ☐ YES ☐ NO

6. If your organization is other than a college or university *or* a State or local government, *attach*

- A certified statement of financial conditions *(usually by Certified Public Accountant)* covering at least the preceding 2 years.
- Bank or other references.

7. Assurance of Compliance – Attach completed Form S&E-665.

Form S&E-666 (Aug 81) *(Over)*

APPENDIX E

CERTIFICATION

1. I certify that _____ has legal authority to accept grants
(Name of institution or organization)
and the requisite policies, procedures, and personnel to ensure stewardship of Federal funds and management of Federally supported projects, specifically including standards for financial management, procurement, and property management, which meet those described in Attachments F, N, and O to OMB Circular A-110. *(In the event this is not the case,* attach a list of exceptions and provide a realistic estimate of when such standards might be met.)

2. Each proposal to the S&E Grants Administrative Management Office will be consistent with the policies and goals of the proposed grantee and will be submitted in accordance with its procedures and pursuant to appropriate authority.

3. In the event that a grant is awarded as a result of any such proposal, I agree that the proposed grantee organization will:

   A. Make available the necessary facilities, equipment, services, and personnel to conduct the project substantially as outlined in the proposal or such modifications thereof as may be mutually agreed.

   B. Conduct such project oversight as may be appropriate, manage the Federal funding with probity and prudence, and comply with all the terms and conditions of the grant.

   C. Ensure that costs which S&E is being asked to support are allowable and the treatment of direct and indirect costs in the proposal budget is consistent with applicable Federal cost principles and with the policies of the submitting organization.

   Allowable Costs – Payment up to the amount specified in the Agreement shall be made only for allowable costs actually incurred in conducting the work under the Agreement in accordance with its terms.

   The determination of allowable costs shall be made in accordance with the following applicable Federal Cost Principles in effect on the effective date of the Agreement:

   Educational Institutions, OMB Circular A-21
   Non-Profit Organizations, OMB Circular A-122
   Commercial Firms, FPR 1-15.2
   State and Local Governments, OMB Circular A-87

APPENDIX F
OMB-0531-0009

UNITED STATES DEPARTMENT OF AGRICULTURE
SCIENCE AND EDUCATION

ASSURANCE OF COMPLIANCE
with the
DEPARTMENT OF AGRICULTURE REGULATIONS
UNDER TITLE VI of the CIVIL RIGHTS ACT of 1964 *(as amended)*

NOTE: Not required if previously submitted to S&E/GAMO.

Legal name of proposed grantee _____ *(hereinafter called the Applicant)* hereby agrees that it will comply with Title VI of the Civil Rights Act of 1964, as amended, and all requirements imposed by or pursuant to the Regulations of the Department of Agriculture, 7 CFR Part 15, Subpart A, issued pursuant thereto, to the end that, in accordance with Title VI of that Act and the regulations, no person in the United States shall, on the ground(s) of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Applicant receives Federal financial assistance from the Department of Agriculture; and hereby gives assurance that it will immediately take any measures necessary to effectuate this agreement.

This assurance is given in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property, discounts or other Federal financial assistance extended after the date hereof to the Applicant by the Department, including installment payments after such date on account of applications for Federal financial assistance which were approved before such date. The Applicant recognizes and agrees that such Federal assistance will be extended in reliance on the representations and agreements made in this assurance, and that the United States shall have the right to seek judicial enforcement of this assurance. This assurance is binding on the Applicant, its successors, transferees, and assignees, and the person or persons whose signature(s) appear below are authorized to sign this assurance on behalf of the Applicant.

Authorized Organizational Representative						
Business Officer						

5. **Is your organization currently** a grantee or contractor of any component of the U.S. Department of Health and Human Services (formerly Department of Health, Education and Welfare)? This information will assist in implementing certain interagency procedures for which DHHS is the lead agency. ☐ YES ☐ NO

6. **If your organization is other than** a college or university *or* a State or local government, *attach*

- A certified statement of financial conditions *(usually by Certified Public Accountant)* covering at least the preceding 2 years.
- Bank or other references.

7. **Assurance of Compliance** – Attach completed Form S&E-665.

Form S&E-666 (Aug 81) *(Over)*

CERTIFICATION

1. I certify that _____ has legal authority to accept grants
(*Name of institution or organization*)
and the requisite policies, procedures, and personnel to ensure stewardship of Federal funds and management of Federally supported projects, specifically including standards for financial management, procurement, and property management, which meet those described in Attachments F, N, and O to OMB Circular A-110. *(In the event this is not the case,* attach a list of exceptions and provide a realistic estimate of when such standards might be met.)

2. Each proposal to the S&E Grants Administrative Management Office will be consistent with the policies and goals of the proposed grantee and will be submitted in accordance with its procedures and pursuant to appropriate authority.

3. In the event that a grant is awarded as a result of any such proposal, I agree that the proposed grantee organization will:

   A. Make available the necessary facilities, equipment, services, and personnel to conduct the project substantially as outlined in the proposal or such modifications thereof as may be mutually agreed.

   B. Conduct such project oversight as may be appropriate, manage the Federal funding with probity and prudence, and comply with all the terms and conditions of the grant.

   C. Ensure that costs which S&E is being asked to support are allowable and the treatment of direct and indirect costs in the proposal budget is consistent with applicable Federal cost principles and with the policies of the submitting organization.

   Allowable Costs – Payment up to the amount specified in the Agreement shall be made only for allowable costs actually incurred in conducting the work under the Agreement in accordance with its terms.

   The determination of allowable costs shall be made in accordance with the following applicable Federal Cost Principles in effect on the effective date of the Agreement:

   Educational Institutions, OMB Circular A-21
   Non-Profit Organizations, OMB Circular A-122
   Commercial Firms, FPR 1-15.2
   State and Local Governments, OMB Circular A-87

   D. Comply with all applicable laws and regulations.

Part IV

Department of the Interior

Office of Surface Mining Reclamation and Enforcement

Auger Mining; Final Rule

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 819

Surface Coal Mining and Reclamation Operations; Permanent Regulatory Program; Auger Mining

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is adopting final rules for conducting auger mining of coal. These rules clarify standards for auger mining, including those relating to maximum coal recovery and to hydrologic-balance and subsidence protection. They also establish standards for auger mining in previously mined areas.

EFFECTIVE DATE: May 27, 1983.

FOR FURTHER INFORMATION CONTACT: Ranvir Singh, Office of Surface Mining, U.S. Department of the Interior, 1951 Constitution Avenue, N.W., Washington, DC 20240; 202–343–4022.

SUPPLEMENTARY INFORMATION:

I. Background
II. Discussion of Comments and Rules Adopted
III. Procedural Matters

I. Background

Permanent program auger mining rules were initially published on March 13, 1979, and codified at 30 CFR Part 819 (44 FR 15448). On March 19, 1982, OSM published proposed rules revising the previous rules relating to auger mining (47 FR 12088). These proposed rules would have deleted Part 819 and included all requirements for auger mining in a new section, 30 CFR 816.108.

Throughout the development of these rules, OSM has solicited public comments and recommendations. Following publication of the proposed rules, OSM made provisions to hold public hearings and public meetings upon request. OSM convened a public hearing in Room 2212, Federal Building, Pittsburgh, Pennsylvania, on Friday, April 9, 1982, at 9:30 a.m. However, no persons wishing to testify appeared.

The March 19, 1982, notice provided for the comment period to close on April 19, 1982. To provide the public with a greater opportunity to participate, the comment period was extended to August 25, 1982 (47 FR 20631, May 13, 1982). It was subsequently reopened on September 7, 1982, and closed on September 10, 1982 (47 FR 39201) to include relevant testimony given at a congressional hearing.

II. Discussion of Comments and Rules Adopted

OSM received comments on the proposed rules from industry, citizens, environmental groups, and other government agencies. OSM has carefully reviewed each comment and taken every suggestion into consideration in writing this final rule.

General Comments

Some commenters objected to the placement of the performance standards for auger mining in the Part 816, backfilling and grading rules for surface mining activities. They argued that auger mining is a distinct method of coal recovery which differs from both underground mining and conventional surface mining methods. One commenter stated that the unique issues attendant to augering must be addressed in the design, permitting, and conduct of the auger operation. The same commenter contended that the proposal treated augering as an afterthought or as part of the reclamation phase of surface mining activities, thereby deemphasizing the need for thorough planning in advance of the operational phase to meet the requirements of Section 515(b)(9) of the Surface Mining Control and Reclamation Act, 30 U.S.C. 1201 *et seq.*, (Act). Another commenter recommended that the auger mining rules be moved from Part 816, as proposed, to 30 CFR Part 817, performance standards for underground mining activities, to make it clear that the subsidence rules would be applicable to these operations.

OSM has revised the final rule in accordance with the major points advanced by the first commenter. Because augering is distinct from surface as well as from underground mining, certain of the problems encountered in augering are unique. Accordingly, the performance standards for augering will be retained as a separate part, Part 819. Under the final rule, previous § 819.1, "Scope," is retained with minor editorial revisions; previous § 819.2, "Objectives," which contained no substantive requirements, is deleted; and previous § 819.11 is replaced with new § 819.11 *Auger mining: General*, § 819.13 *Auger mining: Coal recovery*, § 819.15 *Auger mining: Hydrologic balance*, § 819.17 *Auger mining: Subsidence protection*, § 819.19 *Auger mining: Backfilling and grading*, and § 819.21 *Auger mining: Protection of underground mining*, which are discussed below.

To assist the reader in understanding the changes in the final rules, the following Derivation Table shows the relationship of the final rules to the previous sections and the proposed sections.

DERIVATION TABLE.—AUGER MINING

Final rule Part 819	Previous sections Part 819	Proposed sections §§ 816.108 and 816.109
§ 819.1	§ 819.1	
§ 819.11(a)	§ 819.1	§ 816.108(a)(5).
§ 819.11(b)	§ 819.11(e)	§ 816.108(f).
§ 819.11(b)(1)	§ 819.11(e)(3)	§ 816.108(f)(2).
§ 819.11(b)(2)	§ 819.11(e)(1)	§ 816.108(f)(1).
§ 819.13(a)	[§ 819.59]	
§ 819.13(b)	§ 819.11(a)	§ 816.108(a)(2).
§ 819.13(c)	§ 819.11(a)	§ 816.108(b).
§ 819.15(a)		§ 816.108 (a), (a)(1).
§ 819.15(b)		§ 816.108(c).
§ 819.15(b)(1)	§ 819.11(c)(1)	
§ 819.15(b)(2)	§ 819.11(c) (1 and 2).	§ 816.108(c) (1 and 2).
§ 819.15(c)	§ 819.11(d)	§ 816.108(d).
§ 819.15(c)(1)	§ 819.11(d)(1)	§ 816.108(d)(1).
§ 819.15(c)(2)	§ 819.11(d)(2)	§ 816.108(d)(2).
§ 819.17	§ 819.11(e)(4)	§ 816.108(a)(4).
§ 819.19(a)		§ 816.109(a)(1).
§ 819.19(b)		§ 816.109(a).
§ 819.19(b)(1)	§ 819.11(e)(2)	§ 816.109(a)(2).
§ 819.19(b)(2)		§ 816.109(a)(3).
§ 819.19(b)(3)		§ 816.109(a)(4).
§ 819.19(b)(4)		§ 816.109(a)(5).
§ 819.19(b)(5)		§ 816.109(a)(6).
§ 819.21	§ 819.11(b)	§ 816.108(e).

Although OSM has rejected a commenter's suggestion to move the auger mining rules to Part 817, new final § 819.17 will provide that all auger mining operations must be planned and conducted to comply with the subsidence-control requirements of § 817.121 (a) and (c). The rationale for this change is explained below.

One commenter suggested that OSM consider the possibility of developing another set of rules specifically for Extended Depth Secondary Recovery (EDSR). The commenter characterized EDSR as a highly sophisticated method capable of recovering 80 to 85 percent clean coal to a depth of 200 feet without additional surface disturbance. Based on these factors, the commenter felt that EDSR technology requires rules designed specifically for these types of operations.

Auger mining is narrowly defined in 30 CFR 701.5, and the definition does not specifically include alternate technologies such as EDSR or the Thin Seam Miner (TSM). However, States have sufficient latitude in their individual State programs to treat such technologies as they do conventional augering operations. Alternately, the technologies can be treated as experimental practices under Section 711 of the Act. No revision of the final auger mining rules will be made at this time to accommodate EDSR or TSR. OSM will continue to collect information

on the effects of this technology and will consider rule changes in the future if they become necessary.

Specific Comments

Section 819.1 Scope.

Final § 819.1 explains that Part 819 sets the performance standards for auger mining operations. This section was not contained in the proposed rule which was to be included in Part 816, but is retained with only minor editorial changes from the previous rule.

Section 819.11 General.

Section 819.11(a)

Final § 819.11(a) specifies that auger mining operations must be conducted in accordance with the requirements of Part 816, except as otherwise specified in Part 819. This requirement was contained in previous § 819.1, "Scope." The revised language of final § 819.11(a) also makes it clear that the requirements of Part 819 supersede the requirements of Part 816 if a provision in Part 819 enumerates special requirements for auger mining operations.

Proposed § 816.108(a)(5) required that all augering operations be planned and conducted consistent with reclamation being performed in accordance with all other requirements of 30 CFR Chapter VII. OSM considered and rejected two comments on this provision. One commenter suggested that the word "consistent" be replaced by the word "compatible" to provide flexibility by allowing each auger mining operation to be tailored according to local mining conditions, facilities, climate, geology, and terrain within a State. Another commenter suggested that the term "applicable" be inserted between the words "other" and "requirements" in the proposed rule to prevent the misapplication of rules which are inapplicable to auger mining. The final rule contains no substantive change from the language of the proposal. For this reason, the requirements of proposed § 816.108(a)(5) are adequately covered under the terms of final § 819.11(a). Addition of term "applicable" to the language of final § 819.11(a) is also unnecessary. Such a revision could suggest that a rule is inapplicable to auger mining unless its application to that activity is specifically stated in Part 819. This would be an incorrect interpretation of the requirements of Part 819.

Section 819.11(b)

Proposed § 816.108(f) provided that the regulatory authority would prohibit augering if it determined that adverse water-quality impacts could not be prevented or corrected; that such a prohibition was necessary to maximize utilization, recoverability, or conservation of the solid-fuel resource; or that effects from augering would prevent performance of reclamation in accordance with all other requirements of the Act and all other provisions of Chapter VII. In response to remarks from commenters and for reasons discussed below, OSM has revised the proposed language and adopted a new final § 819.11(b). Under final § 819.11(b), the regulatory authority *may* prohibit auger mining, if necessary to maximize the utilization, recoverability or conservation of the solid-fuel resource, or to protect against adverse water-quality impacts.

One commenter stated that proposed § 816.108(f) was unnecessary inasmuch as it would allow the regulatory authority to prohibit a specific form of mining. The commenter added that such a determination exceeded the general powers of the regulatory authority as well as its knowledge and capability. OSM disagrees with this comment because the proviso in Section 515(b)(9) of the Act clearly allows the regulatory authority to prohibit augering under specific circumstances. The commenter's concern about the legal and technical competence of regulatory authorities is unjustified since Section 503(a)(3) of the Act conditions State program approval on proof that the State regulatory authority has sufficient personnel and resources to ensure effective implementation of the State's program. In addition, OSM's oversight responsibility and the procedures in 30 CFR Part 733 for Federal enforcement of State programs or withdrawal of State program approval will provide OSM the means to identify and remedy any problems with implementation of a State program.

Another commenter recommended that the proposed rule be changed to track the language in the proviso of Section 515(b)(9) of the Act. This commenter felt that the statutory language provided a better statement as to when augering "may" be prohibited than the broad, undefined language of proposed § 816.108(f) that required a mandatory prohibition. OSM has accepted this recommendation and has revised new § 819.11(b) to provide that the regulatory authority may prohibit augering if necessary to maximize the utilization, recoverability, or conservation of the solid fuel resources or to protect against adverse water-quality impacts. The change from "shall" in proposed § 816.108(f) to "may" in new § 819.11(b) is consistent with Section 515(b)(9) of the Act. The revised language will also minimize the potential for prohibitions on mining where not specifically provided for in the Act.

Several commenters suggested that the words "prevented or" be deleted from the language of proposed § 816.108(f)(1). One commenter argued that augering should be permitted if adverse impacts on water quality could be minimized or corrected within a short time. The commenter also found the proposed rule duplicative of certain requirements in Chapter VII, Subchapter F, relating to the designation of areas as unsuitable for all or certain types of mining. Another commenter contended that the rule, as written, would not allow for even minor, temporary onsite adverse effects on water quality, thereby making any auger mining activity impossible. An additional commenter claimed that an absolute requirement to prevent changes in water quality was inconsistent with the requirement in Section 515(b)(9) of the Act to minimize disturbance of the quality of water in auger holes.

OSM agrees in part with these commenters. Under final § 819.11(b)(2), the regulatory authority is allowed to prohibit augering if it determines that prohibition is necessary to "protect against" adverse water-quality impact. However, the obligation to protect against adverse impacts under the final rule should not be interpreted to require total prevention of onsite temporary impacts. An absolute requirement for total prevention of adverse water-quality impacts is more stringent than the requirements in Section 515(b)(9) of the Act and inconsistent with Section 515(b)(10) of the Act. The final rule complements other sections of the Act which afford protection to water quality, including Sections 510(b)(3) and 515(b)(10), and allows the regulatory authority to prohibit augering where necessary to protect against adverse impacts on water quality. However, planning for augering should include measures to prevent, where possible, as well as to correct, harmful effects.

As previously stated, the language in proposed § 816.108(f) has been revised to track the wording of the proviso in Section 515(b)(9) of the Act. Final § 819.11(b)(1), as adopted, will grant the regulatory authority discretion to prohibit augering upon finding the prohibition necessary to maximize the utilization, recoverability, or conservation of the solid-fuel resource. This provision will assure the achievement of the requirements that all auger mining operations be planned and conducted to maximize the

recoverability of remaining mineral reserves and that access be left for future underground mining.

Proposed § 816.108(f)(3) provided that the regulatory authority must prohibit auger mining if it determined that the effects from augering operations would prevent reclamation in accordance with all other requirements of the Act and all other provisions of Chapter VII. One commenter suggested that the language of the proposed rule be revised to require reclamation to be performed "in accordance with all other 'applicable' requirements of the Act and all other 'applicable' requirements of this chapter." The commenter argued that insertion of the term "applicable" would prevent the misapplication of standards not applicable to augering as well as clarify that special considerations in certain rules, such as those for remining on steep slopes, apply to auger mining.

OSM has found the language of proposed § 816.108(f)(3), which prohibited auger mining if its effects would prevent reclamation, redundant of other provisions of its rules. Under OSM's permitting requirements and the Act, a permit cannot be issued unless the regulatory authority finds that all requirements of the rules and the Act are met, including the assurance of proper reclamation. Final § 819.11(a), also requires all auger mining operations to be planned and conducted in accordance with the requirements of Part 816. Accordingly, proposed § 816.108(f)(3) has not been adopted in the final rule.

Section 819.13 Coal recovery.

New final § 819.13 contains requirements for coal recovery during and after auger mining operations. Several commenters expressed concern or confusion about requirements for maximizing recovery of the coal resource. These requirements have been reorganized and consolidated in a final § 819.13 to clarify the various standards applicable to maximizing coal recovery.

Three provisions govern coal recovery in the final auger mining rule. The first, in final § 819.13(a), requires the coal operator to comply with the requirements of § 816.59. Under § 816.59, surface mining operations must be conducted to maximize the utilization and conservation of the coal. The second provision, in final § 819.13(b), implements the Act's requirement that an operator maximize the recoverability of mineral resources remaining after the augering operation and reclamation are complete. The third, in final § 819.13(c), requires that auger mining operations leave areas of undisturbed coal to provide access for future underground mining. Final § 819.13(a), thus, implements the requirements of Section 515(b)(1) of the Act, while final § 819.13 (b) and (c) implements the requirements of Section 515(b)(9) of the Act.

Section 819.13(a)

Final § 819.13(a), as discussed, references the coal recovery requirements of § 816.59. Though not in the proposed rule this provision is included in the final rule for the convenience of the reader and to clarify the confusion noted by commenters.

Section 819.13(b)

Proposed § 816.108(a)(2) provided that all auger mining operations must be planned and conducted to prevent unnecessary loss of coal reserves. One commenter recommended that the language of the proposed rule be changed to require the operation to "maximize recoverability of mineral reserves remaining after the operation and reclamation are complete" to assure consistency with Section 515(b)(9) of the Act, which uses that precise language. OSM accepted this recommendation, and the language has been modified accordingly in § 819.13(b) of the final rule.

Another commenter suggested that proposed § 816.108(a)(2) be revised not only to track the language of Section 515(b)(9) of the Act, but also to recognize the technical and economic constraints of the operator to remine sites by augering. The commenter's suggested rule would require all augering operations to "[a]chieve maximum recovery of the coal resource given the economic and technical constraints on the coal mining operator." The commenter explained that because mining companies are constrained or limited by the type of equipment they have and their economic situation, they all cannot auger mine a site with the same efficiency and thoroughness. The commenter claimed the regulatory authority might deny certain operators the permit to remine by augering if their equipment or economic situation did not meet the optimum standards the regulatory authority set for the maximum recovery of coal.

The commenter thought the regulatory authority's assessment of whether maximum coal recovery would be met should not be based on set optimum standards, but rather on the individual characteristics of both the remining site and the operator proposing to auger mine the site.

The revision suggested by the commenter is unnecessary since the new rule allows regulatory authorities to recognize technical and economic constraints on remining by augering. Economic and technical constraints are appropriate factors for the regulatory authority to consider in determining whether the operation would result in the maximum utilization and conservation of coal. On the other hand, the regulatory authority should not limit its consideration only to the economic conditions of a particular operator in determining compliance with this requirement. Thus, under final § 819.11(b), the regulatory authority is allowed to prohibit auger mining if auger mining would not maximize the utilization, conservation, or recoverability of the coal, even though the operator is prepared to use only auger mining techniques. The regulatory authority must make this determination on a case-by-case basis, taking into account site-specific conditions. The existing rules are satisfied by a demonstration that all coal which is economically feasible to recover will be mined. See the preamble to § 816.59 (44 FR 15178, March 13, 1979) for additional discussion of the requirement to maximize utilization and conservation of the coal resource.

A commenter requested clarification of the relationship between the auger mining requirements in Parts 816 and 819 and the requirements for maximum economic recovery under the Minerals Management Service regulations for mining Federal coal. The relationship between the two sets of regulations is stated in recently revised 30 CFR 740.19(a)(2) which provides that "[s]urface coal mining and reclamation on lands containing leased Federal coal shall be conducted in accordance with the requirements of the terms, conditions and stipulations of the lease issued under the Mineral Leasing Act and its implement regulations [30 CFR] Part 211 . . ., as applicable, and the mining plan." Section 740.19 is applicable to augering operations on Federal lands. (48 FR 6912, February 16, 1983).

Section 819.13(c)

Proposed § 816.108(b) required each person who conducts auger mining operations to leave areas of undisturbed coal, as approved by the regulatory authority, to provide access for future underground mining activities to coal reserves remaining after augering is completed, unless it is established that the coal reserves have been depleted or are so limited in thickness or extent that it will not be practicable to recover the remaining coal. The proposed rule also provided that the regulatory authority

would make this determination upon presentation of appropriate technical evidence by the operator. OSM has adopted the proposed rule in new final § 819.13(c).

One commenter though that resource recovery is a judgment by the operator which should not be governed by the regulatory authority. The commenter claimed this determination exceeds the expertise and capability of the regulatory authority and does not encourage resource recovery as mandated by the Act.

OSM does not agree with this comment, and the language of proposed § 816.108(b) has been retained in final § 819.13(c). Section 515(b)(9) of the Act requires that augering operations be conducted "in a manner to maximize recoverability of mineral resources remaining after the operation and reclamation are complete . . .," and states "that the permitting authority may prohibit augering if necessary to maximize the utilization, recoverability or conservation of the solid fuel resources. . . ." Thus, the statute assigns the responsibility to the regulatory authority for regulation of auger mining to assure maximum recovery and conservation of the solid-fuel resource. In making this determination, the regulatory authority must take into account the technical data submitted by the operator.

Another commenter urged that the requirement in previous § 819.11(a) for a 250-foot barrier pillar at 2,500-foot intervals be retained to maximize recovery and assure access to remaining reserves potentially recoverable by underground mining after augering is completed. The commenter contended that the absence of a definite footage standard from the proposed rule would require the regulatory authority to gauge the adequacy of pillars on a case-by-case basis. Because the need for individual-case determinations would exacerbate existing strains on the resources of regulatory authorities, the commenter argued that there would be a tendency for regulatory authorities to approve all plans, regardless of their technical adequacy.

OSM is denying the commenter's request because retention of this requirement is unnecessary. The requirements in Section 515(b)(9) and (b)(10) of the Act will be met if the regulatory authority is granted discretion to determine how the performance standards can be achieved on a site-specific basis. Since geologic conditions differ from one part of the country to another, the objectives of the Act are not best achieved by requiring all mine operators to comply with the same specific design criteria. Final § 819.13(c) allows the regulatory authority flexibility in setting design criteria based on variations in geologic, topographic, and other site-specific conditions. OSM disagrees with the contention that the rule will create additional burdens which regulatory authorities cannot meet. Under Section 503(a)(3) of the Act, State programs are approved only if State regulatory authorities have sufficient technical personnel and funding to implement their programs in accordance with the Act's requirements. Furthermore, OSM's oversight of State programs and procedures for Federal enforcement of State programs at 30 CFR Part 733 will ensure the effective implementation of State regulatory programs.

One commenter suggested that OSM allow those areas that "will be depleted by the auger mining operation" to be exempted from having to leave areas of undisturbed coal. OSM has not accepted this suggestion. The relevant language of final § 819.13(c), which was not proposed to be changed, allows the regulatory authority to permit no undisturbed areas to be left if the operator can show that reserves are so limited as to make their recovery impracticable.

A final commenter felt that the proposed provisions requiring undisturbed coal to be left for underground access overlooked potential problems primarily related to auger mining conducted in the West. Since auger mining in the West is usually done in conjunction with surface mining and since reclamation laws and regulations require the reclamation of highwalls, the commenter argued that it would be unrealistic to require auger operations to leave undisturbed coal in areas where the highwalls will be reclaimed. In the interest of resource conservation and recovery, the commenter suggested that OSM allow complete auger mining in area surface mining situations where the highwall will be reclaimed. OSM has rejected this comment. Elimination of highwalls is required nationwide and provides no basis for a variance from the auger mining requirement to provide access for possible future underground mining. New § 819.13(c) allows the regulatory authority to determine the extent of areas that must be left undisturbed to provide such future access.

Section 819.15 Hydrologic balance.

New final § 819.15 contains requirements for protection of the hydrologic balance. This rule, as finally adopted by OSM, reflects the requirements of proposed § 816.108(a)(1), (c), and (d). Final § 819.15(a) requires that all auger mining be planned and conducted to minimize disturbance of the prevailing hydrologic balance in accordance with the requirements of §§ 816.41 and 816.42. Additionally, final § 819.15 (b) and (c) provides special standards for sealing auger holes.

Section 819.15(a)

Proposed § 816.108(a)(1) required that all auger mining operations be planned and conducted to minimize disturbance of the prevailing hydrologic balance and of the quality and quantity of water in surface- and ground-water systems, both during the operation and after reclamation, as required in §§ 816.41 and 816.42. No comments were received on this paragraph. Therefore, OSM has adopted this general provision, with some editorial revision, as final § 819.15(a). No substantive change is intended.

Section 819.15(b)

Proposed § 816.108 (c) and (d) specified requirements for sealing each auger hole to prevent acid and toxic drainage from the auger holes and access of air to the remaining coal. OSM received several comments on the language of the proposed rule.

One commenter suggested that the term "auger holes" be changed to "[a]ll auger holes" or to "[e]ach auger hole" because Section 515(b)(9) of the Act requires all auger holes to be sealed except where the regulatory authority determines that the impoundment of water by sealing may create an environmental or public-safety hazard. OSM has accepted this comment and revised the final rule accordingly.

Commenters suggested that auger holes be sealed only "[w]hen the regulatory authority determines that drainage from [such] auger holes would create a hazard to the environment or to public health or safety." The commenters argued that the proposed rule would require the sealing of auger holes even when no constructive purpose would be served. This suggestion has been rejected. Section 515(b)(9) of the Act requires all auger holes to be sealed with an impervious and noncombustible material "*except* where the regulatory authority determines that the resulting impoundment of water in such auger holes may create a hazard to the environment or the public health or safety [emphasis added]." Thus, the Act requires sealing of auger holes as a general rule. The commenters' suggestion to require sealing of auger

holes only under certain conditions is inconsistent with the requirement.

Proposed § 816.108(c)(1) required auger holes to be sealed with impervious and noncombustible material to prevent drainage from those holes and access of air to the coal. Proposed § 816.108(c)(2) required sealing of auger holes as contemporaneously as possible with the augering operation, as approved by the regulatory authority.

Two commenters requested that OSM reinstate in this final rule the requirement of previous § 819.11(c)(1) that auger holes containing acid- or toxic-forming material be sealed within 72 hours or that discharge be treated within that time to meet effluent and water-quality standards until sealing occurs. One commenter argued that the previous provisions were more enforceable and therefore should be retained. Another commenter felt that the previous requirement should be reinserted in the new rule since plugging auger holes within 72 hours would cause a significant decrease in the amount of acid mine drainage ultimately generated from those holes as well as reduce the possibility of acid seepage after reclamation. OSM has accepted these comments and reinstated the 72-hour sealing requirement in new final § 819.15(b).

A commenter also objected to the deletion of references to plugging as the preferable method of sealing auger holes in proposed § 816.108(c)(1). The commenter suggested that the final rule retain the "plugging" requirement from previous § 819.11 because plugging by backfilling and compacting noncombustible material is the most common and preferable method of creating a watertight seal for an auger hole. OSM has rejected this suggestion and will not mandate the plugging of auger holes in every case. The language of final § 819.15(b) allows an operator to use any technique approved by the regulatory authority, including plugging, to meet the general performance standards for sealing auger holes with impervious and noncombustible materials. This approach is consistent with Section 515(b)(9) of the Act.

OSM considered two comments on proposed § 816.108(c)(2). The first commenter stated that the "as contemporaneously as practicable" requirement of the proposed rule was more restrictive than previous § 819.11(c)(2) in not allowing 30 days for sealing auger holes which do not discharge acid- or toxic-forming water and less restrictive than previous § 819.11(c)(1) in not requiring sealing within 72 hours for auger holes in which such discharges are present. This commenter felt that the proposed standard would result in less flexibility where necessary and more uncertainty regarding onsite and offsite environmental protection. For this reason, he suggested that the 30-day requirement for sealing all auger holes not discharging water, as provided in the previous rule, be retained. OSM has rejected this comment and adopted the "as contemporaneously as practicable" requirement in final § 819.15(b)(2). In nonhazardous situations, the regulatory authority should have the discretion, on the basis of site-specific conditions, to determine the time period within which auger holes must be sealed. Accordingly, the new rule, as revised and adopted by OSM, grants the regulatory authority discretion to require sealing "as contemporaneously as practicable" where auger holes are not discharging acid- or toxic-forming water.

Another commenter suggested that proposed § 816.108(c)(2) be revised to track language in the preamble to the proposed rule that all auger holes be sealed as "contemporaneously as practicable with the augering operation, as approved by the regulatory authority on a site specific basis." This commenter contended that the addition of the phrase "on a site specific basis" would permit such factors as local geographic and topographic conditions, adverse weather conditions, the size of the operation, and any association of augering with a conventional surface mining operation to be considered by the regulatory authority in reviewing the sealing schedule proposed in the application for an auger mining permit. It is unnecessary to insert the specific phrase recommended by the commenter into the language of final § 819.15(b)(2). OSM recognizes that the regulatory authority should have the flexibility to take into account site-specific conditions in determining what constitutes sealing "as contemporaneously as practicable" for a particular augering operation. Under final § 819.15(b)(2), the regulatory authority has the flexibility to consider the factors cited by the commenter.

Section 819.15(c)

Proposed § 816.108(d) provided that auger holes need not be sealed with an impervious material to prevent drainage if the regulatory authority determined that the resulting impoundment of water may create a hazard to the environment or public health or safety and that drainage from the auger holes will not pose a threat of pollution to surface water and will comply with the requirements of §§ 816.41 and 816.42. No comments were received on this provision which generally tracks previous § 819.11(d), and it has been adopted, as proposed, in new final § 819.15(c).

Section 819.17 Subsidence protection.

New final § 819.17 contains requirements for protection of surface areas from subsidence damage that may result from auger mining. This section reflects the requirements of proposed § 816.108(a)(4), as revised by OSM on the basis of comments.

Proposed § 816.108(a)(4) required that all auger mining operations be planned and conducted to prevent disturbance of, or damage to, structures or facilities from subsidence both during and after mining. OSM has adopted a final version of this proposed rule which incorporates a number of changes. This new final rule requires an operator who conducts an augering operation to comply with the requirements of § 817.121 (a) and (c).

One commenter recommended that the proposed rule be amended to allow auger mining only when subsidence can be prevented. This comment has been rejected. Another commenter questioned whether Section 516(b)(1) of the Act was being relied upon as authority for proposed § 816.108(a)(4) and argued that OSM had no authority under this statutory provision to require prohibition of auger mining where subsidence could not be prevented and would cause damage. The commenter also recommended that the preamble include citations to the specific statutory provisions relied on by OSM as sources of authority for the final rule on subsidence prevention in auger mining.

The Act does not provide that auger mining may be prohibited if subsidence cannot be prevented. The proviso of Section 515(b)(9) of the Act vests the permitting authority with discretion to prohibit auger mining only when "necessary to maximize the utilization, recoverability or conservation of the solid fuel resources or to protect against adverse water quality impacts." These criteria are included in final § 819.11(b). Even Section 516(b)(1) of the Act implicitly allows subsidence, and only requires that underground mine operators adopt measures to prevent or minimize disturbance and subsidence to the extent technologically and economically feasible.

Specifically, Sections 515(b)(9), 515(b)(12), and 516(b)(1) of the Act were relied upon in the proposal. The authority, basis, and purpose of § 819.17, as finally adopted, is the same as for proposed § 816.108, except that Section 507(f), 515(b)(2), 515(b)(3), and 515(b)(10)

of the Act provide additional statutory authority.

Sections 515(b)(2) and 515(b)(3) of the Act, requiring the restoration of premining land-use capability and approximate original contour, and Section 507(f) of the Act, requiring liability insurance for personal injury and property damage, provide ample authority for subsidence-protection measures for augering operations.

A commenter objected to proposed §816.108(a)(4) on the grounds that it would render subsidence standards for auger mining more stringent than subsidence standards for other types of mining by requiring auger operations to prevent damage from subsidence in all cases without allowing operators the option of mitigating these damages. For this reason, the commenter recommended that OSM adopt the same subsidence standards for auger mining as were proposed for underground mines under § 817.121 (47 FR 16609, April 16, 1982).

Because subsidence may occur in augering operations, the same subsidence-control measures adopted for underground mining activities in § 817.121 are appropriate for auger mining operations. Standards relating to protection from subsidence should be consisent without regard to whether the subsidence results from underground mining or augering operations. Section 817.121(a) requires an operator to adopt measures consistent with known technology to prevent subsidence to the extent technologically and economically feasible or, alternatively, to adopt mining technology which provides for planned subsidence in a predictable and controlled manner. Accordingly, OSM has revised proposed § 816.108(a)(4) to incorporate the provisions of § 817.121(a) to ensure that an operator conducting augering operations will be bound by the same performance standards as are applicable to potential subsidence from underground mining, both during mining and after completion of mining. To accommodate the commenter's concern that subsidence can materially damage land without causing damage to structures and facilities, OSM has specifically incorporated the remedial requirements of § 817.121(c) in final § 819.17. Under § 817.121(c), operators would be required to take specific remedial action if material damage is caused to the land as a result of subsidence. The final revisions to § 817.121 will be provided in a separate rulemaking.

Section 819.19 Backfilling and grading.

New § 816.19 sets backfilling and grading requirements for auger mining operations. Paragraph (a) contains general requirements and Paragraph (b) contains rules applicable to auger mining operations conducted on previously mined areas.

OSM received comments on backfilling and grading requirements for auger mining operations in connection with both its proposal on second-cut contour mining, § 826.12(b) (47 FR 928, January 7, 1982) that was later adopted as interim final § 826.12(b) (47 FR 51316, November 12, 1982) and with its proposal on remining, § 816.109 (47 FR 27734, June 25, 1982). Several commenters suggested that OSM address backfilling and grading requirements for auger mining on previously mined areas in the final rules for augering operations, rather than the final rules for backfilling and grading, or remining. OSM has accepted this suggestion and has adopted specific backfilling and grading requirements for auger mining of previously mined areas in new § 819.19(b). Comments received on the remining or second-cut contour mining rulemakings, which address auger mining of previously mined areas, are responded to in this preamble discussion of final § 819.19(b).

Section 819.19(a)

Proposed § 816.108(a)(3) required auger mining operations to be planned and conducted to ensure fill stability. To avoid confusion, OSM has revised the language of the proposed rule to provide that auger mining operations must be conducted in accordance with the general backfilling and grading requirements of §§ 816.102 and 816.104–816.106. This revision is reflected in new § 819.19(a).

A commenter sought confirmation of whether "fill stability" in proposed § 816.108(a)(3) referred to the stability of backfilled highwalls and asked whether the stability factors for backilled highwalls were also applicable to auger mining operations under the rule. OSM confirms that "fill stability" refers to the stability of any backfill, including backfilled highwalls, and that the minimum static safety factor of 1.3 is required for backfilling highwalls associated with auger mining under the final rule. However, these requirements have not been specified in new § 819.19(a) since they are implicit in the rule's references to the backfilling and grading requirements for surface mining activities, which require restoration of disturbed areas to their approximate original contour (AOC) and complete elimination of any highwall.

Section 819.19(b)

New final § 819.19(b) prescribes backfilling and grading requirements for auger mining of previously mined areas which were not reclaimed to the standards of 30 CFR Chapter VII where there is insufficient reasonably available spoil to backfill the highwall completely. The final rule requires the highwall to be eliminated "to the maximum extent technically practical" according to the criteria of § 819.19(b)(1–4). The language of final § 819.19(b) generally tracks the provisions of interim final § 826.12(b) for remining on steep slopes (47 FR 51316, November 12, 1982), except for the additional requirement specified in § 819.19(b)(4). Interested persons should consult the preamble to § 826.12(b) for a more detailed discussion of the meaning and rationale for the precise language used in final § 819.19(b).

Several commenters claimed that the highwall-elimination requirement provides an economic disincentive to auger remining operations since auger mining generates insufficient spoil for complete backfilling of highwalls and since operators ordinarily do not have appropriate equipment to transport spoil material from borrow pits outside the permit area to the remining site. One commenter supported the requirement for elimination of highwalls "to the maximum extent practical" proposed remining § 816.109(a), claiming that it would encourage operators to maximize coal recovery by using thin-seam mining techniques in situations where thickness of overburden would make conventional surface mining operations uneconomical.

OSM recognizes that insufficient spoil material and equipment limitations are constraints on remining by auger methods. In response to commenters' concerns, the phrase "to the maximum extent practical" in proposed remining § 816.109(a) has been changed to "to the maximum extent technically practical" in final § 819.19(b). Operators are required to use only standard backfilling and grading procedures and equipment to eliminate highwalls in accordance with final § 819.19(b). This change is intended to reflect OSM's belief that the Act does not require operators to employ extraordinary measures to eliminate the highwall in remining situations where spoil is insufficient for complete backfilling of the highwall.

Commenters found proposed remining § 816.109(a)(3), which required elimination of highwalls to the maximum extent practical, economically and environmentally senseless

inasmuch as operators would be required to disturb areas with 20 to 30 years of vegetation to backfill preexisting, nonpolluting highwalls. They suggested that OSM require only partial backfilling and grading of preexisting benches during reclamation after remining to avoid disturbance of land surfaces not contributing to drainage or erosion problems. OSM has rejected the commenters' suggestion. The Act generally requires complete elimination of highwalls and restoration of the AOC. Because Congress did not specifically consider the remining of previously mined areas, a limited exception to the general requirement is justified where insufficient spoil exists within the permit area to eliminate the highwall completely. However, it is consistent with Congress' intent to require all reasonably available spoil within the permit area to be used to cover the newly affected highwall even if such spoil is covered with vegetation.

In response to a comment, one change has been made to the concept of reasonably available spoil as it appeared in the November 12, 1983 steep slope remining rule. The commenter was concerned that possible abuse of the rule could result from a situation in which spoil in the immediate vicinity of the permit area would not be considered reasonably available solely because it would not be within the permit area. To account for this situation the final rule requires operators, in determining the reasonable availability of spoil, to include in the permit area any spoil in the immediate vicinity of the auger mining operation.

However, the rule does not require the disturbance of virgin areas unless insufficient spoil were available to cover the auger holes with 4 feet of material. This requirement is discussed below. Following the required backfilling and grading of the highwall, the revegetation requirements of §§ 816.111, 816.113, 816.114, and 816.116 apply to all disturbed portions of the permit area.

One commenter thought the economics of complete backfilling and grading would discourage remining. Because partially reclaimed highwalls are more environmentally stable than unreclaimed, abandoned highwalls, the commenter suggested that restoration to AOC be required only for areas where new mining or second-cut remining occurs, but not for remined areas where augering or thin-seam mining techniques are used and no additional spoil is generated. OSM generally agrees with the commenter's position. Final § 819.19(b) reflects the applicable standards for augering operations on previously mined areas to ensure that reclamation proceeds in an environmentally sound manner.

Several commenters objected to the proposal to allow auger mining operations on previously mined lands a variance from the AOC restoration requirement on the grounds that auger mining renders existing highwalls inherently unstable. They asserted that OSM should require total elimination of existing highwalls adversely impacted by auger remining operations, based on the decisions of the Interior Board of Surface Mining Appeals (Board) in *Miami Springs Properties* v. *OSM*, 2 IBSMA 399 (December 23, 1980) and *Cedar Coal* v. *OSM*, 1 IBSMA 145 (April 20, 1979). OSM disagrees with the commenters' reading of the Board's opinions in *Miami Springs* and *Cedar Coal*. Neither decision provides authority for the principle that the highwall must be presumed adversely affected by a mining operation. These cases provide that OSM is without authority to require an operator to eliminate a preexisting highwall unless the operator's activities will have an adverse physical impact on that portion of the highwall. Commenters should refer to the preamble discussion in the remining proposal (47 FR 27737, June 25, 1982) for a more detailed explanation of the legal justification for not requiring complete elimination of preexisting highwalls in previously mined areas which were not reclaimed to meet the performance standards of the permanent program.

Under new final § 819.19(b)(3), for all auger mining operations on previously mined areas, the coal seam mined must be covered with a minimum of 4 feet of nonacid-, nontoxic-forming material. This additional requirement is appropriate for auger mining, even though it may require the operator to disturb a virgin area to obtain additional spoil, because of the small quantity of spoil generated during auger mining and because of the potential water-quality problems which may result from leaving exposed coal seams and uncovered auger holes.

One commenter suggested that the proposed rule be replaced by the following provision:

> When augering operations are conducted on previously mined areas, auger holes shall be covered with a minimum of four feet of non-toxic, non-combustible material. The highwall shall be covered to the extent feasible using available material without disturbing additional acreage.

OSM has accepted the commenter's suggested language with respect to providing special standards for auger mining previously mined areas and requiring a minimum of 4 feet of cover over auger holes. However, the suggestion to allow less than 4 feet of cover over auger holes where additional acreage would have to be disturbed has been rejected for the reasons explained above.

Final § 819.19(b)(4) requires that any remnant of the highwall must be stable and not pose a hazard to the public health and safety or to the environment. This provision was proposed as part of remining § 816.109(a)(5) (47 FR 27734, June 25, 1982).

A commenter thought that proposed remining § 816.109(a)(5) was inconsistent with the statutory requirement for complete highwall elimination on the basis of a suggestion in the preamble of the remining proposal that other measures, including flattening the slope or stepping the highwall, would be adequate for stabilizing highwalls.

OSM has rejected the commenter's contentions. Final § 819.19(b)(4) applies only to those highwall remnants remaining after the remined highwall has been covered to maximum extent technically practical, using all reasonably available spoil. Under new § 819.19(b)(4), the operator is required to demonstrate the stability of the remaining highwall to the satisfaction of the regulatory authority. However, the final rule allows the operator to specify the means that will be used to stabilize the remaining highwall.

One commenter thought that proposed remining § 819.19(e) failed to explain how and by whom it would be determined whether remining by augering would adversely affect a reexisting highwall. Under final § 819.19(b), the regulatory authority is required to determine whether the proposed auger remining operation will adversely affect any preexisting highwall. This determination will be made during the process of permit approval on the basis of information submitted to the regulatory authority by the operator. The best information to consult in connection with the determination of highwall stability is data relative to highwall slope, type of rock, or observations of existing highwalls under similar conditions. In view of these considerations, final § 819.19(b) allows the regulatory authority to determine highwall stability according to these site-specific conditions.

OSM's proposal on remining (47 FR 2774, June 25, 1982) included permit application requirements for auger mining of previously mined lands.

Section 780.34(a), as proposed, specified information needed in all remining permit applications to meet the performance standards of proposed § 816.109 for backfilling and grading of previously mined lands. Additional permit application requirements for remining by augering were provided in proposed § 780.34(c).

OSM has decided not to adopt proposed §§ 780.34 and 784.34 as final rules on remining permit applications. Existing § 785.20 contains sufficient permit requirements to cover the application requirements for remining operations. Additional standards may be added by individual State regulatory authorities as necessary to accommodate the needs of individual State programs. As experience is gained under the rule, additional guidance may be added to the Federal rule if it becomes apparent that such guidance is necessary. Some commenters supported proposed § 780.34 inasmuch as it would allow the regulatory authority the flexibility to consider diversity of terrain and site-specific conditions of previously mined areas. One commenter thought proposed § 780.34(c) should apply to secondary-recovery techniques as well as to conventional auger mining methods in remining situations. Another commenter claimed that the permit application requirements for auger mining of previously mined lands proposed in § 780.34(c) would discourage the use of the Thin Seam Miner (TSM) and Extended Depth Secondary Recovery (EDSR) methods for remining. A commenter argued that the proposal requiring applications for remining permits to assure long-term stability of highwalls would make auger mining of previously disturbed lands sufficiently costly to eliminate its use in remining situations. For this reason, the commenter recommended that monies from the Abandoned Mine Reclamation Fund (AML Fund) be used to finance the cost of ensuring the stability of augered highwalls after remining. Another commenter contended that OSM should require auger mining operations on previously mined lands to comply with special permitting and enforcement requirements in the absence of scientific proof that the proposed remining operation would not adversely affect any preexisting highwall.

As previously indicated, this rule is not written specifically for thin-seam mining or extended-depth recovery mining. States may, however, apply these rules to such mining operations if deemed appropriate based on local conditions. OSM does not believe that these rules impose an undue burden on operators to provide information on the stability of highwall remnants. As previously indicated, final § 819.19(b) allows the regulatory authority to determine highwall stability based on existing local conditions. In addition, the issue of subsidizing remining activities with monies from the AML fund is outside the scope of this rulemaking. However, OSM is in the process of examining this and other issues arising out of the relationship between Titles IV and V of the Act.

Section 819.21 Protection of underground mines.

New final § 819.21 contains requirements for protection of underground mines. Proposed § 816.108(e) was a continuation of previous § 819.11(b) and provided that auger holes must not extend closer than 500 feet, measured horizontally, to any abandoned or underground mine workings, except as approved in accordance with § 816.79. OSM has adopted the proposed rule in final § 819.21.

One commenter recommended that the proposed rule be eliminated since it requires an auger operator to get a second approval from the Mine Safety and Health Administration (MSHA) for drilling auger holes near underground mines, in addition to the MSHA approval required for such activity as part of the operator's ground-control plan under 30 CFR 77.1000 of the MSHA regulations. OSM has rejected this recommendation and retained the provision as proposed. Under 30 CFR 77.1000, the operator is required to establish and follow a ground-control plan that will be consistent with prudent engineering design and ensure safe working conditions. However, this MSHA regulation does not specify a distance between an auger hole and an active or abandoned minesite. Thus, retention of the reference to § 816.79 in final § 819.21 is consistent with the requirement in Section 515(b)(12) of the Act that an operator obtain special approval for surface mining within 500 feet from underground mines to prevent breakthroughs and protect the health and safety of underground miners.

Another commenter suggested that the word "abandoned" be deleted from the language of proposed § 816.108(e). The commenter felt that coal recovery could be maximized by permitting augering near abandoned underground mines. OSM has rejected this suggestion. Section 816.79 does not prohibit mining near abandoned underground mines; it merely imposes special requirements if such mining is proposed.

Cross References

Certain cross references in these rules are to proposed rules that have not yet been finalized and which appear in Volume III of the "Final Environmental Impact Statement OSM EIS–1: Supplement," the availability of which is described below. If such other proposals are not adopted, a conforming technical amendment will be made to this rule.

III. Procedural Matters

Federal Paperwork Reduction Act

The Department of the Interior (DOI) has determined that this final rule does not require the collection of information as defined under 44 U.S.C. 3501 *et seq.*

Executive Order 12291

The DOI has determined that this document is not a major rule and does not require a regulatory impact analysis under Executive Order 12291.

Regulatory Flexibility Act

The DOI certifies that this document will not have a significant economic effect on a substantial number of small entities and therefore does not require a regulatory flexibility analysis under Public Law 96–354.

National Environmental Policy Act

OSM analyzed the impacts of these final rules in its "Final Environmental Impact Statement OSM–EIS–1: Supplement" according to Section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(c)(C). The final supplement is available in OSM's Administrative Record in Room 5315, 1100 L Street, N.W., Washington, D.C., or by mail request to Mark Boster, Chief, Branch of Environmental Analysis, Room 134, Interior South Building, U.S. Department of the Interior, Washington, DC 20240. This preamble serves as the record of decision under NEPA. To the extent that this rule differs from the preferred alternative published in Volume III of the EIS, it falls within the impacts and analysis discussed therein.

List of Subjects in 30 CFR Part 819

Coal mining, Environmental protection, Surface mining.

For the reasons set forth in the preamble, Part 819, Ghapter VII, Title 30 of the Code of Federal Regulations is amended as set forth herein.

Dated: March 24, 1983.

William P. Pendley,

Acting Assistant Secretary, Energy and Minerals.

1. Part 819 is revised to read as follows:

PART 819—SPECIAL PERMANENT PROGRAM PERFORMANCE STANDARDS—AUGER MINING

Sec.
819.1 Scope.
819.11 Auger mining: General.
819.13 Auger mining: Coal recovery.
819.15 Auger mining: Hydrologic balance.
819.17 Auger mining: Subsidence protection.
819.19 Auger mining: Backfilling and grading.
819.21 Auger mining: Protection of underground mining.

Authority: Pub. L. 95–87, 30 U.S.C. 1201 *et seq.*

§ 819.1 Scope.

This part sets environmental protection performance standards for surface coal mining and reclamation operations involving auger mining.

§ 819.11 Auger mining: General.

(a) Auger mining operations shall be conducted in accordance with the requirements of Part 816 of this chapter, except as provided in this part.

(b) The regulatory authority may prohibit auger mining, if necessary to—

(1) Maximize the utilization, recoverability, or conservation of the solid-fuel resource, or

(2) Protect against adverse water-quality impacts.

§ 819.13 Auger mining: Coal recovery.

(a) Auger mining shall be conducted so as to maximize the utilization and conservation of the coal in accordance with § 816.59 of this chapter.

(b) Auger mining shall be planned and conducted to maximize recoverability of mineral reserves remaining after the operation and reclamation are complete.

(c) Each person who conducts auger mining operations shall leave areas of undisturbed coal, as approved by the regulatory authority, to provide access for future underground mining activities to coal reserves remaining after augering is completed, unless it is established that the coal reserves have been depleted or are so limited in thickness or extent that it will not be practicable to recover the remaining coal. This determination shall be made by the regulatory authority upon presentation of appropriate technical evidence by the operator.

§ 819.15 Auger mining: Hydrologic balance.

(a) Auger mining shall be planned and conducted to minimize disturbances of the prevailing hydrologic balance in accordance with the requirements of §§ 816.41 and 816.42 of this chapter.

(b) All auger holes, except as provided in Paragraph (c) of this section, shall be—

(1) Sealed within 72 hours after completion with an impervious and noncombustible material, if the holes are discharging water containing acid-or toxic-forming material. If sealing is not possible within 72 hours, the discharge shall be treated commencing within 72 hours after completion to meet applicable effluent limitations and water-quality standards until the holes are sealed; and

(2) Sealed with an impervious noncombustible material, as contemporaneously as practicable with the augering operation, as approved by the regulatory authority, if the holes are not discharging water containing acid-or toxic-forming material.

(c) Auger holes need not be sealed with an impervious material so as to prevent drainage if the regulatory authority determines that—

(1) The resulting impoundment of water may create a hazard to the environment or public health or safety, and

(2) The drainage from the auger holes will—

(i) Not pose a threat of pollution to surface water, and

(ii) Comply with the requirements of §§ 816.41 and 816.42 of this chapter.

§ 819.17 Auger mining: Subsidence protection.

Auger mining shall be conducted in accordance with the requirements of § 817.121(a) and (c) of this chapter.

§ 819.19 Auger mining: Backfilling and grading.

(a) *General.* Auger mining shall be conducted in accordance with the backfilling and grading requirements of §§ 816.102 and 816.104–816.106 of this chapter.

(b) *Remining.* Where auger mining operations affect previously mined areas that were not reclaimed to the standards of this chapter and the volume of all reasonably available spoil is demonstrated in writing to the regulatory authority to be insufficient to completely backfill the highwall, the highwall shall be eliminated to the maximum extent technically practical in accordance with the following criteria:

(1) The person who conducts the auger mining operation shall demonstrate to the regulatory authority that the backfill, designed by a qualified registered professional engineer, has a minimum static safety factor for the stability of the backfill of at least 1.3.

(2) All spoil generated by the auger mining operation and any associated surface coal mining and reclamation operation, and any other reasonably available spoil shall be used to backfill the area. Reasonably available spoil shall include spoil generated by the mining operation and other spoil located in the permit area that is accessible and available for use and that when rehandled will not cause a hazard to the public safety or significant damage to the environment. For this purpose, the permit area shall include spoil in the immediate vicinity of the auger mining operation.

(3) The coal seam mined shall be covered with a minimum of 4 feet of nonacid-, nontoxic-forming material and the backfill graded to a slope which is compatible with the approved postmining land use and which provides adequate drainage and long-term stability.

(4) Any remnant of the highwall shall be stable and not pose a hazard to the public health and safety or to the environment.

(5) Spoil placed on the outslope during previous mining operations shall not be distributed if such disturbances will cause instability of the remaining spoil or otherwise increase the hazard to the public health and safety or to the environment.

§ 819.21 Auger mining: Protection of underground mining.

Auger holes shall not extend closer than 500 feet (measured horizontally) to any abandoned or active underground mine workings, except as approved in accordance with § 816.79 of this chapter.

General Services Administration

National Archives and Records Service

Federal Advisory Committee Management; Interim Rule

GENERAL SERVICES ADMINISTRATION

National Archives and Records Service

41 CFR Part 101-6

Federal Advisory Committee Management

AGENCY: National Archives and Records Service, General Services Administration.

ACTION: Interim rule, with comments invited prior to final rulemaking.

SUMMARY: This interim rule provides administrative and interpretive guidelines and management controls for Federal agencies concerning the implementation of the Federal Advisory Committee Act, as amended (5 U.S.C. App. I) (hereinafter "the Act"). In a previous issue of the **Federal Register**, GSA published a proposed rule on the management of Federal advisory committees and requested comments. The proposed rule was intended to provide Federal agencies with guidance and instructions for implementing the Act. Comments received have been considered in formulating this interim rule, which also has been reorganized to include new policy guidance to Federal agencies. Comments are invited on this interim rule prior to its publication as a final rule.

DATES: Effective date: April 28, 1983. Comments must be received by: July 27, 1983.

ADDRESS: Comments should be submitted to the Special Assistant to the Archivist (NX), National Archives and Records Service, Washington, DC 20408, Attention: FPMR Comments.

Comments will be available for examination at the Committee Management Secretariat, Room G-5, 9th Street and Pennsylvania Ave., NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ron Martinson, Special Assistant to the Archivist, Committee Management Secretariat, (202) 523-4884.

SUPPLEMENTARY INFORMATION:

Background

GSA's authority for administering the Act is contained in section 7 of the Act and Executive Order 12024, (42 FR 61445, 3 CFR, 1977 Comp., p. 158). Under Executive Order 12024, the President delegated to the Administrator of General Services all the functions vested in the President by the Act, as amended, except that of reporting annually to the Congress, and redelegated to the Administrator the responsibility for the preparation of the annual report required by section 6(c) of the Act.

Originally, the responsibility for all matters relating to advisory committees was placed in the Office of Management and Budget (OMB), which issued Circular A-63 (March 27, 1974) and A-63 Transmittal Memoranda 1, 4, and 5.

In light of GSA's experience in administering the Act, GSA is issuing this interim rule, which consolidates many features of these OMB Circulars with existing GSA reporting requirements. The rule also provides additional procedures and guidance for Federal agencies.

Prior Comments

GSA issued an advance notice of proposed rulemaking (44 FR 66852, November 21, 1979) and a notice of proposed rulemaking (45 FR 55769; August 21, 1980). As a result of the proposed rule, 23 comments were received, and all have been carefully considered in developing this interim rule.

One of the major issues raised by commenters was the extent of applicability of the Act. Some commenters believe, as a matter of general policy, that advisory groups which are not formally structured, which do not have a continuing existence, which meet to deal with specific issues, and whose meetings do not constitute an established pattern of conduct should not be covered under the Act. One commenter asserted that the case law does not preclude administrative interpretation of the Act in limiting the definition of "Advisory committee" and also limiting coverage of "ad hoc groups." Another commenter favored a specific exemption for "ad hoc groups," based on Marblestone, (The Coverage of the Federal Advisory Committee Act, 35 Federal Bar Journal, 119). These comments were received before the decision in *National Resources Defense Council* v. *Edwards*, 2 GDS ¶ 82,070 (D.D.C., 1981). This rule reflects our judgment that the exclusion of certain non-recurring meetings from the Act's coverage is fully consistent with the statute, its legislative history, and judicial interpretation. The need for this flexibility was recently recognized in *National Anti-Hunger Coalition, et al.* v. *Executive Committee of the President's Private Sector Survey on Cost Control*, et al., Civil Action No. 82-3592 (D.D.C., Feb. 24, 1983). In wrestling with FACA's imprecise language, the court stated, "The Court's task in the absence of clear indications in the statute or its legislative history to the contrary, must be to achieve a common-sense interpretation. Congressional concerns must be accommodated in a manner that produces a constitutional result, in this instance to leave the President with substantial freedom to formulate policy recommendations free from excessive intrusion." The interim rule provides guidance on those meetings between Federal officials and non-Federal individuals which do not fall within the scope of the Act, and for which a charter and consultation with GSA is not required.

Another issue raised was whether the Act applies to committees "utilized" by agencies. One commenter contended that the proposed rule failed to distinguish committees "established" by agencies from those "utilized" by agencies. That commenter also believed that the Cox decision (*Center for Auto Safety* v. *Cox*, 580 F.2d 689 (D.C. Cir., 1978)) would make the Act inapplicable to "utilized" committees. GSA has reviewed the *Cox* decision and does not agree with that interpretation. Subsequent judicial precedent supports GSA's position. The interim rule does define a "utilized" committee.

In providing guidance on those groups and meetings not subject to FACA, and on utilization, GSA is in general agreement with the following recommendation of the Administrative Conference of the United States.

The most serious problems regarding the coverage of FACA have involved the applicability of the Act (a) to groups convened by agencies, on an ad hoc basis, without formal organization or structure or continuing existence, to obtain views on particular matters of immediate concern to the agency, and (b) to privately established groups whose advice is "utilized" by an agency.

a. Uncertainty as to the applicability of FACA to one-time or occasional meetings between ad hoc groups and government officials has tended to discourage useful contacts with the private sector. It is impractical to require such meetings to conform with the Act's requirements regarding chartering, advance notice, and structure of the committee. The Administrative Conference believes that the Act is not applicable to ad hoc, unstructured, noncontinuing groups and that GSA's guidelines should make this clear. Coverage of such groups would not further the purposes of the Act.

b. The conference believes that the definition of "advisory committee" is limited to committees either established by government action or affirmatively supported and "utilized" by the government through institutional arrangements which amount to the adoption of the groups as a preferred source of advice. GSA's guidelines should make this clear.

Thus, under the interim rule, the President or Federal official would "utilize" a committee when that individual recognizes, uses, or intends to use the committee as a preferred source of advice on specific, identified government policy within that individual's scope of responsibility. Such committees, although they may be informal, have an organizational structure, a stable membership and, generally, a continuing existence. They meet to present recommendations developed by that committee, as distinguished from meetings whose attendees respond as individuals.

While this interim rule provides guidance and examples of meetings with groups of individuals which are not subject to the Act, agencies are cautioned that the group can become subject to the Act if a pattern or "track record" develops whereby an agency seeks advice from the group in such a way that it becomes a preferred source of advice.

Questions were raised as to when all the requirements of the Act apply to subcommittees. One commenter suggested a clarification of the definition of subcommittee, so that the establishment of subcommittees is not used to circumvent the principles of the Act.

Another commenter, however, suggested that a subcommittee is not required to consult and charter separately if it has functions related to the functions of the parent committee, and reports to the parent committee. The Court's reasoning in *National Anti-Hunger Coalition* v. *Executive Committee* supports the latter recommendation by emphasizing that the Act's requirements apply to committees which provide advice and recommendations directly to the President or Federal official, and as opposed to the parent committee. Therefore, the requirements for consultation and chartering of subcommittees which appear in § 101–6.1007(a)(3) apply when a subcommittee functions independently of the parent committee such as reporting directly to the President or agency official rather than to the parent committee.

Another commenter, on behalf of a consortium of State and local interest groups, requested an administrative exemption from FACA coverage for State and local officials and their representatives. Although this comment has merit, GSA has concluded this exemption would require amendment of the Act.

One commenter suggests that there be a definition of "meeting" so it would be clear when an agency must comply with procedures under the Act. It is GSA's position that informal meetings or gatherings of advisory committee members in which substantive committee business is discussed are subject to the provisions of the Act. GSA recognizes the administrative difficulty in this area and has concluded that the sponsoring agency can best determine whether a specific gathering of advisory committee members constitutes an advisory committee meeting. GSA believes, however, that meetings of two or more advisory committee members convened to gather information or conduct research for the committtee to analyze relevant issues and facts, or to draft option papers for consideration by the advisory committee do not constutute a meeting of the advisory committee subject to the requirements of the Act, *National Anti-Hunger Coalition* v. *Executive Committee*, supra.

Several commenters raised questions as to GSA's role in the establishment of advisory committees. Some commenters objected to the requirement for GSA concurrence before an agency head can establish, use, or renew an advisory commitee under general agency authority.

We recognize the sensitive nature of this particular issue, that is, the role to be played by GSA in the establishment of an advisory committee. GSA is fully aware that an agency head, not GSA, "determines as a matter of formal record" (after consultation with the Administrator) that the establishment of an advisory committee is "in the public interest in connection with the performance of duties imposed on that agency by law."

Hlowever, GSA is responsible for "all matters relating to advisory committees" (5 U.S.C. App. I) and a meaningful rather than a *pro forma* consultation role is necessary to fulfill this responsibility. This conclusion is reinforced by the language in sec. 9(a)(2) of FACA, which provides that an advisory committee cannot be established until the consultaion process has taken place. In the absence of specific direction in either FACA or its legislative history as to what precisely is meant by the word "consultation," it is incumbent on GSA to determine the parameters of this process.

We have concluded to follow the consultative process as it has been performed, in the beginning by OMB and then by GSA. GSA will, therefore, continue the practice of giving notification of "concurrence/nonconcurrence" in consultations received from agencies.

We do not view or interpret the words "concur/nonconcur" as implying a veto power by GSA over a determination which properly rests in the head of another agency. Rather, we interpret the word "concur" as meaning that GSA agrees the establishment of a particular committee is in accord with the terms and spirit of FACA. Conversely, a nonconcurrence would indicate GSA's opinion that the establishment of a committee is not in accord with FACA.

GSA also believes that its notification of "concurrence/nonconcurrence" to an agency head is a logical way to complete the consultation process. Such notification is GSA's means of letting the agency head know that the consultation process has been fulfilled.

In the final analysis, a nonconcurrence by GSA would not legally prevent an agency from establishing a particular committee. However, GSA in discharging its oversight function of advisory committees intends to prepare and submit periodic reports to the President, OMB, and the Congress. Our nonconcurrence in any advisory committee, therefore, would be included in these reports.

GSA also intends to watch for situations in which agencies might redefine or restructure advisory committees in such a way as to exclude them from the Act's coverage and requirements. GSA will analyze these situations to determine if an agency is elevating form over substance to disguise an advisory committee which should comply with the Act. If this is the case, GSA will recommend that such groups are chartered and operate in accordance with the Act. In situations where GSA and the sponsoring agency cannot resolve the matter, GSA will identify in future reports the groups for which a charter has been recommended and no action has been taken.

Other commenters suggest that if GSA had not replied to an agency consultation letter by the end of a specific review period, GSA concurrence would be implied. We have not included this suggestion in this rule on the grounds that it is not practical. When GSA receives an agency consultation letter, it gathers pertinent information to assess the need for the committee. Occasionally, certain information is not available or provided within a specified time period. To allow a committee to come into being without that information would not be in the public interest. This interim rule provides that GSA will respond to an agency consultation letter within 15 days, if possible.

Another commenter raised the question of the role of the OMB budget examiner in the consultation process. The budget examiner's role has been integral to the consultation process since it began. When the function was transferred to GSA, OMB continued to make available the assistance of budget examiners in the consultation process.

Several commenters objected to language requiring that agencies maintain complete documentation on their advisory committees in a single location on the basis that such a requirement was administratively excessive and unreasonable. Most of the commenters on this issue suggest that GSA's language follow the language in the Act. GSA agrees and has eased this requirement.

One commenter asked that the regulation prohibit dual and multiple committee memberships in which one person serves on more than one committee in one of more agencies. That commenter believed that such multiple memberships should be discouraged in the interest of providing access by a broader number of citizens to membership on advisory committees. GSA believes that, if necessary, agencies should deal with this issue in their own regulations and procedures.

Some commenters suggested that a definition of "Independent Presidential Advisory Committee" be included in order to make clear which Presidential advisory committees receive administrative support from the Administrator of General Services. GSA agrees with this suggestion and has included a definition of an independent PAC. The duties of the Chairperson of an independent PAC are set out separately.

Several comments were made on the organization of the proposed rule and the clarity of certain terms. For example, some suggestions were offered on alternative language to describe "balanced membership." GSA has attempted to clarify in this interim rule the guidelines for balanced membership. The rule describes balance in terms of specific function to be performed by a particular committee. This is consistent with the language of *National Anti-hunger Coalition* v. *Executive Committee*, supra.

Additional Instructions

Pursuant to section 7(d) of the Act, the Administrator after study and consultation with the Director, Office of Personnel Management, is to establish guidelines with respect to uniform fair rates of pay for comparable services for members, staffs, and consultants of advisory committees. The consultation process with OPM has taken place.

Consistent with the intent of Congress and the President to control the costs of administering advisory committees, the interim rule contains a provision which states that unless otherwise required by law, or when necessary to obtain balanced membership or a particular level of technical expertise, no member of an advisory committee shall receive compensation for his or her services. In other words, unless an exception applies, compensation shall be set at zero.

GSA believes that a sufficient number of citizens of all backgrounds and qualifications can be found to provide advice and recommendations to the Federal Government through voluntary service on advisory committees.

The interim rule does provide for the reimbursement of necessary travel expenses and per diem, as well as a mechanism where agencies may engage consultants to serve as members of advisory committees when this is necessary to acquire certain technical expertise or balanced membership that cannot be satisfied solely through the appointment of noncompensated members. However, it is the responsibility of each agency to make a good faith effort to meet its membership requirements on a noncompensated basis. GSA in its oversight responsibility will include membership information in program reports and recommendations which it prepares on Federal advisory committees. The interim regulation contains no changes to present methods used by agencies regarding compensation of consultants or staff under OPM and OMB procedures.

The rules have also been amended to reflect the change in the annual agency reporting requirements from a calendar year to a fiscal year cycle brought about by Pub. L. 97-375.

Executive Order 12291

The General Services Administration has determined that this proposed rule is not a major rule for purposes of Executive Order 12291 of February 17, 1981, because it will not result in an annual effect on the economy of $100 million or more, will not cause a major increase in costs to consumers or others, and will not have significant adverse effects. The General Services Administration has based all administrative decisions on this proposed rule on adequate information concerning the need for and consequences of this proposed rule. GSA has also determined that the potential benefits to society from this proposed rule far outweigh the potential costs, has maximized the net benefits, and has chosen the alternative involving the least net cost to society.

Regulatory Flexibility Act

These regulations are not subject to the regulatory flexibility analysis or other requirements of 5 U.S.C. 603 and 604.

Effect on Other Directives

This rule replaces OMB Circular A-63 (March 27, 1974) and A-63 Transmittal Memoranda 1, 4, and 5 which have been rescinded by OMB.

List of Subjects in 41 CFR Part 101-6

Civil rights, Government property management, Grant programs, Intergovernmental relations, Surplus Government property, Relocation assistance, Real property acquisition, Federal advisory committees.

Dated: March 21, 1983.

Ray Kline,

Acting Administrator of General Services

Accordingly, 41 CFR Part 101-6 is amended as set forth below:

PART 101-6—[AMENDED]

Subpart 101-6.10 is added to Part 101-6 to read as follows:

Subpart 101-6.10—Federal Advisory Committee Management

Sec.

101-6.1001 Scope.
101-6.1002 Policy.
101-6.1003 Definitions.
101-6.1004 What are examples of advisory meetings or groups not covered by the Act of this regulation?
101-6.1005 By what authority may an advisory committee be established?
101-6.1007 How does an agency head establish an advisory committee?
101-6.1009 What responsibilities does an agency head have for an established advisory committee or subcommittee as specified in §101-6.1007?
101-6.1011 What are the responsibilities of the chairperson of an independent Presidential advisory committee?
101-6.1013 What are the charter filing requirements?
101-6.1015 What advisory committee information must be published in the **Federal Register**?
101-6.1017 What are the duties of the agency Committee Management Officer?
101-6.1019 What are the duties of the Designated Federal Official?
101-6.1021 How may the public participate in advisory committee meetings?
101-6.1023 What is the procedure for closing an advisory committee meeting?
101-6.1025 Are minutes required at advisory committee meetings?
101-6.1027 How are advisory committees terminated?

Sec.
101–6.1029 How are advisory committees renewed?
101–6.1031 When should an advisory committee charter be amended?
101–6.1033 When should advisory committee members and staff receive compensation and expense reimbursements for committee activities?
101–6.1035 What reports are required for advisory committees?

Authority: Sec. 205(c) 63 Stat. 390; 40 U.S.C. 486(c); sec. 7, 5 U.S.C. App. 1; and E.O. 12024, 3 CFR 1977 Comp. p. 158.

Subpart 101–6.10—Federal Advisory Committee Management

§ 101–6.1001 Scope.

(a) The following regulations define the policies, establish minimum requirements, and provide guidance to agency management for the establishment, operation, administration, and duration of advisory committees subject to the Federal Advisory Committee Act, as amended. Reporting requirements which keep the Congress and the public informed of the number, purpose, membership, activities, and cost of these advisory committees are also included.

(b) The Act and these regulations do not apply to advisory meetings or groups listed in § 101–6.1004.

§ 101–6.1002 Policy.

The policy to be followed by Federal departments, agencies, and commissions, consistent with the Federal Advisory Committee Act, as amended, is that an advisory committee shall be:

(a) Established only when it is essential to the conduct of agency business. Decison criteria would include whether committee deliberations will result in the creation, elimination, or change in regulations, guidelines, or rules affecting agency business; whether the information to be obtained is already available through another advisory committee or source within the Federal Government; whether the committee will make recommendations resulting in significant improvements in service or reductions in cost; or whether the committee recommendations will provide an important additional perspective or viewpoint impacting on agency operations;

(b) Terminated whenever the stated objectives of the committee have been accomplished; the subject matter or work of the committee has become obsolete by the passing of time or the assumption of the committee's main functions by another entity within the Federal Government; or the agency determines that the cost of operation is excessive in relation to the benefits accruing to the Federal Government;

(c) Balanced in its membership in terms of the points of view represented and the functions to be performed; and

(d) Open to the public in its meetings except in those circumstances where a closed meeting shall be determined proper and consistent with the Act.

§ 101–6.1003 Definitions.

"Act" means the Federal Advisory Committee Act, as amended, 5 U.S.C. App. I.

"Administrator" means the Administrator of General Services.

"Advisory Committee" subject to the Act means any committee, board, commission, council, conference, panel, task force, or other similar group, or any subcommittee or other subgroup thereof, established by statute, or established or utilized by the President or any agency official for the purpose of obtaining advice or recommendations on issues or policies which are within the scope of his or her responsibilities.

"Agency" has the same meaning as in section 551(1) of Title 5 of the United States Code.

"Committee member" means an individual who serves by appointment on an advisory committee and has the full right and obligation to participate in the activities of the committee, including voting on committee recommendations.

"Independent Presidential advisory committee" means any Presidential advisory committee not assigned by the President, or the President's delegate, or by the Congress in law, to an agency for administrative and other support and for which the Administrator of General Services may provide administrative and other support on a reimbursable basis.

"Presidential advisory committee" means any advisory committee which advised the President. It may be established by the President or by the Congress, or used by the President in the interest of obtaining advice or recommendation for the President.

"Secretariat" means the General Services Administration's Committee Management Secretariat.

"Staff member" means any individual who serves in a support capacity to an advisory committee.

"Utilized" (or used), as referenced in the definition of "Advisory Committee" of this section, means a committee or other group composed in whole or in part of other than full-time officers or employees of the Federal Government with an established existence outside the Federal Government which the President or agency official(s) adopts, such as through institutional arrangements, as a preferred source from which to obtain advice or recommendations on a specific issue or policy within the scope of his or her responsibilities in the same manner as that individual would obtain advice or recommendations from an established advisory committee.

§ 101–6.1004 What are examples of advisory meetings or groups not covered by the Act or this regulation?

(a) Any committee composed wholly of full-time officers or employees of the Federal Government;

(b) Any advisory committee specifically exempted by an Act of Congress;

(c) Any advisory committee established or utilized by the Central Intelligence Agency;

(d) Any advisory committee established or utilized by the Federal Reserve System;

(e) The Advisory Committee on Intergovernmental Relations;

(f) Any local civic group whose primary function is that of rendering a public service with respect to a Federal program, or any State or local committee, council, board, commission, or similar group established to advise or make recommendations to State or local officials or agencies;

(g) Any meeting initiated by the President or one or more Federal official for the purpose of obtaining advice or recommendations from one individual;

(h) Except with respect to established advisory committees:

(1) Any meeting with a group initiated by the President or one or more Federal official(s) for the purpose of exchanging facts or information; or

(2) Any meeting initiated by a group with the President or one or more Federal official(s) for the purpose of expressing the group's view, provided that the President or Federal official(s) does not use the group as a preferred source of advice or recommendations;

(i) Any committee which is established to perform primarily operational as opposed to advisory functions, except that such committee may be covered by the Act if it becomes primarily advisory in nature. It is the responsibility of the administering agency to determine whether such a committee is primarily operational. If so, it would not fall under the requirements of the Act and this regulation, but would continue to be regulated under relevant laws, subject to the direction of the President and the review of the appropriate legislative committees; or

(j) Any meeting initiated by a Federal official(s) with more than one individual

for the purpose of obtaining the advice of individual attendees and not for the purpose of utilizing the group to obtain consensus advice or recommendations.

§ 101-6.1005 By what authority may an advisory committee be established?

An advisory committee may be established in one of four ways:

(a) By the President by Executive Order;

(b) By law where the Congress specifically directs the President or an agency to establish it;

(c) By law where the Congress authorizes but does not direct the President or an agency to establish it. In this instance, an agency head shall follow the procedures provided in § 101-6.1007; or

(d) By an agency under general agency authority in Title 5 of the United States Code or under other general agency-authorizing law. In this instance, an agency head shall follow the procedures provided § 101-6.1007.

§ 101-6.1007 How does an agency head establish an advisory committee?

(a) In establishing or using an advisory committee, the head of an agency shall comply with the Act and this subpart, and shall—

(1) Prepare a proposed charter for the committee which includes the information listed in section 9(c) of the Act; and

(2) Submit an original and one copy of a letter to the Administrator proposing to establish or use, reestablish, or renew an advisory committee. The letter shall include the following information:

(i) An explanation of why the committee is essential to the conduct of agency business and in the public interest;

(ii) An explanation of why the committee's functions cannot be performed by the agency, another existing advisory committee, or other means such as a public hearing; and

(iii) A description of the agency's plan to attain balanced membership. For purposes of obtaining balance, agencies shall consider for membership a cross-section of interested persons and groups with demonstrated professional or personal qualifications or experience to contribute to the functions and tasks to be performed. This shall not be construed to limit the participation of any individual where such participation is necessary to obtain divergent points of view that are relevant to the business of the advisory committee. The letter shall be accompanied by two copies of the proppsed charter.

(3) The requirements of paragraphs (a)(1) and (a)(2) of this section shall apply for any subcommittee of a chartered advisory committee, whether its members are drawn in whole or in part from the parent advisory committee, which functions independently of the parent advisory committee such as by making recommendations directly to the agency rather than for consideration by the chartered advisory committee.

(b) The Administrator will review the proposal and notify the agency head of concurrence or nonconcurrence within 15 days of receipt, if possible.

(c) Upon receipt of the Administrator's notification, the agency head shall notify the Administrator in writing that either:

(1) The advisory committee is being established. The filing of the advisory committee charter as specified in § 101-6.1013 shall be considered appropriate written notification in this instance. The agency head shall then comply with the provisions of § 101-6.1009 for an established advisory committee; or

(2) The advisory committee is not being established. In this instance, the agency head shall also advise the Administrator if the agency head intends to take any further action with respect to the proposed advisory committee.

§ 101-6.1009 What responsibilities does an agency head have for an established advisory committee or subcommittee as specified in § 101-6.1007?

(a) The agency head shall:

(1) File the charter as specified in § 101-6.1013;

(2) Issue agency regulations or guidelines as may be necessary to operate and oversee the advisory committee;

(3) File required documents;

(4) Publish required notices in the **Federal Register**;

(5) Designate a Committee Management Officer for the agency;

(6) Appoint a Designated Federal Official for each advisory committee;

(7) Ensure the opportunity for public participation as required;

(8) Ensure that detailed minutes are kept of each advisory committee meeting;

(9) Ensure that certain rates of pay are justified;

(10) Submit required reports; and

(11) Terminate the advisory committee when appropriate.

(b) The agency head should:

(1) Not later than the initial meeting of an advisory committee, submit to committee members, committee staff, consultants, and appropriate agency management personnel a written statement of the purpose, objectives and expected acomplishments for the committee.

(2) Solicit in writing or in a formal meeting at least annually the views of the committee members on the effectiveness, activities, and management of the committee, including recommendations for improvement. Comments received should be reviewed by the agency head or senior policy official responsible for the committee to determine whether improvements or corrective action is warranted. Copies of such recommendations should be retained until the committee is terminated or renewed.

(3) Involve key management personnel of the agency whose interests are affected by the committee in committee meetings, including reviewing reports and establishing agendas.

(4) Limit membership on advisory committees to 25 members for committees with an agency-wide mission and 12 members for committees with a more narrowly defined function or specialized area of interest. An agency head may authorize additional members for a committee when the agency head determines that such additional members are necessary to the function of the committee or to achieve balanced membership.

(5) Periodically but not less than annually review the level of agency staff support dedicated to advisory committees to ensure that expenditures are justified in consideration of committee activity and the benefits accruing to the Government.

(6) Monitor the attendance and participation of advisory committee members and consider replacing any member who has missed a substantial number of scheduled committee meetings.

(7) Establish meeting dates and distribute agendas and other meeting materials well in advance.

§ 101-6.1011 What are the responsibilities of the chairperson of an independent Presidential advisory committee?

The Chairperson shall comply with the Act and this regulation and shall—

(a) Determine with the Administrator or his or her delegate the role of the designated Federal Official;

(b) Designate a Committee Management Officer for the committee; and

(c) Fulfill the responsibilities of an agency head as specified in paragraphs (a)(1), (3), (4), (7), (8), and (10) of § 101-6.1009.

§ 101–6.1013 What are the charter filing requirements?

No advisory committee may operate, meet, or take any action until its charter has been filed as follows:

(a) *Advisory committee established, used, reestablished, or renewed by an agency.* The agency head shall file—

(1) The charter with the standing committees of the Senate and of the House of Representatives having legislative jurisdiction of the agency;

(2) A copy with the Secretariat; and

(3) A copy with the Library of Congress, Exchange and Gift Division, Federal Documents Section, Federal Advisory Committee Desk, Washington, DC 20540.

(b) *Advisory committee specifically directed by law or authorized by law.* Procedures are the same as in paragraph (a) of this section.

(c) *Presidential advisory committee.* When either the President or the Congress establishes an advisory committee which advises the President, the responsible agency head or, in the case of an independent Presidential advisory committee, the President's designee, shall file—

(1) The charter with the Secretariat;

(2) A copy with the Library of Congress; and

(3) If specifically directed by law, a copy with the standing committees of the Senate and of the House of Representatives having legislative jurisdiction of the agency or of the independent Presidential advisory committee.

§ 101–6.1015 What advisory committee information must be published in the Federal Register?

(a) *Committee establishment, reestablishment, or renewal.*—(1) A notice in the **Federal Register** is required when any advisory committee, except a committee directed by law or established by the President, is established, reestablished, or renewed. Upon receiving notification of the completed review and concurrence in the committee from the Administrator, the agency head shall publish a notice in the **Federal Register** that the committee is being established, reestablished, or renewed, and for a new committee such notice shall also include a statement describing the nature and purpose of the committee and an affirmation that it is necessary and in the public interest.

(2) Establishment and reestablishment notices shall appear at least 15 days before the committee charter is filed, except that the Administrator may approve less than 15 days when requested for good cause by the agency head. The 15-day notice requirement does not apply to committee renewals.

(b) *Committee meetings.*—(1) The agency head or the chairperson of an independent Presidential advisory committee shall publish at least 15 days prior to an advisory committee meeting a notice in the **Federal Register** which includes:

(i) The exact name of the advisory committee as chartered;

(ii) The time, date, place, and purpose of the meeting;

(iii) A summary of the agenda; and

(iv) A statement whether all or part of the meeting is open to the public or closed, and if closed, the reasons why, citing the specific exemptions of the Government in the Sunshine Act (5 U.S.C. 552b) as the basis for closure.

(2) In exceptional circumstances, the agency head or chairperson of an independent Presidential advisory committee may give less than 15 days notice, provided that the reasons for doing so are included in the committee meeting notice published in the **Federal Register**.

§ 101–6.1017 What are the duties of the agency Committee Management Officer?

(a) The Committee Management Officer is designated by the agency head or by the chairperson of an independent Presidential advisory committee and his or her name, agency address, and phone number given to the Secretariat.

(b) The Committee Management Officer shall—

(1) Discharge the responsibilities enumerated in section 8(b) of the Act;

(2) Maintain in a single location a complete set for the charters and membership lists of each of the agency's advisory committees;

(3) Maintain information on the nature, functions, and operations of each of the agency's advisory committees; and

(4) Provide information on how to obtain copies of minutes of meetings and reports of each of the agency's advisory committees.

§ 101–6.1019 What are the duties of the Designated Federal Official?

The agency head, or in the case of an independent Presidential advisory committee, the Administrator, shall designate a full-time Federal employee to be the Designated Federal Official for the advisory committee, who shall—

(a) Attend the meetings;

(b) Adjourn the meetings when he or she determines that adjournment is in the public interest, and

(c) For agency-established advisory committees:

(1) Approve or call the meeting of the advisory committee;

(2) Approve the agenda; and

(3) Chair the meeting when so determined by the agency head.

§ 101–6.1021 How may the public participate in advisory committee meetings?

The agency head, or the chairperson of an independent Presidential advisory committee, shall ensure that—

(a) Each advisory committee meeting is held at a reasonable time and in a place reasonably accessible to the public;

(b) The meeting room size is sufficient to accommodate advisory committee members, committee or agency staff, and interested members of the public;

(c) Any member of the public is permitted to file a written statement with the advisory committee; and

(d) Any member of the public may speak at the advisory committee meeting if the agency's regulations or guidelines so permit.

§101–6.1023 What is the procedure for closing an advisory committee meeting?

(a) To close all or part of a meeting, a duly authorized official acting on behalf of the committee shall submit a request to the agency head, or, in the case of an independent Presidential advisory committee, the Administrator or his delegate, at least 30 days prior to the scheduled meeting date, citing the specific provisions of the Government in the Sunshine Act (5 U.S.C. 552b) which justify the closure. The agency head, or, in the case of an independent Presidential advisory committee, the Administrator, may waive the 30-day requirement when a lesser period of time is requested and justified by the duly authorized official or chairperson.

(b) As required by the Government in the Sunshine Act, the general counsel of the agency, or in the case of an independent Presidential advisory committee, the General Services Administration Counsel, shall review all requests to close meetings.

(c) If the agency head, or in the case of an independent Presidential advisory committee, the Administrator or the person to whom such authority is delegated by the agency head or Administrator, determines that the request is consistent with the Government in the Sunshine Act and the Federal Advisory Committee Act, he or she shall issue a determination that all or part of the meeting may be closed.

(d) The agency head, or the chairperson of an independent Presidential advisory committee, shall:

(1) Make a copy of the determination available to the public upon request; and

(2) Publish the meeting notice in the **Federal Register**, including the reasons why all or part of the meeting is closed, citing the specified exemptions used from the Government in the Sunshine Act.

§101–6.1025 Are minutes required at advisory committee meetings?

The agency head or, in the case of an independent Presidential advisory committee, the chairperson, shall ensure that detailed minutes of each advisory committee are kept. The minutes must include—

(a) Time, date, and place;

(b) A list of the following persons who were present:

(1) Advisory committee members and staff;

(2) Agency employees; and

(3) Members of the public who present oral or written statements;

(c) An estimated number of other members of the public present;

(d) An accurate description of each matter discussed and the resolution, if any, made by the committee of such matter; and

(e) Copies of each report or other document received or issued by the Committee.

§ 101–6.1027 How are advisory committees terminated?

Any advisory committee shall automatically terminate not later than 2 years after it is established, reestablished, or renewed, unless—

(a) Its duration is otherwise provided in law;

(b) It is renewed; or

(c) The President or agency head terminates it before that time.

§ 101–6.1029 How are advisory committees renewed?

(a) Advisory committees established by the President may be renewed by appropriate action of the President and the filing of a new charter.

(b) Advisory committees specifically directed by law:

(1) Which terminate under the provisions of section 14 of the Act may be reestablished by an agency head, provided that the agency head complies with the provisions of § 101–6.1007; or

(2) Whose duration extends beyond 2 years shall require a new charter to be filed every 2 years after the date of enactment of the law establishing the committee. If a new charter is not filed, the committee is not terminated, but may not meet or take any action.

(c) Advisory committees authorized by law or established or used by an agency: At least 30 but not more than 60 days before the committee terminates, an agency head who intends to renew a committee shall comply with the provisions of § 101–6.1007.

§ 101–6.1031 When should an advisory committee charter be amended?

(a) *Committees established by the President or specifically directed by law.* When the President by Executive order or the Congress by law changes the authorizing language which has been the basis for establishing an advisory committee, the agency head or chairperson of an independent Presidential advisory committee shall—

(1) Amend those sections of the current charter affected by the new Executive order or law; and

(2) File the amended charter as specified in § 101–6.1013.

(b) *Agency-authorized committees.* The charter of an agency-authorized advisory committee may be amended when an agency head determines that the existing charter no longer accurately reflects the goals or procedures of the committee. Changes may be minor, such as revising the name of the advisory committee, or may be major dealing with the basic objectives or composition of the committee.

(1) To make a minor amendment to a committee charter, an agency head shall:

(i) Amend the charter language as necessary, and

(ii) File the amended charter as specified in § 101–6.1013.

(2) To make a major amendment to a committee charter, an agency head shall:

(i) Amend the charter language as necessary.

(ii) Submit the proposed amended charter with a letter to the Administrator requesting concurrence in the amended language and an explanation of why the changes are essential and in the public interest. The Administrator or his or her delegate will give notice to the agency head of concurrence or nonconcurrence in the request within 15 days of receipt of the request, if possible; and

(iii) File the amended charter as specified in § 101–6.1013.

(c) *Renewals.* Amending any existing advisory committee charter does not constitute renewal of the committee under § 101–6.1029.

§ 101–6.1033 When should advisory committee members and staff receive compensation and expense reimbursements for committee activities?

(a) *Committee members.* Unless specifically required by law, agencies shall not compensate advisory committee members for their service on an advisory committee. In the exceptional case where an agency head is unable to meet the need for technical expertise or the requirement for balanced membership solely through the appointment of noncompensated members, the agency head may contract for the services of a specific consultant who may be appointed as a member of the advisory committee. In such a case, the agency head shall follow the procedures set forth in paragraph (b) of this section. This paragraph (a) shall apply to any committee member appointed after May 15, 1983. No committee member shall be compensated other than as allowed in paragraph (b) of this section after September 30, 1983.

(b) *Consultants.* Prior to hiring a consultant to an advisory committee, the agency head must determine that the expertise or viewpoint to be offered by the consultant is not otherwise available without cost to the agency. When an agency head hires a consultant, the compensation may not exceed the maximum rate of pay authorized by 5 U.S.C. 3109. Hiring of consultants shall be in accordance with OMB Circular A–120 and applicable statutes, regulations, and Executive Orders.

(c) *Staff members.* An agency may fix the pay of each advisory committee staff member at a rate of the General Schedule, General Management Schedule, or Senior Executive Service in which the Staff member's position would appropriately be placed (5 U.S.C. Chapter 51). An agency may not fix the pay of a staff member at a rate higher than the daily equivalent of the maximum rate for GS–15, unless the agency head has determined that under the General Schedule, General Management Schedule, or Senior Executive Service classification system, the staff member's position would appropriately be placed at a grade higher than GS–15. This determination must be reviewed annually by the agency head.

(1) In establishing rates of compensation, the agency head shall comply with applicable statutes, regulations, and Executive Orders.

(2) A staff member who is a Federal employee shall serve with the knowledge of the Designated Federal Official and the approval of the employee's direct supervisor. If a non-Federal employee, the staff member shall be appointed in accordance with applicable agency procedures, following consultation with the advisory committee.

(d) *Travel expenses.* Advisory committee members and staff members, while engaged in the performance of their duties away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons employed intermittently in the Government service.

(e) *Special services.* While performing advisory committee duties, an advisory committee member who is blind or deaf or who qualifies as a handicapped individual may be provided services by a personal assistant for handicapped employees if the member—

(1) Qualifies as a handicapped individual as defined by section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 794); and

(2) Does not otherwise qualify for assistance under 5 U.S.C. 3102 by reason of being an employee of an agency.

(f) *Noncompensated services.* Nothing in this section prevents an agency from accepting the noncompensated or reimbursed services of a member, consultant, or staff member of an advisory committee.

(g) *Exclusions.*—(1) Nothing in this section prevents any person who (without regard to his or her service with an advisory committee) is a full-time Federal employee from receiving compensation at the rate at which he or she otherwise would be compensated as a full-time Federal employee.

(2) Nothing in this section prevents any person who immediately before his or her service with an advisory committee was a full-time Federal employee from receiving compensation at the rate at which he or she was compensated as a full-time Federal employee.

(3) Nothing in this section affects a rate of pay or a limitation on a rate of pay that is specifically established by law or a rate of pay established under the General Schedule classification and pay system in chapter 51 and chapter 53 of title 5, United States Code.

§ 101–6.1035 What reports are required for advisory committees?

GSA will periodically issue instructions to agencies regarding reporting requirements and procedures. Included in those requirements, each agency shall file a report on a fiscal year basis providing requested program, financial, and membership information to GSA. This information shall be used by GSA for preparing program recommendations and status reports on advisory committee matters, and for assisting the President in preparing and submitting a fiscal year report to the Congress. The membership list for each advisory committee shall be updated quarterly with notification furnished to GSA of all new vacancies and appointments during the period.

Department of Energy

Federal Energy Regulatory Commission

Determinations by Jurisdictional Agencies Under the National Gas Policy Act of 1978

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Volume 877]

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: April 22, 1983.

The following notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF).

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Source data from the Form 121 for this and all previous notices is available on magnetic tape from the National Technical Information service (NTIS). For information, contact Stuart Weisman (NTIS) at (703) 487–4808, 5285 Port Royal Rd, Springfield, Va 22161.

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 Mile rule)
102–3: New well (1000 Ft rule)
102–4: New onshore reservior
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal Seams
107–DV: Devonian Shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,
Secretary

BILLING CODE 6717-01-C

[Volume 878]

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: April 22, 1983.

The following notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF).

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Source data from the Form 121 for this and all previous notices is available on magnetic tape from the National Technical Information Service (NTIS). For information, contact Stuart Weisman (NTIS) at (703) 487–4808, 5285 Port Royal Rd., Springfield, Va. 22161.

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 Mile rule)
102–3: New well (1000 Ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal Seams
107–DV: Devonian Shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-C

[Volume 879]

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: April 22, 1983.

The following notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF).

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Source data from the Form 121 for this and all previous notices is available on megnetic tape from the National Technical Information Service (NTIS). For information, contact Stuart Weisman (NTIS) at (703) 487–4808, 5285 Port Royal Rd., Springfield, Va. 22161.

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 Mile rule)
102–3: New well (1000 Ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal Seams
107–DV: Devonian Shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-11393 Filed 4-27-83; 8:45 am]

BILLING CODE 6717-01-C

[Volume 880]

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: April 22, 1983.

The following notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF).

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Source data from the Form 121 for this and all previous notices is available on magnetic tape from the National Technical Information Service (NTIS). For information, contact Stuart Weisman (NTIS) at (703) 487–4808, 5285 Port Royal Rd., Springfield, Va. 22161.

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 Mile rule)
102–3: New well (1000 Ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal Seams
107–DV: Devonian Shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.) Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/FHWA	USDA/SCS		DOT/FHWA	USDA/SCS
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/MA	LABOR		DOT/MA	LABOR
DOT/NHTSA	HHS/FDA		DOT/NHTSA	HHS/FDA
DOT/RSPA			DOT/RSPA	
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	

List of Public Laws

Last Listing April 27, 1983

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents. U.S. Government Printing Office, Washington, D.C. 20402 (phone 202–275–3030).

S.J. Res. 53 / Pub. L. 98–23 To authorize and request the President to designate the month of May 1983 as "National Physical Fitness and Sports Month". (Apr. 26, 1983; 97 Stat. 174) Price: $1.75

S. 126 / Pub. L. 98–24 Alcohol and Drug Abuse Amendments of 1983. (Apr. 26, 1983; 97 Stat. 175) Price: $2.25

Note: The Office of the Federal Register proposes to terminate the formal program of agency publication on assigned days of the week. See 48 FR 19283, April 28, 1983.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 48, No. 84
Friday, April 29, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 752

Adverse Actions

AGENCY: Office of Personnel Management.

ACTION: Final regulation.

SUMMARY: This amendment to OPM's regulations is made to comply with an opinion and order of the Merit Systems Protection Board which held that OPM's regulatory provisions for emergency suspensions during the notice period of an adverse action exceed OPM's regulatory authority and thus are invalid. Accordingly, OPM is rescinding its regulatory provision which, under certain circumstances, provided an exception to the requirement that a Government agency give a Federal employee 30 days of advance notice when proposing an adverse action. By separate amendment, OPM is proposing to add a new provision that under certain circumstances, a Government agency may change or withdraw the position duties of a Federal employee during the 30 days' advance notice period of a proposed adverse action.

EFFECTIVE DATE: April 29, 1983.

FOR FURTHER INFORMATION CONTACT: Cynthia Field, Office of Planning and Evaluation (202) 254–5517.

SUPPLEMENTARY INFORMATION: Prior to passage of the Civil Service Reform Act of 1978, civil service regulations provided for emergency suspensions without pay as an exception to the general requirement that a Government agency give 30 days of advance notice when proposing an adverse action against a Federal employee. Under the regulations, an agency was allowed a maximum period of five days to process an emergency suspension, during which time the employee was placed in a nonduty, pay status. Once an emergency suspension was effected, the employee remained in a nonduty status, and in addition, was placed in a nonpay status. An emergency suspension expired when the agency made a determination on whether to take the proposed adverse action. Thus, the total length of an emergency suspension was invariably no more than 30 days. As a result, because a suspension of 30 days or less was not an action requiring 30 days of advance notice, the provision for emergency suspension was consistent with then existing law.

With passage of the Civil Service Reform Act, Congress made a suspension of more than 14 days an adverse action requiring advance notice of 30 days. The provision permitting emergency suspensions, which OPM carried over into its new regulations, therefore conflicted with the new statutory notice requirement. In *Cuellar v. United States Postal Service,* MSPB Order No. SF075299045 (November 13, 1981), the Merit Systems Protection Board considered an appeal from an emergency suspension imposed pursuant to 5 CFR 752.404(d)(3) and overturned it because the agency had failed to give the appellant the 30 days of advance notice required by 5 U.S.C. 7513(b)(1). The Board held that 5 CFR 752.404(d) is invalid since OPM had exceeded its statutory authority to regulate in issuing this regulation.

OPM agrees that the new statutory notice requirement prohibits emergency suspensions which call for the withholding of pay during the notice period. A clear purpose of 5 U.S.C. 7513(b)(1) is to ensure that an employee remains on the payroll for at least 30 days after an agency proposes an adverse action. Accordingly, OPM is amending 5 CFR Part 752 by rescinding 5 CFR 752.404(d)(3) in order to comply with this Opinion and order. By separate amendment, OPM is proposing to add a regulation permitting agencies, under certain cricumstances, to place employees in a nonduty status with pay during the notice period.

Pursuant to section 553(b)(3)(B) of Title 5 of the United States Code, the Director finds that good cause exists to make this amendment effective in less than 30 days. The regulation is being made effective immediately to ensure that agencies will not take actions under this regulatory provision which has been held to be invalid.

E.O. 12291 Federal Regulation

OPM has determined that this is not a major rule as defined under Section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it affects only Federal agencies and employees.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 51

United States Standards for Grades of Table Grapes (European or Vinifera Type)

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule amends the voluntary U.S. Standards for Grades of Table Grapes (European or Vinifera Type). This rule will add two seedless varieties to those now listed in the standards and permit all seedless varieties to be covered by the same minimum berry size requirements; provide for adjustment to recent changes in California and Arizona maturity regulations; and, add a new subsection applicable to maturity of table grapes subject to U.S. import regulations.

The Agricultural Marketing Service has the responsiblility, in cooperation with industry, to maintain grade

standards in line with current cultural and marketing practices.

EFFECTIVE DATE: April 29, 1983. The Director of the Federal Register approves the incorporation by reference of certain publications in 7 CFR Part 51 effective on April 29, 1983.

FOR FURTHER INFORMATION CONTACT: Michael V. Morrelli, Fresh Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. (202) 447–2011.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA procedures and Executive Order 12291 and has been designated as a "non-major" rule. It will not result in an annual effect of $100 million or more. There will be no major increase in cost or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions. It will not result in significant effects on competition, employment, investments, productivity, innovations, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities, as defined by the Regulatory Flexibility Act, Pub. L. 96–354 (5 U.S.C. 601), because it reflects current marketing practices.

A proposal to amend the U.S. Standards for Grades of Table Grapes (European or Vinifera Type) was published in the **Federal Register** on March 21, 1983 (48 FR 11718–11719) with a comment period ending April 20, 1983. Copies of the proposal were distributed to interested persons for review and comment. All responses received favored the proposed changes. Changes are as follows:

(1) Permit all seedless varieties to be covered by the same size requirements by adding "Superior Seedless, Flame Seedless and other seedless varieties" to the applicable size sections of the U.S. Fancy and U.S. No. 1 Table grades.

(2) Reference maturity requirements for grapes grown in Arizona and California to the respective State regulations in effect on the effective date of the amendment of these standards by incorporating, by reference, the current Arizona and California regulations. This will correct the technical conflict which currently exists between State maturity regulations and maturity requirements of the U.S. standards.

(3) Add a subsection that will require grapes subject to U.S. import regulations to meet the maturity requirements specified in the import regulations.

It is found that it is contrary to public and industry interests to postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), and good cause exists for making this amendment effective upon publication in that: (1) the domestic grape harvest will begin on or about May 1, 1983; (2) the regulatory provisions of a Federal marketing order and U.S. import regulations will become effective May 1, 1983; (3) no changes were made in the proposed rule except for the incorporation by reference of current Arizona and California maturity regulations.

List of Subjects in 7 CFR Part 51

Fresh fruits, vegetables and other products (inspection, certification and standards), Incorporation by reference.

PART 51—[AMENDED]

Accordingly, 7 CFR Part 51 is amended as follows:

1. In § 51.882, paragraph (i)(1)(ii) is revised to read:

§ 51.882 U.S. Fancy Table.

* * * * *

(i) * * *

(1) * * *

(ii) For Thompson Seedless, Perlette, Delight, Beauty Seedless, Superior Seedless, Flame Seedless and other seedless varieties, 75 percent shall be at least ten-sixteenths of an inch; and,

* * * * *

2. In § 51.884, paragrpah (i)(1)(i) is revised to read:

§ 51.884 U.S. No. 1 Table.

* * * * *

(i) * * *

(1) * * *

(i) Thompson Seedless, Perlette, Delight, Beauty Seedless, Superior Seedless, Flame Seedless and other seedless varieties nine-sixteenths of an inch.

* * * * *

3. § 51.887 is revised to read:

§ 51.887 Maturity requirements.

(a) In the case of grapes grown in Arizona or California, "mature" means grapes in any lot shall meet the maturity requirements for the variety as set forth in the applicable State Agricultural Laws and Regulations in effect on the effective date of this amendment.

(1) Arizona maturity regulations are contained in Title 3, Chapter 7, Article 1, Section R3–7–104, Subsection 7, 1982 Arizona Official Compilation of Administrative Rules and Regulations, Arizona Fruit and Vegetable Standardization and are incorporated by reference under 5 U.S.C. 552(a) and 1 CFR Part 51.[2]

(2) California maturity regulations are contained in the 1981 Administrative Code—Title 3 of California, Group 4, Article 25, and are incorporated by reference under 5 U.S.C. 552(a) and 1 CFR Part 51.[2]

(b) Grapes subject to U.S. import regulations shall meet the maturity requirements specified in such regulations.

(c) Grapes produced in States other than Arizona or California, or grapes imported from countries outside the United States during periods in which U.S. import regulations do not apply, shall meet the minimum percentage of soluble solids set forth in Table III as determined by use of a standard hand refractometer.

TABLE III

Variety	Percent of soluble solids
Muscat	17.5
All varieties not listed in this table	16.5
Cardinal, Emperor, Perlette, Ribier, Olivette Blanche, Rish Baba, Red Malaga, and similar varieties	15.5

(1) The minimum percentage of soluble solids for any lot shall be determined from the juice of at least 10 percent, by weight, of whole bunches of the least mature grapes in that container which appears to have the least mature grapes. No lot shall be considered as failing to meet these requirements unless samples from two containers which appear to have the least mature grapes test below the required percentage of soluble solids.

(Agricultural Marketing Act of 1946, Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended [7 U.S.C. 1622, 1624])

Done at Washington, D.C., on: April 25, 1983.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

[FR Doc. 83–11566 Filed 4–28–83; 8:45 am]

BILLING CODE 3410–02–M

7 CFR Part 54

Regulations for Federal Meat Grading and Certification Services

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends § 54.27 of the regulations governing the grading and certification of meats, prepared meats, and meat products by increasing the fees for voluntary Federal meat grading and certification services to reflect increased program operating costs.

EFFECTIVE DATE: May 31, 1983.

FOR FURTHER INFORMATION CONTACT: David K. Hallett, Chief; Meat Grading and Certification Branch; Livestock, Meat, Grain, and Seed Division; Agricultural Marketing Service, USDA; Room 1–M, Annex Building; Washington, D.C. 20250 (Telephone 202/382–1246).

SUPPLEMENTARY INFORMATION:

Regulatory Impact Analysis

This action was reviewed under U.S. Department of Agriculture procedures established to implement Executive Order 12291 and was classified as a nonmajor rule pursuant to Section 1(b)(1), (2), and (3) of that order. Accordingly, a regulatory impact analysis is not required. This action also was reviewed under the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 601 *et seq.*). William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this rule will not have a significant economic impact on a substantial number of small entities. This rule increases fees to cover escalating costs of providing voluntary Federal meat grading and certification services. The increased fees reflect a minimal increase in the cost-per-unit graded and/or certified currently borne by all entities using the services. The increased fees, therefore, will not have a significant economic effect on meatpackers, processors, or consumers, and will not affect normal competition in the marketplace.

Background

The Agricultural Marketing Act of 1946, as amended, 7 U.S.C. 1621 *et seq.*, authorizes the Secretary of Agriculture to provide voluntary Federal meat grading and certification services, to facilitate the orderly marketing of meats and meat products, and to enable consumers to obtain the quality of meat which they desire. It also provides for the collection of fees from users of Federal meat grading and certification services which are approximately equal to the costs of providing services. The hourly fees for service are established in accordance with the salaries and fringe benefits of meat graders, the costs of supervision, travel, training, and all administrative costs of operating the program. As these costs increase, the fee rates also must be increased so that the program remains financially self-supporting as required by law.

Comments

On November 23, 1982, the Agricultural Marketing Service published in the **Federal Register** (47 FR 52691) an interim final rule increasing the fees for Federal meat grading and certification services, effective November 28, 1982. This rule was published on an interim basis with request for comments as a means of providing full public participation in the rulemaking process. Additionally, this rule was implemented on an interim basis without a prior proposal because increased renvenues were needed immediately to cover the increased costs of providing service. Comments on this amendment were requested by January 28, 1983.

During the 60-day comment period, the Agency received five letters in response to the interim final rule. Four comments were received from meat and livestock associations and one from a meatpacking and processing firm.

Discussion of Comments

All five comments reflected dissatisfaction with the fee increase and expressed the view that any increase during the current economic plight of the meat industry was excessive and not justifiable. The commentors questioned how the collected fees are spent, and they requested a detailed breakdown of program operating costs. Additionally, the commentors requested additional information on program cost increases and more justification for the fee rate increases. The comments contained general and specific observations on increasing the fee rates, and one comment suggested alternatives to increasing the fees.

In determining the increased fee rates, the Agency considered all costs associated with providing service. Although one commentor assumed that less than 50 percent of the base hourly fee rate is used to recover the direct costs of meat graders, approximately 70 percent of the fee rate is used for this purpose. These direct costs include the meat grader's base salary rate and overtime rate; the cost of the grader's fringe benefits, which include Agency contributions for life and health insurance, workmen's compensation, medicare, retirement, annual leave, sick leave, uniform allowances, etc.; and the cost of reimbursable travel and transfer costs which are not charged directly to applicants of the service. The remaining 30 percent of the fee rate is used to recover all other direct and indirect program operating costs. These costs include supervisory and clerical salaries and fringe benefits, employee training and career development, supervisory travel, office rents, communications, utilities, equipment, supplies, and all support services of the Division and Agency. The following detailed breakdown of the fees, as requested by the commentors, is based on the actual fiscal year 1983 budgeted allotment of revenue to offset the expenses of operating the meat grading and certification program.

DIRECT PROGRAM COSTS

	Percent
Salaries (Graders, Supervisors, Clerks, etc.)	56.33
Fringe Benefits	15.56
Travel and Transportation	10.95
Rent, Communications, Utilities	2.51
Printing, Reproduction, Supplies, Equipment	0.74
National Finance Center's Billings and Collections	1.44
Other Services (Training, Federal Telecommunications System, etc.)	2.21
Nonpermanent Training and Development	0.82
Fair Labor Standards Act Settlements	1.45
Total	92.0

INDIRECT PROGRAM COSTS

	Percent
Division and Agency Overhead (Includes Information, Financial, Personnel, and Management Support Services)	8.0

For fiscal year 1983, both the direct and indirect costs of providing service escalated making it necessary to increase the fee rates as required by the Agricultural Marketing Act of 1946. The increased base hourly rate was established on the projections of the estimated hours of revenue expected during the fiscal year. The increased operating expenses of the meat grading and certification program for fiscal year 1983 are summarized as follows:

1. $670,000—The amount of the 4-percent Federal salary increase granted to employees in October.

2. $116,000—The 1.3-percent assessment for Medicare coverage paid by the Agency.

3. $147,000—The increased amount charged by the National Finance Center,

USDA, for processing meat grading and acceptance certificates.

4. $292,000—One-third of the $875,000 cost increase which was awarded to meat graders as a result of a litigation settlement made by the Department of Justice with the American Federation of Government Employees. This settlement involved backpay claims to meat graders under the Fair Labor Standards Act.

5. $172,000—The nonpermanent cost increase for organizational training and career development.

6. $192,795—The increased costs assessed by the Division and Agency for overhead expenses.

7. $119,660—The projected cost increase for all other direct and indirect program activities including travel, communications, utilities, equipment, supplies, printing , etc.

Prior to increasing the fee rates on an interim basis, the Agency considered several cost-cutting alternatives. As suggested by one commentor, the Agency evaluated the need for maintaining the current number of graders and supervisors nationwide. The commentor believed that fewer meat graders should be needed because the demand for meat grading and certification had declined as a result of plant closings and increased marketing of ungraded beef. While it is true that fewer plants operate today than several years ago, the nationwide demand for the service has not changed much. In fact, over the last several years the tonnage of graded and certified meats has actually increased due to increased requests for certification services. Also, although there has been an increase in the sale of ungraded beef, the demand for grading services has not lessened significantly. Plants using grading services still request meat graders to review most or all carcasses slaughtered and grade those that qualify for USDA Prime and Choice.

Another alternative considered by the Agency and suggested by a commentor involved a reduction in the training and supervision of meat graders. This option, however, was considered not to be in the best interests of the U.S. meat industry and consumers. Without adequate supervision and training, inaccurate and nonuniform applications of the U.S. grade standards and specifications could occur which would cause gross economic inequities among segments of the meat industry. Also, this would negatively impact on the reliability of Federal grades as consumers' guidelines in selecting the quality of meat they desire. The uniform and accurate application of grade standards and specifications nationwide is essential to maintaining the effectiveness, integrity, and credibility of grading and certification services.

One commentor was concerned that the increased fee rates may render grading and certification cost-ineffective for the users of the service and more especially for the small entities using the service. This commentor requested a copy of the review that was made under U.S. Department of Agriculture procedures pertaining to a regulatory impact analysis. Although the interim final rule and this final rule both may imply under **SUPPLEMENTARY INFORMATION** that a written analysis was made by the Agency, such is not the case. A review was made under U.S. Department of Agriculture procedures established to implement Executive Order 12291 to determine if the final rule could be classified as a major rule. The rule was classified nonmajor because (1) it will not result in an annual effect on the economy of $100 million or more, (2) there will be no major increase in production costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographical regions, and (3) the rule will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. Therefore, the rule was classified as nonmajor and a regulatory impact analysis is not required.

In reviewing this rule, it was determined that the financial impact of the fee rate increase on the industry and the consumer will be minimal. The new fees reflect an extremely small increase in the cost-per-pound of meat graded and/or certified currently borne by those entities using meat grading and certification services. In fact, the cost of grading and certification will remain approximately one-tenth of a cent per pound graded and/or certified. Prior to the fee increase, the per pound cost of grading and certification on a nationwide average was approximately $0.00140 per pound. Under the increased fee rates, this cost is only $0.00145 per pound. The relative value of the commodity also was considered in the rulemaking process. For example, the cost of beef grading on a per carcass basis will remain only about 25 cents. Since a typical beef carcass now has a value of nearly $700, the 25 cents grading cost is extremely small. Therefore, it was determined that the increased fees would not have a significant economic effect on meatpackers, processors, or consumers and will not affect normal competition in the meat industry.

In view of the foregoing, the base hourly rate for voluntary Federal meat grading and certification services performed between the hours of 6 a.m. and 6 p.m., Monday through Friday, except on Federal legal holidays, is increased from $23.20 to $25.00 per hour. For work performed on Saturday or Sunday and before 6 a.m. or after 6 p.m., Monday through Friday, except on Federal legal holidays, the hourly rate is increased from $28.20 to $30.00 per hour. For all work performed on Federal legal holidays, the hourly rate is increased from $46.40 to $50.00 per hour.

Pursuant to the authority in 5 U.S.C. 553, it is found that other public procedure and notice with respect to these amendments are impracticable and unnecessary, and good cause if found for making these amendments effective as a final rule without changes.

Accordingly, the section of the regulations appearing in 7 CFR Part 54, relating to hourly fees for Federal grading and certification of meat, prepared meats, and meat products is revised as set forth below.

List of Subjects in 7 CFR Part 54

Meat and meat products, Grading and certification, Beef, Veal, Lamb, Pork.

PART 54—MEAT, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

1. The authority citation for Part 54 reads as follows:

Authority: Agricultural Marketing Act of 1946, Secs. 203, 205, as amended; 60 stat. 1087, 1090, as amended (7 U.S.C. 1622 and 1624).

2. 7 CFR 54.27(a) is revised to read as follows:

§ 54.27 Fees and other charges for service.

* * * * *

(a) *Fees based on hourly rates.* Except as otherwise provided in this section, fees for service shall be based on the time required to render the service, calculated to the nearest 15-minute period, including time required for the preparation of certificates and travel of the official grader in connection with the performance of service. A minimum charge for one-half hour shall be made for service pursuant to each request notwithstanding that the time required to perform service may be less than 30 minutes. The base hourly rate shall be $25 per hour for work performed between the hours of 6 a.m. and 6 p.m., Monday through Friday, except on Federal legal holidays; $30 per hour for

work performed before 6 a.m. or after 6 p.m., Monday through Friday, and anytime Saturday or Sunday except on Federal legal holidays; and $50 per hour for all work performed on Federal legal holidays.

BILLING CODE 3410-02-M

Food and Nutrition Service

7 CFR Parts 210, 215, 220, 235 and 245

[Amendments 9, 24, 27, 45 and 58, Respectively]

Procurement Standards and Other Technical Changes

AGENCY: Food and Nutrition Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the regulations for the National School Lunch Program, Special Milk Program, School Breakfast Program and State Administrative Expense Funds, and the regulations on determining eligibility for free and reduced price meals and free milk in schools, to make several technical changes. These technical changes revise the procurement standards to reflect the current requirements of the Department's Uniform Federal Assistance regulations and delete obsolete provisions. This rule brings these regulations into conformance with current Departmental and legislative requirements.

EFFECTIVE DATE: May 31, 1983.

FOR FURTHER INFORMATION CONTACT: Stanley C. Garnett, Branch Chief, Policy and Program Development Branch, School Programs Division, Food and Nutrition Service, USDA, Alexandria, Virginia 22302; (703) 756-3620.

SUPPLEMENTARY INFORMATION:

Classification

This final rule has been reviewed under Executive Order 12291 and has been classified as "not major." This rule will not have an annual effect on the economy of $100 million or more, nor will it have a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies or geographic regions. This action will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S. based enterprises to compete with foreign based enterprises in domestic or foreign markets.

This rule has also been reviewed with regard to the requirements of Pub. L. 96-354, the Regulatory Flexibility Act. The Administrator of the Food and Nutrition Service, has certified that this rule will not have a significant economic impact on a substantial number of small entities.

This final rule does not contain any reporting or recordkeeping provisions which are subject to approval by the Office of Management and Budget (OMB).

Background

On July 16, 1982, the Department published a proposed rule (47 FR 30997) which proposed to: (1) Reduce Federal regulatory requirements for School Food Authorities contracting with food service management companies; (2) eliminate the requirement for State agencies or FNSROs, as applicable, to monitor at least 20 percent of School Food Authorities contracting with food service management companies; (3) eliminate the requirement that an Advisory Board assist food service management companies in menu planning; (4) make the food service management company requirements consistent for the school lunch and breakfast programs; (5) eliminate the requirements for School Food Authorities to promote activities to involve parents and the community in the school lunch program; (6) allow State agencies to define poor management, but continue State agency and FNSRO involvement in correcting poor management problems; (7) rewrite portions of the regulations to eliminate unnecessary provisions and redundant language; (8) revise procurement standards to implement the Department's Uniform Federal Assistance Regulations 7 CFR Part 3015; and (9) delete the provision of the breakfast program regulations which requires commodity assistance based upon the number of breakfasts served to children, as required by Pub. L. 96-499.

Commentors were given 60 days to submit comments on the proposed rule. Seventy-five written comments concerning the proposed rule were received. The majority of the commentors focused on eliminating the requirement for parent and community involvement in the school lunch program; eliminating the regulatory requirements for food service management companies contracting with School Food Authorities; and revising the procurement standards to reflect the Department's Uniform Federal Assistance Regulations—Part 3015.

The following paragraphs discuss the concerns of the commentors.

Parent-Community Involvement—Thirty-eight commentors discussed the effect of eliminating the regulatory requirements for parent and community involvement in the lunch program. Twelve of these commentors favored elimination of the requirement and twenty-six opposed it. Commentors in favor of eliminating the requirement believed that involving parents and the community in the lunch program is a time consuming requirement and unnecessary in the implementation of a good lunch program.

The majority of those opposed to the proposal stated two main reasons for maintaining the requirement for parent and community involvement. First, parent and community involvement promotes the development of community participation in the program and thus furthers cultural and ethnic considerations in the lunch program. Secondly, such involvement improves the acceptability of school lunches and increases program participation levels. In response to these concerns, the Department is maintaining the requirement for a plan for parent and community involvement in the lunch program.

Food Service Management Companies—Seventy commentors discussed the proposed provision which reduced the Federal regulatory requirements for School Food Authorities which contract with food service management companies. Seven of these commentors favored the proposed reductions in requirements, while sixty-three opposed them. The major reasons stated for reducing the requirements were to allow more State and local flexibility in the administration of the school lunch program and facilitate the contracting of food service management companies with School Food Authorities. However, the majority of commentors believed that reducing the Federal regulatory requirements for food service management companies weakens the local School Food Authorities capability to maintain high nutritional, health and safety standards when contracting for school meal services. Also, commentors stated that the Department initially issued the food service management company rules in 1979 because of the concern over possible program abuse. Commentors believed that the Department must continue to provide regulatory control which will protect the quality and accountability of the lunch

program whether it is operated by food service management companies or local School Food Authorities. Some commentors further recommended that the Department strengthen the current regulatory requirements for food service management companies. Two other areas of concern were the amount of responsibility which would be placed on the State without Federal regulatory support and the increased administrative burden on School Food Authorities which oftentimes lack personnel to develop, monitor and control contracts.

In response to the overwhelming support for the regulations as currently written, the Department is not amending the regulations regarding contracts with food service management companies.

Procurement Standards—Twenty commentors discussed the proposed revisions to the procurement standards. Three commentors favored the proposed revisions and seventeen opposed them. Some commentors misunderstood the intent of the revisions. The proposal updated the procurement standards to reflect the current procurement requirement of the Department and OMB Circular A–102 and cross-referenced these documents rather than paraphrased the content as the regulations are currently written. The commentors opposed to the proposal stated that cross-referencing Part 3015 and OMB Circular A–102 rather than paraphrasing the procurement standards in the school program regulations would impose a burden on State and local agencies because States would have to make Part 3015 and OMB Circular A–102 available to School Food Authorities. Because the Departmental regulations and OMB circulars are available from governmental agencies, the procurement standards are not paraphrased in the final rule. More importantly, cross-referencing the Department's Part 3015 regulation and the OMB Circular, rather than paraphrasing the contents, ensures national uniformity in the application of the procurement standards. If obtaining copies of Part 3015 and OMB Circular A–102 proves difficult, the Department will reconsider this decision.

The proposal did not address the procurement standards for the Special Milk Program (SMP) and State Administrative Expense Funds (SAE). The Department proposed the Uniform Federal Assistance Regulations on July 20, 1981 (46 FR 37252) and accepted comments. The final regulations were published on November 10, 1981. The uniform standards established by Part 3015 became applicable to the SMP and SAE at that time. Therefore, the Department is revising the SMP and SAE regulations in this final rule to update the procurement and the SAE property management standards. Also, the corresponding terms which refer to procurement standards and property management standards are deleted.

Obsolete Provision

In Part 245, a paragraph which referred to State eligibility criteria and which is now obsolete is revised in this rulemaking.

Conclusion—Because of the negative responses from commentors the Department has determined that it would not be beneficial to school food service operations to finalize all the provisions presented in the proposed rule. This final rule implements some technical changes to update the regulations and revises the procurement standards. These revisions are necessary for conformance with the Department's comprehensive procurement standards and with the OMB Circular A–102. The requirements as stated in the current National School Lunch Program and School Breakfast Program regulations, regarding contracting with food service management companies and parent and community involvement in the lunch program remain intact.

List of Subjects

7 CFR Part 210

Food assistance programs, National school lunch program, Grant programs—social programs, Nutrition, Children, Reporting and recordkeeping requirements, Surplus agricultural commodities.

7 CFR Part 215

Food assistance programs, Special milk program, Grant programs—social programs, Nutrition, Children, Milk, Reporting and recordkeeping requirements.

7 CFR Part 220

Food assistance programs, School breakfast program, Grant programs—social programs, Nutrition, Children, Reporting and recordkeeping requirements.

7 CFR Part 235

Food assistance programs, National school lunch program, School breakfast program, Special milk program, Grants administration, Intergovernmental relations, Reporting and recordkeeping requirements, Administrative practice and procedure.

7 CFR Part 245

Food assistance programs, Grant programs—social programs, National school lunch program, School breakfast program, Special milk program, Reporting and recordkeeping requirements.

Accordingly, Parts 210, 215, 220, 235 and 245 are amended as set forth below.

PART 210—NATIONAL SCHOOL LUNCH PROGRAM

1. In § 210.8 paragraph (e)(7) is revised to read as follows:

§ 210.8 Requirements for participation.

* * * * *

(e) * * *

(7) Claim reimbursement at the assigned rates only for lunches served in accordance with the agreement;

* * * * *

2. Section 210.19a is revised to read as follows:

§ 210.19a Procurement standards.

(a) *Requirements.* State agencies and School Food Authorities shall comply with the requirements of the Office of Management and Budget (OMB) Circular A–102 and the Department's Uniform Federal Assistance Regulations, 7 CFR Part 3015, Subpart S (46 FR 55658) concerning the procurement of supplies, food, equipment and other services with Program funds. These requirements are adopted by FNS to ensure that such materials and services are obtained for the Program efficiently and economically and in compliance with applicable laws and executive orders.

(b) *Contractual Responsibilities.* The Standards contained in OMB Circular A–102 and 7 CFR Part 3015 do not relieve the State agency or School Food Authority of any contractual responsibilities under its contract. The State agency or School Food Authority is the responsible authority, without recourse to FNS, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in connection with the Program. This includes, but is not limited to source evaluation, protests, disputes, claims, or other matters of a contractual nature. matters concerning violation of law are to be referred to the local, State or Federal authority that has proper jurisdiction.

(c) *Procurement Procedure.* The State agency or School Food authority may use their own procurement procedures which reflect applicable state and local laws and regulations, provided that procurements made with Program funds

adhere to the standards set forth in OMB Circular A–102 and 7 CFR Part 3015.

PART 215—SPECIAL MILK PROGRAM

1. Section 215.14a is revised to read as follows:

§ 215.14a Procurement standards.

(a) *Requirements.* State agencies and School Food Authorities shall comply with the requirements of the Office of Management and Budget (OMB) Circular A–102 and the Department's Uniform Federal Assistance Regulations, 7 CFR Part 3015, Subpart S (46 FR 55658) concerning the procurement of supplies, food, equipment and other services with Program funds. These requirements are adopted by FNS to ensure that such materials and services are obtained for the Program efficiently and economically and in compliance with applicable laws and executive orders.

(b) *Contractual Responsibilities.* The standards contained in OMB Circular A–102 and 7 CFR Part 3015, do not relieve the State agency or School Food Authority of any contractual responsibilities under its contract. The State agency or School Food Authority is the responsible authority, without recourse to FNS, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in connection with the Program. This includes but is not limited to: Source evaluation, protests, disputes, claims, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the local, State or Federal authority that has proper jurisdiction.

(c) *Procurement Procedure.* The State agency or School Food Authority may use their own procurement procedures which reflect applicable State and local laws and regulations, provided that procurements made with Program funds adhere to the standards set forth in OMB Circular A–102 and 7 CFR Part 3015.

PART 220—SCHOOL BREAKFAST PROGRAM

1. In § 220.7, paragraph (e)(6) is revised to read as follows:

§220.7 Requirements for participation.

* * * * *

(e) * * *

(6) Claim reimbursement at the assigned rates only for breakfasts served in accordance with the agreement;

* * * * *

§ 220.13 [Amended]

2. In § 220.13 paragraph (h) is removed and reserved.

3. § 220.16 is revised to read as follows:

§ 220.16 Procurement standards.

(a) *Requirements.* State agencies and School Food Authorities shall comply with the requirements of the Office of Management and Budget (OMB) Circular A–102 and the Department's Uniform Federal Assistance Regulations, 7 CFR Part 3015, Subpart S (46 FR 55658) concerning the procurement of supplies, food, equipment and other services with Program funds. These requirements are adopted by FNS to ensure that such materials and services are obtained for the Program efficiently and economically and in compliance with applicable laws and executive orders.

(b) *Contractual Responsibilities.* The standards contained in OMB Circular A–102 and 7 CFR 3015, do not relieve the State agency or School Food Authority of any contractual responsibilities under its contract. The State agency or School Food Authority is the responsible authority, without recourse to FNS, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in connection with the Program. This includes but is not limited to: source evaluation, protests, disputes, claims, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the local, State or Federal authority that has proper jurisdiction.

(c) *Procurement Procedure.* The State agency or School Food Authority may use their own procurement procedures which reflect applicable State and local laws and regulations, provided that procurements made with Program funds adhere to the standards set forth in OMB Circular A–102 and 7 CFR Part 3015.

§ 220.18 [Amended]

4. In § 220.18, paragraph (c) is redesignated as paragraph (f) of § 220.7 and § 220.18 is reserved.

PART 235—STATE ADMINISTRATIVE EXPENSE FUNDS

§ 235.2 [Amended]

1. In § 235.2 paragraphs (e), (j), (m) and (n) are removed and reserved.

2. Section 235.9 is revised to read as follows:

§ 235.9 Procurement and property management standards.

(a) *Requirements.* State agencies shall comply with the requirements of the Office of Management and Budget (OMB) Circular A–102 and the Department's Uniform Federal Assistance Regulations, 7 CFR Part 3015, Subpart S (46 FR 55658) concerning the procurement of supplies, equipment and other services with State Administrative Expense Funds. These requirements are adopted by FNS to ensure that such materials and services are obtained for the Program efficiently and economically and in compliance with applicable laws and executive orders.

(b) *Contractual Responsibilities.* The standards contained in OMB Circular A–102 and 7 CFR Part 3015 do not relieve the State agency of any contractual responsibilities under its contract. The State agency is the responsible authority, without recourse to FNS, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in connection with the Program. This includes, but is not limited to source evaluation, protests, disputes, claims, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the local, State or Federal authority that has proper jurisdiction.

(c) *Procurement Procedure.* The State agency may use its own procurement procedures which reflect applicable State and local laws and regulations, provided that procurements made with Program funds adhere to the standards set forth in OMB Circular A–102 and 7 CFR Part 3015.

(d) *Property acquired with State Administrative Expense Funds.* State Agencies shall comply with the requirements of OMB Circular A–102 and 7 CFR Part 3015, Subpart R (46 FR 55654) in their utilization and disposition of property acquired in whole or in part with State Administrative Expense Funds.

§ 235.10 [Removed and Reserved]

3. Section 235.10, *Property Management requirements.* is removed and reserved.

PART 245—DETERMINING ELIGIBILITY FOR FREE AND REDUCED PRICE MEALS AND FREE MILK IN SCHOOLS

1. In § 245.5, paragraph (b) is revised to read as follows:

§ 245.5 Public announcement of the eligibility criteria.

* * * * *

(b) Copies of the public release shall be made available upon request to any interested persons. Any subsequent changes in a school's eligibility criteria during the school year shall be publicly

announced in the same manner as the original criteria were announced.

BILLING CODE 3410-30-M

Soil Conservation Service

7 CFR Part 601

Functions

AGENCY: Soil Conservation Service, USDA.

ACTION: Final rule.

SUMMARY: This document supplements a function of the Soil Conservation Service under authority delegated pursuant to § 2.62(a)(6), Title 7, Code of Federal Regulations, relating to implementation of a Resource Conservation and Development Program, Title XV, Subtitle H, Agriculture and Food Act of 1981, Pub. L. 97–98.

EFFECTIVE DATE: April 29, 1983.

FOR FURTHER INFORMATION CONTACT: Edgar H. Nelson, Director, Basin and Area Planning Division, Soil Conservation Service, P.O. Box 2890, Washington, D.C. 20013; 202–447–2847.

SUPPLEMENTARY INFORMATION: A Resource Conservation and Development Program is currently administered through regulations and policies of the Department of Agriculture, issued under the general authority to conduct this type of activity set forth in Title III of the Bankhead-Jones Farm Tenant Act, 7 U.S.C. 1010–1011, and the Soil Conservation and Domestic Allotment Act, 16 U.S.C. 590a–f, and in annual appropriations. This Program has continually evolved since the early 1960's. The current Program is carried out in 194 areas approved by the Secretary of Agriculture. An area typically covers several adjacent counties.

Local people from the area volunteer their time to form an organization usually referred to as an "RC&D Area Council." This organization is comprised of representatives of local sponsoring organizations and other interested persons. Official sponsors of RC&D areas include State and local units of government and other groups such as counties, cities, towns, and soil conservation districts.

Technical and financial assistance to the local organization in preparing and carrying out its area plan is provided by the Soil Conservation Service. The local organization is a focal point for individuals and groups seeking assistance in solving local problems. Personnel of the Soil Conservation Service and other agencies work with the local organizations to explore the availability of assistance from the Department of Agriculture and other sources.

Subtitle H, Title XV of the Agriculture and Food Act of 1981, Pub. L. 97–98, 16 U.S.C. 3451–3461, provides specific supplemental authority to carry out the Resource Conservation and Development Program in light of declared congressional objectives and purposes, which are to provide State and local governments and local nonprofit organizations with the technical and financial assistance needed to operate and maintain planning and implementation processes "needed to conserve and improve the use of land, develop natural resources, and improve and enhance the social, economic, and environmental conditions in rural areas of the United States." Authority for implementation of this Program has been delegated to the Chief, Soil Conservation Service, by the Assistant Secretary for Natural Resources and Environment. This rule amends the present statement of agency functions to reflect that delegation.

This rule relates to internal agency management and organization. Therefore, pursuant to 5 U.S.C. 553, it is found that it is impractical and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register**. Since this rule relates to internal agency management and organization, it is exempt from provisions of Executive Order 12291 and Secretary's Memorandum 1512–1.

List of Subjects in 7 CFR Part 601

Organization and functions (Government agencies).

PART 601—FUNCTIONS

Accordingly, Part 601, Title 7, Code of Federal Regulations is amended as follows:

1. In § 601.1, paragraph (f) is revised to read as follows:

§ 601.1 Functions assigned.

* * * * *

(f) Administer the Resource Conservation and Development Program under Pub. L. 46, 74th Congress, 16 U.S.C. 590a–f; Pub. L. 87–703, as amended, 7 U.S.C. 1010–1011; and Pub. L. 97–98, 16 U.S.C. 3451–3461; except for responsibilities assigned to the Farmers Home Administration.

* * * * *

2. In § 601.3, paragraph (c) is revised to read as follows:

§ 601.3 Functions reserved to the Assistant Secretary for Natural Resources and Environment.

* * * * *

(c) Approving additions to authorized Resource Conservation and Development Projects.

* * * * *

(Catalog of Federal Domestic Assistance Programs No. 10.901, Resource Conservation and Development Program. Office of Management and Budget provisions regarding State and local clearinghouse review of Federal and federally assisted programs and projects are applicable)

Dated: April 22, 1983.

Peter C. Myers,

Chief.

Agricultural Stabilization and Conservation Service

7 CFR Part 729

Poundage Quota and Marketing Regulations for the 1983 Through 1985 Crops of Peanuts

Correction

In FR Doc. 83–5408, beginning on page 9214, in the issue of Friday, March 4, 1983, make the following corrections:

1. On page 9220, the last column, paragraph (e)(2), line 10, "conidered" should read "considered".

2. On page 9221, the last column, paragraph (dd), line 3, "§ 729.25" should read "§729.225".

BILLING CODE 1505-01-M

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 409]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period May 1–7, 1983. Such action is needed to provide for orderly marketing of fresh lemons for the period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: May 1, 1983.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona lemon crop for the benefit of producers, and will not substantially affect costs for the directly regulated handlers.

This final rule is issued under Marketing Order No. 910, as amended (7 CFR Part 910; 47 FR 50196), regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the Act.

This action is consistent with the marketing policy for 1982–83. The marketing policy was recommended by the committee following discussion at a public meeting on July 6, 1982. The committee met again publicly on April 26, 1983, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons

PART 910—[AMENDED]

Section 910.709 is added as follows:

§ 910.709 Lemon regulation 409.

The quantity of lemons grown in California and Arizona which may be handled during the period May 1, 1983, through May 7, 1983, is established at 295,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 28, 1983.

D.S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

7 CFR Part 985

Spearmint Oil Produced in the Far West; Final Salable Quantities and Allotment Percentages for the 1983–84 Marketing Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Emergency final rule.

SUMMARY: This emergency final rule establishes the quantity of spearmint oil produced in the Far West, by class, that may be purchased from, or handled for, producers by handlers during the 1983–84 marketing year which begins June 1, 1983. This action is taken under the marketing order for spearmint oil produced in the Far West to promote orderly marketing conditions.

EFFECTIVE DATE: June 1, 1983 through May 31, 1984.

FOR FURTHER INFORMATION CONTACT: F. M. Grasberger, Acting Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250 (202) 447–5053.

SUPPLEMENTARY INFORMATION: The final rule has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities.

It is found that it is impractical, unnecessary and contrary to the public interest to give preliminary notice because an emergency situation exists which warrants publication without opportunity for a public comment period on this emergency final action. Handlers and growers are currently making preparations for handling and growing 1983 crop spearmint oil. Spearmint roots are normally planted in early April. Therefore, they must know as soon as possible what salable quantities and allotment percentages will be effective for the 1983–84 marketing year so they can plan their operations accordingly.

The salable quantity and allotment percentage for each class of spearmint oil are established in accordance with the provisions of the Marketing Order No. 985, regulating the handling of spearmint oil produced in the Far West, hereinafter referred to as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The salable quantities and allotment percentages were recommended unanimously by the Spearmint Oil Administrative Committee, which works with the USDA in administering the order.

The salable quantity and allotment percentage for each class of spearmint oil for the 1983–84 marketing year beginning June 1, 1983, are based upon recommendations of the Committee and the following data and estimates:

(1) "Class 1" Oil (First Cutting Scotch)

(A) Estimated carryin on June 1, 1983—58,397 pounds.

(B) The Committee's recommendation for the salable quantity—714,951 pounds.

(C) Estimated trade demand (domestic and export) for the 1983–84 marketing year—722,000 pounds.

(D) Recommended desirable carryout on May 31, 1984—50,000 pounds.

(E) Total allotment bases for "Class 1" Oil—1,459,083 pounds.

(F) Recommended allotment percentage—49 percent.

(2) "Class 2" Oil (Second Cutting Scotch)

(A) Estimated carryin on June 1, 1983—5,107 pounds.

(B) The Committee's recommendation for the salable quantity—60,912 pounds.

(C) Estimated trade demand (domestic and export) for the 1983–84 marketing year—62,000 pounds.

(D) Recommended desirable carryout on May 31, 1984—4,300 pounds.

(E) Total allotment bases for "Class 2" Oil—126,901 pounds.

(F) Recommended allotment percentage—48 percent.

(3) "Class 3" Oil (Native)

(A) Estimated carryin on June 1, 1983—46,174 pounds.

(B) The Committee's recommendation for the salable quantity—867,901 pounds.

(C) Estimated trade demand (domestic and export) for the 1983–84 marketing year—860,000 pounds.

(D) Recommended desirable carryout on May 31, 1984—50,000 pounds.

(E) Total allotment bases for "Class 3" Oil—1,771,227 pounds.

(F) Recommended allotment percentage—49 percent.

The salable quantity is the total quantity of each class of oil which handlers may purchase from or handle on behalf of producers during a marketing year. Each producer is alloted a share of the salable quantity by applying the allotment percentage to his allotment base for the applicable class.

When the order was established in 1980, producer stocks of spearmint oil were very large and producer prices severely depressed. Volume regulations in effect under the order since that time have aided in reducing these burdensome stocks and in creating a stable market for all three classes of oil. The Committee objective is to bring excess supplies into balance with needs to maintain a stable market for each class of oil and promote orderly marketing.

In 1980, producer stocks of "Class 1" Oil exceeded one year's needs. The volume regulation for the 1983–84 marketing year is expected to remove the balance of the excess producer held stocks of "Class 1" Oil, and aid in the continued gradual adjustment of supplies resulting in further stabilization of producer prices.

Volume regulations issued for the past three years for 'Class 2" Oil have succeeded in reducing heavy producer stocks to an acceptable level. In 1980, producer stocks of this class totalled 119,000 pounds. The projected carryin of producer held stocks at the beginning of the 1983–84 marketing year is expected to be about 5,100 pounds which is not a burdensome carryover. Producer stocks at this level coupled with the proposed volume regulation are expected to result in a stable market for "Class 2" Oil.

Sales of "Class 3" Oil lagged behind expectations in both the 1980–81 and 1981–82 marketing years. However, sales during the 1982–83 marketing year are projected to exceed 1981–82 sales by 30,000 pounds. The volume regulation in effect for the 1982–83 marketing year, coupled with the recent market improvement for "Class 3" Oil is expected to reduce producer held inventories to a reasonable level and approximately equal the carryout deemed desirable by the Committee (50,000 pounds). In 1980, the stocks of "Class 3" Oil totalled 320,000 pounds. The volume regulation for "Class 3" Oil in the 1983–84 marketing year is expected to continue to establish a stable market, thus promoting orderly marketing conditions for this class of oil.

In conformity with the order's provisions, the Committee conducted a drawing on October 5, 1982, and issued additional allotment bases equally to both new and existing producers for the 1982–83 and 1983–84 marketing years. New producers were issued allotment bases in units of 1,788 pounds for "Class 1" Oil and 2,171 pounds for "Class 3" Oil. Existing producers who had initially received small allotment bases and applied for additional allotment base were issued an amount of allotment base that would bring their total base up to a more economic unit. The issuance of the additional allotment bases increased the total of "Class 1" Oil bases by 27,981 pounds and "Class 3" Oil by 27,181 pounds. Although, the total of "Class 1" and "Class 3" Oil allotment bases was increased significantly by this action, the allotment percentages for these classes of oil are considerably more liberal than those established for the 1982–83 marketing year.

The Committee's recommendations were based on expected increased sales of spearmint oil during the 1983–84 marketing year and a substantial reduction in the quantity of spearmint oil held by producers. The Committee's recommendations appear appropriate for the 1983–84 season and are expected to aid in achieving the objectives of the act.

After consideration of all relevant matter presented, including the information and recommendations submitted by the Committee, and other available information it is further found that to establish a salable quantity and allotment percentage for each class of oil, as hereinafter set forth, will tend to effectuate the declared policy of the act.

PART 985—[AMENDED]

List of Subjects in 7 CFR Part 985

Marketing agreements and orders, Spearmint oil.

Therefore, the salable quantity and allotment percentage applicable to each class of oil for the 1983–84 marketing year (June 1, 1983–May 31, 1984) are established by adding a new § 985.203 under Subpart—Salable Quantities and Allotment Percentages. (7 CFR 985.202; 47 FR 16769) as follows: (The following provisions will not be published in the Code of Federal Regulations.)

§ 985.203 Salable quantities and allotment percentages—1983–84 marketing year.

The salable quantity and allotment percentage for each class of spearmint oil during the marketing year which begins June 1, 1983, shall be as follows:

(a) "Class 1" Oil—a salable quantity of 714,951 pounds and an allotment percentage of 49 percent.

(b) "Class 2" Oil—a salable quantity of 60,912 pounds and an allotment percentage of 48 percent.

(c) "Class 3" Oil—a salable quantity of 867,901 pounds and an allotment percentage of 49 percent.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 22, 1983.

D. S. Kuryloski,

Director, Fruit and Vegetable Division.

BILLING CODE 3410-02-M

Food Safety and Inspection Service

9 CFR Part 327

[Docket Number 83-014E]

Imported Products; Withdrawal of Czechoslovakia From the List of Countries Eligible for Importation of Meat Food Product

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Emergency final rule.

SUMMARY: This document withdraws the country of Czechoslovakia from the list of countries eligible for importation of product from cattle, sheep, swine, and goats into the United States under the Federal Meat Inspection Act (FMIA). The FMIA requires that, in order for a country to be eligible to export meat products to the United States, the meat inspection system of the country must assure compliance with requirements that are "at least equal to" the requirements of the FMIA and regulations as applied to official

establishments in the United States, and that reliance can be placed upon certificates, required under the regulations, from authorities of that foreign country. Recent polychlorinated biphenyl (PCB) residue violations in exports of pork products to the United States, as well as the failure of the Czechoslovakian Government to control residues after previous notification by USDA, have demonstrated that the Czechoslovakian meat inspection system no longer meets the provisions of the FMIA with regard to the control of residues in imported product.

EFFECTIVE DATE: April 29, 1983.

FOR FURTHER INFORMATION CONTACT: Dr. Grace Clark, Director, Foreign Programs Division, International Programs, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6971.

SUPPLEMENTARY INFORMATION: The Agency has determined that public health and safety require this rule to be issued as an emergency final rule, effective immediately upon publication and for which notice and public procedure thereon is not appropriate (5 U.S.C. 553 (b) and (d)). Similarly, due to the emergency nature of this action, the Agency has determined that the requirements of Executive Order 12291 should be waived (E.O. 12291 section 8(a)(1)). The emergency makes compliance with Section 603 and timely compliance with Section 604 of the Regulatory Flexibility Act impracticable. Since this action may have a significant economic impact on a substantial number of small entities, the Final Impact Statement will address the issues required in Section 604 of Pub. L. 96–354, the Regulatory Flexibility Act.

Background

Pursuant to the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Secretary of Agriculture is responsible for administering the programs which are designed to ensure that products distributed to consumers are wholesome, not adulterated, and properly marked, labeled, and packaged. In order to fulfill this obligation, the Secretary has delegated to the Administrator of the Food Safety and Inspection Service (FSIS) the authority to issue regulations and implement appropriate procedures to ensure compliance with the requirements of the FMIA. The regulations addressing imported products are codified at 9 CFR Part 327. In these regulations the Administrator has established procedures by which foreign countries desiring to export meat or meat food products to the United States may become eligible to do so. The Administrator has authority to withdraw a foreign country's eligibility to export meat products to the United States under § 327.2(a)(4) (9 CFR 327.2(a)(4)):

> * * * whenever it shall be determined by the Administrator that the system of meat inspection maintained by such foreign country does not assure compliance with requirements at least equal to all the inspection, building construction standards, and other requirements of the Act * * *; or that reliance cannot be placed upon certificates required under this part from authorities of such foreign countries * * *

Detectible levels of PCBs have been found in Czechoslovakian product every year since 1980. Between 1980 and 1982, PCB levels ranging from 0.28 ppm (parts per million) to 1.70 ppm were found during the first half of each year. Product from both plants certified to export to the United States has been involved. Several times FSIS notified Czechoslovakian officials of its residue findings and requested that they locate the source of the PCB contamination and correct the problem. To date, Czechoslovakia has not been able to determine the source of the contamination and continues to export product to the United States containing PCB residues.

On March 8 and March 21, 1983, shipments of product certified by Czechoslovakian officials as meeting U.S. requirements were presented for import inspection. These shipments were found to contain PCB residues of 4.49 ppm and 4.82 ppm, which is in violation of tolerance levels established by the Food and Drug Administration and enforced by FSIS. Under the FMIA, product that contains residue levels above established limits is considered adulterated and must be condemned for human food purposes. This product has been detained and will not be allowed to enter the United States.

PCBs are a class of toxic industrial chemicals that have been used in a wide range of electrical products and hydraulic and heat-transfer fluids. Meat products may be contaminated directly with PCBs through leaking hydraulic or electrical devices or plastics, or through the addition of meat from contaminated animals. PCBs are extremely stable, and when an animal is exposed through feed, water or the environment, the chemical accumulates in the fat tissue. Once introduced, PCBs move up the food chain. Therefore, it is necesary to locate and remove sources of contamination.

Research into the effects of PCB exposure has indicated that they cause various health disorders in laboratory animals, including reproductive failures, gastric disorders, skin lesions, and tumors. Studies of human exposure have indicated a high incidence of skin disorders, digestive disturbances, jaundice, severe headaches, throat and respiratory irritations.

Because of the toxicity of PCBs and the public health hazard they pose, the Czechoslovakian response to USDA's finding has been unacceptable. Czechoslovakian officials have not determined the cause of the contamination, nor taken other corrective action despite the fact that the Department has requested such action on several occasions. Furthermore, Czechoslovakia has certified and exported to the United States product containing levels of PCBs that are in violation of United States laws.

Therefore, the Administrator of FSIS has determined that the Czechoslovakian meat inspection system is not "at least equal to" the requirements of the FMIA and regulations applicable to official establishments in the United States and that reliance cannot be placed upon certificates required under the regulations (9 CFR Part 327) from authorities of such foreign country. Therefore, pursuant to section 327.2 of the regulations (9 CFR 327.2) the Administrator is withdrawing Czechoslovakia from the list of countries eligible for importation of products of cattle, sheep, swine, and goats into the United States.

When the Administrator of FSIS is satisfied that Czechoslovakian meat inspection officials have corrected the PCB residue problem and that the system meets all of the provisions of the FMIA, Czechoslovakia may again be added to the list of countries eligible for importation of products of cattle, sheep, swine, and goats into the United States.

List of Subjects in 9 CFR Part 327

Imported products.

PART 327—[AMENDED]

1. The authority citation for Part 327 is as follows:

Authority: 34 Stat. 1260, 79 Stat. 903, as amended, 81 Stat. 584, 84 Stat. 91, 438; 21 U.S.C. 71 *et seq.*, 601 *et seq.*, 33 U.S.C. 466–466k.

§ 327.2 [Amended]

2. Section 327.2(b) of the Federal meat inspection regulations (9 CFR 327.2(b)) is amended by removing "Czechoslovakia" from the list of countries eligible for importation of product of cattle, sheep, swine, and goats into the United States.

It is found upon good cause that notice and public procedures thereon are not practical and would be contrary to the public interest in this instance (5 U.S.C. 553(b)). Further, good cause is found for making this amendment effective less than 30 days after publication in the Federal Register (5 U.S.C. 553(d)). As indicated above, the meat inspection system of Czechoslovakia with respect to the detection and elimination of residues of PCBs in its meat products exported to the United States no longer meets the requirements of the FMIA and regulations, and its products pose a hazard to consumers in the United States. Therefore, action must be taken immediately to protect the public.

Done at Washington, D.C. on April 25, 1983.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

BILLING CODE 3410-DM-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket 8918]

American Home Products Corp., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

SUMMARY: The Federal Trade Commission has modified its Final Order In the Matter of American Home Products Corporation, et al., issued on Sept. 9, 1981 (46 FR 51900), in accordance with a decision rendered by the Court of Appeals for the Third Circuit on Dec. 3, 1982. The modification deletes the provision that had prohibited the maker of Anacin and Arthritis Pain Formula from making any non-comparative effectiveness or side effects claims for any over-the-counter drug product unless the company possessed a reasonable basis when making such claims.

DATES: Final Order issued September 9, 1981. Modifying Order issued April 8, 1983.

FOR FURTHER INFORMATION CONTACT: FTC/GE, Ernest J. Isenstadt, Washington, D.C. 20580. (202) 523-3463.

SUPPLEMENTARY INFORMATION: In the Matter of American Home Products Corporation, a corporation and Clyne Maxon, Inc., a corporation. Codification appearing at 46 FR 51900 remains unchanged.

List of Subjects in 16 CFR Part 13

Advertising, Aspirin.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

The Modified Order To Cease and Desist is as follows:

Before Federal Trade Commission

Commissioners:
James C. Miller III, Chairman
David A. Clanton
Michael Pertschuk
Patricia P. Bailey
George W. Douglas

In the matter of American Home Products Corporation, a corporation, and Clyne Maxon, Inc., a corporation; Docket No. 8918.

Modified Order to Cease and Desist

Respondent American Home Products Corporation having filed in the United States Court of Appeals for the Third Circuit a petition for review of the Commission's order issued herein on September 9, 1981; and the Court having on December 3, 1982, rendered its decision modifying the Commission's order and, as so modified, affirming the order; and the time for filing a petition for certiorari having expired and no petition having been filed:

Now, Therefore, it is hereby ordered that, pursuant to 15 U.S.C. 45(i), the aforesaid order to cease and desist be, and it hereby is, modified in accordance with the decision and judgment of the Court of Appeals to read:

Order

I

It is ordered that respondent American Home Products Corporation, its successors and assigns and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of "Anacin," "Arthritis Pain Formula," or any other non-prescription internal analgesic product, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

A. Making any representation, directly or by implication, that a claim concerning the superior effectiveness or superior freedom from side effects of such product has been established or proven unless such representation has been established by two or more adequate and well-controlled clinical investigations, conducted by independent experts qualified by training and experience to evaluate the comparative effectiveness or comparative freedom from side effects of the drugs involved, on the basis of which it could fairly and responsibly be concluded by such experts: (1) That the drug will have the comparative effectiveness or freedom from side effects that it is represented to have, and (2) that such comparative effectiveness or freedom from side effects is demonstrated by methods of statistical analysis, and with levels of confidence, that are generally recognized by such experts. The investigations shall be conducted in accordance with the procedures set forth below:

At least one of the adequate and well-controlled clinical investigations to evaluate the comparative effectiveness of the drug shall be conducted on any disease or condition referred to, directly or by implication; or, if no specific disease or condition is referred to, then the adequate and well-controlled clinical investigations shall be conducted on at least two conditions or diseases for which the drug is effective. The clinical investigations shall be conducted as follows:

1. The subjects must be selected by a method that:

a. Provides adequate assurance that they are suitable for the purposes of the investigation, and diagnostic criteria of the condition to be treated (if any);

b. Assigns the subjects to the test groups in such a way as to minimize bias; and

c. Assures comparability in test and control groups of pertinent variables, such as age, sex, severity or duration of disease or condition (if any), and use of drugs other than the test drugs.

2. The investigations must be conducted double-blind, and methods of double-blinding must be documented. In addition, the investigations shall contain a placebo control to permit comparison of the results of use of the test drugs with an inactive preparation designed to resemble the test drugs as far as possible.

3. The plan or protocol for the investigations and the report of the results shall include the following:

a. Clear statement of the objective of the investigation;

b. An explanation of the methods of observation and recording of results, including the variables measured, quantitation, assessment of any subject's response and steps taken to minimize bias on the part of subject and observer;

c. A comparison of the results of treatments or diagnosis with a control in such a fashion as to permit quantitative evaluation. The precise nature of the control must be stated and an explanation given of the methods used

to minimize bias on the part of the observers and the analysts of the data.

d. A summary of the methods of analysis and an evaluation of data derived from the study, including any appropriate statistical methods.

B. Making any representation, directly or by implication, of superior effectiveness or freedom from side effects of such product unless:

1. The superior effectiveness or superior freedom from side effects so represented has been established according to the terms set forth in paragraph I.A. of this Order, *or*

2. Each advertisement containing such representation contains a clear and conspicuous disclosure that there is a substantial question about the validity of the comparative efficacy or side effects claim, or that the claim has not been proven. Such a disclosure may consist of a clear and conspicuous statement that the claim is "open to substantial question," or that the claim "has not been proven." If other language is used by respondent to convey the required message, respondent shall maintain, for a period of three (3) years after the dissemination of any advertisement containing such disclosure, records sufficient to demonstrate that the required message is effectively conveyed to the advertisement's intended audience.

II

It is further ordered that respondent American Home Products Corporation, its successors and assigns and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of "Anacin," "Arthritis Pain Formula," or any other non-prescription drug product, in or affecting commerce, as "commerce" and "drug" are defined in the Federal Trade Commission Act, do forthwith cease and desist from:

A. Making any representation, directly or by implication, that such product contains any unusual or special ingredient when such ingredient is commonly used in other non-prescription drug products intended for the same use or uses as the product advertised by respondent.

B. Making any false representation that such product has more of an active ingredient than any class of competing products.

C. Misrepresenting in any manner any test, study or survey or any of the results thereof, concerning the comparative effectiveness or freedom from side effects of such product.

III

It is further ordered that respondent American Home Products Corporation, its successors and assigns and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of "Anacin," "Arthritis Pain Formula," or any products in which "Anacin" or "Arthritis Pain Formula" is used in the name, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from failing to disclose clearly and conspicuously that the analgesic ingredient in such product is aspirin, when such is the case and when the advertisement makes any performance claim for the product.

IV

It is further ordered that respondent American Home Products Corporation, a corporation, its successors and assigns and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of "Anacin," in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from making any representation, directly or by implication, that Anacin relieves nervousness, tension, anxiety or depression or will enable persons to cope with the ordinary stresses of everyday life.

V

It is further ordered that respondent the C.T. Clyne Company, Inc., a corporation, its successors and assigns and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising of "Arthritis Pain Formula" or any other non-prescription internal analgesic product, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

A. Making any representation, directly or by implication, that such product contains any unusual or special ingredient when respondent knows or has reason to know that such ingredient is commonly used in other nonprescription internal analgesic products intended for the same use or uses as the product advertised by respondent.

B. Making any representation, directly or by implication, of superior freedom from side effects of such product, unless:

1. Respondent knows or has reason to believe that the superior freedom from side effects so represented has been established according to the terms set forth in paragraph I.A. of this Order, *or*

2. Each advertisement containing such representation contains a clear and conspicuous disclosure that there is a substantial question about the validity of the claim, or that the claim has not been proven. Such a disclosure may consist of a clear and conspicuous statement that the claim is "open to substantial question," or that the claim "has not been proven." If other language is used by respondent to convey the required message, respondent shall maintain, for a period of three (3) years after the dissemination of any advertisement containing such disclosure, records sufficient to demonstrate that the required message is effectively conveyed to the advertisement's intended audience.

VI

It is further ordered that respondents American Home Products Corporation and the C.T. Clyne Company, Inc., shall notify the Commission at least thirty (30) days prior to any proposed change in their respective corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in their respective corporation which may affect compliance obligations under this Order.

It is further ordered that the respondents herein shall within sixty (60) days after service of this Order upon them, and at such other times as the Commission may require, file with the Commission a written report setting forth in detail the manner and form in which they have complied or intend to comply with this Order.

By the Commission.

Issued: April 8, 1983.

Emily H. Rock,

Secretary.

BILLING CODE 6750-01-M

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 3

Interpretation of "No-Action" Position Regarding Introducing Brokers and Associated Persons of Introducing Brokers

AGENCY: Commodity Futures Trading Commission.

ACTION: Rule-related notice of interpretation of "no-action" position.

SUMMARY: The Commodity Futures Trading Commission ("Commission") recently published in the **Federal Register** a letter the Commission had transmitted to all registered futures commission merchants ("FCMs") in which the Commission advised those FCMs that, in light of recent amendments to the registration requirements administered by the Commission under the Commodity Exchange Act ("Act"), each FCM and agent of an FCM must determine whether those agents are to continue in business as introducing brokers on and after the May 11, 1983 effective date of the statutory amendments. 48 FR 15890 (April 13, 1983). That letter established procedures by which an agent may obtain a "no-action" position from the Commission until it is registered under the Act as an introducing broker and by which associated persons ("APs") of an FCM who are presently employed by an agent may "transfer" their registrations to an introducing broker.

The Commission indicated in that letter that an FCM must either terminate the association with the FCM of any APs who were not so "transferred" or, in the alternative, include those APs in an existing or newly designated branch office of the FCM. The Commission has now determined to allow affected individuals to remain associated with an FCM even if they are not included in what would currently be denominated as a branch office if, among other conditions, they are compensated directly by the FCM. The Commission is also providing further guidance with respect to certain questions which have arisen in the implementation and interpretation of its "no-action" position.

FOR FURTHER INFORMATION CONTACT: Kenneth M. Rosenzweig, Assistant Chief Counsel, or Robert P. Shiner, Assistant Director, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street N.W., Washington, D.C. 20581. Telephone: (202) 254–8955 or 254–9703, respectively.

SUPPLEMENTARY INFORMATION: The Commission has recently made available procedures by which an agent of an FCM and the APs employed by that agent may obtain a "no-action" position from the Commission with respect to the registration requirements for introducing brokers and APs of introducing brokers which will become effective on May 11, 1983. As the Commmission explained when it adopted those procedures, APs who are presently associated with an FCM through an agent and who do not wish to become associated with an introducing broker can remain APs of the FCM. The Commission further indicated, however, that where APs' registrations were not "transferred" to an introducing broker, the FCM must either "[n]otify the Commission of the termination . . . of the association with the FCM of any APs employed by the agent . . . or include all APs formerly employed by the agent (and, if appropriate, the agent himself) in an existing or newly-designated branch office of the FCM."[1]

The Commission is aware, however, that a not insubstantial number of "country elevators" and cash grain merchants are agents of FCMs. These elevators and grain merchants, in turn, employ individuals who are registered with the Commission under the Act as associated persons whose activities as associated persons are often incidental to the principal business of the grain elevator or merchant. The Commission is also aware that a grain elevator or merchant may not itself want to become an introducing broker or to do business in the name of an FCM.

The Commission has therefore determined to clarify that individuals who are registered as associated persons of an FCM may continue to remain associated with the FCM as associated person under the Commission's "no-action" position, regardless of whether those APs are actually situated in what would currently be denominated as a branch office of the FCM, provided they meet the conditions of this interpretation. Specifically, the Commission has determined that such individuals shall be deemed to constitute a branch office if they are compensated directly by the FCM, hold themselves out to the public as APs of that FCM, and meet the other conditions stated herein. If, however, such individuals were to receive compensation for the solicitation or acceptance of customers' orders (or the supervision of any person or persons so engaged) through a person other than the FCM, or if such individuals were to solicit or accept orders on behalf of that other person, that person would be an introducing broker and would have to register as such unless it had earlier qualified for the Commission's "no-action" position.[2] Similarly, these APs of an FCM may not solicit or accept customers' or option customers' orders (or supervise any person or persons so engaged) in the offices of, or under the auspices of, an introducing broker. As under current law, an FLM must supervise its APs, including those APs which it compensates directly pursuant to this interpretation, and will be fully responsible for their activities and conduct as associated persons (including compliance with the requirements of the Act and the Commission's regulations thereunder) in the same manner and to the same extent as any of its other associated persons, wherever those APs may be located.

An FCM who elects to continue associated persons under its sponsorship in accordance with this interpretation of the Commission's "no-action" position must list each location other than its home office where such persons will be soliciting or accepting orders and, where more than one individual is at such a location, must also indicate which AP will be the "designated supervisor" at that location. This information should be clearly indicated on the computer-generated listing of APs and agents which has previously been supplied to each FCM by the Commission when that listing is returned to the Commission.

It remains the responsibility of each FCM which chooses to continue the association of its APs under this interpretation to assure itself that such an arrangement will not be contrary to the rules of any contract market of which the FCM is a member. In this regard, FCMs should also be aware that APs associated with an FCM in this manner will not be authorized to act as associated persons with respect to exchange-traded commodity option transactions unless the FCM's designated self-regulatory organization affirmatively agrees to audit the activities of these APs in accordance with the requirements of the Commission's options regulations.[3] Affected persons should also be aware that the Commission will continue to consider the appropriateness of this interpretation as well as whether and in what manner it should be continued

when the Commission adopts final rules relating to the registration of introducing brokers and their associated persons.

The Commission's staff has also received inquiries as to whether APs who "transfer" their registrations to an introducing broker under the Commission's "no-action" position will thereafter be able to become APs of an FCM if the introducing broker ultimately determines not to continue in business as an introducing broker. The Commission recognizes that, pending adoption of appropriate regulations, some agents will not be able to determine conclusively whether they wish to become, or to remain registered as, introducing brokers. The Commission wishes to emphasize, therefore, that its "no-action" position does not require an irrevocable election on the part of an agent or its APs. Accordingly, the Commission contemplates that its final regulations would allow for the expeditious re-registration of APs should an introducing broker ultimately decide not to continue in business as such or if APs of an FCM later determine to become associated with a registered introducing broker.

The Commission's staff has also been asked whether an agent of an FCM may qualify for the Commission's "no-action" position if the FCM's application for registration has not yet been granted. The Commission has previously determined to allow individuals whose applications for AP registration were pending with the Commission on April 7, 1983 date of the Commission's "no-action" letter to "transfer" their applications to an introducing broker and to begin work as an associated person as soon as the AP's application is granted.[4] The Commission believes that similar considerations should apply to an agent of an FCM. Thus, the Commission will allow an agent of an FCM to apply for the Commission's "no-action" position if the FCM had a completed application for registration on file with the Commission on April 7, 1983. Such an agent will be able to commence business as an introducing broker through any APs affiliated with it who have become registered when all of its principals have been "cleared" for fitness.[5]

Finally, when the Commission proposed regulations to govern the registration of introducing brokers and the other new categories of registrant established by the Futures Trading Act of 1982, the Commission proposed generally to require the registration as an introducing broker of any person who is compensated either on a per-trade basis or for the referral of customers to an FCM.[6] The Commission's staff has been asked whether those registrants who are not now agents of FCMs (and who therefore do not qualify for the Commission's "no-action" position) will be effectively precluded from continuing to be compensated in this fashion on and after the May 11, 1983 effective date of the statutory amendments to the registration requirements of the Commodity Exchange Act. The Commission wishes to clarify that if it adopts the proposed rule requiring registants receiving such compensation to register in a different capacity, the effective date will be deferred to provide adequate time for such registrants to become so registered.

Issued in Washington, D.C. on April 26, 1983, by the Commission.

Jane K. Stuckey,

Secretary of the Commission.

BILLING CODE 6351-01-M

[4] *Id.* at 15891 n.7. In such a case, the AP would be registered as an associated person of the introducing broker even though the introducing broker may not yet have been registered as such.

[5] Where those principals have applied for registration as associated persons, they will be "cleared" at the time they are registered as APs.

[6] Proposed § 1.57(b), 48 FR 14933, 14935–36, 14965 (April 6, 1983). The Commission's proposal would, however, exempt from that requirement any person who is registered as an FCM, as a floor broker, or as an AP of an FCM or of an introducing broker.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 141

[Docket No. RM82-40-000]

Order Suspending Filing of Form No. EIA 767, "Steam-Electric Plant Air and Water Quality Control Data"

Issued: April 27, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Order suspending filing requirement.

SUMMARY: The Federal Energy Regulatory Commission suspends, until further notice, the filing due May 1, 1983 and any future filings of form No. EIA-767, "Steam-Electric Plant Air and Water Quality Control Data", prescribed by 18 CFR 141.59. The form currently is the subject of a proceeding to revise it. Therefore, the filings are suspended until after the proceeding is completed.

DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Cathy Ciaglo, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426; (202) 357-8033.

SUPPLEMENTARY INFORMATION:

Before Commissioners C. M. Butler III, Chairman; Georgiana Sheldon, J. David Hughes, A. G. Sousa and Oliver G. Richard III.

Issued: April 27, 1983.

In the matter of Suspension of Steam-Electric Plant Air and Water Quality Control Data: Form No. EIA-767, Docket No. RM82-40-000, order suspending filing of the form No. EIA-767, "Steam-Electric Plant Air and Water Quality Control Data."

On August 31, 1982 the Federal Energy Regulatory Commission (Commission) issued the "Final Rule to Eliminate Steam-Electric Plant Air and Water Quality Control Data: Form No. 67" (Order No. 257, 47 FR 38869, September 3, 1982). In that rule, the Commission provided that its annual Form No. 67 was superceded by Form No. EIA-767, which is jointly sponsored by the Commission and certain other agencies. The final rule also provided that the new EIA-767 would collect 1981 data only and that the form would be extensively redesigned by the cosponsors for future collections in time for the 1982 filing, due May 1, 1983. The Commission revised its regulations at § 141.59 to provide for the filing of EIA-767 and to provide a May 1st filing date for 1983 and for future years.

The proceeding to redesign the EIA-767 has not been completed in time for the May 1, 1983 filing. Therefore, the Commission suspends the filing of the Form No. EIA-767 until further notice.

As part of the proceeding to redesign the EIA-767, the Energy Information Administration, one of the cosponsors of the form, plans to publish in the **Federal Register** a notice of the proposed revisions, including the 1983 and future filing dates. When this proceeding is completed, the Commission will revise its regulations at § 141.59, as necessary, to reflect the revisions to the form.

The Commission orders:

The May 1983 and future filings of the Form No. EIA-767, "Steam-Electric Plant Air and Water Quality Control Data" prescribed by 18 CFR 141.59 are suspended until further notice.

By the Commission.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 83-11631 Filed 4-28-83; 8:45 am]

BILLING CODE 6490-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 416

Supplemental Security Income for the Aged, Blind, and Disabled; Deeming of Income and Resources

AGENCY: Social Security Administration, HHS.

ACTION: Extension of interim rules and intradepartmental board.

SUMMARY: This notice extends the effective period of the interim rules on deeming of income and resources published in the **Federal Register** on June 4, 1982 (47 FR 24274) and also extends the tenure of the Department of Health and Human Services' (HHS) intradepartmental board established for the purpose of applying those interim rules to certain Supplemental Security Income (SSI) cases. The interim rules and the tenure of the board are extended through December 31, 1983.

DATE: The board will continue to make case-by-case determinations concerning the possible waiver of the usual SSI rules for deeming certain family members' resources and income to a noninstitutionalized SSI claimant through December 31, 1983.

The interim rules applicable to these cases will remain in effect through that date.

FOR FURTHER INFORMATION: Contact Mr. Fred Miranda, Legal Assistant, 3-B-4 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235, (301) 594-7341, for further information regarding extension of the interim rules. Information regarding the submission of a State agency's application for waiver of the usual SSI deeming rules may be obtained from Mr. Timothy D. Roberson, Department of Health and Human Services, Room 656-G Humphrey Building, 200 Independence Avenue, SW., Washington, D.C. 20201, (202) 245-7187.

SUPPLEMENTARY INFORMATION: The interim rules provide special SSI deeming criteria to be used in determining whether it would be inequitable to apply the usual SSI deeming rules in certain circumstances. The intradepartmental board has been making case-by-case determinations on whether to waive the usual SSI rules for deeming certain family members' resources and income to a noninstitutionalized individual. Waiver of the usual deeming rules permits SSI eligibility and, in most States, Medicaid eligibility for certain disabled individuals confined at home who otherwise may be unnecessarily institutionalized to acquire such Medicaid eligibility. The interim rules reflect a temporary policy that was developed to deal with this concern (institutionalization in order to obtain Medicaid) while States develop appropriate programs of home and community-based services under their Medicaid programs. The temporary policy and the board were to be effective only through April 30, 1983. However, a number of States had indicated their inability to have such programs in place by April 30, 1983. Therefore, the Secretary decided to extend the interim rules and the tenure of the board through December 31, 1983.

[Docket Nos. 76N-0366 and 83N-0009]

Provisional Listing of FD&C Blue No. 2; Postponement of Closing Date and Stay of Effectiveness

AGENCY: Food and Drug Administration.

ACTION: Final rule; stay of effective date.

SUMMARY: The Food and Drug Administration (FDA) is postponing the closing date for the provisional listing of FD&C Blue No. 2 for use as a color additive in food and ingested drugs. FDA is establishing a new closing date for FD&C Blue No. 2 to give the agency time to complete evaluation of objections received in response to the final regulation approving the petition for the permanent listing of FD&C Blue No. 2. The regulation that permanently lists FD&C Blue No. 2 and that removes it from the provisional list is stayed until July 1, 1983.

DATES: Effective April 29, 1983; the new closing date for FD&C Blue No. 2 will be July 1, 1983.

FOR FURTHER INFORMATION CONTACT: Geraldine E. Harris, Bureau of Foods (HFF-332), Food and Drug Administration, 200 C St. SW., Washington, DC. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: FDA established the current closing date of April 29, 1983, for the provisional listing of FD&C Blue No. 2 in a regulation published in the **Federal Register** of February 4, 1983 (48 FR 5261). The agency established the April 29, 1983 closing date for FD&C Blue No. 2 to provide time for receipt and evaluation of any objections to the final regulation approving the petition for permanent listing of FD&C Blue No. 2.

After the review and evaluation of the data relevant to the color additive petition to list FD&C Blue No. 2 for use in food and ingested drugs, the agency concluded that FD&C Blue No. 2 was safe for use in food and ingested drugs. Therefore, FDA issued a regulation in the **Federal Register** of February 4, 1983 (48 FR 5252) that would permanently list FD&C Blue No. 2. FDA stated that the regulation would become effective on March 8, 1983, unless stayed by the filing of proper objections.

On March 7, 1983, FDA received a letter stating objections to the listing regulation and requesting a hearing on those objections. Because of the objections, under section 701(e)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 371(e)(2)), the regulation (48 FR 5252) that permanently lists FD&C Blue No. 2 and that removes this color additive from the provisional list is stayed until the agency can rule upon the objections. FDA expects that it will need only a brief time to complete the evaluation of the objections. Therefore, FDA concludes that only a brief postponement is necessary at this time. The regulation set forth below will postpone the April 29, 1983 closing date for provisional listing of FD&C Blue No. 2 until July 1, 1983.

Because the current closing date expires on April 29, 1983, FDA has concluded that the use of a notice and public procedure on this regulation is impracticable. Thus, good cause exists for issuing the postponement as a final rule. Moreover, this action is consistent with the protection of the public health because the agency has previously

concluded that the FD&C Blue No. 2 is safe for its intended use under the Color Additive Amendments of 1960. This regulation will permit the uninterrupted use of this color additive until July 1, 1983. To prevent any interruption in the provisional listing of FD&C Blue No. 2 and in accordance with 5 U.S.C. 553(d)(1) and (3), this regulation is being made effective on April 29, 1983.

List of Subjects

21 CFR Part 74

Color additives, Color additives subject to certification, Cosmetics, Drugs.

21 CFR Part 81

Color additives, Color additives provisional list, Cosmetics, Drugs.

21 CFR Part 82

Color additives, Color additive lakes, Color additives provisional list, Cosmetics, Drugs.

Therefore, under the Federal Food, Drug and Cosmetic Act (secs. 701(e), 706 (b), (c), and (d), 70 Stat. 919 as amended, 74 Stat. 399–403 (21 U.S.C. 371(e), 376 (b), (c), and (d))) and the Transitional Provisions of the Color Additive Amendments (Title II, Pub. L. 86–618, sec. 203, 74 Stat. 404–407 (21 U.S.C. 376, note)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Chapter I of Title 21 of the Code of Federal Regulations (as amended in the **Federal Register** of February 4, 1983 (48 FR 5252)) is amended as follows:

PART 74—LISTING OF COLOR ADDITIVES SUBJECT TO CERTIFICATION

1. Part 74 is amended:

§ 74.102 [Stayed]

a. By staying § 74.102 *FD&C Blue No. 2.*

§ 74.1102 [Stayed]

b. By staying § 74.1102 *FD&C Blue No. 2.*

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

2. Part 81 is amended:

a. In § 81.1(a) by reinstating and revising "FD&C Blue No. 2" to read as follows:

§ 81.1 Provisional lists of color additives.

* * * * *

[Docket No. 76N-0366]

Provisional Listing of D&C Red No. 19 and D&C Red No. 37 for Use in Externally Applied Drugs and Cosmetics; Postponement of Closing Date

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is postponing the closing date for the provisional listing of D&C Red No. 19 and D&C Red No. 37 for use as color additives in externally applied drugs and cosmetics. The new closing date will be June 28, 1983. This brief postponement will provide time for determining the applicability for the statutory standard for the listing of noningested color additives to the results of the scientific investigations of D&C Red No. 19 and D&C Red No. 37.

DATES: Effective April 29, 1983, the new closing date for D&C Red No. 19 and D&C Red No. 37 will be June 28, 1983.

FOR FURTHER INFORMATION CONTACT: Andrew D. Laumbach, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: FDA established the current closing date of April 29, 1983, for the provisional listing of D&C Red No. 19 and D&C Red No. 37 for use in externally applied drugs and cosmetics by a rule published in the **Federal Register** of March 1, 1983 (48 FR 8443). The agency extended the closing date until April 29, 1983, to provide time for consideration of the studies submitted by the Cosmetic, Toiletry, and Fragrance Association, Inc. (CTFA). Previously in the **Federal Register** of March 27, 1981 (46 FR 18954), FDA had published a rule establishing a closing date of February 28, 1983, for the provisional listing of D&C Red No. 19 and D&C Red No. 37 for cosmetic and general drug uses. The agency had extended the closing date until February 28, 1983, to provide time for the completion of chronic toxicity studies and the review and evaluation of these studies. In the **Federal Register** of February 4, 1983 (48 FR 5262), FDA terminated the provisional listing of D&C Red No. 19 and D&C Red No. 37 for coloring ingested drugs and cosmetics.

As noted in the **Federal Register** of August 6, 1973 (38 FR 21199), D&C Red No. 19 and D&C Red No. 37 are the subject of a petition (CAP 9C0091) submitted by the Toilet Goods Association, Inc. (now CTFA), for use in coloring drugs and cosmetics. As discussed in the **Federal Register** of February 4, 1983 (48 FR 5262), the petitioner has amended its color additive petition by withdrawing its request to list these color additives for coloring ingested drugs and cosmetics but has continued to seek permanent listing of these color additives for use in external cosmetic and drug products that are not subject to incidental ingestion. Prior to February 4, 1983, the petitioner submitted analyses of the safety and legal issues involved in the decision on whether to list the external

uses of these color additives, including data regarding skin penetration. However, the agency found the the skin penetration data did not provide an adequate basis upon which to determine whether these color additives were in fact absorbed through the skin.

Thus, on November 24, 1982, CTFA asked the agency to review new skin penetration studies on these color additives. CTFA said it would be able to submit these studies to the agency by February 10, 1983. Because of unforeseen events, however, CTFA was unable to submit these new data until February 16, 1983. The agency agreed to review these data before reaching a conclusion on the safety of D&C Red No. 19 and D&C Red No. 37 for use in externally applied drugs and cosmetics.

The agency is now considering the scientific and legal aspects of the CTFA submissions in support of the external uses of these color additives. Although D&C Red No. 19 and D&C Red No. 37 have been shown to be animal carcinogens upon ingestion, the agency believes that somewhat different questions are raised by the request to list these color additives for noningested use. Thus, FDA finds that a brief extension of the closing date to June 28, 1983, is necessary to provide sufficient time for the agency to determine the applicability of the statutory standard for the listing of color additives for noningested use to D&C Red No. 19 and D&C Red No. 37. It has taken FDA more time to evaluate the data involved in making this decision than the agency anticipated. This postponement will also provide time for the agency to prepare and to publish a **Federal Register** document setting forth its final decision on the petition for the permanent listing of these color additives. The continued use of these color additives in externally applied products for the short time needed for adequate evaluation of the data and for preparation of the **Federal Register** document will not pose a hazard to the public health.

Because of the short time until the June 28, 1983 closing date, FDA concludes that notice and public procedure on this regulation are impracticable.

This regulation will permit the uninterrupted use of these color additives until June 28, 1983. To prevent any interruption in the provisional listing of D&C Red No. 19 and D&C Red No. 37 and in accordance with 5 U.S.C. 553(d) (1) and (3), this regulation is being made effective April 29, 1983.

List of Subjects in 21 CFR Part 81

Color additives, Color additives provisional list, Cosmetics, Drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 701, 706(b), (c), and (d), 52 Stat. 1055–1056 as amended, 74 Stat. 399–403 (21 U.S.C. 371, 376(b), (c), and (d)) and under the transitional provisions of the Color Additive Amendments of 1960 (Title II, Pub. L. 86–618; sec. 203, 74 Stat. 404–407 (21 U.S.C. 376 note)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 81 is amended as follows:

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

§ 81.1 [Amended]

1. In § 81.1 *Provisional lists of color additives,* by revising the closing date for "D&C Red No. 19" and "D&C Red No. 37" in paragraph (b) to read "June 28, 1983."

§ 81.27 [Amended]

2. In § 81.27 *Conditions of provisional listing,* by revising the closing date for "D&C Red No. 19" and "D&C Red No. 37" in paragraph (d) to read "June 28, 1983."

Effective date. This final rule is effective April 29, 1983.

(Secs. 701, 706(b), (c), and (d), 52 Stat. 1055–1056 as amended, 74 Stat. 399–403 (21 U.S.C. 371, 376(b), (c), and (d)); sec. 203, 74 Stat. 404–407 (21 U.S.C. 376 note))

Dated: April 18, 1983.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

21 CFR Part 81

[Docket No. 76N–0366]

Provisional Listing of D&C Yellow No. 10 for Use in Drugs and Cosmetics; Postponement of Closing Date

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is postponing the closing date for the provisional listing of D&C Yellow No. 10 for use as a color additive in drugs and cosmetics. The new closing date will be July 1, 1983. This brief postponement will provide time for the uninterrupted use of this color additive while the agency completes its review and considers the scientific and legal aspects of the results of the toxicological studies on D&C Yellow No. 10 submitted by several petitioners. Additionally, during this brief postponement, after completing its review of these studies, the agency will prepare the appropriate **Federal Register** document(s).

DATES: Effective April 30, 1983, the new closing date for D&C Yellow No. 10 will be July 1, 1983.

FOR FURTHER INFORMATION CONTACT: James H. Maryanski, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204; 202–472–5740.

SUPPLEMENTARY INFORMATION: FDA established the current closing date of April 30, 1983, for the provisional listing of D&C Yellow No. 10 in drugs and cosmetics by a rule published in the **Federal Register** of March 27, 1981 (46 FR 18954). The April 30, 1983 closing date was established to provide time for completion of FDA's review and evaluation of the data concerning the use of D&C Yellow No. 10 in drugs and cosmetics, and for the publication of a regulation in the **Federal Register** regarding FDA's final decision on the petition for the permanent listing of this color additive. The regulation set forth below will postpone the April 30, 1983 closing date for the provisional listing of the color additive until July 1, 1983.

FDA's review and evaluation of the data relevant to the use of D&C Yellow No. 10 have required more time than anticipated. The agency therefore concludes that the brief extension of the closing date to July 1, 1983, is necessary. This brief postponement will provide time for the agency to complete its review and prepare the appropriate **Federal Register** document(s). No harm to the public health will result from this extension.

Because of the short time until the April 30, 1983 closing date, FDA concludes that notice and public procedure on this regulation are impracticable, and that good cause exists for issuing this postponement as a final rule. This regulation will permit the uninterrupted use of this color additive until July 1, 1983. To prevent any interruption in the provisional listing of D&C Yellow No. 10 and in accordance with 5 U.S.C. 553(d) (1) and (3), this regulation is being made effective on April 30, 1983.

List of Subjects in 21 CFR Part 81

Color additives, Color additives provisional list, Cosmetics, Drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 701, 706 (b), (c), and (d), 52 Stat. 1055–1056 as amended, 74 Stat. 399–403 (21 U.S.C. 371, 376 (b), (c), and (d))), under the

Transitional Provisions of the Color Additive Amendments of 1960 (Title XI, Pub. L. 86-618; sec. 203, 74 Stat. 404-407 (21 U.S.C. 376 note)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 81 is amended as follows:

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

§ 81.1 [Amended]

1. In § 81.1 *Provisional lists of color additives,* by revising the closing date for "D&C Yellow No. 10" in paragraph (b) to read "July 1, 1983."

§ 81.27 [Amended]

2. In § 81.27 *Conditions of provisional listing,* by revising the closing date for "D&C Yellow No. 10" in paragraph (d) to read "July 1, 1983."

Effective date. This final rule shall be effective April 30, 1983.

(Secs. 701, 706 (b), (c), and (d), 52 Stat. 1055-1056 as amended, 74 Stat. 399-403 (21 U.S.C. 371, 376 (b), (c), and (d); sec. 203, 74 Stat. 404-407 (21 U.S.C. 376 note))

Dated: April 18, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 83-11284 Filed 4-28-83; 8:45 am]

BILLING CODE 4160-01-M

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Trimeprazine Tartrate and Prednisolone Capsules

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to codify a previously approved new animal drug application (NADA) sponsored by Norden Laboratories, Inc. The NADA provides for safe and effective use in dogs of capsules containing the drug combination trimeprazine tartrate/prednisolone for their antipruritic, antitussive, and anti-inflammatory actions.

EFFECTIVE DATE: April 29, 1983.

FOR FURTHER INFORMATION CONTACT: Terence Harvey, Bureau of Veterinary Medicine (HFV-110), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: Norden Laboratories, Inc., Lincoln, NE 68501, is sponsor of NADA 35-161 which provides for use of capsules containing sustained release trimeprazine tartrate combined with prednisolone. The capsules are administered to dogs when combined antipruritic, antitussive, and anti-inflammatory actions are indicated.

NADA 35-161 was originally approved by letter dated July 17, 1967. At that time, approvals were not codified by publication in the Federal Register. Accordingly, the regulations are now amended to codify Norden Laboratories' approved NADA.

This action, codification of a previously approved NADA, does not consititute reaffirmation of the safety and effectiveness data supporting this approval. Because the NADA was approved before July 1, 1975, the sponsor was not required to submit a summary of the safety and effectiveness data and information in accordance with the freedom of information provisions of the animal drug regulations in 21 CFR 514.11(e)(2)(ii).

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 520

Animal drugs, Oral use.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 520 is amended by adding new § 520.2605 to read as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

§ 520.2605 Trimeprazine tartrate and prednisolone capsules.

(a) *Specifications.* Each capsule contains 3.75 milligrams of trimeprazine in sustained released form (as the tartrate) and 1 milligram of prednisolone (capsule no. 1) or 7.5 milligrams of trimeprazine in sustained release form (as the tartrate) and 2 milligrams of prednisolone (capsule no. 2).

(b) *Sponsor.* See 011519 in § 510.600(c) of this chapter.

(c) *Conditions of use*—(1) *Amount.* Administer either capsule orally once daily to dogs as follows:

Animal weight (pounds)	Number of capsules per dose	
	Capsule No. 1	Capsule No. 2
Up to 10	1	
11 to 20	2	1
21 to 40	4	2
Over 40	6	3

(2) *Indications for use.* For the relief of itching regardless of cause, reduction of inflammation commonly associated with most skin disorders of dogs such as eczema caused by internal disorders, otitis, and dermatitis (allergic, parasitic, pustular, and nonspecific). It is also used in dogs as adjunctive therapy in various cough conditions including treatment of "kennel cough" or tracheobronchitis, bronchitis including allergic bronchitis, tonsillitis, acute upper respiratory infections, and coughs of nonspecific origin. The product may also be administered to dogs suffering from acute or chronic bacterial infections, provided the infection is controlled by appropriate antibiotic or chemotherapeutic agents.

(3) *Limitations.* After 4 days, reduce dosage to one-half the initial dose or to an amount sufficient to maintain remission of symptoms. Dosages in individual cases may vary and should be adjusted until proper response is obtained. Do not use the drug in cases of viral infections involving corneal ulceration or dendritic ulceration of the cornea. Clinical and experimental data have demonstrated that corticosteroids administered orally or parenterally to animals may induce the first stage of parturition when administered during the last trimester of pregnancy and may precipitate premature parturition followed by dystocia, fetal death, retained placenta, and metritis. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. April 29, 1983.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: April 22, 1983.

Lester M. Crawford,

Director, Bureau of Veterinary Medicine.

BILLING CODE 4160-01-M

DEPARTMENT OF LABOR

Office of the Secretary

Employment Standards Administration, Wage and Hour Division

29 CFR Parts 1, 3, and 5

Further Deferral of Effective Dates of Regulations Relating to Labor Standards on Federal and Federally Assisted Construction Projects

AGENCY: Wage and Hour Division, Employment Standards Administration, Labor.

ACTION: Notice of further deferral of effective dates of regulations.

SUMMARY: This is a notice of continued deferral of the effective dates of certain sections of Department of Labor regulations relating to labor standards applicable to federal and federally assisted construction projects, which were published previously in the **Federal Register** as final rules on May 28, 1982. This action is taken in order to comply with a permanent injunction issued in the U.S. District Court for the District of Columbia on December 23, 1982, and amended by clarifying order of the Court dated January 17, 1983. For additional information on these actions see the following **Federal Register** documents in Parts II and III of this issue of the **Federal Register:**

1. FR Document No. 83–11198 (29 CFR Part 1) (Part II of this issue).

2. FR Document No. 83–11199 (29 CFR Part 5) (Part III of this issue).

DATE: The effective date of these rules is deferred until further notice. This notice is effective on April 29, 1983.

FOR FURTHER INFORMATION CONTACT: William M. Otter, Administrator, Wage and Hour Division, Employment Standards Administration, Frances Perkins Department of Labor Building, Room S–3502, 200 Constitution Avenue, NW., Washington, D.C. 20210, Telephone (202) 523–8305.

SUPPLEMENTARY INFOMRATION: In the **Federal Register** of May 28, 1982 (47 FR 23644, 23658, 23678), the Department of Labor issued final regulations, 29 CFR Part 1, entitled "Procedures for Predetermination of Wage Rates"; section 3.3(b) of 29 CFR Part 3 entitled "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants From the United States"; and 29 CFR Part 5, entitled "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction (also Labor Standards Provisions Applicable to Nonconstruction Contracts Subject to the Contract Work Hours and Safety Standards Act)." These regulations were to be effective July 27, 1982.

On July 22, 1982, the District Court for the District of Columbia issued a preliminary injunction enjoining the Department from putting certain provisions of these regulations into effect pending final disposition. *Building and Construction Trades Department, AFL–CIO, et al.* v. *Donovan, et al.*, 543 F. Supp. 1282. The Department published a notice in the **Federal Register** on July 26, 1982 (47 FR 32070), deferring the implementation of these regulations in their entirety until further notice.

On December 23, 1982, the Court issued a permanent injunction with respect to a number of the May 28 regulatory revisions and on January 17, 1983, the Court amended its order to clarify and delineate which sections of the regulations were being enjoined. The Department has appealed this ruling. However, pending resolution of the appeal, the enjoined sections of the May 28 revisions to the regulations have been rewritten to comply with the injunction, by either eliminating the language regarding the issue in the suit or by adding language to continue the requirements in the existing regulations. The regulations published on May 28 which were not enjoined, with the language changes necessitated by the injunction, are being put into effect by separate document appearing elsewhere in today's **Federal Register.**

This document further defers the effective dates of the enjoined sections of the regulations as published in the **Federal Register** on May 28, 1982. If the injunction is subsequently lifted as a result of the Department's appeal, the enjoined sections of the May 28 regulations will be implemented at that time.

Since the Department is operating under the terms of a U.S. District Court injunction, the enjoined sections of these regulations cannot be implemented until final resolution of the appeal. Under the circumstances, separate notice and public comment on this further deferral of the effective date is impracticable, unnecessary and contrary to the public interest and good cause exists for making these postponements effective immediately. This finding is made pursuant to 5 U.S.C. 553(b)(3)(B) and 553(d)(3).

Accordingly, the regulations set forth on the following chart are deferred until further notice:

Section of rule	Enjoined issues	Publication of rule in final form	Originally scheduled effective date	New effective date
29 CFR 1.3(d)	Consideration of Davis-Bacon rates in wage surveys	May 28, 1982 (47 FR 23652)	July 27, 1982	Deferred until further notice
29 CFR 1.7(b)	Prohibition against use of metropolitan data in making rural wage determinations (and vice versa)	May 28, 1982 (47 FR 23655)	do	Do.
29 CFR 1.7(d)	Recognition of helpers	do	do	Do.
29 CFR 5.2(n)(4)	Definition of helper	May 28, 1982 (47 FR 23667)	do	Do.
29 CFR 5.5(a)(1)(ii)(A)	Conformance of helper classifications and wage rates	May 28, 1982 (47 FR 23668)	do	Do.
29 CFR 5.5(a)(3) (ii) and (iii)	Submission of wage payment information	May 28, 1982 (47 FR 23669)	do	Do.
29 CFR 5.5(a)(4)(iv)	Provisions concerning the use of helpers	May 28, 1982 (47 FR 23670)	do	Do.
29 CFR 5.6(a) (2) and (3)	Provisions concerning the "Statement of Compliance" and requests for submission of payrolls	May 28, 1982 (47 FR 23671)	do	Do.
29 CFR 3.3(b)	Weekly statement of wages paid	May 28, 1982 (47 FR 23678)	do	Do.

(The statutory authority for this action is as follows: 40 U.S.C. 276a–276a–7; 40 U.S.C. 276c; 40 U.S.C. 327–332; Reorganization Plan No. 14 of 1950, 5 U.S.C. Appendix; 5 U.S.C. 301; and the statutes listed in section 5.1(a) of Part 5)

Signed at Washington, D.C., this 22nd day of April 1983.

William M. Otter,

Administrator, Wage and Hour Division.

BILLING CODE 4510–27–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 86

[AMS–FRL–2351–2]

Control of Air Pollution From New Motor Vehicles and New Motor Vehicle Engines; Emission Standards for 1984 and Later Model Year Light-Duty Vehicles

AGENCY: Environmental Protection Agency.

ACTION: Extension of comment period and request for comments.

SUMMARY: On February 18, 1983, EPA published an Interim Final Rulemaking (IFRM) that implemented the all-altitude emission control requirements of Section 206(f)(1) of the Clean Air Act (the Act) for 1984 model year light-duty vehicles (LDVs) (48 FR 7392, February 18, 1983).

In a petition dated March 17, 1983, the National Automobile Dealers Association (NADA) requested that the comment period on the 1984 IFRM be extended to allow additional time to prepare and submit comments. Also, three issues have been brought to EPA's attention concerning the LDV 1984 IFRM.These issues are: (1) The designation of high-altitude locations for 1984 and later LDVs, (2) the elimination of special vehicles designed for the high-altitude market, and (3) a request from General Motors Corporation (GM) to specifically exempt their heaviest LDV from the 1984 all-altitude requirement.

In response to NADA's request, and to allow additional specific comment on the issues mentioned above, EPA is extending the comment period on the 1984 IFRM.

DATE: Comments on the rulemaking action should be submitted to the Agency at the address given below on or before May 31, 1983.

ADDRESS: Copies of the material relevant to this rulemaking are contained in Public Docket No. A–80–1 at the U.S. Environmental Protection Agency, Central Docket Section. The docket is located in West Tower Lobby, Gallery 1, 401 M Street, SW., Washington, D.C. 20460. The docket may be inspected between 8:00 a.m. and 4:00 p.m. on weekdays. A reasonable fee may be charged for copying services.

FOR FURTHER INFORMATION CONTACT: Mr. Richard S. Wilcox, Emission Control Technology Division, U.S. Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, MI 48105; (313) 668–4390.

SUPPLEMENTARY INFORMATION: Section 206(f)(1) of the Act requires that, beginning in the 1984 model year, all LDVs must meet the applicable Federal emission standards regardless of the altitude at which they are sold. (LDVs that are only certified to meet separate California emission requirements are not bound by this requirement. *See e.g.* S. Rep. No. 95–127, 95th Cong., 1st Sess. 87(1977).) On February 18, 1983, EPA published in the **Federal Register:** (1) An IFRM which implemented this "all-altitude" LDV requirement for 1984, and (2) an NPRM which solicited comments on adopting the same requirements for 1985 and later LDVs.

Although the comment period on the IFRM for 1984 closed on March 21, 1983, EPA is extending the comment period for two reasons. First, the Agency is granting a petition from the NADA dated March 17, 1983, to extend the comment period on the 1984 IFRM to allow more time for the submission of comments.[1] Second, EPA is seeking specific comments on three issues. Two of the issues were identified at the March 22, 1983 public hearing on the 1985 and later NPRM, and one issue was raised separately by GM.

The three issues upon which EPA is seeking specific comments are: (1) The designation of high-altitude locations where exempt vehicles (i.e., those certified only at low altitude) could not be sold, (2) the elimination of special vehicles designed specifically for the high-altitude market, and (3) a request from GM to grant a unique exemption from the all-altitude standards for its heaviest LDV. Each of these issues is discussed in greater detail below.

I. Designation of High-Altitude Locations

On November 10, 1982, the Agency proposed to reduce the number of high-altitude locations where only vehicles certified in compliance with high-altitude standards could be sold (47 FR 50929). The proposed "redesignation" of high-altitude locations would affect 1983 LDVs and 1983 and later light-duty trucks (LDTs). It is based on Section 202(f)(3) of the Act, which contains guidelines for establishing high-altitude regulations for these motor vehicles. That section specifically requires a consideration of air quality effects when designating areas to which the high-altitude standards would apply.

As indicated in the preamble of the redesignation NPRM and reiterated at the associated public hearing on January 12, 1983, the redesignation did not apply to 1984 and later LDVs because these vehicles were subject to the all-altitude requirements of Section 206(f)(1) of the Act.

In developing the regulations to implement Section 206(f)(1), EPA found that certain exemptions were necessary for very low-power vehicles. Such exempted vehicles would only meet standards at low altitude and could not be sold for principal use in high-altitude areas. The Agency interpreted the Act as requiring that, in this instance, high-altitude locations must be designated solely on the basis of altitude, and not on other factors. Therefore, because the revised designation criteria are based not only on altitude, but also on air quality needs EPA concluded that the original list of high-altitude locations should be retained for 1984 and later LDVs.

At the March 22, 1983 public hearing on the proposed all-altitude requirements for 1985 and later LDVs, commenters suggested that EPA's interpretation of Section 206(f)(1) may be overly restrictive. They argued that the redesignation should be adopted for 1984 and later LDVs because the Act does not appear to specifically prohibit the consideration of air quality needs in designating high-altitude locations for these vehicles. Furthermore, they stated that failure to adopt the revised designation criteria would result in a separate list of high-altitude counties for LDVs and LDTs. Such a system, they concluded, would be more costly than necessary and needlessly confusing to consumers and dealerships.

The Agency specifically requests comments on the desirability and the legal rationale for adopting the revised list of designated high-altitude locations for 1984 LDVs, rather than retaining the original list of designated high-altitude locations.

II. Elimination of Special High-Altitude Axles

The 1982–83 high-altitude LDV regulations allow the sale of vehicles equipped with special axle ratios that

[1] Letter and attachment from R. J. Wade, NADA, to R. D. Wilson, U.S. EPA. Available for review in EPA Docket No. A–80–01.

are only certified in compliance with high-altitude standards (45 FR 66984). These axles have higher numerical gear ratios which are designed to counteract the deleterious effects of higher elevations on vehicle performance.[2] Commenters of the March 22, 1983 public hearing stated that the regulations which implement the all-altitude requirement of Section 206(f)(1) of the Act would not allow such special high-altitude axles.

Indeed, under the regulations, vehicles using these higher numerical axle ratios could only be sold if they were certified in compliance with the standards at both low and high altitude. General Motors stated that the need to specifically certify vehicles with such axle ratios at low altitude would be too costly relative to the sales volume at low altitude, and may also adversely affect its corporate Average Fuel Economy (CAFE) rating. for these reasons, GM continued, higher numerical axle ratios, which are currently available for sale at high altitude, would be dropped from its LDV product line beginning in the 1984 model year.

The availability of higher numerical axle ratios does appear important to high-altitude consumers. According to Ford Motor Company when the same basic vehicle was available with two axle ratios, the higher numerical ratio generally accounted for 70 percent of the vehicle sales at high altitude.

Two important points were made at the public hearing regarding the future of these special axle ratios. First, the loss of these special axles in 1984 would adversely affect model availability in high-altitude locations and could be contrary to Congress' desire to protect model availability in these areas. Second, if vehicles with these special axles were somehow allowed at high altitude, such vehicles would still meet emission standards where they were sold (i.e., at high altitude). When these two points are taken together, allowing the continued sale of these vehicles in high-altitude areas does not appear to be at odds with the statute.

Because of this, commenters at the hearing suggested that an exemption be incorporated into the regulations for 1984 and later LDVs to allow special axle ratios to be certified for sale at high altitude only. This exemption would be similar to the provision already present in the regulations which allow the sale of certain vehicle configurations only at low altitude to protect model availability in these areas.

If such a special axle ratio exemption is found to be permissible under the Act, another issue is whether the sale of such vehicles could be allowed for principal use in any area above 4,000 feet, and not just in areas that EPA has designated as high-altitude locations (i.e., any county with 75 percent of its land mass and population above 4,000 feet). It can be argued that the issue of limiting model availability in this instance is strictly altitude dependent and is not limited simply to areas that meet EPA's high-altitude designation criteria, which were adopted for other regulatory purposes.[3] Allowing the sale of vehicles with high-altitude axle ratios for principal use in any area above 4,000 feet; however, would require that a special provision be added to the 1984 and later LDV regulations.

In a related matter, it should be noted that if the revised list of counties for 1983 LDVs is adopted for 1984 and later LDVs, as discussed previously, there will be many more "non-designated" areas above 4,000 feet than if the current list of counties is retained.

The Agency specifically requests additional comments on the legal justification and need for special axle ratio exemptions in high-altitude locations. Comments are also requested on whether it would be inconsistent to allow the sale of both exempted and special axle ration vehicles in non-designated areas above 4,000 feet.

III. General Motors' Request for Exemption

General Motors has brought to EPA's attention a problem concerning the effect of the 1984 all-altitude requirement on a particularly heavy (over 6,000 lbs. gross vehicle weight (GVW)) LDV.[4] General Motors has indicated that, for 1984 only, application of the all-altitude requirement to its Cadillac limousine would be too costly to justify marketing of this vehicle. The limousine is currently equipped with a 6.0-liter modulated displacement engine. General Motors has indicated that as presently designed, the limousine cannot comply with the all-altitude requirement, and that GM believes that it would be impractical to redesign the 6.0-liter engine system for the 1984 model year.

We are inclined to grant GM's request to exclude this vehicle from the 1984 LDV all-altitude requirement. There is no discernible environmental effect which would result from removing this vehicle from the all-altitude requirement, nor would this action have an obvious competitive impact. General Motors has indicated that expected sales of this vehicle are fewer than 1,500 vehicles, and fewer than 50 at high altitude. Moreover, since this vehicle is greater than 6,000 lbs. GVW, we believe it appropriate to remove it from the LDV class. The Clean Air Act specifically envisions that vehicles in excess of 6,000 lbs. GVW can be classified as other than LDVs.[5]

Because GM has idicated that this problem exists only for the 1984 model year, we plan to limit the reclassification of heavy passenger vehicles to only one year. For the one year, we intend to classify passenger vehicles rated over 6,000 lbs. GVW (with equivalent test weights of 5,000 lbs. or more) as other than an LDV; however, apart from the all-altitude requirement, LDV standards would apply.

We invite comment on this action, especially on environmental impact, competitive effect, or model availability.

Dated: April 12, 1983.

Charles L. Elkins,

Acting Assistant Administrator for Air, Noise and Radiation.

BILLING CODE 6560-50-M

[2] When a vehicle is driven at higher elevations, the air it consumes is less dense due to its lower atmospheric pressure. As air becomes less dense, less oxygen is available in a given volume of air to combine with fuel and produce power. Consequently, vehicle performance at high altitude is degraded.

[3] High-altitude locations were originally designed to provide EPA, state governments, and manufacturers with a reasonable way to enforce the prohibition against selling low-altitude vehicles in high-altitude areas.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6375

[W-81075]

Wyoming; Modification of Executive Order of April 15, 1930 and Supplements Thereof

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order will modify the Executive Order of April 15, 1939, and supplements thereof, which withdrew lands for oil shale classification. This modification, affecting 2,542.23 acres, is necessary to permit the filing of a public airport lease application by the town of LaBarge, Wyoming. The lands would

remain closed to surface entry other than airport leases, mining and mineral leasing for minerals other than oil, gas, and sodium.

EFFECTIVE DATE: April 29, 1983.

FOR FURTHER INFORMATION CONTACT: W. Scott Gilmer, Wyoming State Office, 307–772–2089.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of April 15, 1930, and supplements thereof, which withdrew lands for oil shale classification is hereby modified to permit a public airport lease of the following described lands pursuant to the Act of May 24, 1928 (45 Stat. 728; 49 U.S.C. 211–214), as amended by the Act of August 16, 1941 (55 Stat. 621):

Sixth Principal Meridian, Wyoming

T. 26 N., R. 112 W.,
Secs. 1 through 4, All.

The area described contains approximately 2,542.23 acres in Lincoln County, Wyoming.

Inquiries concerning the lands should be addressed to the Chief, Branch of Land Resources, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82001.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

April 20, 1983.

[FR Doc. 83–11493 Filed 4–28–83; 8:45 am]

BILLING CODE 4310–84–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 83

[Docket No. FEMA–FIA–80]

Federal Crime Insurance Program

AGENCY: Federal Insurance Administration (FIA), FEMA.

ACTION: Final rule.

SUMMARY: These revisions to the Federal Crime Insurance Program are proposed to achieve the following: The definitions of "named insured" and "insured premises" under the residential policy are simplified and the term "conveyance of property away from the premises" as used in the commercial policy is defined. Other revisions provide greater clarity to existing provisions and reflect program experience which has indicated the desirability of more precise terminology.

On December 15, 1981, (46 FR 61146) the Federal Insurance Administration, Federal Emergency Management Agency, published for comment in the **Federal Register** a proposed rule containing revisions which are based upon experience gained in administering the Federal Crime Insurance Program and from suggestions received from interested parties to make the Program more effective in serving the needs of those for whom it was intended and benefit the government as well as the insured.

DATE: This rule will be effective May 31, 1983.

FOR FURTHER INFORMATION CONTACT: Robert J. DeHenzel, Federal Emergency Management Agency, Federal Insurance Administration, Donohoe Building, 500 C Street, S.W., Room 433, Washington, D.C. 20472, Telephone Number (202) 287–0800.

SUPPLEMENTARY INFORMATION: The only written comments received were from an insurance industry organization and the Federal Emergency Management Agency's Inspector General in respect to which the comments were duly considered and some dealt with in the final rule promulgated as of June 1, 1982, 47 FR 19350.

These amendments are the result of the experience gained in the eleven years the Federal Crime Insurance Program has been in operation and were not included in the Federal Regulations revisions promulgated June 1, 1982.

Certain terminology in the residential and commercial policies have lacked adequate definitions and these proposed regulations bring clarity to the policy provisions. These regulations enable insureds to determine whether they are conveying property which can be covered under the insuring agreement of robbery "away from the premises" by defining when conveyance ceases.

The definition of "premises" in the residential policy has lacked clarity and these regulations make it clear that damage to the exterior of buildings such as houses or garages is required to establish burglary.

FEMA had determined in the Notice of Proposed Rulemaking that an Environmental Impact Statement is not needed for this Final Rule. A copy of the Finding of No Significant Impact and An Environmental Assessment is available at the above address.

It has also been determined that this regulation will not have a significant impact on a substantial number of small businesses and that a Final Regulatory Flexibility Analysis is not needed.

Crime insurance.

PART 83—COVERAGE, RATES, AND PRESCRIBED POLICY FORM

Accordingly 44 CFR Part 83 is amended as follows:

§ 83.5 [Amended]

(1) Section 83.5(a) is amended by revising portions of the "Residential Crime Insurance Policy" in the following respects:

a. Insuring Agreement II, entitled "Damage" is revised as follows:

II. *Damage.* To pay for damage to the premises and to the insured property by burglary or robbery, including observed theft, or attempt threat, and for damage to the interior of that portion of any building occupied by the named insured's household at the premises and to the insured property therein or away from the premises by vandalism or malicious mischief which occurs during a burglary or robbery, provided that with respect to damage to the building an insured is the owner thereof or is liable for repairing such damage.

With respect to loss occurring at any part of the premises not occupied exclusively by the named insured's household, this Insuring Agreement applies only to property owned or used by an insured.

b. Insuring Agreement VI, entitled "Policy Period, Territory", is revised to read as follows:

VI. *Policy Period, Territory.* This policy applies only to loss which occurs during the policy period within a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the territories and possessions of the United States and the Trust Territory of the Pacific Islands as defined in 12 U.S.C. 1749bbb–2 and set forth in 44 CFR 55.1.

c. Subparagraphs entitled "Definitions—(a) Named Insured" and (b) "Premises" under the heading entitled "Conditions" is revised to read as follows:

1. *Definitions*—(a) *Named Insured.* "Named Insured" means the insured named in the application. "Insured" means the named insured and any person while a permanent member of the insured's household, other than a residence employee;

(b) *Premises.* "Premises" of paragraph 1 means the premises designated in the application and includes garages and other outbuildings incidental thereto.

d. Paragraph 11 entitled "Cancellation" of the section entitled "Conditions" is amended by inserting two additional sentences after the third sentence of that paragraph as follows:

"The premium due notice for installment or renewal premiums is issued to notify the insured that the policy will be cancelled or will expire, as appropriate, unless the insured pays the premium in sufficient time for it to be received by the insurer, or postmarked by the United States Postal Service, on or before

the due date. The mailing of any premium due notice, cancellation notice, or any other notice required by the policy, to the mailing address shown on the application or policy shall be conclusive evidence of notice to the insured."

§ 83.26 [Amended]

(2) Section 83.26(b), is amended by revising portions of the "Commercial Crime Insurance Policy" in the following respects:

a. The paragraph entitled "Insuring Agreements" is revised to read as follows:

Option 1 includes insurance coverage under all of the individually numbered Insuring Agreements listed under the headings Option 2 and Option 3, thus constituting a combination of equal amounts of robbery and burglary insurance coverage.

Option 2 includes insurance coverage only under the individually numbered insuring Agreements I, II, III and IV listed below:

I. Robbery, Including Observed Theft Inside the Premises.

To pay for loss by robbery or observed theft of money, securities, merchandise, furniture, fixtures, and equipment within the named Premises.

II. Robbery, Including Observed Theft Outside of the premises.

To pay for loss by robbery or observed theft of money, securities, and merchandise, including the wallet or bag containing such property while such property is in conveyance by the insured or his messenger outside the named premises, but no payment shall be made for any loss in excess of $5000 except when the insured or his messenger is accompanied by a guard armed with a firearm. The person carrying the insured property and the armed guard cannot be the same person.

This Insuring Agreement includes theft from a night depository but only if a deposit of money has been made at a night depository of a banking institution by a bonded armored car messenger service.

III. Damage. To pay for damage to the named premises and to money, securities, merchandise, furniture, fixtures and equipment within the named premises, by robbery or attempt thereat, provided the insured is the owner thereof or is liable for such damage.

IV. Policy Period, Territory. To pay for losses under Insuring Agreements I, II and III only when occurring during the policy period within a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and such other territories or possessions of the United States including the Trust Territory of the Pacific Islands as defined in 12 U.S.C. 1749bbb–2 and set forth in 44 CFR 55.1.

Option 3 includer insurance coverage only under the individually numbered Insuring Agreements V, VI, VII and VIII listed below.

V. Burglary, Robbery of a Watchman. To pay for loss by burglary or by robbery of a watchman, while the named premises are not open for business, of merchandise, furniture, fixtures and equipment within the named premises provided that this Insuring Agreement does not extend to the loss of money or securities or to cash value in excess of $50 for any item of jewelry unless such property is forcibly extracted from a locked safe as provided under Insuring Agreement VI entitled "Safe Burglary" which follows.

VI. Safe Burglary. To pay for loss by safe burglary of money, securities and merchandise within the named premises while the premises are not open for business, but no payment shall be made for a loss in excess of $5000 except with respect to loss by safe burglary of a safe rated for burglary resistance as Class E or better weighing at least seven hundred and fifty pounds or securely anchored to the floor.

VII. Damage. To pay for damage to the named premises and to money, securities, merchandise, furniture, fixtures and equipment within the named premises by burglary, robbery of a watchman, safe burglary or attempt thereat provided the insured is the owner thereof or is liable for such damage.

VIII. Policy Period, Territory. To pay for losses under Insuring Agreements V, VI, and VII only when occurring during the policy period within a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and such other territories or possessions of the United States, including the Trust Territory of the Pacific Islands as defined in 12 U.S.C. 1749bbb–2 and set forth in 44 CFR 55.1.

Option 4 shall include insurance coverage under all of the individually numbered Insuring Agreements listed under the headings Option 2 and 3 but constituting a combination of unequal amounts of robbery and burglary insurance coverages.

b. The paragraph (a) under the heading entitled "Exclusions" is revised to read as follows:

(a) To loss due to embezzlement or to any fraudulent, dishonest or criminal act by any insured, a partner therein, or an officer, employee, director, trustee or authorized repesentative thereof while working or otherwise and whether acting alone or in collusion with others; provided that this exclusion does not apply to robbery or safe burglary by other than an insured, an officer or a partner thereof.

c. The heading entitled "Exclusions" is amended to add the following paragraphs (g), (h), (i), (j) and (k).

(g) To loss of personal property of: (1) The insured, an officer or partner thereof, (2) a permanent member of the household of an insured, (3) an employee of an insured; provided that this exclusion does not apply if such personal property is used in furtherance of the conduct of the insured's business.

(h) To loss of any vehicle having four or more wheels designed to be operated on any highway and for which a motor vehicle registration is required for such use.

(i) To loss from burglary or safe burglary at any embassy or consulate of any government other than that of the United States.

(j) To loss from burglary or safe burglary at any named premises which is vacant for a period of more than 60 days.

(k) To loss of property of a business (other than the insured's business) that jointly occupies the named premises with the insured but whose business area is not separated from the insured's business area by a physical barrier. In such an instance the insured shall not be deemed liable to any persons for the property of the other business or businesses despite the location of such property in the same premises named by insured in his or its location.

d. Subparagraph (e) of Paragraph 1 under the heading "Conditions" is revised to read as follows:

(e) *Messenger.* "Messenger" means the insured, a partner therein, an officer thereof, or any employee thereof who is in the regular service of and duly authorized by the insured to have the care and custody of the insured property outside the premises. In addition "messenger" includes a bonded professional guard and an employee of a bonded armored car service.

e. Under the heading "Conditions", paragraph 1 is amended by redesignating paragraphs (f), (g), (h), (i), (j), (k), and (l) and as paragraphs (g), (h), (j), (i), (k), (l), and (m), and by adding a new paragraph (f) to read as follows:

(f) In Conveyance. Money, securities or merchandise is in conveyance while being transported by the insured or his messenger. If the transportation is interrupted for any purpose which is not incidental to or in furtherance of the transportation of the money or property to its destination, the conveyance ceases. Any merchandise offered for sale by the insured or messenger at a location other than the premises named in the policy is not in conveyance. However, the sale of an item merchandise or the performance of a service, other than check cashing, related to the insured's business outside the premises which causes the insured or messenger to collect money from a customer is deemed incidental to and in furtherance of the transportation of money to its destination and the money thus collected and any other money is and remains in conveyance.

Conveyance is interrupted and coverge ceases when (1) the money, securities or merchandise is delivered into and possession relinquished at any premises other than the premises named in the policy, or (2) the money is deposited in a bank, or (3) when an insured or a messenger collecting money, securities or merchandise previously accumulated for his pickup, from more than one location remains with such property in any location for any time longer than reasonably necessary for him to take custody of such property, or (4) when an insured or a messenger transporting money, securities or merchandise willfully and knowingly undertakes any activity that increases the likelihood of his being exposed to robbery or reduces his ability to carry out his responsibility for the custody of the money or property.

f. Under the heading "Conditions", Paragraph (l), subparagraph (m) as

redesignated is revised to read as follows:

(m) Safe. A safe is a non-portable money storage compartment not on wheels, which is reinforced with a minimum of ¼ inch solid steel plate throughout, with the exception of the door which must be at least one inch thick, solid steel plate and equipped with a combination lock which is an integral part of the door.

A Class E Safe means a steel safe having walls at least 1 inch thick and doors at least 1 and ½ inches thick, or a vault of steel at least ½ inch thick or of reinforced concrete or stone at least 9 inches thick or of non-reinforced concrete or stone at least 9 inches thick or of non-reinforced concrete or stone at least 12 inches thick, with steel doors at least 1 and ½ inches thick.

g. Paragraph 1 under the heading "Conditions" is revised to add a new subparagraph (n) as follows:

(n) Merchandise includes customer's property held for repair or other such work.

(Title XII of the Housing and Urban Development Act of 1969 (Pub. L. 90-488, 88 Stat. 476); Reorganization Plan No. 3 of 1978 (43 FR 41943) and E.O. 12127, dated March 31, 1979 (44 FR 19367) and Delegation of Authority to Federal Insurance Administrator (44 FR 20963))

Issue date: April 20, 1983.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 31

[CC Docket No. 82-680; RM-4076; FCC 83-138]

Amendment of Annual Report Form M; Telephone Company Reporting Burdens

AGENCY: Federal Communications Commission.

ACTION: Final rule (Report and Order).

SUMMARY: The Commission has adopted a Report and Order which amends six schedules and eliminates four schedules of Annual Report Form M. This action reduces telephone company reporting burdens by recognizing the effects of inflation, changes in industry and change in the Commission's data needs. This action will reduce carrier filings made each year by approximately 10%.

EFFECTIVE DATE: May 27, 1983.

FOR FURTHER INFORMATION CONTACT: Gerald P. Vaughan, Chief Accounting and Audits Division, Common Carrier Bureau 634-1861.

Communications common carriers, Telephone, Uniform system of accounts.

Report and Order

In the Matter of: Amendment of Annual Report Form M; CC Docket No. 82-680, RM-4076.

Adopted: April 7, 1983.

Released: April 28, 1983.

By the Commission: Commissioner Fogarty absent.

I. Introduction

1. On October 4, 1982, the Commission released a Notice of Proposed Rulemaking (NPRM), (October 12, 1982; 47 FR 44762), which proposed to revise or eliminate ten schedules of Annual Report Form M to reduce telephone carrier reporting burdens. This NPRM was based on a petition filed by American Telephone and Telegraph Company (AT&T). In its petition, AT&T stated that inflation, changes in the telephone industry, and other related events have caused certain reporting requirements to become burdensome or impractical and have required submission of some insignificant data.

2. In the NPRM we proposed to revise one schedule to make its revenue categories consistent with current tariff structure and subaccounts. We proposed to raise reporting limits on five schedules so that carriers would report less detailed data. We also proposed to raise the reporting limits of another schedule, but we also solicited comments on whether that schedule should be eliminated as an alternative to raising its limits. Finally, we proposed to eliminate three other schedules.

3. Based on the comments and reply comments received in this proceeding, we have decided to adopt all of our proposals including the alternative of eliminating one schedule instead of raising its reporting limits. Accordingly, this order revises one schedule, raises the reporting limits of five schedules, and eliminates four schedules.

II. Background

4. Form M is an annual report required to be filed by subject telephone carriers having annual operating revenues in excess of $1 million. This report is filed in accordance with § 43.21 of Part 43 and § 1.785 of Part I of our Rules and provides information on the stock and stockholders; officers and directors; funded debt; property, franchises, and equipment; employees and their salaries; and financial operations of the reporting companies.

5. This rulemaking proceeding was initiated primarily to respond to the problems raised in AT&T's petition. A more comprehensive review of Annual Report Form M will be made in Docket No. 78-196 (in which a new Uniform System of Accounts is being developed) to assure that the information collected continues to be needed for regulatory purposes, does not duplicate information available from other governmental sources, and is obtained with the least possible burden on the carriers.[1]

III. Proposed Revisions

6. Schedule 34, Operating Revenues, requires the reporting of operating revenues for the primary revenue accounts prescribed in Part 31, Uniform System of Accounts for Class A and Class B Telephone Companies (USOA), and requires additional details for various subaccounts and tariff categories. We proposed no change in the primary accounts, but we did propose revisions in the subaccounts and tariff categories to make them consistent with current tariff structures and subaccounts. This included eliminating categories that were not offered or offered only to a limited extent and renaming other categories to make them more descriptive of the services currently being offered.

7. Schedule 39, Special Expenses Attributable to Formal Regulatory Cases, requires reporting of expenses totaling $500 or more which are attributable to formal regulatory cases before Federal, State and other regulatory commissions and to court cases in which a commission is a party. We proposed to raise the reporting limit from $500 to $10,000.

8. Schedule 43, Donations or Payments For Services Rendered By Persons Other Than Employees, requires reporting payments of $10,000 or more made to each recipient (not an employee) for certain services rendered, or made as donations. The Commission proposed to raise this reporting limit from $10,000 to $25,000.

9. Schedule 12C, Analysis Of Entries In Property Held For Future Telephone Use, requires listing separately each accounting entry of $10,000 or more in account 100.3, "Property held for future telephone use." The Commission proposed to raise the reporting limit to $50,000 to reduce the companies' burdens in reporting these data.

10. Schedule 13A, Analysis of Telephone Plant Acquired (Account 276), requires reporting separately the amont of each acquisition of telephone

---

[1] *Second Supplemental Notice of Proposed Rulemaking and Order*, Docket No. 78-196, 88 FCC 2d 83 (1981).

plant included in account 276 at any time during the year, except minor acquisitions which had a purchase price each of less than $5,000. The Commission proposed raising this limit from $5,000 to $50,000 which would reduce the companies' reporting burdens without any significant effect on the amount of dollars reported.

11. Schedule 16, Miscellaneous Physical Property (Accounts 103 and 315), requires the separate reporting of data with respect to miscellaneous physical property at each location representing a book cost of $10,000 or more. We proposed to raise the reporting limit from $10,000 to $50,000 which would reduce the companies reporting burdens without any significant effect on the amount of dollars reported.

12. We also proposed, in line with AT&T's petition, to raise the reporting limits in Schedule 70B, Compensation of Officers, Directors, Etc., from $40,000 and $20,000, depending on the carriers' annual operating revenues, to a single reporting limit of $75,500 for all carriers. This proposal would permit carriers to report the aggregate of such payment within six compensation groupings. The Commission also solicited, on its own initiative, comments on whether this schedule should be eliminated as an alternative to the changes proposed.

13. We also proposed to eliminate Schedule 70C, Wages and Hours, as opposed to AT&T's petition to amend the reporting requirements concerning the number of employees in classifications according to hourly rates of pay.

14. Finally, we proposed to delete Schedule 60C, Analysis of Pension and Benefit Funds, and Schedule 60D, Investment of Pension and Benefit Funds. Schedule 60C provides an analysis of pension and benefit funds by requiring the reporting of increases and decreases made to the fund over the year. Schedule 60D requires the reporting of the description of pension and benefit fund investments to include the face amount, cost, book value, estimated market value and yield.

IV. Summary of Comments

15. The NPRM permitted all interested parties to file comments on the specific proposals on or before November 8, 1982, and reply comments on or before November 23, 1982. Comments were filed by AT&T; GTE Service Corporation (GTE); U.S. Department of Labor (Labor); U.S. Department of Commerce (Commerce); Stephen Aug, as an individual; Arkansas Public Service Commission (Arkansas); North American Telephone Association (NATA); MCI Telecommunications Corporation (MCI); United States Independent Telephone Association (USITA); United Telephone System, Inc., (UTS); Public Utilities Commission of California (California); and the Colorado Public Utilities Commission (Colorado). Reply comments were filed by AT&T, NATA, Labor, and MCI.[1]

16. The comments basically favor the proposals. However, several respondents suggest specific modifications to various areas. A brief summary of all comments as they relate to our proposals is set forth below.

Schedule 34, Operating Revenues

17. AT&T, GTE, Colorado, and Arkansas favor our proposal to revise the subaccounts and tariff categories to make them consistent with current tariff structures and subaccounts.

18. Commerce requests that we obtain more information than our proposal would require for account 510, "Message tolls," and account 512, "Toll private line services." For account 510 Commerce requests that separate revenue data be collected for telephone (voice) and data services, and for account 512 it requests that wideband transmission service be reported as a separate service. Commerce states that the Interindustry Economics Division of its Bureau of Economic Analysis uses Form M data in the construction of input-output accounts of the U.S. economy and that it would be able to more accurately identify and quantify the users of these services with revenues identified as it suggests. In its reply comments AT&T objects to Commerce's requests. AT&T states that customers use voice and data services interchangeably which makes their separation impractical. AT&T also claims that wideband transmission service should not be collected separately because Telpak wideband transmission service, which is the most significant toll private line service, is no longer being offered on an interstate tariff basis.

19. UTS objects to reporting private line information at the proposed level of detail. UTS calculates that private line revenues represent less than four percent of its total operating revenues. UTS recommends that the Commission restrict the reporting requirements to only those subcategories within Local Service, Toll Service, Miscellaneous, and Uncollectable Revenues, and that detailed information from subsidiary records be provided to the Commission on an exception basis when requested.

[1] Labor's reply comments were filed after the due date but are being considered in this proceeding.

20. California, while in agreement with the philosophy of revising the reporting categories, asks if this Commission has considered whether the smaller independent telephone companies have the capability of gathering and reporting the proposed information and whether the cost of smaller companies' compliance with the proposal would exceed the benefits to be received.

Schedule 39, Special Expenses Attributable to Formal Regulatory Cases

21. AT&T, GTE, Commerce, and Colorado favor the proposed raising of the reporting limit for regulatory cases from the present $500 to $10,000. Three parties oppose the proposed change.

22. Mr. Aug strongly opposes any increase in this reporting limit. He believes increasing this limit would cause a loss of valuable information on the cost of regulation. Mr. Aug suggests that the costs of all regulatory cases below the reporting limit be aggregated and reported as a single figure.

23. MCI states that raising this limit to $10,000 is not in the public interest. MCI believes that such an increase in this limit would allow a company to disaggregate costs into different cases so that they might avoid reporting such expenses for formal regulatory purposes. MCI recommends raising the limit to only $5,000.

24. UTS states that carriers would benefit more if the reporting requirement is raised to $25,000 and if this schedule is restricted to expenses associated with only full rate case filings in order to exclude the cost of such items as requests for depreciation rate increases.

25. In its reply comments, AT&T states that an analysis of 1980 statistics shows that, while 53% of the cases are under $10,000, they represent only 3% of the total dollars reported. AT&T claims, therefore, that raising the limit to $10,000 would significantly reduce the reporting burden while continuing to provide the Commission with useful information.

Schedule 43, Donations or Payments for Services Rendered by Persons Other Than Employees

26. AT&T, GTE, Commerce, and UTS favor our proposal to increase the reporting limits for donations or payments for services rendered by persons other than employees from the current $10,000 to $25,000.

27. Mr. Aug favors lowering the reporting limit to $500 to keep a bank of information about potential or actual conflicts of interest. AT&T's reply comments state that Mr. Aug does not

offer any evidence of such conflict of interest and that the continued collection of these data does not contribute to a significant regulatory purpose.

28. MCI contends that the current limit of $10,000 is a significant amount of money for an individual to receive from a company on a consulting basis. It states that MCI, this Commission, and the public have a right to know whose consulting services a telephone company is buying. It also believes that the FCC and other regulatory commissions which might use consultants would want to know the extent such consultants have worked for a particular carrier because it might influence the consultants' judgement. AT&T's reply comments state that MCI's suggestion that professional consultants' judgement can be influenced through a change in the level of reporting on this schedule is without merit. AT&T contends that the practical method of obtaining this information is directly from the consultant since not every carrier is required to file a Form M. AT&T also notes that even if such information is not collected or reported in the Form M, it would still be generally available to regulatory commissions when specifically requested.

29. Colorado objects to the proposal on the basis that it would be precluded from determining in state proceedings if such payments provide a direct benefit to the ratepayers. AT&T, in its reply comments, states that these data will continue to be available for a particular state's ratemaking purposes as required.

Schedule 12C, Analysis of Entries in Property Held for Future Telephone Use (Account 100.3)

30. Our proposal to increase the reporting limit, which requires listing separately on this schedule each entry in account 100.3, "Property held for future use," from $10,000 to $50,000 is favored by all respondents who address this issue. These respondents are AT&T, GTE, Commerce, USITA, UTS, and Colorado.

Schedule 13A, Analysis of Telephone Plant Acquired (Account 276)

31. Our proposal to increase the reporting limit for Schedule 13A from $5,000 to $50,000 is favored by all respondents who address this issue. These respondents are AT&T, GTE, Commerce, USITA, UTS, and Colorado.

Schedule 16, Miscellaneous Physical Property (Accounts 103 and 315)

32. AT&T, GTE, Commerce, Arkansas, USITA, and Colorado favor the increase in the reporting limit requiring the separate reporting of data with respect to miscellaneous physical property at each location from $10,000 to $50,000.

33. Two respondents suggest modifications to our proposal. NATA requests that there be no change to this reporting requirement. NATA cites Docket 82-681 [3] in which the Commission proposes the use of account 103, "Miscellaneous physical property," as an interim accounting procedure pending development of final accounting guidelines for recording new CPE provided under leases. NATA believes that some information and detail relating to this new leased CPE would be eliminated from this schedule. Additionally, NATA claims that it is unclear as to whether the proposed $50,000 limit referred to the book value per item of miscellaneous property or per category of assets.

34. UTS also expresses concern about the lease accounting proposed in Docket 82-681. UTS states that the $50,000 would necessitate reporting beyond the intent of Schedule 16 and recommends that the Commission allow carriers to capture unregulated lease activity in another investment account besides account 103. With this change, UTS would favor the $50,000 proposed reporting limit.

Schedule 70B, Compensation of Officers, Directors, Etc.

35. AT&T, GTE, Commerce, USITA, and UTS favor the elimination of this schedule, which is the alternative proposal, rather than raising the salary limits as AT&T had petitioned.

36. Only one party, Colorado, objects to the elimination of this schedule. Colorado also objects to raising the limit for this schedule to $75,500. Colorado states that a limit of $75,500 would reduce its ability to monitor expenses. It recommends a reporting limit of $50,000. AT&T's reply comments state that these data will continue to be available for a particular state's ratemaking purposes as required.

Schedule 70C, Wages and Hours

37. AT&T, GTE, Arkansas, Commerce, USITA, UTS, and Colorado favor the elimination of this schedule which requires the reporting of the numbers of employees in classifications according to hourly rates of pay.

38. Labor objects to the elimination of this schedule. It states that Schedule 70C information has been used since 1946 to record and study occupational wage rates in the industry and is used by many services and agencies. AT&T states in its reply comments that wage and employment information similar to that reported on this schedule is provided directly to Labor.

Schedule 60C, Analysis of Pension and Benefit Funds; and Schedule 60D, Investment of Pension and Benefit Funds

39. AT&T, GTE, Commerce, Arkansas, UTS, and Colorado favor the Commission's proposal to eliminate these schedules which require the reporting of an analysis of pension and benefit funds and a description of pension and benefit fund investments.

40. California requests that these schedules not be eliminated because, upon divestiture, each individual Bell Operating Company will have to set up its own pension and benefit funds. AT&T states in its reply comments that even if Pacific Telephone and Telegraph (i.e., California area) has its own individual pension and benefit fund after divestiture, a possibility which AT&T considers unlikely, California could be furnished the Shareowners' Annual Report which includes pension and benefit fund data, or some other suitable form such as IRS Form 5500.

Other Comments

41. GTE, while agreeing with the proposed changes of the NPRM, suggests revision of eleven other Form M schedules.[4]

V. Discussion

42. Most of the comments favor the proposed revisions. In some cases, a number of the respondents suggest lower reporting limits and more detailed reporting while others want higher reporting limits and less detailed reporting. After reviewing these comments in relation to our proposal, we have decided to revise Form M as proposed. Further analysis of the comments as they relate to our proposal is set forth in the following paragraphs.

Schedule 34, Operating Revenues

43. We proposed to revise Schedule 34 to make the revenue categories more identifiable with modern tariff structures and subaccounts. AT&T, GTE,

[3] *Modifications Required by Detariffing of Customer Premises Equipment*, CC Docket 82-681, FCC 82-426 (released October 1, 1982).

[4] Schedule 50, Outside Plant Statistics; Schedule 51, Statistics Relating to Central Office; Schedule 52, Telephones in Service; Schedule 53, Telephone Calls; Schedule 54, Telegraph Stations, Data Stations and Data Access Arrangements; Schedule 58A, Stations Left in Place; Schedule 58B, Station Apparatus in Stock; Schedule 56, Interstate Private Line Statistics; Schedule 60B, Pension Paid; Schedule 70A, Total Compensation of Employees By Month; and Schedule 71, Accidents to Employees.

Arkansas, USITA, and Colorado agree with this proposal.

44. Commerce requests that telephone (voice) and data services be collected separately under account 510, "Message tolls" and that wideband transmission service be collected as a separate service under account 512, "Toll private line services." AT&T, on the other hand, claims that the separation of voice and data services is impractical because customers use them interchangeably and that the collection of wideband transmission service separately is unnecessary because the major wideband transmission service, Telpak, is not offered on an interstate tariff basis.

45. We have carefully considered Commerce's request for additional data and have decided that they should not be adopted. Based on AT&T's reply comments we are convinced that the additional reporting would be burdensome to the carriers. Moreover, we are not persuaded that this additional burden is warranted by Commerce's stated need to more accurately identify and quantify users of the services.

46. UTS wants less information reported for account 504, "Local private line services," and account 512, "Toll private line services." It argues that, since local and toll private line revenues represent a minimum portion of its total operating revenues, these revenues should not be reported in the detail proposed. We agree that the revenues of private line services are a low percentage of the overall revenues reported in this schedule. However, the revenue dollars for these services are substantial and could increase with recent regulatory changes which increase competitive activities. We will, therefore, retain the detailed reporting for local and toll private line revenues as proposed for this schedule.

47. California asks whether this Commission has considered the capability of the smaller independent companies to report the proposed information, and also asks whether the costs of reporting the information would exceed its benefits. We do not believe that the proposed modification of this schedule would impose excessive costs on the smaller companies. A smaller independent company would normally concur in the tariffs filed by an issuing carrier. Therefore, its revenue categories would be the same or very similar to the categories of the larger carrier. Furthermore, the NPRM provided an opportunity for all interested parties to comment on the proposal. The only carrier to request less reporting on this schedule was UTS. Its comments, which request less detail in the private line area, as discussed above, address the immateriality of the information rather than the burden of reporting it. Therefore, we believe smaller independent telephone companies will be able to comply with the proposed reporting without difficulty. (See Attachment A).

Schedule 39, Special Expenses Attributable to Formal Regulatory Cases

48. We proposed to increase the limit for reporting regulatory cases from $500 to $10,000. Comments by AT&T, GTE, Commerce, Arkansas, USITA, and Colorado agree with our proposal.

49. Three parties offer alternative reporting limits. Mr. Aug recommends that the limit remain at the current $500 level. MCI suggests increasing the limit but only to $5,000. UTS, on the other hand, proposes an increase in the reporting limit to $25,000.

50. Mr. Aug believes that an increase in this reporting limit would eliminate valuable information regarding the cost of regulation. However, AT&T points out in its reply comments, raising the limit to $10,000 would eliminate only 3% of the reported dollars but would eliminate over half of the reporting burden. Mr. Aug has not shown what regulatory need would be served by collecting data for the 3% of the dollars that are below the $10,000 limit. Therefore, we have decided not to retain the $500 reporting limit.

51. MCI recommends a $5,000 reporting limit because it believes that the proposed $10,000 limit would allow carriers to avoid reporting costs in the Form M by fragmenting matters into different cases. We do not believe that a company would disrupt its data collection process to avoid the reporting of insignificant amounts, and we do not believe a $5,000 limit would provide sufficient relief from the burden of reporting relatively insignificant data. Therefore, we are not adopting MCI's suggestion.

52. UTS recommends that the minimum reporting requirement be raised to $25,000 and that the schedule be restricted to expenses associated with only full rate cases which would eliminate the need to report expenses applicable to such items as requests for depreciation rate increases. We have decided not to adopt UTS's recommendation because it would eliminate a large percentage of the reported data and the report would not be sufficient for our regulatory purposes.

53. We find that a $10,000 reporting limit provides the advantage of reducing the carriers' reporting requirements while providing this Commission with sufficient regulatory information. We, therefore, are revising the reporting limit for Schedule 39 to $10,000 as proposed.

Schedule 43, Donations or Payments for Services Rendered by Persons Other Than Employees

54. We proposed to raise the reporting limit for donations or payments for services rendered by persons other than employees from $10,000 to $25,000. Comments by AT&T, GTE, Commerce, Arkansas, USITA, and UTS agree with our proposal.

55. Three respondents recommend alternatives. Mr. Aug suggests a reduction in the reporting limit to $500, while MCI and Colorado suggest that the current reporting limit of $10,000 be retained.

56. Mr. Aug's primary concern with raising the reporting limit was that a vast bank of information about potential or actual conflicts of interest would be eliminated. He believes that kind of information available to the Commission and the public should be increased by lowering the reporting limit. We believe, however, that this reporting limit which was set over 9 years ago should be increased rather than reduced if for no other reason than to recognize inflationary trends. Mr. Aug's recommendation to lower the current limit to $500 would create additional reporting costs and burdens for the carriers to provide information for which we have found no regulatory need. Therefore, we have decided not to adopt Mr. Aug's recommendation to lower this reporting limit.

57. MCI believes that the increase in this limit would deprive regulatory commissions and the public of information which MCI believes necessary to evaluate the affiliations of consultants when hiring them or interpreting their public statements. We do not feel that this schedule is the only available source of information on the affiliations of consultants. AT&T states that regulatory commissions have access to such information when specifically requested from the carriers and that reporting in the Form M is not necessary. Additionally, the individual consultants could surely provide the data. Moreover, we do not feel that more precise amounts for any one consultant is of main importance or that a reduction in information reported on this schedule will have an influence on the judgment of a professional consultant. We believe that an increase in a reporting limit of $10,000, which was set in 1973, to $25,000 is reasonable.

58. Colorado feels that the increase in the reporting limit will not allow it to perform its function of determining whether donations or payments are justified for regulatory purposes. AT&T, in its reply comments, assures Colorado that this increase would not preclude Colorado from obtaining these data when required for state regulatory purposes. We believe that Colorado should be able to obtain any additional information it needs beyond that reported in Form M directly from the carriers. Therefore, we are not persuaded by Colorado's arguments that we should retain the current reporting limit for this schedule.

59. We do not believe that the respondents provide adequate reasons to retain the $10,000 limit, or to reduce it. We find that the reporting limit should be revised to reflect the inflationary trends over the past years and to reduce the reporting burden of the carriers. We, therefore, are revising the reporting limit for Schedule 43 to $25,000 as proposed.

Schedule 12C, Analysis of Entries in Property Held for Future Telephone Use and Schedule 13A, Analysis of Telephone Plant Acquired

60. We proposed to raise the reporting limits for Schedule 12C and Schedule 13A from $10,000 and $5,000, respectively, to a limit of $50,000 on each schedule. Comments by AT&T, GTE, Commerce, Arkansas, USITA, UTS, and Colorado agree with this proposal. Accordingly, for reasons given in the Notice, we are revising the reporting limit of these schedules to the proposed limit of $50,000.

Schedule 16, Miscellaneous Physical Property

61. We proposed to raise the reporting limit for the book cost of each item of miscellaneous physical property from the current $10,000 level to $50,000. AT&T, GTE, Commerce, Arkansas, USITA, and Colorado favor the proposal. NATA and UTS do not agree with our proposal.

62. NATA and UTS raise questions concerning the relationship of this proposed reporting and our recent NPRM in Docket 82-681, *supra*. In Docket 82-681 we proposed to record unregulated leased assets in account 103, "Miscellaneous physical property," and revenues from those leases in account 315, "Income from miscellaneous physical property", on an interim basis. NATA believes that, since these accounts will be the subject of some very important proceedings in the years to come, an increase in the reporting limit would eliminate pertinent information from the Form M. UTS is concerned that the additional requirements created by Docket 82-681 would necessitate reporting beyond the intent of Schedule 16.

63. The concerns of NATA and UTS with the accumulation of information relating to unregulated leases in Schedule 16 are beyond the scope of this docket. Our proposals are directed toward reducing the carriers' reporting burden while obtaining sufficient information for regulatory purposes. We will address the appropriate reporting for unregulated leases in Docket 82-681. We will therefore revise the reporting limit for Schedule 16 to $50,000.

Schedule 70B, Compensation of Officers, Directors, Etc.

64. Our NPRM proposed that the reporting limits for reporting compensation of persons other than officers and directors be raised to $75,500. As a separate alternative to that proposal, we also solicited comments on whether this schedule should be eliminated entirely. AT&T, GTE, Commerce, USITA, and UTS favor the elimination of this schedule.

65. Colorado is the only party to object to our proposals. Colorado not only objects to the proposal to eliminate the schedule, but also opposes any increase in the reporting limit beyond a $50,000 level. Colorado believes that the $75,500 reporting limit would restrict its ability to monitor expenses which may have a direct effect on the ratepayers. AT&T states, in its reply comments, that this information will be available, as required, for a particular state's ratemaking purposes, while not burdening carriers which operate in other states. We believe that state commissions, such as Colorado, will not be foreclosed from obtaining this information relevant to state ratemaking. Therefore, we conclude that the elimination of this schedule and its reporting requirements would not interfere with this Commission's regulatory obligations nor place the states' regulatory functions at a disadvantage. Accordingly, we are eliminating this schedule in its entirety.

Schedule 70C, Wages and Hours

66. Our NPRM proposed to eliminate this schedule in its entirety. AT&T, GTE, Commerce, Arkansas, USITA, UTS, and Colorado agree with our proposal.

67. The only party to disagree with our proposal to eliminate this schedule is Labor. Labor states that it has used these data in its industry wage survey program, which is used by many services and agencies, since 1946. Labor indicates that it depends on the information because it is not available elsewhere in the Federal Government. AT&T states, however, that it provides wage and employment data similar to data reported on Schedule 70C directly to Labor. Labor did not provide any reply comments which would show that the information provided by AT&T would not satisfy its requirements. We do not believe that we should collect information, though useful in the past, which is not needed by this Commission for its regulatory purposes, especially when the information can be obtained directly from the telephone industry by the party who uses it. Therefore, we will eliminate this schedule as proposed.

Schedule 60C, Analysis of Pension and Benefit Funds; and, Schedule 60D, Investment of Pension and Benefit Funds

68. AT&T, GTE, Commerce, Arkansas, UTS, and Colorado agree with our proposal to eliminate these schedules.

69. California is the only party to recommend that the schedules be retained. California believes that, since each Bell operating company will establish its own pension and benefit fund once the companies are divested from AT&T, the information should continue to be required on Form M. However, this Commission does not believe that this information is needed for our regulatory purposes. We therefore wish to relieve the carriers from this reporting burden. California claims that, if this information is not available in the Form M, it would have difficulty in obtaining it elsewhere. AT&T, in its reply comments, assures California that the pension and benefit information could readily be obtained from Pacific Telephone and Telegraph Company. We do not believe that all carriers should be burdened with reporting information that is not more widely utilized. This is especially true when the information can be obtained directly from the individual carriers. Therefore, we are eliminating this schedule in its entirety as proposed.

Other Comments

70. As indicated in paragraph 41, GTE requests elimination of eleven schedules which were not included in this NPRM. Since these schedules were not included in the NPRM, they are outside the purview of this proceeding. Therefore, we are not considering them at this time. We will consider them at some future date as we continue the process of revising and updating our reporting requirements.

VI. Regulatory Flexibility Act

71. In compliance with the provisions of Section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 605(b), we certify that these reporting changes can be readily implemented by all carriers filing Annual Report Forms M without significant economic impact, and, in fact, will ease the reporting requirements of these carriers, both large and small. The rationale for the proposed changes is outlined in the above discussion.

VII. Ordering Clauses

72. Accordingly, *it is ordered*, That Annual Report Form M shall be amended as discussed above effective May 27, 1983.

73. *It is ordered*, That the Table of Contents and the Indices for Form M will be amended accordingly.

74. *It is further ordered*, pursuant to Section 220(i) of the Communications Act, 47 U.S.C. 220(i), That the Secretary shall cause a copy of this Notice to be served on each state commission.

75. *It is further ordered*, That this proceeding *is terminated*.

Federal Communications Commission.

William J. Tricarico,

Secretary.

Proposed Rules

Federal Register
Vol. 48, No. 84
Friday, April 29, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 752

Adverse Actions

AGENCY: Office of Personnel Management.

ACTION: Proposed regulation.

SUMMARY: These amendments to OPM's regulations are being proposed to add a new provision to provide that, under certain circumstances, a Government agency may change or withdraw the position duties of a Federal employee during the 30-day notice period of a proposed adverse action. By separate amendment, OPM is rescinding its regulatory provision which, under certain circumstances, provided an exception to the requirement that a Government agency give a Federal employee 30 days of advance notice when proposing an adverse action.

DATE: Comments must be received on or before June 28, 1983.

ADDRESS: Written comments may be sent to Appellate Policies Division, Office of Planning and Evaluation, Room 7459, Office of Personnel Management, 1900 E Street, NW., Washington, D.C. 20415.

FOR FURTHER INFORMATION CONTACT: Cynthia Field, Office of Planning and Evaluation (202) 254–5517.

SUPPLEMENTARY INFORMATION: Prior to passage of the Civil Service Reform Act of 1978, Civil Service regulations provided for emergency suspensions without pay as an exception to the general requirement that a Government agency give 30 days of advance notice when proposing an adverse action against a Federal employee. Under the regulations, an agency was allowed a maximum period of five days to process an emergency suspension, during which time the employee was placed in a nonduty, pay status. Once an emergency suspension was effected, the employee remained in a nonduty status, and in addition, was placed in a nonpay status. An emergency suspension expired when the agency made a determination on whether to take the proposed adverse action. Thus, the total length of an emergency suspension was invariable no more than 30 days. As a result, because a suspenson of 30 days or less was not an action requring 30 days of advance notice, the provision for emergency suspension was consistent with then existing law.

With passage of the Civil Service Reform Act, Congress made a suspension of more than 14 days an adverse action requiring advance notice of 30 days. The provision permitting emergency suspensions, which OPM carried over into its new regulations, therefore conflicted with the new statutory notice requirement. In *Cuellar v. United States Postal Service,* MSPB Order No. SF075299045 (November 13, 1981), the Merit Systems Protection Board considered an appeal from an emergency suspension imposed pursuant to 5 CFR 752.404(d)(3) and overturned it because the agency had failed to give the appellant the 30 days of advance notice required by 5 U.S.C. 7513(b)(1).

OPM agrees that the new statutory notice requirement prohibits emergency suspensions which call for the withholding of pay during the notice period. A clear purpose of 5 U.S.C. 7513(b)(1) is to ensure that an employee remains on the payroll (of an agency with authority to spend funds for the payroll) for at least 30 days after the agency proposes an adverse action. Accordingly, OPM, in a separate amendment, is rescinding its regulations concerning emergency suspensions.

The occasional problems for which emergency suspensions were designed, however, will recur. That, is there will be instances of misconduct that will cause an agency to believe that it would be injurious to an employee, his coworkers, members of the public, or some other Government interest to retain the employee in duty status during the advance notice period. Therefore, OPM proposes to add a regulation permitting agencies, under certain circumstances, to place employees in a nonduty status with pay during the notice period. The new regulation is proposed pursuant to 5 U.S.C. 7513(a), which empowers OPM to regulate in the field of adverse actions upon the standard of efficiency of the service, and section 7513(b)(1), which both requires and authorizes pay during the 30-day notice period following a proposal of adverse action, even when the affected employee is in a nonduty status.

E.O. 12291 Federal Regulation

OPM has determined that this is not a major rule as defined under Section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because if affects only Federal Government employees.

List of Subjects in 5 CFR Part 752

Administrative practice and procedure, Government employees.

Office of Personnel Management.

Donald J. Devine,

Director.

PART 752—[AMENDED]

Accordingly, OPM proposes to amend 5 CFR 752.404 by adding a new § 752.404(b)(3) to read as follows:

§ 752.404 Procedures.

* * * * *

(b) *Notice of proposed action.* * * *

(3) Under ordinary circumstances, an employee whose removal has been proposed shall remain in a duty status in his regular position during the 30 days' advance notice period. In those rare circumstances where the agency detemines that the employee's continued presence in the work place during the notice period may pose a threat to the employee or others, result in loss of or damage to Government property, or otherwise jeopardize legitimate Government interests, the agency shall consider whether any of the following alternatives is feasible:

(i) Assigning the employee to duties where he or she is no longer a threat to safety, the agency mission, or to Government property;

(ii) Placing the employee on leave with his or her consent;

(iii) Placing the employee on involuntary sick or other leave when he or she is incapacitated for duty;

(iv) Carrying the employee on appropriate leave (annual, sick, leave

without pay, or absence without leave) if he or she is absent for reasons not originating with the agency; or

(v) Curtailing the notice period when the agency can invoke the provisions of § 752.404(d)(1).

If none of these alternatives is available, the agency may place the employee in a paid, nonduty status during all or part of the advance notice period.

(5 U.S.C. 7513, 7514, 1302)

BILLING CODE 6325-01-M

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1030

[Docket No. AO-361-A20]

Milk in the Chicago Regional Marketing Area; Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of public hearing on proposed rulemaking.

SUMMARY: The hearing is being held to consider changes in the Chicago Regional order that have been proposed by six dairy farmer cooperative associations. The proposals would change the basis upon which supply plants qualify for pooling. As proposed, supply plants would not have to ship milk to distributing plants unless called upon to do so by the market administrator. The proponent cooperatives have requested that these proposals be adopted on an expedited basis so that the amendments can be effective by September 1, 1983. The cooperative associations contend that the requested order changes are needed to reflect changed marketing conditions and to insure orderly marketing in the Chicago Regional area.

DATE: The hearing will convene May 24, 1983.

ADDRESS: The hearing will be held at the Holiday Inn, Highway 12 & 18 at I-90, Madison, Wisconsin 53704 (608/222-9121).

FOR FURTHER INFORMATION CONTACT: Richard A Glandt, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202/447-4829.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Notice is hereby given of a public hearing to be held at the Holiday Inn, Highway 12 & 18 at I-90, Madison, Wisconsin 53704 beginning at 9:30 a.m. (local time) on May 24, 1983, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Chicago Regional marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR 900.12(d)) with respect to the proposals.

Evidence also will be taken on whether the supply plant performance requirements for pool plant status and/or the provisions for diverting producer milk appropriately may be temporarily adjusted at the Director's discretion pursuant to § 1030.7(b)(5), or suspended, if the amendment proceeding could not be completed by September 1, 1983.

Actions under the Federal milk order program are subject to the "Regulatory Flexibility Act" (Pub. L. 96-354). This act seeks to ensure that, within the statutory authority of a program, the regulatory and information requirements are tailored to the size and nature of small businesses. For the purpose of the Federal order program, a small business will be considered as one which is independently owned and operated and which is not dominant in its field of operation. Most parties subject to a milk order are considered as a small business. Accordingly, interested parties are invited to present evidence on the probable regulatory and informational impact of the hearing proposals on small businesses. Also, parties may suggest modifications of these proposals for the purpose of tailoring their applicability to small businesses.

List of Subjects in 7 CFR Part 1030

Milk marketing orders, Milk, Dairy products.

The proposed amendments, as set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Central Milk Sales Agency

Proposal No. 1

Amend § 1030.7(b) to eliminate the requirement for shipments from pool supply plants to pool distributing plants to achieve qualification for pooling under the order.

Pool supply plants would achieve the status of pool reserve plants by demonstrating the ability to supply pool distributing plants in the event a call is issued. Pool reserve plants should thus be required to receive a minimum of 47,000 pounds of uncommingled Grade "A" receipts from producers at least one day each month.

Pool reserve plants shall be located in the defined geographic marketing area of Federal Order No. 30 or in the currently unregulated portion of the state of Wisconsin. Additionally, those pool supply plants located in the defined geographic area of Federal Order No. 68 who are now regulated under the current provisions of Order No. 30 will continue to be a pool plant under the order as proposed to be amended herein providing they continue to meet the minimum requirements specified above. Plants outside the designated reserve plant area shall pool by meeting a requirement of shipping 50 percent of the plants' Grade "A" receipts to distributing plants regulated by Federal Order No. 30.

Proposal No. 2

Amend § 1030.7(b) to include a provision under which the market administrator may, upon request and appropriate investigation of the need for such request, issue a "call" to move milk from pool reserve plants to pool distributing plants.

Such calls should be limited to the smallest and closest area possible to fill the need of such call.

Failure to respond to any such call so issued by the market administrator shall result in loss of pooling status for a period of twelve months beginning the month in which such refusal to ship occurred.

Proposal No. 3

Amend § 1030.13 to require that milk of each producer pooled by a handler be physically received at least once each month at the facility where such milk is reported as producer milk.

Proposed by Dean Foods Co.; Borden, Inc.; and Hawthorne Mellody

Proposal No. 4

Amend § 1030.7(b) by replacing the following "* * * is not less than 25 percent for September, 30 percent for each of the months of October and November, and 20 percent for all other months, * * *" with

"* * * is not less than 10 percent for September, 15 percent for each of the months of October and November, and 5 percent for all other months, * * *"

Proposal No. 5

Amend § 1030.7(b)(5) by increasing the percentage amount the director of the Dairy Division may increase or decrease the shipping requirement percentages of a supply plant or unit of supply plants. This can be accomplished by deleting the words "10 percentage points" and adding the words "15 percentage points."

Proposed by the Dairy Division, Agricultural Marketing Service

Proposal No. 6

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be obtained from the Market Administrator, Robert G. Thomas, Building A, Suite 200, 800 Roosevelt Road, Glen Ellyn, Illinois 60137 or from the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250, or may be inspected there.

From the time that a hearing notice is issued and until the issuance of a final decision in a proceeding, Department employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex parte basis with any person having an interest in the proceeding. For this particular proceeding the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture
Office of the Administrator, Agricultural Marketing Service
Office of the General Counsel
Dairy Division, Agricultural Marketing Service (Washington Office only)
Office of the Market Administrator, Chicago Regional Marketing Area

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Signed at Washington, D.C., on April 25, 1983.

William T. Manley,
Deputy Administrator, Marketing Program Operations.

[FR Doc. 83-11540 Filed 4-28-83; 8:45 am]
BILLING CODE 3410-02-M

Rural Electrification Administration

7 CFR Part 1701

Proposed Addition to REA Bulletin 181-3, Accounting Interpretations for Rural Electric Borrowers

AGENCY: Rural Electrification Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Rural Electrification Administration (REA) proposes to amend Appendix A—REA Bulletins by issuing a "File With" to REA Bulletin 181-3, Accounting Interpretations for Rural Electric Borrowers, to include uniform accounting requirements for electric borrowers participating in the National Rural Electric Cooperative Association Deferred Compensation Program.

Employees of tax-exempt rural electric cooperatives may participate in deferred compensation programs if they comply with certain revenue rulings and U.S. tax code sections. This proposed rule will set forth uniform accounting requirements for REA borrowers participating in the NRECA Deferred Compensation Program. Although the proposed rule has been specifically prepared for REA borrowers participating in the NRECA Deferred Compensation Program, the entries detailed in Part II, Questions and Answers can be used in accounting for other deferred compensation plans.

DATE: Public comments must be received by REA no later than June 28, 1983.

ADDRESS: Submit written comments to Roland S. Heard, Chief, Technical Accounting and Auditing Staff, Borrower Accounting and Services Division, Rural Electrification Administration, Room 2231, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Mr. Roland S. Heard, Chief, Technical Accounting and Auditing Staff, above address, telephone number (202) 382-8227. The Draft Impact Analysis describing the options considered in developing this proposed rule and the impact of implementing each option is available from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to amend Appendix A—REA Bulletins by issuing a "File With" to REA Bulletin 181-3, Accounting Interpretations for Rural Electric Borrowers. This proposed action has been reviewed in accordance with Executive Order 12291, Federal Regulation. The action will not: (1) Have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, state or local government agencies, or geographic regions; or (3) result in significant adverse effects on competition, employment, investment or productivity and therefore has been determined to be "not major." This action does not fall within the scope of the Regulatory Flexibility Act and is not subject to OMB Circular A-95 review. This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Copies of the draft "File With" are being sent directly to all REA electric borrowers. Copies are also available upon request from the address indicated above. All written submissions made pursuant to this action will be made available for public inspection during regular business hours at the above address.

Background

REA Bulletin 181-3, Accounting Interpretations for Rural Electric Borrowers, sets forth specific accounting requirements for REA borrowers. Detailed background information and specific accounting requirements related to the NRECA Deferred Compensation Program are provided in the text of the proposed "File With" below.

Proposed Addition to REA Bulletin 181-3, Accounting Interpretations for Rural Electric Borrowers.

Rural Electrification Administration
Accounting Interpretations (Electric)
No. 403 (REA Bulletin 181-3)

Accounting for NRECA Deferred Compensation Program [1]

I. General

Deferred compensation plans were authorized for employees of tax-exempt

[1] Accounting Interpretation No. 403 was prepared for REA borrowers participating in the NRECA Deferred Compensation Program; however, entries detailed in Part II, Questions and Answers can be used in accounting for other deferred compensation plans.

rural electric cooperatives by the Revenue Act of 1978 (IRS Code Section 457). Revenue Ruling 60–31 sets forth the rules for the exclusion from income of deferred compensation and states that a deferred compensation arrangement based on the bare contractual promise of the employee to pay the deferred salary at some time in the future does not result in current taxable income, even though there is no risk of forfeiture. As a result of this ruling, deposits to the NRECA Deferred Compensation Program must remain the property of the employer until distributed to the employee.

II. Questions and Answers

Question: What are the accounting requirements for borrowers participating in the NRECA Deferred Compensation Program?

Answer: Based upon the provisions of the NRECA Deferred Compensation Program, the following accounting entries shall be used to record the actions described:

(1)

Dr 186.2 Miscellaneous Deferred Debits—Deferred Compensation XXXX
Cr 131.1 Cash—General XXXX

To record annual deposit to NRECA Deferred Compensation Fund

Dr 128 Other Special Funds—Deferred Compensation XXXX
Cr 128.1 Special Funds Reserve—Deferred Compensation XXXX

To increase the deferred compensation reserve by amount of annual deposit to NRECA Deferred Compensation Fund

(2)

Various Distribution to accounts on same basis as participating employees' salary XXXX
Cr 186.2 Misc. Deferred Debits—Deferred Compensation XXXX

To record monthly accrual of deferred compensation

Note.—If an employee joins the deferred compensation program during the year, use entry #1 to record the additional deposit to the NRECA Deferred Compensation Fund and increase the monthly accrual in entry #2 to reflect this deposit.

(3)

NRECA provides an annual statement showing activity in the employees' accounts, units owned and value of units at statement date. Therefore, individual employee records do not have to be maintained.

However, an entry should be made to show aggregate change in fund value during the year. This entry can be made by summarizing changes on the individual Statement of Accounts sent by NRECA for distribution to participating employees, as shown:

Value of Units Held in Each Fund at December 31, 19×2 – Value of Units Held in Each Fund at December 31, 19×1 = Change in Fund Value

Dr 128 Other Special Funds—Deferred Compensation XXXX
Cr 128.1 Special Funds Reserve—Deferred Compensation XXXX

To record an increase in fund value as of December 31 19 - 2

or

Dr 128.1 Special Funds Reserve—Deferred Compensation XXXX
Cr 128 Other Special Funds—Deferred Compensation XXXX

To record a decrease in fund value as of December 31 19 - 2

(4)

Payments made to participating employees because of retirement, or separation for other reasons will generally result in the following entries:

Dr. 131.1 Cash—General XXXX
Cr 128 Other Special Funds—Deferred Compensation XXXX

To record receipt of funds from NRECA

Dr 128.1 Special Funds Reserve—Deferred Compensation XXXX
Cr 131.1 Cash—General XXXX

To record payment to employee for deferred compensation

(5)

If the borrower has elected to bear the market risk of the funds, which guarantees that the amount of money an employee receives will not be less than the amount of salary deferred, the following entry will be necessary if total payment(s) from NRECA are less than amount of salary deferred:

Dr 926 Employee Pensions and Benefits XXXX
Cr 131.1 Cash—General XXXX

To record payment to employee for deferred compensation. Payment made because amount returned did not equal salary deferred

The amounts included in Account 128, Other Special Funds, are offset by the amounts in Account 128.1, Special Funds Reserve. Therefore, the balance sheet presentation shall not include the amount held for the NRECA Deferred Compensation Program.

In view of the need and desirability for uniform accounting requirements for REA borrowers participating in the NRECA Deferred Compensation Program, the Administrator is proposing to issue the above accounting interpretation as an addition to REA Bulletin 181–3, Accounting Interpretations for Rural Electric Borrowers.

Indexing Terms

As required by 1 CFR 18.20, the following are the indexed terms and list of subjects for this regulation.

List of Subjects in 7 CFR Part 1701

Electric utilities, Loan programs—energy.

Dated: April 7, 1983.

Harold V. Hunter,

Administrator.

BILLING CODE 3410–15–M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 53

Criteria and Procedures for Determining the Adequacy of Available Spent Nuclear Fuel Storage Capacity

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The proposed rule would establish procedures and criteria for determining whether a person owning and operating a civilian nuclear power reactor cannot reasonably provide adequate spent nuclear fuel storage capacity. This determination is necessary before the Department of Energy may enter into contractual arrangements with the person generating or owning spent nuclear fuel to provide interim Federal storage capacity for limited amounts of spent nuclear fuel. The proposed rule is necessary to meet NRC responsibilities under Section 135(b) and (g) of the Nuclear Waste Policy Act of 1982.

DATE: Submit comments by June 28, 1983. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received before this date.

ADDRESS: Submit written comments to the Secretary of the Commission; U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Copies of comments received and the regulatory analysis may be examined at the NRC Public Document Room, 1717 H Street NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: F. X. Cameron, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone: (301) 443–5997.

SUPPLEMENTARY INFORMATION:

Background

The Nuclear Waste Policy Act of 1982 (Pub. L. 97–425, January 7, 1983, 96 Stat. 2201 *et seq.*, 42 U.S.C. 10101 *et seq.*) establishes a comprehensive framework

for the disposal of spent nuclear fuel and high-level radioactive waste generated by domestic civilian nuclear power reactors. The Act establishes procedures and schedules for the selection and development of geologic repositories for spent nuclear fuel and high-level radioactive waste, provides a mechanism for financing the cost of this disposal, and sets forth other provisions related to nuclear waste research, storage, and disposal.

Subtitle B of Title I of the Act establishes a program for the interim storage of spent nuclear fuel while the repository for ultimate disposal is selected and developed. The primary responsibility for providing interim storage of spent nuclear fuel rests with the persons owning and operating civilian nuclear power reactors. This responsibility is to be implemented through the effective use of existing storage facilities at the reactor sites and by the timely addition of new on-site storage capacity where practical. The Federal Government has the responsibility to encourage and expedite the provision of interim storage capacity by the reactor owners. In addition, the Federal Government has the responsibility to provide up to 1900 metric tons of storage capacity for spent nuclear fuel from reactors that cannot reasonably provide adequate storage capacity on site.

Section 135(g) of the Act directs the Commission to establish criteria and procedures for making the determination that a person owning and operating a civilian nuclear power reactor cannot reasonably provide adequate spent nuclear fuel storage capacity at the reactor site, or at the site of any other reactor operated by that person, when needed to ensure the continued orderly operation of the reactor. Section 135(b) of the Act provides that the Department of Energy shall enter into a contract under Section 136(a) with a person who owns or generates spent nuclear fuel that would provide for Federal ownership, transport, and storage of spent fuel, only if the Commission makes two affirmative determinations:

1. A person owning and operating a civilian nuclear power reactor cannot reasonably provide adequate spent nuclear fuel storage capacity at the reactor site, or the site of any other reactor operated by that person, when needed to ensure the continued orderly operation of the reactor.

Section 135(g) directs the Commission to establish criteria and procedures for making this determination by rule, and provides the following guidance:

a. The criteria must ensure the maintenance of a full core reserve storage capability at the reactor site, unless the Commission determines that maintenance of such capability is not necessary for the continued orderly operation of the reactor; and

b. The criteria must identify the feasibility of reasonably providing adequate spent fuel storage capacity, taking into account economic, technical, regulatory, and public health and safety factors, through the use of the following:

- Expansion of existing storage facilities, including high-density fuel storage racks, or fuel rod compaction;
- Transshipment of spent nuclear fuel to another civilian nuclear power reactor within the same utility system;
- Construction of additional spent nuclear fuel pool capacity; or
- Such other technologies as may be approved by the Commission.

2. The person owning and operating the reactor is "diligently pursuing licensed alternatives to the use of Federal storage capacity" for the storage of spent nuclear fuel expected to be generated in the future. These alternatives include the following:

- Expansion of storage facilities at any reactor site operated by such person;
- Construction of new or additional storage facilities at any reactor site operated by such person;
- Acquisition of modular or mobile spent nuclear fuel storage equipment, including spent nuclear fuel storage casks for use at any reactor site operated by such person;
- Transshipment to another civilian nuclear power reactor owned by such person.

In developing the criteria and procedures contained in proposed Part 53, the NRC has been cognizant of the Congressional concern that the interim Federal storage program be used to provide only a limited amount of storage capacity on an exceptional-use basis to utilities that are unable to provide their own storage capacity in time to prevent shutting down the reactor. While the availability of Federal storage capacity must not be foreclosed by overly strict criteria and standards, the person requesting the determination must clearly demonstrate that Federal storage is the only reasonably feasible option remaining.

The Proposed Action

1. Subpart A—General Provisions.

Sections 53.1 through 53.5 address a number of general issues, including purpose and scope of the rule, definitions, communications with the Commission, and interpretations of the rule. The rule applies to all persons owning and operating domestic civilian nuclear power reactors who submit a request for a Commission determination under Section 135(b) of the Nuclear Waste Policy Act. This determination consists of a decision by the Commission as to whether adequate spent nuclear fuel storage capacity to ensure the continued orderly operation of a particular reactor cannot reasonably be provided in timely manner by the person owning and operating that reactor.

2. Subpart B—Request for a Commission Determination.

Subpart B specifies the procedures that must be followed and the information that must be submitted by a person seeking a Commission determination. The proposed rule requires the submission of information on spent nuclear fuel storage capacity and need, feasible storage alternatives, and evidence that the person requesting the determination has been diligently pursuing alternatives. This information will enable the Commission to determine—

- Whether additional capacity is needed, in what amount, and in what time frame, and
- Whether it is practical for the person making the request to implement alternatives to Federal interim storage in light of technical, economic, regulatory, and public health and safety constraints.

Subpart B also sets forth procedures related to the filing and distribution of a request for a Commission determination. These procedures provide for publication of notice of receipt of a request in the Federal Register to inform the public that Commission action on the request is pending.

No request for a Commission determination will be formally accepted prior to the effective date of the rule. However, persons with an immediate need for a determination may submit a request upon publication of the proposed rule in order to allow the staff to begin consideration of the request. However, the formal date of receipt of the request shall be deemed to be the effective date of the rule.

The making of a Commission determination under section 135(b) of the Nuclear Waste Policy Act is not a "proceeding * * * for the granting, suspending, revoking, or amending of any license or construction permit, or application to transfer control * * *," under Section 189a. of The Atomic Energy Act. Accordingly, there is no opportunity for a hearing in connection with a request for a Commission determination. Similarly, there is no right to petition the Commission for review of the Executive Director for

Operations initial determination under subpart C of the proposed rule. Of course, if a licensee seeks permission to implement a licensed alternative to Federal interim storage of spent fuel, an opportunity for a hearing would be available in that proceeding. Although some of the same facts might be in issue, a Commission determination under Section 135(b) would be entirely separate from the decision of the presiding officer in a licensing proceeding. The proposed rule should not be construed as expressing any Commission position on the feasibility of a particular storage technology. The application of a specific technology will require Commission evaluation and approval. For example, in the case of the full scale use of fuel rod compaction, the Commission would review issues related to criticality, heat transfer, accident evaluation, and structural and materials considerations.

3. Subpart C—Issuance of a Commission Determination.

Subpart C establishes the criteria and standards that the Commission will use to make the statutory determinations—

—That adequate storage capacity cannot reasonably be provided in a timely manner; and

—That the person requesting the determination has been diligently pursuing licensed alternatives to the use of Federal storage capacity.

In making the determination on the ability of the requesting person to reasonably provide adequate capacity, the Commission will consider any technical, economic, regulatory, or public health and safety factors that would constrain implementation of alternatives to Federal storage. Although it is not possible to anticipate all the constraints that could affect the ability of an individual reactor owner to implement a spent fuel storage alternative, these constraints could include such factors as structural limitations; inability to meet the Commission's regulatory requirements due to factors beyond the licensee's control; the state of the technology; the extent to which implementation would disrupt operation of the reactor; unavailability of necessary storage or shipping equipment; local or state ordinances limiting the expansion or addition of storage capacity or transhipment; unusual licensing delays; the time required for licensing, design, and construction; extraordinary cost to consumers; and offsite and occupational radiation exposure considerations. Depending on the particular facts, a single factor or a combination of factors could make implementation of a given alternative impractical. While it is not anticipated that either occpational or offsite public health and safety will be a determining factor as long as the applicable Commission regulations are met, the criteria do allow for those unusual circumstances where radiation exposure is unreasonably out of proportion to the amount of additional storage capacity needed, or the time period for which it is needed.

In determing whether the requesting person has been diligently pursuing licensed alternatives to the Federal storage of spent nuclear fuel, the Commission will consider whether the person has initiated timely action either to provide the necessary storage capacity or to evaluate the feasibility of providing the necessary storage capacity. Although license applications are one example of these actions, the preparation of reports or studies that thoroughly investigate the technical feasibility, costs, and public health and safety aspects of alternative storage options will also be considered by the Commission.

Section 135(g) of the Act requires the Commission's criteria to ensure the maintenance of full core reserve storage capability at the site of the reactor unless the Commission determines that such capability is not necessary for the continued orderly operation of the reactor. Commission policy has been to permit contiuned operation at licensed reactor facilities where less than a full core reserve is maintained because such operation does not constitute an undue risk to the health and safety of the public. While a full core reserve capability is not an NRC safety requirement, the Commission has recognized that the maintenance of a full core reserve would be a prudent management practice on the part of the reactor operator. It would be needed to prevent extended reactor outages in the event a core must be discharged in order to inspect the reactor pressure vessel and to conduct routine and unscheduled maintenance. Although a reactor can be quickly and safely shut down with fuel in core, without full core reserve, if the core had to be discharged, the reactor would have to remain shut down while arrangements for shipping and storage were made and excuted. During this time, the utility would have to purchase supplemental power at substantial additional cost to its customers. A recent Department of Energy study on spent nuclear fuel storage estimated that if full core reserve were needed and not available, it would result in 50–90 days of reactor shut down and loss of power.[1] The costs to a utility's customers of an unscheduled outage is often in excess of $500,000 per day in replacement power costs alone. In addition to the potentially high costs of operating without full core reserve, a statistical evaluation of full core removal from nuclear power plants indicates that a full core discharge would be expected to occur about once every six years at any given nuclear power plant, and could occur as often as once every three years.[2]

The Commission interprets "continued, orderly operation" to mean the avoidance of extended reactor shut down due to lack of storage capacity. The Commission considers the likelihood of the need for full core reserve, and the resulting costs from not having full core reserve discharge capabilty, to be inconsistent with continued orderly operation. Therefore, the Commission has made a generic finding that, for the purposes of a determination under this part, full core reserve is necessary for the continued orderly operation of the reactor. The legislativie history of the Nuclear Waste Policy Act suggests that the maintenance of full core reserve is closely related to the concept of continued, orderly operation. As first introduced in the Senate, the bill provided for a determination of whether adequate storage capacity could be provided to ensure continued, orderly operation "through the maintenance of a full core reserve capability." S. 1662, 97 Cong., 2d Sess., section 302(a), 128 Cong. Rec. S4139, S4141 (daily ed., April 28, 1982). This language was later changed to that now found in the Waste Act which gives the Commission the flexibility to examine whether full core reserve is needed for continued, orderly operation. In this context, the Commission believes that a generic finding that full core reserve is necessary for continued, orderly operation is consistent with Congressional intent.

Where two or more reactors share a particular site, the maintenance of a single full core reserve capability will normally be sufficient to ensure continued orderly operation. However, the person requesting the determination has the opportunity to demonstrate that special circumstances require the maintenance of more than a full core reserve at the site. These special circumstances could include the inability to utilize available storage space for some reason, for example,

[1] U.S. Department of Energy, Spent Fuel Storage Requirements (DOE/RL–82–1, 1982).

[2] Pickard, Lowe, and Garrick, Full Core Removal Study (1979).

incompatibility between the storage pool and the fuel type.

Because a license is not involved and the determination is based primarily on technical findings, Subpart C provides that the Executive Director for Operations, or his designee, shall make the initial determination. However, this determination is subject to Commission review, at the Commission's disicretion. The final determination must be made within 6 months of the receipt of the request.

Commissioner Ahearne's Additional Views.

The criteria are to ensure maintenance of a full core reserve "unless the Commission determines that maintenance of such capability is not necessary for the continued orderly operation of such reactor."[3]

As the Commission stated in response to a Congressional question concerning a similar provision in an earlier version of the waste legislation, "The regulatory interests of NRC—primarily, protection of the health and safety of the public—are not significantly involved in such a determination."[4] This continues to be the case. The NRC has very little to say on this issue. If the Congress had required us to find that full core reserve was necessary, I do not believe we could. However, I agree we have no basis for determining that full core reserve capability "is *not* necessary for the contiuning orderly operation of [reactors]," and thus agree with the generic determination on this issue which is contained in this rulemaking. (emphasis added)

Commissioner Asselstine's Additional Views.

Commissioner Asselstine would appreciate comment on whether a short public comment period would be appropriate after the Commission publishes a notice of receipt of a determination request in the **Federal Register** as required in § 53.11(c).

Environmental Impact: Negative Declaration

The proposed rule, if adopted, would not result in any activity that significantly affects the quality of the human environment. The Commission has determined that, under the National Environmental Policy Act and the criteria in 10 CFR Part 51, an environmental impact statement is not required for this proposed regulation.

[3] Nuclear Waste Policy Act of 1982, section 136(g).

[4] Letter from C. Kammerer to Senator Hart dated November 23, 1981 (question 8 concerning Section 302(a) of S. 1662).

The environmental impact appraisal forming the basis for this determination is contained in the draft regulatory analysis prepared for this proposed regulation. The availability of the draft regulatory analysis is noted below.

Paperwork Reduction Act Statement

The information collection requirements contained in this proposed rule will affect fewer than 10 respondents. Therefore, Office of Management and Budget clearance is not required pursuant to the Paperwork Reduction Act of 1980 (42 U.S.C. 3501 *et seq.*).

Regulatory Analysis

The Commission has prepared a draft regulatory analysis of the proposed regulation. The analysis identifies and examines the costs and benefits of the proposed regulation and its alternatives. The draft analysis is available for inspection, and copying for a fee at the NRC Public Document Room, 1717 H Street NW., Washington, DC 20555.

Regulatory Flexibility Certification

As required by the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Commission certifies that this rule, if adopted, will not have a significant economic impact on a substantial number of small entities. The proposed addition of 10 CFR Part 53 applies solely to certain owners and operators of civilian nuclear power reactors, none of which can be considered small entities.

List of Subjects in 10 CFR Part 53

Administrative practice and procedure, High-level waste, Nuclear materials, Nuclear power plants and reactors, Reporting requirements, Spent nuclear fuel, Waste treatment and disposal.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, the Nuclear Waste Policy of 1982, and 5 U.S.C. 553, notice is hereby given that adoption of a new 10 CFR Part 53 is contemplated.

1. A new Part 53 is added to 10 CFR Chapter I to read as follows:

PART 53—CRITERIA AND PROCEDURES FOR DETERMINING ADEQUACY OF AVAILABLE SPENT NUCLEAR FUEL STORAGE CAPACITY

Subpart A—General Provisions

Sec.

53.1 Purpose and scope.
53.2 Definitions.
53.3 Communications.
53.4 Interpretations.
53.5 Information collection requirements.

Subpart B—Request for a Commission Determination

53.11 Filing and distribution of a determination request.
53.12 Contents of a request: General information.
53.13 Contents of a request: Specific information.
53.14 Additional information.
53.15 Withdrawal of a determination request.
53.16 Elimination of repetition.

Subpart C—Issuance of a Commission Determination

53.27 Initial determination.
53.28 Final determination.
53.29 Notice of issuance of a final determination.
53.30 Criteria for a Commission determination.

Authority: Secs. 53, 57, 62, 63, 65, 69, 81, 193, 104, 161, 68 Stat. 930, 932, 933, 934, 935, 936, 937, 948, as amended (42 U.S.C. 2073, 2077, 2092, 2083, 2095, 2099, 2111, 2133, 2134, 2201); secs. 201, 209, as amended, 88 Stat. 1242, 1248 as amended, (42 U.S.C. 5841, 5849); secs. 132, 135, 96 Stat. 2230, 2232 (42 U.S.C. 10152, 10155). For the purposes of Sec. 223, 68 Stat. 958, as amended (42 U.S.C. 2273), §§ 53.11, 53.12, 53.13, 53.14, and 53.16 are issued under Sec. 161(o), 68 Stat. 950, as amended (42 U.S.C. 2201(o)).

Subpart A—General Provisions

§ 53.1 Purpose and scope.

(a) The regulations in this part establish procedures and criteria for making the determination required by Section 135(b) of the Nuclear Waste Policy Act of 1982 (96 Stat. 2201 and 2233) that a person owning and operating a civilian nuclear power reactor cannot reasonably provide adequate spent nuclear fuel storage capacity at the reactor site, or at the site of any other reactor operated by that person, when needed to ensure the continued orderly operation of the reactor, and that such person is diligently pursuing licensed alternatives to the use of Federal storage capacity for the storage of spent nuclear fuel expected to be generated by such person in the future.

(b) The regulations in this part apply to any person owning and operating a civilian nuclear power reactor who requests a Commission determination.

§ 53.2 Definitions

As used in this part:

"Civilian nuclear power reactor," means—a civilian nuclear power plant required to be licensed under Section 103 or 104(b) of the Atomic Energy Act of 1954.

"Commission" means—the Nuclear Regulatory Commission or its duly authorized representative.

"Full core reserve" means—the capability to store all of the fuel in a single reactor core at one time at an on-site storage facility.

"Spent nuclear fuel" means—fuel that has been withdrawn from a nuclear reactor following irradiation, the constituent elements of which have not been separated by reprocessing.

§ 53.3 Communications.

Except where otherwise specified, each communication and report concerning the regulations in this part should be addressed to the Document Control Desk, U.S. Nuclear Regulatory Commission, Attention: Executive Director for Operations, Washington, DC 20555, or may be delivered in person to the Commission's Document Control Desk between the hours of 8:00 a.m. and 5:00 p.m. (local time), at 7920 Norfolk Avenue, Bethesda, MD.

§ 53.4 Interpretations.

Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Commission other than written interpretation by the General Counsel will be considered binding on the Commission.

§ 53.5 Information collection requirements.

The information collection requirements contained in this part will affect fewer than 10 respondents. Therefore, Office of Management and Budget clearance is not required pursuant to the Paperwork Reduction Act of 1980 (42 U.S.C. 3501 *et seq.*).

Subpart B—Request For a Commission Determination

§ 53.11 Filing and distribution of a determination request.

(a) The person submitting a request for a Commission determination shall file a signed original and 20 copies of the request with the Commission at the address specified in § 53.3, with a copy also provided to the appropriate Regional Administrator at the address specified in Appendix D to Part 20 of this chapter. The request must be signed by the person requesting the determination or the person's authorized representative under oath or affirmation.

(b) Any request for a Commission determination under this part, must be filed no later than June 30, 1989. A request for a Commission determination must be filed no earlier than *(effective date of the rule)* or two years before the person making the request anticipates loss of full core reserve, whichever is later.

(c) Upon receipt of a request for a determination, the Commission will publish notice of receipt of the request in the **Federal Register**. The Commission will also make the request available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, and in the Local Public Document Room for the reactor site.

(d) Fees applicable to a request for a Commission determination under this part are set forth in Part 170 of this chapter.

§ 53.12 Contents of request—General information.

A request for a Commission determination under this part must include the following general information:

(a) Name and address of the person owning or generating the spent nuclear fuel for which the determination is sought.

(b) The civilain nuclear power reactor or reactor site for which the request is being made.

(c) Explanation of why the determination under § 53.1(a) is needed, including a discussion of such factors as—

(1) The type and capacity of existing and planned spent nuclear fuel storage facilities at the reactor site for the next 10 years and for the remainder of the license term;

(2) The existence of any contractual arrangement for the storage of spent nuclear fuel away from the reactor site;

(3) The number and location of spent nuclear fuel assemblies presently in storage at the reactor site, and the number of additional spent nuclear fuel assemblies that will require storage during the term of the license;

(4) The amount of storage capacity necessary to maintain full core discharge capability for the reactor;

(5) The anticipated date of reactor shutdown due to the lack of necessary storage capacity under the following conditions:

(i) If full core discharge capability is maintained; and

(ii) If full core discharge capability is not maintained;

(6) An estimate of the amount of spent nuclear fuel and schedule, for which interim Federal storage would be necessary under conditions in (c)(5)(i) and (ii) of this section.

§ 53.13 Contents of a request: Specific information.

The request must include the following information on each alternative spent nuclear fuel disposal technology that may eliminate or decrease the need for Federal interim spent nuclear fuel storage set forth in paragraph (c) of this section:

(a) An analysis of any substantial technical, economic, regulatory, or public health and safety constraints that would prevent the use of any of the alternatives set forth in paragraph (c) of this section. These constraints could include factors such as structural limitations; inability to meet the Commission's regulatory requirements due to factors beyond the licensee's control and despite the licensee's good faith efforts; the state-of-the-technology; the extent to which implementation would disrupt operation of the reactor; unavailability of necessary storage or shipping equipment; local or State laws limiting or preventing the timely expansion or addition of storage capacity or transshipment; unusual licensing delays; the time required for licensing, design, and construction; extraordinary costs to consumers; offsite and occupational radiation exposure considerations; and

(b) Detailed information on the actions taken and planned by the person making the request to pursue each of the alternatives set forth in paragraph (c) of this section including references to license applications, research studies or reports conducted or sponsored by the person seeking the determination, the timing of all such actions, and other relevant material;

(c) Spent nuclear fuel storage alternatives—

(1) Expansion of existing storage facilities including high-density fuel storage racks or fuel rod compaction;

(2) Construction of new or additional spent nuclear fuel storage facilities at the site of any civilian nuclear power reactor operated by such person;

(3) Acquisition of modular or mobile spent nuclear fuel storage equipment, including spent nuclear fuel storage casks, for use at the site of any civilian nuclear power reactor operated by such person; and

(4) Transshipment of spent nuclear fuel to the site of another civilian nuclear power reactor owned by such person; and

(5) Any other technologies that have been approved by the Commission.

§ 53.14 Additional information.

(a) The Commission may require additional information from a person making a request for Commission determination under this part concerning any portion of the request.

(b) The Executive Director for Operations, or his designee, may deny a request for a Commission determination under this part if the person making the request fails to respond to a request for additional information under paragraph (a) of this section within thirty (30) days from the date of the request for additional information, or such other time as the Executive Director may specify. This denial shall be without prejudice to the right of the person making the request to file another request for a Commission determination under this part.

§ 53.15 Withdrawal of a determination request.

(a) The Commission or the Executive Director for Operations, as appropriate, may permit a person to withdraw a request for a Commission determination under this part without prejudice at any time prior to the issuance of an initial determination under § 53.27.

(b) The Secretary of the Commission will cause to be published in the **Federal Register** a notice of the withdrawal of a request for a Commission determination under this part.

§ 53.16 Elimination of repetition.

In any request under this part, the person making the request may incorporate by reference information contained in a previous application, statement, or report filed with the Commission provided that these references are clear and specific.

Subpart C—Issuance of a Commission Determination

§ 53.27 Initial determination.

(a) Not later than four (4) months after the receipt of a request for a Commission determination under this part from a person generating or owning spent nuclear fuel, the Executive Director for Operations, or his designee, shall make an initial determination of whether—

(1) Adequate storage capacity to ensure the continued orderly operation of the civilian nuclear power reactor at which the spent nuclear fuel is generated cannot reasonably be provided by the person owning and operating the reactor at that site, or at the site of any other civilian nuclear power reactor operated by the person, and that the capacity cannot be made available in a timely manner through any method described in paragraph (a)(2) of this section despite the licensee's diligent and good faith efforts to pursue such methods, and

(2) Such person is diligently pursuing licensed alternatives to the use of Federal storage capacity for the storage of spent nuclear fuel expected to be generated by the person in the future so as to assure the availability of additional storage capacity as soon as possible through alternatives including—

(i) Expansion of storage facilities at the site of any civilian nuclear power reactor operated by the person;

(ii) Construction of new or additional storage facilities at the site of any civilian nuclear power reactor operated by the person;

(iii) Acquisition of modular or mobile spent nuclear fuel storage equipment, including spent nuclear fuel storage casks, for use at the site of any civilian nuclear power reactor operated by the person; and

(iv) Transshipment to another civilian nuclear power reactor owned by the person.

(b) In making an initial determination under this section, the Executive Director for Operations, or his designee, shall be guided by the criteria set forth in § 53.30.

(c) An initial determination under this section shall be in writing and shall contain a full explanation of the facts upon which the determination is based and the reasons for granting or denying the request. An affirmative determination shall, at a minimum, specify the amount of spent nuclear fuel that cannot reasonably be stored on site and the schedule for when Federal storage is needed, and may contain conditions on which the determination is dependent. A copy of the initial determination shall be sent to the person who filed the request.

§ 53.28 Final determination.

(a) An initial determination under § 53.27 shall be filed with the Office of the Secretary of the Commission. Such initial determination shall constitute the final determination of the Commission thirty (30) days after its issuance, unless the Commission decides to review the initial determination under paragraph (b) of this section.

(b) Within thirty days after the Executive Director for Operations or his designee, makes an initial determination, the Commission may on its own motion review the determination.

(c) The Commission may, at its discretion, extend the time for review of an initial determination under paragraph (b) of this section; provided, however, that if the Commission has not completed its review or issued a final determination within six (6) months of the filing of a request under this part, the initial determination of the Executive Director shall constitute the final determination of the Commission.

(d) No petition or other request for Commission review of an initial determination under § 53.27 will be entertained by the Commission.

§ 53.29 Notice of issuance of a final determination.

(a) Upon the issuance of a final Commission determination or after the expiration of the time for Commission review of an initial determination under § 53.28, the Secretary of the Commission will notify, in writing, the person making the request, and the Office of Civilian Radioactive Waste Management of the Department of Energy of the final determination.

(b) The Secretary of the Commission will also publish notice of the issuance of the final determination in the **Federal Register**.

§ 53.30 Criteria for a Commission determination.

(a) In making the determination required by § 53.27(a)(1), the Commission shall consider the existence of technical, economic, regulatory, or health and safety factors that would make the implementation of any alternative to Federal interim storage of spent nuclear fuel set forth in § 53.13(c) impractical such as—

(1) Suitability of the site for implementation of an alternative, including considerations of structural integrity.

(2) Inability to meet the Commission's regulatory requirements for implementation and licensing of an alternative due to factors beyond the licensee's control and despite the licensee's diligent and good faith efforts.

(3) Inability to obtain necessary storage or shipping equipment in a timely manner.

(4) Modifications that would result in the excessive reduction of code design margins.

(5) Extraordinary costs of implementation that are clearly unreasonable in view of the amount of additional storage capacity needed or the time for which additional storage capacity is needed.

(6) Unforeseen or unavoidable delays in the licensing or implementation of an alternative due to factors beyond the licensee's control and despite the licensee's diligent and good faith efforts.

(7) Legal impediments to the implementation of an alternative, such as state and local laws or preexisting contractual agreements, that cannot be alleviated in a timely manner.

(8) Occupational or off-site radiation exposure or on-site construction hazards, that are clearly unreasonable in view of the amount of additional storage capacity needed or the time for which additional storage capacity is needed.

(b) In making the determination required by § 53.27(a)(1), the Commission shall ensure the maintenance of a full core reserve at the site of the civilian nuclear power reactor for which the request is being made.

(c) If the person requesting the determination demonstrates, and the Commission finds, that the maintenance of a single full core reserve at the reactor site is either inadequate or not necessary, for continued orderly operation of the reactor, the Commission may make an exception to the provision of paragraph (b) of this section.

(d) In making the determination by § 53.27(a)(2), the Commission will consider whether the person submitting the request has demonstrated diligent and timely efforts to initiate activities reasonably calculated to implement alternatives to Federal interim storage of spent fuel on a schedule commensurate with the need to support the continued orderly operation of the reactor, including—

(1) Diligent and good faith efforts to prepare and file existing license application(s) for spent nuclear fuel storage alternative(s) as early as possible so as to provide sufficient time to allow for design, licensing, and implementation; and

(2) Subsequent developments beyond the control of the person submitting the request that (i) have changed the original estimate of when and how much additional storage capacity will be needed, or (ii) would prevent the timely implementation of one or more alternatives; and

(3) The timely preparation and implementation of a spent nuclear fuel storage program or plan that evaluates the feasibility of alternatives to Federal storage of spent nuclear fuel, taking into account technical, economic, regulatory, and public health and safety factors, and that includes the prompt development of feasible alternatives to Federal storage.

Dated at Washington, D.C., this 26th day of April 1983.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

FEDERAL TRADE COMMISSION

16 CFR Parts 3 and 4

Rules of Practice for Adjudicative Proceedings; and Miscellaneous Rules; Extension of Comment Period

AGENCY: Federal Trade Commission.

ACTION: Proposed rule; extension of period for public comment.

SUMMARY: The Commission extends the period for public comment on its proposal to amend its procedures so that non-attorney experts may participate personaly in the cross-examination of other attorneys in the same discipline.

DATE: Written comments must be received on or before May 18, 1983.

ADDRESS: Send comments to the Secretary, Federal Trade Commission, 6th Street & Pennsylvania Avenue, NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT: Bruce G. Freedman, Deputy Assistant General Counsel, Federal Trade Commission, Washington, D.C. 20580, (202) 523–3521.

SUPPLEMENTARY INFORMATION: On March 4, 1983 (at 48 FR 9289) the Commission published for comment proposed amendments of Commission Rules §§ 3.43(g) and 4.1(a) to permit non-attorney experts in adjudicatory proceedings to participate personally in the cross-examination of other experts in the same discipline. The Administrative Law Section of the American Bar Association has requested an extension of the comment period, citing delays necessitated by the Association's review procedures. The Commission has determined to enlarge the comment period to permit comments to be submitted on or before May 18, 1983.

Dated: April 19, 1983.

By direction of the Commission.

Michael A. Baggage,

Acting Secretary.

16 CFR Part 13

[File No. 782-3081]

Christian Services International, Inc., et al.; Proposed Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, accepted subject to final Commission approval, would require a Stilwell, Kansas developer, marketer, and operator of life care homes throughout the country, among other things, to cease representing, unless true, that its life care homes are affiliated with any religious denomination or group who may also be morally or legally responsible for the home; that there is little or no risk involved in entering into a life care contract; that service fees will never exceed corresponding social security increases; that the mortgagor of the home ensures the economic survival of the home; and that the corporation has established reserve funding to ensure the home's financial security. Further, the corporation would be required to give prospective residents, at least five days before they execute a life care contract, specific disclosures concerning the home's financial status and other relevant information, which could influence their decision to enter a life care home. The order would also require respondents to send to all present and future personnel engaged in the sale or promotion of life care contracts a copy of the order and a form on which they can acknowledge their intention of complying with the order's provisions. Additionally, Kenneth Berg would be required to notify the Commission of any change in his present business or employment relating to the marketing, management and operation of any life care home, nursing home or foster care facility and, for a period of ten years, promptly advise the Commission of his affiliation with any new such concern.

DATE: Comments must be received on or before June 28, 1983.

ADDRESS: Comments should be directed to: FTC/S, Office of the Secretary, Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT: Leroy C. Richie, Director, 8R, New York Regional Office, Federal Trade Commission, 2243–EB Federal Bldg., 26 Federal Plaza, New York, NY 10278; (212) 264–1207.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and accepted, subject to final approval by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

List of Subjects in 16 CFR Part 13

Life care homes, Trade practices.

In the matter of Christian Services International, Inc., a corporation; and Kenneth P. Berg, individually and as an officer of said corporation; File No. 782 3081. Agreement containing consent order to cease and desist.

The Federal Trade Commission having initiated an investigation of certain acts and practices of Christian Services International, Inc., a corporation, and Kenneth P. Berg, individually and as an officer of said corporation, and it now appearing that Christian Services International, Inc., a corporation, and Kenneth P. Berg, individually and as an officer of said corporation, hereinafter sometimes referred to as proposed respondents, are willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated.

It is hereby agreed by and between Christian Services International, Inc., by its duly authorized officer, and Kenneth P. Berg, individually and as an officer of said corporation, and their attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent Christian Services International, Inc. is a corporation organized, existing and doing business under and by virtue of the laws of the State of Missouri, with its offices and principal place of business located at 5809 W. 164th Street, Stilwell, Kansas 66085.

Proposed respondent Denneth P. Berg is an officer of said corporation. He formulates, directs and controls the policies, acts and practices of said corporation and his address is the same as that of said corporation.

2. proposed respondents admit all the jurisdictional facts set forth in the draft of complaints attached.

3. proposed respondents waive:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law;

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement; and

(d) Any claim under the Equal Access to Justice Act.

4. This agreement shall not become part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify the proposed respondents, in which event it will take such action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondents that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's Rules, the Commission may, without further notice to proposed respondents: (1) Issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. delivery by the U.S. Postal Service of the complaint and decision containing the agreed-to order to proposed respondents' address as stated in this agreement shall constitute service. Proposed respondents waive any right they may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondents have read the proposed complaint and order contemplated hereby. They understand that once the order has been issued, they will be required to file one or more compliance reports showing that they have fully complied with the order. Proposed respondents further understand that they may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

Order

For the purposes of this order, the following definitions shall apply:

1. "Business Day" shall mean any calendar day except Saturday, Sunday and the following business holidays: New Year's Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day and Christmas Day.

2. "Entrance Fee" shall mean money or other property transferred or promised to be transferred as consideration for one or more individuals becoming a resident or residents of a life care home pursuant to a life care contract. Such fee may be paid upon the initial entrance of a resident to a life care home or may be deferred.

3. "Life Care Contract" shall mean a contract between a resident and a provider to provide the resident, for the duration of such resident's life, living accommodations and related services in a life care home together with nursing care services, medical services and/or other health-related services, conditioned upon the transfer of an entrance fee to the provider, and which may be further conditioned upon the payment of periodic service fees.

4. "Life Care Home" shall mean the facility or facilities occupied, or planned to be occupied, by residents or prospective residents where a provider undertakes to provide living accommodations and services pursuant to a life care contract.

5. "Provider" shall mean the person, corporation, partnership, association or other legal entity which undertakes to provide residents with living accommodations and services pursuant to life care contracts.

6. "Resident" shall mean a person who has entered into a life care contract with a provider.

7. "Service Fee" shall mean a periodic fee in addition to the entrance fee

charge to a resident by a provider pursuant to a life care contract.

For purposes of this order, all required disclosures shall be made in a clear and conspicuous manner.

I

It is ordered, That respondent Christian Services International, Inc. ("CSI"), a corporation, its successors and assigns, and its officers, and respondent Kenneth P. Berg, individually and as an officer of such corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or any other device, in connection with the advertising, offering for sale, or sale of any life care contract, in or affecting commerce, as commerce is defined in the Federal Trade Commission Act, as amended, do forthwith cease and desist from:

1. Representing, directly or by implication, that any religious denomination, organization or group is affiliated with a provider of any life care home marketed by respondents, or is legally or morally responsible for the debts and commitments of any provider of a life care home marketed by respondents, unless such is the fact.

2. Representing, directly or by implication, that there is little or no financial risk involved in entering into a life care contract marketed by respondents.

3. Representing, directly or by implication, that any lender which holds a mortgage on a life care home marketed by respondents ensures the economic survival of the life care home covered by the mortgage, unless such is the fact.

4. Representing, directly or by implication, that service fees at life care homes marketed by respondents will never be increased, or that service fee increases will never exceed corresponding increases in Social Security benefits over equivalent periods of time, or that service fee increases will be limited by any other objective criteria, unless such is the fact.

5. Representing, directly or by implication, that any provider of a life care home marketed by respondents has established reserve funding which ensures financial ability to perform obligations to residents under its life care contract, unless such is the fact.

6. Failing to furnish each prospective resident, at least five business days prior to the execution of a life care contract, or at least five business days prior to the transfer of any money or other property to a provider by or on behalf of a prospective resident, whichever shall first occur, a disclosure statement which contains the following disclosures:

(a) A statement explaining any affiliation which the provider of the life care home marketed by respondents has with any religious denomination, organization or group, and the extent to which the affiliated religious denomination, organization or group will be responsible for the financial or contractual obligations of the provider; or, where no such affiliation exists, a statement that there is no affiliation with any religious denomination, organization or group.

(b) A statement that entering into a life care contract may involve significant financial risk, and that the prospective resident, before entering into the life care contract, should seek advice from an attorney, bankers or other financial adviser who is independent of respondents and the provider.

(c) A statement explaining that a resident's interest provided by the life care contract is subject and subordinate to any mortgages on the life care home, or the interests of other creditors occupying a preferred status, if such is the fact.

(d) A statement that service fees are subject to periodic increases, if such is the fact.

(e) A statement describing the provisions that have been made, if any, to provide reserve funding or security as an aid to the provider in the performance of its obligations under life care contracts, including, but not limited to, the establishment of escrow accounts, trusts, or reserve funds; and whether, and under what circumstances, such reserve funding or security may be waived or reduced by the provider, the mortgagee, or other parties; or, where no provision for reserve funding or security has been made, a statement that such does not exist.

(f) A statement listing all fees to which respondents or the operating divisions, subsidiaries or affiliates of the corporate respondent are or will be entitled to be paid pursuant to contract or contracts with the provider including, but not limited to, fees for consulting, architectural, construction supervisory, marketing and management services. Such statement shall describe the nature of the services rendered or to be rendered, the fee rates or percentages, and the trade names under which respondents perform such services.

(g) A statement listing the names and addresses of all professional services, firms, associations, trusts, partnerships or corporations in which respondents have, or which have in respondents, a ten percent or greater interest and which provide, or intend to provide, goods, leases or services to the provider of a value of $500 or more within any year, and a description of the goods, leases or services to the provider of a value of $500 or more within any year, and a description of the goods, leases or services and the cost or probable or anticipated cost thereof to the provider, or a statement that such cost cannot presently be estimated, if such is the fact.

(h) A statement describing any currently effective injunctive or restrictive order of a court of record, or any federal or state administrative order, to which respondents and/or the provider are subject, relating to the marketing, management or operation of, without limitation, a life care home, retirement home, home for the aged, nursing home or foster care facility. The statement shall set forth the date and nature of the order and identify the court or authority which issued it. The statement required herein need not include orders which do not materially affect the financial condition of the life care home being marketed, or affect respondents' ability to market, manage or operate said home.

(i) A statement describing briefly the material facts with respect to pending litigation to which respondents and/or the provider are a party, and any outstanding but unsatisfied judgments against respondents and/or the provider, involving the marketing, management or operation of any life care home. The statement required herein need not include disclosure of litigation or claims which, if adversely determined, would cause no material adverse change in the properties or financial condition of the life care home being marketed, or would cause no material adverse change in respondents' ability to market, manage or operate said home.

(j) A statement as to whether advance payments made by prospective residents as all or a portion of their entrance fees are set aside in escrow accounts with banks, trust companies or other escrow agents.

(k) A statement disclosing that revenues derived from entrance fees or service fees have been, or are intended to be, used in connection with ventures not directly related to the specific life care home in which the prospective purchaser may reside, if revenues are so used. The statement shall list the total amount of expenditures made or planned to be made in connection with such ventures.

7. Failing to furnish each prospective resident, at the time the disclosure

statement required by Paragraph 6 is furnished, at least the following financial information:

(a) An audited financial statement of the provider prepared by an independent certified public accountant, including a balance sheet as of the end of the most recent fiscal year and income statements for the three most recent fiscal years or such shorter period of time as the provider shall have been in existence. If the provider's fiscal year ended more than ninety (90) days prior to the contract date or date of transfer of money or other property, and audited financial statements for that fiscal year are not yet available, interim financial statements shall be included, but need not be certified.

(b) A development budget for any life care home in a planning, development or expansion stage. The budget shall consist of a statement of the anticipated source and application of the funds used or to be used in the purchase or construction of any facility or building which is planned or under development.

(c) Pro forma financial statements which shall include pro forma annual income statements and balance sheets of the provider for a period of not less than five fiscal years. The pro forma annual income statements shall include:

(i) A beginning cash balance consistent with the certified income statement required by subsection (a) of this paragraph or, if operations at the life care home have not commenced, consistent with the statement of anticipated source and application of funds required by subsection (b).

(ii) Anticipated earnings on cash reserves, if any.

(iii) Estimates of net receipts from entrance fees, other than entrance fees included in the statement of source and application of funds required by subsection (b), less estimated entrance fee refunds, if any. A description of the actuarial basis and method of calculation for the projection of entrance fee receipts shall be included.

(iv) An estimate of gifts or bequests if any are to be relied on to meet operating expenses.

(v) A projection of estimated income from fees and charges other than entrance fees, showing individual rates presently anticipated to be charged and including a description of the assumptions used for calculating the estimated occupancy rate of the life care home and the effect on the income of the life care home of government subsidies for health care services, if any, to be provided pursuant to the life care contracts.

(vi) A projection of estimated operating expenses of the provider of the life care home, including a description of the assumptions used in calculating the expenses, and separate allowances, if any, for the replacement of equipment and furnishings and anticipated major structural repairs or additions.

(vii) An estimate of annual payments of principal and interest required by any mortgage loan or other long-term financing.

In the treatment of entrance fees which are included in any of the financial statements required by this Paragraph an accounting method must be utilized which conforms to generally accepted accounting principles and which appropriately matches revenues to expenditures.

II

It is further ordered:

(a) That respondents deliver, by certified mail or in person, a copy of this order to all of their present or future salesmen and other employees who sell or, through personal contact or telephone communication with prospective residents, promote the sale of life care contracts, and to any advertising agency utilized by respondents.

(b) That respondents provide a form to each of the persons referred to in subparagraph (a) of this paragraph, to be returned to respondents, clearly affirming the intention of that person to be bound by and to conform his practices with the requirements of this order;

(c) That respondents inform in writing each of the persons in their employ referred to in subparagraph (a) of this paragraph that respondents are required by this order not to use, and shall not use, any such person to sell or to promote the sale of life care contracts unless that person complies with the provisions of this order.

III

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment relating to the marketing, management or operation of, without limitation, a life care home, retirement home, home for the aged, nursing home or foster care facility. In addition, for a period of ten (10) years from the date of service of this order, the respondent shall promptly notify the Commission of each affiliation with any new business or employment relating to the marketing, management or operation of a life care home, retirement home, home for the aged, nursing home or foster care facility. Each such notice shall include the respondent's new business address and a statement of the nature of the aforesaid business or employment in which the respondent is newly engaged as well as a description of respondent's duties and responsibilities in connection with the aforesaid business or employment. The expiration of the notice provision of this paragraph shall not affect any other obligation arising under this order.

IV

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

V

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions and subsidiaries.

VI

It is further ordered, That the respondents herein shall within sixty (60) days after the service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement to a proposed consent order from Christian Services International, Inc. ("CSI") and Kenneth P. Berg, its sole stockholder and chief executive officer.
